## N.R. 'Jake' Honea Former Sheriff of County Killed

N. R. (Jake) Honea, age 59, former sheriff of Briscoe County, was instantly killed early Tuesday night when his car jammed the back of a pick-up truck about five miles east of Silvertown on Highway 86 between Silvertown and Quitaque.

The ex-sheriff's car was passing a pick-up operated by Elmer Vaughan, of Silvertown, when a car coming from the opposite direction forced him back into the right hand lane of traffic. Vaughan was slightly injured in the wreck, but did not require hospitalization.

It was not learned who was driving the on-coming car.

A native of Briscoe County, Honea served as sheriff for 18 years prior to 1946, and was known by most of the citizens of the county and surrounding counties.

Survivors include his wife, Mrs. Jessie Honea of Silvertown; two sisters, Mrs. Van Meter and Mrs. Odin Wilson of Quitaque; and a brother, Briscoe C. Honea of Carson City, Nevada.

Funeral services will be held at 3 o'clock this afternoon (Thursday) at the Silvertown Cemetery conducted by Rev. Marvin Brotherton, Methodist minister of Matador, and former Silvertown pastor. Stewart-Douglas Funeral Home will be in charge of arrangements.

## Market Quotas for 1949-50 Marketing Year on Cotton

There will be no marketing of cotton for the 1949-50 marketing year, according to an announcement by Secretary of Agriculture Charles F. Brannan, explaining the reason for this action, the Secretary said that the "total supply" of American cotton, as defined by the marketing legislation, is less than the amount which would make the marketing mandatory.

He added further, "If quotas had been required for the 1949-50 marketing year, the present legislation, with its many minimum provisions, would have required the Secretary to establish total acreage quotas of not less than 27,000 acres. This year's total acreage is only about 23,300,000 acres. The minimum quotas which would be fixed for next year would have authorized and engaged an increase of nearly 4,000 acres."

Because of this, the Secretary said, the proclamation of a marketing year would have operated contrary to the original intention of the law, which was to increase cotton acreage.

In his announcement of no quotas for the 1949-50 marketing year, the Secretary said that the crop will be supported at a loan level of 90 percent of the July 15, 1949, parity.

## 406 BALES OF COTTON GINNED AT SILVERTON

According to figures given out Tuesday afternoon at the Degan gin, they had ginned 406 bales of cotton up to date. There are plenty of pickers in the community to gather the cotton crop, but some farmers do not have any place for the pickers to live.

Reports coming in indicate that the cotton crop is turning out pretty good. Some dry land making as much as one-third of a bale to the acre. Irrigated cotton, the principal part of this year's crop, will produce good yields.

## ELIZABETH TRULY CIRCLE WILL MEET NOVEMBER 1

The Elizabeth Truly Circle of the First Baptist Church W. M. U. will meet at the church on Monday, November 1, at 2:30 o'clock p. m. This will be the Mission Study program. All members are urged to be present.

## PIE SUPPER POSTPONED

The pie supper announced for November 4, by the Methodist Youth's Fellowship has been postponed until a later date.

## San Francisco Fog - Tear Gas Variety

RICHMOND, CALIF.—(Soundphoto)—This unusual photograph, showing the clouds of tear gas overhanging the battleground upon which a rioting mob of several thousand striking CIO oil workers sympathizers fought with police here, was taken from an elevated vantage point overlooking the big refinery. The violence was touched off when a path through massed picket lines to get van loads of striking AFL craftsmen into the plant.

## Wed On Alcatraz

SAN FRANCISCO, CALIF.—(Soundphoto)—Mr. and Mrs. Serris D. Panter cut their wedding cake after their marriage on Alcatraz Island. It is the first wedding on the island since it became a federal prison in 1934. The bride, the former Phyllis Davis, is the daughter of the lighthouse keeper on the island. The groom is a Utah Agriculture College football player. The nuptials were held in the guards' recreation hall with some 200 guests and officials present.

## Church of Christ Will Hold Services in New Church

The Church of Christ that has been under construction for the past few months, is being completed this week and the members plan to hold their Sunday services in the new building this coming Sunday.

The congregation salvaged all the material possible out of the old church building and with new material they have erected a much larger one at the same location. The building is modern in every way, including floor furnaces to heat the building, and has stucco finish on the outside.

Services announced for Sunday: Bible Study at 10:00, Preaching at 11:00, Singing in the afternoon starting about 2:30.

Everyone is cordially invited to attend the services.

## MISSIONARY WILL SPEAK AT PRESBYTERIAN CHURCH SUNDAY AT 11 O'CLOCK

Mrs. Lena Boyd who has been a Presbyterian Missionary in India for years will speak at the Presbyterian Church at 11 o'clock, on her experiences as a Missionary in foreign fields. Everybody is invited to attend.

## AMERICAN LEGION AUXILIARY MEETING

The American Legion Auxiliary will meet in the home of Mrs. Alvin Redin Thursday, October 28, at 7:00 o'clock p. m.

## M. K. Summers Attending Short Course School

M. K. Summers, City Secretary, is attending a Water Works and Sewer Short Course School at Plainview. This is a district school being conducted by an instructor from A. & M. College. All the towns in this district are sending representatives to the school from their city. When the course is completed Mr. Summers will be given a certificate to operate the Water Works and Sewer System in the city.

## UNDERWENT MAJOR OPERATION

Mrs. Rags Riddell underwent a major operation in a Lubbock hospital last Wednesday. Mrs. Riddell's father, M. E. Smith reported her condition as satisfactory, and that they would likely bring her home Saturday or Sunday.

## Mr. and Mrs. J. F. Cowspan, of Happy, were guests of Mr. and Mrs. J. S. Fisher Sunday.

Mr. and Mrs. J. F. Cowspan, of Happy, were guests of Mr. and Mrs. J. S. Fisher Sunday.

## Mrs. Ola Miller spent the week end in Plainview with Mrs. Mildred Mills and daughter.

Mrs. Ola Miller spent the week end in Plainview with Mrs. Mildred Mills and daughter.

## Turkey Turks Will Play Owls Here Friday Night-- Game Starts at 7:30

The Silvertown Owls resume play Friday night, October 29, at 7:30, on the home field after a week's rest from play. The terrible Turks from Turkey come to town laden with a crew that held the powerful Happy and Kress teams almost to a standstill each beating the Turks only one touchdown. Due to the cooling weather conditions the game time is set for 7:30.

In comparing scores you could say that the Turks are a 19 point better team due to the fact that Kress beat Silvertown 25 points and Turkey 6 points; thus, having a 19 point difference. Should the Owls capture the decision, they stand an excellent chance of taking the district flag.

The Owl team is in good condition with the exception of Wayne McMurtry, back, and Johnnie Bingham, stellar line backs for the locals who sprained an angle in practice earlier in the week. With Bingham out, the Owls chances for victory are slackened. However, the Owls leading contenders for the all-district team, Jett Mason, Donald Rhea, Flute Hutsell and Cliff Beardon are in fine shape and ready to go. Co-Captain and Captain will be Donald Rhea, full back, and Donley Gilbreath tackle respectively.

The Silvertown Junior High School team will take on the Tullia Juniors at 1:30 Friday afternoon, you are invited to come and see the future Owls gridmen in action.

## Funeral Rites For Elmer David Livingston Held Wednesday

Funeral services were held Wednesday afternoon at 2:30 o'clock at the first Baptist Church for Elmer David Livingston, 61, conducted by Rev. G. A. Elrod, pastor of the First Baptist Church, assisted by James B. Jones, minister of the Church of Christ. Interment was made in the Silvertown Cemetery under the direction of Stewart-Douglas Funeral Home.

Elmer David Livingston was born in Comanche County, Texas September 2, 1887. Passed away at his home October 25, 1948. At an early age he went to work on the Diamond A. Ranch in Mexico. During his lifetime he worked in both New and Old Mexico. Working in Old Mexico for three years, he moved from Vernon, Texas to Silvertown in 1941 where he resided since then.

Mr. Livingston was married to Nora Lee Belvin August 10, 1913 at Hamilton, Texas. To this union four children were born.

Survivors include his wife and four daughters, they are: Mrs. Inez English, Irving, Texas; Mrs. Raycine Shores, Vernon, Texas; Mrs. Joye Garland, Vernon, Texas; Mrs. Tommie Lucas, Eugene, Oregon; seven grandchildren, and two brothers also survive. The brothers are Arthur Livingston, San Bernardino, California, and Jessie Livingston, of Flagstaff, Arizona.

## Mason Tire and Supply Is New Name For His Store

Mike Mason has just completed refinishing the interior of his store, and has announced that he is changing the name from White Auto Store to Mason Tire and Supply.

The store will carry a large stock of auto supplies and accessories, as well as a complete line of tires. Mr. Mason will also continue to operate his garage at the rear of the store in connection with his accessory store.

## TROY BURSON IS ERECTING NEW BRICK BUILDING

Material was placed on the ground last week and the brick and concrete work is progressing on the 26x43 foot structure this week on property belonging to Troy Burson which is located on the highway just across the street north of the court house square.

E. G. Burgamy, of Athens, Texas, is the contractor and W. A. Giggs, also of Athens is in charge of the brick work.

The new building is built according to plans of Texaco retail stations and it is understood that a long contract to Texaco will be in effect when the structure is completed.

Concrete drive-ways will lead in to the station from the highway, and modern wash and lubrication facilities will be included with the new building, as well as stock room and an office space for the business.

In discussing the work on the building Mr. Gibbs stated that it would likely be completed within three or four weeks. He did not know who would have charge of operating the new station.

Two large underground storage tanks are on the ground at the site of the new building and other equipment will arrive as needed to furnish the station.

## Funeral For Mexican Infant Held Tuesday Afternoon

Funeral services were held Tuesday afternoon at 2 o'clock at the Silvertown Cemetery for Leduvina Alicia Florez, infant daughter of Mr. and Mrs. Santos Ybarra, of Grulla, Texas. The child was born at Memphis, Texas, October 12, 1948 and died at Silvertown October 25, 1948. Survivors besides the parents, are one sister, Lucero Florez.

Rev. G. A. Elrod conducted the services, and Douglas Funeral home had charge of arrangement.

## SENIOR GIRLS SCOUT PIE SUPPER NOVEMBER 2

The Senior Girl Scouts are giving a pie supper Tuesday night, November 2, at 7:30 at the high school auditorium. All scouts are urged to bring pies.

## FRED MERCER MOVED TO MERCEDES, TEXAS

Fred Mercer moved his family last week to Mercedes, Texas, where they plan to spend the winter. Mr. Mercer said he was making the move on account of his wife's health, and was hopeful that the change would be an aid to her. The Mercer's new address is 156 Patricia Avenue, Queen City Annex, Mercedes, Texas.

Mr. and Mrs. J. K. Bean were in Plainview Monday on business.

## ATTEND TWO DAY MEETING IN LUBBOCK

George Martin and W. L. Messimer attended a two days district meeting of county administrative officers of ACA, at Lubbock Wednesday and Thursday of this week.

## Mr. and Mrs. H. P. Rampley were guests in the home of Mr. and Mrs. Willard Merrell Sunday.

## Mrs. John Smith and daughter, of Portland, Oregon, are visiting her parents, Mr. and Mrs. Willard Merrell.

Mrs. John Smith and daughter, of Portland, Oregon, are visiting her parents, Mr. and Mrs. Willard Merrell.

## CITY OF SILVERTON BUYS NEW FIRE TRUCK

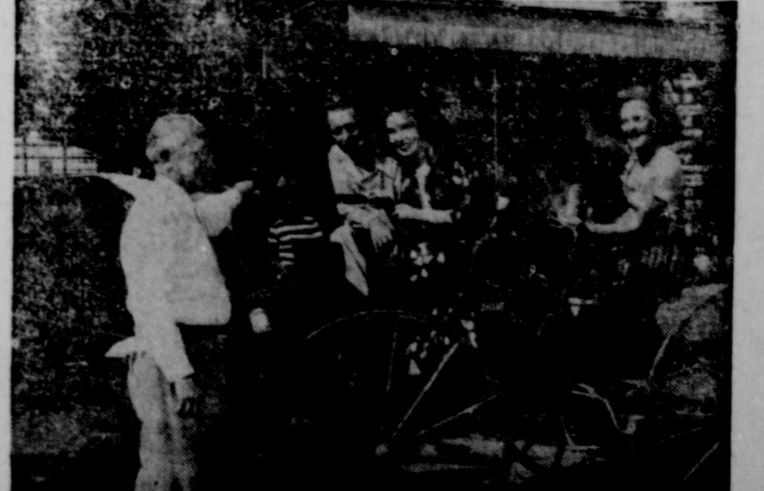

The City Council of Silvertown has just recently purchased a new fire truck for the fire department. The new truck is a ton and one-half Ford, with all equipment to pass the State Fire Insurance Commission requirements.

This new truck is equipped with a 300 gallon auxiliary tank and a 500 gallon pump. In buying this equipment the city hopes to lift the penalty of not having sufficient fire fighting equipment. The city was penalized on lack of water, but this was taken care of early in the year when a large water well was tied in to the city water system. Additional pavement since the last rate-setting, will also help in reducing the fire insurance rate.

March 1, 1949, the new fire rate will be set, and it is hoped that the City of Silvertown will be able to get a reduction in their rate at that time.

## "A MIGHTY EFFORT"

As General Eisenhower once said, "Citizens, community and nation must join to help defeat the menace of fire—it is a mighty effort involving all our citizens, and covering every area of our social and economic life. Fire—must be controlled if the economic structure we have built is to be free from the threat of recurrent destruction."

The citizen's duty in this regard is plain. It lies in keeping his property to high standards of fire safety. That means care in the handling of cigarettes, explosive fluids, and all other flammables. It means a clean and orderly home and place of business, without dangerous accumulations of trash. It means thorough maintenance of heating systems, electric appliances, and other such equipment.

From the community standpoint, fire prevention involves a long range program. The National Board of Fire Underwriters has summed up some of the necessary projects. They include better building construction, better fire safety laws and enforcement, better fire prevention education in

schools, better water systems and better fire fighting services. All of these goals can be attained by any town—and the cost will be repaid time and time again in the lives and property that will be saved from destruction.

What it all adds up to is that we can lick fire—if we have the will to do it—And the unsightly lot of dead weeds and rubbish in the streets and alleys of the town would be a good place to begin with the campaign.

## A GREAT STORY

On October 14th, Oil Progress Day was observed on a nationwide basis. Many millions of Americans were given a better insight into what oil and the industry which produces it means to them. And the knowledge thus gained should not be forgotten.

Most of us have read that the demand for oil is at an all-time high, and that the industry has done a remarkably effective job in meeting it, in the face of gloomy-gus forecasts that terrible shortages were inevitable. But that bare statement tells only a small part of a great story. The oil that furnishes energy to industry, that drives from machinery and motor cars and trucks,

that powers much of our commercial transportation, that heats homes and performs a multitude of other necessary tasks, lies at the heart of our economic power and our standard of living as a nation. And the oil that American ingenuity and enterprise are making available to the war-torn nations of Europe is a key element in world recovery. That is why, to cite one example, American companies are leaders in the difficult and costly job of developing and putting to use the vast oil resources of the Middle East. The success of our multi-billion dollar European recovery program is itself largely dependent on this. Dollars are worthless unless they can buy the necessary supplies, and oil holds a high priority on the list of vital commodities.

We can thank private enterprise for getting the oil out of the ground, and for turning it into usable forms. And private enterprise is doing that enormous job at an amazingly low cost, and with unchallengeable efficiency. That achievement was what Oil Progress Day signified.

## TEXAS SOCIETY FOR CRIPPLED CHILDREN

Three aspects in the care and training of physically handicapped children will be discussed at the annual state meeting of the Texas Society for Crippled Children October 31—November 1, at the Raleigh Hotel in Waco. As the meeting is open to the public, there is no registration fee.

The three topics to be considered are the care and treatment of cerebral palsy, special education for physically handicapped children and hearing conservation.

Sunday night, October 31, Dr. John J. Lee, dean of the graduate school of Wayne University will discuss "What Is Special Education?" and Dr. Wendell Johnson, professor of speech pathology at the University of Iowa, will talk on "Speech Therapy for the Handicapped in Public Schools" at Monday's luncheon.

Monday afternoon, a panel will take up the problem of special education in Texas. Three directors of the state program will be the panel. Also taking part will be Dr. Gladys M. Brown of the SMU department of psychology; Mrs. Juliette Grate, director of the Dallas Society for Crippled Children's Cerebral Palsy Center; and Miss Martha Brown of the Dallas Society's Aphasia Center.

At the conclusion of the panel discussion, a joint demonstration of the early recognition and treatment of cerebral palsy will be held in the Waco Crippled Children's Hospital by Dr. Arnold Manske and Dr. Herbert Hipps, both of Waco.

Also on the program are Mr. Roy Stelle, superintendent of the Texas State School for the Deaf who will talk on "Hearing Conservation in the Classroom" and Dr. Ben L. Boynton, psychiatrist and chief of physical medicine of the Veterans Administration in Dallas who will discuss aspects of the care and treatment of the physically handicapped.

Roscoe L. Thomas, president of the state organization, will preside during the 2-day meeting and the McLennan County Chapter of the Society will be hosts. The Waco group is headed by the Hon. D. Y. McDaniel, president, and Mrs. W. J. Woolsey, chairman of the board.

Before you buy see Frigidaire, the leader. Several used gas stoves. Simpson Chevrolet Co.

## IN GERMANY New Insulin Taps Found

LAKE SUCCESS, N. Y.—With a million diabetics in the United States alone requiring insulin to stay alive, and with growing demand indicating that world need may outrun present supplies, the World Health organization reported that research discoveries in Germany offer the promise of a 30 per cent increase in world insulin output.

Dr. Brock Chisholm, executive secretary of the organization's interim commission, told a press conference here that the German work, which still must be checked, involves a new method of collecting pancreas glands without refrigeration. It is from the pancreas glands of slaughtered cattle, sheep and pigs that medical insulin now is obtained.

Technical reports to the interim commission in Geneva termed the discovery "of the utmost importance," although particulars were not available here. But the reports noted that this method would enable recovery of the glands from small slaughter houses which now lack cold-storage facilities.

### Facilities Not Available.

In New York medical circles it was pointed out that much of the world's cattle killing takes place on farms or other places under conditions heretofore precluding collection and storage of pancreas glands. This includes much of the United States and most of Latin America. It was speculated the German work might have developed a technique for fixing the insulin content in pancreas glands chemically, so it would not be destroyed in transportation.

The commission is collecting further data on the insulin research, which was reported from the American and British zones of Germany. Occupation authorities in the British zone reported other research had found that codfish pancreas glands were extremely rich in insulin, although at present the cost of extraction is some 150 times that from slaughtered animals.

### Annual Production

The world's annual insulin production now is estimated at more than 11 billion international units, with the United States, United Kingdom, Denmark and Netherlands as chief producers.

Import needs were put at nearly two billion units a year, with exportable surpluses of only 1,400 million. The resulting deficit, the reports said, could be met only by increased American production and by the new extractive methods, which are being sought particularly by Finland, Czechoslovakia and Yugoslavia.

However, even these deficit statistics were arrived at without including reports from China and India, where the large populations and increasing medical services are likely to swell the demand for insulin substantially.

## Mr. Lion and Mrs. Tiger Expect a Young 'Tiglion'

SALT LAKE CITY.—Throwing out all textbooks, the Salt Lake City zoo has accomplished the supposedly impossible: Mating a full grown lion and tiger, traditionally deadly enemies.

Mae and Huey are boxing playfully in their cage at the Hogle zoological gardens here these days, and the zookeeper, Joe Naylor, said Mae, the three-year-old tigress, was "expecting her first offspring."

Lions and tigers have been mated before, but as far as zoologists know, not when brought together after reaching maturity. The German animal expert, Carl Hagenbeck, experimented successfully in the field but his method was to rear the lion and tiger together from cubhood.

Some of the resulting progeny were sent to zoos in England and this country, but no case is on record of a successful mating in the United States. The hybrid offspring are variously called "tiglions," "ligers" and similarly coined terms.

Naylor took nearly 10 months to get his pair together.

## U. S. Seeks Whereabouts of 12,000 'Lost' Farm Hands

WASHINGTON—The United States is looking for about 12,000 "lost" farm hands.

They were among more than 300,000 agricultural workers brought in from Mexico and the West Indies during the war and since to help meet a farm worker shortage.

Recruited under direction of their respective governments, they received permits to enter this country for only a specified period of time. They were supposed to return to their respective countries after the harvesting season.

So far neither the agriculture department nor the immigration service has been able to find the 12,000. Most of those missing are from Mexico.

J. H. Lambe, agriculture department labor officer, said it was possible that some might have returned to their countries without being checked out by government agencies. Others, he said, might have strayed from their work in the hope of finding permanent homes in this country.

## VETERANS' NEWS

Carl R. Gray, Jr., Administrator of Veterans Affairs, will visit Southwestern installations of the Veterans Administration next month.

It will be Gray's first official visit to Texas, Louisiana and Mississippi since he was appointed head of the VA by President Truman to succeed General Omar Bradley, now Army Chief of Staff.

Gray left the position of Vice President of the Chicago and Northwestern Railway System to come to VA. He has had an active railroad career since his youth in Kansas.

During World War II, Gray served overseas 34 months as Director General, Military Railway Service in North Africa, Italy and Southern France. Later, he be-

came Director General of Military Railway Service in the European Theater of Operations.

Gray, a Major General, commanded approximately 25,000 officers and men and supervised military traffic over a system embracing more than 46,000 miles of lines.

The first GI Bill deadline is not far away. Veterans discharged before July 25, 1947, have only until July 25, 1949, to apply for readjustment allowances for unemployment and self-employment.

GI's discharged after the 1947 date have until two years after discharge.

Here's a job tip for veterans scheduled to graduate this year as pharmacists.

VA needs qualified pharmacists who are graduates of accredited colleges of pharmacy and who have registered as pharmacists in one of the states or the District of Columbia.

No experience is necessary for P-1 ratings \$2,974.80 to \$3,721.80 a year.)

## HARVEST FESTIVAL—FEAST ON

## THE SAVINGS AT OUR STORE.

Pardon us if we blow our "Horn of Plenty" about the harvest of truly big food values that fills our market. They're here, there, everywhere—stacked high and priced low. So come take your pick of the easy pickin's. Fill your pantry to overflowing—then come winter storm or unexpected guests you'll be ready to serve full course meals without leaving your house. Yes—buy now.

## No other Heavy-Duty Trucks have CHEVROLET'S VALUE

### Only Chevrolet Advance-Design

### Heavy-Duty Trucks Have All These Features

**4-SPEED SYNCHRO-MESH TRANSMISSION**—This entirely new heavy-duty transmission in one-ton and heavier duty models enables the driver to maintain speed and momentum on grades!

**SPLINED REAR AXLE HUB CONNECTION**—Another Chevrolet truck innovation, this feature insures added strength and greater durability in heavy hauling.

**FLEXI-MOUNTED CAB**—Mounted on rubber, the cab is cushioned against road shocks, torsion and vibration.

**THE CAB THAT "BREATHES"**—Chevrolet trucks bring added

driver comfort with the cab that "breathes"! Fresh air is drawn in and used air is forced out! Heated in cold weather.

**IMPROVED VALVE-IN-HEAD ENGINE**—The power-packed Chevrolet Load-Master engine, world famous for economy, is now even more durable and efficient in operation.

Uniweld, all-steel cab construction • New, heavier springs • Full-floating hypoid rear axles in ¾-ton and heavier duty models • Hydrovac power brakes on 2-ton models • Ball-bearing steering • Wide base wheels • Standard cab-to-axle dimensions • Multiple color options

### CHEVROLET You're in for an eye-opener when you try these new, big Chevrolet heavy-duty trucks.

Our guess is you've never driven a truck with more get-up-and-go... more ease of handling... more style and stamina... more downright real value! For combined with all their bigness and power and premium quality, these trucks have 3-WAY THRIFT. They bring you low cost of operation, low cost of upkeep, and the lowest list price in the entire truck field!

\*Fresh air heating and ventilating system with rear corner windows with heat-reflecting optional extra cost.

**NEWSPAPERDOM**

**Weekly Gets A Big Scoop**

NORTON, VA.—A weekly newspaper scored a resounding beat on one of the biggest news stories of the year in Virginia.

It printed an account of a \$45,000 bank robbery, the chase and arrest of the bandits within two hours after it happened.

The subscribers of the Norton Coalfield Progress, a modest but growing "country weekly," were reading about the bank robbery before many of the large newspapers and radio stations in the area knew it had happened.

It wasn't one of those stories that happens right in front of the newspaper, either. The bank was robbed in Pound, Va., 20 miles to the north over rugged mountain roads.

It was shortly after noon in Norton on the day that the Coalfield Progress was to go to press. The paper had been made up with accounts of meetings and society items laboriously gathered from the clubs and churches and PTA through the week.

**"General Flunky."**

Carroll Tate, a lanky, dark haired young man who calls himself "general flunky" for the paper and who is its reporter and business manager, was relaxing in the office.

A pressman, just returning from lunch, walked in and remarked casually:

"We'd better throw out the front page."

Then he added, still casually, "the bank's been robbed at Pound."

Tate jumped to life. He telephoned Pound and confirmed what the pressman had heard a state trooper remark to passersby on the corner.

Tate drove the 20 miles to Pound in a hurry over the winding roads. He interviewed Ed Barr, the bank cashier, who had been ordered into a vault by two armed men who neglected to close the vault door tightly enough to make it click.

**Escapes From Vault.**

Barr said he got out of the vault and shouted an alarm. He fired a pistol at one of the bandits and wounded him on the bank steps. The two leaped into a car driven by another man and drove off.

As Tate finished talking to Barr, state troopers brought in the three men for Barr to identify. The money was recovered.

Tate sped back to Norton, wrote his story and soon the presses of the weekly rolled with a red hot story and a banner line on the front page.

"Big town newspapermen will call it luck, but it was the biggest thrill of my life getting that story," says Tate, who will become owner of the Coalfield Progress in a few months.

Gov. William Tuck of Virginia has dedicated a new plant of the Coalfield Progress.

**Mother Dies of Complications From Unattended Childbirth**

STURGEON BAY, WIS.—Funeral services were held for Mrs. Myrtle Schmidt, 37-year-old divorcee, whose infant son was found buried in the yard of her home at Forestville, Wis.

Mrs. Schmidt died at a hospital of complications following the unattended birth of the boy. Her 19-year-old son and 16-year-old daughter told police they buried the baby at the insistence of their mother. The child was dead at the time, they said.

District Attorney Edward G. Minor and Coroner Calmer Nelson planned to order an inquest into the death of the child. Mrs. Schmidt died without making a statement about the child.

**Mixed Burglar Alarm Signals Bring Police to 'Robbery'**

CINCINNATI.—Four policemen went to Antonio Dipilla's grocery in answer to a robbery alarm.

But there was no robbery. The grocer just got his signals mixed up.

Dipilla explained that he and his landlady, Mrs. Frank Klein, who lives on the second floor, had a pre-arranged signal whereby he was to tap on a pipe in case of a holdup.

"Mrs. Klein was in the store, and a few minutes after she left I heard water running in a washroom," Dipilla said. "I forgot about the signal and rapped on the pipe to call her attention to it."

The landlady, hearing the rapping, called police.

**Surgeons Forget Towel in Vet's Stomach; He Can't Sue**

BALTIMORE, MD.—A pensioned army veteran who sought \$100,000 from the government because of an 18 by 30-inch towel left in his stomach was told that he couldn't sue Uncle Sam.

The veteran, 50-year-old Arthur K. Jefferson of Joppa, Md., filed the suit under the recently-enacted federal tort claims act, waiving immunity of the United States from damage suits by private persons.

But Federal Judge W. Calvin Chestnut ruled that congress did not intend to include suits by former soldiers for service-connected disabilities "for which there was already existing a large body of federal legislation."

**7,00 Ex-Students of Texas Tech Expected At Home Coming**

Lubbock, October 28.—Seven thousand ex-students of Texas Technological college are expected to begin arriving on the campus next Friday for the annual homecoming, October 30.

A full day of activity honoring alumni and former students begins in the morning with open house by the different departments and a number of receptions. A mammoth parade at 11 a. m. will highlight the morning festivities.

Luncheon for exes, their wives or husbands, is to be served in the gymnasium. The Lubbock Bus company and Texas, New Mexico and Oklahoma bus company are joint hosts for the luncheon.

Football at 2 p. m. is the main event of the day when Texas Tech Red Raiders meet the Rice Owls. Thus far, 18,500 tickets have been sold for the game. Some 4,500 were sold to ex-students, and 2,000 are reserved for exes who will arrive Saturday.

An after-game dance for the students and exes will be held in the gymnasium.

**Botany And Biology Students to Make Trip to Mexico**

Lubbock, Oct. 28.—Students enrolled in freshmen botany and biology at Texas Technological college are this week making the second annual fall botany field trip to areas around Las Vegas and the Evergreen Valley in New Mexico.

"Several side trips are planned en route to the New Mexico headquarters. We plan to acquaint

SILVERTON, TEXAS

**...ING ANNIVERSARY OB-  
...DAY BY MR. AND MRS.**

J. T. Hodges ob-  
golden wedding anni-  
...nday, October 24, 1948,  
...home north of Silvertown.  
...to help their parents cele-  
...the occasion were their nine  
...children, fifteen grandchildren  
...and two great-grandchildren.

In the afternoon from 2:00 to  
5:00 o'clock the couple held open  
house to their many friends and  
neighbors, of which more than  
two hundred came to extend their  
congratulations and well wishes.  
Many beautiful and useful gifts  
were presented to the honorees.

The house was beautifully de-  
corated in fall flowers, and the din-  
ing table was covered with lace  
cloth, and a beautiful three tiered  
cake, surrounded by yellow can-  
dles and large mums from which  
extended white satin streamers  
with the words "Mom and Pop"  
in gold letters. Golden punch was  
served with cake. Granddaught-  
ers of the couple presided at the  
serving table. Over two hundred  
friends and relatives were present  
for the happy occasion.

The children present were: Mr.  
and Mrs. Boyd Hodges, Arivaca,  
Arizona; Mr. and Mrs. Loyd  
Hodges, Cave Creek, Arizona; R.  
D. Hodges, Houston, Texas; Mr.  
and Mrs. Lee Drummond, Hous-  
ton, Texas; Mr. and Mrs. Robert  
McGuire, Ocate, New Mexico;  
Mrs. Pearl Armstrong, Houston,  
Texas; Miss Jewel Hodges, Lub-  
bock, Texas; Mr. and Mrs. Vernon  
Garrison, Tullia, Texas; Mr. and  
Mrs. Arnold Turner, Silvertown,  
Texas; Mrs. Cliff Hodges, Corpus  
Christi, Texas, widow of their de-  
ceased son was also present.

Other relatives attending were:  
Mr. and Mrs. E. F. Yates and two  
daughters, of Houston; Mr. and  
Mrs. Lee Gallinger, and Betty  
Hodges, of Corpus Christi, Texas;  
Mr. and Mrs. Clyde Castleberry,  
Long Beach, California; Mr. and  
Mrs. Horace Castleberry, Brown-  
field; Mr. and Mrs. Geo. Hodges,  
Canyon, Texas; Mrs. Bob Castle-  
berry, Brownfield, Texas; Mr. and  
Mrs. Aubry Castleberry, Brown-  
field, Texas; Mr. and Mrs. Charles  
Hodges, Hereford, Texas; and Mrs.  
Gertie Hale, Spur, Texas.

Out-of-town friends present for  
the occasion included: Mrs.  
Charles Russell and Mrs. Ida Wil-  
coxson, Turkey, Texas; Mr. and

Mrs. Loyd Hendrix, Lubbock,  
Texas; Mr. and Mrs. R. E. Doug-  
les, Lubbock, Texas; Mr. and Mrs.  
Homer Williamson, Lubbock, Tex-  
as; Miss Lucile Coltharp, Lub-  
bock, Texas; Misses Theola and  
Marie Weaver, Lubbock, Texas;  
Mrs. Weaver Idalou, Texas; Mr.  
and Mrs. Joe Tidwell and Jack  
Tidwell, Goree, Texas; Mr. and  
Mrs. Bill McDonald, Brownfield,  
Texas.

**MRS. W. T. DAVIS SLIGHTLY  
IMPROVED LAST NIGHT**

Mrs. W. T. Davis, who is in the  
Plainview hospital critically ill  
was reported to be slightly im-  
proved Wednesday night. Verne  
Bearden, son-in-law of Mrs. Davis  
was in Plainview Wednesday.  
Mrs. Bearden is with her mother  
in Plainview.

**ATTEND EXECUTIVE BOARD  
MEETING**

Among those from Silvertown  
who attended the Executive Board  
Meeting in Floydada Tuesday  
were: Mesdames G. A. Elrod, G.  
R. Dowdy, Alvin Jackson, Hugh  
Stodghill, Clifford Allard, C. M.  
Chappell, Bud McMinn and Ray  
C. Bomar.

**Atomic Figure**

WASHINGTON, D. C.—(Sound-  
photo) — The House un-American  
Activities committee named Arthur  
Adams, above, of New York, as the  
"key figure" in its investigation  
of communist spying on America's  
atomic secrets. The House group  
revealed that the committee re-  
ceived testimony about Adams  
during the series of closed meet-  
ings on the atomic espionage case.

**Rooster  
Lays a Miniature Egg**

SYDNEY, AUSTRALIA.—A roos-  
ter at Oakleigh, Victoria, has aston-  
ished B. J. Finch by laying an egg.  
The egg was spherical and about  
three-quarters of an inch in diam-  
eter—much smaller than the aver-  
age hen egg. The egg contained  
only white without any trace of  
yolk.

As far as Finch knew, the bird  
was a normal rooster, but expert  
opinion is that it must have been  
at least half a hen. Hens occa-  
sionally can turn into roosters but  
the reverse process does not occur.

**'Farm of Tomorrow'  
Reduces Labor  
Costs 30 Per Cent**

MADISON, WIS.—A farmer's life  
will be much easier, on the pros-  
pect farm of the future.  
University of Wisconsin scientists  
have set up a model electrically-  
operated "farm of tomorrow" that  
cuts today's farmer's time and la-  
bor some 30 per cent.

The project started when univer-  
sity scientists found that more than  
56 per cent of the average Wiscon-  
sinn farmer's work consists of daily  
chores.

And 41 per cent of that time, they  
found, is concentrated in the dairy  
barn.

The university got a grant of  
\$100,000 from the Wisconsin Utili-  
ties association, took over a 140-  
acre farm near Madison and went  
to work.

That was two years ago.  
Now the model farm is on dis-  
play, showing farmers how to get  
many of their chores done by mere-  
ly pushing a button.

For example, cow stalls are kept  
clean by paddles on a moving chain  
that sweeps the gutters.

When the cow needs food, silage  
is brought down through an elec-  
tric suction chute to a feed cart.  
The cart is pushed in front of the  
cow, measures the feed and throws  
it in the mangers.

A foot-operated lever opens doors  
into the milk house so the farmer  
can enter it with full milk pails  
in both hands.

In the hay mow, warm, dry air  
from a ventilating fan is forced  
through green hay for curing.

Tests prove artificially dried hay  
produces more milk than field-dried  
hay that has been soaked with  
rain.

**London Firm Offers Good Pay  
For 'Arduous Filthy' Work**

LONDON.—A help wanted ad-  
vertisement in the London Times  
warned potential applicants that  
the work offered was "arduous  
filthy" but added "pay is good."

Sandwiched in among usually  
proper personals, it said "manag-  
ing director of E and B B (Steeple-  
jacks) limited seeks well educated  
young men who are willing to take  
off their coats and learn exciting  
trade: Work arduous filthy; and  
you'll be frozen to death in winter  
and roasted in summer. But pay  
is good and those who make good  
will have a job for life with every  
opportunity to climb to good posi-  
tion (you must be able to climb  
anyway). Your work will take you  
all over British Isles. Hours are  
long but esprit de corps is good.  
There is no reason why we can't  
have men who talk like Socrates  
and work like Hercules."

The advertiser was Jack J.  
Eserin, a master steeplejack, who  
said that the only good steeple-  
jacks left were getting old and he  
wanted young recruits. He is offer-  
ing \$40 to \$60 a week with bonuses.

**St. Louis Will Grant Free  
Parking to Disabled Vets**

ST. LOUIS.—War veterans whose  
disabilities make it hard for them  
to walk will receive special parking  
privileges from the St. Louis police  
department.

Automobile stickers will be issued  
by the local chapter of Disabled  
American Veterans, allowing such  
ex-servicemen to park a reasonable  
length of time in congested areas  
or on streets where parking nor-  
mally is prohibited.

The stickers, showing a man on  
crutches, will be numbered and the  
police will be provided with a list  
of those to whom the privilege has  
been extended.

Since they will be issued to the  
individual and not to the automob-  
ile, an able-bodied person driving  
a car with one of the stickers will  
not be able to take advantage of  
the privilege.

**Careless Handling of Stock  
Causes High Leather Costs**

CINCINNATI.—A leather research  
expert at the University of Cincin-  
nati claims that careless handling of  
livestock on the way to market costs  
Americans millions of dollars an-  
nually.

Fred O'Flaherty said that farm-  
ers and shippers who "rough up"  
livestock are to blame for a need-  
less increase in the price that must  
be paid for shoes and leather goods.  
O'Flaherty pointed out that many  
times the injuries aren't discovered  
until the hair has been removed  
from the hide.

The good leather from non-dam-  
aged hides must bring a price which  
include the loss on the damaged  
ones.

**Pacific Waif,  
Pal of Marines,  
Now Growing Up**

SINGAPORE . . . The wonder  
waif of the Pacific is almost grown  
up now. She's 12 years old.

Patsy Li, the little Chinese girl  
who six years ago mysteriously  
turned up in the midst of the war  
on Guadalcanal, is studying in a  
Singapore school.

But she hasn't forgotten her days  
with the United States marines on  
Guadalcanal. She hasn't had a  
chance. Newspaper stories up and  
down the coast have kept the  
memory alive for her.

Little Patsy, like many a young-  
ster her age, is limelight-conscious.  
But in her case this threatens to  
become a serious personality prob-  
lem, according to her guardian.  
That's why there are to be no more  
interviews.

A lot of American marines who  
were on Guadalcanal will remember  
Patsy and wish her happily  
over the rocky road of adolescence.

**Sick With Malaria**

They will remember her as the  
6-year-old, very sick with malaria,  
who one day in the heat of battle  
was carried by natives to the Amer-  
ican lines. She had been found,  
wounded and very ill, in an aban-  
doned Japanese camp.

The marines adopted her and  
she became famous as "Patsy of  
Guadalcanal."

Patsy had been separated from  
her mother, Mrs. Ruth Li of Singa-  
pore, when the ship on which they  
were escaping from Malaya was  
torpedoed off the Netherlands East  
Indies in February, 1942. Mrs. Li  
was rescued. No trace was found  
of her child at the time.

Three thousand miles from the  
scene of the sinking, on Guadal-  
canal an American correspondent  
wrote up the story of the little Chi-  
nese girl.

**Sister Reads Story**

In New York, Mrs. Ruth Li's  
sister, a cancer research worker,  
read the story and noted that the  
little girl answered to the name  
of Patsy Li—the name of the little  
niece she lost in the torpedoing off  
the Dutch East Indies. She wrote  
to her sister.

It was a clew—and the mother  
flew to the orphanage in the New  
Hebrides where the girl had been  
placed and recognized Patsy as her  
missing daughter.

How she traveled the 3,000 miles  
from the place where the ship sank  
to Guadalcanal, nobody knows.  
Probably the Japanese fished her  
out of the sea, adopted her and  
brought her with them to Gusda-  
canal. It's still a mystery to every-  
one, including Patsy.

Today in Singapore a growing-  
up Patsy often asks: "Have you  
ever met an American marine?  
They're wonderful."

**Beagle Hound's Trail Leads  
Detectives to Confusion**

DES MOINES, IA.—Two police-  
men who used a beagle hound in a  
small scale manhunt reported that  
the dog was no detective, but cer-  
tainly was friendly.

The brown and white dog was  
found in a used car lot where a  
thief escaped under police gun-  
fire. Detectives assumed that the  
hound belonged to the thief. They  
decided to turn the dog loose and  
follow it.

The dog merely joined the crowd  
which had gathered at the car lot  
and wandered around wagging its  
tail. Finally a detective swatted the  
uneager beagle with a folded news-  
paper.

The hound took off but in its  
ramblings it: Almost got hit by a  
car; was chased by a lady with a  
pitchfork; was pinned down in a  
tangle with an unfriendly larger  
dog, and wandered in circles.

Police decided that the beagle  
merely was loafing at the scene of  
the crime. They called off the  
hunt.

"I've trailed lots of people," com-  
mented Lt. Ted Strassburg with  
resignation. "But this was the first  
time I'd been assigned to trail a  
dog."

**Branded Hand Tells Story  
Of Arrested Slave Stealer**

MUSKEGON, MICH.—A monu-  
ment near the entrance to Ever-  
green cemetery here recalls a  
man branded by court order.

The memorial bears a replica of  
the right hand of Capt. Jonathan  
Walker, with the initials SS, for  
"slave stealer," on the palm.

Walker is believed the only per-  
son ever branded by a federal court  
order.

Walker was arrested in 1844 off  
the coast of Key West, Fla., while  
taking seven runaway slaves to the  
Bahama islands and freedom.

Mr. and Mrs. Buster Gardner,  
of San Jacinto, California, spent  
Tuesday night with Mr. and Mrs.  
Freeman Tate.

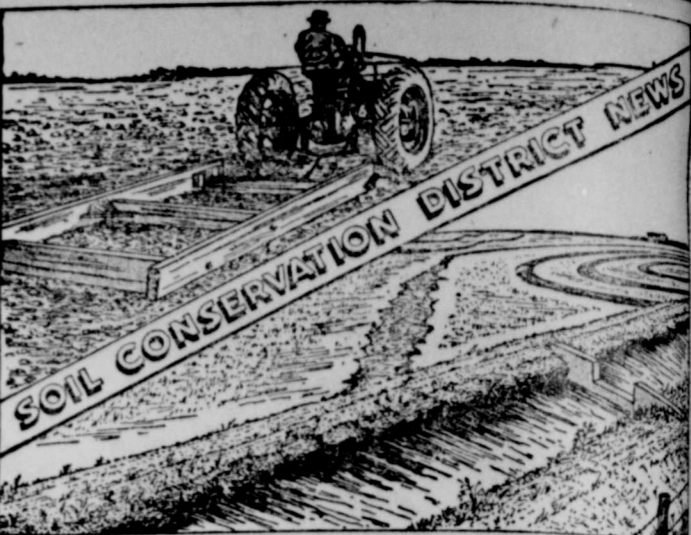

Mr. and Mrs. Herman Robison  
and children, of Dumas, spent Fri-  
day night and Saturday with Mr.  
and Mrs. Dick Bomar and other  
relatives.

Mrs. J. S. Fisher left Wednes-  
day morning for Munday in an-  
swer to a death message of her  
friend, Mrs. C. R. Elliott of that  
city.

Before you buy see Frigidaire,  
the leader. Several used gas  
stoves, Simpson Chevrolet Co.

Supervisors for Cap Rock District—Earl I. Cantwell, Chairman,  
Obra Watson, Bray H. Cook, L. A. McJimsey and Bill Holmes.

W. A. Graham, a cooperor of  
the Cap Rock Soil Conservation  
District, whose farm is southwest  
of Quitaque, has a good stand of  
Austrian Winter Peas, vetch and  
Abbruzzi rye on some deep blow  
sand.

Mr. Graham has about fifty  
acres of winter peas, a few acres  
of which is a pure stand and the  
remainder in a mixed stand with  
Abbruzzi rye and about ten acres  
of vetch mixed with Abbruzzi  
rye, also several acres of Abbruzzi  
rye in a pure stand. With the ex-  
ception of a few small spots, a  
good stand was obtained on all of  
these plantings despite the adverse  
moisture conditions this fall.  
These plantings have a twofold  
purpose: they should furnish graz-  
ing superior to wheat on this type  
of soil and if not grazed too close

furnish adequate protection  
against wind erosion. The vetch  
and peas being legumes will also  
restore some nitrogen to the soil  
for the use of succeeding crops.  
These plantings will be watered  
with considerable interest by  
both the farm operator and Soil  
Conservation personnel of the  
district as their success may point  
the way to effective wind erosion  
control in deep sandy land areas,  
and fertility improvement of these  
areas.

Soil Conservation technicians  
ran irrigation ditch lines for Ed-  
bert Stephens a cooperor of the  
Rock Creek group, Monday, Oc-  
tober 25. Lines were also run for  
W. A. Stephens in the Francis  
group Friday, October 22.

Botany And Biology Students to Make Trip to Mexico

Lubbock, Oct. 28.—Students enrolled in freshmen botany and biology at Texas Technological college are this week making the second annual fall botany field trip to areas around Las Vegas and the Evergreen Valley in New Mexico. "Several side trips are planned en route to the New Mexico headquarters. We plan to acquaint students, for one thing, with genuine bear grass instead of the alleged bear grass they are more familiar with; to show them sand dunes, and a number of other botanical studies," Earl Camp, botany instructor and field trip director, explained.

Sandra Jean Tally Honored on Seventh Birthday

Sandra Jean Talley, daughter of Mr. and Mrs. Wm. T. Talley, celebrated her seventh birthday Thursday, October 21. Halloween theme and decorations were used throughout the party. Mrs. Virgil Ballard was the ghost. Cake and ice cream cones were served to the following:

WHEAT KINGS CROWNED

Wheat and Kings held the spotlight at Amarillo Oct. 9th when the Tri-State Fair and cooperating agencies announced the winners of the various milling and baking, identification, and long-time wheat record contests. Here are the trophy winners (l. to r.): Wilbur P. Aze, Hereford, with the Tex-O-Kan and Pillsbury for Championship in the Open class plus \$60. in cash; Leonard Wright, Perryton, Reserve Champion with his Tex-O-Kan Flour Mills trophy and \$25. cash; Joe Ray Goodin, Claude, TEXAS FFA WHEAT trophy and trip awarded by the Texas-Oklahoma Wheat Improvement Program and \$100. cash from the Amarillo Grain Exchange; Wayne Howard, White Deer, TEXAS 4-H WHEAT KING, youngest but winner whose Comanche wheat had the top score of 96 1/2 points, won the trophy, an all-expense trip to study the marketing and processing of wheat, and \$100. cash from the wheat improvement group plus \$100. more from the Amarillo Grain Exchange, for a total value of \$350; Dickie Hall, Amarillo, TEXAS 4-H WHEAT PRINCE, winner of a trophy, trip and \$50; and Pat Bannister, Spearman, who won a trophy, trip and \$50. Other wheat winners included Richard Laubhan, Lipscomb, and Billy Turner, Spearman, who won trophies and trips to Ft. Worth for 3rd and 4th in the 4-H division, while in the FFA department Everett Reeder, Muleshoe and Pyle, Kress also won trips to Ft. Worth for 3rd and 4th. Another big winner was Donville Crosbyton whose four-year wheat production record in FFA work earned him a \$100. college scholarship from the Texas-Oklahoma Wheat Improvement Program which is sponsored by the flour mills of two states. As a reward for outstanding activity in wheat improvement the eight county agents and national agriculture teachers of each of the winners were also awarded trips to accompany them to Ft. Worth as the guests of the flour mills. 3,500 boys and girls and their parents gathered in the Sports Arena at the Tri-State Fair to see the wheat winners crowned by Dr. Ide P. Trotter, Director of the Extension Service and to watch and listen to the program under the able direction of "Uncle Jay" of KGNC. "This is the first year for the wheat contests and party to crown the Kings so next year it should be even bigger and better," says Trotter, Director of the Texas-Oklahoma Wheat Improvement Program.

DELIVERIES DAILY WE APPRECIATE YOUR BUSINESS

**NAILING DOWN A "SPECIAL PRIVILEGE"**

Now is the time for all good men to come to the aid of elections. When a man can "elect" to do this or that he is a free man. A man has a sense of dignity, of worth, of self-respect—a state of well being money cannot buy—when he can elect to speak out, or to write, for or against someone or something.

This freedom of "election" has been banished from the public policy of nation after nation. Everywhere today, man, the indi-

vidual, is submitting to various degrees of enslavement through regimentation. Minority's voice is silent, free discussion gone, one's own life is directed in its most intimate details, the right to elect, to choose—these inalienable rights are denied millions upon millions of men and women today.

"Election" by the individual has always had to fight for its life. The real issue is not out in the open. No ambitious ruler ever announces that he is taking something away from the individual. He promises much. He presents a bargain. He does not disclose his hand. He never shows the price tag. No dictator ever described himself as a dictator, as bent upon destroying man's freedom of choice. He has a Plan, a five-year plan or a ten-year plan. He does not tell the people a simple truth, which they should know for themselves, that every economic plan to be successful means they must be moulded into it.

Discipline and compulsion—the antithesis of freedom—is written large on the back of every blueprint of political planners. Such are full of "musts." "Must" is the first word in the vocabulary of a dictator; it is repugnant to a free American.

November approaches. The highest attribute of a free man is that freedom to exercise his choice at the ballot-box. This right to elect causes the American to walk with a swing such as is seen on not many other highways of the world, makes him grovel before no one, stand in awe of no man. The ballot box makes him a peer, in fact, a free man. As a free man, he can every so often choose his political servant, can elect the

agent to represent him and his system of government by exercising this freedom of choice. He can repudiate and renounce his representative democracy and can set up instead a monarchy, communism, or indeed, a dictatorship. He can abolish courts and institute a Star Chamber. He can vote away every vestige of law and order and duty and restraint. He can vote himself out as master and make his political servant his divine ruler. He thus whittles away his freedom of choice. By the same token he can through his intelligence and vigilance preserve it for himself and his children.

Voting, like other rights, carries with a duty, a duty to exer-

cise the option. By the way, have you a date with your responsibility on November the Second?—By W. Alton Jones, in Service, a Publication of Cities Service Company.

**FATHER and SON**

**BUILD THIS MODEL BOAT** Budget: Dad, \$2.00 for motor; Son, 80¢ for materials

Dear Dad: This 16-inch model speedboat not only is easy to build but will go faster than you can walk. Powered with two 10¢ Eveready No. 950 flashlight batteries which drive a miniature electric motor, this model will be at home in either your local pond or your bathtub.

You can build this boat from these plans and instructions and you can obtain additional construction details from the November issue of *Mechanix Illustrated* magazine, which will soon be available on your newsstand.

Before starting the actual construction, visit your local hobby shop and obtain the necessary balsa wood and other supplies. For a workboard you'll need a smooth piece of wood (white pine or plywood) about 20" x 6" wide. Space out the position of the frames on this workboard as shown in Fig. 1 and then proceed to enlarge the frame outlines to full size on a sheet of 1/8" balsa. Carefully cut out each frame and set aside. The hull is built upside down on the board so pin each frame to your

workboard and then cement the 1/8" sq. stringers in place.

Bevel the stringers so they are even with the frames and then cover the bottom with 1/16" sheet balsa. When the cement is dry, trim the wood and cover the sides in the same manner. After an hour or so remove the structure from your workboard and cut the frames for the deck curve. Consult your plans and install the motor and prop shaft. Apply cement to all the inside joints and then cover the deck with 1/16" sheet. After the cement has dried trim the edges, add the stem and stern blocks and cut out between Frames No. 3 and 5 for the hatch which holds the two Eveready No. 950 batteries.

Apply three coats of model airplane dope inside and out and you'll be ready for launching. If your model rides with the stem low, add lead to the stern to bring the water at the position shown in the plans.

Good luck,

*Doug Rolfe*

**He Helped to Feed the World**

**EDGAR S. McFADDEN**  
TEXAS AGRICULTURAL EXPERIMENT STATION  
COLLEGE STATION, TEXAS  
(PART OF THE TEXAS A. & M. COLLEGE SYSTEM)

DEVELOPED NEW RUST-RESISTANT WHEAT NOW GROWN ON MILLIONS OF TEXAS ACRES.

WORKING ALONE IN FIELDS FOR YEARS, HE CROSSED WILD EMEMERS WITH BREAD WHEATS, FINALLY DEVELOPED HOPE STRAIN - THEN AUSTIN AND OTHERS.

READERS DIGEST AWARDED HIM \$2,500 FOR HIS "EXCEPTIONALLY MERITORIOUS ACHIEVEMENT." FARM JOURNAL CALLED HIM THE "BURBANK OF THE WHEAT FIELD."

HIS RESEARCH HAS INCREASED THE EARNINGS OF AMERICAN FARMERS BY MILLIONS!

A MONUMENT HAS BEEN ERECTED IN McFADDEN'S HOME TOWN, WEBSTER, N.D.

Edgar S. McFadden, agronomist for the United States Department of Agriculture, stationed at the A. and M. College of Texas since 1935, is credited with having done more than any other living man to feed a hungry world. Breeder of the first rust-resistant bread wheat, named "Hope," he has made it possible to grow wheat on millions of acres throughout the world where it could not be successfully grown before. His discovery is authoritatively credited with having saved American farmers \$400,000,000 a year during the past war and with having furnished bread for 25,000,000 people who would have died of starvation. His "Austin" wheat now grows on more than a million Texas acres and his new "Seabreeze" variety is spreading throughout the Gulf Coast area rapidly.

QUESTIONS AND ANSWERS

Q—I served in the U. S. Army during World War I. Am I eligible for Government Life Insurance?
A—As a veteran of World War I you are eligible to apply for up to \$10,000 of U. S. Government Life Insurance, whether or not you took out such insurance while you were in the service or have such insurance lapse.
Q—What are the deadlines that apply if I wish to take my training under the provisions of the GI Bill at a later date?
A—You may apply for training within four years from July 1, 1947, or within four years from the date of your discharge or separation from the armed services, whichever is later. You must finish your training by July 1, 1956.

CARBON PAPER at the NEWS OFFICE

Candidates for High School Queen were elected Wednesday Morning.
Seniors:
Shirley Haynes—Queen
Carl Graham—King
Jo Teeple—Princess
Johnnie Bingham—Prince
Jean Dennis—Duchess
Haskell Harmon—Duke
Juniors:
Mona Brock—Queen
Donald Rhea—King
Jeanne Garvin—Princess
Larry Tunnel—Prince
Sophomores:
Mary Tom Bomar—Queen
Richard Turner—King
Gaylia Bomar—Princess

John Francis—Prince
Freshman:
Peggy Holt—Queen
Billy Wayne Garvin—King
Estelle Bradley—Princess
Melvin Hamilton—Prince
The winner will be crowned at 10:30 Saturday night, October 30 in the high school auditorium.

Basketball season has started for the girls. Mr. Max O'Brian is the coach. Jeanne Garvin was elected captain and Joy Brown was elected cocaptain.

The band and Hershel are doing pretty good. They are getting where they can strike one note together, of course, at times Hershel's instrument won't hold together for that.

Well Don finally made that long-longed-for trip! He finally went to see Joye. Ukey and Beebie went with him.

I don't know what happened to Jo Ray Stodghill and Jo Dell Hut-sell but someone might ask Clifton. A streak of red lightning is pretty powerful.

Costumes are in the minds of everyone this week. I guess you all know you'll get fined if you arrive at the school house Saturday night without a costume.

No they aren't bell hops around S. H. S. It is just Milton Clemmer and Wild Bill Self in their marine suits.

Where was Mona Sunday night? Boy! She really had the guilty look. Incidentally, where was Beth?

By the way, who is the acrobat around school now? Larry or Mona? Whoever it is can write just hanging by their toes.

Did Jean Dennis really weigh one pound when she was born or was that a little white lie. Jean?

Substitute Clerk For Silverton Postoffice

An Examination is announced for the position of Substitute Clerk in the Silverton, Texas Post Office. Mr. Fowler, Postmaster states that the examination for his post office will be held November 20, 1948, at Tulsa, Texas commencing at 8:30 A. M. Appli-

cants to be examined for the position must actually receive the delivery of the post office to be bona fide patrons of the post office. Persons employed in the post office are considered patrons of the office. Applications and further information can be secured from the Postmaster.

### FIVE COUNTIES SEND TOTS TO GONZALES WARM SPRINGS CENTER

October 28.—Texas arm springs treatment center for crippled children is now its part in alleviating suffering and physical damage caused by children stricken by polio in

the current epidemic. Children from forty-five Texas counties are now being given treatment at the Gonzales Warm Springs Foundation hospital.

Requests for beds at the Foundation are steadily increasing as hundreds of those stricken with polio this year begin their long convalescent and rehabilitation period. Complete care is offered at the Warm Springs treatment center under the direction of an active staff of 21 outstanding doctors. Skilled nurses, physical therapists and other technicians at the Foundation work under the guidance of Dr. Peter M. Keating, resident medical director, who is well known in medical circles of the nation.

"Every Texan can be proud of the Gonzales Warm Springs Foundation and the work it is doing," Ross Boothe, president of the charitable organization said. "Our hospital is approved by the American College of Surgeons and our work has the backing of leading health agencies and organizations.

### Rock Creek Club Met Tuesday, October 19

The Rock Creek Club met with Mrs. Verna Allison Tuesday, October 19. The evening was spent quilting. Members present were: Mrs. Florence Fitzgerald, Mrs. Marie Garrison, Mrs. W. W. Reid, Mrs. Ruby McWaters, Mrs. Ruth West, Mrs. Henry McWaters and the hostess. Mrs. Florence Fitzgerald will be hostess to the club Tuesday, November 2.

Mr. and Mrs. W. Hamilton and sons and Hubert Brooks, spent Sunday in Lubbock.

PLENTY of "Non-Skid" paper clips at the News office. Also Parcel Post Gum-labels.

The Foundation is now placing its full facilities at the disposal of every county in the state, for the use and benefit of physically handicapped children.

"The purpose of the Foundation is to provide the best facilities for the treatment and care of crippled children," Boothe continued. "The services of the Foundation are available to all agencies working for the betterment of crippled children, as well as to individuals."

Since opening in 1914 with two buildings and 26 beds, the Foundation has been expanded until now it has six major buildings and 110 beds.

Before you buy see Frigidaire, the leader. Several used gas stoves. Simpson Chevrolet Co.

### Tech Assured of Pantex Ordnance Plant by Jan. 1, 1949

Acquisition of Pantex ordnance plant, 18 miles north east of Amarillo, is virtually assured Texas Technological college by January 1, President D. M. Wiggins is informed by representatives of the War Assets Administration.

Final steps preparatory to delivering the deed to Texas Tech January 1 for the 17,000 acres and 414 buildings comprising the property were completed in a meeting at WAA offices in Grand Prairie recently, attended by President Wiggins and Frank Junell, assistant to the president.

Adding the 17,000 acres of Pantex to the Texas Tech campus, although it is some 138 miles from Lubbock, will make it possible to increase college research, experimentation and teaching in the fields of agriculture and engineering particularly, President Wiggins said.

The college leased in 1947 and 1948 8,500 acres of the plant for a wheat poisoning experiment which has been carried on with co-operation of Texas A. and M. A number of other research and laboratory projects have been scheduled to begin as soon as the plant is turned over to the college in January.

Dr. Wiggins said the public housing project operated on the property by Amarillo will continue under the direction of the city of Amarillo as long as it is needed. This project is confined, however, to 45 acres of land.

Tentative plans have been drawn up for disposition of many of the buildings and materials on the grounds, President Wiggins said.

The new territory will be used also to further co-operative research planned by Texas A. and M. and Texas Tech. Texas A. and M. received a similar property recently in the Bluebonnet ordnance plant near McGregor.

Texas Tech will accept the deed to the new property with the understanding it is to be returned to the government in the event of a national emergency.

Formal application for the plant was submitted by the college board of directors in March, and final approval was accomplished this month.

### Sweet Corn!

Lend an ear to pretty Marcia Brunk, of Chicago, while she tells you about the joys of the sweet corn season! Marcia says a corn boil is more fun than a picnic—and if you're ambitious you can combine the two and add some fried chicken for good measure. Slurp, slurp!—and don't forget to take along plenty of paper napkins! With Marcia on hand to demonstrate the proper method, eating sweet corn is ornamental as well as lots of fun!

### Occasion-Designed!

This Occasion-Designed glove in Hanes double-woven cotton is one of a wardrobe styled by Hansen to complete a smartly tailored outfit. With the enchanting name of "Pirouette" the handsewn applique forms an unusual cuff and the single center tuck adds a further note of interest.

### CARD OF THANKS

We take this means of expressing to each and everyone of our friends our sincere thanks and deepest appreciation for the many lovely gifts and good wishes extended on the occasion of our Fiftieth Wedding Anniversary. We are humble grateful.

Mr. and Mrs. T. J. HODGES.

Mr. and Mrs. Geo. Edmons and children, of Happy, visited her sister, Mrs. A. G. Stevenson and daughter, Gloria June and mother, Mrs. J. W. Bragg, over the week end.

Mr. and Mrs. Blane Speer, of Breckenridge, Texas, visited in the home of Mr. and Mrs. Charlie Offield Sunday.

Mrs. E. A. Paige left Sunday for her home in Los Angeles, California.
