.93 Inch Rain Delays Cotton Harvest Here

rest for a big day tomorrow. Yours, Herb."

PVT. Raymond Grewe writes to his father, "Dear Father, Just a few lines to let you know I am O. K. I have gotten one letter from you and one from sister. And answered both of them. I suppose you have gotten them. You may not hear from me as often as you wish, because a lot of the time I'm as busy as a goat on a tin roof. It's hard to write a letter at night. And a lot of times I don't know much of anything that would get by the censor. And a lot of times I am tired and must rest while I can. I saw Haynes McClendon only one time since I have been here. And was very glad to see him. I have gathered up a lot of sea shells of all kinds. There are plenty of coconuts and bananas here. Coconuts don't grow on trees as it is shown in pictures, when the monkeys pull them off the trees and try to conk one on the bean with them. As the nuts have a big thick husk on them. Well I must close give everyone my best regards."

HOMER GILKEYSON, who has been transferred to Fort Bragg, writes of his new place: This sure is a big place. There are all kinds of divisions — infantry, artillery, cavalry and air corps. It is the first real army camp that I have been in. I think I am going to like it. We live in tents but they have wooden floors and the one I am in has a cement floor. There are six men to each tent. I haven't seen much of the camp as a whole but I heard that it covers 40 square miles and there are over 100,000 soldiers here. I don't know how long we will be here. Our whole group, about seven or eight hundred men, same down on a troop train. It was a long trip thru Wisconsin, Illinois, Indiana, Ohio, West Virginia and into North Carolina. Elmer and Evelyn are the ones that are sending me the paper Give Roy my new address."

LEON SANDERS of the Navy writes "Dear Hugh; I will answer your letter I received to-day. I sure was glad to hear from you. I have been here 4 weeks today, our company is breaking up to-day. I saw a lot of my closest buddies step out of line, when they called their name for the sea draft. They got about half of our company. They called ones that didn't sign up for some school. A bunch of them didn't sign up for school just because they thought they would get a furlough when they finished "boot camp", but they didn't get one. They are leaving early in the morning but don't know where they are going. I am going to school 4 weeks. I am supposed to get a furlough when I finish but it isn't certain yet. If I make good as an Armed Guard I will be rated first class seaman or second class gunner's mate, in six weeks I am hoping I will have 2 or 3 stripes on my arm when I come home. Raymond said he was alright He has been hauling junk iron. I also got the Silverton paper to-day. I was glad to get it. I was walking along reading it and a boy walked up behind me and said "The Briscoe County News". He was from Quitaque. I talked to him for a good while. I have guarded all night once since I came. I sure would like to see you. I will get another Liberty to-morrow. So I plan to have my pictures made. I will send you one. I went to the Balboa Park yesterday. It's the biggest park in the world, and they have animals from everywhere. Some of the largest and smallest I have ever seen."

CHARLEY HERNDON handed a letter from his boy, Herb, who is a Flying Cadet. He isn't known here but a part of his letter is interesting to all. He says: "Dad, now I can tell you, but have not been allowed to write anything before; but a week ago Sunday we had to stand in review for none other than President Roosevelt and General Arnold. Golly, they are fine looking men. I looked him straight in the face. They had scout cars, G-Men and everything else. Well, folks, guess I had better close now and get a good night's sleep."

JOHNY FOLLEY, who has been transferred to the Twin Engine Air Base at Lubbock was here the first of the week on a short pass. He was formerly at Las Vegas. Thomas Olive who is in the Coast Guard is here on leave.

JOHN S LONG spent a few days here this week while on a short leave from the Navy. He was feeling pretty good over the fact that he had just received an appointment as a Naval Aviation Cadet. He will return to New York today, and will be sent at once to his training school.

"DOC" MINYARD writes "Dear Roy. We have been on the move recently and I have moved from Louisiana to California. From here there is no telling what part of the globe are going, but we know one thing and that is that this place is used as a stop over before getting on the boats, we will be here from 3 days to 3 weeks, so your guess is as good as mine. When I first came in the Army I wondered what happened to a lot of fellows that were in the Army and I could not figure what they were good for, but when you are getting ready to ship an organization out to foreign soil, they just transfer those boys out, that is what a lot of fellows that were in our organization had happen. Now we have a mighty clean bunch of men and officers. Most of the men are anxious to get started and feel like the sooner we get over the seas the sooner we will be back in civilian life leading a life of individual freedom. We have not received any additional shots since coming here, but it will fool me if they do not give us some more. Our clothes are down to the minimum and our personal equipment is in tact, all we lack being ready is our organizational equipment. I noticed that the Club is still going and I hope you boys will be able to keep up a little civic interest while so many of the men are missing. Give my regards to the homefolks."

Miss Gaynell Douglas, daughter of Mr. and Mrs. R. E. Douglas, and Lieutenant Joe S. McWilliams of Wellington, Texas were married Monday evening October 12, at 8 o'clock at the Travis Park Memorial Church in San Antonio, Texas. A complete account of the wedding will be found in next week's paper.

M. K. Summers was appointed by the City Council this week to the job of City Secretary to replace Miss Mary Dee Mercer, who has applied for enlistment in the WAVES. Summers will take over his duties the first of the month, or perhaps sooner, depending upon when Mary Dee gets her call for her final examination.

Sixty knitted garments were shipped this week from this chapter of the Red Cross. The Red Cross sewing rooms are busy. They are making refugee blouses and Kits for the soldiers. Every woman who can is asked to come and help out on Monday and Wednesday afternoons. The blouses and Kits are cut out, ready for sewing.

All clubs and groups of women who agreed to make kits are asked to come and get them now. We are asked to have 100 ready this month.

Services of the American Red Cross to the armed forces are free. They include providing recreation and entertainment for the sick and wounded, and in many cases the able-bodied.

Cotton harvest, which was just getting under way, received a setback Wednesday by nearly an inch of rainfall—.93, according to the government gauge. The weather in general this week, has been damp and cloudy. Wednesday night, fourteen bales of cotton had been ginned here. Most fields would have been ready for the first go-round by Monday had it not rained. Below the caprock the gins are running steadily but as usual the cotton here is a little later than there. According to the present indications, the cotton harvest will be better than in nearly a decade. The acreage is not so much as in 1937 when the Silverton Gin Co. ginned 3300 bales, but the crop is better. Reports are that the harvest labor problem will not be so acute as was at first forecast. Chas. K. Herndon, manager of the local gin, says that inquiries show that in areas east and south there are plenty of hands.

All tire sellers must file September 30 inventory reports of all serviceable tires and tubes before October 15 to comply with the revised Tire Rationing Regulation. D. J. Northcutt, Chairman of the Briscoe County Board, reminded the trade to-day. The inventory report, which is mandatory quarterly, is to show the stock of all new and used tires and tubes and retreads and recaps held by all persons who have any items for sale. Filing of the reports is particularly important at this time. Mr. Northcutt emphasized, since they will provide a record of persons who are engaged in the business of selling tires, and, hence, will be eligible to receive additional stock of tires if larger inventories become necessary by reason of any change in the rationing program undertaken to meet the Baruck Committee recommendations. Reporting forms are sent by mail to most of those required to file the returns, but those who do not get them and have tires to report must obtain forms from the local War Price and Rationing Board in Silverton. The reporting requirements apply not only to recappers and dealers in new tires, but also to those who have only used tires for sale, and to automobile supply companies, motor vehicle dealers and finance companies. Tires mounted on vehicles, are not to be reported.

Curtailed of civilian driving has not slowed the renewal of Texas driver's licenses, State Police Director Homer Garrison said to-day. All operators' licenses issued before last September 30 — that is, old licenses — expire Nov. 1. Applications for renewals have been pouring in at a considerably accelerated rate, Driver's License Chief J. B. Draper said. A further increase is expected before the deadline. A renewal ordinarily involves nothing more than submission of an application and the payment of a fifty cent fee, which pays for a license good for two years. Anyone operating an automobile after his license has expired will be subject to a fine and will have to take a stiff examination before he can obtain a new license.

The Silverton Floral Club met Oct. 2nd in the home of Mrs. Noah Amason for an all day meeting. The club voted to disband for the duration, also voted to keep our dues paid in full for the Park Fund. The Holland campaign started Oct. 2nd and each member is urged to get all their subscriptions she can and turn in to the Sec. by Oct. 23rd, as that is the last day. Anyone wishing to subscribe for the magazine will be appreciated by the club. Our per cent goes to the Park Fund.

Claude Laudermilks and Lewis Gilkeyson's spent Thursday and Friday in Silverton.

THANK YOU

We wish to express our thanks to everyone for the kindness they have shown us. Helvy, Clyette and children

I personally wish to thank my friends for their gifts since my home was destroyed by fire. I wish to take this way of thanking their parents. It certainly is appreciated. Mary Faith McMurtry

SUBSCRIBERS ARE STILL BUYING THE COUNTY NEWS

Several new and renewal subscriptions this week have made us remember that we have not done much talking about subscriptions for several weeks. The Bargain Days are here for the daily papers and the Briscoe County News is your authorized dealer for them. The annual Bargain Rates for the Briscoe County News are not in effect as yet, but the money-saving combination offer is the same as last year. The Wichita Falls Times or Record-News have announced their price at \$5.50 for either paper, including the Sunday issue. By combining with the local paper you can get both for only \$6.25. The Amarillo Daily News price this year is \$6.95. Add 75c and you have \$7.70 for the price when you take the Briscoe County News. The Star-Telegram for daily and Sunday will cost you \$7.95 this year; and without the Sunday issue, \$6.75. Add 75c to either for the combination price. The past few weeks have seen several new names added to our own mailing list and we want to say "Thanks" to the following subscribers:

Clynell Hutsell
Johnny Leon Sanders
Joe Alexander
Orlee Mills
Edward Edwards
Elmer Gilkeyson
Cpl. Homer Gilkeyson
Herman Gilkeyson
Sgt. Garner Guest
Mrs. P. E. C. Cowart
Mrs. Hallie Johnson
Troy Brooks
Mrs. Nash Blasengame
Chas. K. Herndon
Josephine O'Neal
Evelyn Coffee
Grady Hazelwood
"Pop" Kendrick
AC Chas. H. Cline

Tony Burson

Remember our offer for sending the paper to men in service. Each subscriber who subscribes at the regular price may order the paper sent to any man in service FREE. And, according to the boys who get it, it's just as welcome as a letter from home.

NEW TIRES FOR OLDER MODEL CARS

Measures to assure that new tires of sizes that fit only the older models of passenger cars are rationed to eligible vehicle operators before the tires deteriorate in storage or before the cars that can use them wear out was announced by the Office of Price Administration.

The list of obsolete tires, upon which there are fewer restrictions under the rationing regulations, has been expanded to include all new passenger car tires fitting rims 18 inches or more in diameter. These sizes are used only by cars of 1934 model or older. Also added are tires used on motorcycles manufactured before 1937. Obsolete sizes, under rationing rules, are available to List B eligibles as well as to those on List A. List A includes only the essential users; List B includes users of secondary importance. Moreover, certificates may be granted for obsolete tires by a local War Price and Rationing Board without regard to quota restrictions. In their former status, the tires added to the obsolete list by this order could be rationed only to List A eligibles and only within the limitations or quota.

The Jolly Musicians club met in the home of La Rue Gilkeyson, Wednesday Oct. 4th. During the reorganization of the club, the following officers were elected to serve the coming club season: President - La Rue Gilkeyson; Vice-pres. - Nelda Fay Montague; Sec. - Treas. - Joy Belle Devenport; Mary Elizabeth Wilborn was appointed as program leader for the next meeting, which will be in the home of Mary Tom Bomar.

A very interesting program was given by the following members: Diane Rogers, Dora Ann Amason, Mrs. Wilkerson and Gloria June Stevenson. Choral rehearsal followed. Lovely refreshments were served by Mrs. Gilkeyson.

The following members were present Mary Elizabeth Wilborn, Nelda Fay Montague, Joy Belle Devenport, Gloria June Stevenson, Diane Rogers, Dora Ann Amason, Mary Tom Bomar, Mrs. R. Wilkerson and the hostess La Rue Gilkeyson.

Mary Cowart of Canyon spent Thursday with her mother.

Services of the American Red Cross to the armed forces are free. Red Cross volunteers make sweaters and other non-issue clothing for Uncle Sam's warriors. These cannot be sold — they are given FREE.

Date Set for First Patriotic Auction

NAME TOP COUNTY 4-H DAIRY PRODUCTION TEAMS

Extension Agent Lem Weaver announced today receipt of gold and silver medals of special design from the State Club Leader's office for presentation to first and second placing county teams in the national 4-H dairy production demonstration contest. Winners of the gold (first place) medals are Junior Brannon of Silverton and George Wayne Rampley of the Haylake Community. They were coached by Lem Weaver.

Members of the second team, who will receive silver medals, are Jack Shaffer of Silverton Community and Bonnie Gardner of Rockcreek community. County gold medals are eligible to complete in the State contest in which the winning pair will be awarded trips to the National 4-H Victory Congress scheduled to be held in Chicago next November. At this event the eight high teams in the national finals will divide \$2,800 in college scholarships, all awards provided by the Kraft Cheese Company. This is the sixth consecutive year of the contest, which promises to render the greatest service since its inception five years ago because of its relation to the nation's "food for freedom" program. It will be directed as usual by the Extension Service.

Definite action was taken this week by the Lions Club to hold at least one Public Community Auction in Silverton, and more if the public shows its interest. The date was set for November 7th. The auction sale will be for the sole purpose of turning unwanted articles into bonds and stamps. Anyone wishing to sell an article may do so without cost, but they will be paid the purchase price in stamps and bonds. It is expected that this plan will induce higher bidding, and will be the means of selling quite a number of bonds.

It will help the sale a lot if you will look around, find what you might want to sell and send a list of the articles to the Briscoe County News, where it will be printed free. No article is too large nor too small for the auctioneer to handle it. Make out your list and send it in.

CANCER IS INCREASING

A steady increase of deaths in Texas from all forms of cancer is disclosed by the fact that over 45,000 persons have died from this dreaded disease within the last ten years, according to Dr. Geo. W. Cox, State Health Officer.

"The public should be warned against cancer 'quacks' and so-called cancer cures," Dr. Cox said. "Advertising of medicines and so-called cancer doctors puts dangerous, misleading information before the public. Undoubtedly," Dr. Cox declared, "there are many persons who are being thus delayed in seeking proper medical advice unnecessarily lose their lives to this disease."

According to the State Health Officer there are two ways of treating cancer; namely, surgery and the use of radium and X-ray. Treatment must be started early and be carried out by a competent surgeon. In almost two-thirds of the cases surgery is relied upon to remove cancerous growths, while X-ray or radium is used to good advantage in approximately one-third of the cases successfully treated. Frequently the two methods are combined.

"The greatest defense against death by cancer is early diagnosis," Dr. Cox stated. "Every case is an emergency and it is unfortunate that the majority of those suffering from cancer do not seek medical advice until past permanent cure."

Dr. Cox pointed out that any unusual bleeding from any part of the body, any lump in the breast, or any surface sores, especially on the face and mouth, and even chronic indigestion may be symptoms denoting the presence of cancer.

"Where cancer is suspected, do not delay but consult your physician at once," Dr. Cox advised. "Self-medication, serums, colored lights, pastes, salves and diets are absolutely valueless."

TIRES AND TUBES ISSUED

Wallace School - 3 truck tubes
Edd Vaughn - 1 car tube
Clinton Rogers - 1 trailer tube
John T. Brown - 1 car retread
Beth Joiner - 2 car retreads
Tom Pierce - 3 car retreads
W. W. Woods - 2 car retreads
Shot Miller - 4 pickup retreads
W. E. Schott, Jr. - 2 trailer retreads

Quitaque School - 4 bus retreads
Elbert Shearer - 1 trailer retread
Edd Vaughn - 1 obsolete tire
Francis School - 1 bus tire
J. B. Baird - 2 truck tires

NATIONAL NEWSPAPER week has just closed, in which thousands of papers both large and small, rededicated themselves to their pledge of "ALL OUT FOR VICTORY." President Roosevelt recently returned from a trip over the United States, a trip that was not mentioned in a single newspaper in the United States, until the President gave the word. The President showed his faith — every newspaper in the U. S. received a confidential announcement that the President was to make the trip, but asked that it not be released until after his return to Washington. And the press kept faith. Not one word leaked out.

CLAUDE WELLS in the Memphis Democrat muses on the peculiar mind of the Irish, and their stand on the war. An American asked a young Irishman why they didn't let the Allied Nations use their bases. "We don't like the English" was the answer. "Well do you want them to lose the war?" "Certainly not," answered the Irishman. "Well what are you doing to keep them from losing it?" "Well, I'm a Spitfire Pilot." Peculiar reasoning, seems to me.

R. B. BYRD, who is known far and near for his ideas on most everything, has gone into the ad-

vertising business. I was telling him that my old hens were sabotaging the food for victory effort, and had even forgotten what an egg looks like, and he jumped up and began advertising for the Silverton Co-op Feeds. He says he calls it "lay-or-bust" feed. He got to putting it in the feeder and every once in a while he would hear something just pop like a shotgun. He would rush out to the pen and usually just find a little bunch of feathers. Finally he discovered that he had only one rooster left out of about a dozen. Yeah, you guessed it - the roosters were eating that "lay-or-bust" feed.

BACK TO THE HEN business. Those hens of ours seemingly have never heard of the war; nor have they heard of the status of the Hahn feed and grain account. The last egg we got was Monday, and believe it or not, the one that laid it had forgotten the formula. It didn't have a yolk in it. I've tried everything else except Lydia E. Pinkham's tonic. It is recommended for such trouble I believe.

A BUNCH OF you old boys might as well come out in the open with those extra tires if you expect to get any gasoline. If you have more than five tires, then you won't get a gasoline ration book. Look around the attic boys and girls. If you have a set or so that you were expecting to slip on the old bus at odd times, why you better plaster a little mud on them and get them in circulation. And if you have any definite dates made for after the 22nd of November cancel them out unless they are pretty close to home. Four gallons will just get the car to hitting on all six good by the time it runs out. What do you care? You weren't going anywhere were you?

THE PILE OF SCRAP on the corner of the square is growing every day. It is surprising how many folks have gone over their place again and found a few hundred pounds. Wilbur Wilson gave the Lions all of the scrap he had on his place and it was a lot too. Mr. Rogers and Carl Wimberly also deserve a vote of thanks for their donations. The pile will be sold in a week or so and the money

SOMETHING FOR US TO SHOOT AT

will be put to good use — and the scrap will be doing its share toward winning the war. If you have some scrap and no way to haul it, call Jake Honea or the News Office and the Lions will haul it. Shelby Haynes has been helping them to do that with no gain for himself.

THE BATTLE for Silverton School, like the Battle for Stalingrad, has entered another stage—seemingly a stalemate—but perhaps a lasting peace may come of it. The similarity of the two great battles is remarkable. After a sort of non-aggression arrangement at the first of school, the battle was suddenly on in full swing and casualties were heavy on both sides. On the propaganda front, reports from both sides were totally unreliable—in fact as at Stalingrad, the press was banned from the fighting front. Unbelievable stories were circulated by the propaganda ministers of both sides—stories of unrest among the people, dissatisfaction among the leaders, et cetera, and et cetera. Lengthened supply lines extended as far as Kress and Floydada, and were partly responsible for the lull in fighting. — Yes, the battle between the "haves" and the "have-nots" is over. Damage was not great, although it is said that there are a few war bonds still unpaid.

MORE SERIOUSLY, in the school rumpus, everything seems to be settled. Paul S. Rogers has resigned; and Mrs. Ben O. King is acting as superintendent for a time at least.

THE BATTLE better be over. It better not be a stalemate. This community can't stand many such orgies.

CHARLEY HERNDON handed me a letter he clipped from The Cotton and Cotton Oil Press. It is written by the President of the Oklahoma State Board of Agriculture, and is pretty timely reading for cotton farmers. Here it is in full:

FARMERS
Low grade cotton is not wanted under war conditions and is now heavily penalized in price. Our cotton surplus is largely unusable low grades and there is a shortage of high grades badly needed in the war effort. It is both patriotic and highly profitable to take care of your cotton in such a way that it will make high grades.

Do not snap or pick it green. Much of the green cotton will be wasted at the gin and the part that is saved will be lowered in grade.

Do not snap or pick it wet or take it to the gin wet. Keep the load covered and protected from dew, rain and frost after it is picked.

Do not allow your pickers to gather it "rough". Leave the limbs leaves and dirt in the field. Above all, never sled it.

Extra long staple cotton must

be picked. High grades cannot be made from snaps.

Do not tramp into a small two-wheeled trailer. This grinds the dirt and trash into the cotton until the machinery can't remove it. Pack the cotton as little as possible and handle it as little as possible.

Insects cause low grade cotton. In the future more attention should be given to controlling them.

Gunpowder is made from cottonseed linters. Dirty cotton means dirty seed and linters, and dirty linters means poor quality, dangerous explosives for our men to handle.

Remember the men in the armed forces. Furnish cotton that can be put into their hands as useful material in the shortest possible time. Fortunately for you, it is in this instance highly profitable to do your patriotic duty.

Joe C. Scott
President, State Board of Agriculture

Abraham Lincoln grew up in an era of story-telling; it was an art, story-telling was, in an age when there was little of the theatre and very few books, declared Carl Sandburg, America's greatest living writer, who wrote the monumental life of Lincoln. (This columnist heard Sandburg lecture in Denton a while back).

The laughter of Lincoln, said Sandburg, ranged from the lively stable variety at one end to ironies at the other—a bitter, twisted laughter.

After the second Battle of Bull Run, Lincoln was telling one joke after another. When someone remonstrated, the President exclaimed, "My God, man! Don't you see if I didn't laugh, I'd have to cry!"

Sandburg gave the impression of one who knew Lincoln personally, intimately deeply — as indeed he does though, of course, the poet-biographer never saw his hero. Homey phrases and human incidents enlivened the discourse, as when the speaker told of the Lincoln-Douglass debates and of

Douglas' effort to confuse terms, which caused the gaunt rail-splitter to remark, "Judge Douglas would have you to think that a horse chestnut is the same as a catsnut horse."

Then there was the time that a woman, weighing 118 pounds, visited the White House and Lincoln greeted Harriet Beecher Stowe (author of "Uncle Tom's Cabin") with,

"So you're the little woman who started this great war!" and during the conversation, the President remarked, in the language of his boyhood, "I like a wood fire; we always had one at home."

One of the best of Sandburg's Lincoln stories was the one about a citizen of Springfield who had known Abe there and who visited in the White House. He asked his host, "How does it feel to be President?" Lincoln answered, "I'm like the man who was tarred and feathered, then ridden on a rail, and he said, 'If it wasn't for the honor, I'd just as soon walk.'"

Sandburg compared the burdens and responsibilities of the Presidency for Lincoln and for Franklin D. Roosevelt, adding that he told the above story to Roosevelt and the President countered with one about the colored preacher and the colored deacon:

The preacher said, "De wicked am going to burn."
"Amen, brudder, amen," said the deacon.
"De wicked am gwine to burn in hell-fire."
"Amen, you is right."
"Yes, de wicked am gwine to burn in everlastin' fire."
"Oh, no brudder," exclaimed the deacon, "not everlastin' fire — de human constitution can't stand everlastin' fire!"

KNOW YOUR WORKER HENS

There's no place for loafers in the poultry flock these days, says George P. McCarthy, poultry husbandman of the A. and M. College Extension Service. The loafer can't conceal herself from the owner who knows the signs. Before finishing the laying year, she looks slick, with glossy, oily feathers. On the other hand the dry and frayed laying clothes of the hard-working, well-fed hen are easily identified. The oil and fats from her feed went into egg yolks. The loafer stopped laying and made feathers. Her place is in the stew pot.

Another way to test is to examine the beak and shanks. If the hen belongs to one of the common yellow skin varieties and is a layer, the color will be faded or bleached out, and the comb will be full of blood, red and waxy.

If she's a loafer it will be pale and shriveled. The skin of a layer is soft textured like a kid glove. A non-layer has a hard, dry skin which is relatively tight.

Cull the loafers and save the best layers for breeding stock. Next year their daughters will help you produce more Food-for-Victory.

PANTEX NEEDS WORKERS

Panhandle sons are giving their lives in order that our nation might retain its normal pattern of living. Many West Texas citizens are too old or have responsibilities which keep them from entering active service. This is where the home front makes its appearance. Every citizen is feeling the nec-

(This columnist heard Sandburg lecture in Denton a while back).

The laughter of Lincoln, said Sandburg, ranged from the lively stable variety at one end to ironies at the other—a bitter, twisted laughter.

After the second Battle of Bull Run, Lincoln was telling one joke after another. When someone remonstrated, the President exclaimed, "My God, man! Don't you see if I didn't laugh, I'd have to cry!"

Sandburg gave the impression of one who knew Lincoln personally, intimately deeply — as indeed he does though, of course, the poet-biographer never saw his hero. Homey phrases and human incidents enlivened the discourse, as when the speaker told of the Lincoln-Douglass debates and of

effort of doing his part for the war effort. How better can persons here in the Panhandle serve than by working in one of the government's war industries, Panhandle Ordnance Plant at Amarillo.

Pantex has available jobs now for men in good physical condition who can qualify as laborers on loading lines and for Stores and Utilities Divisions. Immediate employment is also available for guards. Reliable citizens who are interested in such jobs should not hesitate because of lack of experience in the field. Training will be given in the plant.

Those who desire positions should file applications at once with the employment office at 504 1/2 Taylor Street in Amarillo which is open from 8:30 a. m. to 9 p. m. weekdays and from 9 a. m. to 4 p. m. on Sunday. The filing of an application does not obligate the prospective employee in any way. Men who have applications on file now should report at once to the Personnel Building at the plant. It is open on week days from 8:30 a. m. to 10 p. m. and from 9 a. m. to 4 p. m. on Sunday.

YOU GET A \$25.00 BOND FOR ONLY \$18.75

Brief Facts About War Savings Bonds (Series E)

How much do they cost? You LEND Uncle Sam	Upon Maturity You Get Back
\$18.75	\$25.00
37.50	50.00
75.00	100.00
375.00	500.00
750.00	1,000.00

What is a War Bond? It is a written promise by the United States Government to pay you the amount of money stated on the Bond.

What interest does my money earn? When held 10 years, Bonds yield 2.9 percent on your investment, compounded semiannually. You get back \$4 for every \$3.

When can I get my money back? Any time after 60 days from the date the Bond was issued. Naturally, the longer you hold the Bond, up to 10 years, the more money you'll get back. But you'll never get back less than you put in.

Can anyone cash the bond? Only the person or persons whose names appear on the Bond as owners.

Buy a Share in America!

LAND... Thousands of acres of the finest land in the world... black earth, rich loam, green pastures and hills where trees reach to the clouds and their boughs touch... Wide, flat, well-drained land on which corn, wheat, and other crops grow thick and fast.

Also upland farms, stock farms, ranches, and citrus groves as well as truck farms, tobacco farms, and cotton plantations. This land described above is America... not 20 acres, not 50 or 100 acres, but all of it that lies between the Atlantic and the Pacific.

How can you buy all that land? What would it cost

you? A dime will buy a share of all of it... a 10-cent War Savings Stamp. Every War Bond that you buy gives you a bigger share of this land and it is the finest land buy in the world today!

Your government needs money to win this war, and is offering you good interest and a "money-back" guarantee for it. War Bonds offer the soundest investment in the world. With each Bond purchase you are buying a share of this great, fertile country of ours... and protecting your own investment in it, too!

Make EVERY Market Day "Bond Day!" Buy WAR BONDS!

Highlights of Transportation Conservation Program

Farmers who own trucks, including "pick-up" and truckers who haul farm products from-the-farm and supplies to-the-farm are asked to go to their County Farm

Transportation Committees, October 22nd, 23rd, or 24th for assistance in filling out applications for "Certificates of War Necessity". Many of the applications are now in the mail.

"Certificates of War Necessity" must be carried on all operating commercial vehicles including farm trucks after November 15. No gasoline, tires or repair parts can be obtained without the certificates. This is part of the Office of Defense Transportation's nationwide program to enforce conservation of rubber and automobile equipment.

"Certificates of War Necessity" application blanks and instructions

on how to fill them out are being mailed by the ODT to persons registered in 1942 as the owner of a truck, bus, taxicab, ambulance, hearse, jitney or other motor vehicles available for public rental. Any owner who does not receive an application blank within the near future should apply to the nearest ODT field office.

The headquarters of the County Farm Transportation Committee of Briscoe County will be the AAA office, Silverton, Texas.

Whiteside & Company

"The Store That Strives to Please"

Hello, Folks

To the Folks at Silverton:

Just a word to let you folks at home know that the Magnolia Station is operating just as always except that Dad is running it for me. You will find the same good Magnolia Products there, and your business is appreciated the same as always.

Dad wrote that you folks were wondering about who was going to ram rod the place. Until further notice, the station will be operated as "Maurice Foust", with J. R. Foust acting as my proxy. Pay the old boy a visit.

Yours sincerely,

Maurice Foust
