Break Potato Being Displayed by Local Man

W. L. McMinn, a native of Silvertown, who evidently came from a long line of sweet potato raisers, came walking into the news office one day this week with an enormous sweet potato in his arms. The potato was raised in his little garden in the south part of the city.

The potato, which was almost foot long and measured about seven inches in diameter, was without a doubt the biggest "tater" the editor has ever seen.

Mr. McMinn said he planted about 11 rows of potatoes some feet long and that he has harvested better than 50 bushels so far. To us, this sounds like something for the records!

Buster Boland of Amarillo was business visitor in Silvertown Sunday.

SEVERAL LOCAL PEOPLE ATTEND FUNERAL SERVICES

Those from Silvertown who attended funeral services for Melvin Ray Hartman in Wellington Thursday were: Rev. G. A. Elrod, Douglas and Walter Arnold, Mrs. J. H. Burson, Mr. and Mrs. Seymour Brannon, Mr. and Mrs. Irwin McJimsey and family, Mr. and Mrs. Bud McMinn, Mr. and Mrs. Paul Ledbetter, Mr. and Mrs. Walter Brannon, Mr. and Mrs. Johnnie Burson, Mr. and Mrs. Elbert Stephens, Mr. and Mrs. George Neatherlin and Miss Loree Burson.

Mr. and Mrs. Bill Edwards visited with Mr. and Mrs. M. W. Hartman and son in Wellington Sunday.

Mrs. Gene Edmond of South Plains was a Silvertown visitor Tuesday.

Clyde Mercer was a guest of Miss Frances Tension Sunday.

Seaney Adds Jewelry To Merchandise In His Store

Not having enough things to offer prospective buyers of merchandise, George Seaney, owner of the Seaney Appliance and Hardware, has this week added a jewelry counter to his house full of merchandise.

Aside from all kinds of costume jewelry, the counter holds watches, diamond rings, bridal sets and other glittering articles far too numerous to mention.

Mr. and Mrs. Walter Vic and son, Ronnie, of Happy, were weekend guests of Mr. and Mrs. C. G. Harrison.

Mr. and Mrs. J. T. Wilson of Lockney were business visitors in Silvertown Tuesday.

Mr. and Mrs. Grady Wimberly were Amarillo visitors Monday.

Here for Visit

Mrs. Francis Cox, 87, of Alanreed, Mr. and Mrs. Paul Bruce, also of Alanreed, and Mr. and Mrs. I. A. Allard of Ft. Worth arrived Tuesday for a visit in the home of Mr. and Mrs. Walter Allard, Sr. Mrs. Cox is a sister and I. A. Allard a brother of the local man.

Mr. and Mrs. Shirley Pitts of Canyon were visitors in the Bailey Childress home Sunday.

Ex-Navy Men Invited to Take Pleasure Cruise

More than 45,000 veterans in the eight-state Eighth Naval district were being asked this week if they desire to return to sea for a training cruise during January, February, or March with the Naval Reserve.

The 14-day cruises, first post-war educational voyages for organized and volunteer reserve organizations, will possibly afford shore liberty in ports in Cuba, Mexico, Central America, and South America. Captain Arthur A. Ageton, USN, district reserve director, said.

Results of the survey will determine assignment of navy training ships to district ports. Captain Ageton said. In order to give several choices of time for training cruises, similar surveys will be made quarterly, he announced.

Naval reservists accepted for the cruises will have transportation paid to and from port cities and will receive full pay and allowances during active duty, the director said.

American Legion and VFW Have Joint Meet Wednesday

Dentist Office to Be Opened Here Next Week

According to announcement received by the News this week, Dr. K. M. Watkins, dentist, is opening an office in the Havran building here next week.

Dr. Watkins, who is a brother of Mrs. Roy Coffee, has spent many years practicing dentistry in several South Texas towns, the last place in which he practiced being Orange.

During a conversation with Dr. Watkins, he said: "I have been resting the past few months because I was near the point of complete exhaustion when I left Orange. Now I'm tired of resting and ready to go back to work."

Silvertown has been in need of a dentist for quite some time, so in behalf of the people of our community, we would like to extend to Dr. Watkins a hearty welcome to our city.

Placed on Navy Football Team

According to an announcement received by the News this week, Midshipman Joe E. Davenport, the son of Andrew L. Davenport of this city, is on the Public Relations detail for the Navy's 1946 Football team.

Joe is stationed at the U. S. Naval Academy in Annapolis, Maryland.

SWING OF THE SOUTHWEST FARM MARKETS

Cotton turned downward from its peak, but grains climbed higher and livestock, poultry, eggs and other farm products remained steady to stronger at most southwest markets last week, USDA's Production and Marketing Administration reported today.

Strong cotton prices last week almost reached 39 cents, but later receded, and the close was irregular. Most southwest farmers continued to sell their cotton as soon as it was ginned, but the lower basis caused a slight holding tendency after mid-week. Demand appeared a little less aggressive, but absorbed all offerings. About 27 percent of the estimated production of 8,724,000 bales was ginned through September, with quality above a year ago. However, rains in Texas, Oklahoma and New Mexico damaged open cotton and retarded harvest operations.

New Farm Magazine To Make Appearance In Southwest

Southwestern Crop and Stock, a new magazine dedicated to the farmers, ranchers and agricultural interests of West Texas and the Southwest, will make its initial appearance December 15, according to Raymond Lee Johns, publisher of the magazine.

The publication will have an initial circulation of 25,000 copies and will be mailed principally to rural subscribers on the fifteenth of each month. The contents of the magazine will be made up of regional agricultural news, pictures, features and advertising matter directed to the Southwestern farmer and stockman.

Close cooperation is planned with the Extension Service, 4-H clubs, Women's Home Demonstration clubs, Future Farmer organizations and grain, livestock and agricultural organizations for the promotion of West Texas agriculture, according to Johns.

Johns, at present, is the secretary of Plainview Chamber of Commerce and is a 1937 graduate of Texas Technological college school of journalism. Johns was recently discharged from the U. S. Army after 41 months service.

Arlee Gowen, editor of the magazine, is also a graduate of Texas Technological college school of journalism. Gowen is a former resident of Lamesa, recently discharged from the U. S. Navy with 44 months service.

Statistics show that marrying between 30 and 34 offers the best chance for happiness. Second best is between 24 and 29. Chances are slimmest when the girl is under 24.

After marriage the chances are one in six that you'll get divorced, and the most perilous years are the third, fourth and fifth.

Incidentally the chances of eventual divorce are higher if you make your home in Chicago, Los Angeles, or San Francisco. In Chicago, for instance, it's only three to one you'll stay married, and in Los Angeles and San Francisco only slightly better.

Owls to go to Quitaque For Big Game Tomorrow

The Silvertown Owls are to invade Quitaque this week when a rough and tumble football game will be witnessed by many spectators. L. R. Bailey, coach of the local team, reported this week.

Quitaque and Silvertown have always been rivals and this is only an indication that both teams are going to be playing hard in order to walk off victoriously.

The starting time of the game was not learned but the local team will leave Silvertown about 9 p. m. tomorrow and it is thought that the game will start about 2:30 o'clock.

The following is the probable starting line-up:

Left end, Clifton Stodghill; left tackle, John L. Bruton; left guard, Billy Merrell; center, Jack Paige; right guard, Billy Self; right tackle, Hubert Brooks; right end, George Rampley; quarterback, El Allard; left half, John Arnold; right half, Robert Isbell; and fullback, Ray Teeple.

Those boys who will probably do lots of action in the backfield, who aren't in the starting line-up, will be: Carl Tidwell, Jet Mason and Clayton Woods.

Kansas City's New Merchandise Mart Opens Next Week

With the grand opening of the new Kansas City Merchandise Mart scheduled to coincide with American Royal Week, 1500 members of the Kansas City Advertising and Sales Executives Club are extending an invitation to merchants throughout the area to visit the Mart during the grand opening, October 20-26th.

A little more than a year ago the Kansas City Advertising and Sales Executives Club purchased the modern 6-story building at 22nd Street and Grand Avenue, just two blocks from the city's Union station. Other surrounding property was soon added and extensive remodeling has now been completed, and all the space is filled with offices and display rooms of manufacturers and distributors of consumer goods. The wares of more than 350 American manufacturers are on exhibit. Merchandise includes wearing apparel, furniture, housewares, china, pottery, glassware, lamps, toys, sporting goods, electrical appliances, etc. Some have described it as a "sight to brighten the eyes of dealers worn from seeking merchandise."

The enthusiasm with which the Merchandise Mart idea was accepted once the A & S E Club had given it a start, necessitated the forming of a separate corporation whose officers and directors are already laying plans for a Mart, that when fully completed, will be about four times the size of the present unit.

Mr. and Mrs. C. L. Wilson were Sunday dinner guests of Mr. and Mrs. A. H. Jackson.

Parents Should Protect Children's Eyes, Doctor Says

Emphasizing the urgent need for parental supervision of all phases of child health, Dr. George W. Cox, State Health officer said this week, "Much of the impaired eyesight of advanced years could be prevented if sufficient interest in early life were applied and a correction by means of temporary glasses made when required."

Parents, Dr. Cox asserted, should be watchful for danger signals in the child such as frowning, squinting, persistent headache, eyestrain, and watery eyes. If the youngster reads too closely or too far away from the face, that situation may also be significant of trouble.

"No child likes wearing glasses, nevertheless, it is the obligation of those responsible for the future of young folks to have their eyes examined by a reputable specialist if there is a suspicion that normal vision does not exist. It is much better for a child to wear glasses for a few years during early school life than to have permanently defective vision in later life," he declared.

Dr. Cox said that neglect of the eyes is by no means limited to children. Many older persons, some through vanity, indifference, or carelessness, fail to give proper attention to the care of their eyes. Penalties, he warned are bound to occur for such inexcusable negligence.

Mr. and Mrs. James Patton had as Sunday guests Mr. and Mrs. Gilbert Tinley and sons of Amarillo and Mr. and Mrs. Charles Cowart and children.

Tension Endorses Good Roads Amendment

In best of weather the reduced cost of operating mail cars over paved roads gives every rural letter carrier special incentive to back any plan for better rural roads. W. H. (Bill) Tension, Silvertown rural letter carrier, declared this week. Cost of operation is four cents more per mile and cars get two miles less per gallon of gas driving over dirt roads than on pavement.

"Construction, improvement and maintenance of main and rural roads are uppermost in the minds of Texas' rural letter carriers," Tension said, "and it is with this in mind that we heartily endorse the Good Roads Constitutional Amendment to be voted upon in the November 5 General Election."

"All farmers should support the Good Roads Amendment because they face the same difficulties we do because of poor roads. In addition, farmers and their families feel the lack of all-weather roads more keenly because often they are isolated for days at a time in bad weather. It is bad enough when we can't get

the mail to them, but it is worse when they can't get out even in an emergency."

Number three on the ballot, the Good Roads Amendment continues to allocate one-fourth of the gasoline tax to education and guarantees availability of the remainder of the gas tax and all motor vehicle registration fees for the construction of roadways, farm-to-market roads and urban trafficways.

Pointing out the fact rural mail carriers cover 1,659 routes daily, traveling 82,552 miles, Tension explained that many of these routes are almost entirely over unimproved, primitive dirt roads. Portions of some routes—and even all of others—cannot be traversed for days during heavy rains and snows.

"In my own case," Tension went on to explain, "I cover 69 miles a day of which approximately 67 miles are unpaved. In the past, there have been numerous occasions when I was unable to make my route because of impassable roads."

How Much "Social Security" Can We Pay For?

The cost of compulsory medical insurance, the kind envisioned by the pending Wagner-Murray-Dingell Bill, has been estimated in a report prepared by the Social Security Board for the Senate Committee on Education and Labor. It makes astonishing reading, even in a time when we deal with billions as casually as we used to deal with millions.

If national coverage, for the entire population of 140,000,000 was established, the initial cost would run from \$3,830,000,000 to \$4,030,000,000 a year.

Ten to fifteen years later the cost would increase because of the expansion of certain services such as dental and home nursing. Then estimates the Board, for a limited coverage on 10,000,000 persons the cost would vary from \$3,520,000,000 to \$3,890,000,000 a year. And if all the people were covered—and there's certainly no apparent reason why any group should be left out of so grandiose a scheme as this—the cost would vary between \$4,930,000,000 and \$5,450,000,000.

In the opinion of some authorities, the cost would be very much higher—perhaps \$6,000,000,000 or more. At best, a system of compulsory medical care whose benefits are purely speculative, and which is regarded as actually inimical to the public health by many distinguished medical men, would cost the workers, employers and other taxpayers of this country some \$4,000,000,000 a year and probably more.

One wonders just how many forms of cradle-to-the-grave "social security" we can have before all our income will have to be taken to pay for it.

Fire Kills More Than War . . .

Since 1920, more Americans have lost their lives by fire than in all the devastating battles of World War II, according to the Chamber of Commerce of the United States. In the last decade, 100,000 victims have been claimed by fire, and 170,000 more have been seriously burned, many of them disfigured for life.

The American people can effectively prevent fire by following a few simple rules. Ninety per cent of all fires, big and little, are preventable. The National Fire Waste Council offers these suggestions to the homeowner and business man:

Check from cellar to attic for rubbish—and get rid of it. Check heating systems. Keep ashes in metal containers and shield fireplaces with screens. Don't smoke in bed, and keep plenty of ash trays handy. Don't clean your clothes at home with flammable agents. Never bring gasoline into the house for any purpose. Keep matches away from children. Replace frayed electric cords and defective electric appliances.

Weekly SURPLUS NEWS WAA

Nearly 5,000 veterans bought consumer and capital goods from the War Assets Administration amounting in cost to the government to \$9,856,307 from July 1 through September 30. July was the heaviest month in dollar value, when \$6,000,000 worth of material was sold. More veterans purchased in September, but for a lighter dollar value.

Texas schools and colleges will be given top preference and bargain prices in the purchase of surplus machine tools and classroom laboratory equipment for use in training veterans enrolled under the GI Bill of Rights. WAA will sell to eligible educational buyers at a fraction of original cost—5% of the fair value (plus shipping charges). Electrical and wood-working machinery, heating equipment, electronic devices, furniture, optical instruments, engineering instruments and apparatus are among the items listed for sale. Applications should be sent to the nearest Federal Works Agency, which, after screening and certification, will forward orders to the WAA to be filled.

More than 1,500 flying jackets of various types are being offered for sale by WAA. Prices range from \$2.62 to \$5.98 each. The jackets are all used, but usable without repair. Minimum quantities are: To wholesalers and large retailers \$5,000, small retailers, \$200. The sale ends October 31.

Steel airplane landing mats now have a new use—for conversion into temporary corn storage cribs. A national sale of 4 million feet suitable for that purpose is located at Kanakee, Ill., and will be shipped from there to purchasers FOB in car-load lots. Offers to purchase from the Kanakee stockpile for corn storage, will be considered if they reach the Materials and Supplies Sales Division, WAA, Washington 25, D. C., by October 25th. For more information, if desired, write WAA Office, T & P Bldg., Fort Worth.

A fifty-million dollar stock of surplus capital and producers goods has come on the market through the New York regional office. The stock is divided among machine tools (\$3,000,000 inventory), industrial equipment, metals, and electrical equipment. The right to purchase is open to all buyers. Prospective purchasers who have specific requirements for machine tool equipment are invited to submit their inquiries to Lee Brewer, chief, metal working equipment sales division, WAA, T & P Bldg., Fort Worth.

America has more newsstands than the rest of the world

And here is why. Article I, the first of the Ten Original Amendments to our Constitution (the so-called Bill of Rights), states: "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances."

Today, this country will buy over 45 million daily newspapers and millions of magazines.

Over 6 million weekly papers will be distributed over this week-end in our small towns.

Never in the history of the world has one country had so many newsstands and publications, edited and published by men and women who believe in the work of our Churches.

This week-end is a good time to make your family a part of the daily activities of your Church in your neighborhood.

Science has made another great stride. For years, everyone in a cafe was at the mercy of any customer who had a nickle; that is to say, when one man put his nickle in the juke box, everybody had to listen to the tune, though it might sound to all the other customers like the one the old cow died to.
 But in a coffee shop in Waco, when someone drops a nickle, the tune is announced and, if you want to hear it, you have to put in a nickle, too. If you don't want to hear it, you just eat your food—if any.

Will Beauford Jester name Senator James Taylor as his successor on the State Railroad Commission? Both men are from the same county. There are 253 other counties in the State.

If the elderly are having a hard time getting by on an average of 80 cents a day—and they are having a hard time, too—what would their plight be if the ceiling of \$35,000,000 had been only about half that—which Taylor tried to make it?

The recent State Democratic convention ignored the Governor-elect's campaign to pledge to remove the ceiling and pay the \$40 a month in full. In view of the action of the platform makers at

San Antonio in giving the old folks the run-around, if the new Governor appoints an arch-enemy of old age pensions to one of the highest offices in the State, then the elderly and their friends—who helped provide a large part of Mr. Jester's vote in both primaries—might begin to wonder about things in general. Mr. Jester courageously carried the banner of the old folks high during the campaign and they are counting on him.

E. J. Headlee of Denton asked a man from Dimmitt how the name of the town was spelled. He said, "After a good rain, we spell it with an 'i' but if it just won't rain, then we spell it with an 'a'."

They say that J. Evetts Haley, noted Texas author, once visited a Ft. Worth book store. His newest volume was on display. Picking up a copy, he asked the saleslady, "Is this book any good?" Not knowing she was speaking to the man who had written it, she answered, "You bet it is! The pictures were drawn by Harold Bugbee!" Bugbee is, of course, the Clarendon artist.

None of us can resist the temptation to say, "I told you." Last summer, I warned that an effort would be made next January, when the legislature meets, to repeal the tax exemption on the gasoline the farmers burn in their tractors. Well, those in favor of removing the exemption didn't wait till January; the campaign has already started.

The farmer is the most heavily taxed man in Texas in proportion to income and property. His land can't escape taxation because it is out in the open where everybody can see it; he couldn't hide it, even if he wanted to. And he pays 4 cents a gallon on the gasoline he burns in his automobile—and mainly drives over community roads that are dusty half the year and nearly impassable with mud the rest of the time. And they are going to try to make him pay a tax on the gasoline he uses in his tractor.

A favorite story is the one about the Irishman who captured 17 enemy soldiers, single-handed. The general asked, "How did you

FARM MARKET—

(Continued from Page 1) Cloudy and wet weather interfered with peanut digging last week. Prices held steady at the loan-support level. Demand for shelled stock was light.

Rice harvest made good progress in Texas, Louisiana and Arkansas last week. Milled rice markets became more active as shipments of new rice increased. Prices held steady at OPA maximum levels with supplies far below demand. Other grains were in good demand too, and higher. Sorghums gained 30 cents per hundred, corn 5 cents a bushel, oats 4 cents, wheat 3 cents and barley 2 cents. Scent offerings of food commodities with current demand

Demand remained good for light egg and poultry supplies and prices firm. Dealers reported higher prices were discouraging some buyers. Current receipt eggs ranged from 40 to 46 cents a dozen. Heavy hens generally brought 27 to 33 cents a pound except in New Orleans where they ranged from 37 to 41 cents. Southwest hog markets received 5075 head this past week compared to 4810 of the previous week. All offerings held steady at ceiling.

Small sheep and lamb supplies sold quickly at steady to stronger prices last week at most southwest markets. Medium and good fat lambs brought \$15 to \$16, Ft. Worth; common and medium fat lambs \$12.50 to \$15.25.

How Much "Social Security" Can We Pay For?

The cost of compulsory medical insurance, the kind envisioned in the pending Wagner-Murray-Dingell Bill, has been estimated in a report prepared by the Social Security Board for the Senate Committee on Education and Labor. It makes astonishing reading, even in a time when we deal with billions as casually as we used to deal with millions.

If national coverage, for the entire population of 140,000,000, were provided, the cost would run from \$3,830,000,000 to \$17.50, Denver. Mrs. Dee McWilliams and sons returned home Wednesday last week. They had been in Tulia with her parents, Mr. and Mrs. P. Webb.

Mrs. Ernest Dickerson Honored with Pink And Blue Shower

Mrs. Ernest Dickerson was honoree at a pink and blue shower given in the home of Mrs. Roy McMurry Saturday afternoon. Co-hostesses were Mrs. Chester Burnett, Mrs. Alvie Mayfield and Mrs. Roy Mayfield.

Mrs. McMurry greeted the guests and Mrs. Burnett presided at the register.

A "Guess What" contest was held with Mrs. Dickerson being declared the winner. Mrs. McMurry ushered the winner into the bed room to present the award, which was a large array of gifts.

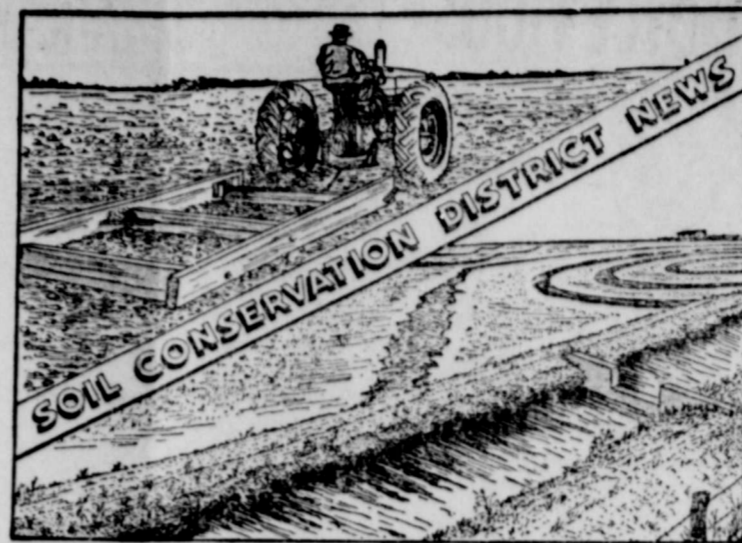

After viewing the display of gifts, guests went to the dining room. The lace covered table was centered with a plateau which was circled with dahlias and flanked with blue tapers in crystal holders.

A refreshment plate of sandwiches, individual cakes and candy was served, with punch, coffee and tea as drinks. Mrs. Burnett presided at the punch bowl, Mrs. Alvie Mayfield poured coffee and Mrs. Roy Mayfield poured tea. Plate favors were napkins with the name "Opal" stamped in gold.

Forty-three guests attended and a number of persons, who were unable to attend, sent gifts.

Mr. and Mrs. J. E. Wheelock had as weekend guests Mr. and Mrs. R. D. Wheelock and children of Canyon.

PAUL TRAINS FOR HIS LIFE WORK

LESSON TEXT—Acts 9:19b-22; 11:25, 26; Galatians 1:17-24.
MEMORY SELECTION—And straightway he preached Christ in the synagogues, that he is the Son of God.—Acts 9:20.

The regenerating grace of God had made Paul into a new man, one who now had no greater delight than telling others of the redeeming grace of God.

In preparation for that fuller ministry which was to follow, Paul first gave witness in the place where he had been persecuting the Christians, in fact, in the city to which he was bound when the Lord met him. But now instead of breathing out threats and violence he met these former associates and friends with the new message of the gospel.

He had to meet them sooner or later, and it was well that he met them now. A clean break with his past makes a man ready for future service.

I. Paul Faces His Past (Acts 9:19b-22)

What a surprise it must have been for those persecutors of the Christians at Damascus to find that the one to whom they had looked for leadership was now a Christian. What testimony that was—right to the point! "Straightway"—what a good word to apply to the servant of the Lord. Paul did not hesitate to declare his faith in Christ, to proclaim that the One who had redeemed him was able to save others.

It is the normal and proper expression of Christian faith to give testimony to others. That

should be true of every believer. With Paul there was the added element of his call to preach, for God had ordained that he should be his chosen vessel for that purpose (Acts 9:15).

Paul's message was Christ. He proved to the Jews that Jesus was the Christ (v. 22), the One of whom their Old Testament Scriptures spoke and for whom they professed to be looking. He declared him to be the Son of God (v. 20).

They were unwilling to accept the message. They were "amazed" at Paul and "confounded" by the truth he proclaimed, but they rejected both it and him, and he had to escape for his life.

Although our lesson only indirectly refers to it (see Gal. 1:17, 18), it should also be noted that Paul went up to Jerusalem before he went to Antioch, as indicated in our next portion of Scripture.

There he faced suspicion on the part of the believers, who knew him as their enemy.

Having faced his past we now see that

II. Paul Faces His Future (Acts 11:25, 26)

He was God's chosen instrument to bear his name to the Gentiles (see Acts 9:15), and at the invitation of Barnabas he came up from his home city of Tarsus to minister at Antioch, the place which now became his real spiritual home, and the center from which his great missionary enterprise was carried out.

It is interesting to note how this came about in the providence of God. Persecution spread the believers abroad (Acts 11:19), and like the scattered brands of a beaten fire they carried the flame of Christianity far and wide. Thus the gospel came to Antioch, the third greatest city in the world of that day. A revival broke out and Barnabas was sent from Jerusalem to be of help.

Good and spiritual man that he was (Acts 19:23, 24), Barnabas did nothing to hinder this work of God, but admonished the people to "cleave unto the Lord"; that is, to follow him closely. Would that all spiritual advisers had such a spirit and such sound judgment.

He was also wise in sensing his need of help. So he went after Paul, the very man to teach these young Christians and to lead them out into a radiant and abundant life for the Lord. Here it was that the beautiful name of "Christian" was first used.

All this was possible because

III. Paul Faces His Lord (Gal. 1:17-24)

Many years after he had been

called to Antioch, Paul wrote this letter to the Galatians to warn them against Judaizing teachers and to urge them to hold fast to salvation by faith. He declared this to be a message which he received from God and not from men.

Before Paul went out to preach and teach he went up into Arabia to be alone with the Lord, as he took what we might call his post-graduate course in theology. He learned—alone with God.

His life had been transformed. His attitudes had been completely changed. His thinking about Christ was diametrically opposite to his former beliefs. He needed time alone with God to prepare himself for the stormy but triumphant years ahead.

"We'll Bring the Power"

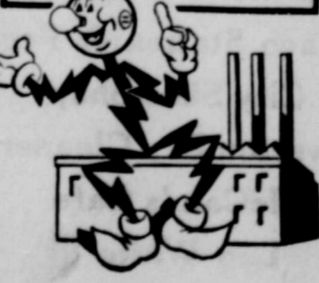

You'll be seeing more and more efficient electric kitchens and time and labor saving electrical appliances in the future.

We'll bring the power for these electrical conveniences that mean so much to a really modern home. We're bringing that power from enlarged power plants, over mile upon mile of new transmission lines.

Your Public Service Company, a pioneer in building ahead for the future, is now in the midst of its largest expansion. We're marking the start of our 22nd year with a \$12,000,000 improvement program.

Yes, there'll be better living... ELECTRICAL living for more and more folks in this great Panhandle Plains Pecos Valley area. And—we'll bring the power.

A PIONEER IN BUILDING AHEAD FOR THE FUTURE!

Another in a series of advertisements designed to help build this fast-growing territory in which we serve.

ary out-of pocket fees usually borne by borrower such as appraisal, title examination fees and other costs and expenses incident thereto may be charged against the veteran by the lender.

Q. Are there any circumstances under which the guaranty may exceed 50 per cent of the loan?

A. Yes. Where a Federal Agency has made, guaranteed or insured, or is to make guarantee or insure a loan for any of the eligible purposes and the veteran needs a second loan to complete the purchase price, the second loan may be fully guaranteed if:

(a) The amount involved is not in excess of the veteran's guaranty.

(b) The loan is not in excess of 20% of the purchase or cost.

Q. May several veterans use the guaranty to acquire property jointly?

A. Yes, but the total amount guaranteed may not exceed 50% of the loan or the total entitlement for guaranty of the veterans, whichever is lesser. No loan may be guaranteed or insured by a Federal Agency.

YUGOSLAV HOSTAGE—Staff Sergeant Kenneth E. Schussel, 22-year-old San Francisco soldier who was held with two buddies for almost seven months as a virtual "hostage" of the Yugoslav government, arrived home for a reunion with his parents. Sgt. Schussel is shown, center, with his mother, Ella Mae, and father, Ernest, in their home. The dog is "Cookie," acquired during Schussel's stay in Belgrade. Schussel was charged with the fatal shooting of a Russian soldier.

Six thousand books—all brand new—are on their way to war veterans in the 11 Veterans Administration hospitals of the southwest.

Roy E. Eury, Special Services director for VA's Dallas branch, said both fiction and non-fiction obtained from the army are being distributed among VA hospitals in Texas, Louisiana and Mississippi.

These books will boost the number of volumes in patients' libraries to nearly 50,000 Eury said.

During September, patients in veterans hospitals in the tri-state area checked out 10,140 books and showed a strong preference for fiction, or "escape" reading.

One book-loving veteran at the Legion, Texas, hospital set some kind of a record, reading 1,500 books during his two-year stay at the tubercular hospital.

Approximately 8,100 children in Texas, Louisiana and Mississippi, whose fathers died as a result of World War II service, are receiving monthly compensation benefits, VA reported this week. Throughout the country, about 90,000 children are receiving these.

FARM FACTS WORTH KNOWING

Q. Do pigs do better on coarse or fine oats?

A. According to the Journal of Animal Science, a test was made on pigs of 50 pounds initial weight, feeding them coarse, medium, or fine-ground oats, supplemented by proteins and minerals. Those pigs fed the fine-ground oats made the fastest gains. After 60 days of feeding, pigs fed coarse, medium, and fine modulus oats reached 121, 132, and 155 pounds liveweight respectively.

fits may be caused by several things, such as poor quality proteins, a lack of some of the essential vitamins, or a ration too high in wheat gluten. Many cases of so-called running fits are nothing but a digestive disorder. A dog is a nervous animal and throws a fit when he is in pain. At times, internal parasites cause enough pain so that a dog goes into a fit. The best way to prevent fits of any kind is to feed your dog a well-balanced ration, regularly, and keep him free of internal parasites.

Send your questions about any phase of farm management to FARM FACTS, 835 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

Aliens who served in the armed forces of the United States during World War II have less than three months left to qualify for quick citizenship under the Second War Powers Act of 1942 the Veterans Administration warned this week.

The act expires on December 31, 1946, and affects all aliens who enlisted or were inducted into the service before December 28, 1945.

Recent reports indicate that approximately 100,000 service-men and veterans have failed to take advantage of the right to obtain American citizenship as provided under the Act.

Those affected are not required to file the customary declaration of intention, need not have lived in the United States for any specified time, are not required to speak the English language or meet educational tests.

Honorably discharged aliens who wish to take advantage of the law should apply to the nearest office of the Immigration and Naturalization Service or inquire at their nearest VA office.

NOTICE TO FARMERS

A number of farmers are now ready to start seeding wheat on the contour. There is a payment of 25 cents per acre for carrying out this practice. Approval for the practice must be obtained from the Briscoe County ACA Committee "before" the practice is started. If you plan to seed your wheat on the contour it will be necessary for you to get approval right away. This approval cannot be made after the practice is carried out.

Farmers who have approval for Contour Listing or Furrowing practice will not be eligible to draw payment for contour seeding on the same acreage. Contour listing or furrowing as a part of a seeding operation, must be completed 60 days prior to seeding or payment will not be made.
