Rock Creek Church To Have Gospel Meeting

According to an announcement made here yesterday by Earl I. Cantwell, minister of Rock Creek Church of Christ, that church will hold a gospel meeting from August 15th through August 24th.

Beginning tomorrow night at 8:00 p. m. and lasting nine days the meeting will bring many interesting Bible subjects to be discussed by the speaker, Rev. Cantwell, Mr. Cantwell said.

Preaching for the meeting will be done by Evangelist Earl I. Cantwell and Wade Steele will be in charge of the song service.

Everyone is invited to attend any or all of these meetings and take part in song services and hear the Gospel.

Rodeo to be Here In Very Near Future

The local Veterans organizations have purchased the old rodeo pens which were formerly located at South Plains and have them already set up on the old Silverton softball ground where a rodeo is to take place sometime in the very near future. Garner M. Guest, commander of the local VFW Post, said here early this week.

Committees have been appointed to attend the necessary details of a rodeo and all indications point to the fact that there might possibly be a rodeo held here the latter part of this month.

Social Security Adm. Celebrating Twelfth Birthday

Twelve years ago, this month the Social Security Act became law, providing a measure of financial security for the people of the Nation through three principal channels: Old-Age and Survivors Insurance, formerly known as Old-Age Insurance, Unemployment Insurance, and Public Assistance.

Amended in August of 1939 and August of 1946, the Act today stronger, and much improved on its 12th birthday, than it was when it first became law. The following anniversary facts were supplied by R. Sanderson, manager of the Social Security Field Office in Amarillo.

Old-Age and Survivors Insurance has passed the two million mark in beneficiaries and a million dollars a day in benefits. Those entitled to such cash insurance rights, bought and paid for by joint employer-employee contributions, include retired workers 65 or past the age of 65, wives of such wage earners who are also 65 or older, unmarried children under 18 of such retired workers or of deceased insured wage earners, widows of insured workers who are either 65 or older or who have one or more minor children entitled to benefits in their care, and aged dependent parents of deceased insured workers who left no widow or child entitled to monthly benefits.

Unemployment insurance payments by the individual States have fluctuated widely as job opportunities were few or many.

By mid-1947, the various States had developed their public assistance programs, based on a proved financial need of the individual, with Federal matching provisions at varying degrees, to the point that over 2,250,000 of aged were receiving in excess of \$80,000,000 each month in old-age assistance grants.

Almost 400,000 families and almost 1,000,000 children were receiving more than \$24,000,000 each month in aid to dependent children grants and nearly 80,000 severely blind were receiving some \$3,000,000 each month in assistance grants.

Persons desiring more detailed information on any or all of the above three programs should direct inquiries on public assistance to the State Department of Public Welfare at Austin, on unemployment insurance to the Texas Employment Commission at Austin, and on Old-Age and Survivors Insurance to the Social Security Field Office at Amarillo, Texas.

Miss Anna Belle McCarty of Happy and Miss Norma Lee McCarty of Weatherford are visiting in the Tommy Wyrick home this week.

Miss Lucille Lawson of Lubbock was the week-end guest of Mr. and Mrs. Joe Powell.

Mr. and Mrs. Wayne McCutchen and daughters, Wayne and Joy Ann, have returned from Sanger and Denton where they spent several days visiting relatives and friends. Mrs. G. P. Kirkland of Bronte who has been visiting her son, J. W. McCracken and Mrs. McCracken accompanied them on the trip.

Mr. and Mrs. Berton Hughes and Robert with Mr. and Mrs. Hubert Hall and Carolyn Ann of Memphis, Texas have returned from a vacation trip to Carlsbad, El Paso, New Mexico, Dallas, and Cocona, Texas.

Mr. Harold K. Ownby arrived Monday from Los Angeles, Calif. to visit in the home of Mr. and Mrs. Clyde Wright.

Office Supplies at the News.

Urges Livestock Industry to Keep Up Bovine TB Work

Unless continuing effort is made to keep bovine tuberculosis out of cattle herds in the United States, this disease may again become a major livestock and public health problem.

This is the view of Dr. A. E. Wight, recently retired chief of the tuberculosis eradication division of the U. S. Bureau of Animal Industry.

Dr. Wight said that since the United States began its nationwide campaign in 1917 to eradicate bovine tuberculosis, some 280 million cattle have been given the tuberculin test and that of this number about 4 million have been condemned to slaughter because of the disease.

Over \$250 Million Spent

“Over \$250 million has been spent by the federal government, states and counties to bring this plague under control,” Dr. Wight declared, “but the tuberculosis freedom we bought with that money may easily be lost if federal, state, and county funds are not made available to continue that work, and if the livestock industry does not give wholehearted support to the testing program.”

Herd Not Free of Danger

Dr. Wight pointed to the fact that the United States now has a very low incidence of bovine tuberculosis, but he quickly added that “perhaps we are talking ourselves into false security by claiming this achievement.” He said that a very small number of cattle are still infected and that as long as any tuberculous cattle remain, herds will never be completely free of danger.

PERSONALS

Mrs. Mollie Maxie and daughters, Ronnie and Beth, visited with her son, Bobby Maxie, in the Durward Brown home over the week end.

Roy Dean Seaney was an Amarillo visitor Sunday.

Mr. and Mrs. G. R. Dowdy had as their dinner guests Saturday evening, Mr. and Mrs. H. L. Couch and Mr. and Mrs. Lonnie Gayle and Miss Betty Jean Fullingim of Childress, Ross Dowdy of Amarillo, and Rev. and Mrs. G. A. Elrod, Rev. Cole, and Roy Camp.

Mrs. J. W. Copeland of Mangum Oklahoma returned to her home Saturday after an extended visit with her daughter, Mrs. T. G. Olive.

Those visiting in the T. G. Olive home Sunday were Mr. and Mrs. Drew Holcomb and children of Turkey and Bob Olive of Plainview, also Mr. and Mrs. Doyle Stephens and Donna Ann, and Kenneth Autry, and Charlotte Watley.

Mr. and Mrs. Arthur Arnold and family returned Sunday morning from their vacation.

W. L. McMinn was admitted to the Lockney Clinic last Friday.

To Hold Meeting

EARL I. CANTWELL

Horse Owners Cautioned About "Swamp Fever"

Veterinary authorities have just issued a seasonal warning about “swamp fever” in horses and mules, calling attention to the fact that this disease tends to become prevalent during periods of extreme heat and high humidity. It is properly called equine infectious anemia, they point out, and is caused by a virus that poisons the blood. It has occurred in about two thirds of the states—from coast to coast and border to border, particularly in low-lying or wooded places.

Impure drinking water, faulty nutrition, and infestation with internal parasites all may contribute to outbreaks and biting insects are considered important in spreading the disease.

These authorities warn that infectious anemia is difficult to identify under ordinary farm conditions because the symptoms that characterize it are common to several other diseases. The only way it can be diagnosed positively is by animal inoculation—in other words, by injecting a healthy animal with blood from an infected animal, and waiting to see if the healthy animal develops the disease.

Owners should suspect infectious anemia when a horse or mule shows rapid loss of flesh and energy, intermittent attacks of fever, congestion of the mucous membranes of the eyes, and dropsical swellings in the lower parts of the body.

Pie Supper to be Held At High School Tonight

Tonight is the night and the local high school is the place! A big pie supper plus an added attraction of plenty of ice cream and sponsored by the Senior Girl Scouts.

Everyone is invited to attend and enjoy a delightful evening of pleasure and fellowship as well as the pie and ice cream which will be found in abundance.

In 1946, the average motor car in the United States had been in use nine years.

Silverton To Have County Fair next Month

Quitaque Water Comforting Item For Local Residents

While the editor of the Briscoe County News was “beating his brains out” last week, in an effort to convince the people of this city how important it was to conserve our city's water supply, W. R. Scott, owner of the Quitaque Post was notifying residents of that city that they had plenty of water and was urging them to use it freely.

In regard to the manner in which the abundant supply of Quitaque water might be used to a great advantage, Mr. Scott said, “This bountiful supply could be used to much better advantage and lawns improved and beautified to improve the appearance of our little city. Nothing is greater inducement to prospective residents than the attractive appearance of a town. We have often heard it said that the water here is detrimental to grass and flowers, but there is not a lovelier place anywhere than our pretty city park. We may not have time to cultivate flowers in our yards, but well watered, grass will grow here . . . and we have all the water we need. A pretty green lawn adds immeasurably to the value of a home and more than pays for the effort (and water) it takes.”

An abundance of water at Quitaque is not only a comforting fact to the residents of that city but also to the residents of Silverton. If the water situation gets worse here we can call our Quitaque neighbors for our Saturday night's bath.

Texas Angus Group Expansion Trend To Include Field Man

The Texas Aberdeen-Angus Association, one of the fastest growing state groups of Angus breeders in the nation, expects to emerge into an even greater expansion program this fall, when it is anticipated that a full-time field man will be employed.

The association has planned to boost its treasury through an auction of commercial and registered heifers at the State Fair in Dallas in October and is asking Texas raisers and breeders of Aberdeen-Angus cattle to contribute heifers to the auction.

Already several contributions have been made but the goal is for at least 40 registered heifers and about 30 commercial heifers, according to Rufus Peoples, of Tehuacana, president of the association, who is receiving notification from those wishing to contribute heifers to the auction.

Mr. and Mrs. Buford Clemmer and family of Lubbock, were week end guests of Mr. and Mrs. Jim Clemmer. Joan and Lucille Clemmer returned home with them for a few days visit.

SWING OF THE SOUTHWEST FARM MARKETS

Many farm products gained ground on southwest markets last week, and others held their own fairly well, according to the Production and Marketing Administration, U. S. Department of Agriculture.

New crop corn started moving from South Texas farms last week, and white corn prices declined several cents per bushel. Yellow corn advanced, however; as dry weather in the corn belt threatened damage to the crop. Oats, barley, and grain sorghums strengthened some, too. Decreased marketings of winter wheat sold firm and Midwest and Great Plains growers had about completed the record harvest.

Some early new crop rice sold in Texas and Louisiana last week at \$10 to \$10.50 per barrel. Most feeds held about steady to firm but gray shorts and bran dropped \$3.50 to \$5 per ton. Dry weather improved hay demand, and prices advanced \$1.50 to \$2.00 per ton. South Texas rains helped growing peanuts, but North Texas and southern Oklahoma became very dry. Wool saw active trading in advance of the reinstated government purchase program which began August 6 under the new wool act.

Newly ginned cotton from South Texas found good demand, and most offerings graded strict middling or better. However, spot prices netted losses of \$1 to \$2.

Southwest peaches sold lower last week as demand slowed, especially for the smaller sizes. Hot weather held watermelons firm at most markets. Colorado peas and cauliflower weakened, but beans and lettuce held firm. Potatoes, onions, and tomatoes from southwestern producing areas strengthened slightly toward the end.

With hotter weather, top quality eggs became even more scarce, and markets held firm. Prices stayed up fairly well on liberal offerings of medium to lower grade eggs. Demand for poultry slowed some, but prices remained generally firm on moderate receipts. Heavy hens brought mostly 22 to 26 cents, and fryers 32 to 37.

Hog markets generally overcame early-week losses to close mostly 25 to 50 cents higher. Closing bulk of good and choice medium weight butchers sold at \$27 at San Antonio, \$27.50 at Fort Worth, \$27.25 at Oklahoma City; and \$26.50 to \$27.25 at Wichita. Week's top at Denver was \$30, within 25 cents of all time high.

Sheep prices remained largely steady for the week, and most spring lambs went a little higher. Medium to good spring lambs brought mostly \$18 to \$21 at San Antonio, and closed at \$19 to \$22

See FARM MARKET—Page 4

According to an announcement made this week by County agent, Leo White, who is general superintendent of the Briscoe County Fair Association, a big county fair is to take place here the latter part of September.

Dates for the fair have not yet been definitely set but the most likely date will be September 19th and 20th.

In addition to the fair, there'll be auctions, dances and a rodeo all of which is being sponsored by the local posts of the American Legion and the Veterans of Foreign Wars.

Rules and regulations for the big event are not yet completed but prizes and prize money for winners of all exhibits combined will equal better than \$300.00. Persons interested in exhibiting products, etc. are urged to watch this publication for further information which will be released soon.

Briscoe county's fair committee members are: George Seaney, Alton Steele, Leo White, Durward Brown, Alvin Redin, M. L. Burks, Hugh Nance, Joe Powell, and D. T. Northcutt, General Superintendent, Leo White; Superintendent of Agricultural Exhibits, M. L. Burks; Superintendent of Livestock Exhibits, D. T. Northcutt and Publicity chairman, Joe Powell.

Children Should Be Free of Physical Defects

School days will soon be here again. Thousands of Texas boys and girls and teachers will be returning to the schools. Each child entering school should be as free as possible of any physical defects which can be corrected. The earlier these are corrected the better chance the child has for academic progress and for good social and emotional development, says Dr. Geo. W. Cox, State Health Officer.

August is the time for a complete medical and dental check-up. Eyes, ears, nose, throat, and teeth should be carefully examined by the family doctor and dentist, and all remediable defects corrected. If such defects are neglected, they may result in serious damage to growth and development.

Dental corrections often take time, but a person is repaid many times over for good dental care. Healthy teeth lend attractiveness to the personal appearance, enable thorough chewing of food, and promote general good health.

In schoolrooms, children expose each other to many communicable diseases, especially the common cold and diseases such as measles, scarlet fever, whooping cough, and diphtheria. Protect the child from diphtheria and whooping cough as well as smallpox, by safe and dependable immunization.

Parents, see that your child has complete protective treatment against preventable diseases; a clean healthy throat and mouth; the best possible vision and hearing; adequate diet, sleep and rest to build up resistance against disease. It will pay good dividends, and your child will be ready for school.

Mr. and Mrs. Shorty Donnell and son of Amarillo spent the week end with relatives here.

WELCOME, NEW SUBSCRIBERS

We welcome the following new and renewal subscribers to The News this week. No restrictions are placed on weekly newspapers concerning the acceptance of new subscriptions, so if you are not now a subscriber, we hereby invite you to become one:

PERSONAL ITEMS OF LOCAL INTEREST

Mr. and Mrs. Johnnie Quillin left Friday afternoon for a visit with Mrs. Quillin's relatives near St. Louis, Missouri.

Miss Anna Belle McCarty of Happy and Miss Norma Lee McCarty of Weatherford are visiting in the Tommy Wyrick home this week.

Miss Lucille Lawson of Lubbock was the week-end guest of Mr. and Mrs. Joe Powell.

Mr. and Mrs. Wayne McCutchen and daughters, Wayne and Joy Ann, have returned from Sanger and Denton where they spent several days visiting relatives and friends. Mrs. G. P. Kirkland of Bronte who has been visiting her son, J. W. McCracken and Mrs. McCracken accompanied them on the trip.

Mr. and Mrs. L. V. Vaughan of House, N. M. arrived Saturday for a visit with their parents, Mr. and Mrs. John Vaughan and Mr. and Mrs. D. H. Yaney.

Mrs. Scott Dunham and Freddie and Mrs. Jim Stevenson were Lubbock visitors Saturday. Mr. Dunham, who is employed in Tahoka, returned to Silverton with them for the week end.

Lucille Satterfield returned to Silverton last week after spending the past several weeks in Dennison.

Mrs. Janis Morgan and son of Estelle were Silverton visitors Thursday.

Doyle Yancy has returned from Lubbock where he had been for several days.

Mr. and Mrs. Lowell Rowell and family of Guyman, Oklahoma, arrived in Silverton the latter part of last week for a visit with relatives.

Sam Turner was taken to the Tulia hospital last week suffering from a heart attack.

Mr. and Mrs. Bailey Hill and children and Mr. and Mrs. Shirley Pitts and children spent the week end with Mr. and Mrs. Lloyd Holland of Perryton.

Mr. and Mrs. John McCain and daughter, Margie, Mrs. N. C. McCain and Clifton, and Mrs. Albert Pool and son all attended the Harley Sadler show in Tulia last Wednesday night.

Mr. and Mrs. E. C. Carlyle of Ralls were recent business visitors in Silverton.

Mr. and Mrs. Harold Stoltenberg of Tulia visited in the O. M. Dudley home Thursday. Martha Lou Dudley who has been visiting here returned to their home with them.

Mr. and Mrs. Austin Bailey, Dot and Buzzie, returned Thursday from their vacation.

Shorty Davis, who is a patient in the Tulia hospital, is reported to be doing nicely.

Olen Ogle of Crosbyton spent a few days in Silverton last week.

Mrs. Lottie Henderson and son, Dwayne, were business visitors in Tulia Thursday.

Herman Tracy of Quitaque was a business visitor in Silverton Saturday.

Mr. and Mrs. D. F. Wulfman Annette, and Mrs. Eunice Elkins and children visited with Mr. and Mrs. "Mule" Dowell and children in Lubbock last Sunday.

Mrs. Edwin Mason of Froga was a visitor in the homes of Mr. and Mrs. Tom Autry and Mr. and Mrs. Ennis Autry last week.

Among those who attended the Harley Sadler show in Floydada Friday night were Mr. and Mrs. Snooks Baird and Cecil McCain.

Mrs. E. A. Bellinger and daughter, Mary Lou, went to Tularos, N. M. last Thursday for a few days visit.

Gordon Tyler, of Crosbyton, has the foundation run for a new house to be erected just west of the former Phillips "66" station.

When Unions Misrepresent The Facts . . .

Some unions, apparently, do not hesitate to utterly misrepresent facts in an effort to gain public favor for their side.

An example of that recently occurred in a short-lived railroad strike affecting one of the nation's largest railroads. One union demand was that the minimum wage for engineers be raised from \$10.02 to \$12.95. This point was heavily stressed, and the union did everything possible to make the public believe that engineers are woefully underpaid. The truth of the matter is that the demand was completely without practical significance. No engineer on this railroad earns as little as \$12.95 a day—and the bulk of them earn \$20 to \$30, with overtime in addition. Whether their wage is figured on a daily or annual basis, railroad engineers are among the highest paid workers in the country, and working conditions are excellent in all particulars.

It seems to be a fact that certain union officials think it a wise policy to stir up trouble at regular intervals, regardless of its effect on the country. It was this kind of thinking which resulted in the enactment of the Taft-Hartley Bill by the last Congress. It is this kind of thinking which, if continued, will inevitably bring further restrictive legislation down upon the heads of labor. In this country, the public interest is paramount. It cannot be flaunted indefinitely. Business learned that many years ago, when excesses of capital were followed by a flood of regulatory legislation. It is time that labor, in all fields, learned it as well.

Every legitimate demand of labor in major industries can be gained without striking, under the present mediation machinery. Whatever hardships remain can be settled by honest collective bargaining between the unions and management. The cost of perennial strikes—in money, in work lost, in the depressing effect on industry and agriculture—is too great for any country to bear.

SUPERVISORS FOR CAP ROCK DISTRICT—Earl I. Cantwell, Chairman, Louie Kitchens, Obra Watson, Pierce White and Bray Cook.

The regular meeting of the Supervisors of the Cap Rock Soil Conservation District was held on Friday of last week August 8, 1947 in the Soil Conservation Office.

Five farm plans were reviewed and approved by the Board. These plans were submitted by E. W. Scheid, Wiley Mize, A. L. Morris, Mrs. Anna Hughes, and Scott Smithee. Six applications for conservation assistance were also approved at this meeting.

The following members were present for the meeting: Obra Watson, Chairman; Bray Cook, Secretary; Louie Kitchens, Treasurer; and Bill Helms, member. W. Scott Amerd of Plainview represented the Soil Conservation Service.

Latest information concerning Austrian Winter Peas and Hairy Vetch for winter cover crops is that seed will likely be scarce before the planting season has hardly started. Cooperators who plan on sowing either of these legumes this fall for winter cover and grazing should get their seed at once. Sources of seed supply can be obtained by contacting the local District office at Silverton.

The USS Ranger was the only prewar carrier which went through World War II without a hit from an enemy bomb, torpedo, or shell.

Texas Farmers Have Record Income Report Shows

Big news to Texas farmers was the record high farm cash income during June. Earnings doubled the May figure, according to estimates by the University of Texas Bureau of Business Research, to push total June income up to \$187,527,000.

June income was 90 per cent higher than in June 1946, and when compared with the 1935-39 period was up 404 per cent.

Harvest brought jubilation in all sections of the State but wheat sectors saw unprecedented farm cash income figures. Wheat accounted for \$96,936,000 or more than 52 per cent of the total farm income.

For the Northern High Plains wheat accounted for 86 per cent of farm income, in the Southern High Plains district 46 per cent, in the Red Bed Plains 83 per cent, in the Western Cross Timbers 56 per cent, in the Black and Grand Prairies 62 per cent and in the Southern Texas Prairies 31 per cent.

June farm income was the largest June figure since the Bureau's index was started in 1927. The effect of this large wheat crop on business are obvious. Banks all over the State are already reporting expanding bank deposits as a result of the tremendous harvest.

Just how much of the income gain was a result of the rise in prices is difficult to estimate. The prices of Texas farm products were in most cases above June 1946 prices, but there were declines in the May-to-June comparison of prices received by farmers.

Weekly SURPLUS NEWS WAA

Five Red River Arsenal warehouses containing 200 lots of auto-

mobile parts and a variety of other surplus property will be open to the public next Monday and Tuesday, August 18 and 19, for a competitive bid sale. Prospective buyers will find bus transportation waiting for them at the east gate of the Texarkana installation for a tour of all inspection sites. Bids on the lots of automotive supplies, furniture, hardware, bar steel and brass as well as quantities of other

materials will be opened at 1 p.m. Tuesday, August 19, and awards will continue to be announced until everything has been sold.

Further information regarding the veterans' sale of 480 automobiles at 17 Texas installations was announced this week by the WAA at Grand Prairie. All of the actual selling will take place at the Grand Prairie sales warehouse immediately following a drawing to be participated in by all veterans present at 1 p.m. Monday, August 25. Honorable discharge copies or other proof of World War II service will qualify the veterans as buyers. Veterans will continue to make their selection from the shiny sedans, station wagons and other vehicles by inspection daily through August 22, and the buying will continue until August 27, with certified veteran dealers scheduled to buy on August 28.

A farm-like expanse of everything from doll buggies to portable conveyers is greeting visitors to the air conditioned interior of the Grand Prairie War Assets Administration plant this week. The three million dollars worth of war surplus on display there for a giant bid sale August 21 and 22 covers an area of approximately 20 acres. Complete lists of the 5,000 items contained in the 1,000 lots will be posted on the lots so that prospective buyers will not have to sort through each of the displays. Inspection and acceptance of informal bids for the sale is continuing Monday through Friday and until 4 p.m. Tuesday, August 20.

There has always been a rather steady demand for army used and new clothing. Wool overcoats, coats and gloves in sizeable quantities will be offered through the Grand Prairie office of War Assets Administration until August 27, it has been announced. This clothing, which has been used, is stored at Camp Hood, at Killeen, and at Fort Worth Quartermaster Depot. The bidding is open to everyone and the clothing will be sold in lots.

A sealed bid sale of automotive truck parts has been announced by War Assets Administration and will be offered in a catalogue sale until 11 a.m. August 26, the Grand Prairie WAA office has announced. Among the automotive parts are main bearing shells, fuel pump links, suspension springs and top assemblies. The majority of the material located at the Red River Arsenal, near Texarkana, is unused. A complete listing may be obtained from the Customer Service Center at Grand Prairie.

SUNDAY SCHOOL LESSON

Straight Thinking About Drinking

LESSON TEXT FOR AUGUST 17—Proverbs 20:1; 23:19-21, 29-35; Ecclesiastes 10:17.

MEMORY SELECTION—Be not drunk with wine, wherein is excess; but be filled with the Spirit.—Ephesians 5:18.

EDITOR'S NOTE: Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

By WILLIAM CULBERTSON, D. D., of The Moody Bible Institute, Chicago.

THE increase in the drinking habits of our nation is a source of concern, not only to the forces of morality, but to the liquor interests themselves. How strange it is to have the purveyors of a commodity urge moderation in its use!

Undoubtedly the Bible's answer to this whole problem is the only right one. The Word of God has many strong things to say concerning alcoholic beverages. Wise is the man who heeds the injunctions of Scripture.

I. Liquor—a Description (Prov. 20:1).

WHAT a striking text this! Think of its implications. "Wine is a mocker." It grasps its victim in a vicelike grip, and then taunts him in his inability to release himself. The drunkard is a victim of his own appetite, helpless to resist the temptation which ensnares him.

The young person who takes his first drink for sociability is indeed deceived, in that alcoholic liquor never reveals the possible cost which it exacts from the one who takes that first drink. The better part of valor is to leave the stuff alone.

The Word of God says further that "strong drink is a brawler" (A.S.V.). All of us have probably seen how the drunkard enters into conflict entirely without reason. Liquor seems to make a man senseless to danger and quick to express anger.

II. Liquor—a Warning (Prov. 23:19-21).

THE admonition of this passage is that we should not be found among drunkards and gluttonous men.

Solomon here tells us of one of the

Theodore Roosevelt was the first United States president to go below the surface of the sea in a U. S. Navy submarine.

results of drunkenness and gluttony—poverty. The drowsiness which is the result of both of these sins does indeed clothe a man with rags.

If, therefore, we have no higher motive than that of self-respect, than that of having enough of this world's goods to make a presentable appearance, we should avoid company with those who will lead us into the same excess that characterizes them. How important it is that we guide our hearts in God's way.

Let us understand, of course, that there are far higher motives for right living than those involved here. However, if we can come to the conclusion to avoid drinking on the basis of a lower motive, how much more important it is to come to the same conclusion on the basis of a higher one. As Christians, that higher motive concerns our testimony before men, our living a life that will cause others to want to know Christ; in short, our living for the glory of God.

III. Liquor—a History (Prov. 23:29-35; Eccles. 10:17).

IN THE first of these Scripture passages we have what may be called a "history of drunkenness." This sin leads to woe, to sorrow, to contentions, to wounds without cause.

But that is not the end. Look carefully at Proverbs 23:32 and stress the first three words, "At the last." At the last, it does indeed bite like a serpent and sting like an adder.

Such poison is injected into one's body and soul that it seems as though there is no remedy. Thank God, there is a remedy; there is power in the blood of Christ to make the foulest clean.

In verses 33 to 35 we read some of the results of drunkenness: Beholding of strange things (v. 33), utterance of perverse things (v. 33), insensibility which is the result of drinking (v. 35), and inability to avoid succumbing to the same temptation all over again (v. 35).

Is it any wonder that the admonition is "Look not thou upon the wine when it is red, when it sparkleth in the cup, when it goeth down smoothly." Although man still has a semblance of right thinking, the temptation is great enough to deceive him as to the consequences.

In view of such results, is it any wonder the same Preacher says in Ecclesiastes 10:17 that the land is blessed when its rulers eat and drink for strength and not for drunkenness.

It still is true that righteousness exalteth a nation, but that sin is a reproach to any people. And since the princes of the land as the leaders will frequently personify the people of the land as the followers, happy is that nation which has godly governors.

Eighty-three per cent of man's knowledge is brought to him through his vision.

Religious Education Week To Be Held Next Month

That mankind's only hope for the future is in the Christian religion will be emphasized by the Protestant churches of United States and Canada in their seventeenth annual observance of Religious Education Week next month, according to Dr. Roy G. Ross, general secretary of the International Council of Religious Education, sponsor of the celebration.

After Advent and Holy Week, Religious Education Week is the most widely observed church event among Protestant churches in America. "Faith Is the Victory" is the theme of this year's emphasis of the thousands of churches of the 40 major denominations and 634 interchurch councils that cooperate in educational work through the ICRE.

"In these times of domestic and world crisis we cannot always see clearly what is in store for the future," Dr. Ross warned. "If we are to depend alone on the efforts of man—skilled as our national and world leaders are—we cannot be sure that our children will inherit our great material and spiritual culture."

Confidence in the future can be assured by looking to the Source of greater wisdom and power, Dr. Ross confirmed. The Christian religion's faith in a God that still rules the universe, is Father of all men, and is Eternal Creator is offered by Dr. Ross as the world's best guarantee for the continued welfare of humanity.

"Religious Education Week gives the Protestant churches of United States and Canada real opportunity to focus the attention of their communities on the only hope that the world has today—the Christian church and its Lord Jesus Christ."

Religious Education Week opens in most churches with the traditional observance of Rally or Promotion Day, Sept. 28. During the following week such events as leaders' conferences, family night, youth rallies, interchurch meetings are planned in many communities. Observance of World-wide Communion Sunday, Oct. 5, will climax the week's celebration.

The weight of the earth's atmosphere is the same as that of an ocean of mercury covering the entire earth to a depth of 76 centimeters.

Businessmen are shipping the Scriptures by the ton

Starting with less than a dozen gifts in 1816, the American Bible Society last year received hundreds of thousands of individual contributions for copies of the Scriptures, the Bible, and the New Testament.

Today, from every part of the globe, requests for copies of the Scriptures are being received from millions of men, women, and children in devastated areas.

Knowing the great good that has followed

the work of our Missionaries, American businessmen are urging their friends to double their gifts to the American Bible Society—for 130 years a nonprofit organization.

5¢ will pay for a portion of the Scriptures, 20¢ will buy a New Testament, and 50¢ will place a copy of the complete Bible in the hands of someone who is starving for God's Word.

A Great Oil Company introduces a Great NEW Oil!

Phillips Research brings you the finest motor oil for your car ever to bear Phillips 66 trade-mark!

When a great oil company brings out a completely new, different motor oil—the news!

And when that oil company is willing to stake its reputation—to come right out and say, "This is the finest motor oil for your car ever to bear the Phillips 66 trade-mark!"

That's food for thought for every man who owns a car!

This new Phillips 66 Premium Motor Oil is the result of extensive research, conducted over a number of years by Phillips research scientists. It is of the modern detergent (self-cleaning), oxidation-resistant type. Lessons learned in developing heavy duty lubricants for Army tanks and trucks, the experiences of others who have developed detergent-type oils, and demands of engine manufacturers for their higher-speed, higher-pressure engines, have all been taken into consideration.

The base stocks from the Oklahoma fields, which men now recognize as among the finest in the world, are another contributing feature of this great new oil.

This new Phillips 66 Premium Motor Oil is now on sale at all Phillips 66 Dealers. We urge you to provide your car with our finer, newer automotive lubricant.

W. M. S. of Baptist Church Meets Monday, August 11

The W. M. S. of the First Baptist Church met Monday, August 11, at the church for a Royal Service Missionary Program. South America was the topic of discussion.

Those present were Mesdames John Wheelock, Jim Bomar, G. A. Elrod, A. D. Arnold, G. C. Harrison, G. R. Dowdy, Grady Wimberly, C. H. A. Chappell, Bud McMinn, Alvin Jackson, Roy Brown, Luther Gilkeyson, Lee D. Bomar, and A. P. Dickenson.

Miss Berta Hicks Becomes Bride of Charles F. Dunn

Miss Berta L. Hicks of Amarillo, became the bride of Charles E. Dunn formerly of Silverton, in Amarillo on July 27th Rev. Edgar Neal read the double-ring service in San Jacinto Methodist Church.

Mr. Dunn is a graduate of Silverton High School and served in the Navy two and one-half years. He is the son of Mrs. W. N. Dunn and the late Will Dunn.

Mrs. Dunn was formerly employed at the Southwestern Bell Telephone Company.

After a wedding trip to Mexico, the couple is at home in Amarillo where Mr. Dunn is employed by the Sanitary Barber Shop.

FARM MARKET—

at Fort Worth. Closing bulk of good and choice grades sold at \$22 to \$22.50 at Oklahoma City, and around \$24 at Denver.

Many cattle classes brought lower prices last week. Most stocker and feeder types, as well as slaughter cows, calves, vealers, and bulls dropped from 50 cents to \$1.50. Steers and yearlings weakened at some markets. Common and medium cows brought \$11.50 to \$14.50 at Houston and Ft. Worth, and \$12 to \$15 at San Antonio and Wichita. Medium and good kinds moved at \$13 to \$15.50 at Oklahoma City, while common to good kinds sold at \$15 to \$19 at Denver.

Henry G. Hammerly, formerly a carpenter's mate, second class, in the Navy's Seabees, is constantly reminded of his wartime association with his fighter-bomber buddies and the Seabee motto "Can Do". Henry's hometown is Cando, N. D.

Ivory from African elephants is of better quality than that from Indian elephants.

Fourteen states exclude women from jury service.

Betrothal of Jean Northcutt Announced at Coffee

Mr. and Mrs. D. T. Northcutt, well known residents of this vicinity have announced the betrothal and approaching marriage of their daughter, Jean, to Mr. David C. Kellam, son of Mr. and Mrs. D. M. Kellam, of Torrington, Wyoming.

The coming nuptials were revealed to intimate friends at a coffee given Tuesday morning by the bride's mother. The guests were received by Mrs. Northcutt and were presented blue and white corsages tied with white satin ribbon bearing the inscription "Jean and Dave, August 31". Appointments of the coffee table further emphasized the bride's chosen colors. A white linen cloth was centered with a large blue bowl holding a beautiful arrangement of white and blue flowers. The blue napkins were embossed in white with the names Jean and Dave.

Miss Northcutt and Mr. Kellam will be married Sunday morning, August 31, in a simple ceremony at the home of the bride-elect's parents. She will have as her attendant, Miss Dorothy Roy McMurtry. The groom will be attended by a close friend and university classmate.

Ready-to-Serve Meat Gives Variety to Summer Menu

Those tasty, colorful meats commonly referred to as "cold cuts" are standbys for hot weather meals; and right'ly so, says Reba Staggs, home economist.

To homemakers faced with the problem of three meals a day, ready-to-serve meats have many good points. They're invaluable for hurry-up meals and wonderful time-savers, no matter how you serve them. They add variety to menus, because there are so many different kinds from which to choose.

Miss Staggs reminds homemakers that these handy prepared meats offer concentrated nourishment. They supply important nutrients—highest quality protein, food energy, B vitamins and minerals.

Clever homemakers know that ready-to-serve meats can be used in many different ways. In fact, versatility is one of their biggest assets.

An assortment of sliced cold meats, arranged tastefully on a large platter with other cold foods, is tempting to look at and appeals to the taste. And what could be easier to serve for lunch or supper in the backyard or on the porch.

Any sandwich-minded family is sure to have cold meats on hand. Sometimes sandwiches are double, sometimes they're open-face; and often, the meat is combined with some other food, such as pickles, olives, celery and hard cooked eggs. Sandwiches made with cold meats may be the main dish for lunch or supper at home; they're the mainstay of a lunch box or a picnic meal; they're "tops" for a late evening snack.

An idea suggested by Miss Staggs for using prepared meats is in hearty summer salads. Cut the meat in small cubes or julienne strips and add to any vegetable salad combination. Or line individual salad bowls (or shallow casseroles) with thin half-slices of ready-to-serve meats; then fill the center with a tossed salad. It's a one-dish meal, summer style, and ready in a jiffy.

Modern Rules of Cookery Save Time And Work

It's just plain common sense, for a homemaker to want to save herself work in the kitchen. The problem is how to do it, and still keep the family well-fed and happy.

One solution that results in work-saving for the homemaker is to cook meat strictly according to modern rules. For when it comes to cooking meat, the modern way is by far the easier way, says Reba Staggs, cookery authority.

To illustrate, she explains the modern method of cooking a roast in contrast with the way Grandmother used to do it. Today, the housewife merely puts the roast on a rack in an open pan, places it in a slow to moderate oven, and lets it take care of itself. She places the fat side of the roast up, so it will be self-basting. And by using low heat, she spares herself the discomfort of a smoke-filled kitchen, and the bother of watching the meat continually for fear it may burn.

In broiling, also, moderate heat is used and the meat is turned only once, according to this authority. So the homemaker, instead of standing over it with an eagle eye, is free to prepare the rest of the meal while the meat is cooking.

And when meat is braised, with only a small amount of liquid, it is the use of low heat (plus the help of a heavy pan) that keeps the cook from continually having to add more liquid as the pan becomes dry.

Cooking meat by low heat also saves clean-up time and effort, because there is no spattering of fat in oven or broiler and pans do not become charred.

These practical advantages of the use of low heat apply to all the different methods of cooking meat.

Mr. and Mrs. Bill Swindle of Hart, were the week end guests of Mr. and Mrs. Jim Clemmer. Buford returned home with Mr. and Mrs. Swindle for a week's vacation.

India expects its 1947 rice crop to be 1,000,000 tons above last year's.

Your Home

There has been considerable interest of late in what is known as panel, or radiant, heating. It involves the running of heat into floors so that this heat will be radiated to the things within the room. In principle, it is patterned after the way the sun heats the earth. The advantage is supposed to be that this constant radiation of heat keeps the body comfortable even though the actual room temperature may be considerably lower than we are accustomed to with the ordinary methods of convection heating.

There are no radiators or registers with panel radiant heating, the whole floor serving as the dispenser of warmth. Nor is there any circulation, or turning over, of air—the idea is that you are figuratively bathed in the radiant heat given off by the floor.

Practically speaking, a warm air furnace in the basement accomplishes much of the "floor warming" that creates radiant heat. In addition its circulating warmth gets around to warm the ceilings and walls and furniture so that they also act in a radiant capacity. And, of course, it is the most feasible type of heat, for it immediately responds to your control of it. And so, if yours is a furnace heated home, with a good basement, and a good system of warm air distribution, you are already, in large measure, enjoying the benefits of it.

NOTICE OF ELECTION FOR ISSUANCE OF BONDS FOR THE CITY OF SILVERTON, COUNTY OF BRISCOE

QUALIFIED VOTERS OF THE CITY OF SILVERTON, WHO OWN TAXABLE PROPERTY IN SAID CITY AND HAVE DULY RENDERED TAXES FOR TAXATION:

NOTICE that an election shall be held in the City of Silverton, Texas, on the 30 day of August, 1947, to determine whether the City Council shall be authorized to issue bonds of said City in the amount for the purpose, to-wit:

000 general obligation bonds for the purpose

of constructing repairs, extensions and improvements to the Water System owned and operated by said City:

and which election was duly called and ordered by the order of the City Council of said City, passed on the 11 day of August, 1947, and which election order is made a part of this Notice, and is in words and figures as follows to-wit:

ELECTION ORDER

THE STATE OF TEXAS)
 CITY OF SILVERTON)
 COUNTY OF BRISCOE)

ON THIS the 11 day of August, 1947, the City Council of the City of Silverton, Texas, convened in Special session at the regular meeting place thereof in the City Hall, there being present and in attendance the following mem-

bers, to-wit:

J. E. MINYARD, MAYOR
 O. M. DUDLEY)
 W. W. DOUGLAS)
 G. W. SEANEY) ALDERMEN
 J. C. HILL)
 J. E. MCCAIN)

and with the following members absent: None, constituting a quorum; when, among other proceedings had, were the following:

Alderman O. M. Dudley introduced an order and moved its adoption. The motion was seconded by Alderman J. E. McCain. The motion, carrying with it the adoption of the order, prevailed by the following vote:

AYES: Aldermen O. M. Dudley, W. W. Douglas, G. W. Seaney, J. C. Hill, J. E. McCain.

Noes: None.

The order is as follows:

WHEPEAS, the City Council of the City of Silverton, Texas, deems it advisable to issue the bonds of said City for the purpose hereinafter mentioned; therefore

BE IT ORDERED BY THE CITY COUNCIL OF THE CITY OF SILVERTON, TEXAS:

I.

That an election be held on the 30 day of August, 1947, which date is not less than fifteen (15) nor more than thirty (30) days from the date of the adoption of this order, at which election the following proposition shall be submitted to the qualified electors who own taxable property in said City and who have duly rendered the same for taxation:

"SHALL the City Council of the City of Silverton, Texas, be authorized to issue the general obligation tax bonds of said City, not to exceed the principal sum of TWENTY-FIVE THOUSAND DOLLARS (\$25,000.00), maturing serially over a period of years not to exceed Twenty (20) years from the date thereof, bearing interest at a rate

not to exceed **THREE PER CENTUM (3%)** per annum, for the purpose of constructing repairs, extensions and improvements to the Water System owned and operated by said City; and to provide for the payment of principal of and interest on said bonds by levying a tax sufficient to pay the annual interest and to create a sinking fund sufficient to redeem said bonds as they become due?"

II.

That the City of Silverton, Texas, constituting but one election precinct, said election shall be held at the City Hall in the City of Silverton, Texas and the following named persons are hereby appointed officers of the election, to-wit:

W. C. Smithee, Presiding Judge
 Sid Richards, Judge
 Mrs. Bob Dickerson, Clerk
 Mrs. Lucile Wood, Clerk.

III.

That said election shall be held under the provisions of and in accordance with the laws governing the issuance of bonds in cities, as provided in the General laws of the State of Texas, and only resident, qualified taxpaying voters, who own taxable property in the City and who have duly rendered the same for taxation, shall be qualified to vote.

IV.

That the ballots of said election shall have written or printed thereon the following:

OFFICIAL BALLOT

"FOR THE ISSUANCE OF THE BONDS AND THE LEVY OF A TAX IN PAYMENT THEREOF"

"AGAINST THE ISSUANCE OF THE BONDS AND THE LEVY OF A TAX IN PAYMENT THEREOF."

Each voter shall mark out with black ink or black pencil one of the above expressions, thus leaving the other as indicating his or her vote on the proposition.

V.

That a copy of this order, signed by the Mayor of said City and attested by the City Secretary, shall serve as proper notice of said election.

VI.

That the City of Silverton, Texas, constituting but one election precinct, said notice of election shall be given by posting and publication of a copy of this order at the top of which shall

appear the words "NOTICE OF ELECTION FOR THE ISSUANCE OF BONDS" Said notice shall be posted in three public places in the City of Silverton, one of which shall be at the City Hall, not less than fourteen (14) days prior to the date on which said election is to be held, and be published on the same day in each of two successive weeks in a newspaper of general circulation published in the City of Silverton, Texas, the first of said publications to be made not less than fourteen (14) days prior to the date set for said election.

PASSED AND APPROVED,

this 11 day of August, 1947.

Feeding wheat alone to steers is not advisable, but it can be fed safely when mixed with corn or grain sorghums in equal amounts.

Ninety-five pounds of ground wheat or 99 pounds of un-ground wheat is equal to about 100 pounds of No. 2 shelled corn in a hog ration. Wheat is lacking in Vitamins A and D, however, which can be made up with alfalfa meal or hay, or green grazing.

Virgin wool is wool that has never been processed in any way before being completely manufactured into the finished product.

Sheep raising was one of the earliest of man's land occupations. There is evidence that prehistoric man knew how to weave garments from sheep's wool.

Sugar Is Added Straight to Most Fruit Preserves

Here's a tip for housewives on making preserves out of the fruit crop that's coming to market now.

Fruit preserves are successful only if the fruit holds its shape, yet is tender and translucent in the syrup, home economists for the U. S. Department of Agriculture say as they explain that sugar has a firming effect on fruit tissues but must be applied differently to various types of fruit.

Sugar is added "straight" to tender, juicy fruits like peaches, cherries and berries. If the fruits stand overnight in sugar, they become firmer and less likely to go to pieces in cooking. The sugar draws out the juice and shrinks the fruit somewhat, but the juice provides enough liquid so that no water need be added, and this shortens the cooking time. The shorter the cooking, the better the color and flavor.

Juicy fruits with a firm skin, like plums, do not need overnight firming. But because they are juicy, they are put in a thick syrup. This helps keep their shape as they cook, and the juice as it cooks

out, thins the necessary amount.

Firm fruits like quinces and crabapples are put in thin syrup to cook for thick syrup toughens them, and too, they have time to cook tender while the syrup boils down.

Large chick brooders, accommodating 250 to 500 chicks need forced ventilation to give the chicks plenty of air under the hover.

Veterans' News

Army Engineers have been given the "green light" on construction of new Veterans Administration hospitals at Shreveport, La., and Big Spring, Texas, VA announced this week.

It is expected that the engineers will advertise for bids on the hospitals within sixty days.

Meanwhile, by order of General Omar Bradley, VA's new hospital construction program was being considerably revised because of the mounting costs of building.

In order to build the hospitals with the money originally appropriated by Congress, it will be necessary to eliminate all features not essential to good medical treatment for veterans, Bradley said.

It is expected that major modifications in plans for hospitals at Bonham and Dallas, Texas, New Orleans, Louisiana, and Mound Bayou and Tupelo, Mississippi will be made.

Plans for hospitals at Houston and El Paso, Texas, will not be affected by the order.

Desirable but unessential features such as theaters, office space and doctors and nurses quarters are being eliminated from plans to cut the cost of the new hospital construction program.

A record enrollment of nearly 100,000 World War II veterans in Southwestern colleges and universities this fall is anticipated by the Veterans Administration and educators.

VA officials expect about a 15 per cent increase in the number of veterans attending college under the GI Bill as compared to last spring's enrollment of 85,000 in the higher institutions of learning in Texas, Louisiana and Mississippi.

Veterans entering school for the first time should obtain their certificates of eligibility immediately from the proper VA regional office. Others who plan to change schools or courses of study this fall must obtain prior approval from VA.

Seventy-two percent of the nation's 1947 corn acreage is seeded with hybrid corn.

FARM FACTS WORTH KNOWING

Q. When a few chickens in a broiler plant are suspected of having Newcastle disease, what steps should be taken to prevent spread of the disease?

A. Any chickens suspected of having Newcastle disease should be kept in strict isolation until an accurate laboratory diagnosis can be obtained.

Q. Is it safe to keep rabbits that have recovered from snuffles for breeding stock?

A. No rabbits that have recovered from snuffles are likely to be carriers and may be a constant source of infection to other rabbits.

Q. Will chicks hatched after May 1 make satisfactory replacements for a laying flock?

A. Yes. At the Research Farm of the Ra'ston Purina Company pullets are grown out each month in the year and on all types of feeding programs.

Q. What qualities should be considered in selecting brood sows?

A. Select only those sows that: 1. Are of desirable type and conformation. 2. Are from large litters that produce rapidly growing pigs.

Britain has purchased 5.6 million pounds of dried eggs from the United States since the first of the year.

ARMY NEWS FROM HEPE & THERE

Adopts New Methods

All Army Ground Forces recruits will receive the benefits of new training and off-duty programs tested successfully by the Fort Knox, Ky., Universal Military Training Experimental Unit, it has been announced. "Major emphasis will be placed upon extensive use of off-duty programs," said General Devers, Commanding General of the Army Ground Forces. These off-duty programs offer to the trainee the chance to pursue a hobby, participate in amateur theatrical productions, join guided tours to points of interest, enroll in educational classes, enjoy good music, and take part in competi-

tive athletics. Morality, religion, and citizenship will receive stress to prepare the young soldier for a more active roll in his community.

Hydroponic Gardens

Fresh vegetables for use with Army rations in overseas installations where they cannot be otherwise supplied, are being produced successfully in large quantities by the employment of hydroponic gardening. This process, also known as nutriculture, water culture, and chemi-culture, consists of beds of gravel, stones, cinders, or other inert materials in which vegetables are grown by supplying them with water and the nutrient chemicals necessary for their growth. This supply of fresh vegetables in this manner is contributory to high morale among the

Contest Winner "Brands" His Prize

A pioneer of the auto industry, hunted throughout the nation in a contest to discover the oldest Chevrolet truck in America, turned up, appropriately, in the possession of a Montana homesteader. The venerable vehicle, vintage of 1918, was still serving Rancher Leslie A. Storey, of Jordan, Mont., whose ranch lies 18 miles from a typical "last frontier" town. The award for owning the oldest licensed and operating truck was a new Chevrolet "advance-design" model, which Storey "brands" here with his distinctive Circle-Heart brand. It was presented to him by J. W. Burke, manager of Chevrolet's truck department, as Mrs. Storey and Montana cowgirl Merle Spears (right) look on. Nearly 7,000 old-time Chevrolet trucks were entered in the contest won by this vehicle, which was one of 384 built by the division in 1918, its first year of truck production.

THE VETERAN'S FRIEND

Q. I am a World War II veteran and work part time. I intend to apply for readjustment allowance and would like to know how the amount I receive is computed.

A. As partially employed veteran you can receive the maximum number of allowances to which the length of your service in the armed forces entitles you, but each weekly allowance would be reduced by the wages you receive so that readjustment allowance and wages combined will not exceed \$23 a week. Each weekly allowance thus received, regardless of the amount of payment, would reduce by one the number of remaining payments available.

Q. I was released from the army with a bad conduct discharge and would like to know if I am entitled to any of the benefits under the G-I Bill?

A. You should contact your nearest Veterans Administration office for a decision as to whether you were discharged under conditions other than dishonorable since that is the determining factor for entitlement to benefits.

Q. Will the amount of compensation I receive for a service incurred disability be reduced in event I find employment?

A. No. Earnings from such work do not effect the amount of compensation received.

Q. Is there any limit to the amount I can borrow under the G-I Bill?

A. You can borrow any amount that the lender is willing to lend you, but VA will guarantee only 50 percent of the amount up to \$4,000 on a real estate loan and up to \$2,000 on a business loan.

We've learned a lot in 23 years

- and we're still learning

Yes, we've learned a lot in 23 years, and we're still learning.

We're learning that folks in the Panhandle Plains Pecos Valley area need good electric service... and lots of it. We feel that we've learned how to provide that service efficiently and courteously.

Now we're carrying our knowledge even farther with a \$35,000,000 expansion program that will make even better electric service available to more homes, more farms, and more industries.

troops.

Hospital For Research

One of Hitler's "Youth Through Joy" hospitals which was probably the finest establishment of its kind in the world has been taken over as an American Army research center for the study of infectious hepatitis. It is located at Bayreuth in Bavaria.

The causative organism and method of transmission of hepatitis, or jaundice, which first attracted wide attention during the war, thus far have defied detection. It is a malady characterized by fever, nausea and abdominal disturbances, usually accompanied by the yellow color associated with jaundice.

New Liaison Plane

The XL-15, a new liaison plane

being procured by the Army Air Forces for use by the Army Ground Forces has completed its initial flight tests at Wichita Division of Boeing Aircraft Company. It has an unconventional appearance with its gondola-type fuselage and inverted tail surfaces. With its 125-horsepower Lycoming engine, the all-metal, high-wing monoplane is designed to take off and clear a 50-foot obstacle in 600 feet, to climb 628 feet per minute, to cruise at 100 miles an hour and to land at 35 miles per hour. It is designed for use in aerial observation, photographic or communications assignments. The plane is designed for operation in the Arctic or in the Tropics and it can be quickly disassembled and loaded on a 2½ ton army truck. Or with the propeller removed, the plane can be towed in glider fashion at speeds up to 165 miles per hour.

KITCHEN MEMO BY JEAN CLARKE

When the main dish of a meal can be cooked by merely clicking the flame of the broiler, that means more leisure for the busy housewife. Here's a Hawaiian Grill that's simple, nourishing and tasty. After preheating broiling compartment and pan 5 minutes to broiling temperature (about 550°), put on broiler grid about 3" from tip of flame 4 lamb shoulder steaks (1 lbs.) seasoned with salt and pepper, broil 8 min., turn. Cut up 1/2 cup pineapple strips and cover with 1/2 cup brown sugar and 3 tsp. melted butter blended together; cut to half 4 small tomatoes which have been marinated in French dressing, top them with 1 tsp. minced onion and 1/2 cup buttered bread crumbs, place on broiler grid. Cook steaks and pineapple. Broil 5 min. longer. Yield: 4 servings.

Because of their high protein content, eggs tend to toughen when overcooked. They should be cooked slowly over the simmer flame on top of the gas range or with low flame if broiled or baked.
It helps to keep down gas bills if gas range parts are always spotlessly clean. Top burners, trays and grates can be washed easily with warm soap and water, then rinsed in clear water. All parts should be dried thoroughly before replacing. An easy simple habit to keep the porcelain top shining-clean is to wash it off after each dishwashing. A quick wipe with warm water and soap does it.

A light accompaniment to cool summer drinks are potato chips sprinkled with grated Parmesan or American cheese. Turn the gas flame to moderate heat, leave cheese and chips in the oven until cheese is slightly "runny." Serve while hot.

In less than a year on Tinian, U. S. Navy Seabees built 40 miles of airfield runways and taxiways, and moved 12 million cubic yards of coral—the equivalent of three Boulder Dams.

Dairy cows do best when given a six weeks to two months rest between lactation periods.

Through artificial insemination, it is possible to breed 75 to 100 cows from each service of a bull.

Chick and poult brooders, using ordinary lamp bulbs as a source of heat, have been proven under test to be satisfactory and efficient.

Nearly sunk twice—once by a torpedo and once by shore battery fire—the USS Pensacola spent less than two weeks in the United States from December 1941 until May 1945.

Roy Abell of Rails was a Silvertown visitor last Thursday.

NOTICE—Silvertown Masonic Lodge No. 754 will have its regular meeting Tuesday, Sept. 9th at 8:00 p.m. All masters urged to attend.
