WASHINGTON NEWSLETTER REPRESENTATIVE GENE WORLEY

ere's some good news for people of the Panhandle and especially for veterans. The Veterans Administration at Washington finally agreed to recommend the Veterans Hospital at Amarillo from its present beds to 500 beds. It has been an uphill struggle to secure this desirable action but it is well worth the time and effort spent. This is YOUR Hospital and the attention will greatly relieve the crowded conditions. In many cases veterans from the Panhandle have been unable to secure badly needed medical attention at the Amarillo Hospital and have been compelled to make long trips to other Veterans Hospitals.

would like to thank the American Legion, Veterans of Foreign Wars and other groups over the Panhandle and neighboring states, together with a number of substantial individuals who have lent invaluable aid in our efforts to secure enlargement of this hospital. The resolutions and letters have been most helpful to me in preparing data to support our intentions that the Hospital should be enlarged.

Last week I introduced legislation providing for 350 additional beds and other necessary buildings and equipment and authorizing an appropriation of \$3,000,000 for construction. With an economical Congress, the actual appropriation of the money for the construction of these additions is probably difficult, but I expect to take this legislation directly to the Veterans Administration, Bureau of the Budget, and President himself and make every effort to have it included in a year's appropriation. To anyone not familiar with legislative procedure, this is somewhat unusual but will be faster than the regular procedure. I feel the efforts of our cause justify every effort and with the continued help and loyal cooperation of the American Legion, Veterans of Foreign Wars and all other interested parties, I hope the addition will soon become a reality.

Silverton Voters Elected Mayor And Aldermen Tuesday

Mayor and two aldermen came up for election in Tuesday's election. Henry Price filed for the place on the ballot for the office of City Mayor. No one filed for a place as alderman. 150 votes were cast in the election, and Mr. Price received 85 for mayor. The present mayor, "Doc" Minyard, did not ask to be re-elected to the office.

For alderman, Virgil Ballard received a majority vote of 85. Several others received a good vote, but no one received a majority. Just what procedure will be taken will probably be decided at the next meeting of the City Council. Besides Mr. Ballard's name, there were thirteen other names written in for aldermen.

Following are the names and votes received:

For Mayor—Henry Price, 85; Mike Mason, 21; "Doc" Minyard, 42; Seaney, 1.

For Aldermen—Virgil Ballard, 85; Mike Mason, 11; Douglas, 58; Ray C. Bomar, 25; John McCain, 37; Hugh Stodghill, 2; Dillard Scott, 21; Roy Teeter, 1; Roy Coffey, 2; Alvin Redin, 3; Sid Richards, 2; Hugh Nance, 45; Walt Perkins, 1; and Leroy Shipman, 2.

Variety Girl Billed at Palace Theatre for April 13 and 14th

Paramount throws the book at you in this one. It has gathered together practically every star and feature player on its lot, crowded them into one show, and then topped this offering by showing off a couple of its newcomers to good advantage.

Dedicated to, and to be sponsored by, Variety Clubs International, "Variety Girl" is an imaginative biography of the baby girl which was found abandoned in a theatre and adopted by a group of theatre men—this group later spreading across the U. S. in Variety Tents.

Because of its Variety Clubs angle and because the picture has Crosby, Hope, Cooper, Millard, Ladd, Stanwyck, etc., "Variety Girl" is practically pre-sold. Regional Variety groups will publicize the picture and an audience hasn't been found yet that can resist an all-star omnibus production.

The plot of the picture is a rather slapstick affair with a very hammy Amber La Vonne (Olga San Juan) being mistaken for Katherine Brown (Mary Hatcher), the Variety Girl, when both come to Hollywood to carve out careers. Katherine would have gone ahead fast because of her powerful friends, but with Amber, a pushy, self-centered snob, posing as the Variety Girl, Katherine's chances are nil.

Late in the show the identities are straightened out and, when she gets a chance to play straight, Mary Hatcher shows genuine talent.

The appearances of the stars are necessarily brief. But Hope and Crosby are around for a good deal of footage, contributing a song and dance, and Alan Ladd and Dorothy Lamour are in for a song sequence. Paulette Goddard takes a bubble bath, William Bendix provides some comedy relief, and there are glimpses of Diana Lynn, Sonny Tufts, Elizabeth Scott, Burt Lancaster, Cass Daley, Howard Da Silva and others, and a good drunk scene by Billy De Wolfe. On the production side, Cecil B. DeMille, Mitchell Leisen, Frank Butler and George Marshall appear.

A special preview audience gave the biggest hand in the show to Pearl Bailey, a young Negro singer with a lazy, comic style of singing. Other applause went to Spike Jones and his orchestra.

Carrie Dell Watters, who is attending Wayland College, Plainview, visited with homefolks over the week-end.

SAME FIGHT, NEW LOCALE—Conclusion of committee hearings on tidelands legislation shifts the issue to the floor of House and Senate, with these Texans out in front in the states' insistence on a clear title to submerged coastal lands. Shown as the hearings closed in Washington are, left to right, front row, Sam Rayburn, Senator Tom Connally and Congressman Lyndon Johnson, Austin; second row, Congressman Wright Patman, Texas; John D. McCall, Dallas, member of the Texas Bar tidelands committee; Congressman J. M. Combs, Beaumont, and Robert Lee Bobbitt, San Antonio, chairman of the State Bar committee.

Briscoe County People Appointed On Committee

Senator James E. Taylor, Chairman of the Gilmer-Aikin Committee, has notified the following persons of their appointment to membership on the Briscoe County Advisory Committee to study Education. At the time of notification, each member was mailed a copy of the Committee handbook, Let's Look at Our Local Schools in Texas as a guide to the county-wide study of the public school system.

The names of the persons appointed to membership on the local committee were submitted to the Gilmer-Aikin Committee by local service clubs, civic organizations, and local school officials.

These committees are being established in every county in Texas primarily for the purpose of making a careful study of the local schools to ascertain the facts concerning the local schools for the benefit of the local citizens. Through the cooperative study, these facts, together with recommendations, can be transmitted to the Statewide Committee for consideration in making recommendations for improving the public school system of Texas.

W. F. Talley, Silverton, School Executive; Roy Brown, Silverton, Real Estate; Rev. G. A. Elrod, Silverton, Minister; Hugh Stodghill, Silverton, Hardware merchant; Bert Grundy, Quitaque, Merchant; J. T. Persons, Quitaque, Farmer; Mrs. Dora Hawkins, Quitaque, Primary Teacher; Joe W. Bailey, Quitaque, High School Principal; Leon Middleton, Quitaque, City Water Superintendent; Mrs. Elva Rice, Quitaque, Teacher; E. P. Lewis, Quitaque, Principal Elem. school; Mrs. Irene Kuykendall, Quitaque, High school teacher; Mrs. Gene Berry, Quitaque, Homemaker; Mrs. Bill Woods, Quitaque, Homemaker; R. H. McAdams, Quitaque, Superintendent of Schools.

The people are urged to bear with the committees in this endeavor, as the average citizen can readily understand, that it is much more complicated to work out a public building plan to the satisfaction and interest of everyone, than it would be if an individual were making the investment for himself.

Silverton is gravely in need of a hospital and it is hoped that the building can be completed this year.

Briscoe County Produced 5974 Bales Of Cotton In 1947

Preliminary figures show the 1947 cotton production in Briscoe County as 5974 running bales, Ray L. Miller, Dallas Regional director of the Department of Commerce Field Service has announced. The figures were compiled by the Census Bureau of the Department of Commerce and final statistics will be released later, Dr. Miller stated.

The 1947 cotton production in Texas was 3,306,882 running bales as compared with 1,635,178 bales ginned in 1946. Lubbock County produced 180,935 bales which was more than three times the county's 1946 production.

The Census figures revealed that Lamb County was in second place in 1947 with 115,162 bales. In third place was Cameron County with 111,188 bales compared with 87,734 bales in 1946.

Other counties of the State which produced more than 50,000 bales in 1947 with the 1946 production figures are as follows:

Bailey, 52,851-2,650; Collins, 57,213-42,407; Crosby, 69,863-19,758; Dawson, 95,540-25,597; Ellis, 73,494-48,361; El Paso, 87,897-85,917; Hale, 60,314-21,689; Hockley, 106,063-20,253; Lynn, 106,027-18,340; McLennan, 54,618-31,047; Nueces, 64,295-43,339; Willacy, 60,182-66,825; and Williamson, 69,600-34,805.

L. A. McJIMSEY ENTERS RACE FOR COMMISSIONER

I wish to announce that I have decided to come out for County Commissioner in Precinct No. 1. I feel that I know the duties of a county commissioner and if the people see fit to elect me I will assure them that every dollar of the taxpayer's money will be applied where it rightfully belongs.

Your support and influence will be appreciated.

SPRING CLEAN-UP WEEK RUNS THRU APRIL 4-10

The rising cost of the weekly grocery bill is partly the fault of fire, said Marvin Hall in asking rural communities to plan fire prevention activities during Spring Clean-Up Week, April 4-10.

"Fire has crippled the efforts of needed food production not only for this country but also for the starving in Europe," the State Fire Insurance Commissioner commented.

"In Texas every year about 250 people lose their lives in fires. Homes, household goods, barns feed, machinery and livestock, valued at six and one-half million dollars is the State's annual toll of farm property taken by fire. These losses are double losses to the farmer who must replace manure, buildings and farming equipment, plus the loss of valuable time."

In several Texas communities rural fire fighting groups have been organized and equipment supplied, the Commissioner said. However in the overwhelming majority of rural areas, there is no protection against fire.

"Clean-Up Week would be an excellent time for farmers to meet to discuss and act on possibilities for furnishing their area with modern fire protection," he added. "Jack county farmers have set an excellent example of what a group can do for fire protection with their purchase of equipment and organization of fire fighters."

He emphasized that on farms, as elsewhere, the best time to stop fire is before it starts. Hall called upon each family to check their homes and outbuildings for fire hazards.

As heating equipment and defective chimneys cause the most farm fires, he urged that these things should be carefully checked and if defects are discovered that they be repaired or replaced immediately. Flues and chimneys should be cleaned.

Quarter Back Club Met Monday Night at School Auditorium

Several members of the Quarter Back Club met at the school building Monday night and discussed ways of entertainment and the possibilities of another show in near future.

A vote by those present opened the way for the entertainment committee to make contact and arrangements for a show as soon as they find something they believe will go over locally.

The committee in charge of preparing and seeding the local football field are busy with details, and may come up with a plan soon. Material is hard to find and the men have a life-size job on their hands to assemble enough equipment for this project.

GEORGE JONES BUYS SILVERTON CAFE FROM MRS. MCCAIN

Mr. and Mrs. George Jones purchased the Silverton Cafe this week from Mrs. McCain and took over the management of the business. They have secured the services of Mrs. Albert Rowland as cook.

Mr. and Mrs. Jones will be pleased to have the people of the community visit them at any time. They promise good food and drinks and courteous treatment to everyone. The cafe will remain in the former location.

CITY WILL HAUL TRASH FRIDAY AND SATURDAY

City Fire Marshal M. K. Summers is calling attention to the City Clean-Up for the week stated that the City would send a truck to haul away trash and rubbish if people wishing this service would give his office a call.

The Clean-Up campaign, April 4-10, will close Saturday, but the city is anxious to cooperate with everyone in keeping the streets and allies cleared of all trash and rubbish, and will send a truck where and when needed in such work.

Texas Tech Presented Hereford Calf From South Plains Show

A Hereford calf, Sir Spencer X, has been presented to Texas Tech College by Hemphill-Wells company through Spencer Wells, former college director and part owner of the company, Dean of Agriculture W. L. Stangel announces.

The calf is the tenth that Wells has selected from choice animals exhibited at the South Plains Junior Fat Stock show, Lubbock, and presented to the college. It will be used for class instruction and if it develops satisfactorily will be exhibited at the State Fair of Texas, Dallas, and possibly the Southwestern Exposition and Fat Stock Show, Fort Worth, Dean Stangel said.

Keeping Up The Fight . . .

Some men high in the food industry have recently forecast that there will be a decline in the general retail price level in the relatively near future. And organizations dealing in other kinds of retail commodities have also sounded hopeful notes.

These forecasts must necessarily be taken with a grain of salt, for the reason that we are living in unpredictable times and any number of things could change the outlook drastically. However, they are indicative of the attention business is giving to the price problem. All over the country, both chain and independent merchants are reporting a substantial percentage of consumers have been forced to cut down their buying. Savings are gone, and current income in these areas is insufficient to purchase more beyond the necessities. And that condition contains a grave threat to the system of mass production and mass distribution of goods which underlies the American standard of living.

It is significant that retailing has often taken the lead in movements to reduce prices and to prevent price increases. It has done this in various ways. First of all, it has voluntarily cut its own profits, and reduced overhead costs to the minimum. Secondly, it has cooperated with manufacturers in seeking means to produce goods of a given quality at a lower cost. Third, it has been a great help to consumers in showing them how to make the dollar go as far as possible.

The next few months will tell whether the peak of inflation has been passed or not. Whatever the answer, intelligent American business will keep on fighting the problem with all the resources it has.

Don't Cry "Wolf" For Effect . . .

There is no danger of the United States running out of oil or gasoline in the foreseeable future. That unequivocal statement was made in mid-March by Don E. Gilman, of the Western Oil and Gas Association.

The facts with which Mr. Gilman substantiates this are of the greatest public interest. Despite all-time record consumption, the total proved oil reserves in this country at the end of last year were nearly 700,000,000 barrels greater than at the end of 1946. And, during 1947, the industry expects to drill 35,000 more wells.

So much for the present. The industry must obviously deal with the possibility that on some future date our crude oil may be largely exhausted, and we may be cut off from foreign fields. Science has produced and is now perfecting the solution to that problem. Oil is hydrocarbon. And hydrocarbons other than petroleum exist in vast quantities in our coal and oil-bearing shale deposits. A proven method exists for converting these solid materials into liquid form. Some authorities believe that such sources of supply may last for more than 2,000 years.

There was considerable misunderstanding of the so-called "oil shortage" in some areas during the winter. In Mr. Gilman's words, "That shortage . . . was dislocation rather than lack. . . There has never been a time when there was not enough oil above ground to meet the nation's immediate demand." The problem is to get the oil where it is needed. And it is a problem which, according to all indications, is being solved.

PUBLICATIONS NOTICE OF ELECTION

THE STATE OF TEXAS:
COUNTY OF BRISCOE :

TO THE RESIDENT, QUALIFIED ELECTORS OF ROAD DISTRICT NO. 5 OF BRISCOE COUNTY, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID DISTRICT AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that an election will be held in Road District No. 5 of Briscoe County, Texas, on the 24th day of April, 1948, on the proposition and at the place more particularly set forth in the election order passed by the Commissioners' Court on the 22nd day of March, 1948, which is as follows:

"AN ORDER"

CALLING AN ELECTION ON THE PROPOSITION OF THE ISSUANCE OF \$12,000.00 OF BONDS FOR ROAD DISTRICT NO. 5 OF BRISCOE COUNTY, TEXAS.

WHEREAS, there has been presented to this Court the petition of Roy Beasley and 30 other persons, representing themselves to be resident, qualified electors of Briscoe County Road District No. 5, who own taxable property in said District and who have duly rendered the same for taxation, praying that this Court order an election in Road District No. 5 of Briscoe County, Texas, on the question of the issuance of Twelve (\$12,000.00) Dollars of Road Bonds, which said petition was heretofore filed in this Court; and

WHEREAS, heretofore on the 1st day of March, 1948, the Commissioners' Court passed an order fixing a time and place for a hearing on said petition, to-wit: March 22, 1948, and directed the County Clerk to issue a notice of such time and place of hearing to inform all persons concerned of their rights to appear at such hearing and to contend for or protest against the order of such election; and

WHEREAS, the County Clerk has heretofore duly executed said notice by posting true copies of said order of hearing in three public places within said Road District No. 5, and another copy thereof at the Courthouse door of said County ten days prior to the date fixed for the hearing, and said notice has also been published in a newspaper of general circulation published in said Road District No. 5, namely, "Briscoe County News", one time, on the 11th day of March, 1948, which was at least five days prior to the date fixed for said hearing; and

WHEREAS, this Court, having met at the time and place set for the hearing of said petition, proceeded to hear such petition and all matters in respect to the proposed bond election, to hear the contentions for and protest against the calling of such election, and it is found by the Court that the said petition is signed by a majority of the qualified electors who own taxable property in Road District No. 5 of Briscoe County, Texas, and who have duly rendered the same for taxation, and that the notice required by law to be given of said hearing has been given; and

WHEREAS, pursuant to the hearing held on said date and from the evidence submitted at said hearing, the Court has determined that the proposed improvements would be for the benefit of all taxable property situated in such Road District No. 5, and that it is desirable and necessary to issue the bonds of said Road District No. 5 in the amount of Twelve Thousand (\$12,000.00) Dollars to construct said improvements, and that said election should be ordered; and

WHEREAS, the Commissioners' Court further finds that the amount of said proposed bond issue, together with all outstanding bonds heretofore issued on the faith and credit of Road District No. 5 of Briscoe County, Texas, will not exceed one-fourth of the assessed valuation of the real property of said District; and

WHEREAS, said Road District No. 5 of Briscoe County, Texas, has heretofore been legally created by Chapter 171, General and Special Laws of the Fortieth Legislature;

THEREFORE, BE IT ORDERED BY THE COMMISSIONERS' COURT OF BRISCOE COUNTY, TEXAS:

1. That an election be held in said Road District No. 5 of Briscoe County, Texas, on the 24th day of April, 1948, which is not less than thirty days from the date of this order, to determine:

"Whether or not the bonds of the said Briscoe County, Texas, Road District No. 5 shall be issued in an amount of \$12,000.00 bearing interest at a rate not to exceed 4% per annum, payable semi-annually, and maturing at such time as may be fixed by the Commissioners' Court serially or otherwise, in not to exceed twenty (20) years from the date thereof, for the purpose of the construction, maintenance and operation of macadamized graveled or paved roads and turnpikes or in aid thereof throughout Briscoe County Road District No. 5; and whether or not taxes shall be levied annually on all taxable property in said Road District sufficient to pay the bonds and provide a sinking fund sufficient to pay the bonds at their maturity."

2. The metes and bounds of Briscoe County Road District No. 5 are set forth in the order fixing the time and place of hearing on the petition for the issuance of bonds which was passed on the 1st day of March, 1948.

3. The said election shall be held under the provisions of Chapter 16, Acts of the First Called Session of the Thirty-Ninth Legislature.

4. All persons who are legally qualified electors of this State and of this Road District who own taxable property in the District and who have duly rendered the same for taxation shall be qualified to vote, and all such electors shall vote in the election precinct of their residence and all voters desiring to support the proposition to issue the bonds shall have written or printed on their ballots the words:

"FOR THE ISSUANCE OF BONDS AND THE LEVYING OF THE TAX IN PAYMENT THEREOF."

And those opposed shall have written or printed on their ballots the words:

"AGAINST THE ISSUANCE OF BONDS AND THE LEVYING OF THE TAX IN PAYMENT THEREOF."

5. The election shall be held at the San Jacinto School house in Precinct No. 4, within said County, and the following named persons are hereby appointed as directors of said election:

E. D. McMurtry, Presiding Judge, Murray May, Judge, Dallas Culwell, Clerk, Woodrow Bice, Clerk.

6. The manner of holding said election shall be governed by the General Laws of this State regulating general elections when not in conflict with the provisions of Chapter 16, Acts of the First Called Session of the 39th Legislature, hereinabove cited.

7. Notice of said election shall be given by publication of a copy of this order in a newspaper published in Road District No. 5 of Briscoe County, for three successive weeks before the date of said election, and in addition thereto, there shall be posted copies of this order at three public places in said district, and one at the Courthouse Door of the County for three consecutive weeks prior to said election.

8. The County Clerk is hereby ordered and directed to post said notices and to cause same to be published as hereinabove directed. Further orders by this Court are reserved until the returns of said election executed by the duly authorized election officers, are received by this Court.

PASSED AND APPROVED this 22nd day of March 1948.

BOYCE HOUSE Gives You Texas

A few weeks ago, your columnist went to Little Rock to speak at the state hardware dealers convention. I hardly knew I was outside of Texas because the newspapers there featured the visit of scientists to the McDonald observatory, out in the Davis Mountains, to study the Green spots on Mars; the trial of a man accused of having murdered his bride, whom he had married in Abilene, and the Texan, an ex-marine, who stabbed a burglar to death in Chicago. And a touch that reminded one further of Texas was an ad which read, "World's biggest hot dogs."

From the business district of Little Rock, when you look toward the Capitol, because of a hill in between, you see just the dome, apparently hanging in space. You can walk across a bridge over the Arkansas River. As a boy, I seem to remember the big steamboats puffing up and down, with others moored at the wharf. But, the other day, there were just two barges and a houseboat in sight.

And I've never eaten any finer fried chicken than that at a little Rock cafeteria—Mrs. Atkinson's. It melts in your mouth like ice cream—only, ice cream doesn't have as good as flavor as that fried chicken.

In early days, the sight of a "benzine buggy", as the auto was known, scared horses. A man explained, "When a horse sees a buggy running down the road with nothing pulling it, it's as if a man was to see a pair of empty pants run by him. Wouldn't that scare you?"

Texans Pay Higher Motor Vehicle Taxes Than Income Tax

The average Texas motorist pays taxes on his motor vehicle at a rate higher than his Federal income tax, according to a study released today by the Texas Mid-Continent Oil & Gas Association. "The tax bill on the average Texas motorist is \$82 annually when he totals state and federal gasoline taxes, state registration fees, and federal automotive taxes," R. B. Anderson, Association president, said.

"This is equivalent to the federal income tax paid by a Texan with exemptions for a wife and two children on \$2725 income. The majority of Texas motorists are in income brackets below this figure," Anderson said. "Few motorists realize that the gasoline tax alone in Texas now totals 5-1/2 cents a gallon, or 4 cents for state tax and 1-1/2 cents for federal tax. Added to this are the registration fees and Federal automotive excises," Anderson said.

Mr. and Mrs. Roy Mayfield and family spent Sunday in Tulsa with relatives.

French McGavock and Ben Fowler, of Tullia, were Silvertown visitors Sunday.

Behind The Scenes in AMERICAN BUSINESS

By REYNOLDS KNIGHT NOTE TO READERS—The information contained in this weekly summary of happenings in the world of business and industry has been obtained from sources we consider reliable but is not guaranteed. Opinions and forecasts are based upon careful analysis but are subject to change without notice.

—The Editor —NEW YORK—Apparently the "New Look" has been sold. Buyers' "wait and see" hesitation cut apparel makers' spring and summer sales considerably but the industry is looking forward to the greatly increased fall buying of the new styles.

Optimistic for the fall season, New York's apparel trade will begin showing autumn coats, suits, dresses and sportswear the week of May 17, a week earlier than last year and four or five weeks earlier than pre-war openings.

Most manufacturers believe that these who did not buy New Look fashions for this spring will be in a mood to order the new styles heavily this fall.

One top-flight fashion leader pointed out that, in the eyes of the nation's women, the New Look is no longer a novelty but a necessity.

TWO CARS UP—The number of families in the United States owning two cars or more increased 33 per cent last year despite the automobile shortage, according to Powell Crosley, Jr., pioneer manufacturer of lightweight cars.

"Today more than a million families make daily use of two cars," Crosley said. "Ninety per cent of the second cars are doing a great variety of transportation chores for housewives and junior family members while actually helping to lengthen the life of the family's number-one car."

A recent survey of his firm's dealers, he said, reflects a growing public preference for light cars to meet these secondary family needs. The small car is favored, the survey indicates, because it is economical to own and operate, easy to drive and park—factors appealing especially to women—and is suited to the average two-car garage or car court.

The manufacturer predicts a steadily increasing number of two-car families with a corresponding rise in public acceptance of lightweight cars.

THINGS TO COME—Accessories for a new wire recorder include a telephone pick-up device for recording two-way conversations and a foot-control switch which makes the recorder a secretarial instrument. Engines can be started merely by turning the ignition key through a new automotive device now on the market. House numerals made of colored plastic, with 20 color combinations and 10 panel styles, will soon be marketed by a Baltimore firm. New "wipe-on" plastic auto body finish is being sold by a Cleveland manufacturer. Water—not cheese—bait is a new metal rodent trap turned out by a St. Louis company. Finely tapered men's comb of nylon plastic can be sterilized in boiling water without harmful effects. Time-saving liquid laundry starch requires no mixing, cooking or boiling. New package of "slenderized" strike-anywhere matches holds the same number of matches in three-fourths the space taken by previous container. Adjustable, self-suspending rods for clothes closets and shower curtains are now being manufactured by a Detroit firm.

PAPER FAMINE EASING—The great paper famine will be "substantially eased" this year, says Richard H. DeMott, vice president of SKF Industries, Inc. A major result, he predicts, will be an increase of newsprint production to within five per cent of estimated current demand. "Paper manufacturers, sixth largest U.S. industry, are spending \$400,000,000 on expansion and modernization of facilities," he says, "to achieve a record output of 22,000,000 tons of paper and paper board by year's end. This is two million more tons than in 1947."

DeMott reports that 80 to 90 per cent of the anti-friction bearings ordered by paper-makers are being installed in new equipment with as many as 500 rolling parts going into a single machine. The Philadelphia firm is one of the nation's leading suppliers of bearings for such equipment. To step up capacity of existing machinery, speeds are being increased with new and better balanced press rolls and the addition of more dryers," DeMott says, adding that these changes may enable some revamped equipment to turn out newsprint and kraft paper at the rate of 1,500 feet per minute.

suits and coats disappointing, most retailers are beginning early promotion of short coats. New small businesses are playing an increasingly important role in our economy. More than 95 per cent of the 1,200,000 firms established since V-J Day have fewer than eight employees. A cut of about five per cent in shoe production may be in order to gear output to consumer requirements.

Family Dinner Honors Mother Brookshire

The R. E. Brookshier home was the scene of a very happy occasion on April 4, when he and his good wife gave a family dinner honoring his mother's birthday. Mrs. R. E. Brookshier planned the occasion as a surprise, which was really a surprise. Mother Brookshier suspected nothing until her sons and their wives began arriving.

Following are those who came to help Mother enjoy the occasion: Harry L. Brookshier, of Lefors, Texas, Ralph O. Brookshier and wife, Burkburnett, Texas; Walter F. Brookshier and wife, Kansas City, Mo.; Grandson, Ralph, Jr., wife and daughter, Diana Kay, of Burkburnett, Texas, together with Robert E. and wife, completed the family, excepting for the absence of Mrs. Harry L. Brookshier, who was unable to attend. In the group there were four generations represented; namely the Mother, son Ralph, grandson Ralph Jr., and great granddaughter Diana.

The four sons, their wives, the grandson and his family in company with their mother attended church Sunday morning at the Church of Christ. Then back for a bounteous dinner, afternoon visiting and calls from many friends, picture taking, and later departure of the sons for their several homes after having expressed their love for a fond mother and their appreciation for the hospitality of a dear brother and his good wife.

W. F. BROOKSHIER VISITS MOTHER HERE

Mr. and Mrs. W. F. Brookshier, of Kansas City, Mo., who arrived last week for a visit with his mother, left Monday morning for their home.

Mr. Brookshier completed twenty-eight years of postal service on April 1st this year. He came up through the ranks from rural carrier in a fourth class office, to assistant postmaster, of greater Kansas City, which assignment he has held for the past two years.

Mothers... **DON'T GAMBLE** With Your Children's Hair

PERHAPS YOU'VE BEEN thinking of giving your daughter a home permanent wave with one of the many "kits". At first glance, this may seem like a sensible way to cut corners on your budget.

We doubt that this would be a wise thing for you to do. As professional beauticians with years of experience in all types of hair styling, even we would scarcely attempt to work with non professional materials. However, she's your daughter, and the final decision rests with you.

Nevertheless, we feel a moral responsibility to the women of the community, such as doctors and dentists do.

THAT'S WHY WE INVITE YOU — to stop in here for a free consultation before you buy any "home kit." Let one of our highly trained professionals study your daughter's hair (and yours too, if you like). Let our years of experience accurately determine her type hair. This free service takes but a moment — and we feel it a privilege to be able to save you possible years of regret.

SUPERVISORS FOR CAP ROCK DISTRICT—Earl I. Cantwell, Chairman, Obra Watson, Bray Cook, L. A. McJimsey and Bill Helmes.

E. Posey, who operates a farm eight miles northwest of Silverton, had district technicians run terrace and diversion lines this past week. Mr. Posey, a cooper with the local Cap Rock Soil Conservation District, plans to build these terraces and diversions this spring.

Elmer Vaughan, who farms near Jay Lake, 8 miles southeast of Silverton, had terrace lines run on his farm last week. Soil Conservation Service technicians helped Mr. Vaughan run the lines.

Ditch lines for irrigation of wheat were run for Elmer Vaughan, W. C. Strickland, Elmer Fay and Allen Kellum recently. These farmers are all cooperating with the local district.

J. L. West who farms two miles southwest of the Rock Creek Station made an experimental planting of Orchard grass and Meadow fescue grass this past week. These grasses were planted in separate plots so that seed harvest can be made if they proved desirable. Mr. West will irrigate these plots to insure the best possible growth.

Alvin Redin, who operates a farm four miles south of the Rock Creek Station, applied nitrogen fertilizer to a part of his improved pasture this past spring. Results beginning to show was the fertilized areas have better growth than adjoining unfertilized areas. Mr. Redin applied approximately one hundred pounds of Ammonium Nitrate per acre.

Mr. and Mrs. C. D. Wright were business visitors in Amarillo and Plainview last week.

FARM FACTS
WORTH KNOWING

Q. What's a good way to keep baby chicks from eating the litter?
A. Spread several layers of old newspapers over the litter. This should prevent the chicks from eating the litter during the period before they have learned to feed. The top layer of papers covering the litter should be removed each day. After four or five days it is safe to remove all the paper from the litter.

Q. Is it all right to breed girls when they are six months of age?
A. No, girls bred at six months of age are likely to produce small litters and to be greatly hampered in their own growth and development. If girls are properly developed, the minimum age to breed is eight months of age. Girls grown on the Purina program should be fully ready for breeding at this age.

Q. Do steers need to be fed twice a day?
A. According to a three-year test at the West Tennessee Experiment Station, feeding steers once a day may be just as good as bringing the feed to the bunks morning and night. For the test, the same amount and kind of feed was fed, the only difference being in the frequency of feeding. Results showed that it made no difference whether the steers were fed once or twice a day, although, as a matter of fact, daily gains were slightly higher for yearlings fed once a day.

Q. Will milking at irregular hours affect production?
A. Yes. Sudden changes in time of milking will cause the herd to drop in production, so keep the milking schedule as regular as possible.

Q. If a rabbit eats her litter, should she be given another chance?
A. When a doe destroys or deserts her young and she has not been disturbed during kindling or for a few days thereafter, she should be sold for meat. If she is an exceptionally outstanding animal, she should be given another chance to reproduce and raise a litter. In case she fails the second time, it is best to sell her for meat.

Send your questions about livestock or poultry problems to **FARM FACTS**, 817 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

A Peachy Idea

From her knowing wink, Janette Davis, peaches-n-cream songstress of CBS "Arthur Godfrey Time" show and the new Columbia Recording hit, "They Can't Make A Lady Out of Me", thinks she has written what will be a winning entry in the \$10,000 Birds Eye peach contest.

MacArthur Men

MADISON, WIS.—(Soundphoto)—Two former governors of Wisconsin head a full slate of MacArthur for President delegate candidates in Wisconsin. They are Fred R. Zimmerman (right) now secretary of state, and Philip F. LaFollette (left), Madison attorney. They are shown at the capitol as "Zim" filed his nomination papers (as a candidate) with himself (as secretary of state).

NOTICE—Silverton Masonic Lodge No. 751 will have its regular meeting Tues. April 13th, at 8:00 p.m. All members urged to attend.

Miners Out

PITTSBURGH, PA.—(Soundphoto)—Miners of the Harmer mine wait in front of the pit for word on whether they are to go to work, or to return home. This shift went to work without knowing whether or not they would be ordered out.

Pig Party is Enjoyed By Group of Young People at Church

A gay group of young people gathered at the basement of the First Baptist Church, March 31, to enjoy a party, sponsored by the Y. W. A.

The girls came attired in their gay print dresses and their hair in pig-tails. The boys were honored with the privilege of wearing their levis.

A variety of games and refreshments were heartily enjoyed by all.

Those attending the affair were: Sybil Absher, Gialys Hyatt, Glenn Ramsey of Quitaque, Betty Bradley, Horace Morrison, Richard Morrison, Joe Grabbe, Shirley Haynes, Betty Dickerson, Jean Dennis, Estelle Guice, Bill Rucker of Quitaque, and Fayree McMinn.

Ways to Please A Family

Its an old adage of course that "the way to a man's heart is through his stomach." That's been tried and proven.

But let us add a bit to that. If you want to find the way to the heart of every member of your family, you'll make every meal as appetizing and as wholesome as possible.

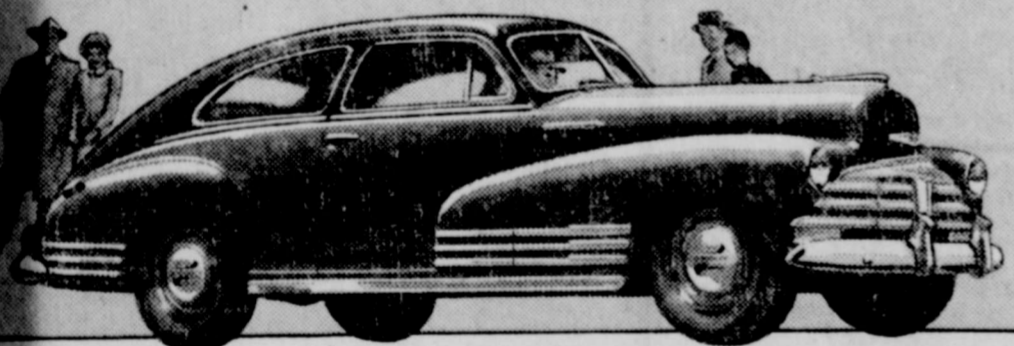

We always have a complete stock of fresh meats and groceries.

"Talk about VALUE," says America

"CHEVROLET and ONLY Chevrolet IS FIRST!"

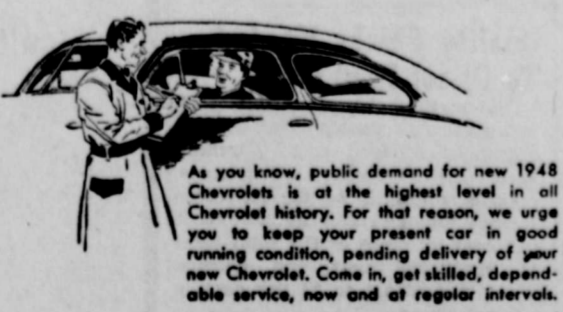

You'll find that new front-end styling—new colors—new and even more luxurious interiors add still further to the Big-Car beauty of Chevrolet's Bodies by Fisher. They're the world's finest bodies, found only on Chevrolet and higher-priced cars.

You'll get much better performance with Chevrolet's world's best record of dependability of any automotive power plant! And Valve-in-Head engines are exclusive to Chevrolet and more expensive automobiles.

Yes, from one end of the country to the other, public enthusiasm for the new 1948 Chevrolet points to a great public conviction that CHEVROLET AND ONLY CHEVROLET IS FIRST in all-round value as in popularity. More people drive Chevrolets, according to official nationwide registrations and more people want Chevrolets, according to seven independent nationwide surveys than any other make of car. Your own judgment will tell you that this is because Chevrolet gives more value... because it alone offers BIG-CAR QUALITY AT LOWEST COST!

You and your family will have Big-Car safety, too. For Chevrolet brings you the three-fold protection of Fisher Unisteel body-construction, the Knee-Action Ride, and Positive-Action Hydraulic Brakes—another combination of features found only in Chevrolet and more costly cars.

As you know, public demand for new 1948 Chevrolets is at the highest level in all Chevrolet history. For that reason, we urge you to keep your present car in good running condition, pending delivery of your new Chevrolet. Come in, get skilled, dependable service, now and at regular intervals.

W. S. C. S. of First Methodist Church Met With Mrs. Turner

The W. S. C. S. of the First Methodist Church met in the home of Mrs. Arnold Turner Monday. There were sixteen members present.

Mrs. Orville Turner brought an inspiring devotional on "The Whole Creation is our Lords." Mrs. Joe Smith brought an interesting talk on "The earth is a ball yield her increase." She also gave an interesting report on the conference of the W. S. C. S., at Plainview last week.

A short business meeting was held following the program.

A Bible study will be started on Monday, April 12. The title is, "Great Prayers of the Bible." It is urged that all the ladies of the church attend this course. All visitors are welcome.

The meeting was adjourned with a prayer by Mrs. Potter.

Children Lack Proper Feeding

Ohioan Claims That Farm Stock Is Better Fed And Cared For

CHICAGO. - Joseph W. Fichter, chairman of the health committee of the National Grange, told members of the third annual conference on rural health that more attention has been given to the care and feeding of farm animals than to the care and feeding of American children. Fichter pointed out that a nation concerned with world health and giving through the Marshall Plan, should be willing to invest a relatively small amount in the health of its own children if it expected a strong national stock of citizens.

He urged appropriations for state departments of health, for adequate health service throughout the nation and for health supervisors in schools.

Advocates School Lunches.

Other recommendations by Fichter were well-balanced school lunches; lunch periods long enough to permit relaxation and not followed by periods of strenuous exercise; less emphasis on highly competitive inter-school athletic contests and special attention to children's mental health.

He stated that much mental illness was caused by worry and frustration because schools didn't offer children opportunities to pursue studies in which they were interested. Fichter asked that means be found to train more doctors to serve rural populations and expressed the opinion that more young people from rural areas should be permitted into medical schools. Rural youths would be more likely to become country doctors than city youths, he contended.

Lists Deficiencies.

Mrs. J. Lanning Taylor, director of the educational department of National Co-operative Milk Producers' federation, armed with statistics, said that 100 million dollars are urgently needed for expansion of the national school lunch program.

To prove her contention that most American children were malnourished, Mrs. Taylor quoted:

1. "A 12-year continuous study of 10,000 Pennsylvania school children showed that 85 percent failed to exhibit reasonably good nutrition in one or more respects.

2. "In Minnesota a seven-day diet survey of 1,000 pupils in rural, town, suburban and city schools showed that 40.2 percent had poor diets, 32.6 percent fair diets and only 27.6 percent had good diets.

Poor Diets Predominate.

3. "A survey of 200 school children in West Virginia showed 54 percent were getting poor or bad diets.

4. "In a study of Texas school-children, about 20 percent of those examined were anemic enough to need medical treatment because of iron deficiency.

5. "A dietary survey of more than 1,100 Maryland schoolchildren revealed that only 8 percent had an adequate diet."

Mrs. Taylor terminated her talk with a parting shot at congress for appropriating only 65 million dollars for the national school lunch program.

Bigger Fowl Contest Extended for Year Poultry Raisers Seek Heavier Farm Flocks

Bigger and better drumsticks for "Junior" are sought in the national Chicken-of-Tomorrow contest, which will be extended through 1948. The decision to continue the event was made in response to demand from poultry raisers from coast-to-coast.

Unlike popular reducing fads among the hen's human counterparts, this barnyard project is designed to add weight to the farm flocks and to give American chicken

eaters more for their money. Poultrymen from all parts of the country are joining in the hunt for a breeding formula which will add at least 10 per cent more meat to the present-day chicken. A higher percentage of meat on the bone structure and even meating wings are sought, thus assuring "Junior" that no longer will only a skimpy appendage be left as his lot when the dinner platter arrives at his lowly place.

The industry-wide educational breeding contest originally was set up on a three-year basis, with two years of state and regional contests culminating in a grand national championship this spring in Delaware. Forty top breeders throughout the nation will send eggs to the finals, where they will be hatched and raised under identical conditions under supervision of the department of agriculture. Winners will receive \$7,000 in prizes awarded by A & P stores, sponsors of the contest.

Expensive Alarm

Why keep a rooster when an alarm clock is cheaper?

That question is posed by Boyd A. Ivory, Wyoming agricultural extension service poultry specialist. A rooster, Ivory points out, eats about \$5 worth of feed a year at current prices. All you get in return, he insists, is a lot of crowing—accompanied by NO eggs!

A rooster is worthless in a poultry flock unless he is being used for breeding purposes in supplying fertile eggs for hatcheries or home incubation.

Hens won't lay any more eggs that they are laying just because a rooster is on the premises, so why not sell that "crowing so-and-so"?

Trade him for a \$1.93 alarm clock that tells the time of day for the entire 24 hours and you'll save about \$3 in feed costs on the swap!

Quality Chicks Needed To Offset Feed Costs

One method through which poultrymen can combat the present high cost of feed is to purchase good quality chicks. Feed costs, records compiled by the extension service indicate, now amount to 66 per cent or more of the total costs of producing eggs and chicken meat in contrast to 50 per cent in normal times.

Tree 'Butchery' Blamed On Untrained Pruners

It often takes 50 to 75 years to raise a good shade tree. But, extension foresters insist, it takes only a few minutes for an untrained pruner to ruin its beauty. Poor trimming technique is destroying the beauty of many streets. Examples of good pruning are seen on most public building grounds. On the other hand, on almost any street examples of tree "butchery" can be seen.

NOTICE TO ALL DOG OWNERS

The City of Silverton, has an ordinance requiring dogs to have a license tag. The City passed a resolution that all dogs will have to have tags on or before the 15th of April. Any dog found without tags, after this date will be disposed of by the City Marshall.

There has been considerable complaint about dogs destroying shrubbery, flowers, and gardens. So keep your dog at home. By order of the City Council.

Parking Meters Mushroom On Main Streets of U. S.

CHICAGO. - A bumper crop of mechanical policemen has sprouted up from coast to coast in 1,500 cities, according to statistics released by International City Managers' association.

Three-fourths of all American cities from 100,000 to 250,000 population use them. Slightly more than half of the 25,000-100,000 population cities have installed them and 40 per cent of the 10,000-25,000 group put them in.

The meters, although used primarily to raise city revenue, are versatile. Some cities used them in March of Dimes drives and for the fight against infantile paralysis by urging motorists to deposit an additional dime each time they park their cars.

There are indications that some northwestern farmers may be allergic to them. Brighton, Ore., recently voted to remove its parking meters because they apparently induced some farmers to take their business to other cities where parking was free.

Constituent, 12, Promises His Vote When He's 'Big'

WASHINGTON, D. C.—Sen. Tom Stewart, (Dem., Tenn.), received the following letter from a 12-year-old boy in his state named George: "Dear Tom: I read that you have some horses captured by the U. S. army overseas.

"I would shore like to have one. "Make it the fastest one you have, if possible a mother one, so it can have babies."

George then promised the senator his vote "when I get big."

The boy wrote to Senator Stewart after reading that he had urged the state department to retain a number of captured Hungarian horses as war booty.
