Silverton Owls Vs. Lakeview Eagles To-Night

P. T. A Organization Completed and Officers Elected

Final organization of the P. T. A. has been completed and officers have been elected to carry on the work of the organization. Last Thursday night they had a good crowd out, and much interest was shown in the P. T. A. work. Several interesting talks were made and refreshments were served to those in attendance. They voted to hold their regular meetings the second Thursday in each month at 4 p. m. at the school auditorium.

The following officers were elected: President, Mrs. Cleat Miller; vice president, Mrs. Alvin Bedin; secretary, Mrs. Lee D. Bomar; treasurer, John Lawrence; parliamentarian, Mrs. Clarence Anderson.

Program Committee: Mrs. Warner Reid, chairman; Mrs. John L. Wilmoth, Mrs. O. M. Blackshear, and Mrs. Albert Mallow.

Membership Committee: Mrs. E. E. Minter, chairman; Mrs. K. N. Tiffin, Mrs. Gordon Montague, Mrs. Johnnie Lanham and Mrs. Grady Adcock.

Hospitality Committee: Mrs. Clyde Tunnell, chairman; Mrs. G. A. Elrod, Mrs. Tom Bomar, Mrs. C. R. Badgett, and Mrs. Dee Williams.

Publicity chairman, Mrs. Ben Whitfield.

James L. Allred, Former Silverton Boy Buys Newspaper

James L. Allred, of Amarillo, who was reared at Silverton and the brother of Mrs. Judd Donnell, has bought the Mansfield News and assumed management October 1. The purchase was made from Paul M. Tonsing.

Allred graduated from Silverton High School and attended A. and M. College and served four years in the navy. He is well known in Silverton and has many friends here who will wish him well in his new business venture.

Mr. and Mrs. Troy Denison and children, of Anton, spent the week end with her parents, Mr. and Mrs. W. H. Tension.

Mr. and Mrs. Gordon Montague and son, Teddy Gail, visited relatives in Lubbock last week.

After getting mauled around pretty badly by Hereford last Friday the Owls journey to Lakeview to-night (Thursday) October 20, to do battle with Lakeview in an important district game.

This is an important game because the Owls have a tie game to mar their record and loss would just about eliminate them from the district race.

To date the Eagles have a record of five wins and no losses. They have allowed only 12 points to be scored against them this season. That's a mighty fine record that the Owls are determined to break.

Should the Owls win this one, they would be in second place behind Turkey. Then, should they beat Turkey next week end they would own undisputed possession of first place. Sounds easy, doesn't it? However, Lakeview is favored to win on the grounds that they do have an undefeated team and that they did beat Happy 12-6. Now's a good time for an upset though.

Lion Club Postponed Meeting Until October 27

The regular meeting of the Lions Club has been postponed from Thursday night, October 20, to Thursday night, October 27, on account of the ballgame between Lakeview Eagles and the Silverton Owls to be played at Lakeview.

All members are urged to keep in mind the change in meeting date and plan to attend.

VISITORS IN W. W. MARTIN HOME

Out of town visitors in the W. W. Martin home over the week end were: Dr. and Mrs. C. C. Jowell, of Cleburne, Texas; Mrs. W. G. Jowell, Itasca, Texas; Mrs. O. D. Peden, Lubbock, Texas; Mr. and Mrs. Grady Martin, Lorenzo, Texas. Local visitors were: Mr. and Mrs. George Martin, Mrs. Ashel Cross, Dorothy Joe and Billy Fay Hickman and Mr. and Mrs. J. E. Jowell and son, Johnny.

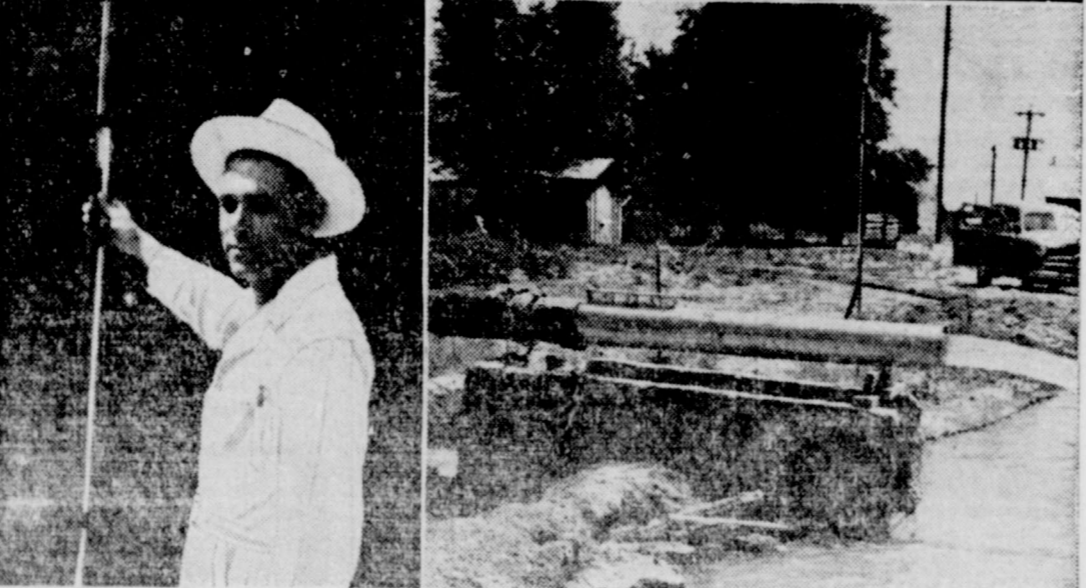

Mrs. Joe H. Smith and Mrs. Grady Adcock attended a church meeting of the Methodist Church in Plainview Friday.

Mrs. Clifford Davis, of Amarillo, spent the week end with her mother, Mrs. J. H. Burson.

Students Return From Soviet Jail

LA GUARDIA FIELD, N. Y.—Warren Oelsner, of Oyster Bay, Long Island, and Peter Sellers, of Radnor, Pa., two college students who cycled through the Soviet zone of Germany and were seized by Russians, are shown on arrival at La Guardia airport. Held since July 20th, they were released from a Soviet-zone jail in Frankfurt on September 29th. Left to right are: Mrs. Oelsner, her son Warren; Peter Sellers and his father.

Top, testing assembly for efficiency survey on electric well at W. B. McAdams farm near Muleshoe. Shown are Jeff Peeler, Southwestern Public Service Company Muleshoe manager; Earl Lewis, agricultural engineer for Southwestern Public Service, who conceived and perfected the tester; and Warren Dayton, Lewis' assistant. Bottom left, Lewis measuring water flow through water gauge tube, and, at right, side view of water flowing through tester.—Pictures Courtesy Southwestern Crop and Stock.

"Colorado Territory" Will Play at Palace Sunday, Monday

"Colorado Territory" with Joel McCrea, Virginia Mayo and Henry Hull, showing at the Palace Theatre, Sunday and Monday, October 23 and 24, promises plenty of entertainment.

This picture contains plenty of hard riding, straight shooting, and they have used beautiful photographed western territory as the background. Be sure and see this picture.

Week's program appears on page two.

Silver Tea and Book Review at Methodist Church October 27

A silver tea and book review "The Big Fisherman" by Lloyd Douglas, will be reviewed by Mrs. N. S. Daniel of Lockney, October 27, at 2:30 o'clock at the Methodist Church.

"The Big Fisherman" is the story of Simon Peter, that most lovable and human of the Apostles of Jesus.

The books accounts for the five thousand year old feud between the Arabians and the Jews.

It is a daring book, for in it Jesus is himself a central character.

A special invitation is extended to all. The review is sponsored by the Womens Society of Christian Service.

COTTON GINNING REPORT

Census report shows that 511 bales of cotton were ginned in Briscoe County, Texas from the crop of 1949 prior to October 1. Paul Miller, Special Agent.

Mrs. Ola Mills visited Thursday and Friday in Tulia with Mrs. Emery Mills, while her son, Emery, was on a deer hunt at Norwood, Colorado.

Mr. and Mrs. Jack Brown and children are visiting his parents, Mr. and Mrs. Edd Brown and other relatives this week.

NEW WELL TESTING DEVICE INTRODUCED BY EARL LEWIS, WITH SOUTHWESTERN PUBLIC SERVICE COMPANY

News release Southwestern Crop and Stock, Through Dan Jones Castles.

A new water well testing device, which gauges not only the flow of a well, but through a series of computations will reveal the percentage of efficiency at which a well is operating, has been perfected by Earl Lewis, of the Utilization Department of Southwestern Public Service's Plainview office.

The device, which actually is a simple arrangement, was put to test at several wells in the Plainview-Floydada-Muleshoe irrigation belts during August. Company officials announced that a testing service is now available to irrigation farmers, without charge.

The measuring device consists in the main of a seamless aluminum tube, 8 inches in outside diameter, equipped with a 6 inch circular outlet. In installing it for test, one end of the tube is slipped into the end of the discharge pipe on the pump and the joint made water tight with packing and clamps. The tube, a little less than 8 feet in length, is equipped about two-thirds of the way toward the outlet end with a small pipe, about one-half inch in size and a few inches long. A few feet of rubber hose (flexible) is attached to the small pipe and the hose is secured to a brace pipe so it will be elevated, something like three feet above the outlet tube.

Height of water in the small side tube is used for computation of quantity of water from the well. Actually, it is a velocity test, Lewis will explain, and rise of the water in the tube is sometime influenced by turbulence or lack of turbulence of the stream coming from the pump. However, the test will average within two percent of actual flow. Meantime, tests are made on water levels in the well, and total efficiency of the well is based on a series of computations, not so complicated, but hard to explain in words, that

are made from per minute outflow of the well, and static (pre-pumping) water level and amount of drawdown of the water level. Also included in the calculation is the amount of effort contributed by Reddy Kilowatt, the well known electric power gnome.

First Grade to Give Operetta Sleepytown October 27

The First Grade of the Silverton Public School under the direction of their teacher, Mrs. Jessie Wilmoth, will give the operetta "Sleepytown," Thursday night, October 27, at 7:30. There will be no admittance charge and the public is invited to attend.

Mr. and Mrs. J. C. Turner and Mr. and Mrs. S. R. Turner visited relatives in Wellington Sunday.

New Bus Line Gets Approval October 18

Brahma Calf Loses 150 Lbs. in 3 Days With Feed All Around Him

One of the little brahma calves at the Silverton roping arena got himself caught in the self feeder filled with cotton seed hulls and meal. The calf was on hand Saturday night when some members of the club were practicing and he wasn't missed until Tuesday morning when J. W. Brannon, Jr., and Pat Pavlichek went down to see about the feed. They were pulling the hulls and meal down into the feeder from the front and Pat found himself holding to the hind leg of an animal. Of course he was startled when he pulled on the leg and it moved. He called to J. W. and they went to the door to investigate. They found the calf buried in the feed with only his head protruding above.

The feeder was almost full and all the feed would have to be moved in order to get the calf out the door. They made a fast trip to the John Deere shop and fetched a saw and hammer to remove some boards from the side. After the boards were taken off they lifted out a very thin and weak little brahma which wouldn't weigh more than 150 pounds. The calf would have easily weighed 250 pounds on Saturday. The little weakling was very stiff and had no desire to move; however, he did drink a small amount of water. About 10:30 Tuesday morning the calf drank some more water and ate four pellets of cotton seed cake. That night he was able to stand alone but he could not get up without help. He even walked a few steps under his own power and ate some mixed feed.

Wednesday morning the calf was feeling much better and after being helped to his feet he would eat and drink and shake his legs and stomp the ground as though his legs were tingling. No one knows how the calf got in the feeder. The only opening was an eleven inch space in the back of the trough where the feed comes out.

Mr. and Mrs. Roy Brown visited in Plainview Friday.

Austin, October 18.—Permission for Chisholm Trail Motor Coaches, Inc., to establish a new route between Farwell and Wichita Falls was granted by the Railroad Commission today.

Twenty days will be allowed for filing of any objections or exceptions to the order, the commission said.

The route will go from Farwell by US Highway 60 to Bovina, then on State 86 to Estelline. US 287 to Electra. State 25 to an intersection with State 240, State 240 to Burkburnett, US 281 to Wichita Falls.

The bus line will serve Farwell, Bovina, Dimmitt, Nazareth, Tulia, Silverton, Quitaque, Turkey, Parnell, Estelline, Carey, Childress, Kirkland, Acme, Quanah, Chilli-cothe, Tolbert, Vernon, Oklaunion, Harold, Electra, Pumpkin Center, Clara, Burkburnett, Sheppard Field, Wichita Falls and intermediate points.

Daily service of four schedules each day between Wichita Falls and Vernon, two each way between Wichita Falls and Farwell, and three each way between Wichita Falls and Childress is proposed.

Vigo Park Community Church Dedication To be October 30

Roland Moore will make the main talk for the dedication, and several past pastors of the church will be on hand to make talks, Sunday, October 30, when the new community church will hold dedication services. The church building has just been completed and was sponsored by the Methodist and Baptist church workers of the community.

The services will begin at 10 a. m. and continue during the day with a basket lunch at the noon hour.

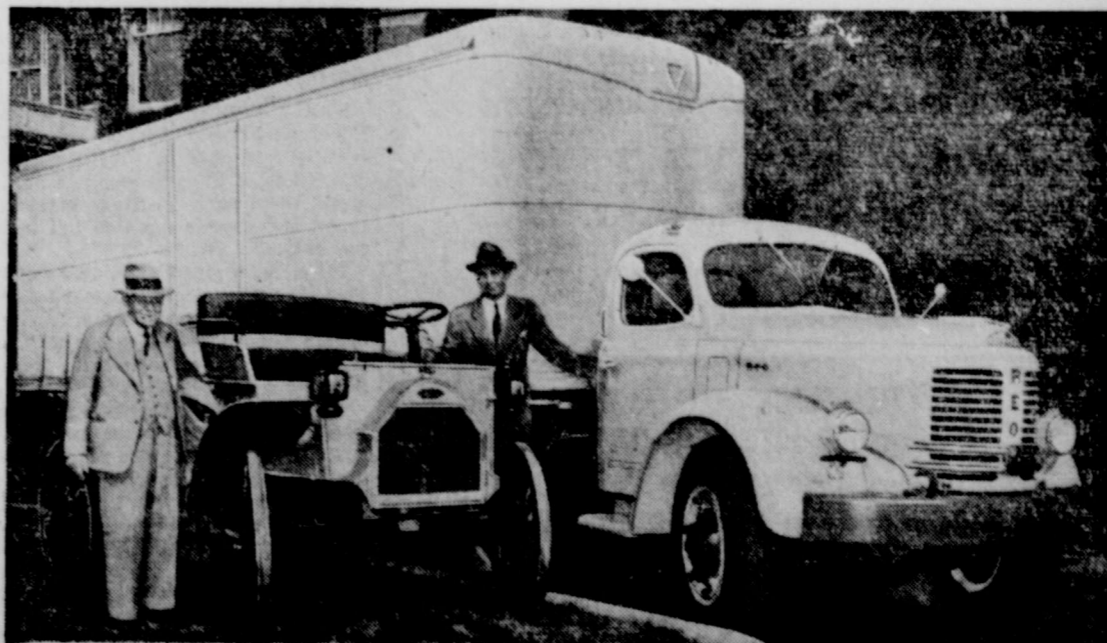

Rev. Woodrow Williams is pastor of the Methodist Church and Ernest Leka the Baptist pastor. Everyone is invited to attend the all-day meeting. Come and meet your friends.

UNCLE OF MRS. EUGENE LONG DIES AT LEVELLAND

Ed Hazelwood, uncle of Mrs. Eugene Long, died at the home of his daughter, Mr. and Mrs. Wes Rainey, at Levelland Sunday morning at 1:30. The body was shipped to his home at Ukiyah, California for burial.

Mrs. C. D. Wright is visiting relatives in Hereford this week.

Auto Pioneer Still Going Strong on Anniversary

Ransom E. Olds, left, at 85 the only living member of America's early automotive pioneers, takes part in the 45th anniversary of the company bearing his initials — Reo. With Mr. Olds is Joseph S. Sherer, Jr., President of Reo Motors, Inc., and Reo trucks of today and yesterday. The 1950 Reo is powered by the company's new Gold Comet engine, recently introduced. The company, originally named the Reo Car Company, was formed on September 27, 1904. Just 155 days after ground was broken for the first small building in Lansing, Mich., a carload of new Reos was shipped. Reo today manufactures trucks, transit coaches and school buses, and is the world's largest producer of power lawn mowers.

HANDLE COTTON WITH CARE AND BETTER PRICES WILL BE RECEIVED

The Texas cotton harvest is now in full swing and the shortage of pickers may cause producers to follow practices that will lead to lower selling prices, says F. E. Lichte, extension cotton gin specialist.

Care in handling cotton at harvest time pays big dividends, Lichte says. Cotton picked green or wet and taken directly to a gin not equipped to handle such cotton may be reduced in value from \$5 to \$35 per bale. Rough preparation at the gin is costly to both the farmer and the ginner for they both lose money, he says.

Wet, dirty cotton usually means a poor quality product that brings less money, says Lichte and growers should pick carefully, take their cotton to the gin dry, and then see that it is ginned properly.

Lichte says the cotton producer should not expect the ginner to turn out a quality product at the gin unless a quality product is provided by the farmer. The farmer and ginner both have a stake in the careful preparation of the cotton. It helps the ginner's business and the farmer's income. Two mighty important items.

BOOM SLOWING DOWN ON TEXAS FARM AND RANCH LAND SALES

Almost two-fifths of Texas' farm and ranch land has changed hands since 1940.

In one county, Nacogdoches, more than half of all farmland has changed ownership in the past

Ask your neighbor about Frigidaire, she has one. Simpson Chevrolet Company. 39-4fc

eight years. And for the past two years land prices for Texas as a whole have been at record high levels.

But there is evidence, according to a joint USDA-Texas A. and M. College System study released by the Texas Agricultural Experiment Station as Progress Report 1181, "Texas Farm and Ranch Land Prices, 1948", that the boom is slowing down.

Actually the average per acre land price fell 1 percent in 1948, from \$41.79 in 1947 to \$41.36. The 1947 price level was the all-time high.

More significant, say John H. Southern of the USDA bureau of agricultural economics and Wayne C. Rohrer of the A. and M. department of agricultural economics and sociology in their report, is that volume of sales fell off 15 percent in 1948. There was also a 20 percent drop in total acreage sold.

Such marked reduction in sales volume in connection with the leveling off of price can be taken as evidence of a slowing down in the activity of the land market," they point out.

The leveling off of land prices was rather spotty, and the range in prices in the various areas of the state was also wide, the highest sometimes being four to five times greater than the low price paid.

Average land prices in 1948 ranged from \$8.96 per acre on sales of three large ranch holdings in the Edwards Plateau grazing area to \$624.00 per acre for irrigated land in the Upper Rio Grande Valley.

The finger from an old glove or a thimble placed over the end of a curtain rod helps the curtain slip on to the rod easily without catching or tearing.

Public Is Irked As Policemen Try Blue Law Support

HATTIESBURG, MISS. — Police tried to enforce Sunday blue laws, but the shows went on and patrons got into the acts.

Shuttling back and forth in a steady rain from their theaters to the police station, 24 managers, projectionists, and ticket sellers and takers were arrested, released on bond and arrested again for a total of 86 times. Three projectionists made the trip eight times.

Three policemen reported that movie patrons peppered them with tomatoes.

At the Saenger theater, a projectionist locked himself in the projection room in an effort to keep the show going. A policeman simply doffed his cap and used it to block the projection outlet. The screen went black. Patrons booed and yelled.

When police got an ax and a crowbar and prepared to break down the door, the theater opened the room, and the projectionist was taken off to jail.

While he was gone, organ music was played and couples danced on the stage.

To prevent their ticket sellers from being arrested, some theaters closed the box offices and accepted "free will" donations at the entrance.

Police have tried to enforce Mississippi's blue laws which ban motion pictures after 6 p.m. on Sundays. Despite the numerous arrests and interruptions, however, all of Hattiesburg's six theaters continued to operate until their regular closing times.

Musical Notes to Test Hearing of US Sailors

CHICAGO.—The navy is experimenting with a musical-note test which it hopes will prove to be a quick, easy method to discover men with extra-acute hearing.

Such men are needed to operate sound-detecting and ranging gear used in antisubmarine warfare.

The present time-consuming method of testing hearing ability in the navy is the measurement of the distance a person can hear a whispered number of phrases.

This test is generally satisfactory but not detailed or selective enough to meet special needs.

The new method is more accurate, standardized, and can test as many as 300 men at one time.

It consists of a pulsating pure sound which gradually decreases in intensity. Single, double, or triple pulsations alternate as the intensity decreases.

Poor Highway Systems Costly to Car-Owners

WASHINGTON. — Poor highway systems over the country are the greatest obstacle to economical and low-cost automobile transportation, an analyst of the Brookings institution reported.

He contended that unless more and better traffic arteries were provided, the motorist stood to lose all the benefits he might obtain from technological improvements of the automobile.

The study, conducted by Wilfred Owen of the institution's staff, noted that only five to ten cents of the "highway transportation dollar" was being currently spent on highways. This proportion the author regarded as too low. The rest of the dollar is absorbed by the purchase price of the car, gasoline, repairs and other operating items.

This he found to be the case just as an unprecedented 40 million motor vehicles, 20 per cent more than the prewar peak, were in competition for highway space. Furthermore, most of today's roads were declared not adapted to the requirements of heavy volumes of high-speed traffic resulting from population shifts, and a notable trend from urban to suburban areas.

German Electric Seine May Aid Whale Hunters

FRANKFURT, GERMANY.—Two Germans have developed an electrical device which, they say, attracts fish of a predetermined size, stuns them with a slight electric shock and causes them to fall into the net.

Physicist Konrad Kreutzer and Hamburg engineer Herbert Peglow designed the apparatus for fishing sparse deep sea banks, but it has been tried out successfully in fresh water.

At Hamburg they are fitting out a former German mine sweeper, with which they hope to revolutionize the fishing industry.

In front of a normal trawl net they trail a metal plate attached to a generator. By varying the type and the strength of the current fishermen could lure big or small fish, which develop symptoms of anesthesia. They are then scooped up in the trawl.

The invention can also be applied to the whaling industry, it is said. "Shocked" whales could be brought alongside for inspection, then killed or rejected.

"ACCIDENT FACTS" GIVE UNITED STATES AS WORLD'S HIGHEST

The United States may have the highest standard of living in the world, but it also has one of the world's highest accidental death rates.

The U. S. rate in 1948 was 67.1 deaths per 100,000 population, as compared to a world-wide postwar average death rate of 48.9, according to the 1949 edition of "Accident Facts," statistical yearbook of the National Safety Council.

Only three countries topped the accidental death rate of the United States—Iceland, Egypt and Austria. Those countries had rates of 71.8 and 83.8 and 85.9 respectively in 1946.

Mauritius, a British island near Madagascar, had the lowest reported postwar accidental death rate of 25.9 in 1947.

IF A LAMP CARRIES THIS TAG

IT'S GOT TO BE GOOD

The appearance of the "Certified" tag on any lamp, of any type, assures you that the lamp has been submitted to rigid testing by an impartial testing laboratory. It assures you that the manufacturer of that lamp, one of over 100 leading American companies, has submitted his product to a complete test.

For example, the laboratory has determined that the switch will operate efficiently. It has ascertained that the cord is at least seven feet long, has a certified plug, to assure safety. The lamp itself is properly weighted to resist tipping, and of a finish which will ordinarily resist scarring or marring.

And above all, the "Certified" lamp has an exclusive new type reflector which will gain the most light from the bulb, and apply the light correctly for the use for which the lamp has been designed.

The next time you buy a lamp, make sure it is "Certified." Inquire at your favorite store for this new lamp.

Young Calves Hit Hardest By Baffling 'X' Disease

When X disease strikes a herd of cattle, death losses may run as high as 90 per cent in affected animals under 6 months of age. Losses average 10 to 30 per cent in adult cattle. In addition, pregnant cows often abort or give birth to dead calves, and many of these cows die after freshening.

At least 12 different nutritional, parasitic, and infectious conditions look somewhat like X disease and may be mistaken for it by persons not familiar with the characteristics of this malady. Watery eyes, ulcers in the mouth and around the muzzle, drying up and wrinkling of the skin, and progressive emaciation are typical symptoms.

Veterinarians have been studying X disease ever since it first was reported several years ago, but up to now they have been unable to determine its exact cause.

According to some observers, the changing chemistry of the soil and forage in certain areas may be an important factor. The view is that chemical changes cause smaller amounts of beneficial minerals, and larger amounts of harmful elements, to become available for plant growth. Cattle are then poisoned by consuming plants grown on such soil.

It also is believed that a virus or other infectious agent may be involved. In view of the possible contagious nature of this disease, and until further investigation reveals more about it, owners are urged to segregate all cattle suffering from X disease and to keep them in quarantine.

Revolutionary War Women Who Won Fame from Flags

Betsy Ross wasn't the only American woman of the Revolutionary war period who gained fame for her flag making prowess.

A young matron named Rebecca Young made the flag that Gen. George Washington carried when the Continental army took part in the siege of Boston.

Mrs. Young, who had a flag shop in Philadelphia, was noted in the Colonies for her exquisite needlework. Her fine stitching, embroidered scallops, and beautiful patchwork quilts were the talk of the countryside, according to childcraft books.

The flag that General Washington requisitioned Mrs. Young to make, had thirteen alternate red and white stripes. Applied on the blue field in the upper left-hand corner were crosses of Saint Andrew and Saint George—a design which represents the union of Scotland and England.

It was named the "Grand Union Flag" by General Washington and flown by troops of the Continental army, for the first time about January 1, 1776.

Like Betsy Ross, who is credited with having made the country's first official flag, Mrs. Young did not design the flag General Washington ordered from her. He is said to have adopted the design for it from an ensign that had been raised by John Paul Jones from the deck of the ship *Alfred* on December 3, 1775.

"Crazy" Foxes in New York

Mass vaccination of dogs has brought canine rabies under nearly complete control in New York state, but foxes infected with this disease continue to cause heavy losses of livestock. During the past three years in this state alone, nearly 1,000 cows have died of rabies after being attacked by "crazy" foxes. Rabies is known to exist in foxes and other wild animals in the states of the Appalachian range from New York to Georgia, in the southern tier from Florida to Arizona and up into California, and in the midwestern zone from Ohio to Iowa. Trapping programs have been inaugurated in several states as a means of eliminating the rabid fox menace to domestic animals and human beings.

Dressings for Fish

An endless variety of dressings may be served with fish. The secret is to add just the right amount of seasoning to enhance the delicate fish flavor rather than to mask it. Sour cream can be used as the basis for preparing a number of different fish sauces. Miss Frances Cook, foods specialist, University of Illinois college of agriculture, recommends this easy-to-prepare one: To a half cup of whipped sour cream, add 2 tablespoons of vinegar and a dash of tabasco sauce and salt to taste. Then just before serving, blend in ¼ cup of finely chopped or grated cucumber. Be sure the cucumber is thoroughly chilled, and blend it in carefully.

Use of Trifocals

Trifocals, which provide a middle-range for seeing as well as the near and far vision of bifocals, are becoming increasingly prevalent, partly because the United States is becoming an "older" nation. (The number of older persons is increasing in proportion to the number of younger ones.) At about the age of 40 the average person enters the "double-vision era," when glasses are needed for near-far seeing. Trifocals offer also the transition step of middle-range seeing.

Gabardine Casual

Here's your cherished boxcoat casual cut of pure wool and worsted gabardine—and with extra luxury in its fine embroidered lining. Designed to give you taller, slimmer lines. Six autumn colors: black, brown, deer, grey, green, wine. Half-sizes, 12½ to 24½.

Veterans Land Board Hope to Complete Purchases Soon

Austin, October 19th—Bascom Giles, Commissioner of the General Land Office and chairman of the newly created Veterans Land Board, said today that it was doubtful if any land purchases for Texas veterans would be completed before December 1.

"The first bonds will be offered for sale on October 26," stated the Commissioner, "and there is no reason to anticipate that money will be available for our actual use for at least another thirty days."

"The thousands of inquiries we have received," Giles continued, "and other necessary delays are making us later than we had anticipated. We ask veterans and land owners to bear with us until we have secured the money to complete transactions."

Giles also requests veterans considering making applications to "take cognizance of our regulations and policies relative to mineral rights."

The statute creating the Veterans Land Program prohibited purchases unless 50 per cent of the mineral rights were conveyed with the land. The Board, which is composed of the Governor, the Attorney General and Commissioner Giles, ruled at its first meeting that a six-month priority would be given applications which included all minerals or not more than a one-sixteenth outstanding royalty reservation made before June 6, 1949.

"We are not approving transactions in which the present owner is seeking to retain mineral interest at the present time," Giles added. "Applications which do not conform to this policy are delaying the program by requiring the attention which could be used toward completion of conforming applications."

Josephine O'Neal Wed to Uil Gunter Sunday Afternoon

Miss Josephine O'Neal, daughter of Mr. and Mrs. J. M. O'Neal, of Silverton, was united in marriage at the Methodist Church Sunday afternoon at four o'clock by Rev. Grady Adcock performing the single ring ceremony. Mrs. Adcock played soft music during the services. Only close relatives witnessed the ceremony.

Mrs. Gunter is a teacher in Amarillo public schools, and had taught at Silverton and San Angelo before going to Amarillo. She plans to continue teaching. Mr. Gunter farms near Canyon.

COKE CECIL-MAGICIAN

Appearing at the High School Auditorium Monday, October 24, at 1 o'clock p. m.

Coke Cecil, magician extraordinary with his show of wonders, which is astounding, mystifying and highly entertaining. The magician offers a very fascinating performance, not only for children but grown ups as well. His genial and jovial personality, his ability to play to every type of audience, and put into magic what it takes to present to his audience real entertainment makes him one of the best liked of the present day magicians.

This is not just another magic show, but truly a stage production consisting of magic, slight-of-hand, optical illusions and ventriloquism. The show is equipped with beautiful and costly equipment, a colorful stage, and truly the enchantment of magic at its best.

From his early boyhood days, Cecil loved magic, and practiced it constantly. He has spent thousands of dollars in building up his present program, and has a collection of things magical, that is matched by few leading magicians and enthusiast of the art. A member of The Society of American Magicians, The International Brotherhood of Magicians and The International Platform Association he has traveled in many foreign countries, and has brought back to America many of the wonders of these lands. In addition he has a collection of nearly every magic trick and illusions known to magicians of this day.

Cecil's program is one that will be well remembered by his audience. In his performance he keeps up a folksy, humorous line of talk, making every feat of magic seem just a simple twist of the wrist. Thousands of adults as well as children all over the country have been entertained and thrilled by his mastery of magic, his stage of mystery and ability to win the approval of his audience. Professionally, Cecil is recognized as one of the leading exponents of the art of magic. Mystery after mystery, and lots of fun for everyone. Admission 25c.

Quarter Horse Type Conference Coming Up Oct. 28 and 29

A conference that should make quarter horse history will be held on the campus of Texas A. and M. College on October 28 and 29. The meeting is being sponsored by the American Quarter Horse Association and the animal husbandry department of Texas A. and M. College. Bob Hopper, of Lubbock, is president of the American Quarter Horse Association and B. R. Dana, assistant professor of animal husbandry, at Texas A. and M. College is chairman of the conference.

The purpose of the conference, according to Leo White county agricultural agent, is to get the breeders, judges and inspectors of quarter horses together to crystallize their ideas as to what constitutes a good quarter horse. At the present time, there is a great deal of variation in the thinking of this group as to what type the quarter horse should have and it is hoped that the conference will at least set in motion ideas or plans that may help breeders develop the best possible horse for the intended purpose, Leo adds.

The first meeting will be held at 1 p. m. on Friday, October 28, with a discussion of what constitutes a good quarter horse.

Speakers for the conference will include Dr. J. K. Northway, King Ranch, Kingsville, Texas; D. W. Williams, vice chancellor for agriculture, Texas A. and M. College System; Dr. D. B. Sprutt, Killeen, Texas; Dr. J. C. Miller, head of the animal husbandry department, Texas A. and M. College; school of veterinary medicine, Texas A. and M.

The premier showing of the colored movie, "The American Quarter Horse" will feature the Friday night program. Saturday morning there will be a quarter horse judging contest for all those in attendance and a cutting and penning exhibition will follow the judging contest.

Mrs. Norman Strange and baby at Amarillo, are spending this week in the home of Mr. and Mrs. Bryan Strange.

Mr. and Mrs. Jack Greene and children, Mrs. W. T. Haley and Mr. and Mrs. Ernest Davis, spent the week end with Mr. and Mrs. Bob Hill and family. Mr. and Mrs. Jack Greene and children left for Washington Monday where they will be stationed.

Check Your Peach Trees Now For Borers

Peach tree borers have appeared in many trees in commercial orchards during recent weeks, says Leo White county agricultural agent, and now is the time to bring them under control.

He says ethylene dichloride emulsion now will give quick and effective control. Clear the trash away from the base of the tree, and make a small trench in the soil about two inches from the trunk and make the application. For one year old trees use 1-8 pint; two year trees use 1-4 pint and for trees three years of age or older use 1-2 pint per tree.

The use of paradichlorobenzene crystals is an old method which has given good results, but Leo says, wait until the weather cools off before using it. Clear the trash away from the base of the tree for a distance of from four to six inches, and then distribute the crystals evenly in a narrow, continuous, circular band an inch wide and on the soil about two inches from the tree trunk.

Do not allow the paradichlorobenzene to come into contact with the body of the tree, warns Leo. Pull the soil over the ring of chemical band to form a cone about three inches deep and pack the soil to hold the gas around the bark of the tree. The soil cone should be removed about six weeks after the date of the treatment.

NOTICE OF COUNTY'S INTEN- TION TO RECEIVE BIDS FOR THE PURCHASE OF CERTAIN ROAD MACHINERY

Notice is hereby given that SEALED BIDS, addressed to the County Judge of Briscoe County, at Silvertown, Texas, will be received by the Commissioners' Court of Briscoe County, Texas, at the office of the County Judge until 10:00 o'clock A. M. on the 14th day of November, A. D. 1949, for the purchase of the following described road machinery for the maintenance and improvement of the roads in and for said county, to-wit: One new Tandem Drive Diesel Engine Motor Grader, of approximately one hundred horsepower, equipped with cab, starter, heater, six tires, and 12 ft. mole-board together with two 2 ft. extensions. Successful bidder will be required to take as a trade-in on the purchase price of said new Motor Grader, one used No. 77 Austin-Western Motor Grader.

Such Sealed Bids will at said time be publicly opened and read before the Commissioners' Court of said County.

It is the intention of said Commissioners' Court to pay for said new Motor Grader in cash, over and above the trade-in allowance for the above listed old machinery.

The Commissioners' Court of said Briscoe County hereby specifically reserves the right to reject any and all bids.

This notice is given in strict compliance with the provisions of Chapter 163, Acts 1931, Regular Session of the Forty-second Legislature of Texas, and all amendments thereto, and pursuant to an order of the Commissioners' Court of Briscoe County, Texas.

J. W. LYON, JR.,
County Judge, Briscoe County,
Texas. 42-2tc

Big Gorilla Beaten By Panther Ruled Badly Outclassed

SPOKANE, WASH.—It was generally agreed that Barangtu, a 312-pound gorilla, never had a chance in his two-hour death struggle with a snarling 185-pound black panther.

Zoo authorities and the owner of the two animals expressed the opinion that despite the weight advantage, Barangtu was fighting far out of his class.

In fact, according to witnesses, the gorilla passed the entire two hours seeking to ward off the savage onslaughts of the enraged panther.

More than 400 persons were virtually hypnotized by the death struggle in a cage at a Liberty Lake animal show. When the battle was ended, the gorilla lay dead, mercifully murdered by show attendants. Before the attendants shot Barangtu, the panther had torn his arm off and inflicted numerous painful wounds.

It was probably the first time in history a gorilla had ever met a panther in mortal combat, according to Edward Johnson, Superintendent of the Woodland Park Zoo in Seattle.

The native habitat of the gorilla is Africa and the panther comes from Asia, he said.

Mrs. Ruby Smith, San Diego, one of the owners of the show, said that "Barangtu was the loser from the beginning." The panther slashed at him with his claws and teeth while about all the gorilla could do was try to avoid him.

In Seattle, Johnson said gorillas are peace-loving animals who do not attack others unless attacked first. They are mainly vegetarians, he said.

Color Is Vital Point In Salesman Technique

NEW YORK—Here's a tip for those who would be successful salesmen or cooks. Woo your prospects with color.

So proclaims Howard Ketcham, an industrial design and color consultant, and he is talking to ladies who want to produce enjoyable meals as well as to businessmen who want to strike it rich.

"Color," says Ketcham, "has a powerful influence on the subconscious. We know that people everywhere like an atmosphere of mental ease and a sense of well-being. And color, when it is considered a part of and as important as design can achieve just this."

All sorts of experiments and surveys have proved Ketcham's claim. For instance, there was the cafeteria chain which wanted to improve its salad sales. Ketcham suggested replacing the usual white crockery with pale green plates. Sales went up over 100 per cent within a few days.

Get-Rich-Quick Plans Flooding Texas Areas

HOUSTON, TEX.—Canadian oil boom get-rich-quick schemes are moving across the international border by mail, telegraph and telephone.

Better business bureaus report receiving numerous complaints and inquiries on Canadian oil stock solicitations. Few are found to be legitimate. Few hold sound claims to oil leases, to say nothing of oil itself.

Predicted immediate investment returns range as high as \$40 for each \$1 sent across the border.

Mail order promotion of Canadian oil stocks flooded two Texas cities—Houston and Dallas—whose residents had their fill of bogus stocks in the old Texas boom days.

A Toronto, Canada, company mailed promotion literature and application blanks in wholesale fashion.

Commented C. Edward Buehner, manager of the Houston better business bureau:

"They seemed to have mailed to everyone in the city directory. Practically everyone in our office received the letters."

Mr. Buehner has accumulated a bulky file on fake Canadian stock promotions dating back to days when there was wild speculation on Canada's gold mines. The recent rich oil strike in Alberta province apparently has caused many of the mail order speculators to switch to oil.

Teacher Warns Against Educating Selfish Ones

RICHMOND, KY.—The president of the College of the Bible said here to increase the intellectual powers of a selfish person is to endanger freedom and menace peace.

Delivering the baccalaureate address at Eastern State College, Dr. Riley B. Montgomery said:

"An education that increases knowledge and develops the intellect but fails to strengthen the character may . . . lead to disappointment and ultimate failure.

"Life can be continuously thrilling when we constantly search for knowledge and truth, but when we make it a continuous experiment in social responsibility and a continuous adventure in religious living."

Has Doctors All a "Flutter" Over His Heart

DENVER, COLO.—Ninety-pound Walter E. Urwiler, 85, whom veterans administration doctors claim is one of seven persons in medical history who can "flutter" his heart at will, is awaiting trial in Denver on charges of defrauding government hospitals. Urwiler is accused of using his heart fluttering ability for 30 years to gain admittance to government hospitals as a "heart attack" victim case. He "collapsed" recently on an Elmhurst, Ill., street. Wary doctors at a government hospital charged he was the man they wanted for "back board bills".

HOME TO LIVE IN

Design C-134. This floor plan is a simple rectangle without any wall projections. The roof is a plain gable roof with no dormers, simple and economical to frame. An extension of the roof forms protection for the front entrance and is supported by lattice.

There are three bedrooms and bath in the rear, living room and combination kitchen-dining room in the front. The living room has a picture window unit in front and a fireplace on the inside center wall. A corrugated glass partition shields the entrance.

The kitchen sink is located under the corner windows which forms a triangular ledge. The refrigerator is on the inside wall leaving a dining space in the end of the kitchen.

Besides closets in the bedrooms, there is a coat closet for each entrance, a general closet and linen cabinet in the hall and a closet over the stairs.

The exterior is finished with siding and asphalt shingle roofing. The dimensions are 38 feet by 28-6 feet. The floor area is 1083 square feet and the cubage is 21,960 cubic feet including full basement.

For further information about plan features and type of construction used see your local lumberman.

Mr. and Mrs. Eugene Long attended the State Fair at Dallas last week. They were accompanied home by T. P. Iron, of Dallas, who will spend several weeks here in the cotton harvest.

Mr. and Mrs. C. M. Chappell made a business trip to Lubbock Wednesday.

Evacuate Shanghai

HONGKONG — Vanguard of 1,219 foreigners recently evacuated from Shanghai by the ship General Gordon are shown debarking at Hongkong. The Gordon, first American vessel to enter Shanghai since the city was taken over by the Chinese Communists, debarked British nationals at the Crown Colony before proceeding to Yokohama, Honolulu and the United States. American businessmen in the group indicated that they have written off their investments in Shanghai and any hopes of saving China from Communism.

DURENE

PURINA RESEARCH FARM RECORDS PROVE:

CAN MEAN AN EXTRA TON of MILK!

Build up the condition of your dry cows—and you're stepping up milk production next lactation! That's what the records of the Purina Research Farm Herd have proved year after year. They show that 100 lbs. of extra condition on a dry Holstein cow (over the weight of the calf) can result in an extra ton of milk next lactation.

Feed PURINA DRY & FRESHENING CHOW

It builds condition on dry cows... helps to give them what they need for easy calving, strong calves, extra milk. Now available in complete or supplement forms to feed with grain.

NOW - FORTIFIED "CHECKERS" ADDED

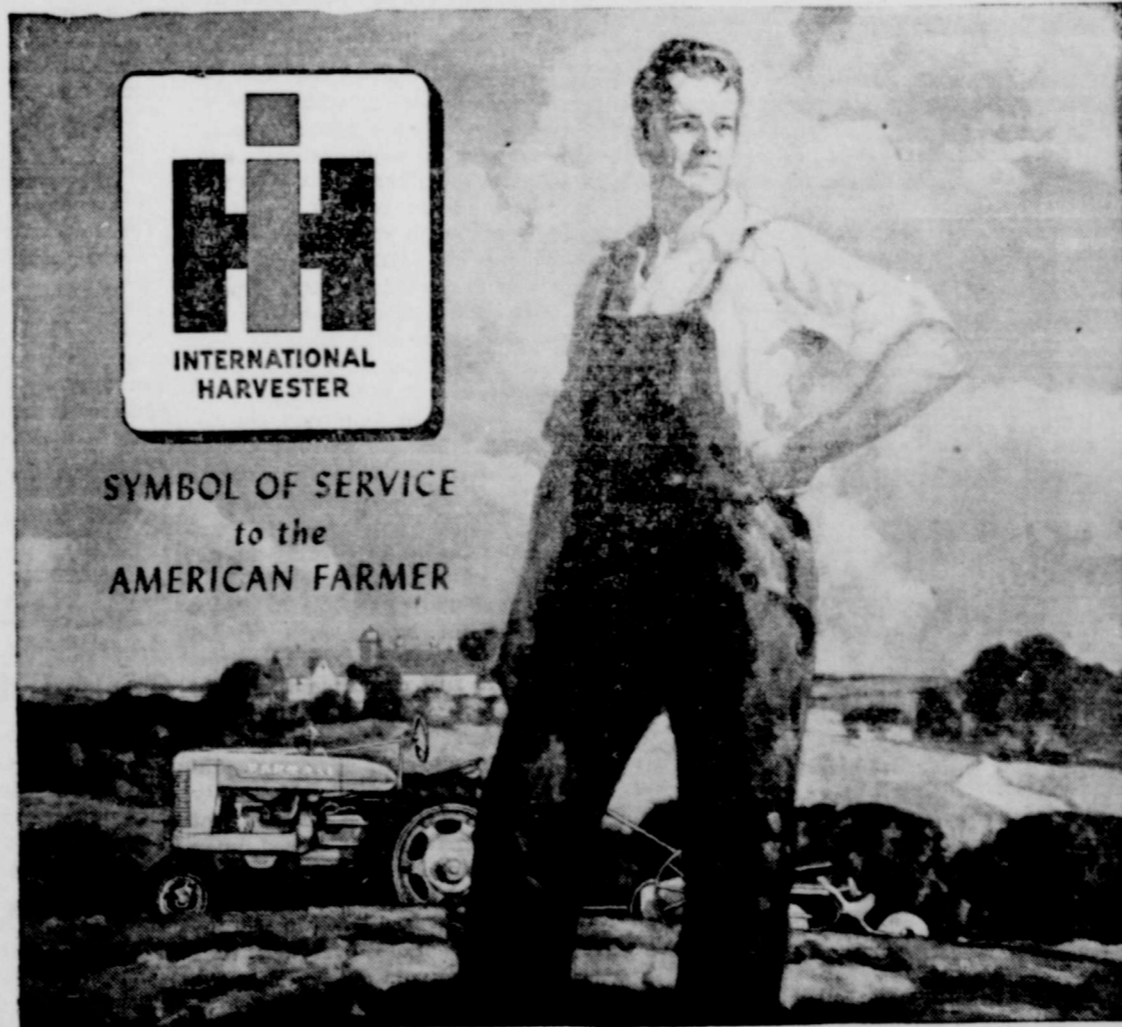

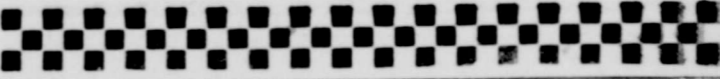

Vitamins—minerals—protein variety... all supplied in new Checkers added to the ration.

YOUR STORE WITH THE CHECKERBOARD SIGN

HARVEST--QUEEN GRAIN COMPANY FORMERLY FARMERS GRAIN CO.

West of the Railroad Track, Silverton, Texas

This Symbol Means: "Product of INTERNATIONAL HARVESTER" It is the Mark of QUALITY and EXPERIENCE...

Today International Harvester gives you a new symbol to remember. A new emblem that means the same as International Harvester. A new mark by which Harvester dedicates all its products to Your Service.

International Harvester has great things in store for your future on the farm. You have heard of some of the plans that have been made... automatic 1-man hay balers, self-propelled combines, modern farm

refrigeration, easier control of Farmall implements. These products have been announced but they cannot be built in quantity under present conditions.

Volume production must wait on Victory. When Peace comes, things will be different. Take the symbol displayed here as our pledge, and the pledge of International Harvester, for leadership in the future of Agriculture.

CRASS

MOTOR AND IMPLEMENT COMPANY

PITTSBURGH, Pa. — Despite 10,000 blows every eight hours by these two three pound steel hammers, the "miracle" Herculite glass does not show any sign of wear. This demonstration of one of the newer products of the "Glass Age" is being viewed by Mary Jane Wojcik and Evelyn Kuhlman, obviously impressed by the show. Secret of the strength of the glass, made by the Pittsburgh Plate Glass Company, is a tempering process which makes it four to five times as strong as regular plate glass of the same thickness. It is now widely used for store doors and automobile glazing.

ST. LOUIS, MO. — Rev. Owen H. Fisher of Longwood Baptist church is not one to let a broken ankle deter him in his pastoral duties. When Joe Wallace Watson, 18, and Melba Ruth Gates, 17, decided to wed, their minister was hospitalized with an ankle injury. The wedding proceeded on schedule, in the pastor's hospital room as shown. Left to right: the groom, the bride, and attendants, unidentified.

LONDON, ENGLAND — A Simpson did it again. David Michael Mountbatten, Marquess of Milford Haven, cousin of King George VI and great-great-grandson of Queen Victoria, is shown with his fiancée, M. Romaine Dahlgren Simpson, New York divorcee, whom he'll wed in Washington, D. C., probably in November.

THEY HAD SUCH A WONDERFUL SELECTION OF WALLPAPER AT WILLSON & SON LUMBER CO. I DECIDED TO BUY A ROLL OF EACH!

YOU DO SAVE MONEY HERE ON WALLPAPER AND ACCESSORIES.

Fall is Here Again

That is a good time to check around the place for needed repairs. The roof, the floor, or the windows may need fixing. You may want to build a stock shed, garage or a room on the house. Whatever you need in these lines, we are here to help you if we can.

Lots of building in the large towns along with building for grain storage has caused lumber to become a little hard to get, but we have plenty of nearly all kinds coming in this week.

Enquire here for T. C. CHERRY, Painter and Paper Hanger.

Supervisors for Cap Rock District—Earl I. Cantwell, Chairman; Obra Watson, Bray H. Cook, L. A. McJimsey and R. L. Brunson

The Board of Supervisors of the Cap Rock Soil Conservation District held their regular meeting October 12, 1949 with Supervisors Bray Cook, R. L. Brunson, L. A. McJimsey and our new supervisor from Subdivision No. 1, Chester Burnett. New officers for the coming year were elected, being: Earl I. Cantwell, chairman; Bray Cook, vice chairman; Chester Burnett, secretary, and R. L. Brunson, treasurer.

During the meeting Mr. L. A. McJimsey was selected to attend the state convention of supervisors as the delegate from the district. The convention is to be held at San Antonio, Texas, November 2, 1949. Application for assistance was approved for Allen Brummett, and farmer-district agreement was approved for James F.

A Letter from Paul H. Brown, Fire Insurance Commissioner

Dear Mr. Summers, City Secretary, Silverton, Texas.

We wish to thank you very much for the cooperation rendered our engineers at the time of their recent reinspection of the fire protection facilities in your city. Although there might possibly be some reduction in order due to changes which you have made; however, as our engineers told you, this cannot be given until your fire department organization complies with the standard requirements. It is necessary and required that you have a total of not less than 20 members in the fire department. However, records indicate that you do not have any regular scheduled drill night, and when meetings are held, only 6 to 8 men attend. Information furnished indicates that the businessmen in Silverton are taking no active part in the fire department organization, even though their business values represent 60 per cent of the insurable values in your city, and they should be vitally interested in order to provide efficient operation of the fire department and at the same time produce adequate protection to their business properties. It is a necessity that the citizens of your city get behind the fire department wholeheartedly, and until they do so this office is not in a position to take any action regarding your rates. So the future is entirely in the hands of your own people.

We should again like to repeat that your businessmen should take an active part and interest in your fire department, and at least give the material backing since their interest in providing for adequate and additional protection is most vital. Your city is now receiving a 10 per cent bad record penalty, based upon the last annual premium for 1948, this means that this year citizens will pay out \$3,500.00 in fire insurance premiums over what they would have paid out had a maximum good fire record credit of 25 per cent been secured instead of the 10 per cent penalty. Thus you can see that your businessmen should take an interest because they are the ones that are paying a large part of this bill. You will please instruct the fire marshal to see that there is a thorough clean-up of all alleys in the business district. Many weeds create a hazard to frame and ironclad construction buildings.

City Fire Ordinance Provides That there shall be no new

KIMBLE OPTOMETRIC CLINIC
Dr. J. W. Kimble
Dr. O. E. McIntosh
Optometrists
Floydada, Texas

W. A. Graham, a cooperor of the Cap Rock Soil Conservation District, whose farm is near Quitaque, has reported to SCS technicians that he has 150 acres of cover crops consisting of Abruzzi rye and Austrian winter peas. The crops were planted in the latter part of September and shall be used for grazing purposes and as a soil builder.

Soil Conservation Service technicians ran diversion terrace lines for Roy Teeter, whose farm is located four miles east of Silverton, October 17, 1949. Construction is now underway. The diversion terraces shall be used to divert excess water from cropland into pasture land.

building, extensions or additions made within the fire zone, unless first securing a permit from the proper authorities. So if you make any extension, additions to build a new building first secure a permit at the City Hall. This ordinance will have to be enforced if we expect to get a reduction in our fire rates. And that is what we all want.

John Alexander of Hedley Dies in Fort Worth

John Alexander, 70, of Hedley, Texas died in Fort Worth Thursday, October 13. He was a brother of R. G. Alexander of Silverton.

Mr. Alexander lived several years in Memphis, Texas, moving from there to Hedley where he operated a farm. His wife preceded him in death. He is survived by ten children, 4 boys and six girls. Funeral services were held Sunday at Hedley.

Mr. Alexander is survived by 4 brothers, Gordon Alexander, Silverton; Dave Alexander, Hereford; Joe and Marvin Alexander, Salina, California; five sisters, Mrs. E. E. Berry, San Bernardino, California; Mrs. O. O. Mickle, Eastland; Mrs. C. A. Winfrey, Wichita Falls; Mrs. Bland Burson, Channing; Mrs. Tess Potter, San Francisco. A brother, J. S., died in Memphis October 11.

Mr. and Mrs. R. G. Alexander attended his brother's funeral. R. G. Alexander and son, Conrad, were in Hedley Friday at their relatives home.

Troop 62 Met Monday Night for a Foil Cooked Meal

Boy Scout Troop 62 met for an outdoor meeting Monday night at the power plant, feature of the evening was an aluminum foil cooked meal of hamburger steak, potatoes and carrots.

Boys answering the wolf howl were, patrol leader Joe Vardell, scouts Sid Marshall, Spud Tiffin, Gene Minter and Eddie Jasper. Answering the owl hoot were patrol leader Harold Edwards, scouts Loyd Jasper, Donald Cherry, Tommie Strange and Lenard Perkins.

The Owl Patrol under expert guidance of patrol leader Harold Edwards bested the Wolf patrol led by Joe Vardell in troop contest of steal the bacon.

Meeting was under the supervision of Blackie Blackshear, Scout Master and Bill Stodghill, assistant scout master.

Sidney Marshall, Scribe.

Mr. and Mrs. R. H. Stodghill had as their guests Friday Mrs. Fannie Daniel, of Shawnee, Oklahoma and Mr. and Mrs. A. A. Palmer, of Knawa, Oklahoma. Mrs. Daniel and Mrs. Palmer are Mrs. Stodghill's aunts.

John Lowerence, commercial teacher, spent the week end with friends in Lubbock.

West Texas State Plans Homecoming Festival Oct. 21, 22

Canyon, October 19—West Texas State college is getting set to welcome over 5,000 ex-students back to the campus next Friday and Saturday, October 21 and 22, when the annual homecoming celebration will be held.

Plans for the gigantic festival are nearing completion and according to the Homecoming committee it is expected that this will be one of the greatest celebrations in the history of the college.

Western week will start on the campus Wednesday, October 19 and students and townspeople alike are expected to don cowboy regalia in order to avoid the horsetank set up near the Administration building.

Pep Rally Planned
A giant-sized pep rally with the traditional bonfire will take place Friday night at 7 o'clock north of Conner hall. Immediately following the bonfire will be the presentation of the homecoming play, a three-act comedy entitled "The Tightwad." This will be presented in the Administration auditorium. In an invitation from William A. Moore, director, he says, "Come on in the way you are. If you have cowboy clothes on or evening attire, you will be welcomed and will feel right at home."

A three mile long parade will start winding its way through downtown Canyon at 10 o'clock Saturday morning. Over 10 bands dozens of floats, comedy entries, horses, the football queen and countless other selections are planned for the parade. Ted Reid, veterans co-ordinator, is chairman of the procession which will be led by the famed Buffalo Band.

Feeding of the barbecue to ex-students and friends will commence immediately following the parade. Buff Morris is in charge. All feeding will take place at the tennis courts just north of the English building.

Just prior to the West Texas State-Trinity university football game at Buffalo stadium at 2:30 o'clock, the football queen will be crowned. The queen will be elected next week by the T-club.

After the ballgame, ex-students will have time to visit with friends, stroll over the present campus and gather at club and organization reunions.

At 8 o'clock Saturday night two big dances will begin the evening's entertainment. Playing for modern dancing in the new cafeteria will be the Collegians, college band. A western dance will be held in Burton gymnasium with a string band furnishing the music. Admission to the dances is \$1 for the men with all ladies admitted free of charge.

Dancing will close when the exes get tired enough to call it a day and head for home.

PERSONALS

Miss Anna Lee Anderson and Mrs. Jackie Wingo attended a conference of elementary teachers and principals in Canyon Saturday after which they drove to Amarillo.

Mr. and Mrs. Leo Comer and children, of Amarillo, spent Sunday night with her parents, Mr. and Mrs. Wylie Bomar, Sr.

Mrs. Judd Donnell went after her mother, Mrs. A. M. Allred in Amarillo who is ill. She plans to stay about ten days. Mrs. Cecil Joslin of Plainview accompanied Mrs. Donnell.

Mr. and Mrs. Charles Corder, of Portales, New Mexico, were recent visitors with Mr. and Mrs. John Wilmoth.

Mrs. Don Garrison visited with her grandparents, Mr. and Mrs. R. Seay Sunday afternoon.

Mr. and Mrs. Jack Buckley of Amarillo, visited with Mrs. Buckley's grandparents, Mr. and Mrs. T. J. Hodges over the week end.

Guests in the home of Mr. and Mrs. R. E. Brookshier Sunday were: H. C. Doak, Mrs. I. E. Mosley, Mr. and Mrs. Everett Doak, of Hereford, and Mr. and Mrs. U. R. Gardner of Tulia.

Mrs. W. A. Dickerson left Tuesday for Canyon where she will visit with relatives, and from there she will go to her old home in Missouri for a visit. She plans to be away about ten days.

Mr. and Mrs. Jim McNeese visited relatives in Plainview Sunday.

New 1950 Nash Bows To Public

DETROIT, MICH.—Many new styling, comfort, economy safety features keynote 1950 Nash Airflyte cars which were recently introduced to the public. The aerodynamically designed models, all four wheels fully enclosed, massive bumpers and larger bumpers, have luxuriously new "sky-lounge" interiors and completely designed instrument panels. Hydra-Matic "clutchless" shifting is available on the Ambassador series, with automatic overdrive option on both the Ambassador and Statesman models. Horsepower of engines has been increased, with the Ambassador now 115 and Statesman, 85. Other features include built-in twin beds and the new optional "airliner" seat.
