

WELL, I MADE the Press Convention Friday and Saturday — it was undoubtedly the best I've ever attended. Confidentially tho, if it hadn't been for the boys and officers at the Amarillo Flying Field, it wouldn't have been too hot. Talent from the army camp furnished entertainment for two sessions that absolutely couldn't have been beaten. A violinist who had just toured South America with one of the best symphony orchestras, a pianist who was a Broadway instructor and composer, accordion players, singers, tap dancers and what have you —

CAPTAIN KRINGE, Public Relations Officer, was master of ceremonies Friday evening and he was mighty good. The best thing he pulled, I thought, was in telling how some of his stories got tangled up. He had written a story about the boys in camp catching Jack Rabbits. Of course, as he said it was not too much of a trick for a thousand boys to surround a bunch of rabbits, and catch them as the circle grew smaller. It seems however, that Eastern editors hadn't thought of that and the story was construed there as meaning that the boys in West Texas were running down jack rabbits as part of their training — and it even went far enough that the Society for Prevention of Cruelty to Animals, inquired as to whether the rabbits were being mistreated. Kringe told the S. P. C. A. that "Yes, they're catching the little rabbits. . . Oh, no, they don't mistreat them; they just catch them, pet them and turn them loose again." Some stuff.

MERCHANTS THIS WEEK here are not talking up their merchandise as much as they are talking up bond buying. And it's not just the merchants, its the farmers, the school teachers, and their pupils. I believe that this time, BreSCO County is all out for buying bonds. Of course, next week, the time will be getting short, and you might be reading a different sort of story in this space.

THERE ARE SOME workers who deserve mention for the work they are doing — but I don't need to do it. It's the same old bunch, but with some additions, that always get things done in a community the size of ours. Honestly, I don't know what we'd do without the boys who work consistently, come what may, for the victory of the United Nations. You know who I'm talking about — were it not for a few too many years spent here, most of these men would be on the front line for that is where their heart is. Many of them spent time on the front in the other war

— they are Americans — putting America first before their private interests.

AGAIN I SAY, you know these men, and you know what they are doing. Is it asking too much to ask you to give them a hand? Tell them that you like the way they are working. Co-operate with them. Consult them about this bond drive — and take just as little of their time as you can, because their time is valuable, and it is valuable to Uncle Sam.

AND WHILE I'M handing out these pats on the back, I might remind you again that I was a hero in the other war too. I knitted a sweater and a scarf while the fighting was the thickest — and I cashed the bonds my Dad gave me, as soon as I learned the combination on the bank deposit box. I distinctly remember eating some potato flour bread. I was sent home from school for writing the best rhyme of the year about Kaiser Bill, but finally succeeded in getting it printed on wood and its circulation extended through the length and breadth of every alley house in West Kansas. It was my first bit of writing for the Allies. I'm still at it and have advanced till now some folks read my stuff right in their homes.

ONE SECOND EDITORIAL — The men of Bataan bought more than \$400,000 in war bonds while fighting the Jap invasion of the Philippines. How does your war bond buying record look?

THE 2nd WAR LOAN DRIVE IS ON!

America...you've got to get tougher!

AMERICA — Let's be frank about it . . . so far, many of us back home have been fighting this war from an easy chair.

Many of us have bought War Bonds out of extra cash, out of money we didn't miss too much. We haven't been really tough with ourselves.

But this war is a hard, down-to-reality war. And many of our boys are dying in it.

We've got to buy MORE

So your government asks you to buy Bonds and more Bonds — to get really tough with yourself. We're asking you to give up the frills and "extras" for the rest of this war.

We know how human it is not to make sacrifices until the crisis drives us to it. In England they felt the same way until the bombs started falling. Now they can't do enough!

Bombs are such persuasive things. But just as persuasive ought to be the spirit of our brothers, sons, husbands — who are ready to give all. Think now . . . what are your dollars, compared to their lives?

If you could see

Look at it this way — suppose you had a magic carpet that could take you to Africa and New Guinea. Suppose you could hear the groan of American boys wounded, and American boys dying . . . Say now, how many Bonds would you buy?

That kind of war

THEY . . . are dying. And they will keep on dying until we drown the enemy in an overwhelming torrent of bombs, bullets, guns, tanks, planes, ships, and shells.

That's why we're asking you, in this one month of April alone, to lend Uncle Sam 13 billions of dollars — by buying War Bonds. 13 billions of extra dollars — over and above any buying that you'd be doing anyway!

A lot of money

Of course, 13 billion dollars is a lot of money. It'll take sweat and tears to raise it. It'll mean going *without* now. But also—it will mean savings now—to buy later. It'll mean giving up *everything* you can't square with your conscience, so that we, us, our children,

can have a better, more decent place to live in when this war is won.

The drive is on

So during this month of April, if someone calls on you to ask you to buy War Bonds in this 2ND WAR LOAN DRIVE, will you buy to the limit—and then buy more?

Better yet, will you go to your Bank, Postoffice, or wherever you're used to buying your Bonds — and buy NOW? Will you lend extra money this month? Money that can hasten the day of Victory? Money that can help to save American lives—perhaps your son's or your brother's or your husband's—by helping to shorten this war?

Money buys money

Remember, what you're really buying with your money is still *more* money. For after all, these Bonds are *money!* Money plus! Every dollar you put into War Bonds will bring you a dollar plus interest.

So the more Bonds you buy the better for you. Americans — Get Tough — with yourselves — for your country.
