Utilities Company Submits Street Lighting Plan

The Southwestern Public Service Company has submitted plans and specifications to the City-County for street lights in Silverton for their study and consideration. The proposed lighting system would include the business district of the city, also the courthouse square will be lighted with eight lights, South Main street to the Silverton Hotel, around the high school building and play grounds. Also beginning at the railroad crossing in east Silverton on highway 87 west to the Floydada highway would be lighted at each street crossing. If the City Council sees fit to accept this proposed plan it will be another step towards improvement and progressiveness for Silverton. In the past several months several towns on the south plains have adopted this lighting system, and these communities have added much to their looks at night.

Annual Stockholders Meeting by Farmers Co-Op of Silverton

At the annual stockholders meeting held at the local office of the Farmers Co-Op Tuesday, May 3, the following business was transacted: R. L. Hill was re-elected manager of the elevator, and H. R. Chusenberry was employed to assist at the elevator. Thirty-six attended the meeting. Stanton Crow was elected as director, and T. R. Whiteside and True Bursen were re-elected. Spencer Long and W. W. Douglas are holdover directors. Refreshments were served to those in attendance.

Briscoe County Received General Rain Fri., Saturday

The county as a whole received rain Friday and Saturday. Silverton rainfall amounted to 2.58 for the two days. Some hail fell Friday afternoon but no damage to crops was reported. Much of the Panhandle received damaging rains and hail over the week end. The farmers say they have had enough and are anxious for the ground to dry out enough to start their spring planting of row crops.

Coming to Palace May 18, 19, "Tulsa"

In technicolor, May 18 and 19. A seething cauldron of emotion that boiled over and burst into flame at the whisper of a single word—"Oil!" The lusty, brawling saga of a city of red-blooded men of adventure—and the tempestuous woman who sought to rule it! "Tulsa" Starring Susan Hayward, Robert Preston, with Pedro Armendariz, Chill Wills, Lloyd Gough, Edward Begley.

Building Cottage

The First Baptist Church is building a cottage at the Baptist Encampment ground south of Floydada. This work is being done by members of the church. Each day a group goes down and works on the building. Tuesday the following spent the day: Rev. G. A. Elrod, Roy Brown, W. A. Stephens, Rex Holt, Shorty Hartman Lee D. Bomar and Elbert Stephens.

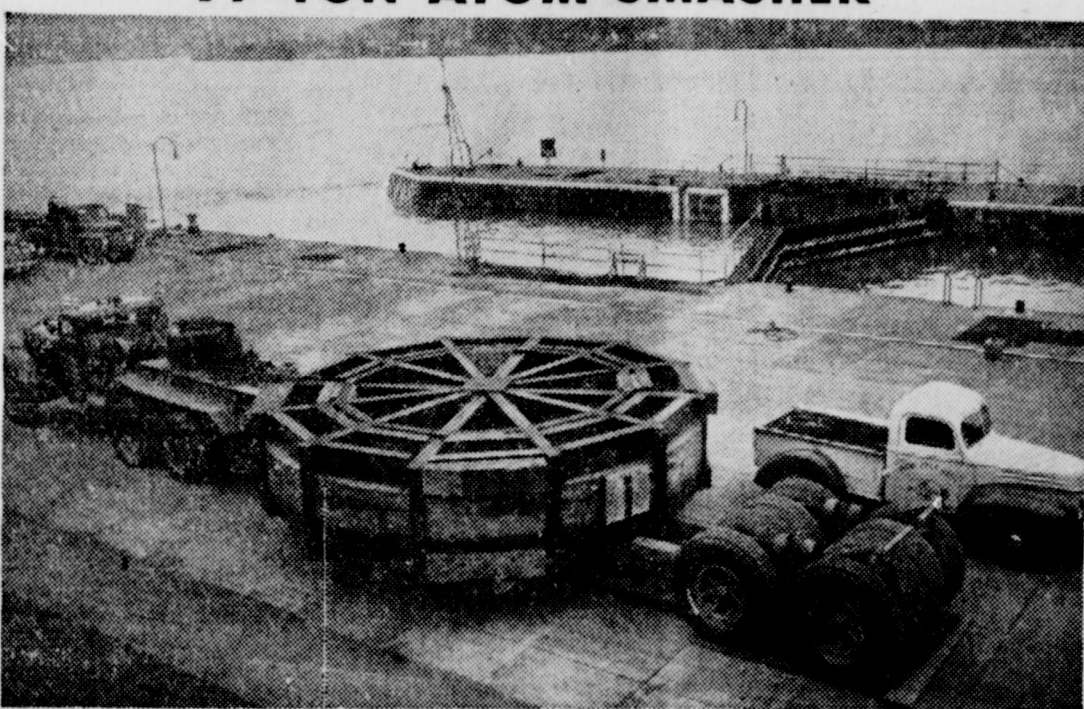

Funeral Services Held Tuesday for R. N. McDaniel

Funeral services for R. N. McDaniel, 79 years old, pioneer Briscoe County farmer-stockman, was held at the Church of Christ at 10 o'clock Tuesday morning. Earl Cantwell, officiating. Mr. McDaniel died at a Plainview hospital at 4:30 Sunday afternoon. He fell at his home Saturday and received a hip fracture. A native of Paris, Texas, he married Miss Ada C. Crain, December 27, 1891, making their home in Ford County until they moved to Briscoe County February, 1897, and settled in the Rock Creek community, May 15, 1898. The couple moved to Silverton in 1946.

Funeral Services Held Tuesday for R. N. McDaniel

Besides the widow survivors are two daughters, Mrs. Roy W. Crouch, Mena, Arkansas and Mrs. Wilbur Wilson, Plainview; three sons, J. C. McDaniel, Co's Bay, Oregon; W. T. McDaniels, Plainview, and R. N. McDaniels, Jr., Silverton. Sixteen grandchildren and five great grandchildren survive. Mr. McDaniel was a member of the Church of Christ. Interment was made in the Silverton Cemetery under direction of Stewart-Douglas Funeral Home.

97-TON ATOM SMASHER

THIS ATOM-SMASHING coil may also have its place in trucking history, too. After many months of controversy because of its weight—97 tons—the coil was delivered to Carnegie Institute of Technology's Nuclear Research center at Saxonburg, Pa. The coil was wound in Brooklyn Navy Yard as the Bureau of Naval Research's contribution to the atomic research program. But highway commissioners blocked overland delivery, forcing a 3600-mile water voyage via the Gulf of Mexico, the Mississippi, Ohio and Allegheny rivers. Despite claims of highway experts that such heavy loads would crush the Pennsylvania roads, Pittsburgh papers reported: "the coil, carried on I-beams equipped with heavy-duty 1400x24 General tires, was trucked 33 miles from the Kittanning, Pa., locks to Saxonburg, Pa., without damage to the highways. Most of the highways traveled were secondary roads, at that." Navy officials, claiming this one of the largest hauling jobs ever undertaken by them, attributed the successful hauling to "proper sized tires and mechanically perfect equipment."

Big Delegation From Here To Attend East-West Bus Line Hearing at Vernon

Hearing on a proposed bus route which would provide two east-west trips daily through Silverton will be held May 17 and 18 in Vernon, representatives of the Chisholm Motor Coaches, Inc., announced last week. At a meeting of the Lions Club Thursday night a resolution was adopted asking the Railroad Commission of Texas to grant said application for the new route. A delegation of Silverton and Castro County citizens will make the trip to Vernon to appear before the Railroad Commission in the interest of the line. Twenty-five Lion Club members indicated they would go if possible. A bus furnished free by the company will leave Badgett's Drug store at six o'clock a. m. May 18, to go to Vernon. As many business men as is possible are urged to make this trip. Transportation both ways will be free. There is a public need for the proposed service of the Chisholm Trail Motor Coaches, Inc. Upon motion of Lion C. D. Wright, and second by Lion W. H. Tennon, and unanimous vote of the members of the Lions Club of Silverton. It Was Resolved: That the Lions Club of Silverton enter an appearance in Docket No. 2291-B and urge and pray the Railroad Commission of Texas that it grant said certificate as applied for, and that Conrad Alexander, secretary, furnish and certify to the Railroad Commission of Texas a copy of this resolution. Entered in the Minutes of the Lions Club of Silverton, in Silverton, Texas, this 5th day of May, 1949. Attest: CONRAD ALEXANDER, Secretary of Lions Club of Silverton.

County Commissioners and Judge In Lubbock on Road Matters

County Judge, J. W. Lyon, Jr., Commissioners Milton Dudley, Alton Steele, Dick Bomar and B. K. Hamilton, made a trip to Lubbock Tuesday and met with S. C. McCarty, district highway engineer of this district. Mr. McCarty announced the designation of two farm-to-market roads that will be the county's next hard-surface roads. The roads designated include a strip of three to five miles on the road known as the Claude Crossing road, two miles on the Rock Creek-Lockney Road. Mr. McCarty told the court that it would likely be next year before the work would be started.

Visitors in H. Roy Brown Home Sunday

Mr. and Mrs. H. Roy Brown had as their dinner guests Sunday Mr. and Mrs. Durward Brown and children, of Plainview; Mr. and Mrs. Milton Dudley and children; Mr. and Mrs. Norlan Dudley, and Mrs. Annie Campbell. Visitors in the afternoon were: Mr. and Mrs. Sid Brown of Cedar Hill community. Mr. and Mrs. Jack Brown, of Hereford spent the week end with his parents, Mr. and Mrs. Ed Brown. Mr. and Mrs. Bib Hill and family spent Sunday in Plainview with Mrs. W. T. Haley, mother of Mrs. Hill.

Owls Advance To Finals In District Nine Play

Silverton's potent Owls had a scare thrown into them Tuesday afternoon by the terrible Turks of Turkey. Going into the 7th inning the score was tied up at 3 all, but the Owls were able to push across three tallies to emerge victorious 6-4.

Hall County Road Boosters Get Conditional Nod From Commission

The Memphis Democrat. In response to the session of Judge O. M. Goodpasture and Clifford Farmer with the Texas Highway Commission last Thursday in the interests of a bridge over Prairie Dog Fork of Red River, and the completion of a short stretch of paving on Highway 70, a letter to Hall and Briscoe Counties gives conditional assurance that the Highway Commission is eager to have the work done as soon as funds are available.

The letter is given in full below, in order that all may know what efforts are being made for this important road work and what results are in prospects. The letter follows: Hall and Briscoe Counties Mr. Clifford Farmer, manager Memphis Chamber of Commerce, Memphis, Texas Dear Mr. Farmer: Reference is made to the appearance of the Hall and Briscoe Counties delegation before the Highway Commission April 28th regarding improvement on State Highway No. 70 from Mulberry Creek Bridge south to a point 0 miles southwest of the Prairie Dog Town Fork of the Red River. The State Highway Commission has given most careful consideration to the request and recognizes the merit of further improvement on this highway and I am requested to inform you of their desire to authorize further construction on the road at such time as funds can be made available.

State Highway 70 is one of the many State Highways on the system which must be supported entirely from State revenue sources. Since all maintenance and betterment as well as the matching of Federal funds for construction must come from State fund sources, there is a very small balance at the disposal of the Highway Commission which can be used for construction on the State routes. The Commission is heavily involved in attempting to finance construction on this highway in Gray, Roberts and Ochiltree Counties and is not in position at this time to finance additional sections of construction. You may be assured of their interest, however, in extending the improvement in your counties at the earliest practicable date.

Assuring you of our appreciation of your interest and cooperation. I am, Sincerely yours, D. C. GREER, State Highway Engineer.

Two Killed in Wreck At Happy

J. T. Graham, 52 years old, of Amarillo, and his sister, Mrs. Hattie Robie, McLean, were killed early Tuesday morning in a head-on collision on Highway 87 inside the north city limits of Happy.

Showing at Palace Theatre May 15, 16, "Johnny Belinda"

The Palace Theatre is showing a great show Sunday and Monday, May 15, and 16. If you want to see a good show with lots of good acting and a good story, be sure and see "Johnny Belinda" with Jane Wyman and Lew Ayres. This picture won Jane Wyman an Oscar for the Academy award picture Johnny Belinda.

Showing at Palace Theatre May 15, 16, "Johnny Belinda"

Mr. and Mrs. L. G. Gilkeyson and daughter, La Rue, and Sharon and Beebie Garvin spent Sunday in Dimmitt in the home of Mr. and Mrs. Earl Brock and family.

Couple of Pests to Watch During the Coming Year

Hornflies and Lone Star ticks are a couple of pests Texas stockmen ought to be on the lookout for this year. James A. Deer, assistant extension entomologist of Texas A. and M. College, says they are showing up on the range along about this time of the year, Deer says, and both of them should be controlled in order to keep up beef and milk production. Insects keep cattle in a nervous condition and often cause wounds that come infested with screw worms.

The most effective control for hornflies is DDT. Animals sprayed or dipped with eight pounds of 50 percent DDT wettable powder in 100 gallons of water will be protected from hornflies for at least 10 to 15 days. Two or three treatments of DDT in the spring and early summer and or more in the fall usually kills the hornflies for a year.

Dipping or spraying at two week intervals will put a stop to the Lone Star tick. Control should be started in the spring as soon as the ticks are found and continued until no more are seen, Deer says. A combination of BHC and DDT is recommended for tick control. The same amount of DDT is used here as in the horn-

Ten Hereford Steers Placed on Irrigation Pasture for Test

Ten hereford steers with an average weight of 673 pounds, directly from dry lot feeding, were turned on irrigated pasture at Texas Technological college range May 2 to begin the final year of a grazing experiment.

W. L. Stangel, dean of agriculture and director of the feeding test, said the steers, picked at random in November from the calf crop at Pan-Tex where they were bred on the college lease, gained 1.5 pounds average per day in winter feeding. The steers weighed 417 pounds average when brought to Texas Tech in November. They were fed in dry lot a mixture of sorghum silage according to appetite.

The irrigated plots used in the tests which started in 1947-48 are alfalfa and brome grass, alfalfa, perennial rye grass and alfalfa, brome and perennial rye grass. During this final phase, two and a half animals units per acre will be grazed. Previously the ratio has been two units per acre in 1947-48, and three units per acre in 1948-49.

Comparative results from the three tests will be published by the agriculture division at the end of the grazing period.

Frigitaire at Simpson Chevrolet Company.

fly remedy. Mix this with four pounds of 6 percent wettable gamma BHC in 100 gallons of water. Mix the chemicals first in a small amount of water, then add this mixture to the spray tank or dipping vat.

But whether you're chasing away the hornflies or getting rid of ticks, Deer reminds the cattle owners not to use DDT on dairy cows nor beef cattle that will be slaughtered within 30 days. Livestock will be better producers if they don't have to fight off flies and ticks.

LAKE MONSTER

Huge Turtle Spurs Search

CHURUBUSCO, Ind.—Churubusco was all excited about the monster turtle in Fulks lake.

Dozens of farmers and townspeople troked to the lake for a look or with nets and grappling hooks to help catch it.

Those who claimed they saw the turtle said it had a head as big as two fists doubled together and must weigh 400 to 500 pounds.

The hunt was spurred by reports that the Cincinnati zoo was interested in buying the reptile for \$1,500.

Another report said the turtle had ventured from its home in the lake near here onto a surrounding farm and that some cattle had mysteriously disappeared.

"But that ain't so," farmer Gale Harris said. "That turtle's never been out of the lake, far as we know."

The muddy, seven-acre lake, 90 feet deep at its center, is on Harris' farm and has become the focal point for cager searchers.

Harris said, "We had him trapped in a net but he slithered away to the right and dived down into the water."

Used Wire Net

The searchers were using a chicken-wire net about four feet long attached to two fenceposts. Men in a row boat crisscrossed the lake searching for the turtle in order to drop the net on it. Helpers on shore held ropes attached to the fenceposts to pull the turtle ashore if it showed itself.

"There's no doubt it's there," Mrs. Harris said. She said her husband and her son, Vaughn, 12 had seen it. So had her brother, Charles Wilson, and his son-in-law.

Harris said the reptile appeared to be an ordinary snapping turtle, but much overgrown. Other snappers in the area are seldom more than 14 or 15 pounds, he said.

In Chicago, Clifford H. Pope, curator of reptiles at the Field museum, said the record weight for a snapper is 86 pounds. He said only an alligator turtle from the south could run as high as 200 pounds.

Seen Last Summer

Mrs. Harris said her brother Charles first saw the turtle last summer, but then it disappeared from view until recently, when both her husband and son saw it swimming across the lake.

She said two investigators from the Cincinnati zoo came to verify that the turtle was there. She said she wasn't sure whether they saw it, but that they "seemed satisfied."

The \$1,500 price has been circulating around the area, but probably has "grown by rumor," Mrs. Harris chuckled.

Pilot Chops Through Floor To Fix Plane Landing Gear

BEDFORD, MASS.—An air force captain chopped through the cockpit floor of a training bomber to repair a disabled landing gear so the plane could land safely with only a few minutes' gasoline left.

His hands cut and bleeding, Capt. Francis G. McLaughlin hacked his way through the floor with an emergency ax, a screw driver and a hammer to reach the balky mechanism. He used his navigation books to wedge up the floor boards.

As McLaughlin worked against time to repair the faulty gear, Lt. J. E. Whitley circled the field repeatedly while shouting periodically the amount of gasoline remaining in the tank.

The plane's radio had gone dead just as the two fliers were bringing it over the field but the control tower was able to signal to them that their landing gear had not locked.

McLaughlin first tried to work the wheels into position with an auxiliary hand crank. When that failed he began chopping through the floor. When he had made a hole big enough to push his hands through, he pushed the landing clutch into position by using the ax handle as a lever.

Later, the fliers told base officials that when they brought the plane down they were not sure whether the wheels were locked. They knew only that they were down.

Scientists Learn Humans Can Stand Severe Cold

WASHINGTON.—Scientists from the University of Washington, cooperating with the air force, have learned that man can stand up to sub-zero temperatures better than expected.

Heat loss to the body from inhaling below-zero atmosphere, the air force announced today in telling of tests made in arctic regions, is much less than formerly believed. Radiations from even a weak mid-winter Alaskan sun was found to have had a marked effect on reducing body heat loss.

Especially designed insulated clothing, equipped with wires and tubes to check temperatures at various points over the body, were worn in 40-degree-below-zero weather in making the tests.

Vetch Seed Tested Free of Charge to Texas Farmers

Texas farmers have a way of finding out just how good their vetch is.

If they will send in to the Vetch Seed Testing Laboratory at the Texas Agricultural Experiment Station in College Station, this laboratory will make germination and purity tests of the vetch seed free of charge.

E. B. Reynolds, experiment station agronomist in charge of the laboratory, says the vetch sent in

to the testing laboratory should be a representative sample of the vetch the farmer has on hand. At least two pounds of vetch should be submitted for sampling, sent in cloth bags or securely packed to prevent loss or breakage.

It takes at least three weeks to get a report on the sample of vetch, Reynolds says. Fourteen days are required to make the germination tests and about a week for shipment to and from the laboratory.

Send the vetch samples to Vetch Seed Testing Laboratory, Department of Agronomy, TAES, College Station, Texas. Name and

address of the sender and any identification should appear on the tag or label on the outside of the package, says Reynolds.

When the grower receives his information, results of the tests may be used by him in securing official tested seed labels. Such labels must be applied for directly to the Seed Laboratory Division, State Department of Agriculture, in Austin.

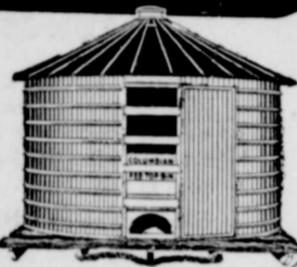

Since this laboratory was established especially to make germination and purity tests of vetch seed produced by Texas growers, they are urged to use these services if they need them, Reynolds

B-36'S RANGE FAR

U.S. Bombers Widen Threat

FORT WORTH, Tex.—A B-36 carrying a 10,000-plus pound bomb load has completed a record non-stop, non-refueling 9,100-mile flight which officials said proved U. S. bombers can make roundtrip attacks on any European enemy front North American bases.

The giant superbomber landed at Carswell air base at Fort Worth where on March 2 another U. S. bomber, the B-50 "Lucky Lady II," made aerial history by completing a nonstop, around-the-world flight.

Its route took it from Carswell to Minneapolis, Minn., Great Falls, Mont., Key west, Fla., and across the Gulf to Houston; from Houston back to Fort Worth, back to Great Falls, on to Denver, Seattle, back to Denver, to Casper, Wyo., and back again to Fort Worth.

Wing Tanks Loaded

The plane's wing-tanks were fully loaded with 21,116 gallons of gasoline and 1,200 gallons of oil when it took off Thursday.

The crew reported the B-36 could have stayed up longer if adverse head winds and bad weather had not made landing advisable.

Air force officers said the trip surpassed two past performances of the cigar-shaped bomber. On December 7, a B-36 flew 8,400 miles from Hawaii in 34 hours.

Last January the makers of the plane, Consolidated-Vultee, flew from Fort Worth to Murco air force base in California, dropped two 42,000-pound bombs and returned to Fort Worth without refueling.

Proved Capabilities

The recent flight came close to proving Lt. Gen. George C. Kenny's belief concerning the capabilities of the ship. When it was introduced to the public last October, the commanding general of the strategic air command said:

"We believe it (the B-36) can carry a 10,000-pound bomb load on a combat mission of at least 10,000 miles."

Exact weight of the bomber's load on its record-breaking flight was not disclosed. Officers said it was "more than 10,000 pounds."

Air force officials at Carswell would not say whether bad weather halted an attempt to establish the 10,000-mile claim.

Sphinxes With Human-Like Heads Are Found at Luxor

CAIRO.—A broad avenue lined with sphinxes whose heads bear human likenesses has been found at Luxor beneath a pavement which hid it for 1,750 years.

The find was by M. Zakaria Goussim, chief inspector of antiquities for upper Egypt, throws new light on the grandeur of the ancient Pharaonic city of Thebes.

Thebes was built on the Nile south of here more than 3,000 years ago. It was the capital of a powerful line of Pharaohs whose ancestors liberated Egypt from northern invaders. Present day Luxor, a winter resort and storehouse of history, stands among its ruins. Just across the Nile is the "valley of the kings," where the tomb and treasures of Tutankhamen were found in 1922.

The remains of two great temples have attracted visitors to the site for centuries. One is the temple of Karnak, which was the earthly palace of the Theban god Amon. The other is the temple of Luxor, the god's "suburban home." In Pharaonic times, during an annual 12-day festival called Opet, priests carried statues of Amon, his wife and son in the sacred barques from the main palace to their suburban establishment.

Three kilometers separate the temples. It is known, from hieroglyphs and sculpture, that they once were connected by a broad avenue lined on each side with stone sphinxes. The road was built originally by the Pharaoh Amenhotep III, father of King Akhnaton, ill-fated advocate of a single benevolent god. Its beginnings, bordered by ram-headed sphinxes, were uncovered some time ago in front of the Temple of Karnak. Most of its length remains buried beneath the debris of successive civilizations.

Uranium Find in Florida Subject of Study by U. S.

KNOXVILLE, TENN.—The presence of uranium in the "land pebble" phosphate deposits of Florida has been the subject of study by a United States geological survey field party since 1947.

This was disclosed here by a United States geologist, J. B. Cathcart, who is stationed at Plant City, Fla.

Cathcart spoke at a symposium on southeastern mineral resources sponsored by the University of Tennessee. The three-day meeting was attended by geologists from India, the District of Columbia, and 15 southern states.

About 2,800 square miles are included in the Florida phosphate deposits with which the uranium is associated, Mr. Cathcart said. The area includes Highlands, De Soto, Sarasota, Manatee, Hardee, Hillsborough and Polk counties.

FACT OR FANCY?

We all have our pet dreams... farm expansion, home improvements, schooling for the young ones and long vacation trips or full retirement.

Now, while times are good, you can help these dreams come true.

By investing in safe, sure U. S. Savings Bonds, you can grow every \$3 you

save into \$4—and in only ten years. Then you'll find you've built yourself a little nest egg that spells real opportunity for your future.

The longer you put off savings, the longer you put off your dreams. Invest every dollar you can in U. S. Savings Bonds... at your bank or post office.

Plant more opportunity in your future!

McCORMICK-DEERING COMBINES

Cost-Cutters
WHEREVER GRAIN IS GROWN

Just name the crop to be threshed... and don't worry if field conditions aren't perfect. Because you can depend on a McCormick-Deering Combine to come through with a performance that stands out, both for economy of operation and saving of grain.

Yes, there's a cost-cutter for every grain-growing farm in this reliable line of harvester-threshers. For small farms the 5-foot No. 52-R is the ideal size. For larger operations... 6-foot No. 62, 12-foot No. 122 (pull-behind) and No. 123-SP (self-propelled).

Remember this—every McCormick-Deering combine model is the result of 117 years' experience in the manufacture of grain-harvesting equipment. You can be sure that the best in harvester-thresher development will carry the McCORMICK-DEERING name. So don't wait; let us show you why it pays to own a McCormick-Deering Combine.

Ronald Vaughan Honored on Birthday

Ronald Vaughan, son of Mr. and Mrs. Ewing Vaughan, was honored Tuesday in the first grade room at school with a surprise birthday party on his seventh birthday by his mother, assisted by Mrs. Elbert Stephens and four teachers.

Ronald was invited out of the room by his teacher, and when he returned all his class was seated and sang "Happy Birthday to You." He received many nice gifts from his little friends.

Cookies and ice cream were served to 40 guests and four teachers.

Mrs. Roy Allard, of Brice, visited her mother, Mrs. T. A. Northcutt Monday.

Mr. and Mrs. Noah Amerson, of Canyon, visited her mother, Granny Patton, Sunday.

Band Entertained With Party at Seefeldt Home

Mr. and Mrs. Harold Seefeldt entertained the band students with a party Tuesday night at their home. Supper was served on the lawn. They served fried chicken, deviled eggs potato salad, bread, lemonade, and later had a marshmallow roast.

Those enjoying the occasion were: Mary Lou Bellinger, Norma Jo Teeple, Mary Tom Bomar, Neva Joy Reithmayer, Bonnie Watters, LaWanda Garvin, Pat Northcutt, Donald Rhea, John Francis, Robert Hill, Billy Wayne Garvin, Jim Hardin, Darrel McWilliams, Elton Cantwell, Billy Don Stevenson and Billy Tennison. Hostesses, Mr. and Mrs. Harold Seefeldt and daughter, Diana Jo.

Mrs. James Patton Honored With Birthday Supper

Mrs. James Patton was honored with a surprise birthday supper at her home Friday night.

The following friends presented Mrs. Patton with a gift, after which they all enjoyed a chicken supper: Mr. and Mrs. Glen McWilliams, Glenda Ray and Mary Beth; Mr. and Mrs. Charles Cowart; Mr. and Mrs. Wayne McCutchen, Waynell and Joy Ann; Mr. and Mrs. Bryant Eddleman, Sharon and Juleta; Mr. and Mrs. Snooks Baird and Pat; Mr. and Mrs. Shoby Haynes and Shirley; Mr. and Mrs. Judd Donnell, Janice and Karen; Edwin Davis, Mrs. Mills, Peggy, Dwine and Jeannie; Mr. and Mrs. James Patton, Pat J. E., and Jerry, and Ronald Dale Kitchens.

Mrs. Arval McGowen Honored With Shower Friday

Mrs. Arval McGowen, the former Cordellia Self, was honored with a tea and shower Friday afternoon at the home of Mrs. Frank Hunt. The house hostesses were: Mrs. Austin Bailey, Mrs. R. L. O. Riddell, Mrs. J. E. Wheelock, Mrs. C. L. McWilliams and Mrs. Pearl Simpson.

Mrs. J. E. Wheelock received the guests, Mrs. Pearl Simpson presided at the bride's book. Gifts were shown by Mesdames Hunt and Bailey. Mrs. R. L. O. Riddell presided at the tea table which was covered with a lace cloth. Cookies and punch was served to the guests. A number were unable to attend due to the inclement weather.

CARD OF THANKS

I want to thank Dr. Shy and the whole hospital staff for their good deeds and kindness while I was in the hospital. May we all stand for our hospital for the good of health and man kind. Also I want to thank each and every friend for the many nice gifts and cards and kind deeds shown me throughout "Mother's Day and through my illness.

How great to have so many friends—what a great world to live in.

Respectfully,
Mr. and Mrs. W. L. McMinn.

Mr. and Mrs. Pat Cogdill and son, of Liberal, Kansas, visited over the week end with their daughter and family, Mr. and Mrs. Arnold Brown.

Mrs. Velma Morgan Wed to John Boyles Sunday Afternoon

Mrs. Velma Morgan of Silverton and John Boyles of Quitaque, were united in marriage Sunday afternoon at 3 o'clock at the Baptist parsonage. Rev. G. A. Elrod officiated. Attending the couple was Miss Mary Lee Raasch. Others attending the ceremony were the hospital staff and Mrs. Boyles' son, Rayburn.

Mrs. Boyles is employed at the Briscoe Clinic-Hospital and plans to continue working for awhile.
