AAA Committeemen To Be Named

LATIN AMERICAN PROGRAM BIG SUCCESS

Last Monday, Mrs. O. T. Bundy was the capable leader for an all day program at the Presbyterian Church. The church was beautifully decorated with Mexican and Indian rugs, baskets, pottery, Spanish shawls, tapestry, pictures, South American treasures and maps, flowers and pepper chains brought by members of the Auxiliary.

Mrs. Sid Richards' devotional carried the theme: "Am I my brother's keeper." Mrs. Bundy opened the study of the book, "On This Foundation", with an introduction to the author, and a short lecture on the opening chapters. Other members reviewing chapters were Mrs. True Burson, Mrs. R. G. Alexander, Mrs. D. T. Northcutt, Mrs. Tony Burson, Mrs. Clyde Wright and Mrs. Jim Stevenson. Roll call was answered with facts about Latin America. During the noon hour, a program of Mexican music was charmingly given by Mrs. R. Wilkerson and some of the girls of the music club. Dorothy Roy McMurtry and Jean Northcutt sang duets. Johnny Alard appeared as a soloist. Betty Burson rendered a piano number. All were greatly enjoyed.

The covered-dish dinner was all delicious Mexican foods: tamales, frioles, chili dishes, barbecue, enchiladas, green salads, pumpkin pies, Spanish and Cuban cakes, coffee and a big tray of pecan pralines.

A special treat of the afternoon was a Book-Review given in a most entertaining way by Mrs. Fred Lemons. Mrs. Kemp Thompson led a beautiful afternoon devotional.

A large crowd enjoyed the memorable meeting and felt they were not only learning the Good Neighbor Policy in regard to Latin America but were better neighbors with the home-town-folk.

THOMAS RE-OPENS SHOE REPAIR SHOP

Perry Thomas, who a few months ago closed his shoe repair shop because of scarcity of leather, is announcing this week that he will again be open for business in the Palace Theatre building.

Perry says that regulations have changed a lot on leather and rubber heels and that now they can be gotten without difficulty. He has the new shop well arranged and equipped and Silverton folks will be glad to have the place in operation again.

Thomas tried enlistment in the army air corps a short time ago but missed the physical exam by a fraction.

Wayne Crawford was inducted into the Army Tuesday and is here for a ten day furlough before reporting to active duty at Fort Bliss, Texas. He is one of the first if not the first married man to be inducted from Silverton. His papers were handled by the Lamesa office, where he was living at the time of registration.

LIIONS ABANDON PLANS FOR PUBLIC AUCTION

Because of the apparent lack of interest in their proposed community public auction, scheduled for Saturday of this week, the Silverton Lions have abandoned the idea, and there will definitely NOT be an auction held here this Saturday.

Within a few days, the Lions will have a "travel board" erected in a prominent place, showing cars leaving for various towns and who can and will take a passenger.

FORMER SILVERTON BOY PLEDGES FRATERNITY

Guinn Thomas Williamson, former Silverton boy, is one of 22 men students accepted as pledges of Alpha Phi Omega, national scouting fraternity, at Texas Technological college. Williamson is enrolled as a freshman business administration student in the division of commerce.

AGGIE BRIEFS

Committee Election, Nov. 13, 1942

Committeemen who will lead Briscoe County's farmers in next year's AAA and Food for Freedom programs will be elected Friday, November 13, according to Otis Wilson, Chairman, Briscoe County AAA Committee.

A Red White and Blue color scheme was featured in decorations while vases of gorgeous dahlias enhanced the color scheme. The table was covered with a dainty handmade lacecloth, each corner of the table was adorned with graceful love knots of red, white and blue ribbon. As a background were two small American flags, and crystal candlesticks holding red, white and blue candles. Floral appointments featured a centerpiece of red white and blue carnations. Mrs. T. R. Whiteside, the brides aunt, assisted by Mrs. Wylie Bomar poured tea. In the receiving line were the bride, her mother Mrs. R. E. Douglas and Mrs. H. S. Sanders. Miss Mary Dee Mercer a friend of the bride presided at the lovely hand painted guest book, which also gave emphasis to the color scheme.

The bride was attractive in a pretty black faille, with colorful corsage effect of beads, accented by a corsage of yellow roses in her hair.

About seventy guests called and many sent gifts. A unique gift from a group of friends was a silver paper bag tied with red, white and blue ribbon, containing silver coins to be applied to her silver service. A card with the donors names read —

Dearest Gav —
We'd have you know
This is no "gag"
There's bits of silver
In this bag.
So, select your own
In "pieces of eight"
Your favorite pattern
Of silver plate.
Also we would have you know
We wish the best for you
and Joe.

Each farmer in Briscoe County is urged to attend the election for his or her community.

New Machinery Quotas Cut

Don't count too much on getting new farm machinery because new stuff will be scarce in 1943.

That's the word the Texas USDA war board is getting out to Texas farmers this week.

Basis for the announcement is incorporation of WPB's concentration program and limitation order which transfers manufacture of farm machinery from larger to companies to small and intermediate producers, and cuts production by approximately 50 percent over the previous limitation order.

In explaining the new program, the war board said that quotas for new machinery would be held to 20 percent of the 1940 production while repair parts would be allowed at 130 percent of that year's production.

Although total manufacture of new machinery during 1943 will reflect 20 percent of the 1940 production, only 75 percent of the material has been allocated at the present time.

The balance of 25 percent will be distributed later on the basis of efficient use of existing inventories, available labor, and to correct inequities between producers of approximately the same size and type which might otherwise develop.

LIGHT VOTING IN GENERAL ELECTION TUESDAY

Only 276 persons took the time and trouble to vote in the General Election Tuesday, according to the election returns.

W. Lee O'Daniel was elected. Nuf sed!

The Constitutional Amendments in which considerable interest was shown over the state were all passed.

"AIR RAID WARDEN" TO SHOW AT PALACE THEATRE

"Air Raid Warden" a special educational feature show will be shown at the Palace Theatre on Wednesday night, November 11th. Every civilian defense worker is urged to see it as a part of the training course.

The show is free to all.

ATTRACTIVE AUTUMN BRIDE HONORED AT TEA & SHOWER

Mrs. Joe L. McWilliams the former Miss Gaynelle Douglas was honored Monday afternoon, October 26, with a formal tea and shower at the home of Mrs. H. S. Sanders, assisted by Mesdames George Weast, Wylie Bomar and Edd Thomas.

A Red White and Blue color scheme was featured in decorations while vases of gorgeous dahlias enhanced the color scheme. The table was covered with a dainty handmade lacecloth, each corner of the table was adorned with graceful love knots of red, white and blue ribbon. As a background were two small American flags, and crystal candlesticks holding red, white and blue candles. Floral appointments featured a centerpiece of red white and blue carnations. Mrs. T. R. Whiteside, the brides aunt, assisted by Mrs. Wylie Bomar poured tea. In the receiving line were the bride, her mother Mrs. R. E. Douglas and Mrs. H. S. Sanders. MRS. PAUL ROGERS HONORED

Mesdames Homer Sanders and Edd Thomas entertained at the home of Mrs. Sanders with a beautiful seated tea from 3 to 5 P. M. on last Tuesday honoring Mrs. Paul Rogers. The rooms were attractive in a fall setting of chrysanthemums in colors orange and bronze. The dining table was covered with a lovely hand made lace cloth and centered with a beautiful arrangement of fall flowers. Red tapers burned from crystal candle holders.

Words of appreciation of Mrs. Rogers as a neighbor was given by Mrs. Whiteside, as a member of the War Bond Club by Mrs. M. C. Tull, as a member of the 1925 Study Club by Mrs. W. Coffee Jr. and as a member of the church by Mrs. T. J. Craft.

Mrs. Rogers was presented with a number of personal gifts from her friends, for which in her gracious manner expressed her appreciation. Mrs. Whiteside poured tea, which was served with dainty sandwiches and small cakes. Corsages of small yellow mums were given to each guest.

Mrs. Rogers during her three year stay here has endeared herself to everyone - she has been active in many worthwhile activities, and has given her best in making Silverton a better place to live. She with her family moved to Colorado City last week, where they will both teach in the high school.

C. C. CARPENTER TO ROBY WITH FSA

C. C. Carpenter, who has been FSA supervisor here for several years, left Tuesday for a new job in the same capacity at Roby. The Roby office is second largest in the district. To date no one has been appointed to serve as the Briscoe County Supervisor.

More Information On Registration For Gas Rationing Nov. 12-14

PANHANDLE MAN TO HEAD SILVERTON SCHOOLS

F. M. McCarty of Panhandle, Texas, has been employed by the school board as Superintendent of Schools and will take over his work Monday morning. Mrs. Ben O. King, who has been acting as superintendent since the resignation of Mr. Rogers, will remain on the faculty.

Mr. McCarty resigned a position with the Pantex Ordnance Plant to take the superintendent's job. He was formerly Superintendent of Schools at Haskell, Texas and also at Medicine Mound. He is well recommended by his former boards and seems a very capable man. Silverton is very fortunate to secure a man of his calibre in the middle of the term.

The McCarty family consists of Mr. and Mrs. McCarty and three children, two of whom will attend school here. The family will move as soon as a suitable house can be found.

AN EVENING OF MUSIC

Piano and voice students of Mrs. R. Wilkerson will give an evening of music next Monday, Nov. 9th, 1942 at the High School Auditorium at eight o'clock. The public is cordially invited to attend and lend encouragement to these young musicians. In these turbulent days let's not overlook the value of cultural and refined arts on the young people of our community. Be present and give them a glad hand. This will be the first appearance for several of these students and they need and deserve a good audience.

RED CROSS AIDS IN PREPARING FORMS

American Red Cross Field Directors at Army posts and local chapters will assist soldiers and their dependents to prepare the official application form under the servicemen's dependents allowance act signed by the President June 23, 1942, it was announced.

Chapter Home Service workers and Field Directors are being supplied by the War Department with the official forms and a booklet explaining provisions of the law.

Application for a family allowance should be made by the soldier in every case where practicable. In certain instances, however, the application may be made by relatives or dependents.

Soldiers on duty overseas may obtain application forms from their commanding officers. Relatives or dependents may obtain application forms from the nearest army installation or their local Red Cross chapter.

If the application is made by a person other than the Serviceman, documentary evidence must accompany the application. On the other hand, if the soldier himself makes the application he is allowed six months in which to furnish documentary proof to the War Department. Field Directors will assist soldiers, and chapters will aid dependents in furnishing this evidence.

Pending the grant of allowances to dependents of servicemen, Red Cross chapters in nearly 4,000 communities are prepared to aid families who might otherwise suffer hardship because of the soldier's military service.

Senior Class News

The Senior Class wishes to take this means of thanking everyone for the help and cooperation given them in preparing and making a success of the Halloween Carnival.

The Senior candidate Dorothy McMurtry won the Queen's race with a total of 4700 votes.

The total amount the Senior Class took in was \$76.56 before expenses were paid. Part of this money will go to pay the expenses of the school.

For the boy in service- Playing cards with his name on them. Also stationery with his name and branch of service printed on it. At the Briscoe County News Office.

SERIAL NUMBERS OF TIRES MUST BE GIVEN IN GAS RATIONING PROCEDURE

More information was received this week concerning registration for gasoline November 12, 13 and 14.

The registering is to be done by the person in whose name the car is registered if possible.

The gasoline rationing is strictly a tire saving move, and no one will be allowed to register who has more than five passenger car tires in his possession. When the owner registers for gasoline the serial numbers of all his tires must be given.

While the registering is scheduled for three days, November 12, 13 and 14, in all districts excepting bays are from 9:00 A. M. to 6:00 P. M.

The teachers are donating their time and all who can are urged to register the first day, in order to interfere with the school work as little as possible.

The Briscoe County Gas Rationing Board is J. V. Peeler, Ray Persons, and Roy Teeter. These gentlemen can answer your questions.

NOTICE TO WALLACE CAR OWNERS: Please come to Lakeview the 12th of November to register for gas rationing.—Lee Deavenport.

cept Silverton there will be only one day to register at the nearest school house. After November 12 one can register only at the Silverton or Quitaque school house.

BILL NORRIS WEDS A GALVESTON GIRL

A letter came this week telling of the marriage of Bill Norris, son of Mr. and Mrs. C. W. Norris of Silverton to Miss Betty Louise Dee of Galveston, on October 27. This is just about the best wedding story we have ever received, and here 'tis:

Dear Mr. Hahn:
Pon my word of honor, I'm not to tell for a week—but what a scoop—gah!

William Wilks (Bill) Norris, of Silverton, and Miss Betty Louise Dee of Galveston were married in the Episcopal Church at Galveston, on October 27.

Only the parents of the bride and her brother, Robert, and Mr. and Mrs. E. Covey Nash witnessed the ceremony.

The bridegroom was attended by Mr. Marvin Fairchild, and the bride by Miss Gloria Newton.

Bill is stationed in Galveston with the U. S. Coast Guard.

x x x That's all I know to tattle. Please send me a paper and I want to subscribe for a year. How much?

Please start sending as soon as possible. (I don't want any back issues.)

If you don't trust me (and why should you after reading my first paragraph?) I will be able to contain myself until I can send you a check for the proper amount.

Very truly yours,
Mrs. E. Covey Nash
(Pauline Buchanan)

Thanks for the "scoop" Pauline—and congratulations to Bill and Mrs. Bill.

HARLEY REDIN ADVANCED

Harley Redin was one of many successful candidates, who having completed their preliminary flight training, have moved to Corpus Christi for the course which leads to the award of the coveted "wings".

Redin has already demonstrated his ability to handle basic aircraft. The training at Corpus will enable him to learn the theories of aviation warfare, from radio code to cross country flying by instrument.

Services of the American Red Cross to the armed forces are free. They include giving service men information, counsel and assistance in personal problems.

NEWS from the BOYS IN SERVICE

RED" GILKEYSON writes somewhere in the Pacific. Hello Roy, Will drop a line to let you know all is well here, and the boy is really O. K.

have been getting the paper along, and am glad to hear the rest of the fellows in service are getting leaves to come home. Well every dog has his day will take mine when I get back the states. Duty here is O. K. salary is \$78.00 base pay but get 20 percent of base pay for seas duty, which makes \$60 a month. Well Uncle Sam save that 20 per cent if he will put me back in the states. I see this army life, there is future in walking in dirt. Navy is much cleaner for we have the water we need, although it is a bit salty.

Say those Lee brothers are doing O. K. just tell them to keep up good work.

well as all news is a military secret will close. Keep sending the paper. Tell all hello."

Herb Herndon visited his father Charles Herndon and family the week end.

ST. ALTON B. WALKER writes, "Dear Mother and all — I had a letter from you in several days. I am getting along OK. They have moved us out to a small camp, where we learn more about machine guns and turrets. This camp is ten miles from Geiger Field and there are about three hundred men here. It is to be a CCC camp and the buildings are old and we use them for our fuel. Some of the men have to take every little bit of their back together blindfolded. We have sure been studying hard since we have been here. We can hear the machine gun turrets. I have sure learned a lot about them since I come out this camp.

can take a machine gun, take my pin spring and everything else and name them and put them together with my blind fold. It was hard at first but not so now.

Well, I must close I have several letters to write."

DE BOYS TO ARMY THIS WEEK

Several more boys from Silverton have joined Uncle Sam's army this week. They are:

Raymond J. Hopper
Robert E. Watley
Billie Francis
Richard McGowan
Candy Tyler
Wilton Chappell
Raymond Heim
Dexter Merrell
Emo Baird
W. Woods
Gene McGavock
Lede Morris

According to R. E. Brookshier, Silverton office has gotten 176 men. There are several enlistments that haven't got back to the home office yet. It is thought that the county has over 200 men in service.

ENLIST AT LUBBOCK

The Recruiting Station in Lubbock has announced the enlistment of two more Briscoe County boys in the Army. Wade McGavock of Silverton will serve as an Army Specialist, and Orvis Red enlisted in the Coast Artillery.

According to Major McCollom, Texas has a higher percentage of enlistments than any other state in the five states that make up the Eighth Service Command.

INFORMATIVE SERIES TO RUN BY TULL

This week on the back page of the Tull Implement Company is starting the first of a series of informative articles concerning the care of your tractor. They are interesting, worthwhile and written by A. P. Peck of the Scientific American. They are published by Mr. Tull in the belief that you may benefit thereby. It suggests too, that if you are sending repairs for your tractor to be done at once, because of the quality of mechanics and parts.

ARMISTICE DAY is next Wednesday. In these hectic days of war we are pretty apt to forget those boys of 1918 that brought about the Armistice. Every day sees new heroes made. Not one of these 1942 heroes would detract one iota from the glory won by their fathers and older brothers on the battlefields of France.

IN 1918 ONE could almost say that it was man to man. Gains in that war were measured in yards, not miles. Europe had been fighting a war nearly four years when the American doughboys arrived on the scene. In the spring of 1918 the Germans staged their most desperate drive for Paris. Also in the spring of 1918 the main body of Yanks went into action — and they wound it up that fall by forcing Germany to an Armistice and an unconditional surrender.

JUST TODAY I heard a fellow say, "Yeah, they quit too soon." No they didn't quit too soon. They started, and they didn't stop until the enemy was flat on his back. No country could ask more of its fighting men.

THE SAME tribute cannot be given to the after-war leaders, however. By many acts they did

quit too soon. By bickering, and by the wish for revenge they turned the unconditional surrender back again into an Armistice — an armistice that lasted for 22 years.

IN THIS WORLD War II, or as is really the truth the second phase of the World War, America is demanding more of its post-war leaders. This war must be the end of wars. We must not squander the lives of thousands of young Americans merely for a truce that will last only until the enemy has had a chance to regain his fighting power.

IN MY OPINION THAT lasting peace can be had only by completely destroying the German nation as a political power. In theory, however, that peace can be obtained by making the peace so fair and noble that the conquered Axis nations will be just as well satisfied as are the victors. That kind of peace is one according to the Good Book and the rules therein. That is the real peace to be desired. Whether the world is ready for that peace remains to be seen.

THE BIBLE SAYS, "If thine enemy smite thee on the cheek, turn the other cheek." Well Germany smote us on the one cheek and we were foolish enough to turn our head — and while our head was turned they kicked us in the seat of the pants. So now what?

THE HAHN FAMILY had a very fine Christmas trip. The fly in the ointment was the fact that the Kansas relatives were not notified in time to have up a tree. No tree, no Santa, no gifts — what a Christmas.

REALLY THOUGH, I believe that was the shortest week I have ever known. For once I never worried about the "Paper getting out" and sure enough it got out — just as well, if not better than if I had been here. In truth, I have had many of the fellows tell me that Sanders really put old Yours Truly in the shade — and as I warned — several of the gals haven't caught their breath yet.

SOMEWHERE IN THIS column I have a story clipped concerning the taxes we will be paying soon to help pay the war. I still think and say, that the only way to get in the dough is from a national sales tax. We are all expecting a little higher price on commodities and a 5% sales tax would never be noticed. It would be fair to all. It would be collected right on the spot — and in all instances income taxes are going to be hard. I don't mind paying taxes, but if possible I want to pay them just as painlessly as possible.

JUST WHY THE Administration is so set against a sales tax is more than I know. It's probably more than they know. Most assuredly they wouldn't object to putting on the extra clerk hire it would take to keep track of it.

THERE ARE STILL three million unemployed in the U. S. The red tape of the gas rationing program should enable us to give them jobs. That will be a labor Utopia. Think of it. Or have you?

GARLAND BROWN (Those to some of you) just came in. He is a chip off the old block, cause here he comes with a yarn — He is located at San Luis Obispo in California. That is a Portuguese name and according to Thuse it got its name from a Portuguese maid who was being wooed. And I mean wooed. She said, "You don't keep me like you luff me, you keep me like the American do." And that according to Uncle Sam's No. 1 ranking soldier, is how his camp got its name.

TAXES: Two out of every five Americans — some 50,000,000 persons — will pay direct taxes next year in contrast to one out of twenty not many years ago. Although there are few, if any, complaints to footing the Biggest Tax Bill in history the payments will be staggering to many persons. A stenographer making \$100 a month will pay \$150 — one and one-half

month's salary. A mechanic earning \$50 a week will owe \$450 — nine week's pay if single, or, if married, more than \$300 — six week's pay. A single individual earning \$8,000 a year will turn over better than a fourth of it. In other words, from January 1 to April 1 he'll work to pay what he owes the government. And for the average American family of four if annual income is \$2,500, the tax will be about \$159. On top of all this is a five per cent Victory Tax on all earnings over \$624 which will come out of the pay envelope. What's worrying some tax experts is that very few persons will have saved enough money to meet the tax burden and that defaults will be many. One means of correcting such hardships, they argue, is deduction at the source so that the taxpayer can "pay as he goes." Adoption of the Ruml plan, they insist, is the way out without upsetting this year's tax schedules. That's the plan that would skip one year's taxes so that next year's levies would be paid out of next year's incomes. As Americans dig deeper, sentiment is certain to increase so that tax payments can be made while one has the money.

Vigo Park News
Last weeks news

Pvt. T. J. Rogers returned to Mitchell Field, New York on Wednesday of last week, after visiting his parents for two weeks.

Mr. and Mrs. Norris Hill of Amarillo were visiting in the Fred Latham home over the week end.

Mrs. R. N. McNutt is visiting her grandmother who is very ill

THAT "HATE TO WORK" FEELING
Does your work here to wait because you "don't feel like doing anything"? This feeling may be due to delayed bowel action. Give those lazy bowels a gentle nudge with ADLER'S 3 laxatives and 5 carminatives. Buy ADLER'S today, your druggist has it.

BOMAR DRUG STORE

at Friona this week.

C. H. Rogers is visiting his sister, Mrs. Pat McCoy at Flagstaff, Arizona. He plans to hunt deer while there.

The Vigo Park store has been improved with a cement driveway at the front.

Mr. and Mrs. E. F. Simpson returned from Savannah, Mo., this week. Mr. Simpson received medical treatments while there and is much better.

Miss Letha Hastings was a week end guest of Mrs. Jack Hale.

The Vigo School will have a program Friday night beginning at 7:30.

The San Jacinto school will have a pie supper and party on Friday night.

Mr. and Mrs. Homer Sanders and the Fisher family visited in the H. T. Gill home Sunday.

Mr. and Mrs. Woodrow Bice and Edwin and Jeanette visited in the Pete Jones home Sunday evening.

Mr. and Mrs. Raymond Heim visited in the Clarence Gill home Sunday evening.

Mr. and Mrs. Chester Burnett, Joe Ed and Billie Ann visited in the W. J. Heim home Sunday evening.

Lloyd Heim visited in the E. F. Simpson home here Sunday.

FARMERS ARE TO PLAN AHEAD

Now that all the grain elevators are full of wheat, and most of the bins on the farms are full, the farmers may well expect a more acute storage space for storing grain next year. The wise farmer will begin now to build bins adequate to take care of his 1943 wheat crop. He will have the winter months to gather materials and build sufficient bins for storing his next crop. He should not wait until near harvest to attend to this matter that doubtless will be his own individual problem. Things will not be normal for a long time to come; so every farmer will have to look ahead and plan in time to meet his own needs in the matter of storage for wheat.

There will be some lumber and cement available from time to time which the farmers should be able to purchase on priorities for graneries. When such materials are available, it will be wisdom to purchase them at that time. Others may be able to find good building stones in the canyons with which they can construct bins that would meet government regulations for bins. All in all it will be farsightedness if the farmers will take advantage of time

that is now on their side, and have their bins ready to store the 1943 wheat crop. Those who wait until harvest comes, and have not made their own bins, may find themselves in a much worse plight than they experienced in 1942.

I.E.S. Floor Lamps Makes SEEING Easier

Yes, an I.E.S. Floor Lamp does make seeing easier. All I.E.S. lamps have to meet the specification recommended by the Illuminating Engineering Society before it can carry the I.E.S. tag. This tag attached to a lamp means you are getting the best lighting the Illumination Engineering Society has been able to devise.

We now have a few 1942 ALL-METAL I.E.S. Floor Lamps on our sales floor. Take advantage of this last opportunity to purchase these ALL-METAL FLOOR LAMPS. STOCK IS RATHER LIMITED, SO COME IN AT ONCE AND MAKE YOUR SELECTION. For the convenience of our customers, terms may be arranged.

Mrs. Miner Crawford came in Monday for a short visit with her son Wayne and with old friends. She plans to remain several days before returning to her home at A. M. Allred & Mr. and Mrs. Judd Mineral Wells.

All America Knows
Budweiser...
but Few Know This

THE STORY OF BREAD

may well be called **The Story of Civilization**

Bread, the most venerable of prepared foods, has helped man, and man in turn has bettered the quality of his staff of life.

YEAST is the life of bread... and the story of yeast is the story of scientific research, uniform quality, mammoth production, modern refrigeration... and daily delivery to bakers in every city, town and village throughout the land... even by boat, by sled and by plane when other transportation is interrupted by floods and blizzards.

Anheuser-Busch is one of America's biggest sources of baker's yeast.

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

Endless research in making the world's leading beer has led to other products

VITAMINS, B COMPLEX—For manufacturers of pharmaceutical and food products. Our plant is one of the world's largest sources.

VITAMIN D—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

CORN SYRUP—many millions of pounds annually for America's candy industry.

SYRUPS—for food, table and confectionery uses and special syrups for medicinal purposes.

STARCH—for food, textile, paper and other industries—millions of pounds annually.

VITAMINS FOR LIVESTOCK—We are America's biggest supplier of yeast vitamins used to fortify animal feeds.

REFRIGERATING EQUIPMENT—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed Forces.

DIESEL ENGINES—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.

T. R. Whiteside

Attest:
M. K. SUMMERS
City Secretary.
(Seal)

Mrs. M. C. Tull returned Tuesday from Plainview, where she has been at the home of her parents with her grandmother who is critically ill.

Mr. and Mrs. Clyde Wright transacted business in Childress and Shamrock on Saturday.

Services of the American Red Cross to the armed forces are free. They include caring for the welfare of families of Uncle Sam's warriors.

In the Hope Of Helping Our Farmer-Friends, we are presenting this series on

FARM TRACTORS IN WARTIME

Tractors Are Important War Machines.
(First of a Series of Six Articles)

By A. P. Peck
Managing Editor, Scientific American

Although the farm tractor never plunges into the thick of a pitched battle, it is nevertheless a war machine, an indispensable unit in the production of the food and fibers that make it possible for war to be carried on. Today the farmers of the United States are striving to meet a 25 percent increased demand for these

A. P. Peck

materials, with less labor available than ever before, yet the tractors which are so helpful in so many phases of agriculture are being produced in ever-decreasing quantities. Hence it stands to reason that any measures that can be taken to promote top efficiency in tractor operation and to decrease wear on the machine should receive close attention. Only by such means can the farmer hope to keep up with the demand for his products and, at the same time, be fairly well assured that his tractor will last for the duration.

There are today some 1,800,000 farm tractors in use in the United States. Should only a small percentage of these suddenly break down, it would be an agricultural calamity of no small magnitude. Sure, something that can be done to prevent such a happening and will come under the heading of "war effort." Therefore, the six articles of this series will point out the various ways in which the farmer can get the most service from his tractor, regardless of make or type.

Many tractor engineers will tell you that the most important factor in tractor operation is the fuel that you use. Not only does a high-grade fuel give more power than a low-grade material, but the increase in power is obtained with a decrease in wear on the working parts of the engine. If a tractor that has been running on kerosene or

distillate is operated on gasoline, without any changes in the engine except colder plugs and adjustments of the carburetor and the heat control on the manifold, an immediate increase in power up to 12 percent will be found. This may not seem much, but it is a step in the right direction. If a tractor engine that was originally designed to burn distillate is converted to high compression (a conversion process that will be discussed in greater detail later in this series), the gain in power may become as great as 30 percent.

Recent laboratory and field tests made by research engineers have not only confirmed these conclusions regarding power as affected by fuel, but have also revealed some noteworthy facts regarding the wear on tractor engines when different fuels are used. In these tests two tractors were employed, one operated on distillate and the other burning gasoline. After more than 3000 hours of operation for each engine, they were taken down and the parts carefully studied and measured. The distillate-burning engine showed 89 percent more wear on rings, 135 percent more wear on pistons, 66 percent more wear on cylinder walls, 121 percent more wear on crankshaft journals, and 135 percent more wear on crank pins.

To these figures regarding engine power and wear the research men added the facts that the distillate-burning engine showed heavy oil consumption, that the engine ran hot, and that many more repairs were required on the distillate-burning engine than on the gasoline-burning one.

(NEXT WEEK: Taking Care of Your Tractor)

Now is the time to bring in your tractor for genuine L.I.C. repairs and Blue Ribbon service. Repairs and mechanics are getting scarcer so do it now!

THURSDAY ONLY

will be our buying day, unless notified in advance.

If you are pretty busy, I will haul your hogs any day for a nominal hauling charge.

We pay highest possible prices at all times.

Silverton
Hog Market

ATTENTION

We are in the market for a limited amount of 1941 & 1942 Government Equities.

Bring Your Papers.
