Premeasurement of Cotton Acreage Offered to Briscoe County Farmers

Briscoe County cotton growers can arrange for official measurement of their 1950 farm cotton acreage allotments prior to planting time the County Production and Marketing Administration Committee announced this week.

To get the premeasurement service, which is being provided on the county PMA office prior to April 3, 1950, says Mr. John E. Wheelock, chairman. The rate to be charged for the service in Briscoe County has been established at \$6.00 per farm plus \$1.25 for each plot to be planted to cotton plus 3c for each acre in the allotment, and payment based on this rate must be made at the time the request for measurement is filed.

"The premeasurement is purely optional," says Mr. John E. Wheelock, "and is offered as a service to growers who prefer to have an official measurement to use as a planting guide."

"The chairman explains that all cotton acreage in the county will be measured as soon as possible after the cotton 'comes up' to determine compliance with the acreage allotment marketing quota program. When compliance is checked, the farm will be considered to be within the farm acreage allotment if the crop is planted within the premeasured area.

Farms that are premeasured and have cotton planted in excess of the acreage allotment will be permitted to adjust this acreage provided it is done within 15 days after they are notified or before boing stage.

Marion Summers Is Building New Home in Silverton

Mr. and Mrs. Marion Summers are building a new home in west Silverton. The house has four rooms with bath and garage attached. The outside will be finished with asbestos shingles. Bud McMinn and A. D. Arnold are contractors on the job.

Mrs. Virgil Baldwin and children have moved to Silverton from Lubbock and are living with her parents, Mr. and Mrs. W. A. Rowell. Mrs. Baldwin will assist her mother in caring for her father, who has been ill for some time.

Captain Eddie Rickenbacker Endorses American Bible Society Program

Captain Eddie Rickenbacker receives a Bible from Francis Stifler, secretary of the American Bible Society.

Captain Eddie Rickenbacker again has given his unqualified approval of the annual observance of Worldwide Bible Reading from Thanksgiving to Christmas. The slogan will be "The Bible—A Light and Guide." Captain Rickenbacker has been an active member for several years of the sponsoring committee of national laymen who assist the American Bible Society in the promotion of the program. The committee is headed by President Truman, who is honorary chairman.

"I heartily endorse the theme for 1950," said Captain Rickenbacker, "and I congratulate the American Bible Society for the outstanding success of the 1949 celebration when more than 12,000,000 copies of the reading list of Scripture passages were distributed by the Society on request. Our American people were evidently so deeply impressed with the value of daily Bible reading that from the Bible Society alone they have written for over a million copies of a reading list to cover every day of 1950."

Captain Rickenbacker's lifelong interest in the Bible was greatly stimulated by his experience during the war when, with seven other men, he was adrift on the Pacific for more than three weeks. During this time a Service Testament, belonging to one of the men, was used for daily devotions.

Mrs. George Hodges Dies at Canyon Sunday Morning

Mrs. George Hodges, of Canyon, age 75, died early Sunday morning at her home. Her death apparently caused by a heart attack during the night, was unexpected. Mrs. Hodges was a sister-in-law of T. J. Hodges of Silverton.

Mrs. Hodges was born May 4, 1874, near Kingston, Missouri. Her parents were early settlers of that part of Missouri.

Mrs. Hodges and her husband moved to Canyon from Canadian in 1940. Her husband, a highway superintendent for the State Highway Department, died in December, 1948.

Survivors include five sons, Gerald Tuckwell, Norman, Oklahoma; Lloyd Tuckwell, Pampa; Clyde Hodges, Miami; and Dallas and Oliver Hodges, both of Canadian; a daughter, Mrs. E. V. DeBond, El Paso; 20 grandchildren and 12 great-grandchildren.

Funeral services were held at the Canadian Methodist Church Monday afternoon, and burial was made in Canadian cemetery beside her husband who preceded her in death.

Attending from Silverton were: Mr. and Mrs. T. J. Hodges, Mr. and Mrs. Arnold Turner, Mr. and Mrs. Vernon Garrison.

COOPERATIVE PHONE MEETING CALLED FOR MARCH 21

At the high school auditorium Tuesday night, March 21, 7:30 the Cooperative Telephone Association will meet to discuss getting better telephone service for Silverton and the rural district.

All interested parties are urged to keep this date in mind and plan to attend.

Regular Meeting of Lions Club Tonight (Thursday)

The Silverton Lions Club will hold their regular meeting tonight (Thursday), at 7:30 p. m. An out of town speaker has been invited, but no definite answer has been received by the program committee.

All members are urged to attend.

Mr. and Mrs. W. D. Porter and son, of Lamesa, visited over the week end with Mr. and Mrs. Shelby Haynes and Mr. and Mrs. James Patton and family.

Five Beauties At Chicago's Automobile Show

CHICAGO, ILLINOIS — Four beauty queens and a car being shown publicly for the first time — Buick's Riviera in the Super Series — were outstanding hits at Chicago's huge automobile show. More than 400,000 visitors jammed the International Amphitheater for the show, which was the first event of its kind in Chicago since 1940.

The four smiling beauty queens posed in the Riviera to illustrate one of its principle features — the broad sweep of vision equivalent to that of a convertible. The car, however, has an all-steel top. Other features which interested visitors were the wrap-around rear window, the built-in bumper front end, one-piece windshield, the sloping fender lines, and the car's new F-263 engine.

P. T. A. Elected Officers at Meeting Thursday Night

At the meeting of the P. T. A. last Thursday night those who attended enjoyed a movie on "Safety" furnished by the Phillips Petroleum Company.

Joy Reithmeyer, accompanied by Jackie Wingo sang two solos. Mr. Lee Davenport dismissed the meeting with prayer.

The following officers were elected: President, Mrs. Claude Allison; Vice President, Mrs. Alvin Redin; Secretary, Mrs. Lee D. Bomar; Treasurer, Miss Anna Lee Anderson; Parliamentarian, Mrs. Bill Edwards.

On April 13, the P. T. A. members are having a "Gay Nineties" program to raise money for the P. T. A.

Joe Dale Francis Honored With Birthday Party

Joe Dale Francis was honored with a birthday party on his seventh birthday Saturday, March 11 by his mother, Mrs. J. Lee Francis. Seventeen guests and Joe Dale enjoyed both indoor and outdoor games. The children set around the table as Joe Dale blew out the seven candles on his cake. They were served pieces of cake and ice cream.

Those attending to wish Joe Dale a happy birthday were: Joe and Susan Anderson, Charles Cowart, Bobby Crass, Joy Ann Gatewood, Joe Kitchens, Celene and Sue Lanham, Champ McGavock, Cleatrice and David Miller, Sue Reid, David and John Schott, Jim Edd Steele James Tennon, and David Tipton.

STUDENTS HOME FOR WEEK END

Among the students home from College over the week end were: LaRue Gilkeyson, Jean Dudley, Stanley Price, Don Burson, Roxie Bearden, L. B. Garvin, Walter Bean, Theodore Strange and Mr. and Mrs. Jimmy Price, all of Lubbock; Beth Joiner, Joye Bell Davenport, Johnny Ted Bingham and Mickey Cornett, all of Abilene; Jove Brown, Jim Mercer, Edwin Jowell and Jett Mason, all of Canyon.

Mr. and Mrs. R. Seay and Mr. and Mrs. W. A. Holt and Peggy, spent Saturday in Tullia visiting Doyle Tiffin spent the week end in Quitaque with his grandparents, Mr. and Mrs. J. F. Tiffin.

Mr. and Mrs. H. O. Rowell and daughter, of Tullia, visited Mr. and Mrs. W. A. Rowell last week. Mrs. J. H. Rowell returned home with them after spending several months with her son, Mr. and Mrs. W. A. Rowell.

"That Midnight Kiss" At Palace Sunday And Monday

It's a Great Big Wonderful show...The Romance is Terrific...The Music is magical, the laughter is riotous; talk about top screen entertainment, you haven't seen anything until you've seen "That Midnight Kiss."

Here's all the music and romance you want, and all the favorite stars you love—in the picture that proves beyond all doubt, that nothing can take the place of "That Midnight Kiss."

Howard Hunt Dies Sunday in Los Angeles, California

Howard Hunt, son of Mr. and Mrs. Sam Hunt, passed away Sunday, March 12, 1950 at 11:15 at Santa Fe Hospital in Los Angeles, California, where he had been a patient for three months. Funeral services were held there, but it was not learned when.

His mother and brother, Alfred, went to Los Angeles about three weeks ago when it was reported he was critically ill. Alfred returned home, but his mother remained with her son. His father left Sunday for California to attend the funeral.

He is survived by his wife, Blanche Hunt, two sons, Howard Wayne and Garry Mack, his parents, Mr. and Mrs. Sam Hunt, of Silverton; three brothers, Alfred of Silverton, Delphine and Raymond of Victorville, California.

Drivers License Examiner to be Here March 22

The Tax Collector's office has been notified that H. B. Patterson, drivers license examiner will be at the courthouse March 22, to give anyone interested the drivers test. You are requested to keep this date in mind and be on hand.

Mr. and Mrs. Austin Bailey and son, Buzz, were Sunday guests of Mr. and Mrs. C. E. Anderson, Jr., of Quitaque.

Ross Wayne Dowdy of Amarillo, spent the week end with his parents, Mr. and Mrs. G. R. Dowdy.

Mr. and Mrs. Odel Walls and children, Jerry and Karen, of Oklahoma City, were recent visitors in the home of Mrs. Walls' parents, Mr. and Mrs. Jessie Hill.

Womans Society of Christian Service Met Monday

The Womans Society of Christian Service met in the parsonage home Monday afternoon. Topic for the evening: "We the People of the Ecumenical Church," Leader, Mrs. R. M. Hill.

Specific aim for this course—to bring to the human consciousness the power of the church of Jesus Christ to solve the problems of the work and bring peace to earth. Closing Devotional. Song.

Spends Two Weeks in Florida Visiting Her Son

Mrs. W. A. Dickerson spent the past two weeks in Florida visiting her son, Norval Dickerson and family. One of the most interesting sights Mrs. Dickerson saw was the "Big Tree" near Orlando, reportedly the largest cypress tree in the U. S. The tree is 3,500 years old, 127 feet high, 47 feet in circumference and 17½ feet in diameter. Mrs. Dickerson reported a very enjoyable trip.

WARE FOGERSON INSTALLS DRAFTSMAN'S TABLE

Ware Fogerson installed a draftsman's table this week at the Fogerson Lumber and Supply Company. With the new equipment he hopes to be able to help customers with their home building problems by drawing plans to their specifications.

The new piece of equipment will, also, be used by Ware in his architectural course which he has been pursuing for sometime.

Mr. and Mrs. George Seaney spent Sunday afternoon in Plainview visiting at the hospital with Mrs. Ina Crawford, Mrs. John Vaughan, Mrs. Mabel Welch, Mrs. S. A. Shearer and Mr. Elmer Vaughan.

Mr. and Mrs. Pat Pavlicek and Mr. and Mrs. Glen Lindsay were visitors in Amarillo Sunday and while there they visited Raymond Lindsay and Leroy Vardell at the Veterans hospital.

Mr. and Mrs. Paul Reid and girls visited Sunday in the home of Mrs. Reid's sister and family, Mr. and Mrs. C. A. Johnson, of Tullia.

Pat Northcutt, Wayne McMurtry and Don Brown were recent visitors in Amarillo.

City Election to be Held in Silverton Tuesday, April 4

The following names will appear on the city ballot for the city election April 4:

For Mayor: L. K. Gilkeyson, J. E. Minyard and Troy Burson.

For Councilmen: (Elect two) W. W. Douglas, Alvin Redin, Ray C. Bomar, Carl S. Crow, J. E. McCain E. E. Minter, Ben Whitfill, C. O. Allard Wayne M. Crawford.

Holdovers of the city council are: G. W. Seaney, Hugh Nance and Roy S. Brown.

Burlington Lines Install Two-Way Radio System

All Texas to Colorado diesel-powered, time freight trains of Burlington Lines now are equipped with end-to-end radio communication facilities.

The new diesel-electric freight locomotives have been equipped with permanently installed sending and receiving sets for use of the engine crews, and portable sets are provided for train crews who ride in the caboose. Actual use of the new radio equipment began Sunday.

With constant radio communication available enroute, the movement of trains is facilitated tremendously, and the safety of the rolling stock, cargoes, and the men is enhanced greatly.

Radio communication between enginemen and trainmen on high-speed freight trains has been in the experimental stage, but now is an accepted facility, Burlington Lines being one of the first carriers in this territory to make permanent installation on time freight trains operating in the Southwest.

WARE FOGERSON INSTALLS DRAFTSMAN'S TABLE

Ware Fogerson installed a draftsman's table this week at the Fogerson Lumber and Supply Company. With the new equipment he hopes to be able to help customers with their home building problems by drawing plans to their specifications.

Ex-Convict Thrown For A Loss

ST. LOUIS, MO. — His face adorned with adhesive tape, Kendall Morris is shown after he was trussed up and delivered to St. Louis police by his intended victim, Morris, wearing the rubber mask (right) held up James Greig, Washington University football star, and Greig's girl friend, Miss Charlotte Obst, on a lonely road outside St. Louis and announced he was kidnaping them. Greig defied Morris' gun, tackled him, overpowered him, tied him up and took him to the law in the trunk of his car.

Pleas For Husband Held By Hungary

VIENNA, AUSTRIA — Mrs. Robert A. Vogeler is shown in her apartment here, looking at a photo of her husband, after the American businessman was sentenced in Budapest to 15 years in prison as a spy.

Vogeler, 38, and assistant vice-president of I. T. & T., allegedly confessed to charges of obtaining economic and industrial secrets on instructions of the U. S. Intelligence Service, and of sabotaging the productive capacity of the country.

MONROE LOWREY OPENS RADIATOR AND REPAIR SHOP

Monroe Lowrey announces the opening of a radiator and general repair shop in the building formerly occupied by Simpson Body Shop. Mr. Lowrey will do all kinds of repair on cars and trucks and will be glad to discuss your mechanical problems with you.

Local Lions Club Represented At Lockney

Among those of the Lions Club from Silverton that attended the Charter and Ladies night at Lockney Monday night were: Dr. J. M. Shy, George Seaney, C. O. Allard, Alton Steele and W. H. Tennon.

Get The Farm Tractor Ready Now Before the Rush

Texas weather during the past few weeks may not have been the best for outside work, but right now is a mighty good time to get the farm tractor ready for the busy days ahead. According to W. L. Ulich, extension agricultural engineer of Texas A. and M. College, a good place to start is on the air cleaner of your tractor.

He says most farmers do a good job of taking care of the pre-cleaner and oil cup, but the air cleaner itself is often neglected. About 9,000 gallons of air goes through the cleaner for each gallon of fuel burned, and he says you can expect a lot of dirt to lodge in the screen and element of the cleaner. The air cleaner should be removed at least twice a year and thoroughly washed in kerosene or a cleaning solvent. When it is replaced, be sure that all air hose connections are tight for a leaky hose makes the cleaner useless.

This is a good time to do a valve grinding job, but Ulich says the valves should be removed and the grinding job should be done by a trained mechanic who has the proper equipment for doing this work. The actual job of seating the valves can be done on the farm.

He says you'll want to remove the spark plugs for a thorough cleaning and point adjusting job. A steel brush will do a fair job but sand blasting is better. Ulich says to check your operators manual for the correct gap setting on the plugs. A gauge should be used in making the adjustments and a round thickness gauge is recommended for worn plugs. While you are checking points,

he says you'd better check the ignition breaking points. If they are rough, file them and then set the gap in accordance with the operators manual.

The next item that should be checked is the fuel system. The fuel screen located on most tractors near the sediment bowl and carburetor should be removed and cleaned. The carburetor should be cleaned and adjusted. Ulich says you'll want to remember that the carburetor is not a gas plant but is a metering device, and it cannot measure the proper mixture of air and fuel unless properly adjusted. He says the motor should be warmed to operating temperature before any attempts are made to adjust the carburetor. There are three major adjustments on most tractor carburetors. The idle stop screw which merely stops the throttle lever at idling speed; the idle mixture adjustment; and the third is the load adjustment. Consult your operators manual on how to make the adjustments and the final check will come when the tractor is pulling field equipment.

Ulich says every tractor operator should be familiar with the operators manual that goes with the model tractor you are operating and he adds, if you don't have one, better ask your local dealer about it the next time you see him. Ulich concludes that the life of your farm tractor depends largely upon the care you give it and the manual is the manufacturer's recommendations for doing this maintenance job.

Judge's Rulings Cutting Down Traffic Deaths

LOS ANGELES.— Judge Roger Alton Pfaff, tough but fair-minded war veteran, was becoming one of the most talked-about men in Los Angeles and his reputation was spreading beyond his own borders.

His domain is the downtown Civic Center traffic court here. He is operating in the manner of a black-robed evangelist to stop the terrific traffic carnage which has been rampant here.

Since he began handing out penalties, the traffic death rate in Los Angeles had dived. Deaths by autos numbered 409 in 1947. After only 10 months of Judge Pfaff's term, they amounted to 289—a drop of 30 per cent. Los Angeles had gone from the highest of the 14 big United States cities in traffic tolls to fourth from lowest.

The Pfaff crusade was born 14 years ago when he, a young law student, was haled into court on a charge of driving through a red light. The judge asked for his plea. "Guilty, but—"

"Five dollars. Next case." The judge recalls that he came out of the courtroom "boiling mad."

The next years were too busy for him to devote any time to traffic infractions. He was graduated from law school, practiced in Los Angeles, served in the state legislature and in the infantry and OSS during the war.

Highway Deaths Shocking
Returning from Europe, he was shocked to observe slaughter on United States highways that measured that of the battlefield. When he was appointed a Los Angeles municipal judge in 1948, he surprised his colleagues by requesting traffic court duty. Most of them avoided it.

Los Angeles drivers now warn each other, "Judge Pfaff will get you if you don't watch out!" They have reason to fear the 42-year-old jurist. An offender came before him with a record of two previous \$100 drunk driving fines. He was charged with driving without a license.

"I notice in the officer's report," said the judge, "that you stated you were not going to serve time, that you had lived in California long enough so that you could 'pull strings' and pay fines. Well, it looks as if you're in the wrong court. You can't buy that kind of driving here."

The sentence: 180 days in jail. Stiff judgments aren't the only element of the Pfaff formula. He preaches traffic safety with a zeal of a Billy Sunday. Before each session he tells the defendants:

"I want each of you to become a crusader for better driving."

Offers Advice
He talks for 20 minutes and offers this advice:

"1. Practice courtesy. Sixty per cent of citations arise from failure to yield the right of way. Why be so rude to one another? Courtesy can be infectious. Try it."

"2. Slow down! If you are late to work, don't try to make it up on the road. You'd be better off staying at home in bed and not going to work at all."

The lectures have paid off. Of the 200,000 persons who passed through his court in 1948, only two percent returned. One happy defendant wrote the Los Angeles Times:

"Maybe it's the heat! For imagine receiving a ticket for speeding, spending the morning in traffic court, getting fined \$20 and thoroughly enjoying the consequences . . ."

"Truly the judge is a man with a mission going far beyond the call of duty in a tremendous personal effort to assist the cause of traffic safety. . ."

More than one million four hundred thousand fruit trees of all types were planted in home orchards in Texas during 1949.

Food Brokers Woo Housewife; Cite 50 Years' Top Ten Advances

Jewell Lain's armload represents food brokers' selection of the greatest grocery advances of the first half of the 20th century.

ATLANTIC CITY, N. J.—May be the housewives of the nation won't agree, but the mere men who set the pace in the food-brokerage business have picked the "top ten" advances in grocery products and services over the past half-century.

However, they don't expect many women to disagree with the nominations, because at least half of the goods and services named were included because they represent savings in time and labor for the homemaker. Here's the "top ten" named at a convention here:

1. Frozen foods, sharply reducing meal-preparation time; 2. ready-mixes, spectacular shortcuts

to perfect pastries; 3. such laundry products as detergents, improved soaps, the new Perma Starch which stays in clothes through eight to 15 washings, and ready-to-use bluing; 4. vitamin-enriched flours with fine textures; 5. improved containers and processing for foods such as meats and juices, previously unpackageable.

6. Dehydrated foods, saving hours of preparation; 7. pre-packaged foods, especially meats and poultry, reducing shopping time; 8. freshness-control methods, especially with regard to eggs; 9. high-speed transportation, making fresh foods of all sections available in all seasons; 10. improved and more versatile shortenings.

Rocket Moon Trip In Next 50 Years Seen by Scientist

LINCOLN, NEB.—Some day, say about 50 years from now, a space ship may make the 240,000-mile trip to the moon and return to earth within 24 hours.

That is the belief of J. P. Colbert, professor of civil engineering at the University of Nebraska. He is confident that science will solve the problem of fueling a giant rocket ship for the expedition by about the year 2,000.

According to Colbert's predictions, the ship will take off at an almost perpendicular angle and huddle through the air at the necessary seven-mile-a-second "escape speed." On the ship is clear of the air surounding the earth, he said, its rockets can be cut off and it can coast through space a part of the time.

He estimated the journey will take about nine hours. The aircraft will have to land stern first, Colbert said, using its rockets to break the impact of the landing.

The arrival on the moon will be timed for the "dawn line," just as that planet's 336 hour "day" is beginning, Colbert said. The temperature there reaches the hotter than boiling point of 214 degrees when the sun is directly overhead, he noted, and the two week long "nights" get as cold as 215 degrees below zero. Therefore men must plan to arrive at the most temperate time, he explained.

Astronomers believe men can remain safely on the moon one or two hours before beginning the return voyage, Colbert said.

The take-off from the moon will be far easier, he said, since its gravity is only one-sixth as strong as the earth's.

Unmanned, guided missiles undoubtedly will be used on test flights before a staffed expedition tries it, Colbert said. If these rockets were filled with an explosive, colorful substance to spatter the surrounding area, the landing could be seen by strong telescopes on earth, he thinks.

Colbert said it is reasonable to assume the last half of the century will see development of the fuel needed for the trip.

"Look what we've done in the first half," he said. "If anyone had tried to describe television or jet planes in 1900, people would have thought he was crazy."

Local F. F. A. Boys Enter Livestock Judging Contest

Three boys from the local F. F. A. Chapter entered a livestock judging contest at Amarillo in which 45 schools from New Mexico, Texas and Oklahoma were also competing. The three boys that entered from Silverton and won eighth place were: Wayne Wayne Hamilton, Pat Northcutt and Billy Tennison. Donald Bean and John Francis accompanied the group as alternates.

Tommy Strange, Sam Lusk, Jay Turner and Delbert Matthews entered a grass judging contest and won 14th place in a group of 37 from the three states.

The boys are now sponsoring a move entitled "The Red Danube". The date is March 21 and 22. Everyone is urged to attend and help the boys put a roof on the old school building so that they may use it for an efficient show barn in the future.

THE CENTURY OF PROGRESS STUDY CLUB

The Century of Progress Study Club met in the newly decorated club room March 8. The regular business session was conducted with eleven members present.

The program theme was Texas Day. Mrs. Edsell Hutsell served as hostess in the absence of Mrs. Eugene Riddlehuber.

This was an interesting program, as it consisted of Texas Humorists, Tall Tales, and Texas Novelists. Mrs. Hutsell, Mrs. O. C. Ramplly and Mrs. Roy Mac Walker participated and Mrs. James Davis entertained the club with some recordings on Texas folk-lore.

Mrs. J. W. Brannon, Jr., showed colored slides on the tea which was held October 26, for the 1925 Study Club. You may order prints from Mrs. Brannon.

Adjournment by the present.

Mrs. Judd Donnell and daughters, Janice and Karen, accompanied by Mrs. Donnell's parents and sister spent from Friday until Sunday visiting in Mansfield with Mr. and Mrs. James Allred and Mr. and Mrs. Stanley Nestor. Mrs. Donnell also visited in Dallas with her brother-in-law, Mr. and Mrs. Arlon Donnell and family.

Mr. and Mrs. A. M. Allred, of Amarillo, and Mrs. Cecil Joslin and Linda Ann, of Plainview, spent last Thursday night with their daughter and sister, Mr. and Mrs. Judd Donnell and family.

Woman's Tongue Sends Man Back to Chain Gang COLUMBUS, OHIO — The couple upstairs were arguing and their conversation suddenly became interesting to Patrolman James A. Hicks. The off-duty policeman reached for his phone and dialed headquarters after he heard the woman upstairs shout: "You know where you belong? Right back on that Georgia chain gang you got away from!" Detectives arrived within minutes and arrested the man, Thomas J. Dixon, 30, and wired Georgia officials for his record. The information the woman unwittingly gave the policeman was correct—Dixon was an escapee from the public works camp in Dublin, Ga.

Ancient Spanish Crown Found in Old Cathedral

MADRID, SPAIN.—Lost for seven centuries, the ancient Spanish crown of King Alfonso X, known as the "sage" is among precious historical relics that have been found in tombs in Toledo cathedral, according to information received here. Spanish scholars in recent years have turned up a number of important medieval relics in royal tombs and in some cases the dry climate has kept them almost intact. The finds in Toledo are among the most important of all, it was said by Prof. Manuel Gomez Moreno, noted Spanish archeologist. Besides the crown, scholars found a sword at least 700 years old and in perfect condition, two of the finest specimens known of medieval brocades, a pair of silver spurs and one of fine gilded leather shoes more than 600 years old and in fine condition. The relics are being prepared for display. The outstanding item is the crown. Known by a description left by Alfonso X, it had vanished from history with his death in 1284 until the tomb of his son, Sancho the Bold, was opened.

Too Much Leeway for Kids Held Delinquency Cause

BIRMINGHAM, ALA.—Parents permitting children to "rule the roost" is one of the largest contributing factors to juvenile delinquency. That is the opinion of Judge Talbot Ellis. The judge said his juvenile and domestic relations court handled 1,994 juvenile cases during 1949.

"Parental control is the answer," the judge said. He added that in families where the father is absolute head of the family children are taught to respect their parents. Too many families let the children rule the roost. As a result they have no respect for parental authority.

Mr. and Mrs. A. A. Dunagan spent the week end in Electra visiting their daughter, Mr. and Mrs. Bryan Jones.

Rev. Travis McMinn, of Happy, visited from Monday until Wednesday with his parents, Mr. and Mrs. Bud McMinn.

Silverton Co-Op

RESOLUTION

To the Worshipful Master, Wardens and Brethern of the Silverton Masonic Lodge No. 754.

WHEREAS, The great and supreme ruler of the universe has in his infinite wisdom removed from among us, one of our worthy and esteemed fellow brothers, T. R. Whiteside; and,

WHEREAS, The long and intimate relations held with him in the faithful discharge of his duties in this lodge and his useful life, makes it befitting that we record our appreciation of him: Therefore, be it,

RESOLVED that the wisdom and ability which he has exercised in the aid of our beloved order by his services, contributions and counsel will be held in grateful remembrance:

RESOLVED that the sudden removal of such a life from among our midst leaves a vacancy and a shadow that will be deeply realized by all the members and friends of this organization, and will prove a serious loss to the community and the public.

RESOLVED that with deep sympathy with the bereaved relatives of the deceased, we express our hope that even so great a loss to us all may be overruled for good by Him who doeth all things well:

That in the loss of our worthy Brother, the family has lost a faithful and loving husband, son and brother; the Lodge one of its most faithful members and the community one of its best citizens.

RESOLVED that a copy of these resolutions be spread upon the minutes of the Lodge, a copy printed in the local newspaper and a copy be forwarded to the bereaved family.

COMMITTEE:

W. Coffee, Jr.,
Conrad Alexander
Dee McWilliams.

PERSONAL

Judd Donnell and P. D. Thurman, made a business trip to Lubbock Monday.

Mrs. Bill Bingham and son, Orville, of Canyon, visited her mother, Mrs. Cora Donnell, Saturday.

Mrs. Ina Crawford, Mrs. Mabel Welch and Mr. Elmer Vaughan, underwent major surgery last week at the Plainview hospital.

Mrs. John Vaughan, who underwent major surgery six weeks ago at the Plainview hospital was able to move to her home Tuesday.

Mrs. Zena Thomas of Streater, Illinois, is visiting her daughter and family, Mr. and Mrs. L. T. Gilkeyson.

Missionary Society Met at the Church Monday Afternoon

The Missionary Society of the First Baptist Church met Monday afternoon in program and literature at 2:30 o'clock, with the Elizabeth Truly Circle leading the program.

Subject: "Am I My Brother's Keeper?"
Devotion: We Can But Tell—Mrs. J. W. Lyon, Jr.

The W. M. S. will meet Monday afternoon, March 20, in Bible Study, with Mrs. Carroll Garrison, Lena Lair Mrs. L. K. Gilkeyson, Vada Waldron, and Mrs. W. H. Tension, Elizabeth Truly Circles leading their groups.

We want to invite not only the members, but others to meet in this Bible Study.

The W. M. S. members will go to Floydada to a community mission rally with a covered dish luncheon March 28, at 10 o'clock.

Mrs. Don Garrison is the W. M. S. Community Mission Guide in the W. M. S., and beginning April 3 at 2:30 Mrs. Garrison will teach the Community Mission Guide to the three circle groups in the auditorium of the First Baptist Church.

The following members were present Monday afternoon: Visitors, Mrs. Estelle Young; members, Mesdames Jim Bomar, L. K. Gilkeyson, W. L. McMinn, Shelby Haynes, C. L. Wilson, E. C. Badgett, R. C. Bomar, C. O. Alford Grady Wimberly, R. H. Stodghill, W. E. Stodghill, G. R. Dowdy, Bill Tension, J. H. Burson, R. S. Brown, Don Garrison, Bud McMinn, J. W. Lyon, Jr., J. E. Wheelock and Mrs. Muncy. Reporter.

YOUTH RALLY

The zone youth rally met at the First Baptist Church Saturday night at 7:30. The Quitaque youth presented the program. Mrs. Alvin Hamm, associational young people secretary, was in charge of the recreation hour.

Refreshments were served by the ladies of the W. M. U.

Billy The Kid Still Intrigues Old West Fans

DENVER, COLO.—With tales of modern bandits enjoying a revival because of a couple of claimants to the identity of Jesse James, speculation has widened concerning what would have been like had they been born and reared in a modern western town.

Among those who have come within the purview of such speculation is William Bonney—a name which would mean little to most people; but tell them that William Bonney was the real name of "Billy the Kid," and ears will perk up and interest quicken.

If he had grown up in a Midwest town of today, in a family in fair circumstances, most people agree that he would have become an exceptional athlete in baseball or track, rather than football. He had amazing speed and coordination, that he was slim and light, carrying only 140 pounds on his 5 foot, 8-inch frame.

He would have made a good soldier in wartime, because he had plenty of nerve, laughed at discomfort and was quite a handy fellow with a gun. If his thoughts had turned to show business, he would have become a fine hooper. Even without training, he had an easy aptitude for dancing and it is reported that the girls loved to be his partners.

Name Still Thrills

The schools which hold to the "born criminal" theory would disagree with that, perhaps; but there are multiple cases on record where the worst environment has produced some of the best men.

Despite all his faults, the public still thrills at mention of "Billy the Kid" name and exploits.

He is the hero of dozens of movies, all the way from "The Outlaw" and a Robert Taylor epic to the swiftest of the quickie ventures. He has even exalted in a ballet, "Billy the Kid," which was designed by Eugene Loring, the former Milwaukee dance leader, and which now ranks among the vivid examples of American dance.

Yes, a fellow who is brave and handsome and cheerful and can kill more effectively than any of his competitors will always have a fascination for a worshipful world of youth. In his 21 years, Billy knocked out 21 men (and perhaps more). He was probably the quickest and surest man on the trigger anywhere south or west of Wild Bill Hickok," says that shrewd old Texas vaquero, Jim Young.

This restless youth, this symbol of the wildest west, this sagebrush Prince Charming was born in, of all places, New York city—a Bowery slum tenement to be exact. The boy was just 90 years ago.

When William was 3 the obscure Bonney family moved to Coffeyville, Kas., where the father died. Mrs. Bonney and her two lads, Bill and Ed, moved on to Colorado, where she married a Mr. Antrim—first name not recorded. The Antrims opened a restaurant near Fort Union, on the Santa Fe trail, and were pushed on to Silver City, N.M., where crude mining town. His mother ran a boarding house and Billy had a few years' schooling.

Haunted Saloons

The boy learned much more hanging around the gambling saloons. He watched the men play cards and caught on to their tricks. Before he was 12 he knew how to deal the games, principally three card monte, a Mexican filmflam for the sucker trade.

When Billy was 12, he and his mother were walking on a Silver City street when a young blacksmith tossed a slurring remark at her. Billy sprang upon the fellow, captured the passer-by, Moulton, who slapped the blacksmith down. Later, in a saloon, the enraged blacksmith attacked Moulton with a chair. Billy pulled out his pocket knife and drove it into the assailant's heart.

Billy scouted out of the saloon, headed west and never saw his family again. No more is known of him until he was 16. By that time he was a cowboy and monte dealer around Tucson. He gained publicity by killing a few men in card games. How that boy could whip out a "44"!

But the real, the reprehensible Billy was showing up, too. Far out on the trail he spotted three Indians and, with three shots, killed them and the ponies, saddles and pelts they had.

Migraine Type Headache Stopped by New Technique

CHICAGO.—Migraine-type headaches can be avoided if the sufferer inhales a carbon-dioxide mixture when the attack is felt coming on. That is the finding of Drs. Robert M. Marussen and Harold G. Wolff of New York who gave a series of patients a mixture of 10 per cent carbon-dioxide and 90 per cent oxygen.

The doctors reported that their experiments indicated migraine attacks can be interrupted before the headache develops.

Duke University Traces History of U.S. Census

In recognition of 1950 as a census year Duke university library has prepared an exhibit of documents tracing the history of the national nose-count from the initial census in 1790 to the multi-volume product of the last 1920 effort.

Under the direction of Assistant Librarian Robert W. Christ the display was made up to include one of the first original volumes of the first census along with later issues demonstrating the constantly increasing interest of the government in the private lives of its citizens.

Hardly had the battle smoke of the Revolution cleared away before the infant republic decided to find out just how many people it comprised. The first census of 1790 was an informal affair conducted by field agents who wandered about the country counting heads. They used no elaborate printed blanks and carried most of the information in their heads or on scraps of paper that they chanced to have in their pockets.

There were only five classifications in the first census. The government wanted to know the number of free white males over 16, including heads of families, free white males under 16, free white females, all other free persons, and slaves. The total for the entire country at this time was 3,929,214 while North Carolina embraced 383,751 persons of which 100,571 were slaves. It is interesting to note that New York at this time numbered only 340,120 with 21,324 slaves.

The first census was published in a little paper-backed volume of 56 pages in 1791, and the results were given to the President. Much of the proportional representation in Congress was worked out from the figures in this little book. The whole operation cost about \$44,000. Very few of these first census reports are in existence today and the Duke University Library is one of the few institutions to own a nearly complete set of originals.

New Chemical May Produce More Sturdy Transplants

The discovery of plant-growth-regulating properties in several different chemicals based on nicotine has led U.S. department of agriculture scientists responsible for it to see a possibility of using these chemicals in growing sturdier transplants. The investigators, Dr. John W. Mitchell and J. W. Wirwille of the plant industry station studied the reactions of bean seedlings to six related complex nicotine compounds prepared by the bureau of agricultural and industrial chemistry. They found all six tended to retard the lengthening of the stems, producing stockier plants both in the light and also in darkness, where most seedlings tend to spindliness.

Although all six chemicals tried had somewhat the same effect, one called 2,4-dichlorobenzylnicotinium chloride (shortened to "2,4-DNCL") was the most effective.

Pen Leaks in Plane

A fountain pen is likely to leak in an airplane because there is always some air inside the pen, above the ink, at the same pressure as the air outside. As you ascend the surrounding air pressure becomes less and the air in the pen expands to equal it. If the pen is in a handbag, for example, with the point downward, and even if the point is upwards and a drop of ink has been entrapped in the nib, the expanding air inside may push the ink out.

Mice Damage

Shrubs and trees, especially fruit trees, are frequently damaged by mice during the fall and winter months. This is especially true if a sod mulch is used or if weeds are allowed to grow near the base of the plants. All plants should be cleared away from the base of the tree for about 12 to 18 inches and poisoned grain placed in small tin cans wherever mouse runways are found. Tin cans with holes about an inch in diameter are the best because they will keep birds and other animals from eating the poisoned grain.

Undulant Fever Program

A nationwide program to control and eradicate undulant fever in animals has been recommended by the National Research Council. Approximately 4,000 cases of undulant fever (brucellosis) in human beings are reported annually to the state departments of health, but it is estimated that the truer figure would run to at least 30,000 to 40,000 cases annually. Man acquires the disease from drinking unpasteurized infected milk and from contact with infected material from animals.

Fox Fire of Legend

Logs in a wood box alongside a fireplace may glow though there is no fire. This does not show the presence of radium. The light comes from a luminescent fungus that spreads throughout the wood in tiny threads, very much like a mould on bread. Many different kinds of fungus have been found to be luminous. This is the "fox fire" of English legend, where it was associated with elves and fairies.

Mexico's Numerous Fiestas Combine Gaiety, Religion

Often the meaning of traditional fiesta ceremonies has been lost thru centuries of repetition. In Oaxaca, Mexico, for instance, the people raise large and misshapen radishes and dress them like human beings. After the Oaxacans have feasted they dash their plates to bits in the street—no one quite knows why, notes the National Geographic Society.

In Metepec, the fiesta parade is "manned" not by costumed humans, but by oxen and burros, freshly washed and bizarrely dressed. Veracruz State's Papantla features men dressed like birds. They climb tall poles and "fly" off on ropes.

Origins of some mummery can be traced. Near Puebla, Indians re-enact the war against the French under Maximilian. Other fiestas recall the Spanish conquest, with lucky mummies dressed as Cortes and Alvarado.

Even the war between Spain and the Moors is remembered. Mexicans, to whom this old world conflict means nothing, solemnly dress as Moors and dance in battle against Spaniards.

When saints' days are lacking, Mexicans seize on marriages and funerals as occasions for fiestas. Funerals are made gay, the idea being that the deceased is freed from earthly drudgery. Funerals for children are especially joyous, for the young ones are sent to heaven pure of the stains of the world. The songs sung, however, are sad.

Mexicans even have a Day of the Dead—November 2—when death is celebrated by the whole country. Bones and skulls decorate pastries, children eat candy skulls. One town has a Dance of the Old Men on that day.

Trees Always Have Inspired Noblest Thoughts of Mankind

Trees always have caught the imagination of man—from the early colonists and their first Thanksgiving down through the years. Because they are part of our heritage, and since they span much more than the natural life of man, they carry association from generation to generation. They inspire noble thoughts whether they form a cathedral in the woods on some hillside, or whether they stand alone in our yards. They come close to our lives. Some trees, like men, become friends. The Washington elm under which the first President watched the Capitol being built, hard by the Potomac, stood until last year. At Bath, Pa., there still grows a horsechestnut, the gift of Gen. Washington to Gen. Robert Brown in Revolutionary days. The elm under which Washington took command of colonial troops at Cambridge, Mass., stood until 1923. The Wethersfield elm at Wethersfield, Conn., one of the largest of its kind still remaining, lifts its lofty head into the sky, although the infirmities of old age are upon it.

Finishing for Leather

The increasingly popular leather tops for knee-hole desks, coffee tables, drum tables, end tables and other pieces of furniture require special finishing procedures to insure their continuing beauty and serviceability. Furniture manufacturers generally purchase hides that are already partly finished by commercial leather finishers. In the fundamental finish for table top leather, flexibility is important in order to minimize the development of cracks from handling before the leather is cemented in place. After the leather is cut and placed on the table, the balance of the finishing is done to give "build-up and depth."

Modern Shoe Sizing

Shoe sizes were first established by royal decree in England some 600 years ago, but scientific shoe sizing is only a recent development. The size-to-size scaling in the olden days, as today, was a third of an inch, but such basic refinements as differentiating the left from the right shoe, and making it in varying widths, is strictly a product of our own era. Today's women's shoes are made in 168 sizes and take into consideration foot shapes as diversified as faces. Whether you're tall or short, slim or stout, young or old, spend your days behind a typewriter or managing a household, you can walk into any good store and find shoes that suit you perfectly.

Mastitis in Cattle

Many cases of mastitis in cattle could be prevented by lowering door sill entrances to the dairy barn and by fencing off contaminated mud holes and pasture ponds. Mastitis in cattle may recur following apparent recovery just as readily or more so than contracting the disease for the first time. It is quite difficult to determine when an animal has actually been cured for mastitis and should a small area of infection remain in the udder it could serve as a focus of reinfection for the entire quarter. Dairymen should remember that one attack of mastitis does not render immunity and that the animals remain susceptible to additional attacks of mastitis.

Save a Month on the Feeding Period for Hogs - Be Early

The efficient pork producer makes every pound of feed count and he gets his hogs to market weight just as fast as possible. Dr. W. C. Banks, extension veterinarian of Texas A. and M. College, says that spring pigs will reach market weight faster and will do it cheaper if farrowed in clean pens and doused and fed in sanitary lots.

He says recent tests show that well cared for pigs reached a market weight of 210 pounds, a month earlier than pigs that had their growth retarded by internal parasites. The test also showed that pigs raised on clean ground required a half pound less grain per pounds of gain.

Sanitary farrowing and feeding practices also help to prevent a number of infectious diseases and intestinal disorders which annually take a heavy toll of pigs each spring in the state, he says.

He points out that the installation of guard rails and a pig brooder in the farrowing house will save many a baby pig from being crushed or chilled. Every pig that can be saved increases the producer's income. Pigs lost at farrowing time or soon after may mean the difference between a profitable farm enterprise or a financial loss.

Dr. Banks says the rations you are feeding should be checked against deficiencies of B-complex vitamins and for balance. Feeding a ration too high in rich concentrates is wasteful.

Profits are made, says Dr. Banks, only from feeding and producing healthy hogs. At the first sign of trouble, remove the sick animals from the herd and obtain a diagnosis so the cause can be removed. Only healthy and thrifty animals can fully utilize the feed and water they eat and drink. It is a good practice to vaccinate pigs against hog cholera with the use of a dead serum vaccine.

Small but steady quantities of iodine are needed by the body for normal growth and development, healthy skin and hair, mental alertness, physical vigor as well as a preventative for goiter. The best source for this needed supply is "iodized" salt.

Movie Popcorn Long-Term Gain In Popcorn's Variable Crop

Popcorn, which traditionally winters by home firesides and summers at ball parks, circuses, and shore resorts, nowadays sends its buttered aroma through movie theaters all year round. Its consumption is on the increase. You couldn't be sure of the increase from the crop totals of the last few years because popcorn is one of the most up-and-down harvests on which Uncle Sam compiles statistics. The U.S. crop, in millions of pounds, roller-coastered from 235 in 1944 to 428 in 1945 to 253 in 1946 to 102 in 1947, then up again to 309 in 1948, only to drop back to 157 in 1949.

Victims of Arthritis Reprieved by Cortisone

Saving of increased quantities of cattle galls, from which is extracted cortisone used in relieving the suffering people afflicted with arthritis, is urged on its members by the American Meat Institute. Galls from nearly 100 cattle is needed to produce the quantity of cortisone required for one week's treatment for the average patient. "The use of the drug in proper dosage," said the institute, "is the subject of intensive research by the medical profession; which also is endeavoring to find ways of prolonging the dosage effect and, further, establish factual data on secondary side effects and possible toxicity.

Try Some of the New Garden Vegetables This Season

Plant breeders have been busy during the past few years working to develop new and to improve existing varieties of vegetables both for the home and the commercial grower. Tests have been completed on many and commercial seed producers have increased seed supplies to the point where they are now available for widespread distribution.

try a few hills of the new Congo watermelon in the garden and it's also a good commercial variety, he adds.

Of course, concludes Hutchison, you'll not be able to try all of these new varieties this year but if you have room in the garden for just a few of the more promising, give them a trial. Give them good care, control the insects and results should be good.

Farmers and ranchmen are urged to be on the alert for possible grasshopper outbreaks this spring. Get them during the hatching season and before they leave the egg beds.

The installation of guard rails and a pig brooder in the farrowing house may save many a baby pig from being crushed or chilled. Hogs must live and be healthy if they are to be profitable.

Texas 4-H members last year exhibited about 22,000 head of livestock and poultry at 212 livestock shows and fairs.

Lemming Migration Drives Owl South, Fox to Hunger

The lemmings swarm along on one of nature's strangest death marches: Canada's snowy owl, an unwilling DP from subpolar haunts, forages as far afield as Virginia; and fur traders dealing in the arctic fox and ermine face slim profits. Unrelated as these events seem they are tightly bound together this winter by the freak behavior patterns of a little animal that is close kin to the familiar house and field mouse.

When Buying a Blanket Be Sure to Examine Nap

What makes a blanket warm? Weight is not the answer, according to the American Institute of Laundering, research and educational center for the laundry industry. A good blanket, they maintain, is relatively light. It retards the escape of body heat by means of insulating air cells held in the nap.

Home gardeners and in some cases commercial growers should try some of the new varieties of vegetables that are now being offered for the first time.

A new pole bean is the Strongless Blue Lake variety. Home gardeners in areas where cabbage can still be set might like to try the new Early Round Dutch variety. Hutchison says it has shown up good in trial plantings in Texas.

Two new cucumbers are available. Earliest of all is a pickling variety and Palmetto is best for slicing and is mildew resistant. Excel is a new onion that was partially developed in Texas and in early trials has looked very good.

A new squash which Hutchison says is very good is called Uconn. Two heat resistant tomato varieties are the Red Cloud and Summer Prolific. Both have been grown in Texas with good results.

Home gardeners and in some cases commercial growers should try some of the new varieties of vegetables that are now being offered for the first time.

Religious Motto on Coins First Used in Civil War

WICHITA, KANSAS.—It is not generally known, but the motto "In God we trust" which appears on American coins was put there by public demand. It was done during the Civil War when religion had reached one of its highest points during the history of the United States.

MAKE TRIP TO MEMPHIS, TENN., FOR MERCHANDISE

Bill Stodghill, P. H. and Roy Lee McKinney made a business trip to Memphis, Tenn., last Wednesday and returned home Friday. They made the trip to bring back merchandise for Bill.

Mr. and Mrs. A. F. Pomrenke, of Tulia, visited Sunday with Mrs. Pomrenke's parents, Mr. and Mrs. C. A. Grewe.

CARBON PAPER at the NEWS

Pauper Princess Clings to Dream Of Touring U. S.

WEISBADEN, GERMANY. — A penniless German princess, daughter-in-law of Germany's last kaiser, lives in a trailer and makes a meager living by painting pictures.

Princess Alexandra Victoria is so broke that she even has trouble getting enough coal for the tiny stove in her cluttered trailer. She has a goading ambition—to tour the United States in her trailer—"just like I did when I was young."

She points out that her dream can be realized just as soon as "I earn enough money."

Although the daughter of a duke and the wife (divorced) of a royal prince, Alexandra has lived an independent, most unroyal life since World War I. She concedes her Bohemian ways have shocked her royal relatives.

"That's one reason I want to go back to America," she says. "Here one can do what one likes. There people are always shocked."

The princess was born in a castle in the north German state of Schleswig-Holstein. She is the daughter of Duke Friedrich Ferdinand of Schleswig-Holstein-Gluecksburg.

Married Prince August

In 1908 she married the late Prince August Wilhelm of Prussia, fourth son of Kaiser Wilhelm II. They had one son, Prince Alexander Ferdinand of Prussia, but their marriage ended in divorce in 1920. Her second marriage, to former naval Commander Arnold Ruemann, also ended in divorce a few years later.

"Since then," she said, "I have earned virtually all my own way."

Her hobby was painting. So she turned professional turning out pictures by the dozens, both portraits and landscapes. She even sold them herself.

In 1926 she went to the United States and toured most of the 48 states in a trailer, making her way from town to town painting pictures and selling them.

In 1932 she returned to Germany and when the war came, she was living in Berlin. She fled that city during its aerial bombardment, and moved her precious paintings to the rural home of a brother.

She didn't move them far enough. The Russians occupied that area. "And I lost everything," she lamented. "Even my little bank account in Berlin is still blocked so I've had to start all over again."

The princess has lived constantly in her small trailer the last two years, moving from one free parking site to another.

The trailer is only 15 feet long and heated by a tiny stove—when she can afford fuel. She does her own cooking on a little gas burner.

It's a bit crowded, with her easel always taking up one end of the trailer and her beloved dog, Falk, sharing the quarters.

But she is still cheerful and making plans for the future.

"I've been just as broke in America," she said. "I've seen the times there when I lived on hot dogs. I'll get back to America yet. All I need is to earn enough money."

New Device May Aid Deaf To Hear Through Fingers

NEW YORK.—A device which its designers believe will enable the deaf to "hear through their fingers" has been described by Prof. Norbert Wiener of the Massachusetts Institute of Technology.

Prof. Wiener, one of the world's most noted mathematicians, said the device, when perfected to the portable stage, is expected to take the form of a glove to be worn on the left hand.

Each finger will receive a different set of vibrations, or frequency bands, tuned to receive the sounds in the range of the human voice, which the deaf person will learn to translate into meaningful patterns.

The vibrations received by the fingertips will take the place of the vibrations created by sound frequencies inside the ear.

The present machine, still in a crude stage of development, Wiener reported, already has been tested successfully on a number of normal persons whose ears had been stopped up, and on one blind deaf mute.

Jap Emperor No Genius In Poetry-Writing Field

TOKYO.—Emperor Hirohito may have held the awe of worship of the Japanese as a ruler, but he isn't held as any great shakes in the poetry business.

Recently he burst into poetry about something he likes—a habit with him. This time the poem honored a Japanese scientist who had won the Nobel prize for physics.

Translated into English, the poem seemed to lose something, for here's what it said:

"I certainly regard the honors of Dr. Yukawa, who received the award, as the pride of our Japan."

One Japanese critic said—not for publication, of course—that even in Japanese, it wasn't much of a poem.

Population of Guam

The transformation of Guam into a key defense base has sent the population soaring upward. At the close of 1948 it was estimated at more than three times its pre-war figure of 24,000. The Chamorros, who composed most of the pre-war residents, are now outnumbered by the Filipino laborers, Civil Service workers, and military personnel who have been brought in to speed reconstruction and man the new installations. Acquired from Spain with the Philippines after the Spanish-American war, the 215-square mile island has been ruled for the past half-century, except for the Japanese conquest, by a U. S. navy commandant-governor, appointed by the President.

Nobel Prize

Nobel prizes were established by the will of a Swedish chemist, Alfred B. Nobel, who invented dynamite. He died in 1896. The amount of each prize is now about \$22,000. They are given in the fields of chemistry and physics (upon recommendation of the Swedish Academy of Sciences) and in medicine and physiology (at the recommendation of the Caroline medical institute in Stockholm). There is also a prize in literature, for which the Swedish Royal Academy nominates the winner, and for the promotion of peace. The latter is made on the recommendation of the Norwegian Storting, or parliament.

Insect Parasite Control

New insecticides, toxaphene and lindane, were recommended today by entomologists of the U. S. department of agriculture for the control of several of the most serious of the insect parasites of livestock. Toxaphene is now recommended for the control of ticks, lice, hornflies, and sheep ticks on all livestock except dairy cows. This material is of special value in the control of ticks. For controlling ticks, and lice on cattle and swine,

Mr. and Mrs. Bruce Womack, Mr. and Mrs. H. Roy Brown and Mr. and Mrs. W. C. Womack, of Quitaque, were visitors in Roaring Springs Sunday.

Mr. and Mrs. R. D. Wheelock and children, of Canyon, spent the week end with his parents, Mr. and Mrs. J. E. Wheelock.

Mrs. Betty Kirby and children, LaJaun and Rocky, are visiting in Oklahoma City with her sister and family, Mr. and Mrs. Odell Walls.

Visitors in the Edd Vaughan home Tuesday night were: Mrs. R. E. Stephens, Mr. and Mrs. C. M. Chappell, Bud McMinn, Travis and Fayree McMinn.

Mr. and Mrs. Donald Alexander went to Dallas Monday, where Donald will have a medical check-up.

1925 Study Club Met Wednesday, March 15th

The 1925 Study Club met in the club room Wednesday, March 15 with Mrs. R. G. Alexander in charge of the business and Mrs. A. H. Jackson as hostess and leader.

The members enjoyed the following well rendered program: "Youth Power, The Hope of Tomorrow," Mrs. T. C. Bomar. "What Makes Good Girls Bad", Mrs. O. T. Bundy. "Better Drivers", Mrs. R. M. Hill. "What Do You Know About Young Love?" Mrs. Alton Steele.

Mrs. Glenn McWilliams Hostess To Circle Two

Mrs. Glenn McWilliams was hostess to Circle Two members of Womens Society of Christian Service Wednesday, March 8, at 2:30. The devotional was read by Mrs. Curtis Bingham. After prayer Mrs. Glenn Bunch gave a very interesting chapter from "Great Prayers of the Psalmist."

After the business session, refreshments were served to Mesdames Lem Weaver, Warner Grabbe, Glenn Bunch, Bailey Hill, Curtis Bingham, one guest, Mrs. Buck Jefferies and the hostess, Mrs. Glenn McWilliams.

The next meeting will be March 22, at the home of Mrs. Hugh Nance.

MR. AND MRS. FRED PORTER HONORED WITH 42 PARTY

Mr. and Mrs. Shelby Haynes honored Mr. and Mrs. Fred Porter with a 42 party Saturday night. Those present were: Mr. and Mrs. Wylie Bomar, Mr. and Mrs. Dean Allard, Mr. and Mrs. Clifford Allard, Mr. and Mrs. W. D. Porter, the honored, Mr. and Mrs. Fred Porter and Mr. and Mrs. Shelby Haynes, the host and hostess.

BIRTH

Mr. and Mrs. T. M. Neese, of Wildorado, Texas, are the parents of a baby girl, born March 6, 1950 in an Amarillo hospital, named Joni Yvona. Grandparents are Mr. and Mrs. J. T. Neese, of Silverton, Mr. and Mrs. Bert Northcutt of Canyon. The little lady was born on her great-grandmother's birthday.

Mrs. Raymond Womack called Mr. and Mrs. Bruce Womack Friday night and stated that Raymond was improving slowly. He underwent surgery at the Medical Arts hospital in Big Spring three weeks ago.

New Texas Almanacs at News office, \$1.00 each.

MRS. BINGHAM GOES TO LUBBOCK FOR RE-CHECK

Mr. and Mrs. J. D. Bingham went to Lubbock Monday where Mrs. Bingham had a re-check at the hospital. She was advised that her condition was still improving.

Mrs. Edith Pletsch and son, Leroy, of Roscoe, Texas, visited their cousin, Mr. and Mrs. C. A. Grewe Sunday.
