Published Weekly at Silverton, Texas

Volume XXXV Number 33

MAKE EVERY PAY DAY BOND DAY

HEY, KIDDIES!!
It's time to write your letters to Santa Claus, and we want to print them in next week's Briscoe County News. It is to be a very Special Paper and a copy will be sent to Santa Claus at the North Pole, by air mail and special delivery too. He will read every letter in the paper and that way he will know just what you want for Christmas.

We got a letter from him yesterday and he said, "Please have every boy and girl write to me again. The letters last year from Briscoe County were the best I received. Tell the kiddies to keep on buying war stamps, cause Old Man Hitler would sure like to stop me from coming around to see you. Already he has messed me up till I won't be able to bring much candy, and there are lots of toys that I won't have time to make, cause so many of my workers have gone to fight in the Army and Navy. I know you kiddies will understand how it is won't you?"

Lloyd Sherman First Home Boy Killed In Action

Local Boy Loses Life On Guadalcanal

FIRST STAR OF GOLD
By Mrs. Walter Watters

He wasn't any fighting cock, he didn't blow or brag; And when they told him he must go, he didn't chew the rag. He simply said, "If I must go, I'll do the best I can," With a smile on his face he marched of like a man.

We hardly thought of him again until one day we read his name. On the honor roll among the honored dead And then we thought of him a lot, for then we understood; How he had paid the fighting debt for all our neighborhood.

When the Pacific is safely crossed and Heaven's heights are won. I know, that he will be waiting there to tell how 't was done.

For I can only think that when the Japanese shot him down, The angels took his helmet off and handed him a crown. His deeds may never live among those deeds of lasting fame, No high and costly monument, may ever bear his name, But we, who knew him here at home, in memory will hold The name that gave our neighborhood Its First Bright Star of Gold.

A RESOLUTION OF SYMPATHY

WHEREAS, Mrs. E. H. Stephen has been officially notified by the War Department that her son, Frank Lloyd Sherman, has been killed in action in the defense of his country,

AND WHEREAS, Frank Lloyd Sherman, was known and loved by all,

AND WHEREAS, he died in the defense of the things we hold dear, THEREFORE, we, the Silverton Lions Club, do wish to extend our deepest sympathy to you, Mrs. E. H. Stephen; and we salute you as the mother of one whom we shall miss greatly; one who has inscribed his name on the national roll of honor by giving his life for his country.

Silverton Lions Club

LIBRARY NOTES

The Library is open Tuesday and Saturday afternoon from 12 to 5 P. M. Mrs. O. T. Bundy is the librarian.

A list of new books in the library are:
The Robe, by Loyd C. Douglas
The Raft by Robert Trumbell
The Days of Ophelia by Gertrude Diamant
The Gay Sisters by Stephen Longstreet
Junior Miss by Sally Benson
So Your Husband's Gone to War by Ethel Gorham
The Seventh Cross by Anna Seghers
Big Spring by Shine Phillips
Billy Mitchell by Emile Geavnean and Lester Cohen
They Were Expendable by W. L. White
Sergeant York by Sam K. Cowan
Santa Claus in Santa Land by Dr. Harold W. Trout

There will be a Christmas tree for the Library this year and the Library Board is hoping that our patrons will give a book for a Christmas present for the Library. At a later date to be announced later, the Library will have a tea for the general public and the Christmas books will be opened and displayed.

GIVE A BOOK TO THE LIBRARY THIS CHRISTMAS

The Haylake Red Cross chapter has set their next meeting date up until after Christmas, owing to the pretty weather and everyone busy in the crop and cotton gathering. We are proud of our achievements both as a group and individual help and donations. Mrs. Auther Grewe donated three pairs of feather pillows and a quilt top to the chapter this week.

TRY OUR WANT ADS

The war was brought home forcibly to Silverton folks this week with the report from the War Department that Frank Lloyd Sherman was killed in action in the Guadalcanal area sometime in November. The telegram was received here by his mother, Mrs. E. H. Stephen early this week. Sherman was serving as Hospital Apprentice, first class, with the United States Naval Reserve. He was the first Briscoe County boy to volunteer after war was declared and the first reported to have lost his life in the defense of his country.

Frank Lloyd Sherman
Frank Lloyd Sherman, H. A. 1-c was born September 10, 1920, and departed this life while actively engaged in the defense of his country sometime in November 1942 in the Guadalcanal battle zone. He was 22 years old.

Lloyd finished High School in 1941, and served as Assistant Scoutmaster and a member of the Home Town Fire Department. He was assistant carrier for the Silverton-Quitakee mail route.

Lloyd was an exceptional young man and had a stubborn and tenacious disposition that caused him to finish whatever work was at hand regardless of the difficulties involved. It is this writer's opinion that this "do or die" attitude carried him into the thick of the fighting.

When the details of his death are learned it will be found that he was the same Lloyd we knew, doing his job for his country up and beyond the call of duty, regardless of the cost. The United States Navy has lost a good fighting man, and Briscoe County has lost a fine young man.

He is survived by his mother and step-father, Mr. and Mrs. E. H. Stephen, one brother Pfc. W. T. Sherman and an uncle, Sgt. Arnold Cooper, both in the United States Army; his step-grandfather Dr. S. T. Cooper, and many other relatives and friends.

Mrs. Stephen is our first Gold Star mother, and the sincere sympathy of the Briscoe County News and the entire community is humbly offered, at a time when she is undergoing the greatest trial a mother can know.

CARD OF THANKS

Words cannot express the appreciation of the comforting words beautiful cards and great sympathy extended to us from our friends and neighbors in this hour of sadness in the loss of our son, brother and nephew, Frank Lloyd Sherman, but he died in trying to help keep our freedom, so let us be brave and keep our eyes forward and try to follow his favorite poem "Crossing the Bar," by Tennyson. May God Bless each and everyone who will be our prayer.

Mr. and Mrs. E. H. Stephen
Pfc. W. T. Sherman
Sgt. Arnold Cooper
Dr. S. T. Cooper

PAGEANT AT FIRST BAPTIST SUNDAY EVENING

The entire preaching service at the First Baptist Church will be given over to a pageant, "Christmas Gifts — Hers and Ours." It is a special mission program and a special contribution will be made for missions. Rev. Brian issues a cordial invitation to all to attend this pageant.

The Hale Center bank robbers were caught Tuesday afternoon at A. L. Durhams store at Antelope Flat. Sheriff Wright of Clarendon arrested them. They were escaped convicts from the New Mexico Penitentiary. It is not known if they money was recovered.

The L. T. D. Club met Tuesday afternoon with Mrs. Jeff Peeler. The defense stamps were drawn by Mrs. Arnold Brown. The next meeting will be the Christmas party with Mrs. Dutch Tidwell.

Mr. and Mrs. H. S. Sanders visited friends in Quitakee Sunday.

Many Paying Up On Special Offer

December is here and with it the reminder that perhaps you have not paid your subscription to the home town paper. If your name shows a date of 11-42, then your subscription is already in arrears. The special offer will probably last until Christmas but it will be appreciated very much if it is paid up as early as possible. As usual all subscribers in arrears at the end of the special offer will be removed from the list.

Several folks have been in the past few days and renewed their time, and it is appreciated very much. Many have renewed their daily paper at the News Office, and thereby saved another 50 cents if you are taking a daily and wish to combine the Briscoe County News, just add 75c to the price of the daily and that pays for both, for a full year.

We want to thank the following for their subscriptions:

MRS. A. G. TADLOCK HONORED WITH SHOWER

Mrs. A. G. Tadlock was honored with a miscellaneous shower Saturday afternoon at the home of Mrs. C. C. Garrison. Mrs. Jim Bomar, and Mrs. R. E. Stephens were co-hostesses.

The guests were met by the bride Mrs. A. G. Tadlock, her mother Mrs. Fred Elliston, her grandmother Mrs. T. L. Anderson, her two aunts Mrs. Bob Campbell, and Mrs. M. P. Stone and Mrs. C. C. Garrison who were in the receiving line. Mrs. Jim Bomar presided over the register and ushered the guests into the room where Mrs. R. E. Stephens displayed the gifts. Miss Cleo Garrison presided at the punch bowl. A color scheme of red, white, and blue was carried out in the appointments.

FOR MERCY'S SAKE

The Briscoe County Chapter of the Red Cross is sorry to lose Mrs. Homer Sanders, our chairman of War Relief Production. She has resigned for other duties. Mrs. Sanders has devoted much time and work for a good cause. Mrs. A. T. VanMeter of Quitakee will be the new chairman, with Mrs. Fred Lemon of Silverton as her assistant. Lets give these new officers our whole hearted support.

The Kit Bag program is one of the most important projects in the Production Department at the present time.

The army has requested a Kit Bag for every enlisted man going on overseas duty, to give him at the point of embarkation.

There will be 400 such kits shipped from this chapter this week. The Silverton women have been working this week, packing and getting them ready for shipment. There is a Kit in Whitesides window for the public to see. We would be glad for people to see this Kit and what goes in them. Don't forget your dollar has filled one of these and your name goes along with it.

As the months of War go by we are coming to learn that every condition of daily life are affected by it. We know now that supplies and materials of kinds must be regimented and conserved.

In the knitting program for instances, the Army and Navy estimate what kind of knitted garments they will need and how many of each kind. On receipt of this information Red Cross goes to the War Production Board and asks for priority on knitting yarns. Last year they were allowed priority on 1,350,000 pounds which was enough to supply the actual needs of the Army and Navy. Tho not enough to allow all the eager workers to knit incessantly. The 1943 Knitting Program has not been settled, but there it a better understanding of the situation.

— Mrs. Marvin Tull

Mr. Homer Sanders was ill Wednesday and unable to at work.

MRS. SCOTT DUNHAM HONORED WITH SHOWER

Mrs. Scott Dunham was honored at a seated bridal shower at the home of Mrs. Robert London Monday afternoon with Mrs. D. H. Yancy as co-hostess.

The guests enjoyed several games during the afternoon. The bride especially enjoyed one game of "Treasure Hunt" which in the end lead her to the destination of many lovely gifts. Lovely refreshments of Hot Chocolate and cookies were served to a large number of guests.

FIRST BAPTIST CHURCH ORGANIZES BROTHERHOOD

At a WMS banquet November 30, a Baptist Brotherhood was organized with the following charter members: W. L. Brian, Edd Brown, Elma Seaney, H. P. Rampley, Charley Chappell, Paul Ledbetter, Luther Campbell, Milton Perry, Grady Wimberly, Dalton Brian, Bud McMinn, W. A. Stephens, Lee D. Bomar, Curtis Wimberly, Edsell Hutsell, Leavis McMinn and R. H. Stodghill. Mr. White was a guest.

Sherman Wright (colored) of Quitakee left Wednesday forserving according to the draft board. He's the second negro to be called from this county.

read that a few men are killed, you think little about it. But if you had been with the men to know them, then each one that dies has an added meaning. I get the feeling that we, living, aren't doing enough for those who have died for us. Do you give all of this war much thought, Charley? I'm not being critical for I know I'm not being critical for I know I was indifferent when I heard about the Russian and other losses. It's easier to do so far away from the front. I didn't know what difference it would make in your profession except if you ever hear some one complaining about being called by the draft board. You can tell them that we out here think we have a country worth fighting for and they should too. I know that my relatives and friends and government are worth all I can give and I'm ready to do what ever comes my way which will help win the war.

I hope you will do your part by teaching children to be better citizens and neighbors - to do that they must become educated - to understand their government and people, and try to see the other fellows viewpoints as well as their own.

I guess I get off the beam on the war situation as I see it. How did you like the outcome of the world series? I'll bet you either won or lost some money on it. No? I didn't. I send most of my money home. I have lost a few bets on the Aggies. Darn it.

If you see Carol Gunter or any of the Brooks or Bingham tell them hello for me.

NEWS from the BOYS IN SERVICE

IT'S STAFF SERGEANT now for Buster Harris and also for his brother Marvin (Red) Harris.

M. L. GUNTER, who formerly taught school at Haylake a few years ago, sends a very interesting letter from the battle zones of the South Pacific. The letter was passed on to the Briscoe County News by Charley Biggs:

Dear Charley and Hazel - I have been very neglectful about writing I appreciated the lengthy letter I received from you months ago.

Life in the navy has been quite different from life as a country school teacher. I have expanded my knowledge of the green geography book we used in the sixth grade. Only a few pages were devoted to the South Sea Islands - I could write many pages about them now. As the book stated, most are volcanic origin and coral collections. I have seen only one active volcano in action. Coconut trees are plentiful. I've climbed up into the clusters of coconuts. Hard work though. I blistered my arms, chest and legs because I became exhausted and slipped coming down one. I've found wild limes and lemons, pineapples (green not edible) and bananas. I've seen bamboo and banyan trees. Animals except dogs, cats pigs, horses and cattle, sheep and goats have been lacking. Most of the islands are extremely rugged.

An oddity to me was the fact I had no July 30 th this year. It was skipped, international date time, you know.

In New Zealand we had an excellent time. The people were very friendly. I met one that I especially liked. She was half Spanish but had no distinct Spanish characteristics, except brunette with brown eyes. I'm writing to her now regularly. Maybe some day I'll see her again. They call the street cars "trams". Their money was confusing for awhile. A shilling is approximately 16c. A florin, two shilling. A half crown was about 43c.

I've been in action two different occasions. You get that feeling that you might not see home again. That's the worst part of it. It isn't so bad when you can see damage inflicted on the enemy. On the first occasion we gave them hell plenty. Same thing the second time but not visual to us. I was about ready to check in my chips. We have extremely good fighters in all branches of service. I hope the people in the states realize that this is no picnic, however. The Japs are tough fighters - treacherous and cunning and determined. A newspaper can't give you the clearest picture. When you (continued to next column)

Tull Implement Presents:
FARM TRACTORS IN WARTIME

Gasoline for Less Wear and Tear,
(Fifth of a Series of Six Articles)

By A. P. Peck
Managing Editor, Scientific American

Farm tractors are of tremendous importance to the war effort today, representing, as they do, the farm power required to produce the foods and many of the fibers needed to feed, clothe, and equip not only the Army, Navy and civilian population of the United States but also to a large extent, of our allies as well. It is important, therefore, to know that many farmers who have been

A. P. Peck

operating tractors that burned distillate or kerosene have found that by simply changing from these fuels to gasoline they gained an immediate increase in power of some 12 percent; by high-compressing their engines, this power increase has been pushed to as high as 30 percent. And, what is equally important, since the production of tractors has been severely curtailed and most of those now in use will have to last for the duration, these farmers are finding that gasoline will add measurably to engine life.

In tests recently completed by research engineers, two similar tractors were operated for nearly 4000 hours each, one on distillate and the other on gasoline. These tractors were put to the same type of work for the same periods of time and at the end of the test both engines were torn down and minutely examined by experts. It was found that the engine parts of the distillate-burning unit were worn much more than those of the gasoline-burning engine; rings 89 percent more; pistons 135 percent more; cylinder walls 66 percent more; crankpins 135 percent more; and so on through the list. During these tests it was found that oil consumption of the distillate-burning engine increased greatly as wear continued, that the lubricating oil was badly diluted, showing that there is definitely a link between fuel and engine wear and crankcase dilution. Distillate and other low-grade fuels are difficult to vaporize during combustion. Thus some unvaporized fuel reaches the cylinders and is unburned. This unburned fuel goes down the cylinder walls, passes the pistons, and dilutes the oil in the crankcase. Diluted oil, of course, cannot do its lubricating job properly, and the result is that the engine parts show far more wear than with undiluted oil. And the greater the wear, the more dilution occurs. To these important factors of more power and less wear and tear through the use of gasoline instead of distillate in tractor engines can be added other advantages of interest to farmers. Tractors using low-grade fuels carry two fuel tanks, one for gasoline for starting and one for the fuel to be used after the engine gets hot. This means that two liquids must be handled and stored on the farm. Gasoline means easier tractor engine starting in all kinds of weather, smoother operation, and easy idling. Then, too, it looks at the time of writing as though distillate and kerosene soon may not be available as tractor fuels in many localities, and there will be a surplus of gasoline. The Office of Petroleum Coordinator is investigating the shortage of heavy fuels and it is quite possible that many tractor owners now using distillate may soon be forced to change to gasoline. It is fortunate that those farmers, whether they are familiar with them or not, will soon learn of the many advantages which gasoline has to offer.

(NEXT WEEK: More Tractor Power for More Work)
Now is the time to bring in your tractor for genuine I. H. C. Repairs and Blue Ribbon Service. Repairs and mechanics are getting scarce so do it now. We are pleased to serve you at any time.

Grain Storage

We are now in a position to take GRAIN SORGHUMS for storage, to mature June 1st, 1943.

We can advance 90% of the current market price at 5% interest, if desired.

We want to extend you our best wishes for Thanksgiving, and are glad to have had a part in caring for your crop this year. We are anxious to serve you in the future.

Farmers Grain

to think that our fighting men were getting the full benefit of that money. I don't know what percent they get, but it's not enough.

FOR EXAMPLE — Last week a telegram came from one Ed Nilson pertaining to something about pilot training. I couldn't make it all out and neither could the depot agent. Anyway it came too late to use had I wanted to. I don't know what it cost by buying it through the government, but as a personal telegram it would have cost at least a dollar. That means that over 500 folks had to buy a \$25 bond in order to send that silly telegram to every newspaper in the United States. That telegram is just a drop in the bucket in the whole publicity output of the hundreds of bureaus now in charge. And the whole publicity set-up is just another drop in the wholesale squandering and waste that is going on.

WAR AT IT'S best can break a nation. War as we wage it will do it. When we buy a bond it is with the idea that we may be buying the very gun that will help our soldiers win a battle. If we don't buy that gun, they may lose the battle. But why in the world can't the men in charge see that with less waste at home that bond can

buy two guns? That brings us to the conclusion that all such waste of money is a waste of material, and that waste of material means a useless waste of lives. Doesn't that mean anything?

SILVERTON LOST a boy in the Solomons in November. It is hard to say, but we will lose more. We have taken the initiative and thousands of American boys are involved in active fighting. We will have losses, and must steel ourselves to expect them.

The AAA administration comes in for a lot of criticism, but there is one phase of it that I really admire. They keep some of the best looking gals down there that I know of, which leads up to a story a story of life, and work, and wisdom, and work and wisdom, and wisdom and work and life.

HERE I BREEZE IN looking for Weaver. I never know which office it is which, and so I get into the one that is occupied by H. L. O. Riddell, who is one of those unfortunates who does the work but is not paid for it. Well, as I have said three times, I breeze in. And there sits H. L. O. signing papers with Mutt Martin holding his hand I squints. I stares. I looks closer. And then it is all clear as glass. She's not holding his hand. She is turning the pages for him, and now and then grabbing his hand to keep him from signing on the wrong line.

IF YOU HAVE ever had anything to do with the AAA, you will appreciate the fact that there are several lines on which you can sign. Experience means not a thing, in fact the more you sign the more you had better not sign. All this means nothing to this man H. L. O. Riddell. He signs where the line is. If the line isn't there he signs anyway. Sometimes he signs his own name— sometimes yours. He has a signing complex. You can test it for yourself. Sometime when you have a check that you don't want to sign, ask Harve.

WHICH ALL GETS back to the business I started to talk about. Mutt was turning the sheets. She was not holding his hand. I really believe that. In fact I know that. But — if I had a steno that had a husband as healthy and husky as Mrs. Martin has — darned if I wouldn't turn the pages myself.

NOTE— Any names, persons, resemblances actions, or characteristics found in the above article are purely fictitious, and co-incidental. The management of this newspaper claims no part of it. What can you expect after a midnight snack of sardines, pickles and ice cream?

Francis Locals

A shower was given at the Francis School house Saturday night. Honoring Mr. and Mrs. Grant Barclay and Mr. and Mrs. Billie Harris newly weds. The young couples received many lovely gifts.

Mrs. C. A. Wimberly of Tulia visited her son Carl Wimberly and family last week.

Mr. and Mrs. J. Lee Francis,

Mr. and Mrs. Edwin Crass, Mr. and Mrs. C. A. Simmons and Mrs. U. D. Brown were shopping in Lubbock last Friday.

Mr. and Mrs. D. M. Fitzgerald of Lelia Lake visited their sons F. A. and W. H. the past week.

Mr. and Mrs. Berle Fisch spent Thanksgiving night with Mr. and Mrs. F. A. Fisch.

Mr. and Mrs. D. C. Alexander spent Thanksgiving night with Mr. and Mrs. W. C. Roberson. Mrs. Alexander will be remembered as Miss Rubye Davis. Mr. Alexander is now employed at Shepperd Field.

Mr. and Mrs. F. A. Fisch visited in Hereford Sunday.

Guests in the U. D. Brown home Sunday were Mr. Mack Trotter of Reno, Mr. and Mrs. Si Brister of South Plains, Mr. and Mrs. P. D. Jasper and Dawn, and Mrs. Fred Mercer and Junis

Miss Frances Simmons of Plainview spent Thanksgiving with her parents Mr. and Mrs. C. A. Simmons.

Miss Alena Francis was home this week end. She is attending school in Canyon.

Mr. and Mrs. J. E. Jowell, Mr. and Mrs. C. A. Simmons spent Sunday with Mr. and Mrs. Edwin Crass.

RED CROSS SERVICE

A hotel room with a deep, soft bed and clean sheets, plus breakfast in the morning, all for 50c. A real meal served on a table covered with a white tablecloth at noon or in the evening for 20c. And no tipping allowed!

That is the way Ernie Pyle, foreign correspondents, describes the accommodations provided in Red Cross Clubs overseas.

These so-called clubs are really large hotels for American troops on leave. In London are five with sleeping accommodations for 2300 men and one for 300 American Army Nurses.

Although the hotels actually lose money, they serve their purpose of keeping servicemen happy, Pyle says. They are financed by Red Cross reserve funds and from War Fund donations, and the Red Cross

receives no money from Congress the Army or other organizations.

The Red Cross does not set up canteens or entertainment facilities in the camps, because that is handled by the Army, itself, but the Red Cross clubs are for American soldiers, sailors, marines, or merchant seamen on leave. Usually the man's stay is limited to five days.

Each of the clubs has some device whereby soldiers can find out if anyone else from their vicinity is staying there. Every Saturday night a dance is held at the club and on other nights there are musicals and other entertainment.

CHANGE IN RECRUITING DISTRICT

Transfer of Texas' 26 northernmost counties from the Dallas to the Oklahoma City Navy recruiting district has been completed and Panhandle recruits are being sent to the Oklahoma capital for acceptance, the Navy has announced.

Result of an economy move to cut travel expenses or recruits to a main station for final physical examinations and enrollment, the transfer will bring into the Oklahoma district one of Texas' most

BOMAR BEAUTY SHOP
Maxine Dunham Lillie Mae Sewell

"35 won't hurt your car if you're careful at 00 miles an hour..."

"Couple of my customers could even get a new car by U. S. regulations. But they're careful with the car they've got—doing under 35, same as others in wartime. That's the spirit!"

"And this 35-mile 'tops' can make your car last longer yet, if you don't hunt up grief at 00 miles an hour! That's no wisecrack—00 miles an hour. It's when you car is standing and your engine is starting cold, needing lubrication the worst of ever. So I don't just change your oil. I change you to an OIL-PLATED engine with my Conoco Nth oil that attaches OIL-PLATING inside your engine, sort of by 'magnetism'—keeping OIL-PLATING from all draining down to the crankcase overnight, and all day, etc.

"Sooner than you're in the car, OIL-PLATING is up where you need it—instead of taking time getting there. You've had lots of people's word besides mine, that the worst danger of wear comes in starting cold. But what's plainer to get around that, than OIL-PLATING your engine with Conoco Nth oil? I'm extra glad I've got it for you now in wartime."

JOIN FREE Elect yourself to the ONCE-A-WEEK CLUB at Your Mileage Merchant's Conoco station. Choose your own regular day to have him check tires, oil, radiator and battery. His systematic attention means trouble-prevention. He'll report in advance on lubrication and anything that he finds you need for the duration of your car! CARE FOR YOUR CAR...FOR YOUR COUNTRY

AGGIE BRIEFS

Denton H. Smith
Secretary Briscoe Co. Committee

Vote December 12

Cotton farmers will vote on Cotton Marketing Quota Referendum Saturday December 12, 1942. In so doing, they will decide the floor price of cotton for 1943.

If marketing quotas are rejected on cotton there will be no government loan where as, if marketing quotas are voted favorably there will be price supporting government loans of 90% of parity. The ceiling price placed on finished goods by OPA has automatically placed ceilings on row cotton. It is up to the cotton farmers to decide the floor price.

Supplies of cotton for both military and civilian use are sufficient to last two years but there is not nearly that much food.

That's why J. N. Partin, chairman, Briscoe County AAA Committee, is asking all cotton farmers again to vote in a cotton marketing quota referendum, Saturday, December 12.

Production of food and other scarce war crops should be of primary concern to all farmers this year for the same reason that war materials has become the chief concern of manufacturers, the chairman said in explaining that the companies which used to make automobiles and typewriters now are making airplanes and machine guns.

By holding cotton production within the limits of the nation's needs, dwindling supplies of labor machinery, chemicals, transportation and storage facilities can be used to the best advantage in producing such crops as peanuts, soybeans, pork, beef, and poultry and dairy products.

"When the boys come back home, it would be pretty hard to explain to them why we kept growing more cotton when they needed food and other things so badly. It's bad enough to be hungry, but it's worse when you have to fight while you're hungry," Partin said.

Farm Machinery Rationing Changes

Removal of a number of items from the list of "frozen" machinery has been announced by the Texas USDA War Board.

Included on the list off "thawed-out" machinery were such implements as poultry feeders, cattle stanchions and fittings, butter molds, hand water pumps, hand food grinders and crunchers, hand sprayers, and hand sprayers. All but thirteen items in Schedule 2 of Temporary Rationing Order B were removed from the "frozen" list.

The thirteen still remaining on Schedule 2 are one row, one horse corn planters; one row, one horse corn and cotton planters; one row, two horse corn and cotton planters endgate broadcast seeders; horse and tractor drawn garden planters walking, one horse steel bottom moldboard plows; walking, two horse larger moldboard plows, stalk cutters; one horse, walking, two horse cultivators; one row, riding, two horse cultivators; and two row and over, riding cultivators.

The board declared that distributors and manufacturers may now make or accept transfers of the released items and dealers may replenish their stocks provided they are within any WPB or OPA regulations, or the manufacturing quotas of Conservation Order L-170.

Feed mills are still "frozen" and until they are released there is no way the Farm Machinery Rationing Committee can issue certificates for them.

1943 County AAA Committeemen

In the meeting of the delegates in County Convention held Saturday, November 28, 1942, the following were elected as 1943 AAA County Committeemen: J. N. Partin, Chairman; H. L. O. Riddell, Vice-Chairman; R. M. Haverty, Regular Member; W. P. Hawkins, first alternate; and J. W. Monroe, second alternate.
