Volume XXXV Number 7

AGGIE BRIEFS

Secretary Briscoe Co. Committee
By Ray S. McEntire

The loan rate for wheat has been set at \$1.09 for number two wheat for Briscoe County. Number one will bring \$1.10; number three, \$1.07; number four, \$1.04; number five, \$1.01. Protein premiums of one cent will be paid for 14.0 to 14.9 percent; two cents for 15.0 to 15.9 percent; three cents for 16.0 percent and over.

Food For Freedom

One problem which must be solved is that of labor to work the crops. USDA War Boards have been instructed to keep a close watch on local labor situations and to take action immediately when it is necessary to keep the Food For Freedom production line moving.

Slap A Jap

Are you buying a stake in America? Are you spending just as much as you can on war bonds and stamps? Or, are you still "living as usual" as far as your daily habits are concerned?

Buy Bonds

Eggs cost around \$2 per dozen but before the war they sold for 30 cents. Coffee, and that's real coffee, and that's real coffee, can be had for \$8 per pound. Chickens cost \$5, steak \$1.50 per pound, pork \$2.20 per pound, and rabbit \$4.40. There's no sugar at any price, but butter is plentiful at \$2 per pound. Where? Those are some of the conditions in France. Seems like freedom from Nazism means freedom hunger.

Lick The Axis

It couldn't have been said better! Secretary Wickard said: "There is one sacrifice we don't want anyone to have to make. That is the sacrifice some young men in the armed forces may have to make because you or I don't do our part in this production job."

Food For Freedom

Some of us may never be in there with a gun. But we'll be behind the man who is behind the gun.

Lick A Stamp And Lick A Jap

Some cotton farmers have not liked their 1941 cotton production. Credit will not be given for the production until such a report is made. Too, your check may be delayed until the report is made.

USDA

Farm buildings costing more than \$1,000 and dwellings costing more than \$500 have been prohibited by the War Production Board unless they are considered essential.

CIP

The hail storms have reminded a few of us that crops of cotton and wheat may be destroyed within a few minutes time. Those farmers having cotton and wheat insurance don't get so nervous when thunder clouds gather.

COUNTY AGENT NOTES

The government is purchasing large numbers of eggs to ship to our partners. Most of our hens are laying good, but an egg not created properly after it is laid is no good. Gather eggs often and keep them clean. Our country needs eggs. Most of us at this time are producing fertile at a rate to our self and to the people that buy them. If you have several roosters on your place, it will cost you from 25c to 40c to feed them the next 100 days. This is a case that it will cost the producer to produce a low quality product; if he or she gets the same price for the eggs. Eggs should be gathered at least twice a day more if at all possible. After the eggs are gathered they should be put in a cool place and allowed to stay there until the following day before they are put in a case. Eggs should be gathered in a wire basket or a bucket with plenty of holes punched in it. This will allow the air to go through them and lower the temperature. If this temperature is not lowered and the eggs are not fertile the eggs will start incubation in a short time. Most of the poultry people are heavier stocked than usual. Most of our poultry diseases are caused by too many chickens to the house. A range shelter can be built with hog wire and bundles of cover. This will make it possible to raise your young pullets away from the old hens and have them free of Intestinal Parasites and mites. This is something for all of us to think about. The government has a price set on eggs until the spring of 1943. We need them to produce this fall.

NEWS from the BOYS IN SERVICE

LIEUT. WILSON A. Chapman, of Quitaque, received the award of the Purple Heart recently for gallantry in action in Java. He is with the Army Air Corps. His mother, who runs a hotel in Quitaque, received word of her son's award Wednesday of this week.

RONALD ANDERSON, is spending a few days with his parents, Mr. and Mrs. T. L. Anderson. He will report for active duty the Navy the latter part of this week. He is a civil engineer, and will be commissioned as Ensign.

HENRY JACKSON, a member of the Naval Reserve reported for active duty Thursday. He enlisted as a construction worker.

HOMER SANDERS, JR., who has been in Hawaii for several months, has arrived back in the States and is on his way to Fort Lee, Virginia where he will go into an intensive training course in officers training. He called his father by phone from a small island off San Francisco where he is stationed temporarily. He is well and glad to be back nearer home but will not receive a furlough to Silverton.

JAMES L. ALLRED reports for duty with the Navy Friday of this week. He has transferred to the Air Corps but must report on his first enlistment as a construction hand. He still hopes for a transfer to the Air Corps.

HARLEY REDIN received his B. A. degree Monday. He lacks a few hours in his Civilian Pilots Training and then will be ready for induction into the Naval Air Corps. He has been enlisted for about four months.

WILLIAM A. SIMMONS, son of Mr. and Mrs. C. A. Simmons has just been promoted to Private First Class.

Pfc. Simmons, who is a graduate of the Silverton High School is with the 500th School Squadron at the large advanced twin-engine flying school at Lubbock.

An assistant crew chief and mechanic and aircraft armorer, he has been in the Air Corps since December 9, 1941.

LEN PERKINS WRITES: Well we are still at the same old grind. Day in and day out. We all went swimming to day. We were supposed to swim 100 yds. and of course I failed. We have a 10 mile hike tomorrow, and then I guess we will rest for the week. After inspection Saturday I went to Ocala, Florida for the week end. They have a place out there they call Silver Springs. Sure is a beautiful place. We went boat riding in glass bottom boats. You could see fish of every kind and shape. I sure did want to go fishing but they don't allow it there. That is the place the last Tarzan picture. It is sure everything you see in the picture.

What kind of a wheat crop will there be up there this harvest. I hope they make a good one. I wish I was there to help gather it, but I have a bigger job to help do. I hope it don't take long to do it. I was out with the 143rd Infantry the other day. They killed a rattle snake about 8 feet long and it had 26 rattlers, he was the largest I had ever seen. They have all kinds of snakes in this country and most every kind of insect you can think of.

Well I guess I had better close for this time. Tell all the folks hello.

Yours,
Len Perkins

Mrs. Eunice Hutson left Wednesday for Starke, Florida, where she will join her husband who is in the Medical Corps at Camp Blanding, Fla.

Miss Sadie Summers is here with her parents Mr. and Mrs. M. K. Summers. She returned Saturday and plans to spend most of the summer.

Darrell Waddell of Petersburg is visiting his mother Mrs. Elmer Stinson.

Government Limits Charge Accounts

WHEAT CROP MAY BE FINE —IT MAY BE POOR

Conflicting reports from many farmers make it impossible for us to make any prediction on the '42 wheat crop. Some claim their wheat will go over big this year—others say too little rain, or too much hail, or too many grasshoppers and what have you. That in addition to the regular hazards that come just a few days before the combines move into the field. One thing is almost a certainty however, and that is that the crop will be hard to harvest. Implement dealers report that the sale of repairs is going rather slow. That is sure to slow up the harvest because implement dealers this year, just can't guarantee to deliver parts right on the dot because of tie-ups in transportation and other war time problems.

Labor in itself will be quite a problem as most of the town boys, who ordinarily haul wheat and run combines at harvest are leaving for war plants and higher wages. Many a farmer will be forced to get his entire crew out of his own family. Tires in themselves, are enough of a problem without the other worries. The rationing board here is requesting that more tires be released in Briscoe County, for use by farmers in hauling wheat.

After some delay because of asphalt shortage, the Barnhill Construction Company is again hauling gravel and the highway topping will be started as soon as the asphalt arrives which should be within a few days.

HIGHWAY COMPLETION IS ASSURED

All base construction and caliche spreading has been completed and the "hot top" is all that is needed to complete the gap to Tullia, some fifteen miles. With civilian travel soon to be restricted even more, it is expected that the highway will have a high value as a short cut east-west military highway.

Ruling Already In Effect To Hold Merchants Responsible For Restriction Of Credit

Stiff regulations controlling the installment purchases, of nearly every article in common use in the American home were issued recently by the Federal Reserve Board, which also decreed that ordinary articles must be paid up quickly.

Effective May 5, the regulations were made in compliance with President Roosevelt's plea that people pay off their bills and stay out of debt.

Charge accounts must be paid by the 10th day of the second month following the purchase, but no down payment is required. For instance, an article bought any day up to the end of this month must be paid for by July 10. That date also is the deadline for charged articles on the list which were bought before May 5.

It is absolutely necessary that all customers comply with the regulations. If a merchant does not stop an account, but lets it run longer than the time specified his license is revoked, his merchandise is cut off, and is fined up to \$5000.

The charge account rule allows between 40 and 70 days for payment, according to the date of purchase.

Any person buying a listed item on the installment must pay 1-3 down and the balance in 12 months except that automobiles may be bought 1-3 down and 15 months to pay and furniture and pianos 1-5 down and 12 months to pay. Regardless of total price, payments must be at least \$5 per month.

The restricted list includes everything from household equipment to wearing apparel.

NOTICE

Rev. Peter Arnold of Plainview will preach at the First Baptist Church Sunday June 7th. The public is cordially invited and the membership is urged to be present.

JUNIOR RED CROSS

Boys and girls of the elementary and secondary schools are helping to meet the needs of our country at war. Enrollment in the American Junior Red Cross enables boys and girls to be partners with adults in humanitarian service, provides learning experiences that are desirable in their social growth and development.

The Junior organization of the American Red Cross possesses resources which enable it to be a medium of patriotic service for young citizens in the schools although the American Red Cross is supported by voluntary contributions, it enjoys a governmental status and is an integral part of the Government of the United States.

The President of the United States is ex-officio President of the American Red Cross.

The President, under the charter granted by the Congress, is required to appoint in addition to the chairman of the central committee, five members representing the Departments of state Treasury, War, Navy, and Justice.

All financial transactions of the American Red Cross, including its Junior Red Cross, are audited by a War Department Commission.

An annual report is submitted to the Congress and furnished to anyone desiring it.

Over fourteen million boys and girls in the schools throughout the country are now enrolled in the Junior Red Cross.

Briscoe County has an active Junior Red Cross membership under the direction of Mrs. Paul Rogers, assisted by Mrs. Alvin Redin and Miss Leota Rampy.

The following boxes and articles have been sent to the various places.

A box of decorated napkins to the hospital at Kerrville, Texas.

A box of games, clipping books, crossword puzzle books, book marks, etc to the hospital at Victoria, Texas.

A number of game-table covers to hospital in Kerrville, Texas.

A number of hot-water bottle covers to head-quarters.

A check of \$500 to Crowell, Texas for tornado relief.

Seventy-two cents for supplies for needy family in community.

Mr. J. R. Foust made a business trip to Abilene Wednesday.

Tornado Does Heavy Damage

NEW BOOKS AT THE LIBRARY

Here are a few of the new books and a short descriptive sentence about each. These are some of the latest and best books on the market and you should take advantage of them.

"Mississippi Belle", by Clements Ripley; "The Song Sisters," by Emily Hahn, A revealing biography of the three greatest women of China; "Pied Piper," by Nevil Shute, A story about a seventy-year-old Englishman, a young and beautiful French girl, escorting a band of children across France to England after Dunkirk. It is both gripping and tender; "MacArthur," by Francis Frevelyan Miller, an authentic life story; "Longhorn Cowboy," by James H. Cook, The true life story of a real cowboy and Indian scout in the west; "Only one Storm", by Granville Hicks, It is a picture of what is happening in America, a book which faces life and blinks nothing; "Jess", by Morris Longstreth, You'll like ambitious young Jessie Randall for she's an A number 1 American girl; "Sugar Shanty," by Louise Rorke, This is a story of a boy's courage, the devotion of his dog, and a girl's fine sense of loyalty; "The Man in Grey," by Lady Eleanor Smith, Mary Rohan, bride of the scion of an ancient English house, who, during her husband's absence at the front in France, discovered in his ancestral house from old diaries and passionate love letters dated back in the eighteenth century, the clues to the mysterious death of beautiful Clarissa Rohan, wife of The Man in Grey, Regence Lord Rohan; and "Fair are the Meadows," by J. Wesley Ingles, This is a delightful refreshing novel of today's youth and its surge for a life distinctively expressed of its own highest ideals. It unfolds the adventure story of twin brothers who suddenly were called to face life's responsibilities upon the death of their father. Many amusing episodes and romantic moments enliven the story and help to emphasize the underlying christian character and reactions of Gordon Maxwell who discovers the ever-expanding meadows of service available to youth of today.

In addition to these and many other good books, we are getting a number of leading magazines, a daily news paper, and the Briscoe County News. We would like for more people to take advantage of this good reading material, especially more men.

"Reading is to the mind, what exercise is to the body... as by the one, health is preserved, strengthened and invigorated; by the other, virtue is kept alive, cherished, and confirmed.

The entry of Boyce House this week into the Lieutenant Governor's race has added interest to the campaign for that office.

This is House's first race for any office, but he has a background of wide, varied and unusual achievements. He has written five books on Texas and has long studied the governmental affairs of the State.

In gathering material for his column, "I Give You Texas," House has traveled through out the State, is familiar with conditions and problems of every section, and knows thousands of Texans personally.

Over a million people read his human interest column in more than 200 newspapers in the smaller cities and towns throughout Texas. House, 45 years old, lives in Fort Worth; has edited newspapers in Olney, Brady, Eastland, Ranger and Cisco; and obtained his education in Taylor, Brownwood, Uvalde and Alpine.

Political observers agree that Boyce House will be a strong contender for Lieutenant Governor.

Mr. and Mrs. Glenn McWilliams are the proud parents of a new five pound baby girl. She was born Wednesday, June 3, at the hospital in Tullia. Mother and baby are reported as doing well.

A devastating tornado-wind-storm and hail storm struck in the Silverton area Friday night about 9:00 o'clock and left thousands of dollars of damage, with at least two families entirely wiped out. George Jones lost everything he had on the Wallace place 14 miles southeast of Silverton, as did the Roberts family a little further north. Others heavily damaged were Mrs. Ruth Watley, J. H. Burson, Lewis Francis, and several others were damaged in smaller degree.

Jones was the heaviest loser with damage approximating \$10,000. An eight room house, all barns and sheds, fence and all improvements were literally made into kindling. Their car was carried across the canyon and dropped and demolished. Twelve head of horses were hurled over a 100-foot drop, killing four outright and injuring the others. Practically the only thing not entirely destroyed was the tractor which is being repaired.

Mrs. Jones saw the funnel approaching and started for the car. George, man-like, thought there was no need of running from it, but she started the car, and drove a small ways with her son to a little natural cave in the canyon wall. George followed and they had not been in the cave more than two minutes when they saw the storm strike. Trees were uprooted near them and sticks were driven a foot in the ground near the cave. There is no doubt that Mrs. Jones might have saved the lives of the entire family. No insurance was carried on any of the improvements.

No definite report has been obtained on the damage at the Roberts place except that their house, clothing and everything they owned was destroyed. The amount of damage isn't known.

Mrs. Ruth Watley suffered a \$2,000 loss to her house, windmill, windcharger and other improvements. Corrals carried away and sheds damaged at Bursons raised the damage total still more. In the Francis community Lewis Francis lost several small sheds, a windmill and fence. The storm barely missed his big barn, mere curling a few shingles on one corner. Several others in this community suffered light damage.

The storm was accompanied by rain and hail that did damage to many wheat fields. In Silverton the rain amounted to 1.63 in., and fine hail did considerable garden damage. Below the cap rock some of the hail stones were enormous.

Miss Opal Cross brought a hail stone to the News Office at nearly noon the next day. Clarence Graham picked it up and sent it in by her. She had kept it in her refrigerator all that time and it still measured over nine inches in circumference. It must have been several inches larger when it first fell. Fortunately these large stones were not thick. Most wheat damage was from fine hail and a high cutting wind.

The storm in all, was the most damaging in many years. Had the twister happened to strike at a town with the fury it had at the Jones farm, it would have completely wiped it off the map.

CARD OF THANKS

We wish to thank our many friends who have been so kind to us since we were wiped out by the storm. It is true that we lost everything we had, but we found that we had a world of friends. Thank you very much for your timely help.

Mr. and Mrs. George Jones & son

Mrs. Will Sedgwick of San Antonio and Mr. and Mrs. Eugene Sedgwick of San Angelo were honored at a dinner Sunday at the home of Mr. and Mrs. Bob Dickerson.

Mr. Sam Brown of Amarillo visited Mr. and Mrs. H. Roy Brown several days this week. He returned to his home with Mr. and Mrs. H. Roy Brown, Mrs. Duward Brown and Mrs. Arnold Brown who spent Tuesday in Amarillo. Mr. Brown attended a Ceiling Price Meeting.

AND THE JAPS have attacked the North American continent—air raids were reported at noon Wednesday on Dutch Harbor...

THE WAR IS coming closer to home and may continue to come closer right up to the close of the war. In 1918 the Germans did some of their fiercest fighting only a short time before running up the white flag...

IN THE EAST where there is a gas shortage because of transportation, the boys just can't stand it to think that we here in the west can still have plenty.

I HAVE TAKEN care of the gasoline rationing so will go to bed and sleep. Tomorrow I must delve into the mysteries of the Consumers Credit law...

Uncle Sam's underwear, Signing off at exactly twelve o'clock, Wednesday night.

MORNING—About the Consumers Credit. There isn't much explaining to do on it. It's just this—Cost-of-Living articles must be paid for by the 10th of the second month following the purchase.

THE TIRE SHORTAGE is really bad. Nine-tenths of the rubber supply is in the hands of the Axis Powers. That cuts ours pretty short.

LAST WEEK THEY kinda made an example of Doug Meador owner of the Matador Tribune. The draft board had asked as to his status in the draft, Meador had asked no deferment in the first place but from the answer received from Nalle, head of the Selective, one would have thought that he and every other newspaper man was running backwards on his right to serve his country.

HE ALSO WISHED to cast no reflection on the patriotism of the newspaper men of the country. He was indeed considerate.

IT IS TRUE that newspapers do not kill the enemy. However, if they are of no value then why in the hello people does every blasted government agency flood every newspaper in the country with their press releases?

THERE IS NOT one bonafide newspaper in the whole United States that is not co-operating with every bit of its individual might toward war thinking and eventual victory, and a lasting peace to follow.

MEADOR, WHEN HE finds that he has been of no use at home has requested and received his physical examination for military service. What he will do with the Matador Tribune he doesn't know.

MY THEORY ON that is that of the nigger's—when you're ready I'm ready. They haven't made me quite as mad as they have the author of "Trail Dust."

THE WHEAT SHORTAGE—Just read a few days ago that a bunch of sod was to be broken out north of Amarillo for more wheat acreage because they can foresee a possible shortage.

OLD TACK IS in Washington now and in telling of the need for government stenographers he said "They have lowered the civil service tests on this branch until now they take a girl in a room that has nothing in it but, a washing machine and a typewriter. If she can pick out the typewriter, she's hired."

AND UNCLE Sam's underwear—the Japs are the only ones who really know what color they are. They are the only ones who ever caught him with his pants down!

AMERICA'S MOST FAMOUS expression right now is "I dood it!" 'Tis a pretty good national slogan.

IS THIS A SHORT WAR By T. G. Craft

The rumor has been going the rounds that the war will be fought and won the Allies this year. It seems that most of the people made, or permitted themselves to believe this report.

We need to be reminded that the Allies have not yet won a single engagement in this war except perhaps the battle of the Coral Sea. We have lost battle after battle, and country after country, and we are still fighting a defensive war in the four corners of the earth.

There will be others. This war will be over until we capture the entire world that is against us. We are at war, but we have just started. Our tasks cannot yet be fully measured, for they are vast and vast!

THE POCKETBOOK OF KNOWLEDGE

Advertisement for 'The Pocketbook of Knowledge' featuring illustrations of a car, a person at a desk, and a person with a typewriter. Text includes '\$6,000 INVESTMENT' and 'CONOCO PLANS FOR LONGER CAR LIFE'.

a fortunate people when the war is on and over if we do not have a national debt which is not more than four hundred billion dollars. These figures are vast, but not fantastic.

Another essential industry in the winning of the war is that of farming. We shall have to produce more and more food. We will have to feed our nation and our armies, and later the entire Allied armies with many of the commodities of food.

days of the Revolutionary War. But there is no sacrifice too hard or costly for us to make in order to win this war. Yes, We will win this war, but it will be a long hard war. If you think differently; then time shall be our witness. Let is not fool ourselves any longer about our task. It is vast and will demand the best that is in every one of us. But if we are now sobered in thought we shall gird ourselves for the fight that will surely bring victory. Our victory will be won by work, sacrifice, much blood, many deaths, and a stream of tears that will make a river, but they will be sacrificed for the deliverance of the world from tyranny and a Hitler's HELL.

CONOCO PLANS FOR LONGER CAR LIFE

A new service to motorists, designed to prolong the life of motor cars and make tires last longer, is being introduced by Continental Oil Company through its local dealers, it was announced here by Will A. Morgan, company advertising manager.

"The new service," Mr. Morgan stated, "will be announced to the public in a series of advertisements in the Briscoe County News."

"Knowing that regular inspection and proper lubrication are absolutely vital to the long life of cars now operating, dealers in Conoco products throughout the country are organizing Once-A-week clubs among motorists, with the idea of making thorough checks of each car on regular specified days of each week. Conoco dealers will keep careful records of tire serial numbers, grease and oil change periods, and all information necessary to the proper servicing of the car. They will remind motorists when lubrication and other services are needed, and will do everything possible to help the motorists get the maximum life from their cars at the least

possible cost and trouble," Morgan said. All Conoco dealers in this territory are cooperating in the plan, it was announced.

Local Happenings

Mrs. Venus Gillespie entertained the L.T.D. Club Tuesday afternoon. The guess what which was a lovely set of crystal ash trays was guessed by Mrs. Roy Hahn. A lovely refreshment plate was served to the following members Mesdames T. T. Crass, J. W. Lyons Jr., Maurice Foust J. T. Luke and Roy Hahn.

Mr. and Mrs. R. D. Wheelock and John Robert of Plainview spent from Monday until Friday last week in the home of his parents Mr. and Mrs. J. E. Wheelock.

Mrs. J. B. Porter received word this week that her grandson, John R. Porter, was "ready to go across". His home is at Claude.

Mr. and Mrs. Bruce Womack have purchased the H.O.L.C. house known as the Blocker home.

NO STATE FAIR

There will be no 1942 State Fair of Texas. Decision to forego the annual exposition, known as "The world's largest and most beautiful State Fair", was reached by the Board of Directors after Harry L. Seay, President of the institution, made a report on his survey of conditions brought about by the national emergency. Lack of transportation for both exhibits and patrons decided the issue. Tire shortage, possible gasoline rationing and a scarcity of shipping facilities influenced the decision. Many of the leading fairs of both the United States and Canada have been called off for the duration. Grounds and buildings of the \$15,000,000 plant of the State Fair of Texas have been tendered the United States Government for whatever use it may see fit to make of them, Mr. Seay announced.

WAR BOND CLUB MEETS

and not mere grumbling or nagging. We will win this war by everybody—armers, industry, business and workers—pulling together.

"Sing while you drive", suggests the Corrigan Press.

At 45 miles an hour sing "Highways are Happy Ways". At 55 miles an hour, sing "I'm but a stranger here; heaven is my home". At 65 miles, sign "Nearer my God, to Thee". At 75 miles, "When the rool is called up yonder, I'll be there". And at 85 miles, "Lord I'm coming home."

This beautiful little poem, by an unknown writer, appeared recently in the Cumby News. It's entitled "Where Were You?"

"I came to your church last Sunday I walked up and down the aisle, I noticed your seat was vacant,"

Said the Master, with a kindly smile.

"Yes, I was at home," I answered. "Some folks from up Salem way Drove down for a week-end visit, So we stayed in the house all day."

Or, "I had an awful headache,"

"I had a roast in the pan,"

Or, "We over slept that morning, But I go whenever I can."

"I went to a morning service, Not over two months ago, So much work must wait till Sun., There's no time for church, you know."

The Master gazed at me sadly, As He was about to speak.

"My child," He replied, "are there not Six other days in the week?"

I saw I had grieved my Master, As slowly He turned away, And I vowed He'd not find me absent Again on His holy day.

Dear Lady:

YOUR MAN WILL LOOK UP TO YOU!

Tell him tonight of the high quality, and the low cost of the dry cleaning at the City Tailors . . . tell him of the scarcity of woollens and how our dry cleaning actually increases the life as well as the appearance of garments . . . Tell him that you have used our moth proof bags for last winter's clothes . . . Send us his suit today and show him how "nearly new" it looks. Yes, he will look up to you as a thrifty and fashionable lady.

We can and will win this war but— We won't win this war by whining about sugar. In the days of the Texas Republic, people ate an average of 10 pounds of sugar a year; we have been eating 90 lbs. a year.

Nor will we win this war by complaining about daylight savings time. Our good old daddies and mothers worked from sunup to sundown.

And we won't win this war by whimpering about automobiles and tires. Old Sam Houston never even owned a Model T—and he got along all right.

We won't win this war by repeating rumors and saying harsh things about our Allies.

And we won't win this war by continually finding fault with our leaders. Under our Constitution, Franklin D. Roosevelt is and will be President for the next two and a half years and we will fall or rise with Roosevelt. Of course, we have a right to criticize things we consider wrong—but let's be sure that our criticism is constructive

Perhaps you will not take a vacation trip this summer, but don't deprive yourself of the comfort of these cool summer togs. Cool, sporty, comfortable clothes for every member of the family.
