iphtheria Control is ssential to Health of General Public

Education of the public to the ue of diptheria immunization a resulted in lowering the incidence of 'his dread disease, but as has still had over 1500 cases this preventable disease last according to records in the as Department of Health.

"It is a generally accepted fact among public health authorities," Geo. W. Cox, state health officer, said, "that any community control its death rate from phtheria. Immunization has been ved a safe and effective pre-ventive measure. Wherever immunizing treatment has been extensively used, diptheria has readily decreased.

"The most forceful weapon in control of diptheria is prevention through immunization, rather an cure of the disease after it has developed. Children can be protected against diptheria by the use what is known as toxoid. The ing children are particularly susceptible to the disease. Accordingly, as soon as a baby is six months old, the parents are advised to take it to the family physician and have it immunized—ected, by the use of toxoid.

nder children in the family who ve not had the protective treatment, should be immunized too. This should be attended to before the school season begins. This immunizing agent is absolutely safe to administer; there only a slight local reaction, and ctically no constitutional or plesome after effects. It confers a life time immunity in the majority of cases. To be certain immunization is complete, however, the child should be taken back to the physician 6 months after the toxoid was administered, and given the Schick Test.

It is within the power of the ents of this State, cooperating with their physicians and public health departments, to eliminate phtheria from Texas"

Mr. and Mrs. Bill Cooper were Plainview visitors last Thursday night. Mrs. Cooper remained for longer visit.

Master Magician to Be at Palace Theatre

For the movie-going public who like to have the "daylights" scared out of them and enjoy the weird atmosphere that surrounds a mysterious master magician, the Palace Theatre is bringing Ricardo Silverton next Tuesday and Wednesday nights for their entertainment.

Ricardo, who comes direct from Hollywood with his entire company of beautiful girls will leave the public gasping as he puts on magic that will straighten your hair and keep you mystified for many days. He will read your mind and give you answers to your questions about business, health or love. He has been an actor for many famous people.

Tuesday night Ricardo will have his magic show, mind reading and comedy on the Palace stage for the first time. Wednesday night he will have another performance of mind reading and magic. But Wednesday midnight beware!

Ricardo will put on the spook show that has mystified the United States—from coast to coast. After from cutting a woman's head and oodles of other breathing acts, in cold darkness—lamp spiders and jungle worms will prowl through the audience making the evening a thrill never to be forgotten by those attending.

The spook show is no show for the faint of heart. Those who get scared too easily may find themselves coming alive again to the smell of salts. The show is not recommended for weaklings or for persons whose hearts are bad.

Due to the fact that probably anyone won't want to miss this great thrill show, Preston Trower, owner of the Palace has already started selling advance tickets for the performance. Tickets are on sale now at the theatre's box office.

Farm Labor Program To Continue Until End of Year

The farm labor program of the Tex. A. and M. College Extension Service will continue in full force until the end of the year, Caesar (Dutch) Hohn, state supervisor of the program, has announced.

The program has been operated by the Extension Service under Congressional authorization since the spring of 1943 when the acute farm labor shortage demanded emergency action, but will revert to the Texas Employment Commission on January 1, 1948, Hohn explained.

"There will be no let-up in the educational work now being carried on with laborers and farmers," the farm labor official declared. "The Extension program throughout has been an educational program designed to bring about better understanding between laborer and producer so that they might better realize that it is better to their mutual interest to cooperate fully."

The Extension Service has always felt that if the right understanding existed between laborer and producer, there would be no necessity for an agency to do placement work, since placement would take care of itself. Hohn declared, pointing out that the Extension program was based on the idea of getting correct information to the workers and farmers alike.

The 50 farm labor reception centers, spotted at strategic points throughout the migrant areas of the state and built cooperatively by communities and the Extension Service, will become a responsibility of the communities, Hohn said, adding that he sincerely hoped the communities would continue to maintain the centers either on their own or in cooperation with the employment commission. The centers provide migrant families with cooking and sanitary facilities and a place to spend the night. Prior to the launching of the farm labor program, no such facilities were available in most sections to which migrants traveled.

In addition to the program of direction of migratory movements, which was mostly concerned with Latin-American vegetable hands and cotton pickers, the Extension Service has operated the combine program (directing combine movement during wheat and small grain harvest), labor saving device program (instruction of farmers in building such devices and maintenance of welding schools), placement of sheep shearing crews, liaison work between Texas Latin-American workers in other states and employers, and, during the war, various emergency farm labor recruitment programs and the placement of prisoners of war.

People Wondering When Rain is Going to Fall

When's it going to rain again," is the current phrase heard around Silverton this week by farmers as well as town's people who are beginning to express strong desires for moisture.

Crops over the county are standing up fairly well considering the fact that no moisture has fallen in the past six weeks. Some feed is beginning to show signs of extreme weakening but it is believed that if moisture will fall soon, no great damage will have been done.

Clouds that look like "water-bearing clouds" have been prevalent here for the past week and all indications point to moisture soon. Silverton people probably aren't needing rain quite so badly as the people around Fort Worth though—according to a story on the front page of the Amarillo Times Monday. Down there when a cloud comes over they go up in airplanes and drop dry ice on the cloud and try to make it rain... it isn't that bad here but if Silverton people thought it would work they probably would be trying it.

Residents Must Get "Hep" To City's Parking Rules

In an announcement to the News this week by the City Council it becomes apparent that residents of Silverton and all persons who drive and park in Silverton must get "hep" to parking in accordance with a parking ordinance which was enacted several years ago but hasn't been enforced.

The report is to the effect that no center or double parking is allowed in the business section of Silverton and that cars may park only at right angles to curbs in business sections.

During the past few months cars have been parked almost any and every way imaginable and in some instances people have had to sit in their cars for several minutes waiting for someone to move his car which was parked in the middle of the street.

Effective Friday morning, August 22nd, this city ordinance will be enforced by the City Marshall by order of the city council and violators will be fined in accordance with the ordinance.

"To prevent embarrassment and some time and money it would be wise if auto and truck drivers took a little more time in parking their cars and trucks", it was said.

Rodeo Details Given; Prizes For Contestants

Mystery Building Gets New Fixtures & Nears Completion

"The Mystery Building" which was constructed several weeks ago at the West edge of Silverton by J. E. Henderson, its owner, is nearing completion it will be noted this week by those passing and turning their eyes toward the attractive building.

New fixtures have been put into the building and it is probable that before too long some new business will be housed in the building. What kind of business is unknown to the editor of this publication.

After a quick glance at the fixtures of the building one might be led to believe that a grocery store may result but they could have been made for one of any ten different business establishments, therefore any guess as to what kind of store it might be is strictly "a guess."

SWING OF THE SOUTHWEST FARM MARKETS

Most farm markets sold steady to strong last week, but many weak spots developed in livestock and vegetable markets, according to the Production and Marketing Administration U. S. Department of Agriculture.

Cotton prices broke sharply following the government cotton crop report but rallied late in the week to close mostly 75 to 75 cents lower. Lowered quality in South Texas caused by recent rains slowed interest of buyers who want higher grades.

Grain markets showed more settled tendencies last week. Wheat and barley changed very little, while corn and oats made slight gains, and sorghums closed a little higher after some fluctuation. Varying weather conditions in the corn belt affected the daily market on feed grains, and more new crop Texas corn was sold.

Early harvested lots of new crop rough rice sold around \$10.50 to \$11 per barrel last week, and milled rice around \$12.50 per hundred pounds. Alfalfa hay found active demand at higher prices, but prairie hay turned slow and draggy. Farmers' stock peanuts met good demand in South Texas, where picking increased. Wool buyers slowed activities in order to inventory recent heavy purchases.

Northern Colorado potatoes sold about steady last week, but San Luis Valley peas and cauliflower dropped to lower levels. Watermelons moved in somewhat unsettled markets as changing weather conditions affected quality as well as demand. Liberal supplies of ordinary to fair quality tomatoes brought lower prices. Onions and potatoes found rather dull markets. Plentiful peaches held about steady.

Top quality eggs sold a trifle higher on most southwest markets last week, and hens strengthened slightly at Dallas. Heavy hens brought 23 to 25 cents per pound at Dallas, 22 to 24 at Fort Worth, 24 to 26 at Denver, and 29 to 31 at New Orleans. Best white candled eggs sold around 50 cents a dozen, and mixed about 45.

Most steers, yearlings, and heifers sold strong to \$1 or more higher at Denver and Oklahoma City last week, but grassers fell as much as 50 cents at the latter market, and yearlings weakened at San Antonio. Cows sold lower at Houston, Denver, and San Antonio; while calves and stocker classes went at steady to lower levels at San Antonio, Wichita, and Denver. Good cows brought See FARM MARKET—Page 4

Of interest to the people of Silverton and Briscoe County will be the big Rodeo and Dance which will be held here August 9th, it was reported here this week by Commanders of the two local Veterans' Posts, sponsors of the big gala affair.

Rodeo Prizes will be three prizes of \$25.00, \$15.00 and \$5.00 for the winners of the ladies barrel race. Calf roping, Double tie-downs, and ribbon roping entrance fees for each are \$5.00 and all entrance fees will be returned to entering contestants.

A cutting horse contest is also scheduled for the rodeo and entrance fees will be decided by those desiring to enter the contest.

Grandstands, pens, etc. have been erected on the old Silverton softball grounds and it is believed the arena is one of the best little arenas in this territory. Adequate seating for the public is also available.

Following the rodeo the Vets Hall will be the scene of a dance which will begin at 8:00 p.m. and continue until midnight.

Music for the dance will be furnished by Rip Ramsey and his Texas Wanderers and admission prices will be \$1.00 per person, tax included.

The floor of the Vets Hall has recently been completely remodeled and sanded and thus offers the public one of the best floors available for dancing pleasure.

Local Paralysis Group Elects Officers for 1948

The Briscoe County National Foundation for Infantile Paralysis held its regular meeting recently in the County Courtroom where the election of officers for the coming year was the chief object of the meeting.

Following a reading of the minutes by the secretary of the foundation, nominations for officers started and the following were elected to serve during the coming year:

Dee McWilliams, president; C. R. Badgett, vice president; Mrs. Charles Cowart, secretary; C. E. Bedwell, treasurer; Mrs. W. R. Scott and Joe Powell, publicity chairman.

Directors are: Virgil Ballard, Watson Douglas, T. R. Whiteside, Hugh Nance and Bill Middleton.

Carver Monroe was elected to serve as chairman of the 1948 March of Dimes Campaign. He will head the drive which will be held next January.

Due to the enormous wheat harvest and the usual mid-year rush, the local chapter was compelled to postpone their annual meeting for the election of officers which was to have been held the first Monday in May.

Mr. and Mrs. Larnce McCain and Mrs. N. C. McCain visited with Cecil McCain in an Amarillo hospital Saturday.

Blanche Thompson of Lamesa is spending this week in the home of her parents, Mr. and Mrs. J. Mrs. Thompson.

Mr. and Mrs. Vinson Smith and son and Mr. and Mrs. Bob McDaniel and Linda Beth were Amarillo visitors last week.

Smooth Wheat Harvest in Sherman County This Year

Sherman County wheat harvest this year was a smooth cooperative project which Earnest Goule, county agricultural agent, believes is a good example of how record wheat crop should be handled.

Wheat farmers in Sherman County have completed their largest wheat crop in history. The first of the wheat was cut June 20, and the job was completed just a month later.

Although the usual backlog of requests for combines built up the first week of harvest, regulated flow of harvesting machinery and labor, directed by the Texas A. and M. College Extension Service farm labor program, met the demand of the wheat farmers very satisfactorily, Goule explains.

Arthur Folsom, farm labor field assistant, prevented large pools of labor and machinery from building up by directing combine outfits in an orderly manner, reducing the congestion and time loss that ordinarily hampers a bumper wheat crop harvest. All harvest help not needed was directed on to areas where farmers were requesting immediate aid.

A total of 1,448 harvest laborers were placed by the labor program in the county, and an estimated 1,050 were directed to other counties and states, says Goule. About 228 combines were directed into Sherman County wheat fields and 30 machines were sent on to other counties or out-of-state.

Mr. and Mrs. J. D. Bingham moved to the Claude Loudermilk house in the southeast part of town this week.

Rock Creek Meeting To End There Sunday Night

The Rock Creek Gospel Meeting which is being conducted at the Rock Creek Church of Christ by Earl I. Cantwell, will close Sunday night, August 24th, it was made known here early this week.

Services are being held every night at 8:30 p.m. and many inspirational messages are being heard by the many who have been attending regularly it was said.

Wade Steele, who is in charge of the song service reports much good Gospel singing during the meeting and invites everyone to attend the meeting and take part in song services.

Those who haven't yet attended the meeting are invited to attend any or all of the remaining days, the report concluded.

Quitaque Negro Charged With Murder Monday

Will Wright, Quitaque negro was charged with murder here early this week, according to information received from authorities of the Sheriff's office.

No minute details of the murder charge were available at press time but officers said Will Wright was charged with the murdering of George Malcom, another Quitaque negro last Sunday afternoon. Death came to Malcom as a result of bullet wounds inflicted by a 22-caliber rifle.

Wright was released from custody of officers early this week on \$2500 bond and a grand jury investigation of the case has been ordered for August 29th.

PERSONAL ITEMS OF LOCAL INTEREST

Miss Dorothy Jane Dudley of Childress is visiting in the O. M. Dudley home this week.

Mr. and Mrs. Preston Trower spent the week end in Amarillo visiting Mrs. Trower's parents.

Mrs. G. P. Kirkland has returned to her home in Bronte after spending several days in the home of her son, Mr. and Mrs. J. W. McCracken.

Mr. and Mrs. Harold Stoltenberg and son, Glenn, and Mrs. Floyd Dudley, Martha and Bryan, were Thursday night supper guests of the O. M. Dudleys.

H. Nunn returned to his home after several days visit with his sister and niece, Mrs. W. G. Byrd and Mrs. J. W. McCracken.

Mr. and Mrs. C. K. Bryan and two daughters of St. Charles, Mo., Mrs. N. L. Boykin and children and Miss Neida Cox of Amarillo visited Eddie and Eunice Cox Tuesday.

Mrs. Tommy Wyrick and Carolyn spent the week end in Happy with her parents, Mr. and Mrs. F. M. McCarty.

Mr. and Mrs. Dillard Scott and children left Sunday on their vacation.

Mr. and Mrs. Wayne McCutchen sold their home last week to Mr. and Mrs. Ralph Iemons. The McCutchens have bought the land south of M. K. Summers and have drilled a well and started the construction of a modern 6-room house. The construction will be of red tile brick.

Mr. and Mrs. Austin Bailey, Dot and Buzzie, were Lockney visitors Monday morning.

Mr. and Mrs. C. K. Bryan and two daughters of St. Charles, Mo., Mrs. N. L. Boykin and children and Miss Neida Cox of Amarillo visited Eddie and Eunice Cox Tuesday.

Mr. and Mrs. Joe Powell spent the week end in Plainview as the guests of Mr. and Mrs. J. M. Kingery.

Jaunita Edwards, who has been visiting her father in Lubbock, returned to her home in Silverton Saturday.

Doyle Huntsman was a week end visitor in Las Vegas New Mexico.

Mrs. Watson Douglas has just returned from Dallas where she has been attending The Texas State Florists Association and Designing School.

R. H. Wells, FHA supervisor, has been called in for a conference in Dallas. He will not be in Silverton and Quitaque next week.

W. B. Fort of Clifton, Texas visited in the Jeff Simpson home the first of the week. Mr. Fort is a brother to Mrs. Simpson.

Charlie Norris and son of Hereford were Silverton visitors recently.

James Henderson, Lavelle Montague, Raymond Lindsey, and Faye Zigler attended the Eddie Arnold show in Plainview last week.

Linda Beth McDaniel returned home Friday night from Amarillo where she visited with Mr. and Mrs. Glen Fore.

Mr. and Mrs. Elvin Hutson of Tulia visited with Mrs. N. C. McCain Sunday afternoon.

Cecil McCain, who was a patient in the Amarillo Osteopathic Hospital the latter part of last week, was able to return home Sunday.

Billy Don Stevenson returned to his home Tuesday after a two weeks visit in White Deer, Texas with his aunt and uncle, Mr. and Mrs. Wood Hardcastle.

Hazel McGavock returned home last week from San Diego, California.

Rev. and Mrs. Travis McMinn returned recently from a trip to Yellowstone National Park and other places of interest.

Mr. and Mrs. R. M. Hill, Mr. and Mrs. Jesse Hill, and Bailey Childress left last Thursday morning to visit with a daughter and sister in Washington.

Norman Hutson of Tulia spent several days last week with his grandmother, Mrs. N. C. McCain.

Mr. and Mrs. Ted Childress and Bailey Childress attended the funeral of the latter's brother-in-law at Fort Worth the first of last week.

Mr. and Mrs. Keith Tiffin and Doyle attended the funeral of Mr. Tiffin's cousin in Quitaque last week.

PERSONALS

Lt. (j.g.) L. B. Loudermilk who has been in Pearl Harbor the past two years, is here visiting his father, Claude Loudermilk and other relatives. At the expiration of his leave, he will report to the University of Idaho at Moscow, Idaho.

Francis Norris, who is working at Vigo, spent the weekend with relatives here.

Jean Brian of Sudan visited with Faye McMinn last week.

Mr. and Mrs. T. H. Hopkins and daughter of Chillicothe visited in the J. D. Bingham home recently.

Oil For America

Testifying before the House Interstate and Foreign Commerce Committee, John W. Boatwright of the Standard Oil Company of Indiana summarized current oil problems as they affect both producers and consumers.

To meet present record domestic production demand, the industry must produce crude oil and operate the refineries at a level in excess of 5,000,000 barrels a day, which it is doing. Its present refinery capacity is approximately 5,500,000 barrels a day. Thus if the distribution of refinery capacity and the availability of crude oil supplies were in keeping with the distribution of consumption, the industry could meet all requirements. Unfortunately, that ideal situation does not exist, and for two paramount reasons. First, there are insufficient transportation facilities to move crude oil, and products to market. Second, there has been a serious loss of effective refinery capacity because of plant shutdowns. During the first six months of this year, work stoppages were responsible for a loss of 15,000,000 barrels of crude running capacity.

The industry is attacking the first problem by using every form of transportation, including both pipelines and tank cars, to the absolute maximum. The second problem can be solved if strikes can be prevented. In the meantime, Mr. Boatwright forecast, there should be an improvement in the supply of oil products in the near future. Everything that is humanly possible is being done to meet the terrific demand.

"The Social Security Board has estimated that around the year 2000 the payments of benefits alone . . . will amount to between 8.98 and 10.64 percent of current payrolls.

"In one way or another, the taxpayers of the year 2000 will have to pay that sum for the benefits of the present old-age and survivors' insurance system, the Brookings Institution points out. If this was a private insurance system, the Institution comments, bankruptcy would be inevitable."—Christian Science Monitor.

FARM FACTS WORTH KNOWING

Q. At what age should calves be vaccinated for the control of Bang's disease?

A. It is recommended that calves be inoculated between the age of 4 and 6 months.

Q. What is the best time of the year for culling sows? And what should be the basis for culling?

A. According to the Research Farm of the Ralston Purina Company, the best time of year to make an accounting with the sows is just after they have weaned their pigs. They have just finished a test of performance which offers the most practical basis for selection of future breeding stock. Discard those sows which:

1. Raised less than 8 large, uniform pigs to weaning time.
2. Had difficulty at farrowing time.
3. Were cross or nervous at farrowing time.
4. Have less than 12 good teats.
5. Produced small pigs.
6. Were late or irregular in breeding.
7. Were poor milkers or whose pigs failed to gain rapidly during the suckling period.
8. Are off type or produced off type pigs.
9. Transmitted heritable defects.

Q. Should just one wing or both wings of chickens be clipped?

A. Only one wing should be clipped to prevent chickens from flying. This means that one wing will be longer than the other and thus throw the chicks off balance when they attempt to fly. If both wings are clipped so that they are balanced, chicks can fly almost as well as ever.

Q. What is the best duck to raise on a commercial duck farm?

A. The Pekin duck has proved itself on commercial duck farms and seems to best meet market requirements. This duck is hardy, does not fly, lays well and matures rapidly in confinement. In addition it has white feathers which bring a premium on the market. This return from the sale of feathers represents an important part of the income from a duck farm.

Send your questions about livestock or poultry problems to FARM FACTS, P.O. Box 81, Silverton, Texas. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

BOYCE HOUSE

The paper shortage in this country is highly serious. One reason is that everybody wants to be a columnist and then gather the "cream" of his columning and put it in a book.

The latest of these Johnny-Come-Latelys in the field of what might laughingly be called literature is Billy Rose, who has been very successful as a producer of shows, and of course that qualifies him as a writer, just as making a billion dollars by manufacturing automobiles makes a man an authority on any subject he wants to talk about.

And metropolitan papers, dazzled by a "name", are using Billy's output in a big way. His column, in case you have been so fortunate as not to have read one consists of a marvelous display of egotism—even for a columnist—and of a parade of all the trite fictional situations that have been worn to shreds by students taking a short course by correspondence.

Mr. Rose says he writes the column himself—but maybe he produces his column the same way he produces his show Back in 1936 and 1937, when the "Broadway Barnum" put on the Fort Worth Casa Manana, DuBois designed the

costumes, Johnston painted the scenes, Suesse composed the music, a Hollywood dance director put on the dances, Winkler provided the lighting effects and John Murray Anderson put it all together as director. With these slight exceptions it was 100 per cent Billy's work.

Billy got his start by writing songs. Everyone knows how lofty the ethics of Tin Pan Alley are. They borrow from Bach, they mooch from Mozart and they bum from Beethoven.

Rose admits he has some "researchers" and "leg-men" for his columning. In other words, by his own admission, the column he calls his is not really his, in toto, except in the sense that something you buy and pay for is yours.

But watch some book club make the so-called Billy Rose book its selection for the month

FRANCIS NEWS

Now—you can have Power-Line Voltage WITH THE NEW 110-VOLT D.C. WINCHARGER

And—you can use "standard" appliances! Those "standard," "city-type" appliances that operate on universal current—that is, on either 110 volt A.C. or 110 volt D.C. electricity, such as radios, vacuum cleaners, toasters, food mixers, coffee makers, for example—can be operated on the new 110 volt Winco Power Wincharger.

Also, most motor-driven appliances, such as washing machines, water pumps, milkers, separators, drills, grinders, etc., can be bought for 110 volt D.C. operation. No longer do you have to buy special, "farm-type," appliances, except for hermetically-sealed refrigerators and automatic, thermostatically-controlled heating appliances. And even in the case of these appliances, refrigerators with "open-type" compressors and non-thermostatically-controlled irons are available. Simple provision can be readily made for operation of radio-phonograph combinations.

Furthermore, you can use standard 110 volt house-wiring with the new 110 volt Winco Power Wincharger. Same wire, at the same cost, as in town.

The 110 volt Winco Power Wincharger provides sufficient electricity for a well electrified farming operation—much more electricity than the average R.E.A. customer uses (based on latest R.E.A. annual statistical report).

And—economical—no monthly "electric bills"—power from the tree wind.

(1) "Standard" appliances. (2) Standard wiring. (3) Plenty of electricity. (4) Economical. (5) Available now!

SAVE 30% On Your WINCHARGER 110-Volt Battery

EVERSMAN
This in Your Pipe AND SMOKE IT!
There's Only ONE TRULY AUTOMATIC LAND LEVELER

Only one leveler, the EVERSMAN, has the eccentric (crank) axle—when wheels go on a high place the blade AUTOMATICALLY lowers to gather a load—when wheels go into a low place the blade rises to release enough dirt to fill.

Front cild buster and rear smoother blade firms the surface as the machine moves along, producing a finely pulverized seed bed while AUTOMATICALLY LEVELING.

Also excellent DIRT MOVER with patented wheel lift which raises and lowers the whole machine and gathers or releases a big load of dirt wherever you wish.

One inexperienced man driving your present tractor handles this ALL PURPOSE machine. Inexpensive to buy. Ask your dealer for details.

Get your DIRT MOVING done this FALL with your EVERSMAN and have the same machine for finish leveling and seed bed preparation in the SPRING.

ARMY NEWS FROM HEPE & THERE

Commissions
The War Department has announced that warrant officers, flight officers had enlisted personnel of the first three grades who have served honorably for at least six months on active Federal Service in the Army of the United States or one of its components, between December 7, 1941 and June 30, 1947, and who are between the ages of 21 and 28 may apply for a commission in the officers reserve corps.

Infantry Division Reunion
Veterans of the First Infantry Division, the oldest division in the U. S. Army, will hold their first annual post-war reunion in New York City August 29-31. It will be held in connection with the American Legion Convention. Division Headquarters will be maintained at the Hotel Pennsylvania. All veterans desiring to attend the reunion are asked to write to Joseph V. McCabe, 30 Vesey Street, New York, N. Y.

A Safety Train
A safety train consisting of three cars recently constructed by the 3rd Military Railway Service. This train is unique in design and is perhaps the only one of its kind in existence today. It has been equipped with numerous safety devices for display purposes and will make frequent tours throughout the main islands of Japan to further the safety program supervised by the Eighth Army Safety Director for the benefit of the occupation forces.

National Guard Officers
Commissioned Officers of the National Guard may compete for commissions in the Regular Army under a new competitive program announced by the War Department. The plan entails the appointment yearly of about 2,000 officers from all civilian components based on a competitive tour of duty. The requirements for application for such a competitive tour of duty are: The applicant must have successfully completed two years of college, and be between 21 and 25 years of age. Competitive tours will be for a period of one year with applicants agreeing to remain on active duty for a minimum period of two years. Applications must be filed 60 days prior to January 1, 1948, the starting dates of the competitive tours. Applications will be filed through the State Adjutants General.

To Be Honored
General Jonathon M. Wainwright, Fourth Army Commander, will be honored at formal ceremonies August 31, the General's last day of duty on the active list of the Army. The hero of Bataan and Corregidor retires to civilian life after more than forty-five years of service, and will make his home in San Antonio.

LOCAL DEALERSHIP OPEN FOR WIPE-ON AUTO PAINT
DAB is the original wipe-on auto paint. DAB is guaranteed for two years not to chip, crack, peel, fade. One can will paint any car. Be sure you get DAP the miracle auto paint. Nationally advertised radio and magazines. Just wipe it on with new powder puff (has no lint), and your paint job will be dust-free in an hour with a smooth, gloss finish. Free literature and 16-color cards. Exclusive dealers wanted; if you have none, then order from us. \$5.95, COD, postpaid. Lubbock Cover Co., 1911-N, Lubbock, Texas.

FIVE TO TEN DAY SERVICE ON YOUR WATCH REPAIRING
By Two Expert Watchmakers
M. L. SOLOMON JEWELER
Fine Watch and Jewelry Repairing
FLOYDADA, TEXAS

ARE YOU SUFFERING FROM PAINFUL ARTHRITIS AND RHEUMATISM?
NUE-OVO literature is free to sufferers of painful Arthritis and Rheumatism. A liquid compound of roots and herbs, Nue-Ovo is claimed to bring relief by users from many states—though doctors differ to its merits, just as they differ to its cause. Write today at no cost or obligation about Nue-Ovo to Research Laboratories, Inc., 403 N.W. 9th Ave., Portland 5, Oregon. Paid Adv.

and Camp Hood will stage a parade and review at 2 o'clock the afternoon of August 21 and a contingent of 10th Air Force planes will join in the salute to General Wainwright as they fly low before the reviewing stand on Arthur MacArthur Field. Distinguished military and civilian leaders from the five-state Fourth Army area will participate in the ceremonies.

The public is invited to attend the parade and review and plans are being made to accommodate the record crowd that is expected to assemble to pay their respects to the popular World War II hero.

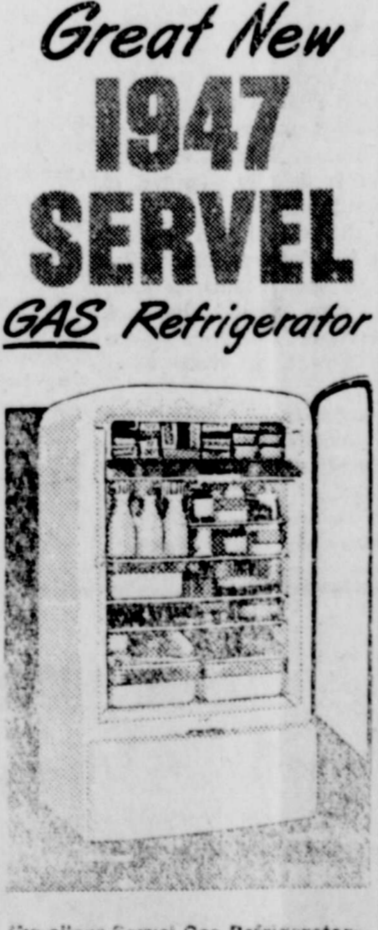

Weekly SURPLUS NEWS WAA

The second auction from the floor of surplus property ever staged in Texas by the WAA will be held at the Childress Army Air Field this Friday, August 22. Oral bids will be accepted on 20 lots of surplus, valued originally at \$120,000. There will be three farm tractors, a bull dozer road roller, several air conditioning units, parachutes and aircraft parts and a quantity of metal goods ovens, and urns. Inspection of the property is to be held from 9 a.m. to noon, and the floor bidding will commence at 1 p.m.

Red leather upholstered furniture, powered saws and dishes are listed among \$100,000 worth of general merchandise going on informal bid sale at Camp Maxey, near Paris, Texas. The surplus will be offered in 60 medium sized lots, and is described as a clearance of all available surplus property at the site, including desks, tables, scales and air compressors. Inspection and bidding will be open.

STAYS SILENT, LASTS LONGER

Great New 1947 SERVEL GAS Refrigerator

The silent Servel Gas Refrigerator now brings you the newest and finest in refrigeration convenience. A big Frozen Food Locker. Moist cold, dry cold for fresh meats and vegetables! AND Servel's famous different freezing system that hasn't a single moving part to wear or get noisy. More than 2,000,000 owners know the Gas Refrigerator stays silent, lasts longer.

to the general public beginning Monday, August 25, and continuing until 3 p.m. Tuesday, August 26. All lots will be awarded to the highest bidders present at 9:30 a.m. Wednesday, August 27.

Honorable discharges or other accepted proof of World War II service will be the only admission tickets needed by veterans at a sale of 480 surplus vehicles when gates at the Grand Prairie War Assets plant open at 9:00 a.m. Monday, August 25. To determine their order of purchase, veterans must be present for a drawing to be held at one p.m. that day. Each veteran will be limited to a purchase of one vehicle and the sale will continue through Tuesday, Wednesday and Thursday until all have been sold to veterans, veteran dealers and buyers for non-profit institutions. Dealers must present certificates.

War Assets Administration has established a reputation for selling used industrial laundry equipment that has given satisfaction and upon which no complaints have been received. All is useable, subject to repairs, and this type of surplus equipment has fitted into the industrial picture in a manner satisfactory both to the purchaser and to WAA. Two hundred, eighty-seven additional pieces are listed for sale on a sealed bid basis through Customer Service Center to all levels of trade until August 27 through the Grand Prairie office of WAA. Listed are washers, tumblers, shirt presses, garment presses, trouser presses, laundry forms, marking machines and extractors.

Indicative of an unusual trend, fixed price sales of surplus property brought almost as much as total bid sales during July in the War Assets Administration's disposal of \$16,663,800 worth of goods in the Southwest zone. The Grand Prairie WAA office has reported. Actual sales for the month accounted for property originally costing \$12,942,399, with \$3,721,301 worth of surplus disposed of through transfer, donation and other methods. Goods and fixed prices sales were valued at \$4,447,865 whereas bid sales accounted for a total of \$4,769,194.

The volume of production of all U. S. crops this year is expected to be a little over last year's high record, well above the 10 year average, and slightly above the average for U. S. farmers' best years, 1942 to 1946.

SUNDAY SCHOOL LESSON

Plain Facts About Honesty

LESSON TEXT FOR AUGUST 24—Proverbs 3:3; 11:1, 3; 12:17-22; 14:5; 23:10, 11.

MEMORY SELECTION—Prove all things; hold fast that which is good. Abstain from all appearance of evil.—1 Thessalonians 5:21, 22.

EDITOR'S NOTE: Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

By WILLIAM CULBERTSON, D. D., Of The Moody Bible Institute, Chicago.

THE Bible's presentation of the subject of uprightness of living, or plain, downright honesty in everyday contacts, is recognized by all who have given any attention to what it has to say.

The high ethical standard demanded by the Word of God is another evidence of its divine origin. Were men to evolve a moral standard of their own, it is quite evident that that standard would not be very much higher than their own attainments; in fact, the probability is that the standard would be lower than the attainment of some. However, the Bible allows for no deviation from the standard.

We who by nature are the children of wrath have undoubtedly failed when we measure our lives against God's pattern. How needful is God's work of providing and effecting salvation! Those who have been born of God are then confronted with living a life that meets the divine standard.

I. A Plea for Honesty (Prov. 3:3). HOW good it is when the Christian has a reputation for integrity in all his dealings. However, that outward manifestation is possible only if there is inward reality. Therefore, we move in order of emphasis to the greater truth at the conclusion of the verse. Truth is to be written upon the tablet of the heart.

Here is the plea for heart honesty. It is not enough by plausible argument or by feigned conduct to appear honest before men. It is necessary rather to have motives so sincere, to have a heart so honest, that all we do and say will reflect a character that is honorable.

It is out of the fullness of the heart that man speaketh. As the

Until about 1850, the world knew little about tea for foreigners rarely penetrated the hostile interior of China where it was grown.

heart is, so is the man. Let us give attention therefore to this word from God.

II. A Factual Presentation of Honesty (Prov. 11:1, 3; 12:17-22; 14:5).

THESE passages of Scripture bring to our attention the consequences of dishonesty as well as the rewards of honesty.

For example, we know that dishonesty is an abomination to God (Prov. 11:1; 12:22); that perversity of heart has its own reward, in that the perpetrator of evil is sooner or later ensnared in his own sin (Prov. 11:3); that a lying tongue may be victorious, but that victory is short lived (Prov. 12:19).

On the other hand, the rewards of honesty are also made apparent, for we are told that probity of character is God's delight (Prov. 11:1; 12:22); that the very integrity of the upright shall be a guide to them (Prov. 11:3); that blessings to others flow from the tongue of the wise (Prov. 12:18); and that the lip of truth shall be established forever (Prov. 12:19).

III. God and the Life of Honesty (Prov. 23:10, 11).

THE reference here to the ancient landmark has to do with the removal of such evidences as would prove the claim of individuals to certain property.

We are to respect the rights of others. Honesty involves more than correctness of speech; it implies rightness of life. No subtlety of reasoning can lead us to the conclusion that we may have God's approval if by unfair means we take that which belongs to another.

Particular attention is given to the fact that we are to have regard for the fatherless. The Word of God constantly gives special attention to the fatherless and the widows. It would seem that God will particularly mark as amiss any unfair advantage taken over these individuals. In fact, this text stresses that God as their Redeemer will plead their cause against anyone taking advantage of them. Of course, there can be only one result when God opposes, and that is disaster to the individual who occasions his wrath.

Perhaps it is that very sense of helplessness that makes the fatherless depend upon him. It is certain that until we feel our need of God, we shall go on in our self-sufficiency without him. When our own lack of strength becomes apparent, then it is we turn to him, and then it is that he is willing to be our Redeemer.

Let us dare to face the implications of these texts. Unless we commend our God to men by our upright lives, we shall have to suffer the consequences of our dishonesty in divine displeasure.

Weast-Smith Nuptials Read in Pretty Service

In a double-ring ceremony Saturday August 16 at high noon, Ruby Gene Weast of Canyon, daughter of Mr. and Mrs. W. N. Weast, became the bride of William Porter Smith son of Mr. and Mrs. E. J. Smith of Tampa, Fla.

Earl Cantwell Church of Christ minister, read the service in the home of the bride's parents. Introducing the ceremony, Miss Thelma Mercer, accompanied by Miss June Wimberly of Canyon, sang "I'll Get By" by Ahlert and "Ah, Sweet Mystery of Life" by Herbert. Miss Carlyn Wimberly of Canyon played a violin interpretation of Schubert's "Ave Maria" and "Liebestraum" by Liszt. The traditional wedding marches were used for the processional and recessional.

Nuptial vows were exchanged in front of a picture window

flanked by candlebra bearing lighted white tapers, fern and arrangements of carnations. Baskets of pink gladioli graced the sides of the improvised altar. Don Weast, brother of the bride lighted the candles.

Attending her twin sister as matron-of-honor, Mrs. Fenneth Lee Jones of Slaton was attired in a pale blue organdy gown, fashioned with cap sleeves peplum and full skirt. Her corsage was of pink rosebuds.

Clovis Hill was best man.

Given in marriage by her father, the bride was powned in imported Czechoslovakian organdy, designed with a tulip yoke, long fitted sleeves and a peplum which extended into a train over a bouffant skirt. Her finger-tip veil was of bridal illusion and she carried a white Bible topped with a white orchid surrounded by orange blossoms and showered with white satin ribbons. For something old, she wore a friendship bracelet belonging to her mother and

for something borrowed, a white linen handkerchief belonging to her sister-in-law, Mrs. Don Weast.

Mrs. Weast, mother of the bride chose an aqua crepe dress and a corsage of red rosebuds for her daughter's wedding.

Following the ceremony, the bridal party was honored at a reception. Fern, candlebra bearing lighted tapers and a tiered wedding cake appointed the serving table. Miss Edwina Tooley of Canyon served the cake. Miss Mary Jo Watkins of Wichita Falls presided at the punch bowl and Mrs. Dock Wallace, sister of the bride, secured names for the guest register.

The couple is to be at home in Gainesville, Fla., after a wedding trip to El Paso and Mexico. For traveling, the bride chose a light gray two-piece gabardine dress with white accessories.

Mrs. Smith was graduated from West Texas State College, Canyon, where she was a member of Gamma Phi Sorority, Alpha Psi Omega, national speech fraternity, and Alpha Chi national honor society. She has been a commercial teacher at Hereford during the past year and worked this summer at the Texas Employment Commission in Amarillo.

Mr. Smith served in the Army for 3 years and since his discharge has been attending the University of Florida, Gainesville. He is majoring in electrical engineering.

O. M. Dudleys Attend Reunion At Waxahachie

Mr. and Mrs. O. M. Dudley attended a family reunion at Waxahachie over the week end, August 16th and 17th. The children met at the home of Mr. Dudley's mother, Mrs. J. B. Dudley. Eight sons and one daughter were present with their families.

Those attending the reunion were: Mr. and Mrs. Raymond Dudley; Ralph Dudley; Mr. and Mrs. Theodore Dudley, Teddy, Jackie, and Janice; Mrs. Arthur Senders, Ben Dudley, Mr. and Mrs. Wilmer Stoltenberg and Paul; all of Texas City, Mr. and Mrs. Floyd Dudley, Martha and Bryan, of Lamarque; Alvin Dudley and Alma Lee of Plainview; Mr. and Mrs. O. M. Dudley, Jeanne and Mary of Silverton; Claude Dudley of Childress; Fred Dudley of Waxahachie; Norma Joyce Dudley of Houston, Mr. and Mrs. Harold Stoltenberg and Glen of Tullia; and the mother, Mrs. J. B. Dudley.

Traffic deaths in the United States have declined from about 20 per 100,000,000 motor vehicle miles in 1925 to less than 10 in 1946.

Former Residents Visit in Mrs. O. T. Bundy Home

Mr. and Mrs. Jim Smylie and children of Alvin, Texas spent the week end here visiting his sister, Mrs. O. T. Bundy. Mr. and Mrs. Smylie moved from here thirteen years ago.

Those who visited with the Smylies in Mrs. Bundy's home Sunday were Mr. and Mrs. L. W. Kiker and Lewis Kiker of Plainview, Mrs. Ben Smylie of Quitaque, Mrs. R. E. Hardburger and children and Russell Smylie of Beaver, Oklahoma, Dr. and Mrs. Clarence Mast and children of Lubbock, and Mr. and Mrs. Virgil Ballard and children of this city.

ANTU Kills Well-Fed Dogs, Spares Hungry Ones

ANTU, a powerful rat-killing compound that was developed during the war is highly toxic to dogs and cats.

In a recent warning to owners of pets, the American Veterinary Medical Association said that the ANTU death hazard to dogs and cats seems to hinge on whether or not the stomach is empty, since the poison is usually vomited if the stomach is empty.

"But," the association added, "there are few dogs and cats without food in their stomachs and, therefore, pets should be kept from roaming in any area where ANTU is known to have been spread."

Other animals, including all types of livestock and poultry, also are subject to ANTU poisoning it was stated.

FARM MARKET—

\$14 to \$15 at Houston and San Antonio, and \$15.50 to \$18 at other southwest terminals

Sheep and lambs moved at strong to sharply higher prices at Fort Worth last week, but spring lambs showed some weakness at Oklahoma City and Denver, and feeder lambs and goats fell at San Antonio. Medium to good spring lambs brought \$18 to \$19.50 at San Antonio, and \$20 to \$23.50 at Fort Worth and Wichita.

Hog prices dropped \$2 to \$3.50 at Denver last week, while at Oklahoma City slaughter classes lost 50 cents, and pigs fell \$2 to \$3. All classes sold strong at Wichita, and mostly steady to strong at other southwest terminals. Closing bulk of good and choice medium weight butcher hogs went largely at \$27 to \$27.50.

Veterans' News

Increases will be paid in the minimum received by the more disabled veterans enrolled in the national and training Government sponsored Veterans Administration week.

Increased rates which will be paid in September checks or after October 1, by the last session of the law signed into law by the law requires no ac-

tion by disabled trainees entitled to the higher rates because of the automatic nature of the increases.

The new law provides that a veteran enrolled in a course under the Vocational Rehabilitation Act (Public Law 16), whose disability is rated at 30 percent or higher, will receive \$115 a month if he has no dependents, and \$135 if he has one dependent.

The old law allowed \$105 and \$115 for the same two categories; but, while these rates are superseded by the new schedules for the more seriously disabled, they will continue to apply to veterans with disabilities rated at less than 30 percent.

The new law also raises the amounts authorized for additional dependents of veterans with disabilities of 30 percent or more. The additional allowance for one child

is increased from \$19 a month to \$20, and the previous allowance of \$7 a month for each additional child is raised to \$15. No change is made in the \$14 monthly allowance for a dependent parent.

The new law does not change the basic provisions for awarding payments to disabled veterans pursuing a course of training under the Vocational Rehabilitation Act. These provisions are:

While the veteran is in training, and for two months after his employability is determined, he receives a subsistence allowance of \$65 a month if he has no dependents, or \$90 a month if he has one or more dependents, in addition to his disability compensation. In case the compensation plus the allowance do not total \$105 or \$115 for those with disabilities of less than 30 percent, or \$115 or \$135 for those with disabilities of 30 percent or more, an additional sum is paid to make up the difference. The sum is further increased if there is more than one dependent.

The veteran in job training may retain whatever wages are paid him, but if his salary plus his subsistence allowance exceeds the wage of a beginning trained journeyman, VA will reduce his subsistence allowance proportionately.

If the veteran trainee is enrolled in school, his tuition and fees are paid by VA, and his books and supplies are provided by VA. If he is enrolled in on-the-job training, VA provides the necessary tools.

Authority Says, "Don't Broil or Fry Pork Chops"

There is only one correct method of cooking pork chops, says Reba Staggs, authority on meat cookery. Basing this statement on results of scientific and practical tests, she asserts that, in the case of pork chops, broiling or frying favorite methods with many homemakers, should be discarded in favor of braising.

She explains that all cuts of pork should be slowly cooked all the way through in order to be at their best. And even though pork is a tender meat, braising (a moist, heat cooking method) is best for this purpose.

The dry heat of broiling and panbroiling for pork chops and steaks, which are rather thin cuts, will make the meat dry by the time it is well done. It is then inclined to be hard and unappetizing.

If, on the other hand the chops and steaks are cooked by the braising method, which uses only a small amount of moisture, they will be plump, moist and deliciously tender and flavorful.

The simplest way to braise pork chops consists of two easy steps. First, they are browned all over in a heavy frying pan over moderate heat. Pork chops usually have plenty of fat so no extra fat is needed. After browning, a small quantity of liquid may be added if desired; or the pan may be covered tightly and the chops cooked in their own juices.

Of course, there are many ways to vary braised pork chops says Miss Staggs. If desired the chops may be breaded before cooking (in which case the pan may need to be greased slightly.) Other foods and seasoning ingredients may be added after the chops are browned—such as sliced apples, sliced onions, strips of celery or tomatoes and peppers to make a Spanish sauce.

Science To Bring Plenty of Stockings For The Ladies

Stockings made of synthetic materials eventually will be varied to meet almost any demand — the needs of wearers of all ages, their style preferences, and even sectional fads.

New facilities for manufacturing yarn which will be brought into production later this year should enable knitters and the trade to express individuality in every conceivable fashion, in the opinion of leaders in the industry.

Eventually manufacturers of ladies' synthetic yarn hosiery will have at their command an almost unlimited variety of yarns with

which to develop the most appealing and trend-defining hosiery ever possible.

Crepe types of stockings for better cling to the leg and more coverage without bulk might be developed by synthetic yarn manufacturers report, by using two or three combinations of yarns; heavier types of stockings for elderly women, and even a special type of stocking for nurses, waitresses, and others who spend a great amount of time on their feet.

A stocking that will incorporate added foot comfort without sacrificing leg beauty is among other types considered possible when diversified yarns become available in quantity.

Prior to the war there were between 250 and 300 mills with varying degrees of experience manufacturing ladies' nylon hosiery but in a very short time after the war about 500 mills were producing nylons.

In 1939, mills shipped about 53 million dozen pairs of stockings made of all fibers—mostly silk. Assuming that practically all of this was for domestic consumption it indicates an average purchase of 15 to 16 pairs per year by American women.

Approximately 30 million dozen pairs of ladies' nylon stockings are being produced annually at the present time. Longer wear is claimed for nylon stockings over silk, however. On a twice-the-life basis the present production rate is equivalent to the 1939 shipments of all types of ladies' hosiery, plus some allowance for population increase.

Eradication of Mesquite is Valuable To Panhandle Land

Mesquite is taking over big areas of the Panhandle, but Armstrong ranchmen are doing something about it.

A number of ranchmen, according to County Agent Charles O. Reed, Jr., have tried chemicals, oil sprays and hand grubbing. The Hedgecock Estate has just finished grubbing 700 acres, a large part of which had a thick stand of mesquite.

Eradication work has stepped up since a contractor equipped a crawler-type tractor with a shop-made mesquite grubber which is attached to the bulldozer arm. The attachment is only two feet wide with small cutting side arms that pull or cut the mesquite below the crowns.

Reed says 3000 acres have been cleared with this equipment since spring. A 100 percent kill has been obtained on mesquite ranging from sprouts to trees 12 inches in diameter.

Under ideal conditions, the native grass on tight land slides over the cutting blade. Very little of the grass is dead, and on land cleared last spring the loosening of the ground let more water soak in so that the grass is green and in good condition.

Seven-pound oysters grow on the Great Barrier reef off Australia.

A few pair of stockings have been woven from spider webs.

NOTICE OF ELECTION FOR THE ISSUANCE OF BONDS THE STATE OF TEXAS) CITY OF SILVERTON) COUNTY OF BRISCOE)

TAKE NOTICE that an election will be held in the City of Silvertown, Texas, on the 30 day of August, 1947, to determine whether or not the City Council of said City shall be authorized to issue the bonds of said City in the following amount for the following purpose, to-wit: \$25,000 general obligation tax bonds for the purpose

of constructing repairs, extensions and improvements to the Water System owned and operated by said City; and which election was duly called and ordered by the order of the City Council of said City, passed on the 11 day of August, 1947, and which election order is made a part of this Notice, and is in words and figures as follows to-wit:

ELECTION ORDER THE STATE OF TEXAS) CITY OF SILVERTON) COUNTY OF BRISCOE)

ON THIS the 11 day of August, 1947, the City Council of the City of Silvertown, Texas, convened in Special session at the regular meeting place thereof in the City Hall, there being present and in attendance the following mem-

- bers, to-wit: J. E. MINYARD, MAYOR O. M. DUDLEY) W. W. DOUGLAS) G. W. SEANEY) ALDERMEN J. C. HILL) J. E. McCAIN)

and with the following members absent: None, constituting a quorum; when, among other proceedings had, were the following: Alderman O. M. Dudley introduced an order and moved its adoption. The motion was seconded by Alderman J. E. McCain. The motion, carrying with it the adoption of the order, prevailed by the following vote:

AYES: Aldermen O. M. Dudley, W. W. Douglas, G. W. Seaney, J. C. Hill, J. E. McCain.

Noes: None.

The order is as follows: WHEREAS, the City Council of the City of Silvertown, Texas, deems it advisable to issue the bonds of said City for the purpose hereinafter mentioned; therefore BE IT ORDERED BY THE CITY COUNCIL OF THE CITY OF SILVERTON, TEXAS:

I. That an election be held on the 30 day of August, 1947, which date is not less than fifteen (15) nor more than thirty (30) days from the date of the adoption of this order, at which election the following proposition shall be submitted to the qualified electors who own taxable property in said City and who have duly rendered the same for taxation:

"SHALL the City Council of the City of Silvertown, Texas, be authorized to issue the general obligation tax bonds of said City, not to exceed the principal sum of TWENTY-FIVE THOUSAND DOLLARS (\$25,000.00), maturing serially over a period of years not to exceed Twenty (20) years from the date thereof, bearing interest at a rate not to exceed THREE PER CENTUM (3%) per annum, for the purpose of constructing repairs, extensions and improvements to the Water System owned and operated by said City; and to provide for the payment of principal of and interest on said bonds by levying a tax sufficient to pay the annual interest and to create a sinking fund sufficient to redeem said bonds as they become due?"

II. That the City of Silvertown, Texas, constituting but one election precinct, said election shall be held at the City Hall in the City of Silvertown, Texas and the following named persons are hereby appointed officers of the election, to-wit: W. C. Smithee, Presiding Judge Sid Richards, Judge Mrs. Bob Dickerson Clerk Mrs. Lucile Wood, Clerk.

III. That said election shall be held under the provisions of and in accordance with the laws governing the issuance of bonds in cities, as provided in the General laws of the State of Texas, and only resident, qualified taxpaying voters, who own taxable property in the City and who have duly rendered the same for taxation, shall be qualified to vote.

IV. That the ballots of said election shall have written or printed thereon the following: OFFICIAL BALLOT "FOR THE ISSUANCE OF THE BONDS AND THE LEVY OF A TAX IN PAYMENT THEREOF"

"AGAINST THE ISSUANCE OF THE BONDS AND THE LEVY OF A TAX IN PAYMENT THEREOF"

Each voter shall mark out with black ink or black pencil one of the above expressions, thus leaving the other as indicating his or her vote on the proposition.

V. That a copy of this order, signed by the Mayor of said City and attested by the City Secretary, shall serve as proper notice of said election.

VI. That the City of Silvertown, Texas, constituting but one election precinct, said notice of election shall be given by posting and publication of a copy of this order at the top of which shall appear the words "NOTICE OF ELECTION FOR THE ISSUANCE OF BONDS" Said notice shall be posted in three public places in the City of Silvertown, one of which shall be at the City Hall, not less than fourteen (14) days prior to the date on which said election is to be held, and be published on the same day in each of two successive weeks in a newspaper of general circulation published in the City of Silvertown, Texas, the first of said publications to be made not less than fourteen (14) days prior to the date set for said election.

Behind The Scenes in AMERICAN BUSINESS

By REYNOLDS KNIGHT

NOTE TO READERS—The information contained in this weekly summary of happenings in the world of business and industry has been obtained from sources we consider reliable but is not guaranteed. Opinions and forecasts are based upon careful analysis but

other row crops cannot be grown. Farmers are urged to consider these two crops both as a cash crop and as soil builders. Bill Helms, one of the local Supervisors of the Cap Rock District, states that he can see a need for these crops in the area around Gasoline, where Mr. Helms has considerable farming interests. Planted early, they will furnish winter cover and prevent blowing. Overseeding cotton and with either winter peas or hairy vetch is practical and is an excellent conservation practice.

Information regarding source of seed and cost is available in the local Soil Conservation District office at Silverton or from any of the technicians assigned to this office.

are subject to change without notice.—The Editor.

NEW YORK, August 18—Continued shortages of basic materials is one factor responsible for the erratic production that has kept prices high.

With steel on an allocation basis and a tight situation prevailing in non-ferrous metals, petroleum, chemicals, plastics and worsteds, manufacturers in many lines still have no assurance of sustained material supplies. The result is crippled production. The steel shortage, for example, has contributed directly to the petroleum shortage. Lack of sufficient steel for drilling equipment and piping has greatly curtailed new oil well drilling and refinery operations.

Auto supply and electrical goods manufacturers have been forced by shortages to work out complicated procedures for allocating parts and appliances to jobbers.

HUGHES LORE—The avalanche of front page stories and radio newscasts about Howard Hughes' appearance before a Senate committee has not obscured the courageous Texan's solid background of achievement as an industrialist, flier, aircraft designer and movie producer.

Hughes, now 41, has packed more varied and successful accomplishments in 10 of his lifetime than almost any single young man of his generation. He designed and flew the H-1 monoplane, the first land plane to fly faster than 350 miles an hour, long before military pursuit ships attained such speeds. He flew around the world in 1938 in the record time of 91 hours, a mark that was not broken until 1947, and then only by a converted version of World War II's fastest bomber. He introduced the four-engine Strato-liner to commercial aviation and he designed the Constellation, fastest transport plane in the world. He is the principal stockholder in Trans-World Airline (TWA) and has guided its domestic and overseas expansion. Hughes proved his organizing ability in industry, starting at the age of 18, when he inherited a \$650,000 interest in the Hughes Tool Company and built it into the world's biggest and most important supplier of rock bit oil drilling equipment. He has

Highest Priced Holstein Cow in Last 20 Years

CARY, ILL.—The highest price paid for a Holstein cow in more than 20 years was established at the 2nd annual Curtiss Candy Classic, at the Curtiss Candy Company Farms near here. Dumloggin Mistress La Princess, an 8-year-old Holstein and the first animal placed on the auction block, was sold for \$23,500 to Chester Williams, owner of Wern Farms, Waukesha, Wis. The cow was consigned by Elmwood Farm, Lake Forest, Ill., owned by Robert Rasmussen. Fifty head of fine blooded Holstein cattle were sold at the Curtiss Candy Classic for a total of \$98,350, or an average price of \$1,967, according to Otto Schnering, president of the company. More than 2,000 Holstein breeders and fanciers attended.

produced 13 successful motion pictures.

Hughes' Flying B o a t, largest airplane ever built, is now completed, may be ready for tests this winter in California.

THINGS TO COME—Now it is an electric light for under water use—Westinghouse has developed a 1000-watt bulb for deep-sea diving purposes. . . . The television juke-box is on the way in the form of a coin-operated machine which photographs projected images from the television screen. It is designed for amusement parks. . . . Pre-cooked canned rice, ready to eat after re-heating, is ready for retail markets. . . . A table syrup made from oranges has been developed by a Tampa food manufacturer. . . . New motor-driven bicycles which consume only a gallon of gas in 100 miles are being introduced by a New Orleans firm. . . . A special kit makes it possible to make your own figurines, novelties and statuettes from transparent or colored plastics. . . . A mid-west oil company has obtained a patent on a new type of direct fuel injection gasoline engine. . . . New waffle baker turns out 40 of the perforated pancakes per hour.

INDUSTRY REACTS—When the Taft-Hartley bill was being debated by Congress, organized labor raised a hue and cry against it throughout the land. Union leaders seemed to have convinced the average worker that it would lead to all sorts of abuses by indus-

trial management, including pay cuts and mass firings. Now that Congress has passed the measure over President Truman's veto, such declarations look a little silly alongside the subsequent record of management in some of our biggest industries. The coal industry has agreed to hike miners' wages, Ford Motor Company has just adopted a pension plan covering all hourly workers, and the head of a leading can-making company, D. W. Figgis of American Can, sent a special message to 28,000 employees saying that the company has "no thought other than to continue the sound principles of human relationships which we have followed in the past and to improve them wherever we can."

Health Certificate Required for U. S. Dogs Entering Can.

Canada has set up strict regulations governing the entrance of dogs from the United States. People who plan to take pets across the Canadian border must either have them vaccinated against rabies or obtain a certificate from a U. S. Bureau of Animal Industry inspector showing that the dog comes from a rabies-free area. Exceptions are performing dogs and those which are transported through that country "under direct control and without unnecessary stop-overs."

BUT WE'VE A \$35,000,000 PRESENT FOR YOU

It's Southwestern Public Service Company's 23rd birthday, but there's a \$35,000,000 present for the folks in the Panhandle Plains Pecos Valley area.

It's our vast expansion program that will bring better electric service to more homes, more farms, more industries. There'll be improvements in all the areas we serve, designed and planned to bring better electric service to everyone.

This expansion program is a concrete example of the faith we have in the growing area we serve.

SOUTHWESTERN PUBLIC SERVICE COMPANY

33 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

THE VETERAN'S FRIEND

Q. How does a veteran apply for readjustment allowance?

A. A veteran must present his original service discharge or separation paper, or if that has been lost or destroyed, a certificate in lieu of or a properly authenticated copy of such paper. He must file an application on Veterans Administration Form 4-1382. An initial claim is usually filed at the same time the application is made. This claim indicates whether the veteran is unemployed, partially employed or self-employed.

Q. Does Veterans Administration help the disabled veteran get a job after he finishes his training?

A. Yes.

Q. What is the maximum length of training a disabled veteran can get under Public Law 16?

A. The maximum is four years;

however, Veterans Administration may extend the time of factors in any case warrant an additional period of rehabilitation.

Q. Must a disabled veteran go to a vocational school or may he go to a liberal arts college, a high school, or similar institution under the Vocational Rehabilitation Act?

A. He may enroll in any VA-approved educational institution or training establishment offering the course of training which VA has found he needs to insure his proper rehabilitation in line with his own desires.

The cotton leafworm is not known to survive the winters in the United States. New infestations are started each spring by moths that fly in from the south and lay their eggs on cotton.

New Ideas For Meals Shows Much Summer Variety

Steaks cooked over a bed of coals are an unforgettable treat to those who enjoy outdoor cooking and camping. However, there are many other meats also well suited to campfire cooking, says Reba Staggs, authority on cookery.

Since hamburgers and frankfurters are always outdoor favorites, this expert suggests a few ideas on their care and preparation. Hamburgers can be shaped at home and chilled in the refrigerator, stacked with wax paper between. At the picnic spot, they're cooked in an open frying-pan.

Frankfurters call for toasting on the end of long sticks, then they're put on buns with appropriate "fixings."

If a grid is handy, the choice may be broiled lamb chops or a broiled slice of ham, woodsman style. Another possibility is barbecued lamb shanks; these are dipped in barbecue sauce at intervals during the time they're cooking over the coals.

Toasting-forks or sticks may be used to cook two kinds of meat at the same time, or other foods along with the meat. For example, a slice of bacon can be threaded on the fork with squares of steak or veal liver. Thick slices of luncheon meat make a good combination with tomato halves and slices of cheese.

WANT ADS--

CARD OF THANKS

I wish to take this means of expressing my appreciation to the people who helped put out the fire at my place two weeks ago. Thanks a lot folks.
A. L. McMurtry

CARD OF THANKS

We wish to take this means of expressing our sincere thanks for the many cards and letters and also for the beautiful flowers that were sent to us while in the hospital and since we came home. It was all deeply appreciated. May our Heavenly Father richly reward each of you is our prayer.

CARD OF THANKS

I wish to take this means of expressing my heartfelt thanks to my many friends for their kindnesses, floral offerings and cards and all other assistances while I was in the hospital and through my illness. May God bless you all.
W. M. Stout
33-1tp

If a frying-pan is used, the possibilities are almost unlimited, according to Miss Staggs. For variety, she suggests pan-broiled slices of liver sausage, ground lamb patties encircled with bacon, or frankfurters heated in barbecue sauce.

Ancient Assyrians used boomerangs.

Only hand labor is employed in rice cultivation in Japan.

The U. S. Department of Agriculture forecasts that the final count on the nation's wheat crop will be 1.4 billion bushels, the largest crop on record. That record would be 61 percent above average production, and 24 percent above last year's production.

Approximately one-third of the earth's surface is land. The rest is water.

A bumper crop of 75.5 million bushels is expected from U. S. rice growers this year. Such a crop would exceed last year's record crop by 4 million bushels.

An estimate of 15,000,000 tons of commercial fertilizers used in 1946 set a new high record for the United States.
