## AGGIE BRIEFS

Secretary Briscoe Co. Committee  
By Ray S. McEntire

### Egg Crates

These days of change bring about revelations that were never dreamed. Daily our habits are being changed to adopt our mode of living to that "All-Out Effort" to prosecute this war.

Every day materials are being placed on the vital war material list. Now the lowly egg crate has been classed as vital war material. There are six suggestions that will tend to prevent a bottleneck and keep egg crates circulating:

**Open cases carefully**—take care of the lid so that it will be available to protect the eggs on the next trip. A strip of wood is not enough.

**Use care in removing fillers**—they can be used again. By being careful when you take them out, you are preventing egg breakage.

**Replace flats and fillers**—in emptied cases. They are hard to obtain. Otherwise put them into a clean dry place. A wet, dirty filler may damage your next lot of fresh eggs.

**Don't drop cases**—they take nails and extra time to repair.

**Make every case go another trip**—if care could make every case go to market and back just one more trip, it would help overcome the shortage.

**Don't hoard cases**—remember there are poultry producers who have eggs to move with nothing to put them in. Let that extra case go back into circulation and there will be enough for everyone.

### Farm Shortages

Do you know where you're going to store your wheat this year? That's a question which every wheat farmer in Briscoe County must answer isn't going to be easy.

The wheat storage shortage is dangerously acute. Surveys indicate that total farm storage capacity on farms in the county at present will be inadequate to handle that part of the crop which must be stored on the farm. Additional farm storage units are being constructed, but still more will be needed.

In passing, the wheat marketing quota regulations provide that all excess volunteer above the allotment will be stored on the farm. With the large number of farms having excess volunteer wheat, several thousand bushels cannot be stored in commercial storage facilities—it has to be stored on the farm.

The USDA War Board is making every effort to get needed materials for construction of farm storage. Critical lumber shortages have held up considerable construction, but steps are being taken to break the bottleneck.

Farm storage construction is considered by the war board to be essential and approval of applications for construction permits will be recommended by the local board to the WPB.

### CARD OF THANKS

To thank you, our many kind friends, for your deepest sympathy and kindness shown us in the loss of our husband, father and brother, and for the many kind and encouraging words you have said. May God bless and keep you forever.

Mrs. T. J. Johnson  
Mr. and Mrs. W. E. Merrell & family  
Mr. and Mrs. H. B. Johnson  
Mr. and Mrs. W. E. Bush  
Mr. and Mrs. W. E. Ard  
Mr. and Mrs. W. Kirk & family

### 1925 STUDY CLUB ENDS YEAR

The Women's 1925 Study Club closed its year's work Wednesday afternoon in the home of Mrs. Tom Eomar.

The program leader was Mrs. Lemons.

Mrs. Wright discussed, "The Philosophy of Socrates, and the Socratic method of teaching—Urehead from The Philosophy of Plato".

Mrs. Coffee gave briefly accounts from the life of the poet Philosopher, Robert Browning and Herbert Spencer.

Mrs. Bundy presided at the business session, and at the close of the meeting presented the gavel to Mrs. Coffee, the new president, who adjourned the club until September.

## NEWS from the BOYS IN SERVICE

ORVAL L. GRAHAM, sends announcement of his graduation from the Victorville Army Flying School in California. He is a twin engine pilot ranked as Lieutenant of the Air Corps. He worked here two years ago and is a nephew of Charley Norrid, son of L. E. Graham, former commissioner.

LEN LEE, who is stationed at Corpus Christi, writes and we give you extracts from several letters. Under date of March 20: I received your letter and the wonderful box. We are still eating it and it sure is delish. I only get to go to town once every two weeks and that is on Saturday or Sunday. You can't imagine how busy I am. Every minute I'm not flying or in ground school I have to work navigation to keep up. Have been flying three hours at a stretch every day. I have just passed my 33 hour check, the first in my class or the one ahead, due to my previous flying. They think I am a hot pilot. Hope I can keep it up. The squadron I'm in has never had a fatality in 100,000 hours, so you see it is about the safest thing I know of. I am scheduled for night flying tonight. Some fun that with all the pretty lights down below. I saw Barney Bogan from Quitaque the other night. He is a yeoman.

April 3—I have been just too busy to write and just have a few minutes before I go fly. I have checked out of Primary Flying. Ground school is still taking every extra minute. Oh, yes, Mother, you said this was a lot harder for me than G. W. Well, his school wasn't anything like this one. We learn so much more navigation (by stars etc.) and we have to learn to talk with flags, lights, code and hand signs. Learn all about engines, guns, bombs, Jap ships and planes, etc. Ground school should be over in about 5 weeks and then I will have more time. I hope to get my commission from here, about August. I room with a former all stater from Breckenridge and another that has a Mercury Convertible. He has some oil wells too. It is the dickens that we don't have any time to use that car.

May 19—I wonder if it is as rainy there as it is here? It has been cloudy and damp for sometime and last night it rained like a water spout. However it doesn't matter what the weather does the next week I will fly just the same. You see I'm flying the little plane that stays on the ground all the time. It has instruments like a plane and acts just like one in the air. I moved back to the main station Friday. You asked if I did my own cooking where I lived. No they have halls and everything just like they do here. The only difference is that there are 2800 cadets here and only 200 out there. Do you still hear from G. W.?

I don't even look for nor expect a letter anymore. Is he still doing the same thing and does he expect to be sent anywhere soon? I have been looking for Riddell in all the classes that come in, I didn't know he had been sent to Florida.

### SCOUT NEWS

The scouts went to Lubbock Friday to attend the Boy Scout Circus. There were 18 boys from here to go. Alvin Redin, Claude Carpenter and J. T. Luke furnished the transportation. We wish to express our gratitude to these men.

We also want to thank Jimmie Webb who had special sacks made for our part in the blackout, which was to sandbag a door. The circus went off very smoothly. The field being a scene of activity all the time. For example the scouts built a town in 3 minutes. Erected a camp of seven tents, two signal towers, totempoles and fenced it in with post ropes in the short time of 5 minutes. The blackout was very successful. It had all kinds of activity going on at once. First Aid, signalling, bucket brigade, sandbagging gas mask distribution and home guard action. Scouts did all this.

This is one troop that intends to go to the boy Scout Circus next year Hitler or no Hitler.

## SPENCERS TO FRIONA SCHOOL

Pictured above are Mr. and Mrs. Jake Spencer, who have contracted to teach at Friona next year, where Mr. Spencer will be the principal of the school. Mrs. Spencer will teach one section of the Fifth grade. Friona is recognized as having one of the strongest school systems in that part of the state. There are 20 teachers in the school.

Jake and Mollie, as they are known here, have taught several years at Haylake. They will attend school this summer in Canyon and move to Friona in the fall.

## SMALL FARM AND RANCH OPERATORS GETTING USEFUL PLACE IN NATION'S ECONOMY

Small farm and ranch operators in West Texas are proving that they can contribute very materially to winning the war and at the same time help themselves to gain a permanently useful place in the nation's economy.

This was the point of a report on the war effort made this week by Claude C. Carpenter, county supervisor for the AFM Security Administration. He said this is particularly true of the low-income farm and ranch operators in Briscoe County.

Citing records compiled in Washington, the county supervisor said that of all the increases of principal foods required by the Department of Agriculture, low-income operators participating in the Farm Security program in the South and Southwest will produce from one-fourth to one-half of the total.

In Briscoe County, Mr. Carpenter said, the 1942 farm plans for Farm Security borrowers show that they have increased their gardens by 64 percent, their egg production by 2250 dozens, their milk and milk products by 20 percent and their hogs and other meat supplies by 30 percent.

"The Food for Freedom program," said Mr. Carpenter, "presents an opportunity for low-income farm families to participate in the war-winning program, and the Farm Security Administration's special Food for Freedom loan program enabled them to increase their operations to help feed this and the other United Nations during the war."

Farm Security's Food for Freedom loans, in addition to the regular rehabilitation loans," he continued "also enabled many farm families to make adjustments in accordance with feed resources, housing and equipment for handling the increased enterprises, and the increased poultry, livestock and garden programs."

Mr. Carpenter said his agency is warning its borrower-families against selling the products they may need at home for proper nutrition. This might be a temptation, he explained, because prices for these products may be higher than in the past several years.

"With sufficient financial and supervisory help, low-income farmers in Briscoe County and over the nation are proving that they can contribute an important share of the increased food production needed to win the war and write the peace. However, the FSA encourages its borrower-families to protect their own diets and health before marketing any of the produce they raise this year."

"This precaution is being taken," he concluded, "because each individual must safeguard his own life if we are to make this a nation of strong people."

### RED CROSS QUILTING

Red Cross quilting is in progress now at the home of Mrs. Carl Crow.

Anyone wishing to donate material or ticking for pillows for the Red Cross service, please let me know.

— Mrs. H. S. Sanders

## COLLECT SCRAP METAL AND PUT ON RIGHT OF WAY

An intensive campaign to collect scrap metal in this area and throughout the entire state to get it to steel mills where it is urgently needed now in the manufacture of steel for the nation's war effort is being launched by the Texas Highway Department, it is announced by A. J. Hamilton, local Maintenance Foreman for the Highway Department.

All persons living in unincorporated towns and in rural areas are urged to collect their scrap metal from their properties and deposit it on the right-of-way line along the state highways. Such scrap should not contain carbides, tin cans, or pieces too heavy to be loaded by hand. It will be picked up by State Highway Department trucks as they return to section warehouses evenings and then will be made available to the Government for shipment to mills.

District Engineer, S. C. McCarty of the Highway Department, has been instructed by the State Highway Engineer, D. C. Greer, to have the personnel in the field throughout his district, cooperate with local organizations in order to make the undertaking effective as quickly as possible. The scrap will be turned over to the Red Cross, the U.S.O., or the Boy Scouts in each area, which organizations will make it available to the Government.

Thomas L. Mullican, representative of the War Production Board in Texas, states that there is a large amount of scrap metals uncollected in this state. A number of the country's steel furnaces recently have had to close down due to the acute shortage of scrap. From 60% to 90% scrap is mixed with pig-iron to make steel, it is pointed out.

Donald N. Nelson, Chief of the War Production Board, declares that the winning or losing of the war may depend on our ability to collect and move the scrap metal to the mills.

It is expected that the campaign in this state will result in a large collection of the urgently needed scrap, which otherwise can not be readily obtained from outlying communities, farm, ranches and other properties.

"There is no doubt but that a great many tons of steel scrap can be collected in Texas in this manner. The Highway Department workers in the field will be on the lookout for the scrap metal deposited on the right-of-way lines of highways by citizens and will collect it in Highway trucks for shipment to mills from a central point in each area."

The shipment of scrap to mills has been retarded in the past by high freight rates according to Mr. Mullican of the W. P. B., but these have been substantially reduced and the Government is working to arrange further reductions in an effort to help get the much needed material to the foundries.

Mrs. Maurice Foust, Mrs. J. T. Luke and Mr. Blanton Garrison visited relatives in Farwell, New Mexico Tuesday. Mrs. Keltz Garrison and son returned home with them.

## Alexander Out For Clerks Office

### DISTRICT GOVERNOR PENDER GUEST AT LIONS CLUB

An almost 100% attendance greeted District Governor Pender, of Lubbock when he visited the Silverton Lions Wednesday noon. Lion Thatcher, a representative of Lions International accompanied Pender on his tour which will include every Lions Club in the District.

Pender, in a 30-minute talk, stressed the fact that in this war for the first time, organized Lionism is playing a great part in International Affairs. There are 46-00 Lions Clubs in the United States, and every one of them are working in direct harmony with the government for complete victory. "The time has passed," said Pender, "When Lions Clubs can consider themselves as Community Clubs. The President himself, the FBI, and the Army, Navy, and Marine Corps headquarters recognize the power and the allegiance of the Lions Clubs as a power for Victory". Pender went on to say that the cheapest, smallest thing a Lions Club could do was to lessen their efforts at this time. Men in service from Lions Clubs are banking strongly on the church and the Lions Clubs to make it easier for them to return to civilian status.

The Silverton Lions Club have, in the two years they have been organized, worked quietly, and sometimes not so smoothly. In that two years there have been many things accomplished in this community easier and better than they could have been without organization. The membership is small, but it consists of men who are willing to give not only a lot of their money but of their time and service.

Next week a good program is assured with Bert Douglas having charge of a program on "Highway Safety". You are an invited guest.

### THOMAS JEFFERSON JOHNSON

Thomas Jefferson Johnson was born May 11, 1872 at Llano County, Texas and departed this life at Wichita Falls, Texas May 16th, 1942 at the age of 70 years and five days.

He sent his early life in Llano County and in 1912 moved to West Texas, where he made his home.

He was united in marriage to Miss Hallie Drace, March 24, 1902. To this union five children were born. Three of whom are living, Mrs. H. B. Johnson of Floydada; Mrs. W. E. Merrell of Silverton; and Mrs. William Bush of Phoenix, Arizona. He was preceded in death by twin sons, T. J. and J. T. who died in infancy.

T. J. Johnson obeyed a faithful member until he was stricken by bad health.

Besides his immediate family he is survived by eight grandchildren, one brother, Madison Johnson of Burnett, Texas; and three sisters, Mrs. Carrie Ard of Amarillo; Mrs. Essie Kirk of Barnhart; and Mrs. Bessie Kirk of Bertram, Texas.

Funeral services were held at the Church of Christ in Silverton Monday, May 18th.

The last rites were spoken by Maurice Tisdal, Pastor of the Church of Christ at Petersburg, Texas.

Pallbearers were: R. M. Hill, John Taylor, W. A. Merrell, Walter Waters, Elmer Tibbett, and Emmett Cross.

### CARD OF THANKS

We wish to take this means of expressing our appreciation to our friends for their kindness and beautiful floral offering during the illness and death of our mother.

May God's richest blessings be bestowed upon each of you.  
Mr. & Mrs. Joe Baker & family  
Mr. & Mrs. Jesse A. Davis & family  
Mr. & Mrs. Jim Baker & family  
Mr. & Mrs. John Baker  
Mr. & Mrs. Sam Hunt  
Mr. & Mrs. Bill Butcher

## WORK WILL START SOON ON NORTH 207 IN FLOYD COUNTY

After all Highway 207 in Floyd county is to be completed this summer through the county to the Briscoe county line.

Orders came through the past week approving the construction of the last six miles of the hard-surfaced highway from a mile north South Plains to the county boundary. Previously the prospect for the road had appeared dubious, following restrictions of the war board on release of materials for roads not considered necessary for the prosecution of the war. It was explained this week, however, that since little or no critical material is involved in this piece of construction, it had been given the green signal.

Resident Engineer R. T. Roane said he did not know exactly when the contractor would get on the job here but it is not many days away. Plains Construction company of Pampa has the contract, which will be done on contract basis and will not involve WPA labor.

### WPA Job Slowed Down

An insufficient number of WPA laborers to carry on efficiently on the six-mile stretch of road thru South Plains from 12 miles north of Floydada was indicated this week. Laborers on this work, sponsored by the State Highway department, were reduced considerably when the grasshopper poison bait demand grew so big as to call for more mixers. Considering the labor available, however, the highway department is getting much work done on the road. Strenuous effort to complete the job by July 1 will be made.

Hope now that approval can be obtained for a contract letting in Briscoe county on Route 207 from Floyd county line to Silverton was expressed this week by local officials, since the same type of materials as approved for construction in this county are needed. The distance from the county line to Silverton is approximately nine miles.—Floyd County Hesperian.

### TROY WAYNE VAUGHAN WINS FFA REGISTERED HEIFER

Troy Wayne Vaughan, who scored a total of 2783 points in the Silverton FFA Chapter Improvement Contest, was presented with first prize, a registered Jersey heifer. The heifer is from high quality stock with high production records on her ancestors. Each year the chapter presents prizes to the first four places in the Improvement Contest.

Junior Fanning scored 2459 points to win second place a registered Hampshire gilt. Earnest Fanning placed third with 2014 points to win a registered Poland China Gilt. Rex Holt with 1688 points to his credit took fourth place for a grade purebred Poland China gilt. Gene Dickenson ran a close fifth with 1664 points.

All students in the vocational agriculture classes are entered in the contest and earn points by performing supervised practice jobs on the farm and by taking part in leadership activities in the FFA Chapter.

Most of the students have started their work on the contest for next year and are looking forward to scoring as high as possible.

### SEANEY — GARRISON

Miss Donaleta Seaney and Mr. Pascal Garrison were united in marriage Saturday at 9:00 P. M. in Spur at the home of Rev. H. L. Burnam. The bride is the daughter of Mr. and Mrs. G. W. Seaney, and was a member of the 1941 graduating class here. Donaleta attended Draughon's Business College in Lubbock the past winter and now is employed in the Post Office.

The groom is the son of Mr. and Mrs. Gabe Garrison, was a member of the 1940 graduating class and attended Texas Tech for two years. Pascal is now employed at the AAA office.

The couple will be at home in Silverton.

J. W. Foust spent the week end with his parents, Mr. and Mrs. J. R. Foust.

Miss Lela Mae Persons of Quitaque who's attending school in Amarillo spent the week end as a guest of Mr. and Mrs. Maurice Foust.

R. G. ALEXANDER

sort of back seat, due to the war and all. I will of course be unable to make a real house-to-house canvass because of conditions, but I do not believe that home offices should be forgotten entirely this year. I shall try to see just as many of you folks as I possibly can. As to my qualifications—I have worked a great deal in clerical work in the court house here and assisted my father several years as Clerk of Hall County. There is no phase of the office work that I cannot handle, and if elected I promise to render faithful service, and in a modern efficient way.

If you can see fit, I shall appreciate your influence in the campaign, and your vote at the Democratic Primary, July 25.

Yours sincerely,  
R. G. Alexander

### COUNTY AGENT NOTES

By Lem Weaver

The Grasshoppers are still hatching from various checks that have been made 40 hoppers to the square yard will destroy the plant growth. Check yours and see how many you have. Most of the hoppers are near the turn rows now with a little work at the right time would save a lot of work when they begin to move. There are not enough sprayers to go around but with every one working together a lot can be done with them. You are hurting yourself to keep a sprayer longer than you need it or not to keep it busy when you have it. The hoppers are the kind that migrate and your neighbors hopper can move over on your land and eat your crops. If you will follow directions on the sacks of poison you will not kill cattle. We need the sacks returned to let the next man have them. This will save your stock. I have listed below people that have poisoned. Ask them what kind of kill that they got.

C. M. Strickland, Silverton  
Grady Wimberly, Silverton  
John A. Johnson, Quitaque  
W. O. Williamson, Gasoline

YOU ARE READING it in a lot of papers and hearing a lot of people say that the war will be over in six months or a year. Well, don't kid yourself. This war, on our part hasn't even started.

OUTSIDE OF THE fact we are building lost of planes and guns, what possible reason can you have for thinking the war will soon be over. Face facts. Those facts are WE HAVE LOST all the major engagements and WE HAVE WON a few minor naval and aerial battles. Our boys have been outnumbered in every encounter and they have gone up against superior equipment.

WE ARE GOING TO win the war. Of that there is no doubt.

That is why it won't be over soon. One thing that is going to make it a long war is this very idea of some folks that it is going to be short. It will be over quicker when we steel ourselves to the fact that it is going to take every man full time, in thinking and in working, to do it.

WE HAVEN'T EVEN started enough to make a ripple compared to what we are going to do. We haven't even made our war effort felt MUCH here at home, let alone in Tokyo and Berlin. When we have won, we shall have scars to show for it. There will be many empty business houses—and there will be many empty chairs in Briscoe County homes.

REGARDLESS OF THE things Mr. Hershey can think of about dependants and leaving the men at home to care for them, it won't work for long. With a bomber off the line every 8 minutes and a tank off every 10 it's going to take a lot more than three or four million men to run them. And so a bunch of you guys might as well start getting ready. That doesn't apply to me cause I am an unconscious injector. I inject to getting shot at.

THERE IS ONE consolation to being a pessimist. You feel so much better when you figure wrong.

ONE OF THE most tragic accidents of the war occurred this week near Wellington when the famous Colonel Brown blew out three casings. He called Papa H. Roy long distance (collect) and had him bring the casings from his car.

IN THIS da of cnsvrtion wht wd b th matr with cnsvrvg on th us f ltrs on th tprtr? U cn't gt tprtrns anmr U no and it lks like it wd b th smrt thing to do. It wd sve, nt onl on th ltrs, bt als on th ribn and th nk. It wd b almat as esy to red as if al th ltrs wre prntd.

L. D. RATLIFF, came in the office the other day. I had never met him before but I wrote to him and told him that I was a hell-for-leather card printer. Well he walked in and introduced himself as the hellenetic-fer-leather prosecuting attorney I ever saw. I talked to him for an hour and not once did he tell me how well he could ride. He has that advantage over his opponent. That Hamilton and his cowboy complex. . . it slays me.

BARBARA IS BACK on the job as news gatherer. I'm not bragging but she is just about the best there is at that job. She can get news out of people that don't even know that anything has happened to them. This is one of those weeks, she says when folks just didn't go anywhere. Personally, I thought there was a pretty nice bunch of news on her page.

COMES UP THE case of Honest John Hutchison and his skinned nose. He came around to tell me about it to try to beat his wife to the draw so as to speak. He told me how it really happened but he wanted to check with me on the story he told his wife. It is probably the first casualty since the rationing of sugar. He has two big long scratches alongside and including his nose. Down at Bains

the other day he tried to get the second spoonful of sugar and from what he says the hashers were ready for just some such move on his part. While one held him the other scratched him. They defended the honor of the sugar bowl with the same old enthusiasm that the old time Texas gal just defended her honor. However that may be, he has the scratches, didn't get the sugar, is in the dog house with his wife, and has only one thing to be thankful for—that they weren't using hat pins as they did in the good old days when sugar was a bi-product and honor was the real thing.

HERE'S ANOTHER ONE of those "FDR and Heaven" yars and it isn't bad: F. D. R. had arrived at the ultimate destination of all good New Dealers and St. Peter asked him how he liked Heaven. "Well," said Franklin, "The place is OK, but your organization is bad." And so St. Peter handed him the plan of organization for the Golden City and asked him to draw up plans as he would like to see things. A few days later FDR submitted his plans to the old Saint and asked him what he thought of the changes he had made. St. Peter examined them at great length. Finally, he turned to FDR and said, "Well, everything seems to be in good order, but I don't think God is going to like it when he finds he is Vice-President."

RIGHT NOW, I figure I have ran my course for the week. The boy just called that he is bringing all his money to town for war stamps. And will I please stop the traffic so he can cross the highway.

ABOUT PAT'S ARM "There have been so many conflicting stories about Pat that I'll send a little note for you so you can put a piece in the paper. The first week we were here they couldn't do anything to his arm on account of hemorrhages and swelling. The 7th day they took him to the operating room and drew off the fluid and stretched his arm to attempt to pull it into place. He lay with weights on it for five days and Monday they made an open incision, put the bones to place, sewed it up and put it in a cast.

The attempt to pull it together was unsuccessful because a muscle was between the bones which the X-ray did not show.

Sorry to write in such a mess but have to hurry.

Pat is improving now and probably can be brought home in 10 days or two weeks. You write your article to suit yourself."

Note—There is no way an editor can improve on the above story.—R. H.

**NOTICE**

Any girl that is between the ages of 10 and 14, who would be interested in Girl Scout work during the summer, be at the Home Economics building Wednesday evening June 3rd at 5 o'clock.

In an effort to revive interest in a rodeo, Jake Hcnea went to Lamb County Wednesday and returned with Jimmy Dell Blackwell, who will also face a theft charge while here.

Honored with an invitation to speak to the Brotherhood of Baptist Temple in Houston recently, your columnist declared on that occasion:

One result of the crisis with which we now are confronted is that religion is coming back into its own—or rather, more accurately, because religion has

never been away: men are coming back to religion.

They are returning to the faith of their fathers and mothers and are singing the hymns they knew in childhood: "On Jordan's stormy banks I stand"; and "It's the old-time religion" and "Onward, Christian soldiers, marching as to war, with the cross of Jesus going on before."

This is true because Christianity speaks to the hearts of men. It consoles troubled minds and wounded spirits.

And even in the darkest hour of individual loss and personal grief, it offers and unshakable hope thru all eternity. For do we not have the promise, "I am with you always—even unto the end of the world?"

And so in the fierce fires of war, there is being burned away the dross of selfishness and materialism, leaving the pure gold patriotism, service to others, and devotion to God.

There has been some controversy as to what the first name of Captain King of Texas was. (He was at the head of a force of Texans who were slaughtered before the capture of Goliad by its subsequent massacre). Whether the first name of that warrior was Amon or Aaran, Texas has a new Captain King now—Capt. Tom King, former State Auditor, and perhaps the biggest man in Uncle Sam's fighting forces: six feet four and a half and weighing around 260. King received his commission last week in the Army Air Force and immediately reported for duty.

**From where I sit . . .**

by Joe Marsh

Every Friday night a bunch of us fellows get together over at Bill Webster's place. We wouldn't miss those weekly get-togethers for anything.

There are seven in the group—Bill Webster, Judge Cunningham, Pete Swanson, Old Doc McGinnis the dentist, and young Doc Mitchell the M.D., the government man Bob Newcomb, and myself.

We don't play cards. We don't sing or carry on.

We just sit quietly and talk—and drink a glass or two of beer.

I guess we discuss just about everything under the sun—politics, business, family affairs, music, farming, hunting, fishing, and what not.

But mostly we like to chew the fat about life's experience and a man's philosophy in these times.

To sort of help out the conversation, we've found mellow beer particularly relaxing. Every one of us likes the tangy taste of beer . . . and now and then Judge Cunningham insists on ale for everybody.

You mightn't think that just settin' and talkin' would be so much fun. But it is. Particularly when a man begins to get around to the age of reason. Like us.

And it's wonderful how a few glasses of good beer help bring out good talk and good sense when men get together. There's something peaceful and friendly and human about beer that brings out the best in a man.

They call beer the "beverage of moderation." That "moderation" idea is good philosophy . . . maybe that's why good beer and good fellowship go together so well.

Seems to me there ought to be more of this quiet talk over a glass of beer. It sure straightens out a man in his thinking.

Anyhow, men ought to get together and be friends. That's the way we were made. Why not try it more often—all of you?

Joe Marsh

In lighter vein: Have you men of middle age heard of the new 5-B classification? It's Bald, Bridgework, Bifocals, Belly and Bunions.

An explorer who was asked to name the bravest man he had ever

known said, "It was the chap who took a taxi to the bankruptcy court and invited the driver in as a creditor."

And as a slogan to win the war how about the one a Gladewater man suggested: "Stop yapping and start scrapping?"

And equally concise was the Taft darkey who looked over the questionnaire with its many blank spaces and wrote just one line: "When you're ready, so is I!"

Newspapers give freely and gladly of their space for the Red Cross, Salvation Army, U. S. O., War Bonds, clean-up campaigns, Boy Scouts, church and school activities—in other words, they are always constructive. This suggestion by the Sulphur Springs News-Telegram editor is worthy of consideration: . . .

"They say time about is far away. So the next time you are prone to criticize 'the editor,' why not do as he has done so often for you—overlook his faults and try to bring out something good about him? If you can't find any good, then do as he does for you—just 'make up' something."

## LONG MAY HER PERMANENT WAVE!

**HE:** Hello... that you, Helen? Listen, I forgot to tell you to send the car over for greasing and an oil change.

**SHE:** Oh, all right Bob, but what about the tires and the battery and all the other things it might need?

**HE:** Right... everything should be attended to. Gosh!... can't you take some responsibility for the car?

**SHE:** All right, smarty... I have taken the responsibility. I joined the Once-a-Week Club today.

**HE:** Great Caesar's ghost! Another club! Didn't we just agree last night to cut out unnecessary expenses?

**SHE:** That's exactly what we are doing. This is a club without any dues, fees or anything.

**HE:** I'm listening... proceed with caution!

**SHE:** Well, you know that nice Conoco station over on Myrtle Street? I went in there this morning and Mr. Blevins, the Mileage Merchant, told me he would go over our car every Thursday morning; check the tires, the battery, water... in fact, everything... and if he saw anything needed, he would write it down for me.

**HE:** Atta girl! This war will make a business woman out of you yet!

**SHE:** Oh, yeah? Well, I may be a business woman, my dear, but I'm going to get a permanent this afternoon just to prove I'm still a female... and the price will be charged up to the extra life of our car and the savings we're going to have because of that Conoco Once-a-Week Club.

Pick up your phone or drive by and tell your Conoco Mileage Merchant to let you in on his Once-a-Week Club. Ask him about changing to his Conoco Nth motor oil, to give your engine the great big change to OIL-PLATING. Continental Oil Company

### FOR THE DURATION of your car

Don't depend on spasmodic and hurried stops for gasoline to have your tires and car checked. Join my ONCE-A-WEEK CLUB. Choose one day each week to bring in your car. I will check and properly inflate your tires, check oil, radiator, and battery. I will look for and report anything beyond this that appears to need attention. I will keep a careful record of greasing and oil change and remind you when these services are needed. I am here to help you get the maximum service and life from your car at the least possible cost and trouble to you.

*Your Mileage Merchant*

**Antelope Flat News**  
By Lola Mae Turner

Mr. and Mrs. Richard Ford and sons and C. Henry Ford of Alvin visited their sister, Mrs. Bill Eden and family this week.

Mr. S. A. James made a business trip to Amarillo Tuesday.

Eugene Gipson of Brice has been visiting her sister Mrs. Bertie Sanderson this week.

Mr. and Mrs. Bill Miller and daughters and son are visiting in Arizona. Lynn Miller is visiting her grandmother in Tulsa.

Miss Emma Bullock, Bode and Joe Bullock returned Saturday. After a few days visit at Fort Worth.

Mr. and Mrs. J. B. Diamond and family of Quail visited in the Dean home Sunday.

Jimmy Lee Diamond and Noma Turner of Quail visited Lola Mae Turner this week.

Roy Waldrop is visiting his parents Mr. and Mrs. L. L. Waldrop.

Mr. and Mrs. C. C. Brown visited friends and relatives at Wellington Sunday.

**Hot Chocolate**

3 squares chocolate  
1/2 cup cold water

Stir over low fire until melted and smooth. Add 1/2 cup sugar and pinch of salt. Stir five minutes over a low fire. Cool. When cool, add 1/2 cup cream whipped. Add 1 teaspoon vanilla. This may be kept in ice box several days. To serve put 1 generous spoonful in a cup and add hot milk.

**Your Dime's In The Army Now!**

**MEMORIAL DAY DINNER BY GARDEN CLUB**

The Garden Club will hold their annual Memorial Day Dinner at the Lions Den, Saturday, May 30, which is Memorial Day. For several years the ladies have given this dinner and the proceeds go to the Cemetery Fund. The ladies charge 50c for the meal and they donate all the things necessary for it.

Whether or not you have loved ones in the Silverton Cemetery, you will probably be glad to eat dinner with the ladies.

Jake Honea made a quick trip to Wichita Falls last week and returned with Paul Kreider, who will be a guest of the county for a while. Jake says that in spite of Kreider's supposed faults, that they are agreed on one thing, Hitler. Kreider was born in old Russia proper and came to this country when he was about ten years old.

**THOMAS FAMILY HAVE INTERESTING TRIP**

Mr. and Mrs. Perry Thomas, Jr. returned Monday after a very interesting trip to Corpus Christi and other points east and south. While there they visited an aunt, Mrs. Maud Savage and a nephew Richard Swenson at Woodsboro. Miss Merle Swenson returned with them and will probably attend school here next year. Miss Margaret Thomas accompanied them as far as Knox City where she stopped with a brother, Walter. She will spend the summer with him.

Perry did a bit of fishing near Corpus and caught some fish so big that they should have gotten away. So big that he says he didn't even have to exaggerate. Perry says crops in that vicinity are very poor from lack of rain.

**SHYING AWAY FROM SUGAR**

**Broiled Ham Spiced Honey Apricot Glaze**  
1-inch thick ham slice  
3 cups canned apricots  
1/2 cup honey  
1/2 teaspoon cloves  
1/2 teaspoon allspice  
1/2 teaspoon cinnamon

Wipe meat with a damp cloth. Drain apricots. Place meat on a broiler rack allowing three inches between the top of the meat and source of heat, if possible. Sprinkle with spices and cook until browned through, basting with the honey occasionally. When brown, turn. Sprinkle other side with remaining spices and continue cooking, basting occasionally with remaining honey.

**Corn Muffins**

3/4 cup flour  
1 1/4 teaspoons baking powder  
1/2 teaspoon salt  
1-3 cup corn meal  
1/4 cup sliced apple  
1 egg, well beaten  
1-3 cup milk  
1/4 cup honey  
3 tablespoons shortening, melted

Sift flour once, measure, add baking powder and salt, and sift again. Add corn meal. Wash, pare and cut apple into eights. Remove core and cut crosswise in very thin slices. Combine egg, milk, honey and shortening. Add all at once to flour-corn meal mixture, stirring only enough to dampen all flour. Fold in apple. Bake in well-greased 2-inch muffin pans in hot oven (400) twenty minutes, or until done. Approximate yield: 8-12 muffins.

**Jam or Jelly Pudding (No Sugar)**

Soak slices of bread in milk until they are soft, or use dry cake. Place a layer in a greased casserole. Sprinkle each layer with a few raisins and dot over with any kind of jam or jelly, and bits of butter. Alternate till dish is full.

Beat 1 egg slightly and mix it with 1 cup milk. Pour over bread and bake in a 350 degree Fahrenheit oven about thirty-five minutes. Serve warm.

This is a sugarless dessert. This is excellent dessert for children and may be varied to make a dish of excellent flavor if strawberry or orange jams are used.

**Francis Locals**

The Helping Hand Club met with Mrs. W. C. Roberson Thursday. There were fifteen members present with one visitor, Mrs.

**DO YOU SEE YOURSELF AS OTHERS SEE YOU??**

Each time, after dressing, and as you are ready to "go out", you take a last minute peek in the mirror just to make sure that everything is right . . . and the glass shows you a well-groomed face, well-kept hair and a lovely complexion.

And just what do your clothes show? Are they sparkling clean and fresh? Well pressed and perfect fitting?

Remember that your clothes are as important to your appearance as your face and hair. Remember too, that our exclusive use of CLEARSTONE, and our moderate prices make it possible for your clothes always to be lovely, too.

Let us make your NICE things NICER . . . and what is just as important, longer wearing too!

**ONE DAY SERVICE** — on all garments brought in before 10:00 A. M.

**Buy Coal Now**

We will have another car of good Calumet coal on track in a few days.

It's patriotic to hoard coal and the government is urging you to buy your next winter's coal now, due to transportation difficulties. Let's co-operate.

You can save \$1.00 per ton by taking it direct from the car.

SILVERTON CO-OP.

**One Farmer to Another:**

Panhandle Products are made especially for Panhandle people—A rugged product—, built for rugged, hard working Texans. Phone us your needs now for oil, gasoline and fuel oil.

We carry a full line of Wes.Tex Stock and Poultry Feeds and Also have some very good Sudan Seed!

GET YOUR COTTON SEED HERE

**Body & Fender Repair**

If you are driving around with a bunged up fender because you can't get a new one, bring it down to our shop. We have first rate equipment and a real body and fender expert. We'd just like to point out some of the wrecked fenders (and whole bodies for that matter) that we have repaired. Harvest will be here too, in a few weeks. Is your pickup ready for the job? And your combine motor? Let us help you get your harvest equipment ready for an efficient harvest run.

Our guarantee is the same as always—"We guarantee to save you money". Try us out.

**Bomar's One-Stop**

Raymond Bomar, Manager

**TO THE PEOPLE OF BRISCOE COUNTY**

Please accept my sincere thanks for your political courtesies and all favors of the past, and permit me to express my deep appreciation for your splendid cooperation with the District Court in all its functions since I have been your District Judge. It has been a real pleasure knowing and working with the people of this county.

It is my happy privilege to be a candidate without an opponent, but, I shall appreciate all your votes nevertheless.

Sincerely,

ALTON B. CHAPMAN
