Local Superintendent of Schools Resigns

Superintendent F. M. McCarty, who has served the local schools for the past four terms, reported to the board of education that he has accepted the resignation of the school board in a meeting held last night, August 10. The resignation is to become effective August 15.

Insurance Benefits To Veterans Have Been Extended

Insurance benefits to veterans were materially extended when the President signed a liberalized GI insurance bill recently, Robert W. Sisson, Lubbock Veterans administration regional manager, has announced.

Discussing the amendments to the National Service Life Insurance Act which became law recently, Sisson said GI insurance benefits are now in line with those of commercial insurance companies at a great saving to the veteran.

"As originally enacted, National Service Life Insurance was designed to meet the needs of men and women at war," Sisson explained. "The new amendments provide for liberalization to make it more attractive in peace time."

Principal changes in the amended act include: 1. Lump sum payments to beneficiaries if desired.

2. Total disability protection upon payment of a slight additional premium.

3. Entitlement of all persons who served in the armed forces between October 8, 1940, and September 2, 1945, to apply for National Service policies or to increase the amount of policies already in force.

4. More endowment types of policies offered.

"Holders of about six million NSLI policies now in force are eligible for the any new benefits provided by these amendments," Sisson pointed out.

"In addition, these veterans who formerly held some ten million policies that have lapsed may still be entitled to reinstate them and take advantage of the low cost protection provided for their families by GI insurance."

Mrs. Lela Kellum of Frederick, Okla., spent several days here the first of the week. She visited her son and family, Mr. and Mrs. Allen Kellum, and the Grady Wimberly family.

Study Being Made In Extraction of Oil From Cedars

Research in the extraction of oil from cedarwood needles and cedarwood, is now underway in the chemical engineering department of the University of Texas.

Aided by a \$750 scholarship from Trubek laboratories of East Rutherford, N. J., the study will be started on a wide scale, with the cedarbrake area of Central Texas as the basis for study. An area estimated at 3,000,000 acres is covered by the cedar of two types: eastern red cedar, and Mexican juniper.

Cedarwood oil is valuable as an odorant, Dr. K. A. Kobe, chairman of the chemical engineering department, said.

Citizens Donate \$50.00 For Iron Lung Maintenance

Proving that the hearts of Silvertown people are on the "right side", voluntary donations by business men and citizens of this city, and vicinity, amounting to \$50.00 were received this week by the Briscoe County News. These funds to be used in the maintenance of two iron lungs which were purchased recently by the Junior Chamber of Commerce in Plainview, for use, free of charge, to citizens of this section of the country.

At a cost of \$1880.00 the two iron lungs—one being adult size and the other an infant size, are to be used in the fight against polio and other respiratory diseases of this region, at absolutely no cost what-so-ever, to those in need of this equipment.

Upon purchase of the Lungs by the Jaycees, the fire department, of Plainview, volunteered to train a technician for the operation of the instruments and also to build trailers in order that they can be moved anywhere in the region when the need occurs. If a person is in need of the use of an iron lung in this vicinity, all he has to do is call the fire department in Plainview and the Lung will be rushed out along with a trained technician and, as heretofore stated, the cost to those receiving this service is absolutely nothing, regardless of the length of time the lung is needed.

Both iron lungs have been paid for by the Jaycees and they are not asking anyone for donations of any kind, but they will accept donations if the people want to contribute something.

The following is a list of the people who voluntarily contributed, out of the goodness of their hearts, in order that equipment, for free use to the citizens of this section, can always be maintained for the treatment of Polio and other respiratory diseases:

- T. C. Bomar \$5.00
- Roy Coffee \$9.00
- R. G. Alexander \$5.00
- F. M. McCarty \$5.00
- R. E. Brookshier \$2.50
- Cross Motor & Imp Co. \$5.00
- W. H. Tension \$1.00
- Briscoe Co. News \$2.50
- W. Coffee \$5.00
- T. R. Whiteside \$5.00
- Alvin Redin \$5.00

There will be no soliciting of donations made by anyone, in regard to the maintenance of these iron lungs, but if any persons feel that they would like to contribute something to this worthwhile cause, they may do so by calling at the Briscoe County News.

Mr. and Mrs. Willard Hillin, Mr. and Mrs. Bruce Hardee and Miss Billie Jean Christman of Wichita Falls spent the weekend with their sister and aunt, Mrs. P. D. Thurman.

Mr. and Mrs. Virgil Ballard and daughters are spending the week in Estes Park, Colo.

Mr. and Mrs. Verdi Dicky of Dallas visited Mr. and Mrs. Virgil Ballard last week.

Robert McJimsy is expected home in a few days.

War Surplus Motor Cars to be Sold At Camp Hood

The Veterans' division of the Fort Worth regional office of War assets administration today announced a special sale of used motor vehicles to take place at Camp Hood, August 21, 22 and 23rd. The offering, which will make available to ex-servicemen 219 motor vehicles recently declared surplus by the army. Inspection may be made daily, with the exception of Saturdays and Sundays from 1:00 through August 23rd.

Departing from previous sales methods, WAA officials announced that while sales will be made to veterans in strict chronological order of date of certification, designated half day periods will be allotted within which veterans will be waited on.

Veterans certified prior to September 1, 1945, will be able to purchase from 9 to 12:30 on Wednesday, August 21st. Those certified prior to January 1, 1946, will be served from 1:30 to 4:30 on August 21st.

On August 22, veterans certified prior to May 1, 1946, will be waited on in the morning from 9 to 12:30, while in the afternoon veterans certified prior to August 1, 1946, will have their buying opportunity.

On August 23rd, from 9 to 12:30 any veterans, regardless of date of certification, may make his selection.

VFW Posts to Loan Wheel Chairs to Needy

The Veterans of Foreign Wars, McKenzie Post No. 1798 of Tullia, Texas, and the Lloyd Sherman Post No. 7829 of Silvertown, Texas, jointly are sponsoring a plan to secure wheel chairs and crutches—much needed devices for the treatment of patients in their own homes.

In order that these two counties may be most conveniently served, these wheel chairs and crutches will be located in Tullia and Silvertown, and are for the free temporary use of the residents of Swisher and Briscoe counties.

Cost of transportation will be the only charge made for the chairs.

These chairs are portable and will provide the comfort of any ill person's needs and desires. They will be described upon request and the plan explained by representatives of The Veterans of Foreign Wars, each bringing a letter of introduction.

This project is being launched as a community affair and is not a request for donations, as donations cannot be accepted by the organization.

According to Garner M. Guest, local Post Commander, one wheel chair has already been received by the local Post and is available to anyone who needs it.

Mr. Ed McMurtry of Vigo Park visited in the Alvie Mayfield home Wednesday.

Two local Girls Get Degrees From WTSC

Opal and Ruby West of Silvertown received the B. S. degree from West Texas State College in the annual summer commencement held August 13.

There were fifty-nine graduates, sixteen taking the master's degree, forty the bachelor of science degree, two the business administration degree, and one the bachelor of arts degree.

West Texas State's fall session will open September 17 with approximately ten new instructors joining the college staff.

The addition of two dormitories, twenty-five apartment units for married veterans, and the trailer units will increase the housing capacity of W. T. by five hundred.

Course of study will include arts, business administration, agriculture, home economics, mathematics and natural sciences. Social and departmental clubs will be active and athletics promise an eventful season for the 1946-47 term.

J. T. Gilkeyson, of the Veterans Hospital in Amarillo, spent the weekend here visiting his wife and son.

Mrs. Wilbur Wilson and daughter, Peggy, were Sunday visitors in the home of Mr. and Mrs. Harley McDaniel.

Mrs. W. Coffee and Evelyn, Mrs. T. C. Bomar and Mary Tom returned Sunday night from a trip to Galveston, Austin and San Antonio.

Disease and Death Rate Should Be Lowered Dr. Cox Says

In discussing the possible danger of inflation to the American way of life, Dr. Geo. W. Cox, state health officer, has declared that he believes one phase of this menace which should not be overlooked is the danger of inflation in the incidence of disease.

"Just because we have won a war is no reason why we should allow the disease and death rates in the country to become higher than in recent peacetimes," Dr. Cox said. "Indeed, it is an urgent reason why we should sharply reduce these rates among our people and use every effort to keep the health levels among our civilian and military population at their highest possible peak."

The state health officer emphasized once again, as he has often done in the past, the necessity for using the more easily accessible, common-sense safeguards of health. Immunization against several of the more killing diseases is available to all, at little or no cost. Such protection should not be neglected and the person who allows himself or his family to suffer from a preventable illness is, whether he realizes it or not, actually handicapping the nation's reconversion effort. Another health precaution which can and should be practiced in every home and community is careful sanitation; clean clothes, a clean body, and clean home environments do much to prevent the appearance of illness in the home and the same sanitation practiced throughout the community will help to insure the good health of that community.

"Good, wholesome, nourishing foods, home and community sanitation, and the protection afforded by immunization can do a lot to prevent the needless inflation of the disease and death rates in this country," Dr. Cox asserted.

Mrs. Gordon Allen of Georgia arrived last week to visit with relatives in Silvertown.

FATALITY WOUNDED SHOT BY COW

Wyo.—Floyd Lore, 49, died fatally in the abdomen after being shot by a cow. Lore, who had carried to a slaughterhouse to be killed, was shot when a cow with a rifle in the hands of the slaughterhouse owner and charged as it fell, fatally striking him.

C. M. Strickland and Mrs. Vance were in Tullia Tuesday.

Arrivals

Roy Coffee returned from Hospital Sunday with an infant baby girl. The name is Cora Coburn Coffee. Both and daughter are doing well.

Mrs. Aulton Durham parents of a girl born last in the Southwestern hospital at El Paso. The child weighed six pounds and was named Gary.

Mr. and Mrs. Perry Jr., August 8th, a seven-month-old baby.

Mrs. Frank Hunt are parents of a baby boy, August 2 at the Tullia Hospital. The baby has been named Gary.

A Modified OPA

The recently enacted OPA bill is a compromise between those who believe the Office should be indefinitely continued in its old form, and those who believe that the time for governmental tinkering with the law of supply and demand is over. It is obviously designed as a sort of traditional measure, to bridge the change from a government-dominated war economy to a free enterprise peacetime economy.

The most important new feature in its establishment of a three-man "decontrol" board with powers superior to those of the OPA administrator. The job of this board will be to remove controls from commodities when supply is in sufficient quantity so that the free market will automatically assure fair prices. If the Board does that job successfully, it will be of immense aid in getting this country back to its traditional ways of doing business.

In the meantime, the consumers of the nation must realize that the basic solution to inflation lies not in law, but in vastly stimulated production and distribution. So long as the supply of available goods is below demand, we will continue to have black markets. So long as labor troubles, governmental interference, or anything else blocks the production machine, an out-of-line price problem will continue to be a major factor in our national life.

The distributive machine is doing a fine job, and it is ready to do still better when goods again become plentiful. Retailers in all lines of merchandise, faced by the big chain systems, have consistently worked against price increases. They cannot, of course, prevent price increases made necessary by higher wage, supply and tax costs. But they are a constant guarantee of the lowest price for what you buy, consistent with the economic conditions of the time.

Justice to All

There are alarming similarities between the current deliberations over peace treaties and the Versailles agreements which followed World War I—and did so much to sow the seed of World War II.

Again, the great powers are fighting for spheres of influence. Again, the dark shadow of "balance of power" politics hangs over the meetings. Again, the work of the delegates is hampered by secret commitments made during the war. This has been an especially difficult problem for Mr. Byrnes. And again, many of the smaller powers are living in fear of being sold out by the Big Four. The vehement protests registered by Dr. Evatt of Australia are an indication of this.

What seems to have been largely lost is that conception of "One World" which was so brilliantly argued by Wendell Willkie and which, in all its essentials, was once supposed to be the guiding policy of all the Allies. It was a conception based solidly and practically upon the conditions of the times. Today, space is of small importance to a nation's security—a bombing plane can fly anywhere in the world

in a matter of hours, and a stratosphere missile can do it in minutes. A fragile peace, based upon force and fear, will be only a breathing space between the last war and the next.

The tremendous problem before the world is to establish a peace which will be fair to all nations, which will respect the rights of all nations, and which will make it possible for all nations to live together in the world without need of resort to arms. That kind of peace cannot come from deals between the great powers which use the small powers as trading material. It can only be built upon the sound foundation of justice to all.

"In times of trial," said the preacher, "what brings us the greatest comfort?" And from the back row an answering voice: "Acquittal!"

Freezing of Fresh Eggs is Explained

Fresh eggs, now seasonally abundant, can be frozen successfully for future use if a few simple steps are followed in preparation and packaging. Gwendolyn Jones, specialist in food preservation for the A. and M. college extension service, offers the following suggestions to homemakers:

Use fresh clean eggs. Break them into a clean bowl and beat or churn them thoroughly until the yolks are broken and well mixed with the whites. Beating prevents gumminess of the yolk during storage. However, be careful not to whip in air. Whites may be separated from the yolks and packaged without churning, but the yolks should be slightly beaten.

Plain tin is the most desirable container for eggs. Air-tight and leak proof paper cartons also may be used. Freeze in small amounts so that they can be used soon after thawing.

One good way to have small amounts of frozen eggs is to use a refrigerator tray. Put about 3 tablespoons of the egg mixture in each cube section. Quick freeze, then wrap each cube in cellophane. Several wrapped cubes may be packaged in one carton or bag. Small paper cups may be used as molds instead of the ice cube tray.

After wrapping and freezing, store at 0 degrees fahrenheit.

When using: one tablespoon yolks equals one egg yolk, one and one-half tablespoons whites equals white from one egg.

HOUSE JOINT RESOLUTION

proposing an Amendment to Article III of the Constitution of the State of Texas by the addition of a new Section to be known as Section 49-b, creating a Veteran's Land Board and establishing a Veteran's Land Fund; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 49-b which shall read as follows:

Section 49-b. There is hereby created a Board to be known as the Veteran's Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Legislature shall provide by law for the issuance by said Board of not to exceed Twenty-five Million Dollars (\$25,000,000) in bonds or obligations of the State of Texas for the

purpose of creating a fund to be known as the Veteran's Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas in such form, denominations, and upon such terms as shall be prescribed by law, provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum.

"In the sale of any such bonds a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent Free School Funds; such bonds to be issued only as needed, in the opinion of the Veteran's Land Board under legislative authorization.

"The Veteran's Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this state (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, be paid for in cash, and shall be a part of the Veteran's Land Fund.

"The lands of the Veteran's Land Fund shall be sold by the State of Texas Veterans of the present war or wars, commonly known as World War II, in such quantities, and on such terms, and at such prices and such rates of interest, and under such rules and regulations as may be prescribed by law; provided, however, that any such lands remaining unsold at the expiration of eight (8) years after the effective date of this Amendment may be sold to anyone as shall be prescribed by law.

All moneys received and which have been received and which have not been used for repurchase of land as provided herein by the Veteran's Land Board from the sale of lands and for interest on deferred payments shall be credited to the Veteran's Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, in like manner as shall be provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, for a period of eight (8) years from the effective date of this Amendment; provided, however, that so much of such moneys as may be necessary to pay interest on the bonds here-in provided for shall be set aside for that purpose. After eight (8) years from the effective date of this Amendment, all moneys received by the Veteran's Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the

retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State of Texas on the first Thursday in November, 1946, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment to Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II"

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

"AGAINST the Amendment to Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this state.

Sec. 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of such publication and election.

31-4t

Mr. and Mrs. Perry Thomas, Jr., are the parents of a seven pound baby girl this week. The baby was born at the Tullia Hospital on August 8th. Both mother and daughter are doing fine.

People Are Named To Head Divisions Of Lubbock Fair

Mrs. O. R. Copeland, Route 4, Lubbock, has been chosen director of the women's department of the Panhandle South Plains fair, officials of the fair announced this week. Dates for the fair are October 7-12.

Seven other women have been selected to work with Mrs. Copeland as superintendents of the various women's divisions. Mrs. C. L. Murray, Lynn county, will be superintendent of the Textile division. Mrs. J. N. Smithee, Hockley county, will be in charge of the Culinary division. Superintendent of the Women's home demonstration clubs division is Mrs. John Redwine of Shallowater.

Mrs. Chester Gilmore, Dalhart, will superintend the 4-H club girl's division. All the above including Mrs. Copeland, are home demonstration workers.

Mrs. J. C. Levens, Mrs. J. C. Allensworth and Mrs. J. L. Barstow all of Lubbock will head the plants and cut flowers division, the art division and the relics, antiques and curios divisions, respectively.

Vocational agriculture premiums will be increased this year. Fair officials say they hope to announce the new premiums within the next week.

Mr. and Mrs. George Sealey and Mr. and Mrs. Pascal Garrison were called to Amarillo Monday of this week upon receipt of news of the death of Mrs. Sealey's sister-in-law, Mrs. Ollie Harp.

Two of the millions of men who are helping to fight world starvation

The world's population is about 2 billion men, women and children. We have been told that about 1/4 of them are now facing starvation. Up to now, American farmers—men such as the two shown above—have been working day in and day out with less help and less machinery to keep up the never-ending flow of foodstuffs needed in all parts of the world.

The so-called "Bible Belt" of this country has produced more legislators, more mis-

sionaries, more scientists, more educators, more engineers, more God-fearing men and women than any other part of this troubled world. From our farms have come some of the greatest "spiritual giants" of the past three centuries.

Our sincere congratulations to the 3,000,000 farm families in this country for the great work they have done the past four years, and for what they are doing to fight off starvation all over the globe.

A Texas classic is the "Babe of the Alamo" speech made, many years ago, by Guy M. Bryan in the House of Representatives. I intended, Mr. Speaker, to be silent on this occasion, but silence would now be a reproach, when to speak is a duty.

Well do I remember the consternation which spread throughout the land when the sad tidings reached our ears that the Alamo had fallen! It was here that a gallant few, the bravest of the brave, threw themselves betwixt the enemy and the settlements, determined not to surrender nor retreat. They redeemed that pledge with the forfeit of their lives—they fell, the chosen sacrifice to Texas freedom!

Texas, unappraised of the approach of the invader, was sleeping in fancied security, when the gun of the Alamo first announced that the Attila of the South was near. Infuriated at the resistance of Travis and his noble band, he marshaled his whole army beneath the walls, and rolled wave after wave of his hosts against those battlements of freedom.

But for this stand at the Alamo, Texas would have been desolated to the Sabine. Sir, I ask this pittance, and for whom? For the only living witness, save the mother, of this awful tragedy—"this bloodiest picture in the book of time," the bravest act that ever swelled the annals of any country.

Grant the boon! She claims it as the Christian child of the Alamo—baptized in the blood of a Travis, a Bowie, a Crockett and a Bonham. To turn her away would be a shame! Give her what she asks, that she may be educated and become a worthy child of the State—that she may take that position in society to which she is entitled by the illustrious name of her martyred father—illustrious because he fell in the Alamo.

Guests last weekend in the T. G. Olive home were their daughter, Mrs. Drew Holcomb, and husband of Turkey and a son, Thomas Olive, a student at Lip-pert's business college in Plainview.

Lowell Elrod, who has been in the Army Air Corps and stationed at Long Beach, Calif., is home with a discharge.

Mr. and Mrs. Leo Comer of Amarillo spent the weekend with relatives here.

Mr. and Mrs. William Garrett of Floydada visited with Mrs. L. A. Meeker Tuesday.

Mr. and Mrs. Ware Fogerson and children, Danne and Victor, and Mrs. Florence Fogerson were in Carlsbad, N. M., over the weekend. They went through the cavern.

George Jones was a business caller in Tulla Tuesday.

Jap Photos Just Released Show Horrors of Nagasaki 20 Hours After A-Bomb Hit

Atomic ruin is shown in these photos made by a Nagasaki news before our observers got in. Above, body lies in cart wreckage on concrete highway split by bomb; right, municipal officer checks casualties.

Woman air warden stands near burned body. Flash burns caused third of deaths; radiation, a fifth.

This was Nagasaki's main street 20 hours after blast. First official U. S. damage report, made public last month, concluded that most of our cities could not stand up to atomic bomb much better than Nagasaki.

Red Cross worker treats burn case on spot. Almost every living thing within 2 miles of burst died.

Nagasaki mother, with bad wound on face, nurse tending child. Casualties totaled 80,000.

REGIONAL ROUNDUP

By PAT FLYNN

The Groom, Texas, News is for sale. Max Wade, editor-publisher, is offering his building and equipment for \$10,000, one of the best buys to come across this desk in years.

Colorado City, acting as trustee for four other cities, last week filed application with the state board of water engineers for water rights on the upper Colorado river.

Hale Center started a softball league, with five teams vying for top place.

The nitro plant at Seagraves was destroyed by fire believed to have been caused from spontaneous combustion.

Construction began on Hamlin's new vocational agriculture building for the high school.

Polio sprang out in Menard, and all public gatherings were closed to children.

Santa Rosa, N. M., voters okayed a \$65,000 bond issue to complete a new and remodel the old court house.

Stamford Chamber of Commerce will sponsor organization for water development of that area.

Floyd county school board, meeting at Floydada, ordered an election "as soon as possible" to determine if the districts of Lockney, Irick, Pleasant Valley, Ramsey, Sterley and Prairie Chapel will consolidate for high school purposes.

Wellington, like many other cities, reported a critical water shortage, and urged its citizens to conserve.

Abernathy holds its annual homecoming August 13, with its World War II veterans as honored guests.

Lamb county fair, planned for September, has been cancelled due to the drought, the Chamber of Commerce announced.

Altus, Okla., will experiment with putting calcium chloride on its streets; the product is guaranteed to keep dusty streets "dustless" for a year.

Sonora Lions Club members began tearing down the old Scout Hall to make room for the new Community Center and Memorial building.

Petersburg's alfalfa mill got under construction after a slight delay to iron out some "bugs" in the machinery.

Hollis, Okla., received its first prefabricated home and held city-wide open house to inspect it last week.

Dawson county's fair also fell under the onslaught of drought; originally scheduled for October, it has been postponed until next year.

Ft. Stockton has organized a Country Club designed to further and broaden the development program for Leon Lake.

Jones county will follow the example of other Texas counties and begin a Veteran's Vocational school in September.

Andrews county had two new locations for oil prospectors during the last week, one to go to 4,800 feet.

McCamey "Jaycees" received special recognition at the state meet in Dallas.

Sayre junior college opens again this year, with registration set for August 30.

Seymour held its Golden Anniversary Rodeo and Old Settlers Reunion last week with record crowds attending.

Loraine set its dairy show tentatively for August 22, but won't settle it until a capable judge is secured.

Harper county, Okla., had a second deep oil test staked last week, which will go to 10,000 feet.

Sudan had a big celebration last week to celebrate completion of its farm-to-market roads, complete with Indian pow-wow dancing.

Ralls had a bathing review last week, with Colista McLane as the winner.

Wink airport went under new management, with improvements to be added.

Tahoka's clinic addition had the foundation laid last week, and will be completed soon, bringing it up to hospital size.

Seymour had its biggest rodeo attendance last week, with an estimated total of 15,000 there.

Memphis' water supply was eased somewhat last week with completion of two new wells near the city.

Donley county old settlers will hold their annual picnic next week.

Deaf Smith county commissioners last week ordered an election to vote on consolidation of four county schools with the Hereford system.

Morton business firms closed half a day last week to start the city's all-out clean-up campaign.

Pampa holds its Top O' Texas Quarter Horse Show next week.

Big Spring last week was named district office for West Texas division of the Civil Aeronautics administration.

Borger citizens last week voted overwhelmingly in favor of taxes and bond issues designed to erect a junior college there.

Vega "modestly" boasts the addition of a new fire truck, purchased last week from the government.

Crosbyton last week donated a building for the first unit of a labor camp there.

Hale Center held a boy's rally for boys between 9 and 17 last week.

Rotan passed in favor of a \$258,200 school bond issue last week.

Green hospital and clinic in Muleshoe will be doubled in size, according to an announcement issued last week.

L. T. D. CLUB MET WITH MRS. J. W. LYONS, JR.

The L. T. D. Club met in the home of Mrs. J. W. Lyons, Jr., Tuesday, August 13.

Guests were given to Mrs. "Dutch" Tidwell and Mrs. Conrad Alexandra.

Refreshments were served to Mesdames Ware Fogerson, Durward Brown, Gatewood Lush, Bob Hill, Johnnie Lanham, Dutch Tidwell, Obra Watson, Dillard Scott, Conrad Alexandra and the hostess.

The next meeting will be Tuesday, August 27, in the home of Mrs. Johnnie Lanham.

In the summertime fair weather is glare weather for motorists. The Texas Safety association suggests: If you care about the comfort and seeing condition of your eyes—and if you care about your safety and that of others—keep your windshield clean and "see" what happens—or is about to happen.

Everybody is talking about his rights these days. Here, says the Texas Safety association, is something for drivers to remember about the "other" fellow's rights—the pedestrian's rights: A pedestrian who has started across the street with the green light has the right to continue to a point of safety before the driver starts up, even though the light has changed after the pedestrian stepped from the curb.

Local People Enjoy Reunion at Wichita

Mr. and Mrs. T. L. Anderson, Mrs. M. P. Stone and Mrs. R. L. Campbell returned home Sunday from a three-day family reunion at Sand Beach Park, near Wichita Falls.

Forty-four descendants of the Cooper family attended the festival with all eight of the living brothers and sisters present.

G. T. Holland, once a resident of Silverton, but now of Sand Beach, and his brother, H. T. Holland of Dallas, and a sister, Mrs. R. E. Ballard of Colton, California, met at Sand Beach for the first time since 1913.

Ms. Stone, who was visiting her children and grandchildren in Oregon and her sister, Miss Carrie Arther in California, came home with her sister in order that they might be together during the reunion.

Ross W. Dawdy of Amarillo spent the weekend with his parents, Mr. and Mrs. G. R. Dawdy.

Mr. and Mrs. Ples Visage of Lubbock visited her parents, Mr. and Mrs. W. L. McMinn, and brother, Bud McMinn, and family over the weekend.

Mrs. Ida Clauch of Oklahoma City is visiting in the home of her daughter, Mrs. Luther McJimsey, and family.

Mrs. Bud McMinn spent several days the past week with Mr. and Mrs. Elma Seaney at Amherst.

Mr. and Mrs. Reid Hymer of Amarillo visited with friends in Silverton over the weekend.

Go Home, Yank!

SHANGHAI STUDENTS GATHER at the railroad station in Shanghai to deliver send-off to non-partisan peace delegation which includes two of the nation's most prominent educators and leaving for Nanking in an attempt to see Generalissimo Chiang Kai-shek, General George C. Marshall and Chow En-Lai, (communist leader) to protest against civil war in China. The banner emblazoned with "U. S. Army—Go Back Your Sweet Home" is result of students' and anti-civil war movement's claim that U. S. forces are helping war by furnishing equipment to Nationalist forces and by transporting Nationalist troops to areas where they fight Communists.

Pictures Show Highlights of Atomic Year One

The atomic age opened July 16, 1945, with the New Mexico test of the bomb (1). A few hundred picked observers saw it. A year ago, at Hiroshima (2), the first war bomb left 100,000 dead and injured. At Nagasaki (3) a few days later casualties were 80,000. Only other atomic explosions have been in two Bikini tests (photo 4 shows first one), scored by atomic scientists as long on showmanship, short on science. Along with others, scientists are observing Hiroshima anniversary with pleas for controls to end all use of bomb.

The most lethal way to deliver an A-bomb is by rocket. Army trials of German V-2 type (above) brought assurances by the end of Atomic Year 1 that the day of long range atomic rockets is almost here. Scientists know of no defense.

All through the year scientists emerged from their laboratories to speak up on political aspects of atomic energy. Photo (from August March of Time) shows Albert Einstein with Harold Urey (left) and Leo Szilard, all active in fight to control the bomb.

After directing Los Alamos bomb laboratory, Dr. J. R. Oppenheimer helped draft State Dept. proposals.

Biggest issue of Atomic Year 1 was international control. U. S. plan, presented to UN Atomic Commission by Bernard Baruch, drew counter proposals from Russia's Andrei Gromyko (shown above reading his plan; Baruch at right). Most observers expected final compromise.

The great American public spent Atomic Year 1 coping with new words, new fears and new hopes. Scientists predicted blessings from the atom, but not if war strikes. Photo shows exhibit at New York Museum of Science.

Much Variety Can Be Had In Homemade Breads

Stretching wheat flour in home baking can bring a variety in taste and texture to home baking. Possible extenders include rye flour, oatmeal or cornmeal, potatoes and sweet potatoes. But Edith Lawrence, specialist in food preparation for the A. and M. college extension service, cautions housewives that for good results they must know the correct amounts to use and the best method of mixing.

Yeast bread may be made entirely from rye flour. The German bread, pumpernickel, is a familiar example. All-rye bread is darker, more moist and heavier than wheat bread. A lighter loaf may be made by using half rye and half wheat flour.

In extending with oatmeal or cornmeal, only a third as much finely ground oats or fine cornmeal as wheat flour is recommended. Oatmeal bread is slightly coarser and darker than white bread but excellent in flavor.

These flours or meals are sifted or mixed with the wheat flour and then the bread is made by the standard method for white bread offered in any reliable cookbook.

In using potatoes in bread, both the proportions and the method of mixing are different. Only a small quantity of potato can be used—about one cup of mashed potatoes to five or six cups of flour. The mashed potato is thinned with potato water, then mixed with the softened yeast cake before the flour is stirred in to make a dough or sponge. Mashed sweet potatoes may be added to the sponge with the flour.

Mike Mason and son, Jett, have returned home after working the past six weeks in Colorado in the wheat harvest.

Mr. and Mrs. George Seaney and Mr. and Mrs. Pascal Garrison spent Sunday in Amherst visiting Mr. Seaney's brother, Elmer Seaney, who was injured recently in an explosion Mr. Seaney is doing very well it was reported.

Mr. and Mrs. Lewis Gilkeyson, Mr. and Mrs. Leldon Gilkeyson of Tullia, and Mrs. J. T. Gilkeyson and son visited J. T. Gilkeyson in Amarillo last Friday.

mediately if we assumed whatever radio-activity hazards were present, which we did. I understand most everyone back in the United States had heard an on-the-scene description by radio but it was rather garbled. I understand also a number of people have expressed disappointment over the power of this bomb, but so far as I am concerned, it is by far the most destructive power man has ever had a hand in. This view was shared by all of the military and naval personnel with whom I talked.

—Quality Printing at the News—

An accident does not care what your name is or your occupation, how important you are or how famous. An accident has no respect for your personality or good looks. It is not bluffed by your size or your nerve. It says "phooey" to luck and the law of averages. But an accident, reminds the Texas Safety association, has plenty of respect for plain common sense, alertness and consistent carefulness.

Mr. and Mrs. John Boston and children, Mary Louise and Jimmy, of Roscoe, stopped for a short visit with Rev. and Mrs. G. A. Elrod. They also attended church.

Mr. and Mrs. Mart Self left Thursday of last week for El Paso. They took Mr. and Mrs. J. L. Self to Ft. Bliss, where J. L. is stationed.

AUSTIN, TEXAS—"I want the people of Texas to know there are certain types of taxes to which I am opposed, both personally and as shown by my record of 12 years in the senate," Allan Shivers, who led his runoff opponent in the lieutenant governor's race by approximately 100,000 votes in the first primary, said here this week. "I oppose a general sales tax, and always have, because I feel that it would place undue burdens on the people. I oppose a state income tax, because that field is pre-empted by the Federal government."

"If any additional taxes do become necessary, and I don't think they will in the near future, the burden should be spread on as broad a tax paying base as is possible," he continued.

"I have always considered myself a conservative, both in expenditures and in taxation, and on many occasions have opposed appropriations of the taxpayers' money because I thought the expenditure was unwise and unnecessary. I have also opposed many tax bills because I thought they were levied on the wrong principle or that they were unnecessary."

"I have had to work hard all my life and that is probably the reason that I am conservative about the expenditure of tax money. I feel the same way about expending my own funds."

SOIL CONSERVATION DISTRICT NEWS SUPERVISORS FOR CAP ROCK DISTRICT—Earl I. Cantwell, Chairman, Louie Kitchens, Obra Watson, Pierce White and Bray Cook.

At a meeting of the Supervisors of the Cap Rock Soil Conservation district Friday, August 9, the importance of maintaining adequate cover on the land in the district was discussed. Since the last two years have been below average in rainfall and forage yields have been proportionately less, the hazard of soil loss by wind erosion has been increased. Now is the time to make plans for fall and winter cover crops on land subject to wind erosion. An effort is going to be made to get Austrian Winter peas seeded on land planted to cotton and peanuts and on the sandy area in the Quitaque section, according to Mr. Pierce White, supervisor of that sub-division. Austrian Winter Peas are hardy in this area and may be purchased locally for approximately six cents per pound. This crop will furnish winter pasture and improve soil fertility similar to clover, alfalfa and other legumes. According to Leo White, Agricultural Extension agent, who was in attendance at the meeting of the supervisors of the Cap Rock Soil Conservation district, Austrian Winter peas should be treated with the proper nitrogen inoculant in order to secure the greatest benefit from this crop. Mr. White will give demonstrations on proper inoculation of Austrian Winter peas in the Gasoline and Antelope Conservation groups. The proper seeding time for this crop is September to early October at the rate of 25 to 30 pounds per acre drilled alone, or from 10 to 15 pounds per acre drilled with small grains. Mr. and Mrs. John Bain and John Ed attended a birthday dinner honoring Mrs. Bain's father, Dr. J. Ed Cranford, 75, in Tullia Sunday.

accordingly all of us were braced for it. I personally felt nothing stronger than what I thought was an air pocket but other members said they thought it was somewhat worse. At any rate, I saw the most brilliant flash of light even through those dark glasses I've ever seen. You couldn't tell whether the bomb had hit its target but immediately upon removing the glasses, we saw the most brilliantly white and almost solid column of churning smoke climbing straight up into the air. We could see all ships still afloat but within a few minutes one had sunk, three were listing and burning and a most peculiar and fantastic green color was spreading on the water just over one of the aircraft carriers close to the target. One of the men aboard our plane had been at the New Mexico bomb experiment said the ground out there had turned practically the same color. In and out of the tremendous column of smoke we could see the army and navy "drone" airplanes flying through the smoke clouds. These airplanes were controlled by radio and were equipped with all sorts of devices to test the heat, radioactivity, and everything else of a scientific nature which might have been generated by the explosion. This in itself was weird and it was almost unbelievable that the drone airplane could maneuver almost as perfectly as if human hands were at the controls. Our pilot and most everyone aboard was inquisitive so we edged in as close as we could for a better view and circled the lagoon and ever-heightening smoke column for about half an hour before returning to Kwajalein. As another precaution all aircraft traffic within a radius of 500 miles surrounding Bikini had been frozen for a 24-48 hour period on account of the 44 possible dangers of radio-activity. As we left, the top part of the cloud had reached an approximate altitude of 35,000 feet and was slowly dissipating. Due to the shortage of time we had previously been given permission to leave Kwajalein for Guam im-

Washington Newsletter By GENE WORLEY On July 1, by 8 o'clock, we were circling Bikini lagoon around 8000 feet altitude and were in the 10 to 20 mile zone as we had been instructed to be the previous night at the briefing. The first zone extended to 10 miles and the second 10 to 20 and an army man estimated we were approximately 13 miles from the spot where the bomb was to explode, which is about the same distance the plane was when the bomb was dropped at Hiroshima. We were provided with a pair of the darkest glasses I've ever seen. It was impossible to see anything through them but they were a necessary protection against temporary blindness from the illumination of the bomb itself. We were also outfitted with life preservers and parachutes, as well as a small piece of film which was designed to reflect an radio-activity which might come in our direction. The bombardier was about 25,000 feet at 8:30 and had already made one "dry" run. At that time a cloud was over the target and he advised he would make the final run at exactly 9 o'clock if possible. By virtue of an excellent radio timing hookup all ships and planes in the air were informed the instant the bomb was released. At exactly 9 o'clock, word came over our hookup—"Bomb away!"—the warning bell rang, the black glasses were immediately put in place and everyone sat with tense expectation because it hardly takes more than a minute for a bomb to drop 25,000 feet. An army colonel had said our plane would receive a heavy jolt when the bomb exploded and

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago
Released by Western Newspaper Union

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JESUS AND THE SACREDNESS OF HUMAN LIFE

LESSON TEXT—Exodus 20:13; Matthew 5:21-24; 10:29-31; 18:10-14.

MEMORY SELECTION—But I say unto you, That whosoever is angry with his brother without a cause shall be in danger of the judgment.—Matthew 5:22.

Human life is sacred, and that is not primarily because of any law of man, but because God created man in his own likeness and image.

Since that is true, no man has any right to take the life of another for any cause except at the direct command of God. Only by the orderly process of law for the protection of society and in accordance with the Word of God may there be any such action by man toward man.

Both of these truths are declared in Scripture in God's covenant with Noah (Gen. 9:5, 6), which was made possibly a thousand years before the Ten Commandments were given to Moses.

I. The Prohibition of Murder (Exod. 20:13).

The word "kill" in this commandment is one which means a violent and unauthorized taking of life, and is therefore more properly translated "murder."

Not all killing is murder. A man may kill another entirely accidentally, or he may be the duly constituted legal officer carrying out the law of the land in taking the life of one who has forfeited his right to live because he has slain another.

There is also the right of self defense, be it individual or collective as in war. But these are the only exceptions; let us not attempt to justify any other.

Murder is more prevalent than most of us suppose. In 1944 there was a murder every fifty minutes in our land.

Do not forget the deaths, the destruction of life, by avoidable automobile accidents. Some of these were really murder because the one responsible drove with defective brakes, dangerous tires, or while he was intoxicated. Add to these the deaths in industry caused by failure to provide proper safeguards or healthy working conditions, and by the exploitation of child labor, and we say that we should cry aloud, "Thou shalt do no murder."

II. The Provocation to Murder (Matt. 5:21, 22).

Murder finds its provoking cause in the heart of man. Our Lord was concerned about correcting the desires rather than to apprehend the offender after the act had been committed. It is the better way, and the more effective one.

In this matter of murder, Jesus cut right through the outward aspects of the matter and pointed out that an angry hatred in the heart is the root of all murder. If we hate, we have murder in our hearts. Circumstances may hinder its fulfillment, but the danger is always there until we remove the cause.

May God help those of us who have strong feelings that we may not yield them to the devil in such anger against our brother!

III. The Prevention of Murder (Matt. 5:23, 24; 10:29-31; 18:10-14).

Prevention with God means more than putting up a barrier to try to keep men from killing one another. He deals with the heart of man, and when that is right the whole life will be right. There must be

1. A Right View of Self (Matt. 5:23, 24). We must learn by prayer and humility of heart to suffer at the hand of others, to keep peace, to seek our brother's welfare.

Note that it is not even a question of how we may feel against our brother. If he has aught against us we are to do all we can to win him.

We who believe in Christ are to be in deed as well as word the children of our heavenly Father (Matt. 5:45), loving not only those who are kind to us but also our enemies.

2. A Right View of God (Matt. 10:29-31). He who knows when a sparrow falls to the ground is con-

cerned about the smallest detail of our lives. No man can lay hands of violence on another man without having to reckon with God about his misdeeds.

Our God is not afar off and too concerned with eternal affairs to be interested in the sufferings of the individual. He is here now, and we should count him into every relationship of life.

3. A Right View of Man (Matt. 18:10-14). Even the little ones, apparently defenseless, and at the mercy of a cruel world, have guardian angels who have access to the throne of God. He has a special interest in the lost and rejoices in the rescue of the one who has strayed, so we see that even those whom the world regards as weak and unimportant are in the mind of God for good. He watches over them.

The man who sees himself for what he is, and who realizes what God thinks of man, will find that he agrees with the command of God, "Thou shalt not kill."

Many Trees and Shrubs Lost Due To Lack of Water

Many trees and shrubs which were set out in West and Central Texas last fall have been lost due to lack of moisture. J. F. Rosborough and C. R. Heaton, horticulturists for the Texas A. and M. college extension service, say that these losses are due largely to improper watering methods.

The tight soil of West and Central Texas must be watered very slowly in order to get deep moisture penetration, the horticulturists say. Every 10 to 14 days is often enough to water if it is done properly.

A soil covering placed around the trees will hold the moisture in the soil. Hay, weeds, or any cured material that will make a ground covering. Experiments have shown that a mulch will cool the soil as much as 20 degrees.

S.J.R. NO. 5

A JOINT RESOLUTION
proposing an amendment to the Constitution of the State of Texas authorizing the Legislature to appropriate Seventy-five Thousand (\$75,000.00) Dollars, or so much thereof as may be necessary to pay claims incurred by John Tarleton Agricultural College for the construction of a building on campus of such college pursuant to deficiency authorization of the Governor of Texas on August 31, 1937.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas be amended by adding a new section, as follows:

"The Legislature is authorized to appropriate so much money as may be necessary, not to exceed Seventy-five Thousand (\$75,000), to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 31, 1937."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified

electors of this state at the next general election to be held on the first Tuesday after the first Monday in November, A. D., 1946, at which all ballots shall have printed thereon:

"FOR THE CONSTITUTIONAL AMENDMENT AUTHORIZING THE LEGISLATURE TO PAY FOR BUILDING CONSTRUCTED FOR JOHN TARLETON AGRICULTURAL COLLEGE"; and "AGAINST THE CONSTITUTIONAL AMENDMENT AUTHORIZING THE LEGISLATURE TO PAY FOR BUILDING CONSTRUCTED FOR JOHN TARLETON AGRICULTURAL COLLEGE."

Each voter shall mark out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this state.

Sec. 4. The sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary is hereby appropriated out of any

funds in the treasury of the State not otherwise appropriated, to defray the expenses of such proclamation and election.

NOTICE — Silvertown Lodge No. 754 will hold regular meeting Tuesday, August 13, at 8:00 p. m. All masters and members are invited to attend

Veterans' News

The new program consists chiefly of using the VA hospitals as "teaching hospitals" for grade A medical schools. The medical director cited the known fact that best medicine is practiced in such hospitals.

One million of the 1,600,000 veterans who came from farms will return to the farm, 900,000 of them as farm operators, according to a VA estimate. Citing the many pitfalls in trying to obtain farms at this time which would support veterans and their families, alternatives of formal

education in agricultural schools or on-the-farm training under the VA program were suggested. A department of agriculture estimate which throws a brighter light on the long run outlook for farmer-veterans is that 160,000 farm vacancies per year will occur during the next five years. This means 800,000 farm vacancies by the end of the five years.

This week marks the first anniversary of V-J Day as well as the anniversary of the day General Omar N. Bradley took over the reins of the VA. On V-J Day there were 2,500,000 veterans of World War II, and it was evident that demobilization could turn into a flood. This was borne out by the fact that the number of World War II veterans has reached the 13,000,000 mark during the past year. The first job faced by the General was to ready the VA to handle the tremendous load of work created. General Bradley states that he has spent a great part of the past year in this task.

Office Supplies at the News.

Q. How often should the litter in my broiler house be changed?

A. It should be changed when it becomes damp or when a contagious disease breaks out. Usually additional litter should be added every few days to a shallow covering placed over the floor before the chicks arrive. After each brood of chicks, of course, the broiler house should be thoroughly cleaned and disinfected, and new litter should be provided.

Q. Do dairy cows need much salt?

A. The amount of salt dairy cows need is almost entirely an individual proposition. The amount will vary with the size of the cows, the type of ration, and the amount of milk produced. In addition, some cows seem to have a special appetite for extra salt. Milking rations should contain 1% salt, but block salt should also be available for the cows to eat according to their individual desires.

Q. What is a two-litter-a-year breeding system in hog production?

A. This is the system recommended for maximum pork production from the hog herd. As developed at the Ralston Purina Company's Research Farm, this two-litter-a-year system requires that each sow be bred, farrow her litter, nurse her litter, and send her weaned litter to the fattening lots and finally to market twice a year. This high rate of production has been made possible by a fine, well-balanced program of good breeding, sound management, careful sanitation, and good feeding.

Q. What is the average length of life for a dog?

A. About ten years, although dogs have been known to live to the age of 22 years. One year of dog life is equivalent to about 7 years of human life.

Q. How much range is needed for growing pullets?

A. Normally about one acre for every 100 birds. That will depend a great deal, however, upon the weather. More range is necessary during wet periods than during dry periods.

Send your questions about any phase of farm management to FARM FACTS, 815 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

Mrs. J. L. Tracy of Quitaque spent last week visiting her daughter, Mrs. Lewis Gilkeyson, of this city.

United Support in Cotton Use Urged By Cotton Council

United support of the industry-wide program to maintain a high level of cotton consumption through research and promotion is the only real means of preventing a recurrence of the disastrous prewar cotton surpluses, Oscar Johnston, president of the National Cotton Council, said today in a message to the cotton interests of Briscoe county and the surrounding area.

Explaining that although cotton's position is the most favorable in many years, the Council president said that severe challenges to cotton from artificial fibers, paper and cheap foreign growths constitute a major problem which can be overcome only through an intensification of the cotton industry's program of research and sales promotion.

"There is no question as to the tremendous versatility and adaptability of the cotton fiber and seed," Mr. Johnston said. "Our competitors are fully aware of the great initial advantage held by cotton, which last year supplied 76 per cent of the world's fiber needs."

"At the same time the competition is spending millions of dollars annually to improve their products and to tell their story to the nation's consumers. Surely, the cotton industry can do no less than give its product the same opportunity."

During 1947, cotton will need to take advantage of every opportunity if it is to keep pace with competing products, the Council leader asserted.

"Fortunately, our industry has built solidly during the past seven years," Mr. Johnston said. "Even now legislation is before the Congress which will provide cotton with a research fund of a size which will keep our lint and seed abreast of the competition."

"Through the efforts of the Council, cotton has achieved a high position in the field of fashion. Women, who a decade ago scorned cotton except for kitchen dresses, now accept it as the smartest fabric for round-the-clock wear."

"Again through the Council, the industry has built great new markets for cotton insulation, a product which but a few years ago was in the laboratory stages. Even now the potentialities of cotton laminates as a high quality construction material are being fully explored."

"In the field of production and marketing, the Council has worked unceasingly to make the fullest contribution to the development of new machines and new practices which will lower the cost of producing and distributing the crop."

"The industry and the Council now are making definite progress toward rebuilding the overseas cotton markets which we once enjoyed. The Council's foreign trade director soon will make a personal survey of the European markets to determine just what steps can best be taken to increase exports of American cotton."

Nath Lawler, of Goodnight, spent the weekend visiting relatives and friends here.

Everyone hates to miss a train. But there is one time everyone crossing! In a survey of 4000 drivers, it was found that 81 per cent of them looked neither way before crossing the railroad tracks; 17 per cent looked in one direction; and two per cent looked both ways. The Texas Safety association says, "Miss that train—Look!—Listen!—and Live!"

Maybe you can gain a few seconds by stepping off the curb to wait for the light to turn green—but you may lose your

life! The Texas Safety association says it's the little chances pedestrians take that cause serious accidents. Remember, the motorist is protected by an all-steel body, but the walker hasn't even a strong bumper!

Motorists, good brakes are essential for the sake of safe and efficient service, advises the Texas Safety association. Statistics show that one car in seven involved in traffic accidents has faulty brakes. You're only a foot from trouble—test your brakes!

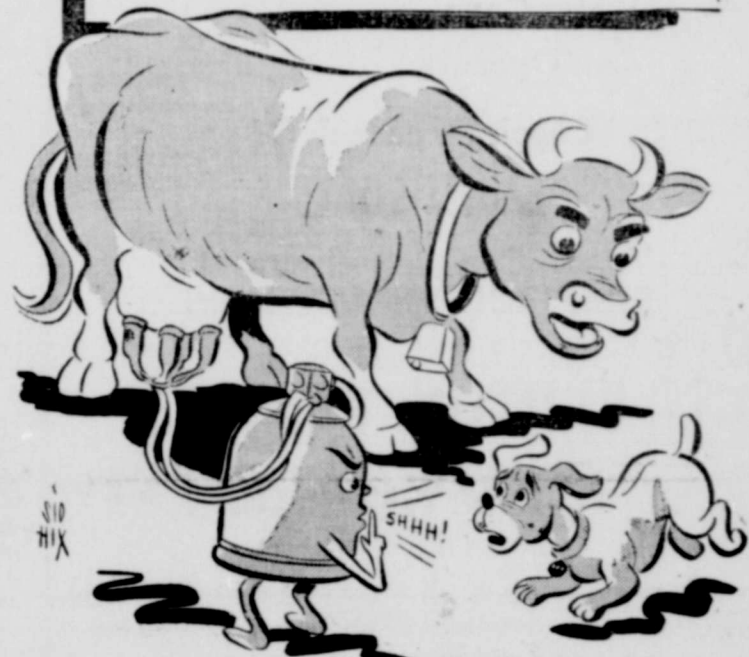

COVERED BUTTONS—BELT BUCKLES

I have received my new button mold and can now take orders for covered buttons and covered belt buckles; make belts, buttonholes and do hem-stitching. Every order filled with care.

BOX 161 SILVERTON, TEXAS

QUIET, PLEASE! BOSSY AT WORK

FIRST RULE of successful milking is that the cow should like the milker—both man and machine. Second rule, and just as important: There should be no distractions in the barn at milking time. Distractions interfere with the natural "letting down" of the cow's milk.

Make milking time a quiet time for your herd. And if you have a McCormick-Deering Milker, check it regularly to see that it is operating properly. If you need a new milker, ask us about the availability of new machines. Ask us, too, about International Milk Coolers.

ELECT HIM!

He's Qualified by 12 Year Service as a Texas Senator. He's an Overseas Veteran. He's the Man for the Job.

Are they working for or against you?

Nothing about clocks, watches, any sort of timepiece.

They're always working for... or against you. A man with no savings, no nest egg, finds the clock working steadily against him—remorselessly shortening the time left for him to make himself financially secure.

But the man who is saving money finds the clock working just as steadily for him. Because, with every tick, the money he has saved earns more money. Each day that passes finds him nearer to financial independence and security.

For most of us, there is no way in the world

to get time working for us like the regular buying of U. S. Savings Bonds through the Payroll Plan.

U. S. Savings Bonds give you back \$4 for every \$3 you put in, after ten years. And when you invest in them, you're not risking a cent! Each bond is backed to the hilt by Uncle Sam.

The Payroll Plan is specially designed to put your bond buying on a regular, businesslike basis. It makes systematic saving a breeze.

Next time you hear a clock ticking, stop a minute and think: Is it working for you?

If it isn't, join the Payroll Savings Plan... today!

THE EASY WAY... BUY YOUR BONDS THROUGH PAYROLL SAVINGS

Navy Offers Jobs To Ex-Navy Men

An opportunity for former enlisted men of the eighth naval district to go on active duty with full pay and allowances in or near their home towns was offered today by the Navy department through captain Arthur A. Agerton, district director of Naval Reserve.

Applications for shipkeepers, men who will look after ships to be used in the Naval Reserve training program in cities of the district, are needed immediately, captain Agerton said. He stressed the fact that men accepting this billet will not be transferred from place to place but will be given duty only in the city they request,

provided a navy ship of the reserve program is stationed there.

Shipkeepers will be chosen among former petty officers holding the ratings of fire controlman, gunner's mate, signalman, quartermaster, torpedoman, motor machinist's mate, watertender, electrician's mate, radioman, yeoman, storekeeper, and boatswain's mate.

Tours of active duty will be of one year's duration, with renewal if the shipkeeper's service is satisfactory. A man may terminate his enlistment before the expiration of a full year for sufficient reason.

"The navy's fast growing reserve program cannot get in full swing until we have shipkeepers to take charge of the LST's, destroyers, LCI's, and other craft

WANT-ADS

being used in the reserve program," captain Agerton pointed out.

Application can be made through the local assistant to the director of Naval Reserve or the chairman of the Naval Reserve steering committee in cities having organized reserve units or direct to the Commandant, Eighth Naval District, Federal Building, New Orleans.

Pictured above is one of the models of wheel chairs which will be available to the citizens of this county free of charge under the current community service project.

RECIPE OF THE MONTH

Here is an ideal dish for Saturday night supper, or any time when you're having a few friends for an informal meal. These Fricadilloes are similar to meat balls, except they're in the shape of little meat rolls. A combination of ground beef and pork gives them a hearty flavor. Mashed potatoes are used instead of bread crumbs, and help to make the meat go farther.

Fricadilloes

1 pound ground beef
1/2 pound ground pork
1 cup mashed potatoes
1/4 cup milk
3 eggs
1 1/2 teaspoons salt
1 teaspoon pepper
1/2 cup dry bread crumbs
2 tablespoons drippings
2 tablespoons water

Combine beef, pork, potatoes and milk. Add beaten eggs and seasonings. Mix well. Shape into small rolls about 1x2 1/4 inches. Roll in bread crumbs. Brown in drippings. Add water, cover, and simmer for 1 hour. Serves 6 to 8.

L. D. Griffin and Mesdames Roy McMurtry and Dean Allard were shopping in Amarillo Thursday of last week.

Nash Blassingame, Jack Hutchenson and Buster Campbell visited P. C. Hamilton in South Dakota last week.

Mr. and Mrs. Carroll Garrison and girls were shopping in Plainview Tuesday of last week.

Miss Doris Brown of Ft. Worth left Thursday after visiting with relatives here.

Mrs. L. A. Meeker and son, and Mrs. A. T. Meeker of Los Angeles, Calif., left Friday after an extended visit with relatives and friends here.

Mr. and Mrs. Will Smithee spent the weekend in San Angelo.

Mr. and Mrs. John Whitten of Tullia visited in the Ray Mayfield home Wednesday.

Among those shopping in Tullia Friday were Mesdames Hugh Stodghill, R. C. Hutsell, A. D. Arnold, Pearl Simpson, True Burson, Joe Mercer, Howard Brown and Patsy Long and Miss Betty Nan Burson.

Jane Arnold of Canyon visited briefly with relatives here Friday.

So, you shake your head when you read the news about brutal murders, racket wars, juvenile delinquents and friends? But did you know that thousands of Texans appear yearly in "traffic courts"? And probably most of those thousands are otherwise respectable law-abiding citizens —like you! Motorists, warns the Texas Safety association, must get it through their heads that breaking traffic laws and safe driving rules is a crime—and our shameful traffic toll each year shows that "this kind of crime" does not pay either! Don't be one of the lawbreakers!

Mr. and Mrs. Cowser and Mrs. C. M. Strickland attended the Knox county reunion in Lubbock Sunday.

Miss Ollie Persons of Quitaque visited with Mr. and Mrs. W. E. Schott over the weekend.

Mr. and Mrs. Frank Havran spent several days last week in Cortez, Colorado.

J. C. Bomar, Mr. and Mrs. Luther Gilkeyson, and Mr. and Mrs. Ray S. Brown spent Sunday in Lubbock with John Myers, who is critically ill.

First Sergeant and Mrs. S. L. Christopher and son, Mrs. Frances Christopher and Mrs. Ruth Cline were in Silverton Monday on their way to Los Angeles, California.

Mrs. V. R. Gardner and Emmett Daniels of Tullia here for a short visit with R. E. Brookshier Monday.

Mrs. Ruth Watley and Pearl Simpson were in Tullia business Tuesday.
