Rev. J. S. Coffman, from Coleman, Texas is doing the preaching for the union meeting. He is the regular pastor of the Coleman First Baptist Church and is an evangelist well worth hearing. He is known to many here as he conducted a Baptist service here last year.

Sunday, the meeting will be held at the Baptist Church and it will be an all-day meeting with basket dinner at noon. An added feature to this day's program will be the talks morning and evening by Miss Hundley, a Baptist missionary, who was held as a prisoner by the Japanese. She will relate her experiences at the Sunday meetings.

This is the first union meeting that has been held in Silverton and crowds are good and interest is good. The people of both churches cordially invite your attendance at the meetings.

FARMERS INVITED TO FREE MOTION PICTURE SHOW

How to keep farm machinery in fighting trim is the keynote of the special free motion picture program sponsored by Coffee's Hardware which will be shown on Friday, April 7 at 2:30 p. m. at the Palace Theatre.

"Every farmer, farm boy, or farm helper who works with tractors or other farm machinery, regardless of its make, is especially invited to attend this motion picture show," says Mr. Coffee. "He is assured of getting much worthwhile information on the care, repair and servicing of farm equipment."

"Featured on the program is 'War-time Care of Your Tractor' a talking picture which covers every angle of tractor servicing and care," says Mr. Coffee. "It has plenty of worth-while pointers for every farmer, no matter what make what make of tractor he owns."

Talking pictures on adjusting and servicing mowers, combines, and planters, plus a picture on hitching and belting of farm machines, are also on the program. An interesting newsreel showing action on the battlefronts of the world and on the production lines at home is included.

"We feel this show is of direct benefit to the war effort," says Mr. Coffee. "With a severe manpower shortage and a lack of sufficient new equipment for 1944, the farmers of America have a real job ahead if they are to meet production goals. Every piece of farm equipment must be kept in tip-top condition to prevent delays and crop losses. This show will help every farmer with his equipment problem."

"Be sure to 'share the ride' with your friends and neighbors to save gasoline end rubber, but be sure to come to this instructional program," says Mr. Coffee.

While this show is largely a man's show, women who are interested are cordially invited to attend. Coffee will be served to those attending the show.

Mr. and Mrs. Chas. K. Herndon were in Floydada Wednesday on business.

PROTEIN MEAL DELIVERIES

After April 1 in Texas, processors no longer will be required to obtain a statement from buyers approved by the county AAA Committee in order to deliver more than 500 pounds per month of protein meal to an individual. The required statement regarding the use of more than 500 pounds of protein meal monthly in mixed feeds also will be eliminated.

This situation has been effected by revocation of Director's Order No. 2 of Food Production Order 9, Revision 3, which was issued December 24, 1943. On that date the 500-pound plus deliveries were prohibited in New Mexico and certain counties in West Texas, unless given special approval by County Agricultural Conservation Committees. On January 1, 1944 the area was extended to include Oklahoma and the entire State of Texas.

Requirements of the December order did not apply to set-aside protein meal or to soybean oil meal produced under contract for the Commodity Credit Corporation.

March and April Dairy Feed

Payments To Be Combined

Producers who have not made application for payment on February sales of dairy products should do so as soon as possible.

The Briscoe County News is this week authorized to announce the candidacy of Tom C. Bomar for the office of Sheriff, Tax Collector and Assessor of Briscoe County. Tom is known to nearly every person in Briscoe Co., having lived here most of the time during his life, and he needs very little introduction here. He has been one of the community's leaders for years, and has served as Mayor for several years. This is the first time he has ever asked for a salaried public office. In his personal statement to the voters he says:

Folks, I might be getting off in an awful storm, but I have decided to ask you for the office of Sheriff. I never thought much about it until the past couple of weeks. But I've had a lot of friends and neighbors ask me to make the race, and so here goes.

I am 45 years old—born here, and have lived here all my life except a little time spent in the Army in World War No. 1 and a little more time spent punching cattle in New Mexico. That makes about 40 years spent here and I am just now getting around to run for an office.

I made the drug business my main occupation for nearly twenty years in Silverton, but have also been stock farming and am at this time. I've had some experience as one of the City Dads—even run a Cafe once. What I am trying to say is that I've had experience in several lines. I like people and I have tried to understand people. I believe that is one of the qualifications for the office of Sheriff.

In the business administration of the Tax Assessor and Collector I believe that I have had business experience enough to be capable of handling the job.

Although, as I said, I have been asked by many to make this race, I am doing it on my own hook, and I have made up my mind. If elected, I am making no promises, except one—that is, I'll do my best to make you a sheriff. There will be times to be lenient and times to be hard, but there will be no time for favoritism. I will try to be fair at all times. Those last few lines are my platform. If you can see your way clear to give me your support and vote, I will appreciate it. If you don't think I'm the man, I still want your friendship.

Yours sincerely,
TOM C. BOMAR

THE FOLLOWING ARTICLE
was sent in this week by someone,

article itself is a good one and was
clipped from Collier's. A note typed
on the side of the clipping said
"This is a good article for publica-
tion OR WILL YOU?" Of course
I will.

NO HOME-TOWN HITLERS
PLEASE

On January 27 last, midway in
the Fourth War Loan drive, a
newspaper called the Wahoo Neb.
Wasp published the alleged news
item quoted below. It was appar-

ently the inspiration of one Emil
Placek (pronounced Plah-cek),
Wahoo banker, businessman, large
scale farmer, and War Bond com-
mittee chairman. Said the item:
Upon instructions from Wash-
ington, the chairman of the War
Bond drive in each county has
been asked to prepare a list of all
persons who have either refused
to buy bonds or have subscribed
less than their quota.

A copy of the list is to be fur-
nished to the local draft board, so
that such individuals or their sons
who have been deferred may be re-
classified. A copy of the list is also
to be furnished to the ration board
and the war board.

This action may seriously affect
some individuals who may ask for
additional gas coupons or who may
ask for priority for farm machine-

ry. The Wahoo High School students
have completed a card index of
every taxpayer in Saunders Coun-
ty. The amount of bonds purchased
by each individual will be endor-
sed on each card and will show the
amount of bonds purchased in each
War Bond drive. This method will
make it impossible for some people
to claim that they already bought
bonds or that they bought to the
full extent of their ability.

The Treasury Department in-
stantly denied ever having sent out
such instructions to any War Bond
county committee or anybody else.
Okay; and it is to be hoped the
Treasury will continue to step on
such stuff as hard as it stepped on
Mr. Placek of Wahoo, Nebraska.

This is the kind of thing that
flourished in the Liberty Loan
drives of the first World War —
dirty and damnable intimidation,
blackmail, home-town tyranny. It
left wounds which were a long
time healing — and our democracy
itself took some of those wounds.
If we tolerate such stuff in the

present war, we'll be fighting Hit-
lerism and Tojoism abroad and en-
couraging them at home. —Collier's.

IT IS A FUNNY thing the send-
ing in articles anonymously. I
think it shows a considerable trace
of cowardice, when one wants
something printed, but is unwill-
ing to have his own name tagged
on it. Just why it happens so often
I don't know. I do know that the
majority of unsigned articles re-
ceived here go in the waste basket.

The site of the Army Ordnance
arsenal in Philadelphia was part of
a tract sold in 1742 by John Penn,

covers 91 acres its cost at that
time was less than a shilling.

Some of the first track I got is kind of bent
and crooked in spots. A couple of my old-
est trains aren't so good any more, either.
Can't do anything about it now, though.
They're not making any toy trains and
track until the war is over."

The "grown up" railroads have their prob-
lems, too, Jimmy. It's no cinch to keep trains
and track in tip-top shape during these days
when there's so much traffic to handle. They
need new track and new trains, too. But as
long as other war requirements have had prior
claim on needed materials, they've done an out-
standing job with the limited rations allotted
them.

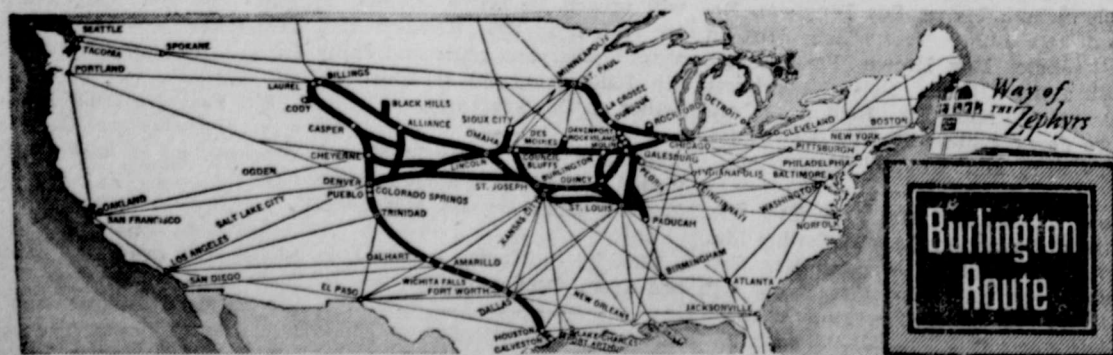

"Guess I'm pretty lucky, at that. Gosh,
just think of the fix I'd be in now, if I hadn't
added new stuff when I could get it."

Here, too, Jimmy. Between World War I and

II, the railroads spent ten and a half billions
of dollars for equipment and improvements.
That's why, today, they are able to handle the
biggest job in transportation history.

"Dad and I have been working out new
routes and connections for my railroad
lately. We play like we have to get guns
or tanks or soldiers somewhere in an awful
hurry. Then we figure out the quickest way
to get 'em there. Boy, do we make time!"

That's the game all the railroads are playing
in dead earnest these days, Jimmy. They're
handling both military and vital civilian trans-
portation the best and quickest way they know
how. They're one big team, all pulling together
to keep America's transportation front the
strongest in all the world. The FORT WORTH
AND DENVER RAILWAY is proud to be on
that team. Situated as it is—the direct rail line
between Texas and Colorado—it is an essential
link in transcontinental transportation.

BUT...

OIL-PLATING YOUR ENGINE
is like outdoing the future — today

The first changes in new cars might be "miracles" — or moderate. Regardless, no new engines will be free from corrosive acids, always "planted" inside by every engine's explosions — just as in your present car. The more it stands unused, the greater the risk from trapped acid. This stepped-up risk arrived with rationing. Yet even before, when steadier heat in unrationed driving ousted acids partly, the prudent motorist still took advantage of all the extra acid-resistance made possible by having his engine OIL-PLATED.

This big advancement — a safely OIL-PLATED engine — can be "standard equipment" in your own car right today, at the mere price of a Spring oil change.

Out with unfit Winter oil! Then change to Conoco Nth motor oil to have your engine automatically OIL-PLATED. The highly advanced synthetic in Conoco Nth oil — patented — seems like "magnetism" in causing inner engine surfaces to attract and hold a layer of OIL-PLATING... a corrosion-resisting shield between acids trapped inside and every surface that's OIL-PLATED.

Wouldn't that make you OIL-PLATE your Victory car? It can help you bridge the gap until then, too. Simply change to Conoco Nth for Spring at Your Mileage Merchant's Conoco station. Continental Oil Company

News from Boys in Service

yesterday. Glad to learn you are all well. We are all O. K. I have really been working hard. Three days a week I work from 7:45 in the morning until 4:30 in the afternoon. Those long days really knock you out. Everything is pretty much the same around here.

After a nasty spell of weather it has turned out to be nice and looks like spring is really here.

Guess Jack is doing O. K. in the Navy. He will probably get his first rate in April. That means a lot. Well do I remember my first stripe. It looked really big on my sleeve. The four that I wear now don't seem to be as big as that first one. The others come along before you know it.

Yes, Dad it has been several

years since we were all to-gether having a good time.

The 7th of next month I will have 6 years in the Navy and almost five years since I last saw you. It would be wonderful if I could get leave to bring Dot and the baby out there this summer. But I don't suppose there will be any leave for me until after the war at least, there won't be while I am here. I will gladly give up my leave so that those men just coming in from seas can get theirs. After all I go home every night and have every week end off. So I can't kick.

Well Dad my boys have almost finished their exams, about time to start grading papers, so for now I will sign off. Take care of yourself and don't forget to write. Tell hello for me."

BILL GILKEYSON of the Navy is here on a 30 day leave

PFC. ELMER BEAVERS arrived Monday to visit his parents Mr. and Mrs. Dewey Beavers. Beavers has been stationed in Alaska.

CAPT. G. W. LEE was in Silvertown the first of the week visiting friends.
