## Road Bond Election Ordered By Court May 27

**NOTICE OF ROAD BOND ELECTION**  
The State of Texas, County of Briscoe.  
The resident qualified electors of Road District No. 7, of Briscoe County, Texas, who own taxable property in said district, are hereby notified that they are to have duly rendered the same for taxation:  
NOTICE that an election will be held on the 27th day of May, 1950, within Road District No. 7, of Briscoe County, Texas, to determine if said Road District should issue bonds and if an annual premium tax shall be levied on all taxable property within said Road District, sufficient to pay the annual interest on said bonds and to provide a sinking fund to pay the principal of said bonds at maturity, in pursuance of an Election Order made by the Commissioners' Court of Briscoe County, Texas, on the 24th day of April, 1950, the substance of which order is in words as follows to-wit:

**FOR ROAD BOND ELECTION**  
The State of Texas, County of Briscoe.  
On the 24th day of April, 1950, the Commissioners' Court of Briscoe County, Texas, convened in regular session at the regular place in the Courthouse at Silvertown, Texas, with the following members of said Court present and in attendance, to-wit: J. W. Lyon, Jr., County Judge, and H. A. Bomar, Commissioner, Precinct No. 1; B. K. Hamilton, Commissioner, Precinct No. 2; O. M. Dudley, Commissioner, Precinct No. 3; O. M. Dudley, Commissioner, Precinct No. 4; and J. W. Lyon, Jr., County Judge, presiding.

On the 24th day of April, 1950, the Commissioners' Court of Briscoe County, Texas, convened in regular session at the regular place in the Courthouse at Silvertown, Texas, with the following members of said Court present and in attendance, to-wit: J. W. Lyon, Jr., County Judge, and H. A. Bomar, Commissioner, Precinct No. 1; B. K. Hamilton, Commissioner, Precinct No. 2; O. M. Dudley, Commissioner, Precinct No. 3; O. M. Dudley, Commissioner, Precinct No. 4; and J. W. Lyon, Jr., County Judge, presiding.

On the 24th day of April, 1950, the Commissioners' Court of Briscoe County, Texas, convened in regular session at the regular place in the Courthouse at Silvertown, Texas, with the following members of said Court present and in attendance, to-wit: J. W. Lyon, Jr., County Judge, and H. A. Bomar, Commissioner, Precinct No. 1; B. K. Hamilton, Commissioner, Precinct No. 2; O. M. Dudley, Commissioner, Precinct No. 3; O. M. Dudley, Commissioner, Precinct No. 4; and J. W. Lyon, Jr., County Judge, presiding.

bonds at their maturity." AND IT FURTHER APPEARING that if voted and issued, the proceeds of said bonds will be applied to the construction, maintenance and operation of the following roads:  
(a) Beginning at a point on State Highway 207 at the Southwest corner of the town section of Silvertown;  
Thence East approximately one and one half miles to the cemetery gate;  
(b) Beginning at a point on Main Street in Silvertown, Texas, said point being at the intersection of the south edge of Blocks Nos. 62 and 63;  
Thence South on Main Street to the edge of the town section.

AND IT FURTHER APPEARING to the Court that said Road District No. 7 of Briscoe County, Texas, has been duly and legally established by order of the Commissioners' Court of Briscoe County, Texas, passed on the 12th day of May, 1921, recorded in Volume 2, pages 618-620, of the Minutes of the Commissioners' Court of said County; and  
IT FURTHER APPEARING to the Court that said petition is in all things regular and that the proposed bond issue of SIXTEEN THOUSAND DOLLARS (\$16,000) does not exceed the constitutional limitation of one-fourth of the assessed valuation of the real property of said Road District No. 7 of Briscoe County, Texas; and  
IT FURTHER APPEARING to the Court that no money derived from the proposed issue of bonds is to be expended on the construction of any designated State Highway;

IT IS THEREFORE considered, ordered, adjudged and decreed, and the Court does now so order, consider, adjudge and decree that the said petition be granted and that an election be held within and for said Road District No. 7, of Briscoe County, Texas, on the 27th day of May, 1950, which is not less than thirty (30) days from the date of this order to determine the following proposition:  
"WHETHER OR NOT the bonds of the said Briscoe County Texas, Road District No. 7, shall be issued in the amount of \$16,000, bearing interest at a rate of not to exceed 4 1-2% per annum, payable semi-annually, and maturing at such time as may be fixed by the Commissioners' Court, serially or otherwise, in not to exceed twenty (20) years from the date thereof, in conformity with the Constitution and laws of the State of Texas, particularly Section 52 of Article 3 of the Constitution, and Chapter 16, Acts 1926, First Called Session as amended, for the purpose of the construction, maintenance and operation of macadamized graveled or paved roads and turnpikes or in aid thereof throughout Briscoe County Road District No. 7, and whether or not taxes shall be levied annually on all taxable property in said Road District sufficient to pay the annual interest on said bonds and provide a sinking fund sufficient to pay the bonds at their maturity."

IT IS FURTHER ORDERED that if voted and issued the proceeds of said bonds will be applied to the construction, maintenance and operation of the following roads:  
(a) Beginning at a point on State Highway 207 at the Southwest corner of the town section of Silvertown;  
Thence East approximately one and one half miles to the cemetery gate;  
(b) Beginning at a point on Main Street in Silvertown, Texas, said point being at the intersection of the south edge of Blocks Nos. 62 and 63;  
Thence South on Main Street to the edge of the town section.  
The said election shall be held under the provisions of Chapter 16, General Laws of the State of Texas, passed by the 39th Legislature at the First Called Session thereof.  
All persons who are legally qualified voters of this State and of this County, and who are resident property taxpayers within said Road District No. 7 of Briscoe County, Texas, who own taxable property within said Dis-

trict and who have duly rendered the same for taxation, shall be entitled to vote at said election.  
IT IS FURTHER ORDERED that the ballots for said election shall be prepared in sufficient number and in conformity with House Bill Number 357, passed by the Fifty-first Legislature in 1949, and that printed on such ballots shall appear the following:  
"FOR the issuance of the bonds and the levying of the tax in payment thereof"  
"AGAINST the issuance of the bonds and the levying of the tax in payment thereof."  
EACH VOTER shall mark out with black ink or black pencil one of the above expressions, thus leaving the other as indicating his or her vote.  
THE POLLING PLACES and the officers for said election shall be, respectively, as follows:  
Voting Precinct Number One, Polling Place, Briscoe County Courthouse (County Judges Office). Election Officers: J. W. Monroe, Presiding Judge; Mrs. Florence Fogerson, Judge; R. L. O. Riddell, Clerk; Mrs. Georgia Allard, Clerk.  
Voting Precinct Number 3, Polling Place, Rock Creek (at Church of Christ Bldg.) Election Officers, J. Lee Francis, Presiding Judge; Edwin Crass, Judge; U. D. Brown, Clerk; Lowell Calloway, Clerk.  
Voting Precinct Number 7, Polling Place, Briscoe County Courthouse (County Attorneys Office). Election Officers, J. E. Mynard, Presiding Judge; Carl Crow, Judge; Mrs. D. T. Northcutt, Clerk; Mrs. Gordon Alexander, Clerk.  
Voting Precinct Number 8, Polling Place, Briscoe County Courthouse (Sheriffs Office). Election Officers, W. C. Smith, Presiding Judge; Bryant Eddleman, Judge; Mrs. Bob Dickerson, Clerk; Mrs. Dean Allard, Clerk.  
THE MANNER of holding said election shall be governed by the General Election Laws of the State of Texas, when not in conflict with the provisions of the Statutes hereinabove referred to.

Survivors are his wife, Mrs. Mollie V. Rowell, three daughters, Mrs. A. P. Boyles, Tahoka, Mrs. W. W. Baldwin and Mrs. J. F. Mercer, of Silvertown; four sons, L. A. and A. E. Rowell, both of Guyton, Oklahoma; A. B. and A. J. Rowell of Silvertown; his mother, Mrs. J. H. Rowell, of Silvertown; ten brothers and sisters: T. E. Rowell, Strathmore, California; Charlie Rowell, Silvertown; C. W. Rowell, Richland Springs, Texas; J. A. Rowell Lubbock; Mrs. H. L. Wilburn, Mercury, Texas; Mrs. C. L. Rippeote, Snyder; H. L. Rowell, Tulia; D. C. Rowell, Breckenridge; Mrs. J. L. Yost, Munday, and Earl Rowell, Kelly Field, Texas; 21 grandchildren and 2 great grandchildren.

Among the out of town friends here to attend the funeral of W. A. Rowell Sunday were: Mr. and Mrs. Hendrix, of Munday, Mr. and Mrs. Albert Pettis and daughter, of Sweetwater, Mr. and Mrs. I. A. Hollis and Mr. and Mrs. J. K. Harrison, of Brownwood, Mr. and Mrs. B. L. Lee and Jimmie and Mr. and Mrs. Floyd Lee, of Goldsmith; Mr. and Mrs. Nick S. Sarap and Mike and Mr. and Mrs. Clyde Risingooper, of Lubbock; Mr. and Mrs. Rex Volles and Don and Mr. and Mrs. Raymond Man and Teddy Lynn, of Big Spring; Mr. and Mrs. Ben Gary, of Hobbs, New Mexico; Mrs. Nettie Bowen and Mr. and Mrs. Joe Garret and Jim Gary, of Post, Texas; Mr. and Mrs. Bill Manchen, of Tulia; Mrs. Betty Hodges and Mr. and Mrs. Grover Harris, of Memphis, Texas; Mr. and Mrs. J. D. Rowell and Charles Dunn, and Mrs. Dunn, of Amarillo; Mrs. J. D. Hawkins of Colorado City, Texas.

WITNESS my hand with the seal of the Commissioners' Court of Briscoe County, Texas, affixed, this 24th day of April, 1950.  
DEE McWILLIAMS,  
County Clerk and Ex-Officio Clerk of the Commissioners' Court of Briscoe County, Texas. (Com. Court Seal.)

## MRS. ADA COX KILLED WED. - FUNERAL FRIDAY

Mrs. Ada Cox was killed around 10 o'clock Wednesday morning near Turkey, Texas when her car overturned on the highway. Mrs. Cox was driving alone and it is not known if she fell asleep while driving or suffered a heart attack that could have caused the accident.  
Mrs. Cox has been in ill health for a number of years and was returning home from Grand Prairie where she had spent the past two months under medical treatment. Her son, Troy Cox, was notified of his mother's death Wednesday morning. Douglas Funeral Home returned the body to Silvertown Wednesday afternoon. Funeral services will be held at the First Baptist Church Friday, April 28, 1950 at 2:30 p. m. conducted by Rev. G. A. Elrod. Interment in Silvertown Cemetery.

## FUNERAL SERVICES HELD SUNDAY FOR W. A. ROWELL

Funeral services for W. A. Rowell, 65 years old, was conducted at 2:30 o'clock Sunday afternoon in the First Baptist Church, Rev. G. A. Elrod, pastor, officiating. Interment was made in Silvertown Cemetery under direction of Douglas Funeral Home.  
Mr. Rowell passed away Friday after an illness of several years. He moved to Silvertown in 1924 and to his farm 9 miles southwest of Silvertown in 1929.  
William Asa Rowell was born in Comanche County Texas, August 3, 1884. He moved from there to McCulloch County when he was 19 years old. He was married to Miss Mollie Harrison October 1, 1905. They moved to Knox County in 1921, and lived there until they moved to Briscoe County in 1929. To this union four sons and three daughters were born, all of whom survive. He was converted in 1909 and united with the Baptist Church.

Survivors are his wife, Mrs. Mollie V. Rowell, three daughters, Mrs. A. P. Boyles, Tahoka, Mrs. W. W. Baldwin and Mrs. J. F. Mercer, of Silvertown; four sons, L. A. and A. E. Rowell, both of Guyton, Oklahoma; A. B. and A. J. Rowell of Silvertown; his mother, Mrs. J. H. Rowell, of Silvertown; ten brothers and sisters: T. E. Rowell, Strathmore, California; Charlie Rowell, Silvertown; C. W. Rowell, Richland Springs, Texas; J. A. Rowell Lubbock; Mrs. H. L. Wilburn, Mercury, Texas; Mrs. C. L. Rippeote, Snyder; H. L. Rowell, Tulia; D. C. Rowell, Breckenridge; Mrs. J. L. Yost, Munday, and Earl Rowell, Kelly Field, Texas; 21 grandchildren and 2 great grandchildren.

## Out of Town Friends Here For Funeral

Among the out of town friends here to attend the funeral of W. A. Rowell Sunday were: Mr. and Mrs. Hendrix, of Munday, Mr. and Mrs. Albert Pettis and daughter, of Sweetwater, Mr. and Mrs. I. A. Hollis and Mr. and Mrs. J. K. Harrison, of Brownwood, Mr. and Mrs. B. L. Lee and Jimmie and Mr. and Mrs. Floyd Lee, of Goldsmith; Mr. and Mrs. Nick S. Sarap and Mike and Mr. and Mrs. Clyde Risingooper, of Lubbock; Mr. and Mrs. Rex Volles and Don and Mr. and Mrs. Raymond Man and Teddy Lynn, of Big Spring; Mr. and Mrs. Ben Gary, of Hobbs, New Mexico; Mrs. Nettie Bowen and Mr. and Mrs. Joe Garret and Jim Gary, of Post, Texas; Mr. and Mrs. Bill Manchen, of Tulia; Mrs. Betty Hodges and Mr. and Mrs. Grover Harris, of Memphis, Texas; Mr. and Mrs. J. D. Rowell and Charles Dunn, and Mrs. Dunn, of Amarillo; Mrs. J. D. Hawkins of Colorado City, Texas.

## C. D. WRIGHT AUTHORIZES NEWS TO ANNOUNCE HIS NAME AS CANDIDATE

County Attorney C. D. Wright authorized the News to announce his name as candidate for re-election to the office of County Attorney of Briscoe County. Mr. Wright needs no introduction from the News since he has lived in the community for many years and is acquainted with most of the people of the county. His announcement follows:  
**To the Voters of Briscoe County:**  
I am a candidate for County Attorney, subject to the Democratic Primaries in July of this year, and feel like the years of experience I have had in the general practice of law, as a County Judge and County Attorney, will qualify me for this position.  
If elected will try and make a good officer, and am asking your help, for no officer can properly succeed without the help of the people. Your support and influence will be greatly appreciated.  
Respectfully submitted,  
C. D. WRIGHT.

## TEA AND ART EXHIBIT WELL ATTENDED

The tea and art exhibit held at the high school auditorium last Thursday night by Mrs. Ewing Vaughan and her students drew a large attendance. Over two hundred people registered during the evening between 7 and 9:00, besides the student body who viewed the pictures in the afternoon.  
A social hour was spent in viewing the pictures and listening to soft music furnished by Mrs. C. L. Record, private music teacher.  
There were some ninety pictures on exhibit which was not all of the students year work.

## FLOYDADA WON MATCHED ROPING CONTEST HERE SUNDAY AFTERNOON

The two county matched roping held at the club arena Sunday afternoon drew a large crowd. The roping was delayed on account of a funeral being held. The roping was between six Floyd County and men six Briscoe County men. Floydada won over Silvertown by about 25 seconds.  
Local men taking part in the roping were: Snooks Baird, Frank Gillispie, J. W. Brannon, Jr., Wade Welch, Billie McWilliams and Fred Brannon.

## BORN-To Mr. and Mrs. Harold Seefeldt a son named John Harold, weighing 7 pounds 5 ounces, April 19 at the Briscoe County Clinic. Grandparents are Mr. and Mrs. Grady Wimberly of Silvertown and Mr. and Mrs. H. C. Seefeldt of Monticello, Arkansas.

## BORN-To Mr. and Mrs. Ray Teple a daughter named Venita Fay, weight 7 pounds 4 ounces, April 16 at the Plainview hospital. Grandparents are Mr. and Mrs. Dan Montague and Mr. and Mrs. Raymond Teple.

## BORN-To Mr. and Mrs. Carl Dean Bomar, a daughter, named Roy Ann, weighing 5 pounds 11 ounces, April 25 at the Tulia hospital. Grandparents are Mr. and Mrs. Roy McMurtry and Mr. and Mrs. Tom Bomar.

NOTICE-Several news items unavoidable omitted this week will be carried later.

TRY A NEWS WANT AD.

## Funeral Today for Q. E. Brown

### OWLS TO PLAY LAST GAME TODAY WITH TURKEY

Last Friday Silvertown squeezed by Turkey 11-9 in a conference game at Turkey. Today the two teams meet here in another conference game that should be a thriller.

Tuesday the Owls journeyed to Flomot and won a conference game 12-6. In this tilt the Owls displayed far from championship caliber. Fielding was sloppy and the local lads amitted an astounding total of 5 hits off a far from mediocre pitcher.

About the only outstanding feature of the game was the one that the Flomot pitcher pulled on Rip Van Winkle McWilliams (You remember Rip, he is the fellow that slept for 20 years). Well, it seems that Darrell came to bat and hit ne got, way back in ancient times, when the Flomot pitcher wound up and threw a sneaker ball over that hit Darrell's bat and rolled far. Before Darrell regained consciousness he found himself out at first. Red? Naw, his face wasn't red, not much more than an over ripe tomato.

Don't forget today, Thursday, our last home game with Turkey which is bound to be a good one.

### NATIONAL YOUTH WEEK APRIL 29 TO MAY 6

Theme for 1950: Youth's Responsibilities.  
The church, the school, the home and many other groups are all interested in youth—our country's most important resource.  
The objects of Youth Week are:  
1. To call the attention of the community to its boys and girls, their potentialities and their problems.  
2. To encourage programs of character building activities.  
3. To emphasize the importance of a sound body, a trained mind, and spiritual growth in the development of the boy and girl.  
4. To emphasize the need of instilling in boys and girls the love of country and respect for its laws and institutions, and bringing to each the realization of his responsibilities as a citizen in a democracy.

### SERVICES SUNDAY TO COMMEMORATE YOUTH WEEK

A program will be rendered at the First Baptist Church Sunday afternoon at 3 o'clock, commemorating Youth Week. Local pastors and Rev. Joel Aldridge of Tulia, will all have part on the program.  
Everyone is invited to attend, particularly the young people of the town and community.

### ALL VETERANS INVITED TO ATTEND MEETING TUESDAY NIGHT MAY 2

Sid A. Lowery of the American Legion Department Service Office and Paul Miller, local County Service Officer will be present at the Vocational School on south side of the square on Tuesday night, May 2, to discuss the rights and benefits under the existing laws. Veterans of all wars are invited to attend Mr. Lowery said.

### GIRLS SCOUT TROOP NO. 4 BABY SITTERS

The Girl Scout Troop No. 4, met in a regular business session last week and decided they would do baby sitting to earn money to go to Scout Camp at Lubbock early this summer. Anyone interested are requested to contact Junis Mercer, one of the scout girls.

### JERRY SIMPSON IS IN FORT WORTH ATTENDING IMPLEMENT SCHOOL

Jerry Simpson, employee of the Simpson Chevrolet Company, is spending this week in Fort Worth attending a Ferguson Tractor Products Educational School. He plans to return the latter part of this week.

### A. J. ROWELL UNDERWENT A TONSIL OPERATION IN VETERANS HOSPITAL AMARILLO WEDNESDAY. HE IS RECOVERING NICELY.

Funeral services for Quinton Elisha Brown, age 79, was held Thursday morning, April 27, 1950 at 10 o'clock at the Silvertown Methodist Church. Earl I. Cantwell, Church of Christ minister, conducted the services. Interment was made in the Silvertown Cemetery under direction of Douglas Funeral Home.  
Quinton Elisha Brown was born December 14, 1871 in Alabama, and died April 25, 1950 at 10:00 p. m. in St. Anthony's hospital, Amarillo, Texas. Mr. Brown had been in ill health for the past few years. He and his daughter, Miss Lalla Brown, had spent the winter in the Rio Grande Valley. They returned to Amarillo recently.  
Mr. Brown moved from Clay County and came to what is now Briscoe County, June 1891. He has lived continuously in Briscoe County until the last three years he has made his home with his daughter, Miss Lalla Brown, at 511 N. Pierce, Amarillo, Texas.  
He was married to Miss Cora Montague March 18, 1894. Of this union there were twelve children of which ten are living and were present at his bedside.  
Mr. Brown was until his death the last of two men who helped organize Briscoe County, the other is T. L. Anderson of Silvertown, Texas.  
He was one of the few men who always saw a future for the plains and the Panhandle of Texas. He was actively engaged in livestock and farming until the death of his wife in August 22, 1941. He still owned at the time of his death part of his father's old ranch that he settled in 1891. He was widely known and respected by the people in the Panhandle.  
Mr. Brown is survived by ten children, one brother and one sister. Children are: Loyd O. Brown, Nacogdoches, Texas; Bannie G. and Clinton W., of Amarillo; Herbert R., and Printz L., of Silvertown; Clarence F., of Dalhart; Garland L., of Bakersfield, California; Miss Lalla Brown, of Amarillo; Mrs. Lee O. Thomas, Bakersfield, California; Mrs. J. M. Hutchison, Hereford, Texas; sister, Mrs. R. B. Donnell, Amarillo; brother, R. E. Brown, Albuquerque, New Mexico; nine grandchildren and two great grandchildren.

### "THE STORY OF SEABISCUIT" AT PALACE THEATRE APRIL 30, MAY 1

"The Story of Seabiscuit," starring Shirley Temple with Barry Fitzgerald, Lon McCallister, Rosemary DeCamp, Donald MacBride, Pierre Watkins, William Forrest, in technicolor.  
Seabiscuit greatest of 'em all, the fabulous racehorse with a fighting heart in the picture that will set your blood racing—and your heart singing with joy over its thundering drama.  
At last the true, thrilling story of the immortal seabiscuit, whose fighting heart and flashing hoofs brought an entire world cheering to its feet—a film of matchless adventure and gripping excitement.

### MR. AND MRS. HENRY PRICE ILL FROM FOOD POISON

Mr. and Mrs. Henry Price became seriously ill last Friday night after they returned home from seeing the show. They were carried to the local hospital and it was thought they had food poison. Mr. Price was released Saturday, but Mrs. Price, whose condition was more serious has remained in the hospital this week under treatment. Her condition is thought to be satisfactory.

## Grasshopper Control Is Urged—Weather May Be Factor

College Station—Weather conditions during the next few weeks, may well determine the seriousness of the grasshopper infestations for 1950. More moisture will bring on a big hatch, however, farmers and ranchmen should be watching for the early hatches and if and when the young "hoppers" become numerous enough to warrant control measures, action should be taken.

The Texas Agricultural Experiment Station has just released a report covering the grasshopper control work done by J. C. Gaines and H. A. Dean, professors in the department of entomology of entomology of Texas A. and M. College System, during the past two years.

They say that over a long period of years the poison habit method has not been effective in central Texas but that they are effective and are still recommended for use in the more arid portions of the state where there is a scarcity of vegetative growth to compete with the poison baits as grasshopper food.

Control tests were conducted during 1948 and 1949 to evaluate several organic insecticides applied as dusts and sprays for "hopper control. The dusts were applied in the early morning when the air was calm. The spray emulsions, made by diluting oil miscible concentrates, were applied later in the day with a compressed air sprayer equipped with a valve to regulate the pressure at 40 pounds. The treatments were made early in the season when the "hoppers" were small, less than one-fourth grown.

They say that toxaphene or chlordane applied either as a dust or spray emulsion will give good control of young grasshoppers. Either of these materials applied at from a half to a pound and a quarter per acre as a spray emulsion, or from one to a pound and a half per acre as dusts should control young "hoppers, but heavier applications are necessary for controlling the "hoppers after they get larger. This low dosage may be applied to pastures without causing injury to livestock but should not be used in pastures that are being grazed by dairy cattle. To protect crops from migrating adult "hoppers, from 2 to 3 pounds per acre of either material must be used.

Results of field tests made in 1949, the entomologists says, show that toxaphene and chlordane were more effective when applied as spray emulsions than when applied as dusts.

## Supply of Coastal Bermuda Grass Is Exhausted

The supply of coastal Bermuda grass offered to farmers and others by the agronomy department of the Texas Agricultural Experiment Station has been exhausted. According to A. W. Crain, associate extension pasture specialist of Texas A. and M. College, more than 250 sacks of the grass sprigs were shipped.

These farm plantings, he says, will prove very helpful in determining the possibilities for the grass in Texas. The requests for sprigs came from many different sections of the state and the orders were filled as they came in and as long as the supply lasted.

## Operatic Star Has New Hobby, Hurling Puns

NEW YORK—One of the rarest things in the world is an opera star without a hobby. Asked to talk about music, they talk instead about their collection of autographed baseballs, or toy railroads, or photographs. But now there is one with a new hobby—puns!

It is Astrid Varnay, the Metropolitan's soprano. She differs from the others in this; Instead of saving her puns, she passes them out freely. She is a high dramatic soprano, and has a new hydromatic auto. The old auto was called "Grangal," from Bruenhilde's steed "Grane," and from Galileo, who, despite the ban of the church on his claim, said of the world: "And still it moves." Once when an interviewer wanted to know her favorite role, she said it was with butter. Mindful of a B natural which stumps some sopranos in "Die Walkure," she has as her motto: "Always B Natural."

Always Natural And natural is what this popular "Met" singer always is, whether at Carnegie Hall in the spectacularly successful "Elektra," or on the "Met" stage, on long tours in this country and abroad, or cross the lunch table. Though she tried clerking in a bookstore, typing, and playing the piano—she made her New York debut as a pianist—she has undergone so many vocal influences that it seemed inevitable she should be a singer. Her father and mother were both singers; her husband is Herman Weigert, for more than 10 years an assistant conductor at the "Met" and now Miss Varnay's voice teacher and accompanist.

Kirsten Flagstad has moved in and out of her career and her family's. It was Miss Varnay's father, she says, who gave Flagstad her first chance with the opera company which he and others founded in Christiania.

Flagstad once auditioned Miss Varnay. And Flagstad, as well as Miss Varnay, will be back at the "Met."

Need Good Singers "The more good singers there are in the 'Met,' the better," she says. If we're going to have a golden age of our own, we have to have the finest voices. She made her "Met" debut in 1941 as Sieglinde, stepping into the part at the last minute. The performance was her first appearance on any stage as a singer, and her first time in this role with an orchestra; and it came after only two years of voice study. Her present repertory is said to include a greater number of leading Wagnerian roles than any other singer, man or woman, in the "Met's" history.

## Nickel Losing Popularity As Paper Money More Used

WASHINGTON, D. C.—The nickel is losing its popularity. Suffering from the effects of postwar inflation, the 5 cent piece no longer pays for a subway ride in New York, a bus ride in Washington or a cup of coffee in many restaurants.

The nickel, however, is not the only coin that isn't being used as much as formerly. Government figures show that all coins are declining in use and "folding money" is gaining.

Even the advent of retail sales taxes and parking meters in the last 10 years has failed to halt the postwar decline in coin usage.

The United States mint delivered only 149,064,000 nickels to banks in fiscal 1949. The peak was 223,870,000 in 1945 and the number has been dropping since.

Production of other coins is off even more. Banks required only a third as many pennies in fiscal 1949 as they did four years earlier. Sixty million half dollars were shipped out by the mint in 1945; in 1949 only 11,455,000 were dispatched to banks.

Meanwhile, the bureau of engraving and printing has been hard pressed to keep up with the demand for currency. In 1947 presses rolled out 113,000,000 sheets of currency, with 12 bills on each sheet. In 1948 the figure jumped to 124,000,000, and last year the number rose to 140,000,000.

Despite the reduced usage of coins, congress has been asked this year to approve at least five new coins: Three cent, 6 1/2, 7, 7 1/2 and 12 1/2 cent pieces.

However, treasury department officials take a dim view of the ideas, particularly in regard to the fractional currency.

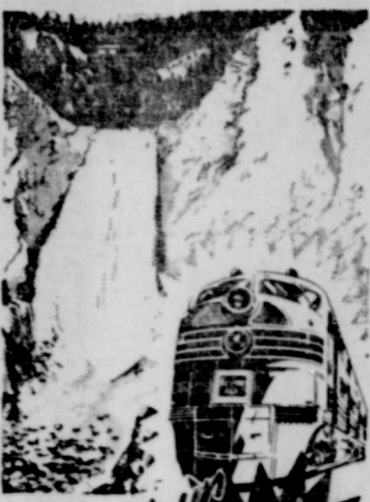

Cash registers, change makers, vending machines and millions of dollars worth of calculating machines would have to be materially altered or scrapped.

Businessmen and the public would be so annoyed by the coins "they probably wouldn't fool with them," according to Leland Howard, assistant director of the mint.

He agrees that the coins would come in handy for such things as transit systems, where tokens, representing fractional amounts of money are used, but he does not think the public wants them.

Mr. and Mrs. Bud McMinn and Fayree visited their son and brother, Travis, at Plainview Sunday afternoon. Travis has been seriously ill but his condition is much improved.

YOU CAN'T MATCH A Frigidaire. Simpson Chevrolet Co. 7-116

### Plan Your Vacation NOW

## COLORADO YELLOWSTONE

America's thrill-packed Vacationlands. Only One Zephyr Night to Colorado. Air-cooled chair cars and Pullmans. Superb meals in clean, air-conditioned dining cars. Spacious dressing rooms. Generous baggage checking privileges. Be Travelwise. Travelwise vacationists rest, relax, and enjoy themselves, while a trained engineer does the driving in a streamline diesel-electric locomotive, giving you the greatest travel value for your travel dollar—Safe, Sure Comfortable, Carefree, Speedy Trip.

## Where Are We Headed ?

Some people are bewildered about where we are headed. Some people quote the frightening pronouncements of trouble-makers. Some people point to sensational reports and opinions. Some people are alarmed by scare words.

Is it any wonder that some people... good people... are bewildered? Most of us believe that this is the fairest country in the world today... a country where good citizens give their courage and talents to helping others... to working to build a better community... a better America... a better world.

Most of us believe that ours is a nation of families... where every family deserves the right to dream of and work for a home—and, if need be, to defend that home against political abuses.

Most of us believe this is a land where folks have an inherent right to prosper by their skill, their toil, their management.

Most of us believe this is a country of men and women who are capable of standing on their own good judgment in selecting those to represent them in Washington... selecting Representatives who will place right above personal pride... duty before pleasure... the good of the majority ahead of special interests... service against empty political promises.

Most of us believe this is a country where faith will not be denied... where people can continue to depend upon Divine guidance and help!

## Altavene Clark For Congress

These are the things in which ALTAVENE CLARK believes and for which she stands. ALTAVENE CLARK is a candidate of ALL the people—not the candidate of any special group or interest. When elected she can and will work CALMLY BUT FEARLESSLY for all these things. Now is the time when EXPERIENCE Counts!

**A Psychologist  
Solves  
Marital Problems**

It's more difficult for men than women to "age successfully," George Lawton, consulting psychologist and specialist in the emotional problems of older people, declares.

The average married woman is widowed for eight years of her life, Dr. Lawton pointed out. This, he said, is an indication that men have more severe emotional illnesses, more physical illnesses leading to death, a higher alcoholism, delinquency and suicide rate.

"Men both in the realm of employment and in sexual performance face more dramatic crises indicative of aging," Dr. Lawton said. "The dividing line between the first and last half of life in men and women is very much sharper for the male."

Under the heading of "What Every Man Should Know," Dr. Lawton stressed the point that a man as he got older "had to exchange speed and quantity for strategy, skill and quality."

"Many a tired businessman is tired because he is overworking himself as an escape from close emotional relationships with his wife and members of his family," Dr. Lawton said, and cited the case of a woman client who protested against being a husband sifter, because her husband was so tired that he could not stay awake in the evening.

"A good husband will provide most women with the greater part of the things they need out of life for fulfillment, but a modern woman needs even more than her home, a husband and children in order to have a complete sense of purpose and intellectual stimulation. Every woman, regardless of her financial situation, needs a part-time job, community activities, and some creative outlet."

"Women in the middle-income brackets tend to do less work than they should, and their husbands do more work than they should. In these cases, a wife, in order to help her husband enjoy life more and perhaps even live longer, should help share her husband's work load and share his economic and mental burdens."

**Planting Pine in Furrow  
Tested by Forest Service**

Successful methods for reforestation by sowing pine seed in the fields, just like planting corn and other farm crops, may result from forest experiments now underway in southern Illinois.

The Carbondale office of the Central States forest experiment station, U.S. forest service, is testing several methods of establishing pine plantations of hilly old-fields. If successful methods of direct seeding are developed, they will be useful in southern Illinois as well as in similar areas of immediately adjacent states. Both hand and machine seeding methods are being tried in these studies. The hand method consists of digging up small spots in the field to be planted, using a mattock. Several pine seeds are sown in each spot. Results, to date, indicate that this method is more costly than planting nursery grown trees and that planting success is uncertain.

The machine seeding method being used looks very promising. In this method, furrows six to eight feet apart are plowed on the contour in the field to be planted. An ordinary horse or tractor drawn farm plow is satisfactory. The furrows are plowed shallow and are then bottomed. The furrow slice is thrown downhill so that loose soil will not wash back into the furrow. Plowing is done in the fall and seeds are sown in the furrow in March with a common garden seeder.

In old fields having heavy broomsedge with grass and brush, machine seeding gave 800 to 1000 pine seedlings per acre when examined two seasons after sowing. Ordinarily, this number of trees is set out when nursery grown stock is planted, but the planting of trees is much more costly. Direct seeding tests made on bare areas or areas with light cover were not successful enough to be practical.

**General Use of Hormones  
Regarded as Undesirable**

Widespread use of ACTH and cortisone in the routine practice of medicine would be extremely undesirable at present, according to the American Medical Association's council on pharmacy and chemistry.

A report of the council says in part:

"In the present state of our knowledge it would be extremely undesirable to permit widespread use of these potent preparations in the routine practice of medicine, and it is perhaps fortunate that neither drug is now available in unlimited quantities."

"Because of the limited amounts of both drugs presently available, their use must be restricted to those instances where they will aid in understanding the mechanism of a disorder."

The report points out that while prompt and dramatic relief has been provided in arthritis, gout and other diseases, the improvement usually is maintained only as long as the administration of the drug is continued. The report adds:

"Although chronic toxicity studies are far from complete, it has already been established that the continuous administration of either preparation over a long period often cannot be tolerated."

"When the administration of these drugs is discontinued there may be a rebound effect, the initial symptoms of the disease recurring with even greater severity than before."

**Whale Remarkable Mammal,  
Vertebrate Curator Says**

Whales are the most gigantic animals that ever lived on earth. A blue whale 100 feet long and weighing 150 tons is larger than the largest of the dinosaurs. Beside it a 10-ton elephant is a pigmy.

Other mammals—otters, or beavers, for example—spend a good deal of time in the water, but none is so completely tied to an aquatic life as are the whales. Only the manatees and dugongs approach the whales in their dependence on water, but they never venture beyond the shallow coastal waters and are less specialized.

Like other mammals, whales nourish their young with milk. To do this successfully they have developed a remarkable system of injecting milk into the mouth of the young. Even special physiological adjustments to drinking salt water were necessary in an animal that never comes into contact with fresh water.

Of course a whale has no gills and would drown promptly if deprived of air. The devices for insuring a constant supply of air—and for insuring that water cannot get into the lungs—are remarkable. In all whales there is only one nostril. Instead of being on the tip of the snout, where water could enter as the whale lies on the water surface, it opens on top of the head, as the so-called "blowhole."

**Hot Water in Home**

Hot water is used in four ways in the home: bathing and personal cleanliness; general cleaning; laundering; and dishwashing. Bathing water is seldom more than 110 degrees. General cleaning requires hot water at about 90 degrees. For laundering and dishwashing, however, water should be heated to at least 140 degrees. Temperatures above 170 degrees are not recommended except for sterilization of clothes or medical instruments. "Plenty" of hot water means at least 50 gallons a day for the average family. To wash the dishes requires about two gallons. Bathing the baby takes four gallons. Merely to mop the floor demands from two to five gallons of water. Thrifty automatic dishwashers and clothes-washers add to the total hot water needs in the course of a day.

**Fishing with Finishes**

Fishing equipment—from rubber waders to reels and from lines to lures—is given special finishing treatment to protect it and make it more attractive. These finishes have to be especially designed to meet a wide variety of conditions. The finish on the fishing rod, for instance, has to be very elastic so that it will not be affected by stresses and strains. It has, also, to resist temperature changes, fly oil, line grease and insect repellents. In addition, it should not turn white in salt or fresh water.

**Two Important Vitamins**

Vitamin B-1 and nicotinic acid are important vitamins, essential to health. The lack of vitamin B1, also called Thiamin hydrochloride, causes the disease beri-beri, as well as some nervous disorders; while a deficiency of nicotinic acid results in pellagra. Though it can be prepared from nicotin by a chemical process, nicotinic acid and nicotin are entirely distinct chemical compounds, with very different properties. To avoid confusion with nicotin, which is very poisonous, nicotinic acid is now frequently called niacin.

**Meat Production Factors**

The relative economy of various meat animals depends on the quality, kind, labor, and value of the feeds, and other essentials required to produce a pound of dressed carcass. There are several main feed types with different costs. The proportion of cheaper feeds used greatly influences relative costs. Feed and labor are the main items in meat animal production.

**SHERIFF'S SALE**

THE STATE OF TEXAS,  
County of Briscoe:

By virtue of an order of sale issued pursuant to a judgment decree of the 110th District Court of Briscoe County, Texas, by the Clerk of said Court on the 19th day of December A. D. 1949, in a certain suit No. 1349, wherein The City of Silverton, Plaintiff, and the State of Texas and The Silverton Independent School District Impleaded Parties Defendant, and Mrs. Maude Braly, Mrs. and Mrs. J. T. Perryman and Earl Braly Defendant, in favor of said plaintiff, intervener, and or impleaded part defendant, for the sum of One Hundred Ninety Five and 88-100 Dollars for taxes, interest, penalty and costs, with interest on said sum at the rate of six per cent per annum from date fixed by said judgment, together with all costs of suit, that being the amount of said judgment rendered in favor of said plaintiff, intervener, and or impleaded parties defendant by the said 110th District Court of Briscoe County, on the 19th day of December A. D. 1949, and to me directed and delivered as Sheriff of said Briscoe County, I have seized, levied upon, and will, on the first Tuesday in June A. D. 1950, the same being the 6th day said month, at the Court House door of said Briscoe County, in the City of Silverton between the hours of 2 o'clock P. M. and 4 o'clock P. M. on said day, proceed to sell for cash to the highest bidder all the right, title and interest of said defendant in and to the following described real estate levied upon as the property of said defendant, the same lying and being situated in the County of Briscoe and State of Texas, to-wit:

All of Lots Nos. Ten (10), Eleven (11) and Twelve (12) in Block No. Eighty Six (86) in the City of Silverton, Briscoe County, Texas, or, upon the written request of said defendant or their attorney, a sufficient portion thereof to satisfy said judgment, interest, penalties and costs; subject, however, to the right of the plaintiff for any other or further taxes on or against said property that may not be included herein, and the right of redemption, the defendants or any person having an interest therein, to redeem the said property, or their interest therein, at any time within two years from the date of sale in the manner provided by law, and subject to any other and further rights the defendants or anyone interested therein, may be entitled to, under the provisions of law. Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

Dated at Silverton, Texas, this 12th day of April, 1950.

BRYAN STRANGE,  
Sheriff Briscoe County, Texas.  
By J. W. McCracken, Deputy.  
16-3tc

**Spectatoritis May Hinder  
Development of Children**

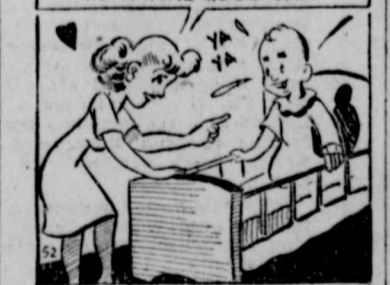

In this modern age of television, you stand to lose even if you win the jackpot on the "Hit the Dough" show.

And it is all because of a new disease called spectatoritis. Little Johnny and his grandpa may get a kick out of watching Howdy Doodo and Milton Berle, but if they make it a full time occupation they are going to miss a lot.

Mr. and Mrs. Perry Thomas, La Rue Gilkeyson and L. B. Garvin made a business trip to Canyon Saturday afternoon.

**Shortcomings of Kitchen  
Can Be Readily Overcome**

Here are some of the suggestions for kitchen planning made by the University of Illinois.

Avoid an arrangement that makes the kitchen the main thoroughfare to the rest of the house; traffic should by-pass the working area of the kitchen.

Locate kitchen door openings so they do not interfere with arrangement of kitchen equipment; do not have too many doors—good house plans seldom require more than two in a kitchen.

Have as many windows as possible without reducing the required amount of wall cabinets. Windows above the range are not recommended for reasons of safety and ease in housekeeping.

Provide adequate space in front of cabinets and appliances for passageways and work area. The recommended distance between cabinets or appliances opposite each other is four feet. This is sufficient for two workers.

Install enough counter to fulfill both base cabinet storage requirements and working space requirements for food preparation and dishwashing.

Do not have appliances too far from one another. The distance between refrigerator and sink should be from four to seven feet; between sink and range 4 to 6 feet; between range and refrigerator four to nine feet; the sum of these distances should not exceed 22 feet.

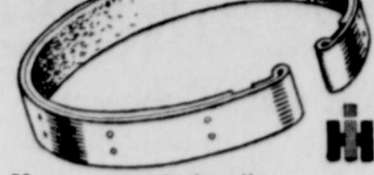

The minimum amount of wall, exclusive of doors, required for base cabinets and appliances in a kitchen using factory-made cabinets and having "liberal" storage facilities is 20 linear feet; for a "medium" kitchen 17½ feet; a "limited" kitchen, 15 feet. Four feet must be added every time the assembly of cabinets, appliances, and counters turns a corner.

**OIL FILTERS**

Protect your tractor engine from metal-wearing dust and dirt with quick-absorbing IH oil filter elements. Change them regularly, and be safe.

**BRAKE BANDS AND LININGS**

If your tractor brakes slip, chatter or grab, it's time for a new set of bands or linings. We have a complete stock.

**TRANSPARENT MILKER HOSE**

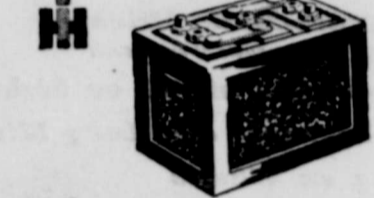

Tells you at a glance when your cows stop giving. This pliable, plastic hose is sanitary and easy to clean.

**PISTONS and SLEEVES**

Give your Farmall Tractor added power and save on fuel costs with a matched set of IH Pistons and Sleeves. Install a set and be ready for the season ahead.

**BATTERIES**

Get ready now for the season ahead. Install a new IH battery—built to deliver strong current and to last a long time.

**SPARK PLUGS**

Install a new set of IH spark plugs for added tractor power and pep. They are especially made for heavy farm duty.

**CRASS MOTOR & IMPLEMENT COMPANY**

Feather-bedding scheme of Firemen's Union to put an additional fireman on diesel locomotives has been

**CONSIDERED TWICE!**

Fact Finding Boards appointed by Presidents Roosevelt and Truman have said these demands were "devoid of merit" and they were

**REJECTED TWICE!**

Now the Firemen's leaders seek to paralyze railroad transportation to compel the railroads to employ a wholly unnecessary additional fireman to ride on diesel locomotives. This scheme is plain

**FEATHER-BEDDING!**

LEADERS of the Firemen's union have called a nationwide strike starting with four great railroads on April 26. These railroads are the New York Central, Pennsylvania, Santa Fe, and Southern.

The union claim that a second fireman is needed on grounds of safety is sheer hypocrisy. Safety has been dragged into this dispute only in an unsuccessful effort to give a cloak of respectability to vicious feather-bedding demands.

After a careful study of the first demands of this union, a Presidential Fact Finding Board on May 21, 1943, reported to President Roosevelt that there was no need for an extra fireman on diesel locomotives.

Again, on September 19, 1949, after a second hearing on the union leaders' demands, a second Board reported to President Truman that: "there presently exists no need for an additional fireman . . . upon either the ground of safety or that of efficiency and economy of operation."

extra fireman is needed for "safety" reasons. Here's what the Board had to say on that point:

"The safety and on-time performance of diesel electric locomotives operated under current rules have been notably good . . .

"Upon careful analysis of the data submitted on safety, we have concluded that no valid reasons have been shown as a support for the Brotherhood proposal under which a fireman would be required to be at all times continuously in the cab of road diesels. The proposal must be rejected."

The real reason behind these demands is that the union leaders are trying to make jobs where there is no work. In other words, a plain case of "feather-bedding."

The railroads have no intention of yielding to these wasteful make-work demands.

**"The Safety Record of Diesels is Outstandingly Good . . ."**

PRESIDENTIAL FACT FINDING BOARD REPORT

Read these excerpts from official reports of Presidential Fact Finding Boards:

"The safety record of Diesels is outstandingly good, and it follows that the safety rules now applicable have produced good results."

"The safety and on-time performance of Diesel-electric locomotives operated under current rules indicate that Diesel-electric operation has been safer than steam locomotive operation . . ."

Remember! These are not statements of the railroads. They are just a few of the many similar conclusions reached by President Truman's Fact Finding Board which spent months investigating the claims of the union leaders.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

**Home Accidents Take Big Toll In Human Life**

College Station—Home accidents took 30,500 lives in the nation last year and falls are listed as "public enemy no. 1" so far as the home is concerned for they led the home accident list. Too many home injuries, says Mrs. Bernice Claytor, extension home management specialist of Texas A. and M. College, are caused by faulty steps and stairs and she offers these suggestions for improving the situation.

She says it is dangerous economy to build stairways to save space, especially if they are frequently used. The treads of steps should be deep enough to hold the weight of the foot securely, and the risers just high enough for comfortable stepping. She says treads 10 inches deep, with a one-inch overhang and with risers seven and one-half inches high are best, but treads eight and one-half inches deep with risers nine inches high are also satisfactory. If space is a problem, she says it may be better to use a pull-down ladder from the attic store room rather than to build extremely steep stairs. Don't forget, she adds, that at least seven

**J. E. McDonald Says Guill Has Best Farm Program**

From Amarillo Globe-News, April 17.

**SHAKE, SON**

**McDonald And Guill In Huddle**

Texas Commissioner of Agriculture J. E. McDonald, who has supported Republican Presidential candidates since 1940 and has consistently won reelection on the Democratic ticket, edged fairly close to the Panhandle congressional campaign here today.

While in Amarillo for a wheat meeting, McDonald conferred with Ben Guill of Pampa, the Republican candidate for Congress.

"I have no intention to try to suggest to the people of this district how they vote for Congress," he said, "but if I were voting here, I would pick out the best man for the place and support him regardless of his party label. I think we ought to do that all over the country."

"Moreover, I'd like to say that after World War I, the soldiers were turned loose and a bunch of swivel-chair politicians wrote the peace and made a mess of it. The same thing happened after World War II. It seems to me a good idea to have the man who won the war helping run the government and writing peace policies," he declared.

McDonald visited quite some time in Guill's headquarters in the Herzing Hotel. He was photographed with Guill.

The commissioner of agriculture is a plain-spoken man who would say:

**CONGRATULATIONS . . . J. E. McDonald, Democrat, Commissioner of Agriculture for the State of Texas for twenty years, shakes hands with Ben Guill of Pampa, 40 year old Navy Purple Heart war veteran, who is running for Congress in the May 6 election. McDonald, one of the most respected agricultural experts in the world, said that Ben Guill is the only candidate with a constructive and intelligent farm program.**

Ben Guill, the son of a farmer and a resident of the Panhandle for thirty-one years, says: "The farmer has been kicked around and dictated to by the bureaucrats in Washington too long. When I go to Congress I shall bring with me a farm program dictated by the farmers of the Panhandle themselves and I shall fight for that program on the floor of the House."

**ELECT BEN GUILL TO CONGRESS**  
 May 6  
 (Political Advertisement)

**PERSONAL**

Mr. and Mrs. A. P. Dickenson spent Sunday with their daughter, Mr. and Mrs. Earl Wilbur at Higgins, Texas.

Mrs. Paul Smith and children and Miss Eula Haley, of Clarendon, spent the week end with Mr. and Mrs. R. L. Hill and Mr. and Mrs. C. L. Wilson.

Mr. and Mrs. Charles Cox, of Amarillo, spent the week end with his uncle and aunt, Eddie and Miss Eunice Cox.

Delia Love of Tulia, visited with Mrs. Mike Mason Tuesday afternoon.

Mr. and Mrs. Lewis Gilkeyson, Mr. and Mrs. J. T. Gilkeyson and son, Travis, and Mrs. Zena Thomas were visitors in Amarillo Sunday.

Eddie and Miss Eunice Cox visited Monday in Floydada with relatives and attended to business.

Mr. and Mrs. C. D. Wright made a trip to Plainview Tuesday and had medical treatment at Dr. O'Neal's Clinic.

Brenda and Don, children of Mr. and Mrs. Omer Cornett, underwent tonsilectomy at the Wellington hospital Saturday. They were able to return home Sunday night.

George Seaney and John McCain attended a Tappan Range demonstration in Amarillo Monday.

Mr. J. K. Bean underwent surgery last Monday at a Lubbock hospital. He was able to come home Sunday and is reported to be doing satisfactory.

**THE FOLLOWING LETTER IS SELF-EXPLANATORY**

Mr. E. F. Edwards, Silverton, Tex.

Dear Mr. Edwards:  
Physical examination and X-ray study of your daughter, Patricia Ann, this date revealed a moderate degree of primary tuberculous infection which is the first phase type. Many times the primary infection consists of a few mediastinal glands or a moderate degree of glandular involvement marked hilar thickening and shadows out into the lung field and still be of the primary type. There is no proof of this being a severe type of infection but only to an appreciable moderate degree. This amount of involvement by TB Authorities the country over is not considered hospital cases, the chief point being to break the contact and in a situation of this kind (primary) the infection runs a benign course and heals spontaneously. There is no proof that she would be infectious to the other children in school, and I do not think it necessary to take her out of school only Physical Education should be refrained from in her school work. She should come home in the afternoon and rest one and one half to two hours before supper time, then get her home work taken care of and being in bed by 8:30 or 9:00 and staying in bed until 7:00 a. m. I feel sure that this is necessary but is all that is necessary purely from a prevention standpoint. I would like to see her again in three months for another check-up. I hope this is the desired information and with every good wish I am,

Very truly,  
J. B. White, M. D.  
Amarillo, Texas

Mr. and Mrs. Shorty Hartman and sons, David and Tim, of Lone Star, visited Mr. and Mrs. A. D. Arnold Sunday afternoon.

Mr. and Mrs. A. R. Northcutt of Canyon, spent Saturday with their daughter and family, Mr. and Mrs. Roy Henderson.

Mr. and Mrs. Tom Olive and Mrs. Thompson and children, of Plainview, visited Sunday with Mr. Olive's parents, Mr. and Mrs. T. G. Olive.

Joye Brown who is attending West Texas State College at Canyon, spent the week end with her parents, Mr. and Mrs. U.D. Brown.

Holly Steele of Lubbock, spent the week end with her parents, Mr. and Mrs. Wade Steele.

Mr. and Mrs. Edwin Crass were shopping and visiting in Plainview Tuesday.

Visitors who called during the afternoon Sunday at the home of Mr. and Mrs. J. K. Bean were: Mr. and Mrs. Lowell Caloway, Mr. and Mrs. Stanton Crow, Mr. and Mrs. Gene Long, Mr. and Mrs. D. Garvin, Mr. and Mrs. James Patton and family.

Bobby and Roy Gene Stephens of Turkey, spent the week end with their grandparents, Mr. and Mrs. R. E. Stephens.

Mr. and Mrs. Robert McJimsey and Mr. and Mrs. Farris Martin visited from Thursday until Saturday at Stanche Valley, New Mexico, with Mr. and Mrs. Arthur McJimsey.

Stapling Machines and staples at the News office.

**PERSONALS**

Mrs. Harold Ownby and children, Diana and Carol, of Phoenix, Arizona spent the past two weeks with her parents, Mr. and Mrs. C. D. Wright. They left Friday for Amarillo where they met Mr. Ownby, who had spent two weeks in Oklahoma City on government business, and returned to Phoenix.

Guests of Mr. and Mrs. W. A. Stephens Sunday were: Mr. and Mrs. Cecil Stephens and Mr. and Mrs. Lydon Stephens of Portales, New Mexico; Mrs. French McGavock and Mrs. Lula Vaughn of Tulia; Mr. and Mrs. Elbert Stephens and family, Mr. and Mrs. Homer Stephens and family and Mr. and Mrs. Doyle Stephens and family all of Silverton.

TRY A NEWS WANT AD.

Elwyn Ponder and family, formerly of Dallas, now living in Amarillo, visited in the home of his uncle Mr. and Mrs. C. D. Wright Sunday.

Mr. and Mrs. A. H. Chappell and Mr. and Mrs. A. A. Howard visited Mr. Myers and daughters Monday night. The evening was spent playing "42".

**"If You Travel, Don't Drive"**

G. R. Dowdy, Ticket Agent

Mrs. Hoyt is the former Hazel E. Elliston, daughter of Mrs. Fred Elliston. The Hoyts have two children, a daughter Barbara Janice age 4 this coming July and a son James Frederick age 15 months.

Mr. Hoyt has just completed 20 years 1 month and 16 days service in the United States Marine Corps and in the United States Navy and at present is on the inactive list of the Fleet Reserves of the U. S. Navy. His travels have been quite numerous and he was kind enough to furnish this paper with some of his many travels and ports visited while in the service.

He first enlisted in the United States Marine Corps, August 16, 1929 and served one year in the United States at the end of which he was sent to Managua, Nicaragua in Central America where he participated in several engagements with rebel bandits and was in Managua during the terrible earthquake of March 31, 1931, where over 6,000 natives were killed. After serving two years in Nicaragua he was sent to Shanghai, China remaining there for one year then on to Peiping, China for 9 months. Upon completion of this duty Mr. Hoyt was sent to sea duty on board the U. S. S. Augusta, the flagship of the Asiatic Fleet, Admiral Chester W. Nimitz at that time (1934) was a Captain and was the Commanding Officer of the Augusta. Once aboard the ship Mr. Hoyt's travels began in earnest. Leaving China waters the Augusta went to Sydney, Melbourne and Perth Australia and then on to numerous ports throughout the Dutch East Indies and the Philippines then back to China for only a short stay before sailing to Japan spending two weeks there and returning to Shanghai. On July 30, 1935 Mr. Hoyt returned to the United States and to duty in Massachusetts. On May 15, 1936 having served six years nine months with the Marine Corps Mr. Hoyt was honorably discharged. He then decided to try his luck as a civilian but after 5 months decided he liked the service better, and on October 21, 1936 enlisted in the United States Navy. After a period of training he was sent to duty on board the U. S. S. Vin-

cennes a heavy Cruiser where he spent a few months in Atlantic waters. In 1937 his ship left for a goodwill tour of England, France, Finland, Sweden and other ports returning to the U. S. then on to California and Hawaii for Fleet Maneuvers.

He then returned to the U. S. for duties in various Naval Air Stations within the U. S. In 1940 he was assigned to duty at the Naval Air Station at Pensacola, Florida where in 1943 he met and married Hazel Elliston who was serving as a Wave in the Navy. Mr. Hoyt was separated from his wife after 8 months by reason of the war and was transferred from Pensacola to the Pacific Ocean and was assigned to duty at Fleet Air Wing Two at Kanaehoe, Hawaii for a period of 16 months. Returning to the United States he was assigned to duty at Corpus Christi, Texas where on July 29, 1946 the Hoyts were blessed with the birth of their daughter Barbara. On October 17, 1947 Mr. Hoyt who was an Aviation Chief Machinist Mate was transferred to Bremerton, Washington where he was assigned to Recruiting Duties. After a tour of 8 months he was sent to Whidbey Island, Washington where he was assigned to duty in Patrol Bomber Squadron 29 rotating duties between Alaska and Whidbey Island. While at Whidbey Island on February 6, 1946 the Hoyts were blessed with their second child a son, James Frederick. On March 6, 1950 Chief Hoyt received his notice of approval to retire from active service of the U. S. Navy. He and his family are waiting approval from the Veterans Administration to build their home here.

Mr. Hoyt is at present taking "On the job training", through the G. I. Bill as a salesman of hardware and electric appliances with R. H. Stodghill of Stodghill Hardware as his instructor.

Mr. and Mrs. Irvin McJimsey and son, George, and Mr. and Mrs. Walter Brannon and daughters, Linda and Lou, spent Sunday at the Boy Scout Camp.

Mr. and Mrs. R. E. Stephens visited in Turkey Friday with their son and family, Mr. and Mrs. Herbert Stephens.

**Spring Hints to the Flower Gardeners Trim the Stumps**

It is the tricks of the trade that often make the big differences in the flower garden. The plants that grow-off best are usually the heaviest producers of beautiful flowers, says Sadie Hatfield, landscape gardening specialist of Texas A. and M. College, and there is something that most gardeners can do to help the plants along.

Miss Hatfield suggests that you give them a special drink; one prepared by mixing commercial fertilizer and water. She calls it a starter solution and says it is very good for giving the newly set flowers or those just coming up the right kind of a start in life.

To make the solution, mix one pound of 4-12-4 or 5-10-5 fertilizer in five gallons of water. She says to mix it thoroughly and when the fertilizer has dissolved, it is ready for use. About one good cup full of the solution is sufficient for a single treatment for a plant. A watering at 10

day intervals, during the spring, with the solution, she says, will keep the plants growing and in a thrifty condition.

Miss Hatfield says the same liquid fertilizer is also good for the rose garden trees, shrubs, and for the perennials that have been separated and transplanted. Ten pounds of fertilizer mixed in a barrel of water will take care of the needs of most flower gardens for one watering at least.

She says the use of such a solution has two advantages; it soaks into the ground immediately and becomes available to the plants and no cultivation is required for the application. She warns gardeners against cultivating too deeply, says it can kill the young feeder roots that are near the surface and in the case of young plants, many are damaged more by the cultivation than from weeds.

Mr. and Mrs. Printz Brown and Mr. and Mrs. Herbert Brown were called to Amarillo last Thursday to be at the bedside of Mr. Q. E. Brown, who is seriously ill.

Mr. T. D. Wallace was carried to the Quana hospital last Tuesday for medical care. He was released Saturday and was moved to the home of his daughter, Mrs. Alga Turner at Turkey.

Mrs. Leo White underwent surgery at the Briscoe County Clinic Monday morning.

Mike Mason made a business trip to Memphis Monday afternoon.

Mr. and Mrs. W. L. McMinn left Friday for Hillsboro where they will visit several weeks with their daughter and family, Mr. and Mrs. W. C. Hubbard.

**LE ROY "PETE" LA MASTER FOR CONGRESS**  
Political Adv. paid by LaMaster for Congress Club, Paul A. Lottin, Secy-Treas.

### Archaeological Expedition Explores Cohonina's Sites

Stones in a grove of trees in Arizona 13 miles south of the Grand canyon have revealed a failure of 900 years ago. The story of it and of an archaeological expedition which found many more questions than answers is told by Prof. John C. McGregor of the University of Illinois.

The expedition last summer to a site near Williams, Ariz., included Professor McGregor and 10 students who came from the Universities of Illinois, California, Kentucky, Toronto, Chicago, and Indiana. For them the work provided an outstanding "laboratory" in archeology.

The site had been occupied 900 years ago by the little-known Cohonina Indians, contemporaries of the cliff dwellers. Apparently the Cohoninas tried to copy the stone walls built by their more advanced neighbors. But before they reached a height of four feet the walls fell flat in the faces of the imitators.

The cliff dwellers could have explained the failure as easily as did the archeologists centuries later. A wall of flat stones won't stand on a foundation of rounded boulders. The Cohoninas never tried to build with flat stone again, at least not at this site. They let the walls lay where they fell, but built other low walls, not more than three feet high, of rough stones.

The archeologists uncovered a dozen of these structures of one to four rooms. Two single-room houses had attached patios. Such house and patio construction is a new find in American archeology, Professor McGregor said.

But the find brings a host of questions. What was the advantage of going to the effort of fencing a patio with a wall only three feet high? Why would the Cohoninas have a house only three feet high, or build an energy-consuming three-foot wall if they were going to top it with other construction?

That the structures were houses is evidenced by the remains of roof beams found in them. It is from the growth rings of the wood in these beams that the archeologists date them as contemporary with the cliff dweller times.

### Natural History Museums Aid Public Understanding

A Yale university scientist predicts that natural history museums throughout the U.S. will play an increasingly important role in developing public understanding of the national problem of conservation. Conservation of wild life and natural resources, Carl O. Dunbar explained, is "one of the most important fields that the natural history museum can develop and one that is going to receive increasing attention."

"The real story of soil formation can be told vividly in a museum exhibit, and the things that go on in soil could be dramatically displayed. There is a delicate balance in nature between many forms of animal and plant life," Dunbar said, "and some of the man-made changes in the local environment have far-reaching and sometimes unforeseen consequences."

"As our country becomes more densely settled and more industrialized we continue to upset the balance of nature in many ways and the need grows to plan wisely how to conserve the resources we wish to save." Dunbar stated that the modern museum is no longer a "catchall" for discarded curios. A "revolution" in museum display has come about recently and museums are now combining dramatic art with scientific facts and material things.

### Blindness Among Children

Although the number of children losing their sight because of venereal disease has been reduced by 50 per cent since 1936, V.D. is still an important cause of blindness among children, Dr. Franklin M. Foote, executive director of the National Society for the Prevention of Blindness, has revealed. Dr. Foote reports that 10 per cent of the children entering schools for the blind in the U.S. today were made sightless by venereal infections. In 1936, 21 per cent of the children were V.D.—blindness cases.

### Lively Newcomers

The water-mix emulsion paints are the lusty youngsters of the paint manufacturing industry and have achieved a definite position and wide sale since their introduction about the time of the New York World's Fair in 1939. They employ the usual pigments, various combinations of the new synthetic resins, emulsifying agents and other chemicals to produce a serviceable finish.

### Thirteenth Century Unions

As far back as the thirteenth century, painters have been union members. The "unions" were painters' guilds, then, and they became powerful organizations with definite rules of conduct for their members and vast influence in the affairs of their countries. The reigning monarchs recognized them and granted them coats of arms in tribute to their artistic importance and achievements.

### Dim Lawn Owners' Hopes for Exterminating Crab Grass

The nation's lawn owners are advised that optimism over two new strains of grasses recently widely publicized as able to "lick crabgrass" is premature.

Lawn Care magazine says that in the first place neither the U-3 strain of Bermuda Grass nor the B-27 strain of Merion bluegrass will be available for at least two years. "Neither," the magazine says, "is near commercial production. There is no use in writing to commercial seedsmen. There just isn't any."

In the second place, even if U-3 and B-27 were available maybe lawn owners "wouldn't want them if they were."

"In fact one of them, the new strain of Bermuda grass experimentally called U-3, perhaps should not be produced anyway since there is no indication as yet that it will behave."

"An editorial writer for a Maryland newspaper brought up just one of the problems. He said: 'Let no amateur gardener suppose that this new Bermuda grass is going to be an unalloyed blessing. Another name for Bermuda is wire grass (devil grass in California) by which name it is a perennial weed which can be exterminated from flower beds and gardens only with the greatest difficulty. Once a garden is infested with wire grass, it stays that way. The more thoroughly its runners are subdivided, the worse it gets—every little snip promptly re-roots itself. What in this case may be a lawnmower's meat is most definitely liable to become a gardener's poison.'"

The other grass is a selection of Bluegrass designated B-27, also Merion bluegrass, after the famous Philadelphia club where it was first observed. The earliest guess for seed is two years and the quantity promised then is insignificant.

### Attractive Office Suites Help Sell Organization

Business offices these days do not have to be the drab, strictly utilitarian settings which have persisted through the years. Businessmen now realize that attractive offices help sell their organizations to their clients and that careful planning in decoration will increase the efficiency of their staffs. The use of color is a mainstay in their planning, and the wide variety of paint colors now available makes possible well-lighted, beautiful and smart-looking rooms.

In planning a color scheme for an office, the purpose of the room, its exposure, and its size should be considered. It is wise to remember that light tints reflect the most light—whether it's natural or artificial—and also that light tints make a room appear larger. Dark colors have the opposite effect.

One suite of law offices in Washington is decorated in liting colors that are held in check by softer hues and a dark touch here and there. Before redecorating, the offices were furnished with dark wine leather furniture with draperies to match, and the walls were drab and dirty. As one of the secretaries put it, the whole effect was "nondescript and depressing." Now, you walk into a long, well-lighted central room with walls that are painted a warm beige. The ceiling is a medium charcoal gray. Interest is added by draperies and sofa cover in dark brown, green, and lacquer red print. There are lacquer red chairs and a floor-covering that blends with the walls.

### Types of Heart Attack

Heart attacks are of two general types. In the first type, coronary insufficiency, the coronary vessels are inadequate to meet the demands of heart muscle, says Dr. James A. Brussel of Willard state hospital, N.Y. The second type, coronary occlusion, occurs because these vessels are closed. "The term angina pectoris (pain in the chest) is retained for convenience and as a matter of custom," Dr. Brussel points out. "Angina pectoris indicates a short period in which the heart muscle is deprived of blood. Although angina may cause no permanent damage it should be regarded as a potential harbinger of coronary disease."

### Oil Drum Float

A swimming float made of 50-gallon drums poses an interesting question: How much weight will each drum support if it is half submerged? The weight supported by a floating object is equal to the weight of the water that it displaces. If the 50-gallon drum is half submerged, it will displace 25 gallons of water, which weigh about 209 pounds, if fresh. Therefore the drum will support this much, including its own weight.

### When Buying Furniture

When you go to buy furniture, be sure to give careful attention to the finish and its protective qualities. Other than the protective finish and proper proportion, you'll want to look for small details like drawers with corners that are rounded and smooth, for inconspicuous, neat hardware that serves to open drawers and doors instead of being merely ornamentation.

### From Stocks and Bonds to Pots and Pans

**MORE MEN** wash the family dishes than is generally suspected. Further, the facts show that these men attack the job with a thoroughness of organization borrowed from their business duties that makes for greater efficiency. Vigorous plate scraping, orderly stacking, and a plan for washing, are all part of their efforts. They have a lively enthusiasm for helpful gadgets. They especially like the new detergents, declaring that Tide and other special products work miracles with grease; have no dishwasher scum to make a ring around the dishpan; and build prodigious suds. Being efficiency minded, these men are intrigued with the wash, rinse, and drain-dry method of dish washing. They declare that eliminating the need to towel dry the dishes can save 10 minutes after every meal, three meals a day, seven days a week. For a family of four, this totals a saving of about three hours of actual work every week. Yes, even in the world of women's chores, when men lend a hand, they have a know-how that smart women are quick to adapt.

### Conflagration Death Rate Increases, Figures Show

Although the death rates from disease and most accidental causes have decreased in the United States during the past 38 years, the conflagration death rate has increased, according to life insurance statistics.

Automobile accidents is the only other type of accident to show an increase. Conflagration death rates were 50 per cent higher during the period from 1946-1948 than they were during the 1911-1915 period. Automobile accident death rates were 268 per cent higher, reflecting the increased use of autos.

On the other hand, the burns and scalds death rate has dropped 80 per cent in the same periods. This may have been due to elimination of the old coal and wood stoves in favor of gas and electric ranges, increasing use of electricity and increasing scope and effectiveness of safety education.

The great increase in the conflagration death rates occurred in the years 1941 to 1948.

Mr. and Mrs. James Allred and Mr. and Mrs. Stanley Nestor, of Mansfield, Texas and Mr. and Mrs. A. M. Allred of Amarillo, were recent visitors in the home of Mr. and Mrs. Judd Donnell.

# A VOTER SPEAKS!

E. T. BURK, For Congress

VOTER: "Mr. Burk, I admire you. I like the way you get out and mix with the people and work 12 to 15 hours a day. I've noticed that you do the work yourself; you go out among the people. I'm for you a thousand per cent. And, I'm convinced you'll win the special election May 6 and also the Democratic primary."

BURK is ahead because he has gone out to the voters. He has traveled farther and seen more people than all the other candidates put together.

BURK is a hard worker. He loves people. He is not tied by any group or individual. He doesn't seek a government paycheck, but an opportunity to serve with fairness, honesty, common sense.

BURKE can be trusted. He will win!

### MRS. HOMER RAGLAND IS HONORED WITH SHOWER FRIDAY AFTERNOON

Mrs. Homer Ragland, Jr., (nee Norma Jean Vaughn) was honored with a bridal shower Friday afternoon at the home of Mrs. Judd Donnell. Hostesses were Mrs. J. E. Wheelock, Mrs. Henry Price, Mrs. R. E. Sweeney, Mrs. Seymour Brannon, Mrs. Judd Donnell and Mrs. Cora Donnell.

Guests were received by the hostesses and the brides mother, Mrs. Elmer Vaughan and the groom's mother, Mrs. Homer Ragland, Sr., of Dimmitt. The honoree greeted the guests in the bedroom where the gifts were displayed.

The serving table was laid with a crochet cloth. The centerpiece of carnations and ivy were in the shape of a heart with a net parasol over it. Punch was poured by Mrs. J. C. Austin of Dimmitt, sister of the groom and Mrs. Henry Price. Cakes and mints were also served.

Seventy guests called during the afternoon.

Mr. and Mrs. Bob Mooney, of Plainview, accompanied by Mrs. Mooney's sister, Miss Millie Marshall, left Monday on a week's vacation trip. They plan to visit with relatives in Tucumcari, New Mexico and also in Carlsbad, and while there they will make the trip through the caverns.

### MR. AND MRS. BOYD BINGHAM HONORED WITH SHOWER FRIDAY NIGHT

Mr. and Mrs. Boyd Bingham were honored with a miscellaneous shower and party at the Firemen's Hall Friday night. Hosts and hostesses for the occasion were Mr. and Mrs. Bob London, Mr. and Mrs. J. L. Self, Mr. and Mrs. Virgil Crow, Mr. and Mrs. A. T. Brooks, Jr., Mr. and Mrs. Richard Hill, Mr. and Mrs. Snook Baird and Mr. and Mrs. Judd Donnell.

The evening was spent in viewing the gifts, visiting and dancing. Refreshments were served to about one hundred guests.

### BIRTHDAY PARTY FOR CAROLYN KAY YANCY

Carolyn Kay Yancy, daughter of Mr. and Mrs. Elzie Yancy, was honored recently with a birthday party. She was six years old. Games were played and refreshments were served.

The following were present: Norma Fay Rowland, Sharon Banks, Carol Teague, LaJaun Thompson, Darma Kay Wilmoth, Freddy and Eddy Black.

Mr. and Mrs. Deene Donnell and son, Scott, of Canyon visited his brother, Mr. and Mrs. Judd Donnell, Sunday. Mrs. Cora Donnell, who had been visiting relatives in Canyon for three weeks returned home with them.

### CARD OF THANKS

I want to thank each of you who have been so thoughtful through my days of sickness. Your flowers, cards, letters and gifts of different kinds all have been so gratefully appreciated that words cannot express.

May God bless each of you.  
Mrs. M. L. Welch.

Mr. and Mrs. Bill Bingham of Canyon visited relatives here Friday night.

Mrs. Jeanie Riddlehuber underwent surgery Sunday morning at the Briscoe County Clinic. Her condition is reported as satisfactory.

C. G. McEwen, son of Mrs. C. B. Young, was carried to Baylor hospital at Dallas Tuesday by Esdell Hutsell for treatment. Mrs. Young accompanied them.

### Panhandle Writer Praises Timmons' Law-Making Record

By Bascom N. Timmons (Washington Correspondent; former Amarillo editor)

To those of my friends in the Eighteenth Congressional District, who have communicated with me regarding the special election of May 6, I have replied that I hope they will give their support to my nephew, State Representative J. Blake Timmons.

In 1891 I became a resident of the Texas Panhandle when my parents moved to Washburn, Armstrong County, and although my work as a writer has called me to all parts of the Nation I have retained, and always expect to retain, my legal residence in the Panhandle Congressional District. I am, therefore, no outsider.

Some years ago at the end of his distinguished public career in Washington, which had lasted for a quarter of the life of the Republic, former Vice President John N. Garner said:

"The best training for a member of Congress is in his State legislature. He learns his District and his state there. He learns the legislative process and how to work with other men. I laid the foundation for my Congressional career in the legislature of Texas."

From this training school also came Senator Tom Connally and Speaker Sam Rayburn of Texas. Representative J. Blake Timmons, 33, has ably served this District four years in the Texas legislature, exactly the apprenticeship served there by John Nance Garner.

It has become a custom of the people of Northwest Texas to choose an able young man to represent them in Congress and to keep him there, thus reaping the benefit of his increasing experience and the friendship and respect he has gained from his Congressional colleagues.

In the last 53 years this Congressional District has had three Representatives in Congress, John H. Stephens, who served 20 years, Marvin Jones, who served 24 years, and Eugene Worley, who served 10 years. It has

been my privilege to enjoy the friendship of all these able men. I believe that J. Blake Timmons would make a worthy successor to them.

He is young, industrious, able and sound. He has been an upright and forthright public servant. In these critical times, J. Blake Timmons will serve his country and his Panhandle District well.
