Clinic Plans Continue; Committee At Work

At a meeting of interested persons which was held in the lunchroom of the high school Tuesday night it was learned that there is yet nothing definite in securing of a clinic for Silverton, a report by Wm. F. Talley disclosed.

A few days prior to the meeting George Seaney and Wm. F. Talley visited the War Surplus site near Pampa to find out what kinds and types of buildings were available. The report of Mr. Talley was that they talked with several well-informed men at Pampa and were told that a building could be purchased through the City of Silverton at a cost discounted 40% of the WAA list price but that it would be necessary for a committee to go to Dallas and secure a priority for the purchase of a building, also to find out the price of such building.

During the report of Mr. Seaney it was made known that Dr. Shy, the doctor who plans to come to this city, can't possibly arrive here before January 1st of next year because he is obligated with a hospital in Shamrock until that time. "Nevertheless," Mr. Seaney continued, "we need to get this building deal all straightened out now

Seventeenth Annual Religious Education Week Begins Sept. 28

OPTOMETRIST
Dr. W. O. Ervin, optometrist, has opened his office in Tullia and is ready to serve his patrons needs. He is located in the same suite of offices with Dr. McCasland in the Tullia Clinic building.

Dr. Ervin is a graduate of San Angelo high school and was a student of Texas Tech. He graduated from Northern Illinois College of Optometry. He is also a member of the Texas Optometry Association.

Married, and with one child, Douglas Lee. Dr. and Mrs. Ervin plan to make Tullia their home permanently.

Prior to coming to Tullia, he worked for Dr. Caroe of San Angelo, associated with Dr. Anderson, of Lubbock.

Friday and Saturday County Fair Days Here

News To Offer Bargain Rates One Day Only

With newsprint shortages plus high costs of paper hampering the newspaper business considerably during the past two years it has been impossible for the Briscoe County News to offer any bargain rates to its subscribers, but this year, for one day only Saturday, September 20th, yearly subscriptions will be sold for \$1.50.

Those people whose subscription has expired may renew their paper on Saturday for \$1.50 or new subscriptions will be taken at the same price.

For those people who want to take a daily paper, the news will write subscriptions to the Amarillo Times (daily and Sunday) and the Briscoe County News for \$4.50. The usual bargain rates on these two papers are \$5.00. Remember this is for one day only so if you want to take advantage of this you must visit the News office Saturday.

If you have been thinking of taking the News now is the time to subscribe while you can save fifty cents.

Bargain hours are from 8:00 a. m. to 5:00 p. m. Saturday only.

Pyorrhea is Curable In Early Stages, Says Dr. Geo. W. Cox

Contrary to the popular belief that pyorrhea is incurable, this is only true in the most advanced cases. Dr. Geo. W. Cox, state health officer, advises those persons who even suspect the presence of pyorrhea to seek an early diagnosis from their dentist so that proper treatment can be instituted while the disease is still curable.

"Early detection and proper treatment of pyorrhea represent the formula for a successful cure. This means that the dentist must have an opportunity to discover the presence of the disease at the earliest possible moment since the symptoms are often so vague that the patient is unaware of its existence," Dr. Cox said. "Regular visits to the family dentist are therefore extremely important."

The treatment of pyorrhea is not an involved procedure. In the average early case one of the main therapeutic features is the proper hygienic care of teeth and gums as outlined by any reputable dentist. Carelessness regarding mouth hygiene is usually the basic cause for the condition.

The family dentist can usually remove the cause of the trouble, Dr. Cox said, and when this has been done, intelligent routine care in the home by the patient will effect a cure in the majority of early cases.

Local Gin to be Opened Sometime Next Week

According to a report received by the News this week the Holmes Gin which is probably known to most people of this community as "The Silverton Gin" will be reopened next week.

George Holmes, who recently purchased the gin stated that this will be the first time the Silverton gin has been opened in the last two years.

New equipment is to be added next week and it is believed the new machinery will be tuned up and ready to go by the latter part of next week.

In regard to buying cotton Mr. Holmes stated that the gin would either buy cotton or put it in a loan, whichever the farmer preferred.

"Aside from ginning, cottonseed meal, cake and planting seed will be handled by the gin," Mr. Holmes continued.

"The farmers of this section are invited to come in and get acquainted any time," Mr. Holmes said in concluding.

Steiner Rodeo to be Big Attraction at Lubbock Fair

Night time attraction in front of the grandstand at the 30th Annual Panhandle South Plains Fair will be the big Steiner Rodeo. A performance will be presented each night of the Fair, Sept. 29 through Oct. 4.

T. C. (Buck) Steiner and his son Tommy, producers of the rodeo, promise the "cleanest, fastest, wildest, most spectacular show" ever seen on the South Plains.

They bought new horses this year in Nebraska, especially for use in the numerous rodeos they are producing. Other stock includes Mexican steers and Brahman calves from the Steiner ranch at Bastrop.

Managing director of the rodeo will be Jack Favor, Arlington, Texas. Buck Jones of Wichita Falls is judge and Sam Stewart of Fort Worth is the clown.

Other features of the six-day fair include a giant balloon parade 2 1/2 miles long at 1:30 p. m. on opening day, Sept. 29. These balloons will also be displayed on the Fair grounds throughout the Fair in a rubber zoo.

Midget auto races and a tremendous midway round out the entertainment end of the exposition.

Among the outstanding exhibits at the Fair will be the special exhibit of cattle, hogs, sheep, goats and horses; by the Texas Technological College, and a three day rabbit show. Entries for the rabbit show have already been received from as far away as California.

Palace Theatre to Show Midnight Movie Saturday

To climax the giant two-day celebration of the Briscoe County Fair frollics, etc. Preston Trower, owner of the Palace Theatre has this week announced that he will show a preview Saturday night at 11:30 p. m. for the benefit of all those who want to round out the giant celebration by attending a good movie.

"The Farmer's Daughter" starring Joseph Cotten and Loretta Young will offer the best in movie entertainment.

Fred Brannon was a Quitaque visitor Saturday.

Cecil Mallow of Plainview was a Silverton visitor Monday.

Seed Committee Work Brings In More Income

Work done by a county seed improvement committee in Taylor county is raising small grain yields by two bushels an acre.

Committee members credit the work of the seed improvement organization for adding an extra \$140,000 to the income of Taylor county wheat growers this last year.

Java is an important source of tea, coffee, cinchona bark and quinine.

A new spice is the blend of cinnamon, nutmeg and other spices especially dedicated to apple pies.

Changing Results From Resigning Of Bank Employee

When Mrs. Roberta Griffin resigned her position with the First State Bank early this week, considerable changing resulted it will be noted by shoppers of this community.

Mrs. Eunice Elkins, a former employee of Nance Food Store has accepted the position vacated by Mrs. Griffin. The place left vacant at Nance Food Store has been filled by Mrs. John D. Baird, who until a few months ago, was employed at the City Food Market.

The West Texas Utilities Co., will display ceramic possibilities of West Texas clays in Memphis Oct. 2-4 at the gala Carnival festival.

\$475.00 Starts Drive of New Club to Light Gridiron

At a mass meeting of merchants, farmers and interested persons Tuesday night in the lunchroom of the local high school, plans were made for the organizing of a club to stand behind the local football boys.

The meeting, at which Arthur Arnold presided as chairman got under way with suggestions and motions as to what such a club might be named. Several names were taken into consideration but as far as is known no name has yet become official. The probable name however will be The Silverton Quarterback Club.

During the course of the meeting it was brought before the group that the Silverton football field was badly in need of lighting facilities, adequate to furnish light for night games to be played on the local gridiron.

Suggestions and discussions of suggestions, some made in motions some otherwise, on how to secure \$2,200.00, the amount necessary to light the football field, then became the order of the hour, suggestions as to the making of notes, either to individuals or to the bank, to be paid off as funds were accumulated by the club, were made. Funds for the club were to be accumulated through the promotion of different activities under this plan. Another plan was that individuals present start the drive by making liberal donations, letting the finance committee work out a plan to secure the remainder of the funds necessary to accomplish the new club's goal.

Donations in the amount of approximately \$475.00 were made by those present at the meeting, this figure constituting approximately one-fourth of the amount necessary to light the football field.

Following the announcement of the total sum contributed the group voted to have Monday night as the club's regular meeting night.

Prior to adjournment a building committee was appointed and the finance committee met in a room adjoining the lunchroom where plans were made to secure the remainder of needed funds.

\$69.00 Received By Cemetery Association

The Silverton Cemetery Association has recently received funds amounting to the sum of \$69.00, a report to the News by George W. Seaney, president of the association.

The following is the list of contributors and the amounts given:

Mrs. Biffle Fort	\$10.00
Mrs. O. T. Bundy (Lot)	10.00
Mrs. E. J. Vaughn (Fees)	5.00
Mrs. E. J. Vaughn	5.00
Miss Bonnie Smith	4.00
W. A. Rowell	5.00
Mrs. Ruth Cline	10.00
Louis Francis	15.00
Wilson McDonald	5.00
TOTAL	\$69.00

Membership in the Silverton Cemetery Association is open to anyone and membership fee is \$1.00, however, donations of any amount are accepted Mr. Seaney said.

Officers of the association are: George Seaney, president; True Burson, vice-president; Mrs. Alton Steele, secretary-treasurer; and Alvin Redin and Mrs. Clay Fowler, alternate directors.

Mr. and Mrs. Bud McMinn were Sunday dinner guests in the home of Mr. and Mrs. Paul Ledbetter and family Mrs. Lottie Henderson and Dwaire were afternoon visitors

FARM MARKETS SWING OF THE SOUTHWEST

Continued strong trends prevailed at Southwest farm markets last week according to the Production and Marketing Administration, U. S. Department of Agriculture.

Most hog markets established new all-time high prices in advances ranging mostly from \$1.00 to \$2.25 per hundred pounds. The week's top was \$27.75 at San Antonio, \$29 at Fort Worth, \$30 at Oklahoma City, \$30.35 at Wichita, and \$31.75 at Denver. Sows and pigs shared the full advance to sell at mostly \$22 to \$28.

Southwest sheep moved at generally steady to stronger prices last week. Medium ewes brought \$7 to \$7.50 at San Antonio, while medium to good aged sheep sold at \$7.50 to \$8.50 at Fort Worth. Best ewes brought \$8 at Oklahoma City, and \$8.50 at Denver. Wichita bought good and choice kinds at \$7.50 to \$8.50.

Cattle closed the week mostly steady to 50 cents higher than a week earlier, but weak spots appeared on calves and low grade stockers. Common to medium calves sold largely from \$13 to \$18.50 at Texas markets. Beef calves brought mostly \$22 down at Oklahoma City and Denver, while Wichita paid \$17 to \$20 for good choice heavy calves. Stocker and feeder calves sold generally at \$16 to \$22.

Seasonally scarce fresh eggs and poultry sold at firm to slightly higher prices last week. Cold storage eggs supplied most of the market for best grades. Fort Worth and Dallas offered around 35 cents per dozen for best candled white eggs and 50 for mixed colors. Heavy hens brought mostly 23 to 26 cents per pound.

Grain markets made further sharp gains last week, with even poorer prospects for feed grain crops and more pressing requests

PERSONAL ITEMS OF LOCAL INTEREST

Mrs. G. L. Allard is the guest this week of her parents and sister, Mr. and Mrs. W. Allard and Faye Dunn.

Mrs. Fred Lemon went to Amarillo Saturday where she joined her son, Mr. and Mrs. Joe Lemon. The group left for New York for a 10-day visit.

Mr. and Mrs. Berton Hughes and Robert had as their guests the first part of last week Mrs. Hughes' parents, Mr. and Mrs. R. E. Renfro of Nocona, Texas, her brother and his wife, Mr. and Mrs. R. L. Renfro of California, and an aunt, Mrs. Lillie Clodfelter of Gainesville, Texas.

Mr. and Mrs. M. K. Summers are spending a 10-day vacation in Colorado, New Mexico and Kansas. The Summers left last week and are expected to return the latter part of this week. Mrs. J. W. Lyon, Jr. is working at the City Hall in the absence of Mr. Summers.

Mr. and Mrs. Jack Ingram of Plainview spent Sunday with his sister, Mrs. Roy Morris, and family.

Mrs. W. I. Smilie, of Houston, and Mrs. L. W. Kiker of Plainview were visitors in the O. T. Bundy home this week. Mrs. Bundy returned to Plainview with them for a visit.

Mrs. Rebecca Killcrease of Mobeatle, who has spent the past ten days with her sister, Mrs. H. A. Morris, and family, left Tuesday morning for Benjamin where she will visit a son before returning home.

Mrs. Leave Lindsey and Mrs. Roy Henderson were Amarillo visitors Tuesday.

Mr. and Mrs. Larnce McCain were Amarillo visitors Saturday.

Mr. and Mrs. Harry Seed and Mrs. W. E. Dameron of Hereford spent Sunday with their sister, Mrs. Clyde Wright, who has been ill for several weeks.

Bobby McDaniel, of Plainview, spent the weekend in the home of his parents Mr. and Mrs. Bob McDaniel and family.

Johnnie Lanham was a Quitaque visitor Saturday.

Mr. and Mrs. Jim Whittemore and son of near Dallas have been visiting with his brother, Perry here.

Judge Clyde Wright and daughter, Mrs. Harold Ownby, were in Amarillo Wednesday on business.

Mrs. Jim Norris, who has been seriously ill in the Tullia hospital, is reported to be improving.

J. B. Smith is now in Amarillo, where he is employed by Thurman Graham.

Mrs. N. C. McCain and Clifton were business visitors in Tullia and Plainview Friday.

Mr. and Mrs. Joe H. Smith were Sunday night supper guests in the Ed Vaughan home.

Mr. and Mrs. Cecil E. Anderson and daughter spent the weekend with relatives at Hereford.

Paul Ledbetter and Bud McMinn visited with Mr. McMinn's father, W. L. McMinn, in the Lockney Clinic Sunday.

Fire Prevention Week . . .

Calling on the nation to join in a concerted effort to prevent fires. President Truman has proclaimed the week beginning October 5 as Fire Prevention Week.

In his proclamation, the President said: "I earnestly request every citizen to eliminate all possible causes for destructive fire in his home and place of business." That plea goes to the heart of fire prevention. The many organizations whose business it is to fight fire are doing a magnificent job, and their efforts have been brought to a peak of intensity this year. But they cannot do much without public support. The nation cannot provide an army of fire prevention experts to inspect every home and business building, correct dangers and see that they stay corrected. All the authorities can do is to tell us how to prevent fire—and after that it is up to the individual.

If anyone doubts that fire prevention has assumed the stature of an emergency condition, he need only look at the statistics. During the first six months of 1947 alone, fire losses in the United States reached the staggering total of \$369,276,000—and that does not include the major portion of the Texas City disaster. Loss of life has shown a similar increase. In most homes a very small expenditure of time and money will eliminate the common hazards—and no investment can produce better returns.

THE VETERAN'S FRIEND

Q. I have been drawing \$57.50 each month from my \$10,000 war risk insurance policy since my discharge from the Army after World War I. Are such payments discontinued when the \$10,000 is exhausted?

A. No. Payments may be continued for the remainder of your life provided your total disability remains unchanged.

Q. How often can I get on the rolls to receive unemployment allowance?

A. You may be placed on the rolls to receive unemployment allowance as many times as necessary until you have exhausted your period of entitlement.

Q. Why do I have to pay two

monthly premiums instead of one when I reinstate my National Service Life Insurance policy?

A. One premium is for the 31-day grace period following the date of lapse, during which the insurance was continued in force without payment of premium; the other is for the current month of the reinstatement.

Q. If I use part of my Armed Forces leave to pay my insurance, can I receive the balance in cash?

A. No. The remainder of your bond is placed to your credit until such time as it becomes payable in cash, or you authorize further premium payments from the balance of your credit.

Q. My son, a World War II veteran, is in a VA hospital and I would like to know if I can visit him every day?

A. Yes. All Veterans Administration hospitals have special hours set aside each day for visitors the same as civilian hospitals.

Q. My husband receives compensation because of World War I service. Will I receive a pension at his death?

A. If your husband dies from a disability proved to have been contracted in military or naval service, or if the death is from another cause and your income does not exceed \$1,000 a year, if childless, or \$2,500 if with minor children, you may be eligible for a pension.

Q. I receive compensation for injuries incurred while in the Army. Do I have to show the amount of compensation I receive in making out my income tax report?

A. No. It is unnecessary to show

pension or compensation payments in an income tax report.

The Maxoil Co., Amarillo, will provide sound equipment for the major outdoor attractions at the Memphis Cotton Carnival Oct. 2-4.

Three out of four children in 1900 reached 25. Now, of four reach 57.

Lightning experts estimate chances of being hit by are 365,000 to one.

Veterans' News
War II veterans who receive disability payments for do not lose their rights... Administration has ruled... VA computes that 3,400,000 War II veterans will be alive in the year 2000.

listed men in the National Guard or Naval Reserve. They may enlist in these units under the law only by waiving their disability payments. Reserve officers are not subject to this restriction, but while receiving active service pay, they may not also receive compensation or pension.
Almost as many World War II veterans will be alive at the turn of the 21st century as there are living veterans of World War I today, according to the latest Veterans administration estimate.

to be living in the year 2000 will be slightly over 77 years.
The War II figures come from a projection that VA made to determine what its administrative and operating requirements for these veterans will be in the future.
The projection begins with the potential War II veteran population of 16,051,000 as of July 25, 1947. The average age of this group of that date was 28.6 years.
The projection ends with the year 2030 when VA expects less than a thousand War II veterans to be alive, averaging 104 years of age.
Reservations for industrial committees attending the Memphis Cotton, Chemurgic and Ceramics Carnival, Oct. 2-4 have been received from as far distant as El Paso, Houston, San Antonio, Pittsburgh, New York City, Memphis, Tenn., New Orleans, Atlanta, Denver and Los Angeles.

SCRIPTURE: Proverbs 3:5-7, 4:23; 6:16-19; 9:10; 14:34; 15:1; 16:18; 21:3; 22:1; 27:1, 2; 28:1; 29:18; James 4:17.
DEVOTIONAL READING: Proverbs 16:1-4.

Guidance From Proverbs
Lesson for September 21, 1947

OUR study of Sunday's lesson centers about the idea of goodness, which is a rather trite-sounding theme, but very vital, I assure you, and quite interesting.

Dr. Newton
The Scripture passages are all found in Proverbs, save one, and that from the very practical preacher of the New Testament, James, chapter 4 verse 17.
Perhaps you will find the passages from Proverbs as helpful and interesting as I did. It will require but two minutes to read them—Proverbs 3:5-7; 4:23; 6:16-19; 9:10; 14:34; 15:1; 16:18; 21:3; 22:1; 27:1, 2; 28:1; 29:18. And after you have devoted two minutes to the reading of these passages, you will have something to think about for the rest of the day, the week, all your life.

One Man's Experience
A VERY successful business man in Atlanta, a shoe manufacturer, was telling me his life story one day as we fished together at Homosassa, Fla. Finally, he said: "Do you know the passage in the Bible that has meant most to me as a rule and guide for my faith and practice?"
I wondered what he would say. And then he quoted from Proverbs 3:5-7.

"Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge him, and he shall direct thy paths. Be not wise in thine own eyes; fear the Lord, and depart from evil."

The Essence of Goodness
WHAT is goodness? We talk about good men and bad men, good times and bad times, good luck and bad luck. Just what is goodness?
Jesus himself once said to a young man:
"There is none good but One, that is, God." Mark 10:18.
Goodness then, permit me to suggest, is what happens when God lives in us. We can never know goodness apart from God, try as we may. The essence of goodness, therefore, is found in that heart, in that life, that sincerely prays, "Thy will be done."

The Essence of Badness
GUIDANCE from these great Proverbs identifies the things that we are to shun as well as the things we are to do—the essence of badness as well as the essence of goodness. Here are the seven things that God hates—the seven qualities of heart that constitute the essence of badness:
"Haughty eyes, a lying tongue, hands that shed innocent blood, a heart that deliberately plans wickedness, feet which are swift in running to mischief, a false witness who utters lies, and one who sows discord among brethren."
Analyze these seven qualities of heart, and you have the explanation of the woes of the world. Many clever modern books toy with these deadly sins, trying to make them seem good, but no amount of decoration can atone for the heart that consistently entertains these cancers of hell.

The Individual and Society
I LIKE the impact of these Proverbs. They begin with the individual. They fruit in society. Individuals who "trust in the Lord with all thine heart," will "exalt a nation." It is not enough to put better food in peoples' stomachs, better clothes on their bodies, better roofs over their heads. These are essential as expressing the better life; but you have got to give people something to live for as well as something to live on.
Good business depends upon good business men. Good international relations depend upon good nations. Good race relations depend upon good races.

We have been greatly enheartened by the establishment of United Nations as a world idea and ideal. Will it succeed? The answer is found not in dollars and bullets, but in hearts that always "trust in the Lord."
"Except the Lord build the house, They labor in vain that build it; Except the Lord keep the city, The watchman waketh but in vain."
—Psalm 127:1
(Copyright by the International Council of Religious Education on behalf of the American Bible Society, New York, N. Y.)

Wheat Grinding and Flour Production Are At Peak

Texas' enormous 1947 wheat crop dwarfed all other news on the farm and business front during mid-summer and carried wheat grindings upward to a peak doubling prewar levels. The University of Texas Bureau of Business Research reported.
June and July grindings were at record levels with July production scoring a 26 per cent gain over year-ago figures.
The 3 per cent June-to-July in-

crease in grindings boosted the monthly total up to 4,733,000 bushels, indicating that the jump is not only a seasonal one, but is the result of greater yield from the State's wheat fields. In many sections, particularly on the Northern High Plains, wheat stored temporarily on the ground is expected to begin moving at an early date. This movement should keep wheat grindings at record marks exceeding seasonal expectations.
Wheat flour production tallied a 5 per cent monthly gain to stand 18 per cent above July 1946 pro-

duction. Total for the month reached 2,053,000 sacks. However, the June-to-July gain last year was much greater, with production rising 17 per cent.
High School facilities, court house, three main streets and the court house square is being converted into exhibit space for the scores of displays reserved at the Memphis, Texas Cotton Carnival, Oct. 2-4. Space is FREE to all exhibitors and all are invited to display natural and industrial resources.

Going UP TOGETHER WITH NEW WHEATS
Romanche • Westar • Wichita
Were Top Yielders in This Area This Year!
MANCHE... At or near top in all field... good straw... good test weight... light resistant... popular with all growers...
STAR... Consistently high yields... Romanche but higher yielding in Panhandle... stands well for combining... resistant to leaf rust... exceedingly high in the Panhandle...
WICHITA... Early... equal to Early... stands much better for combining... resistant to drought and disease
...safest and surest of early varieties... large acreages assured in 1948!
Housewives demand quality bread... this requires strong gluten... beardless varieties have weak gluten... flour mills this year stayed out of areas raising beardless wheat... they are shipping in outside wheat to strengthen their mix... Exports have been heavy and are present outlet for poor baking flour... these are apt to be curtailed anytime... We must regain our local markets... start NOW to find seed of these new high yielding, high quality varieties!
...aid future discounts. Help improve our local wheat variety reputation. Seed of the new wheats already in heavy demand. See the County Agent or call on us.

Businessmen are shipping the Scriptures by the ton
Starting with less than a dozen gifts in 1816, the American Bible Society last year received hundreds of thousands of individual contributions for copies of the Scriptures, the Bible, and the New Testament.
Today, from every part of the globe, requests for copies of the Scriptures are being received from millions of men, women, and children in devastated areas.
Knowing the great good that has followed the work of our Missionaries, American businessmen are urging their friends to double their gifts to the American Bible Society—for 130 years a nonprofit organization.
5¢ will pay for a portion of the Scriptures. 20¢ will buy a New Testament, and 50¢ will place a copy of the complete Bible in the hands of someone who is starving for God's Word.

Rock Creek Club Meets With Mrs. H. Newberry

The Rock Creek Club met with Mrs. Hobart Newberry on Sept. 16, it was reported this week by the club reporter.

Members present were: Verna Allison, Florence Fitzgerald, Margaret Frizzell, Mrs. W. W. Reid, Eula Shelton, Ruth West and the hostess.

One quilt was completed during the course of the meeting.

The next club meeting will be held in the Rock Creek school house on September 23rd with Mrs. Florence Fitzgerald as hostess.

Penguins swim 100 miles a day without exerting themselves.

Helping Hand Club Has Meeting In Calloway Home

The Helping Hand Club met Thursday with Mrs. L. A. Calloway.

After an enjoyable afternoon refreshments were served to mesdames U. D. Brown, Edwin Crass, F. A. Fisch, Hollie Francis, Betty Hodges, Alva C. Jasper, P. D. Jasper, Jack Jowell, Frank Mercer, N. C. Mercer, Aubrey Rowell, Scott Smith and Wade Steele.

The next meeting will be with Mrs. Edwir. Crass.

The nearest star known is Proxima, in the southern constellation of Centauri. It is a faint star in the tenth magnitude and is 4.3 light years from the earth.

First Regular Meet Held Sept. 4th by Local Study Club

The March of Time Study Club had their first regular meeting of the year on September 4th in the Red Cross Room of the courthouse.

The club chairman, Mrs. Tony Burson, gave the welcoming address and reminded club members of the opportunities the club has to offer. The club's course of study, "Contemporary Literature", was presented by Mrs. D. T. Northcutt, after which Mrs. True Burson discussed the Constitution and By-Laws.

The next meeting of the club will be on September 18th when the program will be poetry.

Difference Between Broiling and Frying Clarified by Expert

Cooking by panbroiling and panfrying are two distinctly different methods. Though both are accomplished with the use of a heavy frying-pan, each has separate advantages, according to Reba Staggs, home economist.

Panbroiling is a method akin to broiling. The same cuts of meat are suitable for both, though it is when the cuts are thinner that panbroiling is used. This method is also very practical for a few chops or a small steak.

In panbroiling, the frying-pan may or may not be heated. The pan is often rubbed with fat before the meat is cooked, with the thought that this will prevent it from sticking. However this is not necessary, because the fat cooked out of the meat will prevent sticking. As it cooks, the fat is poured from the pan. This is where the difference lies, for in panfrying the fat is left in the pan. The meat is turned frequently so that it cooks evenly. To test for doneness, cut a small gash close to the bone and note the color of the meat.

The following cuts are suggested for panbroiling by Miss Staggs: thin beef steaks, beef patties, lamb chops and patties, smoked ham slices, Canadian-style bacon and bacon. Frying, on the other hand,

Roots of Culture Good Taste THEN and NOW

SEPTEMBER - BACK TO SCHOOL AND COLLEGE

PLATO ESTABLISHED THE FIRST REALLY FREE 'ACADEMY.' 'ENDING 'GILDED' YOUTHS WERE SERVED BY BEAUTIFUL SLAVE GIRLS. EASY TO GO BACK TO SCHOOL THEN!

NEWTON STUDIED IN A TURRET ABOVE TRINITY COLLEGE, CAMBRIDGE. HIS BACK-TO-SCHOOL GIFTS WERE SCIENTIFIC INSTRUMENTS: WATCHES, SCALES, TELESCOPES, ASTROLABES... ALL HIGHLY EXPENSIVE THEN.

TODAY, 'BACK TO SCHOOL' STILL MEANS PRESENTS, RANGING FROM CLOCKS, WATCHES, PENS, PENCILS, TO COMPACTS AND TRAVELLING CASES.

1900'S COLLEGE GIRLS WORE FLEUR-DE-LIS WATCHES, SWORD-HILT 'KIAK' DAGGERS. MALE UNDERGRADUATES SPORTED HIGH-BUTTON SHOES, HEAVY WATCH KEYS, DIAMOND-CIRCLED SAPPHIRE PINS.

means to cook in fat. Fat is added to the pan. In panfrying, the fat, as it accumulates, is not poured from the pan. The meat is usually floured before it is cooked by this method. It is then browned. The temperature is reduced and the meat is turned occasionally to insure even cooking. This method of cooking thinner cuts of meat, breaded meat cuts and some of the slightly less tender cuts is a popular one principally because of the appeal of the flavor of the meat which has been browned in fat. It's a good method for cooking veal steaks and chops, liver, and the more lean thin cuts of beef because it supplies fat to the meat.

Cripple Children's State Convention to be Held Sept. 29-30

Nationally known authorities on crippled children's work will be among the speakers at the Texas Society for Crippled Children's state convention to be held at the Adolphus Hotel in Dallas, Sept. 29-30.

Although all phases of crippled children's work will be covered during the two-day convention, special emphasis will be placed on care and treatment of the cerebral palsied.

"Since the Texas Society for Crippled Children adopted a special program for the cerebral palsied child, tremendous strides have been made in carrying out the program," Roscoe L. Thomas, President, said. "Within the year, Dallas, Fort Worth, Houston, Lubbock, Waco, San Antonio, Wichita Falls and Texarkana have inaugurated programs for pre-school care and treatment."

Leading the list of distinguished speakers will be Dr. Temple Fay, director of the Neuro-Physical Rehabilitation Center, Philadelphia. Dr. Fay will speak Monday night on "Importance of Pattern Movements in Rehabilitation of Cerebral Palsy Patients," and on Tuesday will summarize the program, illustrating his talk with a motion picture.

Lawrence Linck, executive secretary of the National Society for Crippled Children and Adults, will speak on the national cerebral palsy program. Roscoe L. Thomas, Dallas, will speak on the state program. Parents' organizations of the cerebral palsy group will take part.

Registration will take place Sunday afternoon and Monday morning. The first session will open at 9 a. m.

The Honorable J. Frank Wilson, United States congressman, will give the welcoming address.

Chemurgy, alliance of chemistry and agriculture, will be on display in Memphis Oct. 2-4 for the gala Cotton, Chemurgic and Ceramics Carnival.

An American company may install propane equipment in the municipal gas plants of Paris and 17 other French cities.

Czar Nicholas first applied the term "sick man" to Turkey in 1884.

There are 34 miles of railways in the District of Columbia.

FARM MARKET--

from Europe for relief supplies. Sorghums gained around 25 cents per hundred pounds at Fort Worth and Galveston, and sold Friday at \$3.82. Yellow corn rose 10 to 15 cents per bushel to sell at \$2.65 and white corn \$3.00. Wheat advanced 6 to 7 cents to reach \$2.78.

Both rough and milled rice prices dropped back last week from recent record levels. Most feed advanced sharply, while hay remained firm. Farmers' stock peanuts sold at support prices, and shelled peanuts found little demand at 16 cents. Texas fall wool sold actively at 40 to 42 cents, 1 to 4 cents more than support levels.

Cotton dropped sharply following the crop report Monday, but climbed back to close Friday only a little lower for the week. Spot sales increased, and demand continued good for Strict Low Middling and above of 3/8 to 31-32 staple.

Potatoes, onions, and cauliflower strengthened last week at Colorado shipping points. Sweet potatoes loaded in Southern Louisiana at lower prices of \$2.60 to \$2.65 per 50 pound crate of U. S. No. 1 Potatoes. Light receipts met good demand at New Orleans wholesale market, where potatoes and pepper sold strong, Kansas City and St. Louis saw rather slow trading on mostly light to moderate supplies. Potatoes, carrots, beans, and tomatoes last found good demand at firm prices.

LEGAL NOTICE

Notice is hereby given that the City of Silverton, Texas, at its office in Silverton, Texas, will on Monday October 6th 1947, at 8:00 P. M., receive sealed bids for the installation and furnishing of materials as outlined below. The contractor shall have available materials to complete work within sixty (60) days from date of bid. Materials required:

- 2200 ft. Pipe, 8" C. I. 150 Lb., with teagle mineral lead joints.
- 18 ft. Pipe, 6" C. I. 150 Lb.
- 1 ea. Coupling, Dresser 8"
- 1 ea. Check Valve 8"
- 2 ea. Bends, 8", 45 degree, bell & spigot
- 2 ea. Plugs, 8"
- 1 ea. Reducer S. E. B., 8" X 6"
- 1 ea. Tap-TEE, 8" X 2"
- 2 ea. Cross, 8" X 8"
- 3 ea. Tee 8" X 6"
- 2 ea. Gate Valve, 8"
- 2 ea. Boxes, Valve for 8" Gate Valves.
- 1 ea. Gate Valve, 6"
- 2 ea. Fire Plugs, standard steamer connections
- 1 ea. Deep well turbine pump with Electric Motor

Each bid must be accompanied by certified check for 5% of bid. The City of Silverton reserves the right to reject any or all bids.

Signed J. E. Minyard, Mayor, City of Silverton, Texas. ATTEST: Signed M. K. Summers, M. K. Summers, Secretary, City of Silverton, Texas.

Souvenir Contest In State Fair Creates Interest

Widespread interest in the forthcoming Souvenir Contest being sponsored by the State Fair of Texas is reported this week by Fair officials, who say letters from all over the Southwest are flooding the Fair offices requesting entry blanks.

Descriptions by interested Texans of their treasured glass souvenir vases and dishes, metal or-

naments, and old clippings and printed programs promise to make competition in the contest keen and the display of the rare souvenirs an exhibit which will interest Fair visitors.

Souvenirs may be entered under one of three categories: glass and metal, printed, and miscellaneous. All must bear an inscription State Fair of Texas and the year they were obtained at the State Fair. Entry blanks may be obtained by writing Director of Special Events, State Fair, Dallas.

Export of American production "know how" may yet be an important key to restoring the British and European productivity needed to halt runaway prices at home. There can be no question that export demands have helped prolong and intensify many shortages and have boosted prices in this country. Increased, more efficient production in Britain and Europe is the best way to reduce abnormal export pressure and create a more normal price situation at home. The feeling is growing that Europe needs to be taught how to make practical use of our dollars to revitalize her faltering production facilities both in industry and in agriculture.

To make our dollars mean more than "out-right gifts" many authorities believe that a vast pool of American agricultural and production talents will have to be given the job of overseeing our loans and seeing that Europe uses our money efficiently to the best advantage.

WORLD FOOD FUTURES—Electronic principles and systems, now being introduced for processing, shipping and storing of foods, are furnishing one answer to widespread droughts and world food shortages and hunger. Even now, said Ray R. West, manager of the food division of Brown Instrument Company, new cooking, canning, refrigerating and other food conserving instruments and systems are being installed by processors, handlers and retailers. The new systems, he said, will mean elimination of at least a large part of an estimated loss of 50,000,000 tons of food in transit. Other losses are also being erased through use of new electronic devices, refrigeration and air-conditioning being increasingly installed, he said, by Brown and its parent organization, Minneapolis-Honeywell Regulator Company.

THINGS TO COME — Prices may be going up but escalators are coming down—Westinghouse has developed a new electric stairway costing 30 percent less than current models, weighing 25 per cent less and taking up 10 per cent less space. It is designed for smaller

SUPERVISORS FOR CAF ROCK DISTRICT—Earl I. Cantwell, Chairman, Louie Kitchens, Obra Watson, Pierce White and Bray Cook.

A Swiss watchmaker has almost equaled Dick Tracy's wrist radio by developing a wrist watch alarm. You can pick your spot—any spot except the ones in front of your eyes—and a new spot remover will whisk it away. It is part of a new clean-up kit said to remove 71 different spots or stains, everything from coffee to beer. New portable letter opener opens up to 100 letters per minute without damaging the contents. New trick in children's jump ropes is one that can be adjusted to children's varying heights. Innovation in industrial deodorants is said to actually destroy smells instead of masking them. Record Guild of America promoting use of records for mailing vocal sales messages instead of letters. Idea uses unbreakable discs which fit neatly into large-size envelopes.

DOGGY CUSTOMERS—Before the war canned dog food was a source of extra sales for many food merchants. Around 600 million units a year were being sold, according to government statistics. Now that wartime canning restrictions have been lifted and the canine's version of a banquet is back on retail shelves, what is its sales outlook? To get an answer to that question American Can Company recently had a survey made—a sort of dog census. It indicated a tremendous potential market, with some 17,700,000 animals making up the nation's dog's population, about one to every eight persons. A more immediate market was indicated in the 2 1-2 million dog owners who already have returned, or who plan to return, their pets to a balanced canned food diet.

BITS O' BUSINESS—Total cost of 40,000 miles of new highways planned or in construction is approximately \$20 billion dollars, a sum approximating the entire national debt 15 years ago. More than 3,500 companies have entered their annual reports in the yearly competition sponsored by the Financial World. Easing of installment buying restrictions shot credit furniture sales up 22 per cent in New York stores during July, as compared with a year ago. Cash receipts to U. S. farmers during the first eight months of 1947 totaled more than \$17,000,000,000, an increase of 21 per cent over the same period in 1946. The American worker today receives more purchasing power wages for fewer hours of work than ever before. In 1929 he worked an average 48-hour week for about \$29, which gave him a purchasing power rating of 107, using 1923 standards of living as 100. In June, 1947, he worked an

G. C. Morris, a cooperator with the Cap Rock Soil Conservation District, made a trial seeding of sand lovegrass on his farm last week. Mr. Morris, who farms in the Hamilton Conservation Group, had a small acreage he wanted to get back to grass. He planted sudan as a cover crop and the sand lovegrass was sown in this sudan cover.

Gerald Smith is making a trial pasture planting of mixed grasses this week. Mr. Smith, who farms in the Scheid Conservation Group, has a small pasture plot next to a creek that he is planting.

Leroy Hamilton, a farmer in the Gasoline Conservation Group, had the local District technicians run terrace lines on a 13 acre field this past week.

Tony Burson had a diversion staked off by the District. Mr. Burson plans to build this diversion to keep water away from his buildings.

A typographic survey on the Reed Lawson farm in the Gregg Conservation Group was completed recently. Mr. Lawson, a cooperator with the local District plans to drill a well soon and put this place under irrigation.

J. B. Whitely, farming in the Rucker Conservation Group, reports that he has planted some Austrian Winter peas and hairy vetch for a winter cover crop. Rye was planted with these legumes to furnish more grazing this winter.

FARM FACTS WORTH KNOWING Q. What standards must be met for an egg to make top grade? A. Top grade eggs must meet the following standards: 1. Clean and unbroken shell. 2. Well centered yolk with outline plainly defined. 3. Clear and firm white. 4. Air cell 1/2 inch or less in depth. Q. Is 24-D effective against Canada thistle? A. Yes, although tests show that it usually takes several applications to effectively rid pasture of Canada thistles. Q. What results may a turkeyman on a good program expect? That is, how many birds should be raised to market age, how many weeks before they are marketable, and approximately how much feed will it take per pound of turkey meat produced? A. Many turkeymen are getting the following results on the Purina Plan which stresses good breeding, good feeding, careful sanitation, and sound management: 1. Market 90% to 95% of all turkeys started. 2. Sell 90% to 95% of all birds as top grade. 3. Standards ready for market at 24 to 26 weeks and Broad Breasted ready at 28 to 30 weeks. 4. Standards average 16 to 18 lbs. at market and Broad Breasted average 20 to 24 lbs. 5. Produce a pound of turkey meat (live weight) for each 4 to 4 1/2 lbs. feed consumed. Q. If colostrum is frozen, how long may it be kept and still be good for feeding young calves? A. If freezing equipment is available, colostrum can be held for at least a year without losing its value. Tests at the Vermont Experiment Station showed that a calf will thrive on colostrum from cows of various breeds. Send your questions about livestock or poultry problems to FARM FACTS, 815 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

ARMY NEWS FROM HEPE & THERE

Lauds Health Move A world wide, concerted strategy of attack on cancer and other vital phenomena will speed the conquest of many health problems, Major General Raymond W. Bliss, the Surgeon General of the Army, stated recently. His comment followed President Truman's announcement on the availability of radio-isotopes for research in other countries. Army Reserves The War Department has recently announced that individuals possessing professional, technical, and special qualifications in fields of engineering and science may now qualify for direct appointment as a specialist in the military Intelligence or Army Security Reserve. The policy provides for making appointments direct from civilian life provided such applicants are found to be professionally or technically qualified in a civilian specialty immediately adaptable to the use of military intelligence and for whom suitable assignments exist. Educational Institutions The Signal Corps during the past year, has initiated donations of communications equipment for training and educational purposes to approximately 3,500 schools and educational institutions representing 48 states and the District of Columbia. Material amounting to more than \$6 million has been delivered and many additional requests are in process of being filled. Those contributions are made under a War Department Regulation which authorizes the Chiefs of Technical Services to donate cer-

tain classes of excess material to educational institutions.

National Guard New York led with 12 National Guard units receiving Federal recognition during the week ending September 1, and Texas was second with 6 units. The Chief of the National Guard Bureau has announced. Oklahoma is the closest to complete organization with 107 ground units of 108 allotted and 9 air units of an allotment of 10 Federally recognized. Approximately 47% of the new National Guard has been organized in a little over a year and there are now 2,994 ground & air units receiving regular training pay. As of August 15 strength of the National Guard has reached 111, 905 officers and men.

CEMENT PRODUCTION Texas is doing its share toward breaking the tight building material "bottleneck" by accelerated production of necessary items. One of the primary indications of this activity is the increased cement production for the State, according to reports of the University of Texas Bureau of Business Research. The June-to-July hike of 4 per cent conformed to seasonal patterns and pushed the July total to 1,089,000 barrels for a 12 per cent increase over July production last year. The Bureau's index now reveals that production is double pre-war levels.

Weekly SURPLUS NEWS WAA

A rapid-fire auction of nearly a quarter million dollars worth of newly released surplus consumers' goods will be open to the public at the Fort Worth Quartermaster depot September 23 and 24. It will be WAA's second oral auction disposal of this type in the Texas area. Goods will be offered in approximately 70 lots containing wooden army lockers, office furniture, cotton sheets, wool trousers, cafe supplies, a sewing machine and assorted miscellany. Inspection is scheduled at the depot from 9:00 a.m. to 3:00 p.m. September 23, and the floor bidding will start the following morning at 9 a.m. The sale will provide additional storage space in the army's regional program for repatriation of overseas fatalities.

Clearance of four warehouse buildings from Hereford Prisoner of War Camp at Hereford, Texas, is expected to result from the government's announced public sale of the structures. Priorities close September 22 after which the general public will be permitted to place bids until October 3, according to officials of the Office of Real Property Disposal of the Grand Prairie office of War Assets administration.

The Customer Service Center of the Grand Prairie WAA office is offering pipe and machine tools in a fixed price sale to priority and commercial groups until September 26. Included in the offering are radial and press drills, high duty grinders, hack saws, pipe benders, rivet machines, lathes, drill bushing and micrometer check pilots. The equipment offered is described as being standard in make and readily adjustable to commercial use and for in-

struction purposes in schools. Eighty-three items of surplus machine tools as outright gifts to qualified institutions, including schools and colleges, now stored in Dal-6 WAA warehouse at Grand Prairie, await distribution through the Priority Claimants Division. Application should be made to this division before September 29. Other items to be disposed of in like manner are located at Todd-Houston Ship Yard and the WAA warehouse located at 2600 Clifton Drive, Houston, Texas.

are expected, though the time varies with the variety. The plants should be watered during dry weather, and if they look weak and have light green leaves, they are likely in need of help. Miss Hatfield recommends liquid manure or a feeding solution made of a heaping tablespoonful of a complete fertilizer such as 5-10-5 to a gallon of water. It is more important to have a weak fertilizer applied at frequent intervals than a heavy one infrequently.

State Highway police will assist West Texas peace officers in patrolling highways into Memphis and that city's streets Oct. 2-4, when thousands are expected to witness the first annual West Texas Cotten, Chemurgic and Ceramics Carnival.

This Emblem Identifies Great Trucks

Dear Sir! We're sincerely grateful for our Customers and Friends

Demand for International Trucks has been greater than supply. Our customers and friends know that. And our customers and friends have been patient and cooperative.

But a few people seem to think that what is called a seller's market is a bed of roses for the seller. Believe us that just isn't so. Our business is in this community; and when things pile up so we can't take care of our customers and friends as fast as they'd like to be taken care of, we're not in a spot that we enjoy at all.

But there are two things we're proud of: One is the service maintenance we've been able to furnish to keep International and other trucks on the job and to hold operating costs down. The other is the fine cooperation we've had from customers and friends. Our customers and friends have been mighty understanding; and we want to say, publicly, right now, that we deeply appreciate the fine spirit they've shown.

We urge truck operators now to do two things:

1. To continue to use our truck maintenance service for trucks now in operation. That way they'll get best results until new trucks are delivered.
2. To place with us promptly the specifications for the new trucks they need. That way they'll help us make the earliest deliveries possible.

The OLD POTATO HOE

Started a 10 MILLION DOLLAR CROP

Ten million dollars is a lot of potatoes! And that's the value of the potato crop in the Panhandle-Plains-Pecos Valley Area.

The old potato hoe has been put in the shade by modern methods of farming... including low-cost dependable electric irrigation.

Today... our potato crop is an important industry in the area we serve.

We have so much confidence in the potato industry—and all other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and better living—electrically—to everyone!

SOUTHWESTERN PUBLIC SERVICE COMPANY
23 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Now—you can have

Power-Line Voltage

WITH THE NEW 110-VOLT D.C. WINCHARGER

And—you can use "standard" appliances! Those "standard," "city-type" appliances that operate on universal current—that is, on either 110 volt A.C. or 110 volt D.C. electricity, such as radios, vacuum cleaners, toasters, food mixers, coffee makers, for example—can be operated on the new 110 volt Winco Power Wincharger.

Also, most motor-driven appliances, such as washing machines, water pumps, milkers, separators, drills, grinders, etc., can be bought for 110 volt D.C. operation. No longer do you have to buy special, "farm-type" appliances, except for hermetically-sealed refrigerators and automatic, thermostatically-controlled heating appliances. And even in the case of these appliances, refrigerators with "open-type" compressors and non-thermostatically-controlled irons are available. Simple provision can be readily made for operation of radio-phonograph combinations.

Furthermore, you can use standard 110 volt house-wiring with the new 110 volt Winco Power Wincharger. Same wire, at the same cost, as in town.

The 110 volt Winco Power Wincharger provides sufficient electricity for a well electrified farming operation—much more electricity than the average R.E.A. customer uses (based on latest R.E.A. annual statistical report).

And—economical—no monthly "electric bills"—power from the free wind.

(1) "Standard" appliances. (2) Standard wiring. (3) Plenty of electricity. (4) Economical. (5) Available now!

So—Why wait?

SAVE 30% On Your WINCHARGER 110-Volt Battery

WINCHARGER Corporation
BLOOMINGDALE, ILL.

Leading Scientists Tell of Discoveries On Animal Disease

Assurance that the United States will continue to be the world's best place to raise livestock came from Cincinnati during the 84th annual convention of the American Veterinary Medical Association.

guarding the health of farm livestock and pet animals. Following are some of the facts that were brought out at the convention.

Animals Will Benefit From Atomic Bombing Implications of the atomic bomb, science is showing how, properly used, atomic principles can help to build a better world.

Newcastle Disease search workers reported that they had succeeded in preparing vaccines that gave chickens complete protection against infection with Newcastle disease.

widespread poultry infection. Other research workers at the convention told of improved methods of diagnosing Newcastle disease on the farm and in the laboratory.

Promising A drug with a ten-syllable name may meet the need for an effective means of treating brucellosis. Up to now various drugs have been tried with variable success.

Foot and Mouth Disease Dr. M. S. Shahan, co-director of the foot and mouth disease eradication program in Mexico, showed that there is more to handling this disease in Mexico than most people think.

Advices Care To Make Most Of Bacon

Bacon, like any other meat, demands proper care and attention to make the most of its food value, says Reba Staggs, cookery authority.

Careful storage of bacon is very important especially in warm weather, says Miss Staggs. It should not be allowed to lie on the shelf or table in a warm kitchen.

A good rule for every homemaker is never to take the bacon from the refrigerator until ready to use it. Then as soon as the amount needed has been removed, the rest of the bacon should be returned to the refrigerator immediately.

Miss Staggs states further that best results are obtained by starting it in a cold frying-pan. Heat should be kept low, and the bacon turned frequently in order to be evenly cooked.

One other reminder for homemakers is: Be sure to save bacon drippings. These should be covered and stored in the refrigerator as soon as they are cool.

Regardless of what your cotton harvesting program may be, there's a profitable place for a John Deere Cotton Harvester on your farm. It will mean "money in the bank" for you as a once-over harvester...

LABOR-SAVING

HARVESTER

Based on 1946 labor costs, the John Deere No. 15 Two-Row Cotton Harvester will save \$30.00 or more per bale over hand pulling or snapping of cotton in any area where a mechanical stripper can be successfully used.

Put a profit-stretching John Deere No. 15 Cotton Harvester to work harvesting your crop and you'll permanently eliminate the uncertainties of hand labor. Stripping two forty-inch rows at a time after the leaves have been removed by frost or a defoliant, the John Deere does a once-over job saving more bolls than the average hand puller.

With the No. 15, you can make short work of your harvest-have all your cotton to the gin before bad weather causes losses and lowers the grade.

Regardless of what your cotton harvesting program may be, there's a profitable place for a John Deere Cotton Harvester on your farm. It will mean "money in the bank" for you as a once-over harvester...

CARD OF THANKS

We wish to thank our friends and neighbors for their many deeds of kindness during the illness and passing of our beloved husband, father and grandfather. We especially want to thank Mr. and Mrs. Tom Bomar for opening their home to us and the food sent in. We also want to thank everyone for their beautiful floral offerings and for every word of sympathy. May God's blessing be yours.

Mrs. J. Kendrick, Mr. and Mrs. Ernest Kendrick & Sue, Mr. and Mrs. G. E. Harris and Family, Mr. and Mrs. W. F. (Slats) Kendrick, Mr. and Mrs. Lip Kendrick & Family, Mr. and Mrs. Pete Kendrick, Mrs. Johnnie Weaver

Millions of sea birds have been victims of oil dumped on the water by ships; the oil film on feathers making it impossible for the birds to rise from the water.

CARD OF THANKS

We wish to take this means of expressing our heartfelt thanks to everyone who in any way assisted us during the illness and death of our dear wife and mother. Your kind words of sympathy were a means of lightening our sorrow. We also want to express our thanks for the beautiful floral offerings. May God Bless you all.

Use Discretion when Selecting Your New Washing Machine

Buying a washing machine is a major problem with homemakers these days with so many makes and models from which to choose, says Mrs. Bernice Claytor, home management specialist for the Texas A. and M. Extension Service.

For instance, buying an automatic washer would save time and trouble, and a good many other pieces of equipment, but unless a good supply of both hot and cold water, with plenty of pressure, is available, the automatic washer would not be satisfactory enough to justify the expense. So the question to consider is whether the investment is worth while, depending on how big a part of the work washing is and how much the saving of time and labor would mean.

If a nonautomatic or "standard" type washer is chosen, the next choice is between a machine with a wringer and one with a spinner, and depends largely on what the homemaker wants. Wringers and spinners can do equally good jobs. A spinner takes care of a whole tubful of clothes at once; with a wringer the clothes are fed in piece by piece.

Many motors come with sealed-in lubricant and need no re-oiling. One desirable feature on a motor is a protective device that cuts off the electric current if the machine is overloaded.

Capacity is a consideration, too, and may be measured by the number of pounds of clothes that can be washed at one time. In standard size machines, designed for ordinary family washings, this ranges from 6 to 10 pounds.

Check the washing mechanism, whether to get the agitator, cylinder, or vacuum cup type. The results you get will depend just as much, Mrs. Claytor says, on the way you use your washer as on the washing mechanism.

Other features to check are the control levers to see if they are conveniently placed, casters that roll easily, water line easy to see, and a means of grounding the washer frame to avoid electric shock.

Then, whether to get the pump or gravity drain, a tub cover, a-tache or removable, adjustable or stationary legs, a cord reel or cord holder, will be a matter of choice.

The specialist recommends knowing the washing machine, checking the voltage and current, and following manufacturer's directions for the care of it.

Farm implement manufacturers have announced through dealers they would show 1948 models at the Memphis Cotton Carnival, Oct. 2-4.

The addition of 1.5 per cent or less of the rare element columbium to copper and soft brass will help preserve the hardness they acquire by cold-working even when exposed to temperatures that would ordinarily soften them again.

Canada's Gaspé Peninsula was discovered by Jacques Cartier in 1534, when he landed and claimed all of Canada for France.
