PUBLISHED EVERY THURSDAY AT SILVERTON, BRISCOE COUNTY, TEXAS

THURSDAY, OCTOBER 5, 1950

Rites Held For Annie Bell Campbell

Annie Bell Campbell, age 72, was found dead Thursday afternoon, September 28, about 7 o'clock at her home in south Silvertown by her sister and brother-in-law, Mr. and Mrs. H. Roy Campbell. Apparently Mrs. Campbell died from natural causes, although it had been in poor health for some time. It was thought she had been in poor health for some two hours before she was found. She had been in health for several years. Funeral services were held Saturday afternoon at 2 o'clock at the First Baptist Church, conducted by Earl L. Cantwell, interment was at Lockney Cemetery under the direction of Douglas Funeral Home.

Campbell was born Annie Higgins, near Lockwood, Missouri, November 6, 1876. She moved to Texas when a child and later to New Mexico where she married Jessie Campbell. She returned to Texas in 1929 and lived at Lockney until 1932, when she moved to Silvertown to her home.

Campbell was the eldest of nine children, and her husband passed away when she was 65, leaving Annie Bell and five other children. She came to Silvertown on September 23, and lived a life of noble character. She was a member of the Church of Christ of long standing and attended worship services for many years when her husband was alive.

OF TOWN RELATIVES ATTEND

Among the out of town relatives and friends attending the funeral were: Mr. and Mrs. Monroe, Mr. and Mrs. Button, Mr. and Mrs. George, Mr. and Mrs. Emma, Mr. and Mrs. Jake Smith, Mr. and Mrs. Chick Callo.

Mr. and Mrs. Tom Berry and Patsy, Mr. and Mrs. Syd Brown, Mr. and Mrs. Wigginton.

Mr. and Mrs. Mary Lee Dilbeck, Mr. and Mrs. Audie Nolan, Mr. and Mrs. Durbin, Mr. and Mrs. Betty and Jeanette, Mr. and Mrs. C. Bristow.

Mr. and Mrs. Elzia Turner, Mr. and Mrs. T. D. Wallace, Sunday.

DA DARNELL, a native of Texas, now starring in 20th Century-Fox's dramatic film, 'Two Flags West,' says, 'I'm justly proud of the fact that South, its distinguished citizens and its plain, everyday people, are sponsoring \$15,000 'What Dixie Means to Me' contest to call attention to the South's many advantages as a place to live.

Lieut. W. J. Finley Is Killed in Korea

Lieut. William J. (Billy) Finley, only son of Mr. and Mrs. R. E. Finley of 2010 Ninth, Lubbock, and nephew of Mrs. T. R. Whiteside, of Silvertown, was killed in action in Korea on September 16, according to information received here Monday. He was a member of the 25th infantry division.

The parents were notified of Lieut. Finley's death by his wife, who makes her home in Benton, Ill. She had been advised by the War Department. Other details were unknown by the wife or the parents yesterday.

Lieut. Finley's death brings to six the number of South Plains men who have lost their lives in the Korean fighting.

The Army officer departed for the Orient a few weeks after the beginning of the Korean conflict, arriving in Tokyo from this country in mid-July. He and a group of officers made the trans-Pacific trip by plane.

Lieut. Finley was born in Lubbock November 27, 1923. He grew up at Wilson, where his father was a druggist and Lynn county commissioner for several years. Later the family moved to Sweetwater, and he completed his high school education there.

He joined the Army in September, 1944, and was shipped overseas in early 1945. He served with the 94th Infantry division of General Patton's Third Army. Later he served as a guard during the war trials at the Palace of Justice in Nurnberg, Germany.

Met In Germany
It was during this time that Lieut. Finley met his future wife, Miss Nadine Stanfield of Benton, Ill., who was working as a secretary at the Palace of Justice. The couple was married in Lubbock in August, 1947.

Lieut. Finley was stationed at Fort Knox, Ky., until his departure for the Orient this summer. In Korea, he was with the 35th Infantry of the 25th division.

His parents moved to Lubbock about five years ago.

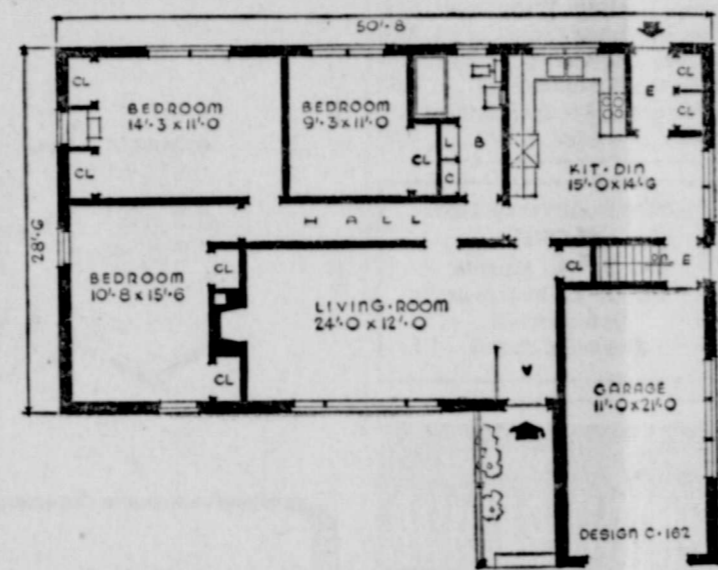

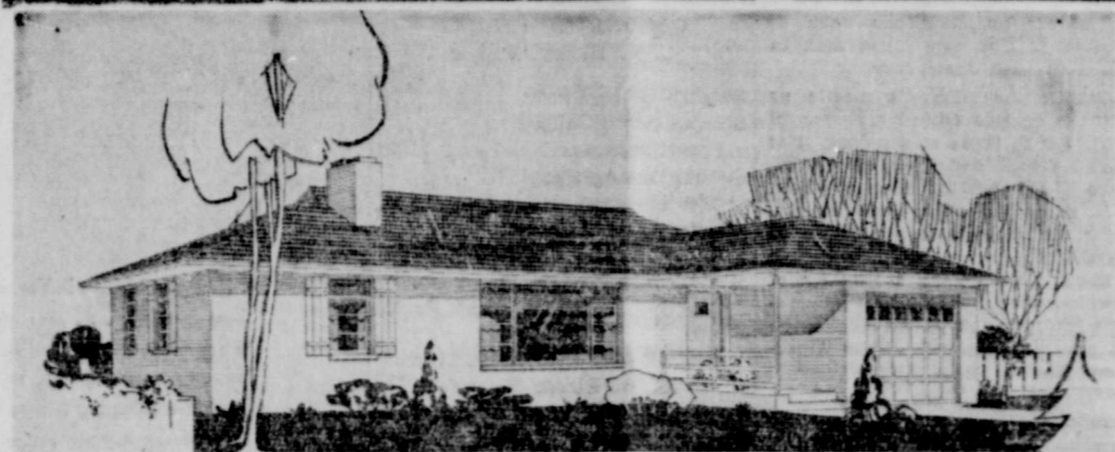

Survivors in addition to the wife and parents include two Lubbock aunts, Mrs. N. A. Terrell of Dixie Drive and Mrs. Bert Douglas of 2201 Twentieth, and Mrs. T. R. Whiteside of Silvertown. Lubbock Avalanche-Journal.

Mr. and Mrs. H. C. Mercer returned last Thursday from Palmer, Texas, where they visited his brother who was ill. They reported his brother's condition as improved and that he was able to be up in a wheelchair.

Mr. and Mrs. Harold Hale, of Tulia, visited relatives here Sunday.

Esdell Hutsell made a business trip to Fort Worth Monday.

A HOME TO LIVE IN

SMALL HOUSE PLANNING BUREAU ST. CLOUD, MINNESOTA

DESIGN C-162. This is a brick house with low rambling lines and an attached garage. There are three bedrooms and bath, large living room with fireplace and double-glazed picture window, and a combination kitchen and dining room formed into an L-shape by the rear entrance vestibule.

Plumbing installation costs are reduced by grouping the bathroom, kitchen and laundry plumbing in one place.

Kitchen cabinets are grouped under the rear windows and the dinette overlooks the side yard. The front entrance is shielded by a corrugated glass partition.

Closet space is well provided for and distributed throughout the house. There is a full basement, side entrance leading to the stairs, and a rear entrance opening into a vestibule. Plans call for a covered front entrance, hip roof with asphalt shingles and overhead garage door.

Dimensions are 50 feet by 28 feet. Floor area is 1291 square feet with a cubage of 25,174 cubic feet not including garage.

For further information see your local lumberman.

Quarterback Club Will Meet Monday Night

Everyone that has bought a reserve seat, on the football bleacher are requested to be present next Monday evening at the Quarterback Club meeting at 7:30, to participate in the drawing of seat numbers.

If it is not possible for all seat purchasers to be present numbers will be drawn for you and a seat designated.

Anyone wishing to buy a seat may contact a quarterback member or be present at the meeting Monday night.

Construction of the bleachers has been completed and about 200 seats in the center have been reserved for the purchases which made it possible to finance their construction.

Children Have Near Accident When Horse Runs Away

Peggy Hollingsworth, Jerry Baird and Stanley Fogerson experienced considerable excitement one day this week when Peggy and Jerry were out horseback riding and decided to carry Stanley for a ride in his "little red wagon" by hitching the wagon by chain to their saddle.

The youngsters' horse was frightened about the time they were set for the ride, when a car passed and Peggy slid off to safety, while Jerry stayed a little longer and was thrown to the ground with minor bruises. Stanley was a little slow in taking his seat in the wagon and did not get to take the ride after all.

The horse was caught by some neighbors a few blocks away from the scene of the accident.

Mr. and Mrs. Jord Hollingsworth and family attended the circus at Quitaque Friday night.

Miss Helen Beth Joiner, who is attending Abilene Christian College visited with her parents over the week end.

Dinner guests in the home of Mr. and Mrs. T. C. Bomar Wednesday of last week were: Mr. and Mrs. D. O. Bomar, of Lubbock, Mrs. L. W. McClendon, of Lubbock, Mrs. Lewis Applegate and Mrs. Jay Custer, of Childress. The ladies attended the book review in the afternoon.

Roy S. Brown made a business trip to Jacksboro Saturday night.

Rev. and Mrs. R. C. Guest, of South Plains, visited friends at the local hospital and their daughter, Mr. and Mrs. Esdell Hutsell, last week.

"The Palomino" Will Show at Palace Sunday, Monday, Oct. 8-9

"The Palomino"—Here's the Glorious Outdoor Adventure—to set your blood racing and your heart singing with joy. It will sweep you off your feet in a thundering stampede of thrills.

Hard times beset the ranch owned by Beverly Tyler following the death of her father. El Rey, a priceless palomino stallion, has disappeared and there is only one little golden colt left. Jerome Courtland, a cattle buyer, visits the ranch, where he meets Roy Roberts, a rancher friend of Beverly's. Actually Roberts is responsible for the theft of El Rey, whom he has hidden on a mountain and is using to breed with a string of his own mares. Roberts refuses to sell Courtland any cattle, but Jerome, who has taken a liking to Beverly, sticks around, having formed the suspicion that Roberts is the thief. Ultimately Jerome beats Roberts in a furious fist fight, recovers the stallion and the future of Beverly's ranch is secured.

Silvertown Owls Play Happy Team Friday at 8:00 p. m.

The Owls will journey to Happy Friday, October 6 where they will engage the Happy team at 8:00 p. m. This game has been changed from afternoon to night. The Owls will have their first real test in conference play.

Happy has recently installed a lighting system and for this reason the afternoon game was changed to 8:00 p. m.

Guests in the home of Mr. and Mrs. Hugh Stodghill Sunday were: Mr. and Mrs. Hugh Sanders and children, of Brice; Otis Hardin, of Plainview, brother of Mrs. Stodghill. Mrs. Stodghill, who had been a patient in the local hospital was moved to her home Friday afternoon.

W. W. Stephens of Tulia, visited his sister, Mrs. Florence Ferguson Wednesday afternoon.

Roy S. Brown made a business trip to Jacksboro Saturday night.

Rev. and Mrs. R. C. Guest, of South Plains, visited friends at the local hospital and their daughter, Mr. and Mrs. Esdell Hutsell, last week.

American Legion Auxiliary Install Officers

Members of the Silvertown unit of the American Legion Auxiliary and guest, Mrs. H. E. Campfield, of Canyon, immediate past president of the Fifth District, met Thursday night, September 28, in the home of Mrs. Clifford Allard for dinner and installation of officers.

Auxiliary colors, flags and poppies were used as place cards and centerpiece for the tables, and a delicious dinner was served by the hostess. Arrangements of fall flowers gave a colorful background for the evening.

Mrs. Campfield installed the following unit officers:

President, Mrs. "Doc" Minyard; Vice President, Mrs. Jimmie Stevenson; Recording Secretary, Mrs. Clifford Allard; Corresponding Secretary - Treasurer, Mrs. Tom Bomar; Chaplain and Historian, Mrs. Alice Bundy; Sgt. at Arms, Mrs. Arnold Brown; Reporter, Mrs. Conrad Alexander.

After the installation service, Mrs. Campfield gave an interesting report from the Department Convention held recently in Galveston.

A very brief business meeting was called and the president appointed a committee, Roberta Griffin, Bess McWilliams and Leo Alexander, for "Poppy Day" arrangements and sales.

The next meeting will be called as soon as information is received concerning the Christmas box for the Veterans Hospital of Amarillo.

Those attending the meeting included: Mrs. "Doc" Minyard, Mrs. Alice Bundy, Mrs. Tom Bomar, Mrs. Burten Hughes, Mrs. Alvin Redin, Mrs. Wayne Crawford, Mrs. Ware Fogerson, Mrs. A. P. Dickerson, Mrs. Jimmie Stevenson, Mrs. Conrad Alexander, Guest, Mrs. H. E. Campfield, of Canyon, and the hostess, Mrs. Clifford Allard.

City Prepare Delinquent Tax Statements For Service

At a meeting Monday night of the City Council action was taken to collect delinquent tax of two years or over on city property. Forty three property owners are included in the list prepared by the city preparatory to placing tax statements in the hands of County Attorney C. D. Wright for service.

Each property owner has been notified by statement where address is known.

The City Council has had the delinquent tax situation under consideration for sometime, and have taken this step to try to clear up delinquent taxes in the city, and put the property in the hands of people who will pay their taxes.

L. T. D. Club Met With Mrs. J. W. Lion, Jr.

The L. T. D. Club met with Mrs. J. W. Lyon, Jr., Tuesday, September 26 at 4 p. m. Guess what's was won by Mrs. Dee McWilliams and Mrs. Conrad Alexander.

Those present were: Mrs. Ware Fogerson, Mrs. Conrad Alexander, Mrs. Carl Dean Bomar, Mrs. L. D. Griffin, Mrs. Dee McWilliams, Mrs. Coleman Garrison and Mrs. Johnnie Lanham.

The next meeting will be with Mrs. Johnnie Lanham October 10.

Mrs. Rex Long, of Channing, Texas visited her parents, Mr. and Mrs. Dick Bomar and other relatives last week.

Mr. and Mrs. Lee D. Bomar had as their dinner guests Sunday: Mr. and Mrs. R. C. Hutsell and son, Jo Dell, Mrs. J. C. Archer, and Mrs. Pearl Simpson.

Mr. and Mrs. Winifred Watts, of Long Beach, California, visited Mr. and Mrs. J. S. Fisher Friday. Mrs. Watts is a niece of Mr. Fisher.

Funeral Services Sunday For Mrs. Emma Louise Haverty

Funeral services were held Sunday afternoon at 3 o'clock at the First Baptist Church for Mrs. Emma Louise Haverty, age 68, conducted by Rev. G. A. Elrod, assisted by Earl L. Cantwell, Rev. Grady Adcock and Rev. R. C. Guest, of South Plains. Interment was made in Silvertown cemetery under direction of Douglas Funeral Home.

Mrs. Haverty was born December 25, 1882, in San Francisco, California. Moved from California to Coleman, Texas. She attended school in Coleman and Stonevall. On November 3, 1903 she was married to R. M. Haverty. They lived in and around Matador until 1915 when they moved to Plains. In 1930 they moved to Silvertown community. Mrs. Haverty passed away Friday night, September 29, 1950 in the local hospital, following an illness of several months.

Survivors include the husband, R. M. Haverty, one son, A. J. Haverty, of Plainview; two daughters, Mrs. C. W. Bond, South Plains; Mrs. J. M. Neely, Spearman; four grandchildren, Jane and Victor Bond, Roxie Leigh and Jimmy Neely; one sister, Mrs. W. P. Hewitt, of Tulia; two brothers, O. W. Bowers, of Coleman, Texas; Theodore Bowers, of Chickasha, Oklahoma; two nephews, Oscar Hewitt, of South Plains, and William Vencil, of Jayton, Texas; three nieces, Mrs. Virgie Dennis, Silvertown; Mrs. Foster Cook, of Spur, and Mrs. Grlie Rickertson, Amarillo, Texas.

Great nieces: Mrs. Vernon Mills, Mrs. L. C. Kurtz, Tulia; Rose Ann Dennis, Silvertown; Martha Jean Kennedy, Texline; Pete Dennis, Lawrence Cook, Spur, Texas; C. F. Cook, Jr., Austin; Billy Glenn and Naylor Neil Vencil, Jayton, Texas.

Great - great nephews: Loyd Kurtz, Joyce Kurtz, Tulia; Carolyn Mills, Tulia.

Among the out of town friends attending the funeral are:

Amarillo: Mr. and Mrs. Clinton Kelley and son, Richard; Mr. James W. Kelly, Mr. and Mrs. William Kelley, Mr. and Mrs. W. J. Pearson and daughters, Mrs. Lonis Kendall.

Tulia: Mr. and Mrs. Vernon Mills, Mrs. W. P. Hewitt, Mrs. L. C. Kurtz and Lloyd and Joyce Kurtz.

Plainview: Mrs. Gladys Alvis, Mr. and Mrs. Dub Watson, Mr. and Mrs. O. C. Linwell.

Petersburg: Mr. and Mrs. Dave Kelley, Mrs. A. L. Peacock, Mr. and Mrs. Lloyd Jay, Mr. and Mrs. J. H. Sowell, Mrs. Ezra Billberry, Mr. Evans Billberry.

South Plains: Rev. and Mrs. R. C. Guest, Mr. and Mrs. John Smitherman, Mr. and Mrs. H. T. Bradshaw, Mr. and Mrs. Eula Bradshaw, Mr. and Mrs. J. T. Myrick, Mr. and Mrs. Murray Julian, Mr. and Mrs. Horace Marble, Mrs. O. T. Hewitt, Mrs. Gilbert Bean, Mr. and Mrs. Burt Sewell, Mr. and Mrs. George Weast, Mr. and Mrs. J. P. Taylor, Mr. Charlie Jarrett, Mrs. Carrie Bostick, Mr. and Mrs. Walter Wood, Mr. and Mrs. Lee Pearson.

Mr. and Mrs. Ernest Kelley, Borger Texas; Mr. and Mrs. Henry Brown, Lubbock; Mr. and Mrs. Otis Wilson, Mrs. Jim Taylor, Quitaque; Miss Una Bradshaw, Gasoline.

Mrs. Pat Murphey and daughter Miss Estelle, Paducah; Mr. B. T. Williams, Paducah; Mrs. Fred Wilson, Amherst; Mrs. Lee Fawver Littlefield; Mr. and Mrs. R. T. Jones, Floydada; Mr. and Mrs. Foster Cook, Spur; Mr. W. D. Vencil, Jayton; Mr. and Mrs. Ul Gunter, Canyon, Texas.

Mr. and Mrs. W. A. Smithee, Mrs. Donald Weast and C. A. Tunnell went to Lubbock Sunday to get Sharon Gilkeyson and Fannie Tunnell, who spent the week end with Mrs. Mary Tunnell.

J. E. Wheelock was a business visitor in Lubbock last week and also visited friends while there.

Lights Increase Fall Egg Production, Growers Are Told

Poultryman can increase their fall and winter egg production and take advantage of the high prices of these seasons of the year by using the simple electric light.

For maximum production, a hen needs 12 to 14 hours of light a day, says W. J. Moore, associate poultry husbandman for the Texas A. and M. College Extension Service. He explains that the electric light can be used to artificially lengthen the hen's laying day.

The use of artificial light should begin about the middle of September, and should be used until next spring. Moore cautions that the light rays must fall on the birds for best results, even if they stay on the roosts.

Moore says that it is not the extra feed which the birds may eat that keeps egg production up during the winter, but the effect of the light. And it makes no difference whether morning or evening lights are used, although morning lights are more common since they are more convenient for the poultryman to use.

In using morning lights, the recommended procedure is to turn the lights on about 30 minutes before daylight in the fall of the year as the days begin to get short, and to turn them on a little earlier each morning as the days get shorter.

When evening lights are used, the lights are turned on in the late afternoon before dark, and are allowed to burn until the birds have received their 12 to 14 hours of light per day. Moore cautions poultrymen to dim their evening lights for a few minutes before turning them completely

off so the hens will have time to get on the roosts. Extremely large light bulbs are not necessary for providing plenty of light for the laying hens. Moore recommends using two 25-to 40-watt bulbs for each 400 feet of floor space.

CLAUD CROSSING COMMUNITY CLUB NEWS

The Claud Crossing Community Club met September 28, 1950 in the home of Mrs. Lee D. Bomar for an all day gathering. The ladies brought a covered dish luncheon and spent the day sewing.

Members present were Mesdames: Obra Watson, Clyde Lightsey, Gordon Alexander, Pete Chitty, Chick Northcutt, R. A. Edwards, Arnold Turner, Gabe Garrison, Don Garrison, Alton Steele, Albert Mallow, Kemp Thompson, Orville Turner, Bill Watts and the hostess. The next meeting will be with Mrs. Pete Chitty.

Mr. and Mrs. J. E. Estes, of Amarillo, spent the week end with her parents, Mr. and Mrs. M. K. Summers.

Mr. and Mrs. Leo White and daughter, Marsha Kay, made a business trip to Amarillo Saturday.

Francis Tunnell visited her grandmother, Mrs. Mary Tunnell in Lubbock over the week end. Sharon Gilkeyson visited her sister, Miss LaRue Gilkeyson.

Snorkel Causes Health Problems For Submariners

SAN FRANCISCO—The snorkel, a long tube invented by the Germans to supply a submerged vessel with air for its men and its engines, presents a number of complications to life aboard a sub, a navy medical officer reports.

Rear Adm. H. L. Pugh reports it can produce a physical effect something like being tossed 10,000 feet in the air.

Sudden changes in humidity can aggravate minor illnesses of those aboard.

The air pressure can vary so rapidly that it can cause men to bleed through their ears.

Despite the snorkel's merits as a more or less constant source of fresh air to those submerged, it is possible that personnel cannot endure 60-day periods aboard. That was about the time limit on old-style submarines. It may have to be shortened.

These were among a long list of medical disclosures about submarine life reported by Admiral Pugh at a recent meeting of the American Medical Association.

Endurance May Drop
The snorkel sticks out of the water a few feet. At the open end, where air is sucked in, is a valve which closes automatically when a wave engulfs it.

Despite this safety gadget, submarine compartments can become flooded because of a lag in the valve's operation. This happens when a wave hits and engulfs the open end, or when an inefficient helmsman fails to keep the ship at a certain level, or when there is a mechanical failure in the depth control apparatus.

The rush of water floods men and machinery. The closing of the valve shuts off the air supply. But the engines keep going, rapidly gulping air. The engines act like vacuum pumps, decreasing atmospheric pressure.

This can produce thin air like that 10,000 feet above sea level. It hasn't caused any ill effects on personnel yet, but is a potential menace to men who need sure and steady hands and heads to keep the complicated machinery going.

Because the snorkel permits long periods of submerged cruising while the old-style submarine had to come up for air every night or so, crew endurance may be less than formerly.

New Hazards
Another medical hazard is the "lung" which permits men to escape individually from sunken submarines. When a man is rising rapidly to the surface, the pressure of the water around him is decreasing so rapidly that he inhales all the time. This can cause breakage in the air sacs of the lungs and can lead to air "clots" with fatal results.

All these are just added hazards of submarine life because of the changes made during and since World War II. The men still are subject to the old-time difficulties.

When a submarine shoves off, nearly everybody gets a cold. This quickly runs its course through the whole crew and then disappears, because no outsider can come aboard to bring new sets of germs.

91-Year-Old Traveler Gets Chance to Climb Mountain

GRAND RAPIDS, Mich.—Mrs. Rosa B. Kellog has always wanted to climb a mountain. But now she is 91 and it seemed unlikely she would get the opportunity.

Recently, however, she got a chance and she was determined to realize her ambition despite her age. She plans to climb her mountain in Alaska this summer. She left recently on a travel tour.

"My friends seem to be worried about my going," said Mrs. Kellog as she went about packing for the trip.

"But I feel fine," she declared. "Why stay at home when I love to travel?"

Warned that living conditions might not be as comfortable as the 11 room home in which she lived, Mrs. Kellog replied:

"I wouldn't care if I had to sleep on the floor as long as I could join in the fun with the others."

Neighbors Help Family Of Accused American Spy

SYRACUSE, N. Y.—The wife and family of an American who is being held as a Russian spy are getting financial aid to meet living costs from neighbors.

The Rev. Owen E. Rutledge, Methodist minister, and Charles H. Richards, a grocer, are directing a fund to support Mrs. Alfred Dean Slack and her two children.

The fund will be used only for Mrs. Slack and the children, Joe, 4, and Tommy, 2, and not for her husband's defense.

Mrs. Lewis Slack, sister-in-law of the accused man, said the family's income was cut off by the arrest. She said their home had been mortgaged and was still unfinished. She said it probably could not be sold or rented.

TASTEFUL COOKING

... and with ease! Yes, cooking electrically these days IS easy and fast. Top-of-range elements heat instantly... give off uniform heat to assure fast, even cooking. Cooking electrically IS easy but baking, it seems, is still easier. Baking electrically is as automatic as can be. You place your mixings in the shining oven, set the controls, then, if you want, go to an afternoon movie or have fun on a shopping trip to town. When you return your baking has been done for you... and that honey-of-an electric range has even shut itself off. You'll love your electric range... your husband will love the meals you cook on it. He'll compliment you on the flavor of the food... not just once in a while but every time. Why not see about your electric range tomorrow?

Thirty makes of electric ranges represented in the Panhandle-Pecos Valley-Eastern New Mexico served by Your Public Service Company. These thirty makes offer many models...one for your needs. Visit your electric appliance dealer in your area to see the many makes and models of electric ranges now available.

Net Radio Estimated 3,000,000

ON—According to a survey of the United Nations there are 1,300,000 regular radio sets in the Soviet Union on the list of the latest available

There are also 6,500,000 "wired" sets in Russia over which are monitored and programs are piped to Russian listeners. The only choice of programs is between one broadcast and another. The report did not say how many regular Russian sets are available and even capable of picking up American and British broadcast in Russian beamed to the Soviet Union.

The survey showed the United States has the largest radio listening population in the world and Britain has the largest newspaper circulation in the country.

U.S. First in Radios

That in the United States two persons owned a radio in Britain one daily paper for every two people. In the Soviet Union only one daily paper is sold for every six persons.

The survey, compiled at the request of the United Nations, is a study on the freedom of information and the press, also in the following data:

The circulation of daily papers in the world is nearly 219 million a day; there are 160,000,000 sets and more than 44,000,000 seats.

The United States is sixth as a newspaper-reading nation, preceding Britain, Norway, Luxembourg, Denmark and Sweden.

Asia Has 7,163 Papers

Britain is second to the United States in the number of newspapers. There are 566 sets to 1,000 persons in the United States and only 227 in Britain.

The survey said that the Russian receivers picked up sets from Soviet stations transmitted them to subscribers; the equipment in the listening room consisted simply of a speaker. The listener's choice of program selected by the survey showed.

The survey said that many countries in Africa, Asia and South America were poorly off for means of communication. In the underdeveloped parts of Africa there are many without a newspaper in their own tongue.

The survey showed that the average person in the United States watches the movies 32 times a year, the average Briton 29 times and the average Russian three times.

In the Soviet Union, 7,163 papers were published in 1947 in seventy languages, against 8,769 papers in the United States; circulation in 1947 was 100 million against 38,000,000 before the war.

Help Women Detect Signs of Breast Cancer

FRANCISCO—A motion picture which doctors are counting on to save the lives of thousands of women made its debut today.

The film uses a live model to show women how to examine their breasts for the first signs of cancer. It will be released in private showings to women's organizations. It was produced by the American Cancer Society and the National Cancer Institute, a part of the United States public health service.

In the United States about 50,000 women get breast cancer every year and about 20,000 of them die later. If it can be detected early, the victim's life nearly always can be saved by quick removal of the malignancy, quick detection, said Dr. V. Deibert, of the cancer center, a monthly examination of women over 35 is needed. The hope, he added, is to show women themselves how to look for signs of breast malignancy.

Man From Desert, Very, Very Dry

LONG BEACH, Calif. — George Hayes, a cook, was talking today to a burro in a beach-side cafe and the officer on duty, Logan, didn't interfere. When Hayes suddenly nodded and tipped a wine bottle to the burro's throat, Logan extended his authority. "That jackass asked me for a drink so I gave it to him," proclaimed Hayes, booked for intoxication. "He said he just got in from the desert and he was terribly, terribly dry."

Scale So Sensitive Will Weigh Nothing

MANOKE, Va. — A new scale so sensitive that it will weigh one-thirtieth of one-billionth of an ounce has been perfected, Dr. Jesse Beams, noted physicist, has announced.

The scale will not be used to weigh separate items. But in nuclear reaction field scientists are able to use the new tool.

The Supervisors of The Cap Rock Soil Conservation District are: Chairman, Earl L. Cantwell; Vice Chairman, Bray Cook; Secretary, Chester Burnett; L. A. McJimsey and Glynn B. Morrison.

Several farmers in the Cap Rock Soil Conservation District have inquired about the value of Ladino clover as an individual planting and for use in a pasture mixture. Although local data on Ladino clover is small, we will give you the information that is available. Ladino clover is a large form of white clover. Depending on the soil, climate, and management, the

The "Globe Trotter" Extra range, power with RCA Victor 8BX6! Lightweight aluminum and plastic case; weather-resistant finish. Plays on AC-DC or on its RCA battery. "Golden Throat" tone system.

IN STOCK
BADGETT'S
PHARMACY

expected to the acre. As is true with a lot of legumes, Ladino clover is pollinated to a large extent by insects. Without good pollination, seed production will be low. Bees are a good means of cross-pollinating the plants, and in addition to the higher seed production a good deal of honey can be produced. About one hive of bees is needed per acre to do the job properly. Anywhere from 50 to 300 pounds of seed per acre can be harvested.

Ladino clover must have proper management to do best. Fertilization is important. It needs from 400 to 600 pounds of 20 per cent superphosphate applied per acre and a top dressing of superphosphate each year. A small amount of nitrogen fertilizer helps in establishing a stand. The seed should be broadcast or drilled very shallow in a firm seedbed. Five pounds per acre should be seeded in pure stands for seed production. Two or three pounds per acre are sufficient in pasture mixtures.

Ladino clover should be successful under irrigation in the Cap Rock Soil Conservation District. It requires a large amount of water, but has done all right in the few pasture mixtures in the area. The only way we can tell how successful Ladino clover or any other new crop will be here is by making trial plantings. Properly handled under irrigation, it should be an asset to our farming operations.

FARM NEWS

From the County PMA Committee

Cotton marketing cards are ready to be issued to farm operators who are in compliance. If you planted cotton in excess of your allotment and have plowed up the excess or intend to plow up, or if the excess was destroyed by rain and hail, please notify this office as soon as possible if you haven't already done so. This must be done in order for you to receive a marketing card or any ACP payment. You must have a marketing card to sell your cotton penalty free.

November 15, 1950 is the final date that winter legumes may be seeded and receive ACP payment.

B. F. Vance, chairman of the State P. M. A. Committee, advised grain sorghum growers that the grain sorghum loan rate announced for your county is for grain sorghum stored on the farm. A deduction of 20.5 cents from the announced county rate (Briscoe County Rate \$1.80 per cwt.) will be made where grain sorghum is stored in a commercial elevator, unless the storage is prepaid and so indicated on the warehouse receipt. Vance says the 20.5 cents reduction is made on the assumption that the grain will have been in storage 230 days when the loan matures. In some areas where harvest is late, farmers can save by prepaying the storage and securing the full county loan rate on their grain. Vance advises all growers to check with their local county P. M. A. office before closing the loan. The moisture content of grain sorghums must not be in excess of 13.0 per cent.

Miss Jewell Hodges, of Lubbock, visited Sunday with her parents, Mr. and Mrs. J. T. Hodges.

Mr. and Mrs. Roy C. Roper and Miss Flora Hart, of Dallas, spent Saturday night with Mr. Roper's sister, Mr. and Mrs. C. B. Young.

FRANCIS NEWS

HELPING HAND CLUB MET WITH MRS. VIRGIL BALDWIN

The Helping Hand Club met with Mrs. Virgil Baldwin, Thursday, September 28. Beautiful flowers were presented to the hostess by Mrs. Jack Harris, Mrs. U. D. Brown and Mrs. Jack Jowell.

Other members present were: Mesdames Lowell Calloway, Edwin Cross, Mrs. Holly Francis, Charles Francis, Clyde Mercer, J. D. McGavoc, Frank Mercer, Aubrey Rowell, A. J. Rowell, Wade Steele, Scott Smith. We enjoyed Mrs. W. A. Rowell as a visitor. The next meeting will be with Mrs. U. D. Brown. We will answer roll call with a first aid hint.

PERSONAL

Dinner guests in the H. T. Myers home Wednesday honoring Mrs. Artie Homes, of Oklahoma City were: Mr. and Mrs. F. A. Fisch, Mr. and Mrs. Bood Myers, Mrs. D. N. McGavoc, Mr. and Mrs. Berl Fisch. Mr. and Mrs. Durwood Davis called in the afternoon.

Mr. and Mrs. Bood Myers, H. T. Myers and daughters, made a business trip to Amarillo Monday.

Mr. and Mrs. L. D. Griffin, Jr., Mr. and Mrs. Carl D. Bomar and Mr. Jack Strange attended the football game in Canyon Saturday night.

Mrs. A. L. McMurtry and Mr. and Mrs. J. B. Lanham spent the week end in Roswell, New Mexico. Mrs. McMurtry visited her son, Cadet Mayne K. McMurtry and the Lanhams visited with Mrs. Ethel Lew.

Mr. and Mrs. Jessie Hill went to Oklahoma City last week to be with their daughter, Mrs. Odell Walls, who is ill.

Mr. and Mrs. Keltz Garrison, of Crosbyton, visited relatives here and Quitaque Sunday.

LEGAL NOTICE

CONTRACTORS' NOTICE OF BRISCOE COUNTY HIGHWAY CONSTRUCTION

Sealed proposals for constructing 1.9 miles of Flex. Base & 2-Crs. Surf. Treat. from a point on State Highway 207 at the Southwest corner of the town section of Silverton East to Cemetery gate; From a point on Main Street in Silverton, Texas, at the intersection on the south edge of Blocks Nos. 62 and 63 South to the edge of the town section, in Briscoe County, Texas, will be received at the office of the County Judge of Briscoe County in Silverton, Texas, until 10:00 o'clock A. M., October 9, 1950, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the Commissioners' Court of Briscoe County, Texas, has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on the above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates.

Plans and specifications available at the office of J. W. Lyon, Jr., County Judge, Briscoe County, Silverton, Texas.

The usual rights are hereby reserved, and the said Briscoe County specifically reserves the right to reject any or all bids.

J. W. LYON, JR.,
County Judge Briscoe County, Texas. 39-2tc

Mrs. Bill Shivers, Mrs. Sue Ward, of Tulia, visited Tuesday with Mrs. Pearl Simpson and Mrs. J. C. Archer.

Mr. and Mrs. J. M. Perry left Saturday morning for Fort Worth to visit their son, Mr. and Mrs. W. L. Perry. They plan to visit relatives in DesDemona and other points before returning home.

Mr. and Mrs. Dean Allard and Mrs. C. O. Allard were business visitors in Tulia Monday morning.

Mrs. Barney Anthony, of Canyon, came for her mother, Mrs. W. A. Dickerson, who will visit a few days in Canyon with relatives.

Mr. and Mrs. Travis G... and sons, of Post, Texas, the week end with Mrs. G... mother, Mrs. M. M. Edwards. Rev. Grady Adcock, ministers meeting at Hall's day afternoon.

Senator LeBlanc Says South Has Great Industrial Future

Now is the Time to Start Getting Somewhere, Says HADACOL Owner

Lafayette, La. (Sp.)—Senator Dudley J. LeBlanc, colorful owner of HADACOL, wants the South to take its advantages to the nation as he is selling HADACOL to the rest of the country.

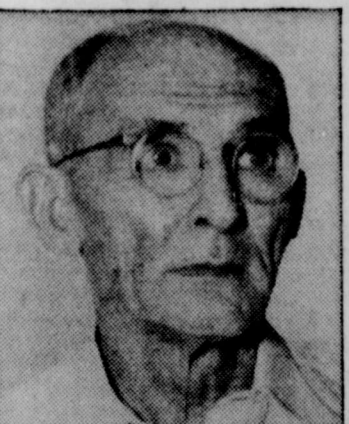

Senator Dudley J. LeBlanc

"I feel that when a firm has become as large as HADACOL that it owes it to its people to do more than sell just itself," said Senator LeBlanc.

Don't Be Satisfied With Symptomatic Relief! HADACOL NOW MAKES IT POSSIBLE TO RELIEVE THE CAUSE OF YOUR SICKNESS

Neuritis Pains, Stomach Disturbances, Indigestion, Gas, Constipation, Certain Nervous Disorders and a General Run-down Condition When due to lack of Vitamins B1, B2, Iron and Niacin in your system!

Read How These Folks Benefited Who Had Such Deficiencies

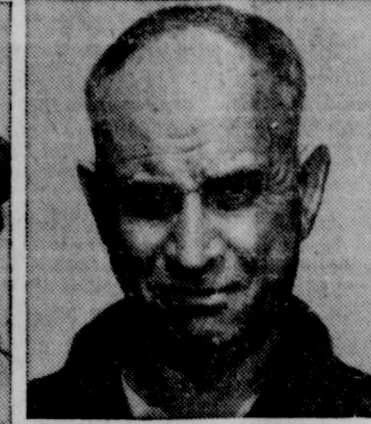

Mr. Anthamatten, 4731 South 32nd West Ave., Tulsa 7, Oklahoma, suffered from stomach distress for quite some time.

Mrs. Mabel Kitchen, 1650 Amsterdam, Cincinnati, Ohio. "Before I started taking HADACOL I had aches and pains of neuritis in my shoulders, my back and arms."

Mrs. J. Scieszinski, 514 Kruger, Ottumwa, Iowa. "My daughter, Marilyn Sue, is 5 years old and for some time lacked pep, had a poor appetite, was generally run-down."

Mr. Henry Angel, RD No. 1, Springfield, Ohio. "I used to suffer great pain from neuritis aches in all parts of my body, especially in my legs, arms and shoulders."

IMPORTANT! Why don't you get that wonderful HADACOL feeling everyone is talking about? In this modern age, wise folks are no longer satisfied with symptomatic relief — because now it's possible to relieve the cause of such deficiency sickness with that wonderful new HADACOL.

THE OWLET

EDITED BY STUDENTS OF THE SILVERTON PUBLIC SCHOOLS

THE OWLET STAFF

Editor.....Joe Monday
 Sports Editor.....Dick Turner
 Club Reporter.....Glenn Watters
 Sophomore Reporter.....Mary Dudley
 Junior Reporter.....Glenn Watters
 Senior Reporter.....Billy Tennison

Staff Members—Gloria Febworth, Millie Marshall, Gay Merrill, Bob Baird, Darrell McWilliams, Dean McWilliams, Ted Vardell, Roy Hyatt, Billy Wilson, Buford Clemmer.

Supervisor.....June H. Porter

BE PATIENT, CONSIDERATE

By Joe Monday

The school is making plans to repair our lockers as quickly as possible. Until that time they need the co-operation of each and every one of us. In spite of the fact that they are in bad condition there are several things that we can do to make things better until they are fixed. Do not slam the doors so hard or pull on them unnecessarily. Also place your books neatly in them so it will improve the appearance of the halls and our school. Also, be considerate of your classmates' possessions which may be in one of the lockers without a lock. If all the students will do their best this condition can be improved considerably.

SENIOR CLASS VICE PRESIDENT

By Buford Clemmer

Donald Bean, vice president of the Senior Class, was born March 6, 1933, in Silverton, Texas. He has two brothers and one sister. Donald says that he likes school and plans to go to college after graduation. He is a two letterman on the football team and is one of the captains this year. Donald tells us that his favorite girl is Dorothy Jo Heckman.

SENIOR CLASS SPONSORS

By Ted Vardell

Mrs. Jackie Wingo went to high school in Frederick, Oklahoma, and Silverton, Texas. She went to Amarillo College and West Texas State. She majored in music and she graduated in 1943. She is now teaching music in Silverton, Texas.

Mr. Lowrance was born in Jacksboro, Texas. He finished high school in Jacksboro and started to college in North Texas State. He minored in history, and majored in sociology and Ed. Psy.

SENIOR CLASS PLANS "FAMILY NIGHT"

The 1951 Senior Class held a called meeting Friday, September 29, 1950, with Darrell McWilliams, president, presiding. The class decided to have a "Family Night," Tuesday, October 10, 1950. The admission is \$1.00 per family. There will be games for all, so come and enjoy yourselves. The time is 8:00.

F. F. A.

The F. F. A. nominee for district office, Jaye Turner, was elected vice president of Plainview district. This was a great honor for the Silverton chapter. There will be an officers meeting in the near future.

Glen Watters, Club Reporter.

JUNIOR CLASS VICE PRESIDENT

By Roy Hyatt

Peggy Holt was elected vice president of the Junior Class. She was born at Silverton, Texas on July 12, 1934.

She has gone to Silverton High since she began school. She graduated from grade school in 1948.

Since then she has lettered two years in basketball. She has been in the pep squad two years.

In her sophomore year she was secretary-treasurer.

JUNIOR CLASS HAVE PARTY

The juniors had a class party last Tuesday night. Punch and cookies were served for refreshments. The class danced, and played games until around 10 o'clock. Every one went home then and reported as having a grand time.

Some of the kids in school are taking square dancing under the sponsorship of Mrs. Douglas. It has got around that they are doing quite well. O'yes Bonnie is doing some of the calls. Keep up the good work kids.

F. H. A. ELECT OFFICERS

The F. H. A. met Wednesday evening and elected their officers. They are:

President, Mary Tom Bomar; Vice president, Dottie Heckman; Secretary, Mary Lou Bellinger; Treasurer, Pat Tidwell; Reporter, Patsy Crass; Parliamentarian, Nadyne Gamble; Historian, Junis Mercer; Song Leader and advisor, Lucille Clemmer; Chapter mothers, Mrs. Tom Bomar, Mrs. Elbert Stephens.

Meeting date, twice a month. They have not decided as to what period they will meet.

Wednesday morning two new Tappan gas ranges were installed in the homemaking room. The girls are really proud of these and we invite you to come in and see them.

FOURTH GRADE NEWS

The fourth grade reports that they have two new pupils this year. They are Nancy Nix who moved here from Lockney, Texas, and Johnnie McLaughlin, who came from Stratford, Texas.

The second grade reports that they have seven new pupils enrolled this semester. They are Terry Ellis, Susie Conlter, and Marian Williamson all three of whom's fathers are employed with the new road job. The other four pupils are Kathryn Roasch, Eva Maye McLayghlin, Mishael Youngs and Douglas Clonch.

The first and third grades had no news for this week's edition of the "Owlet."

FIFTH GRADE NEWS

Wednesday the fifth grade class elected officers. They are as follows:

President, Janice Donnell.
 Vice President, Patsy Ely.
 Secretary Treas., Gail Mercer.
 Reporter, Sharon Eddleman.

We have been trying to improve our room by bringing flower plants, and Karla Weaver brought five fish and a fish bowl.

SIXTH GRADE NEWS

The sixth grade reports that on Monday, September 26 they elected officers for their room. Bill Stephens was elected president, Bradford Wilson was elected secretary, Evelyn Jones was elected vice president, Jimmy Scott Whitfill was elected class reporter. They also elected their room mothers. Mrs. Brannon, Mrs. Whitmore and Mrs. Stephens were chosen.

The seventh grade reports that they have two new students, Wanda Ashley who lived at Plainview before she moved to Silverton, and Dee Nix who lived at Lockney before moving here. They both say that they really like it here. Their teacher, Mr. Brown says that they are good students.

The class elected their room mothers. They are Mrs. Nig Reid, Mrs. J. M. Shy and Mrs. Alva C. Jasper. The class thinks that they will be very helpful roommothers.

SEVENTH GRADE

Sharon and Fanny sure have pretty hair cuts. Results of the week end.

Walter was gone three days he went to the doctor. He said his eyelid was infected.

I wonder if Jo Ann and Joy enjoyed their walk Saturday?

Mr. Brown saw Price College beat Quitaque at Amarillo.

Linda saw Plainview beat Fort Worth 14-13.

I wonder if Patsy and Roxanna are sore this morning? Poor horses.

EIGHTH GRADE NEWS

J. T. Anderson started to school here last Tuesday. He is an eighth grade student from Rotan, Texas. J. T.'s father is a tool pusher for the Delta Gulf Drilling Company. We hope J. T. will like Silverton as well as he did Rotan.

BAND NEWS

Mr. Porter who is the band instructor this year tells us that he has thirteen enrolled in his class. Ten of these are grade school pupils and three are high school pupils. He has five clarinet players, four cornet players, one trombone player, and one tenor saxophone player, one drummer, and one bell lyre player. He tells us that his class is progressing nicely, and that the students are talented.

NEW STUDENT

By Bobby Beard

Darrell O'Conner enrolled here the 5th of October. His town is in Geary, Oklahoma. He started to school at Geary and went to the fifth grade. He moved from Geary to Odessa, Texas in the sixth grade. From Odessa he moved to Trinity, Texas in the seventh grade. And from Trinity to Snyder, Texas. There he went to the eighth grade. From Snyder he moved to Silverton, Texas. He is now a freshman in the Silverton High School. Darrell plans to participate in all sports. His future plans are to go to college and study general business, and then go to work for an oil company. Darrell said that the people here are the most friendly he ever went to school with in Texas or Oklahoma.

QUESTION OF THE WEEK

By Dean McWilliams

What improvements are needed for the school paper?

Here are what the students of Silverton High think.

- 1.— More assortment of articles in the paper.
- 2.— Larger paper.
- 3.— Not so many "corny" jokes, and a little more news.
- 3-4.— Put in a small joke section.
- 4.— Have a smaller gossip section.
- 5.— More news about what happens in school, and less about what the school students do on Saturday night.
- 6.— Not write so many things over and over again.
- 7.— A longer editorial.
- 8.— Some say more gossip.
- 9.— The majority of the students say that the paper is all right, if we will keep up the good work and not lag behind about the middle of the school year.

Gloria was worrying about the Silverton boys, but now I think she is getting along all right. Silverton is not like Quitaque is it Gloria?

OWLS TROMP BEAR CUBS 27-0

The game started off good for Silverton with Don Bean running a reverse for the first 6 points. Freddy Hamilton broke through for the second touchdown, making the score 14-0 in the first half. Milton Thornton threw a long pass to Don Bean for a third touchdown. Don also kicked the extra points making three out of four. Joe Brooks broke through for the last touchdown of the game.

The Owls meet the Happy Cow-boys Friday, October 6, there at 8 o'clock p. m.

This will be one of the best games of the season.

NOSEY

Nosey heard Millie remark: "It surely is good to be free—of the drugstore, that is." I'll bet it is nice to have more time to be with Carl.

Well, Beth, how is your Plainview friends? We say you Saturday night.

Why were all the pep-squad girls so tired Saturday? Could it be that the late hours of these ball games are hard on them?

Did you all know Dick went to Plainview Saturday? Nosey hears from reliable sources that it was Jeanne Garvin who was honored by his presence. Maybe that made up for Friday night when Beth and Gloria didn't wait.

Ted remarked that he was two-thirds married. He and the preacher was ready but he just can't find the girl. Any applications?

Millie must really be serious about Carl. She doesn't even look at any one. True love, huh?

GOSSIP

Well Kids, guess what Nosey just found out. Tommie and Jaye are still battling it out for the affection of Sandy. I wonder if they will ever come to blows.

Why was Bonnie swooning so Monday night. Could it be that Joe's singing is that grand.

What's the matter with all the Freshman girls this week could the new Freshman boy have anything to do with this.

Whose black 48 Chev. was setting on Main street Sunday night about 10:30. Nosey also wonders who was in it. Would Jo Ann and Glen, and Joe and Gay know anything about this.

Mary was reviving old times last week end. Melvin Friday night, and Carol Saturday night. I wonder how Lynn likes this.

Who was Beth's and Gloria's New Deal friends. Introduce us some time won't you girls.

Well, since Teresa is gone who's Darrell really interested in now. Does anyone know who Glen's new heart throb is?

What was Joe Ray teaching Beth to do this morning? I heard them say something about "seven come eleven." Could it be craps.

Who was it that Mary got a phone call from Thursday morning at 7:30, does any one know?

What has Sam got on Beth? She says she isn't ashamed of it. I wish Mary and Lynn would get together, it has everyone wondering. Well Mary!

My Joe and Glen are sure getting the square dance fever. Is it because Bonnie and Jo Ann are members.

Nosey wonders why Mary Lou and Pat quit square dancing.

Whose ring is Bonnie wearing? Would you know Joe?
 Well! Have you heard. Buford beat Carrols time for the love and affection of that certain Freshman girl.
 Could Joe Wayne and Ruby be

getting serious. Nosey saw them together again Wednesday night.

**Cheese-Makers Troubled
Penicillin Given Cows**

Cheese makers are having a little trouble. These makers have benefited from scientific research in culture, but are now encountering difficulties resulting from the introduction of other research. This is due to the control of the disease, mastitis, by penicillin. Scientific cheese making includes sterilization of milk brought to the cheese factory. This treatment kills undesirable bacteria. Then the maker adds to the pasteurized milk a culture of selected organisms, commonly called a "starter." The starter includes ferments that have worked well together to produce cheese of superior quality. By guarding the uniformity of the starter the cheese maker expects to make uniformly good cheese. Many starters are not workable now. The background of the present difficulty may be traced to one of the research triumphs of U.S. agriculture—fermentation chemists—the development of the life-saving drug, penicillin, a costly rarity to a low cost drug widely used. The cost of penicillin is low enough so that veterinarians can afford to use it liberally in treating udders of cows affected with mastitis. This is a common disease and cows are treated. The result is that milk delivered to cheese factories is likely to contain a very small quantity of penicillin. It may be possible to devise a way of inactivating the very small quantities of penicillin in milk used for making cheese. It may be possible to modify the "starter" and make it penicillin resistant.

**School Driver Award
Program to Cut Auto Toll**

That the nation is taking positive steps to reduce the toll of street and highway accidents was highlighted when it was announced that 48 states were to receive awards for noteworthy progress in developing driver education courses in secondary schools under the high school driver award program. Awards were based on detailed reports submitted by representatives appointed by the governor of each state. A board of leading educators and safety specialists, meeting in New York, cited the following states for outstanding achievements in advancing safe driver education in their high schools: Arizona, California, Illinois, Indiana, Massachusetts, Michigan, New Jersey, North Dakota, Oklahoma, Wisconsin, Connecticut, Delaware, Minnesota, New Hampshire, Texas, Virginia, Washington, West Virginia and Georgia. Official reports of the 48 states which participated in the award program show that 6,995 high schools throughout the nation offered safe driver training courses during the 1949-1950 school year. This is an increase of 23 per cent over the 1948-1949 figure of 5,678 schools. During the same period the number of students enrolled in the course rose from 440,000 to 551,280, an increase of 25 per cent.

Cotton Yardage Production

Production of cotton broad wovens during the first quarter of 1950 amounted to 2,440,000,000 yards, an increase of approximately 130,000,000 yards over the fourth quarter 1949, according to preliminary reports of the bureau of the census. With the exceptions of towels and toweling, production in all classes of cotton fabrics showed an increase over that in the fourth quarter. Most significant gain was made in print cloth fabrics; from 29,000,000 yards to 893,000,000 yards in the first quarter of 1950. Narrow sheeting and related fabrics increased approximately 28-30,000,000 yards during the same period.

Many Meteors Seen

A meteorite is a meteor that is successful in touching ground. Out in space, meteors in general are fast-moving bodies—ranging in size from dust particles to many tons of substance. When their travels bring them in contact with the earth's atmospheric oxygen, they flare up, and before "burning out" or exploding can be seen as "shooting stars," to use the popularly descriptive but inaccurate expression. Dozens of such meteor falls may often be observed on a clear night. The best shows come during the last half of the year, with extensive showers scheduled in August and November.

Fearless Queen Zenobia

Although the fabulous Queen Zenobia lived all the way back in the third century A. D., she was far from an old-fashioned girl. This beautiful and fearless woman, who ruled the ancient kingdom of Palmyra in the Arabian desert, had the courage of a man. She went to war with her husband and "by his side hunted panthers, bears, and lions." Zenobia also defied the authority of the Roman senate to assume the title, "Queen of the East," and conquered Egypt, land of her forefathers.

**Recover Indian Artifacts
From English Trade Post**

A considerable variety of European and Indian artifacts recovered from excavation of perhaps the second oldest English trading post in the New World has been added to the collections of the Smithsonian Institution. They were presented by Alvin W. Brittingham, of Hampton, Va., who, together with his brother, conducted the excavation of Kicotan on the shore of Hampton Roads. Here, according to an old local tradition, a trading post had been established by the Jamestown colonists. The land has been under cultivation for many years, and many artifacts have been found during plowing. The articles range from Indian tomahawks and pipes to pottery utensils, a sword hilt, and spurs. The quantities and type of artifacts found indicate that this was the traditional site of a settlement established for trading with the Indians. There is no historical record of the Kicotan trading post, although the materials recovered establish that it was contemporary with Jamestown and that colonists and Indians probably lived there together. The site was occupied by the Koughtian Indians, who were distinguished for their friendship with the colonists. Capt. John Smith paid them several visits. They were a people with whom it was easy to open trade relations. The post must have been established sometime before 1610. At that time all Indians were driven from the neighborhood by the English governor, Sir Thomas Gates, and their lands occupied by the colonists. The site covers approximately 100 acres. Over the past century it has yielded literally bushels of artifacts, of both English and Indian origin. The collection is of great value, per se, because of the light it throws on the early industries of the first English colonists.

**Dutch Elm Disease Beetles
Becoming Resistant to DDT**

Indications that Scolytus bark beetles—carriers of Dutch elm disease—are becoming resistant to DDT, just as the house-fly and certain mosquitoes have built up similar immunity, have been reported. A new strain of these beetles seems to be developing that is proving resistant both to DDT and similar chlorinated compounds. Tests show that more and more larvae of Scolytus beetles are wintering over in elm bark that has been systematically barraged by potent insecticides. In the DDT test, bark from elms was used which had been killed by a combination of Dutch elm disease and Scolytus bark beetle attack. These trees had been sprayed twice the two preceding seasons, 1948-49, with DDT—the first with a high potent 12½ per cent spray, the second with a 5 per cent application. Both sprays were mist-blown. With the bark as breeding material in an insectary, as many as 644 beetles were reared per cubic foot of bark last spring. Similarly, there were reported "excellent" results in controlling Scolytus beetles with methoxychlor in 1949. Yet when bark with the same degree of infestation was used this year, the results were not as satisfactory. More beetles survived. Those that were killed required a greater length of time to succumb.

Fossil Finds in U.S.

No human fossils or skeletal remains have been found in the new world of any human group other than homo sapiens. This is the scientific name for modern man, and includes all races now living. There is some evidence that early hunters were present in what is now the southeastern U.S. and the Great Plains, some 15,000 to 20,000 years ago, before the end of the fourth glacial period. No remains of their bodies have been found, but they left tools which, in the way they were made, resemble some of those found in Europe from the later part of the Old Stone Age.

Happened in Egypt

Egyptians appear to be slow in learning that it makes a lot of difference whether an animal gets its medicine through the nose or down the throat. The British veterinary journal reports that a donkey "paid through the nose" for its owner's mismanagement in giving a drench for colic. Like many Egyptians do, the owner poured the medicine through the donkey's nostrils, causing mechanical pneumonia. The frantic owner put in an emergency call to his veterinarian just as the animal was taking its last gasp.

Jefferson as Inventor

Thomas Jefferson rates an honored place in the gallery of "Inventions That Serve You." His greatness as a statesman overshadowed his distinction as an inventor. Invention of the swivel chair was one of his earliest achievements. His carriage "mileage computer" antedates the modern speedometer. A score of gadget inventions, including a combination table and chaise longue, may be seen in his Monticello home today.

CHECKERBOARD CHUCKLES • From Your Purina Dealer

I'VE GOT A RIDDLE—THINK OF THREE WAYS TO CUT EGG PRODUCTION COSTS!

IT'S NOT WHAT YOU'RE THINKING—HAVEN'T YOU HEARD OF THE PURINA DEALER'S FALL COST-CUTTING FAIR!

CUT EGG PRODUCTION COSTS 3 WAYS
During this big fall Cost-Cutting Fair, we'd like to tell you about 3 ways we think we can help you cut egg production costs right now. Come in and see us.

HARVEST--QUEEN GRAIN COMPANY
FORMERLY FARMERS GRAIN CO. West of the Railroad Track, Silverton, Texas

Nice (?) chilling thought for a hot day:

Life expectancy now about 70 years of age

1 out of every 3 over 65 have no cash income

Were you born today? If so, you've got a life expectancy of 66 years. If you're an old man of 25, you'll probably live till you're 69½. If you're 35, till over 70. If you're 45, till 71½. (We mean men. Women live 4-5 years longer.) Isn't that nice? But whoa, there—nearly one-third of the 11,000,000 persons over 65—not counting inmates of institutions—have no cash income at all.

What's to prevent your being one of those 1-out-of-3's? For millions the answer is: United States Savings Bonds—bought through Automatic Savings! It's a safe and sure way to save. Those on payrolls can buy them through the Payroll Savings Plan. Others, through the Bond-A-Month Plan. For your own peace of mind, sign up for Automatic Savings today!

AUTOMATIC SAVING IS SURE SAVING—U. S. SAVINGS BONDS

This is an official U. S. Treasury advertisement—prepared under the auspices of the U. S. Treasury and Advertising Council.

PERSONAL

Mr. and Mrs. L. R. Bailey and family, of Hale Center, visited Sunday in the home of Mr. and Mrs. Omer Cornett.

The growth and reproductive characteristics of the mesquite make eradication of the plant improbable. A long time control program may be the answer to the mesquite control program in Texas and the Southwest.

Mrs. Ernest Davis, of Plainview, visited Monday with her sisters, Mr. and Mrs. Bob Hill and Mr. and Mrs. C. L. Wilson.

Mrs. Grady Wimberly visited Sunday night in Tulia with relatives.

Mr. and Mrs. J. D. Strickland, of Plainview, Mr. and Mrs. Alton Strickland, of Lubbock, visited here Sunday with relatives.

Mr. and Mrs. Jesse Loveron, of Lone Star, visited Mrs. Pearl Simpson last Saturday.

Eddy Arnold HIS LIFE STORY

The story behind Eddy Arnold's rise to stardom in the music world is one of the most amazing success stories of modern show business.

Less than five years ago, few persons outside his native state of Tennessee had ever heard of him. Today his name is a byword among modern folk music devotees and his list of accomplishments falls little short of phenomenal.

He is heard regularly on major network radio broadcasts, and consistently tops the nation's folk music popularity polls. His records have been the most played of their type in juke boxes for the past three years; and at one time, he held the distinction of having four smash record hits on the market at the same time. He has, in addition, starred in two films.

Eddy Arnold was born on a farm near Henderson, Tennessee, the son of a cotton and corn farmer. When he was fifteen, a relative made him a present of an old guitar and he took four lessons for 75 cents apiece—the only formal music education he has ever received.

Three years later, encouraged by his mother, he traveled to Jackson to make his radio debut and start down the road that was to lead to resounding success. In 1941, Eddy married Sally Grayhart and they now reside in their Madison, Tennessee, home with their daughter, Jo Ann and son, Dickie.

Five feet, eleven inches tall, with sandy hair and clear gray eyes, Eddy has a strong well-featured face and a warm, unaffected manner that wins him immediate friends.

Eddy Arnold serenades his mother in her Nashville, Tennessee home. Similar picture adorns the cover of his RCA Victor "TO MOTHER" album.

Beginning the last week in September, the Eddy Arnold Show will be a half-hour feature heard weekly and will be broadcast over many radio stations in the South and Southwest.

WOODY The Builder's Friend

We have receiver a good supply of nearly all kinds of lumber lately and will be glad to supply your needs whether it is for building new granaries, barns, sheds or a house, or whether it is for repairs. Also have a stock of cedar and creosoted posts.

See us for appliances, windmills, fence materials.

Plumbing fixtures and floor furnaces.

WILLSON & SON LUMBER COMPANY

We Appreciate Your Business

Brooklyn Indian Scares Housewife With Scalping Knife

NEW YORK—A resident of a Brooklyn apartment house told the Flatbush court an Indian working as an elevator operator in the building has some rights, but she doesn't believe they include wearing a "scalping knife" and hanging a modified war club in his elevator.

Mrs. George Haganop, one of the 12 tenants in the building, said that it has taken a little time to get used to Chief Reindeer, otherwise known as "Joe" when he went to work as superintendent and elevator operator—not that his strangeness was entirely distasteful.

She thought his custom of wearing his hair in a braid was novel and when he occasionally stuck a gay feather into his coiffure, it lent a romantic touch that brightened all of Flatbush.

However, she said the elevator service was poor. You could "ring and ring" before the car came and it did not do much good to complain. Once, she added, when she did complain, Chief Reindeer replied: "This is my country, you leave."

Mrs. Haganop reminded him of a real estate transaction involving Manhattan Island and \$24 worth of trinkets. Neither was calm enough at the time to speculate on how Brooklyn was included in the parcel. In any event, the Indian directed her attention to a knife in his belt, which terminated the argument, she said.

Mrs. Haganop said that she was afraid of being scalped. She said that other tenants had been insulted and that several had signed a petition to the landlord for the chief's removal.

The building's owner was advised to keep the chief under wraps.

Black Eyed Peas Confuse New Bean Sorting Machine

WASHINGTON—The government has developed a bean sorting machine in which a television tube "eye" picks the bad from the good.

The machine can scan 3,780 beans a minute, and eject any that does not conform to a normal color pattern. Some 100 are being used at the Chester B. Brown plant at Gering, Neb.

They can be adjusted to sort beans of any color, even pintos, it is reported, but the so-called black eyed pea (experts call it a bean, too) has the TV eye stumped. It can't tell the difference between a bad pea's discoloration and the distinctive black eye on a good one.

It's another mystery that science has not explained yet.

Corn Over 800 Years Old Is Unearthed in Illinois

Discovery of the oldest corn ever found in Illinois has been announced by Prof. John C. McGregor, University of Illinois archeologist.

The handful of kernels is more than 800 years old. They were found in the trash heap of an ancient Hopewell Indian village site, mixed with broken pottery, stone spear points and knives, and other items definitely dating the find.

The site is on the Harry Ansell farm at the junction of Illinois highways 96 and 108 in northwest Calhoun county, not far from the village of Moberly, and between the Illinois and Mississippi rivers about 50 miles north of St. Louis.

The kernels, blackened by fire and time, are about the size of present-day pop corn or sweet corn, and considerably smaller than modern field corn. They have been identified as Indian or "flint" corn.

Samples were turned over to Prof. W. L. Burlington, head of the agronomy department of the University's college of agriculture, for further study.

This is probably the earliest find of corn in the Midwest, says Professor McGregor. It is far earlier than that previously unearthed at camp sites of the Illinois tribe of Indians, who were here when the first white explorers came and gave their name to the state. The Hopewells disappeared centuries earlier. Where this new-found corn dates in relation to that found at prehistoric Indian village sites in the American southwest the professor could not state. However, it is of the same general type as that found there.

It was unearthed about two feet beneath the present surface of the Ansell farmyard. Digging by the university proved the existence of an ancient Hopewell Indian campsite there. Its presence had been suspected from the many pottery and stone items which had been found at the surface and in other digging.

Southern States Reduce Death Rate One-Eighth

Conspicuous success in reducing the toll of preventable disease and premature death in the southern states during the past decade is reported by statisticians. The death rate for these states as a group has been reduced by one eighth, from 10.4 per 1,000 in 1938 to 9.1 in 1948. Outstanding has been the 10 year decline of 42 per cent in infant mortality, and of 74 per cent in maternal mortality among white women and 59 per cent among the colored.

"Closely related to the fall in infant and maternal mortality has been a marked increase in the hospitalization of births," the statisticians point out. "In almost all of the Southern states the proportion of hospitalized births at least doubled from 1938 to 1948. In West Virginia, Kentucky, and Mississippi the proportion was tripled, and in Arkansas it was more than quadrupled."

Malaria, long a health problem, has fallen off from 135,000 reported cases in 1935 to only 4,000 in 1949. Similarly, during this 15 year period, the number of cases of pellagra reported annually has decreased from many thousands to only a few hundred.

"With the increasing attention being focused upon medical and public health problems, the Southern states will undoubtedly continue to make rapid advances toward their solution," the statisticians predict.

Puzzling Question Answered

If water seeks its own level, how can the surface of the ocean be curved? A level surface is one that is horizontal, so it is at right angles to a line toward the center of the earth. Over a small area, a level surface is practically flat, but if it is extended far enough it follows the curvature of the earth. When you say that water "seeks its own level," you mean that all points of its surface tend to reach the same distance from the center of the earth, so the curved surface of the ocean is really level.

"Circling Disease" of Sheep

Farmers and veterinarians are giving increasing attention to a fatal disease of sheep that was once thought to be caused by feed poisoning. Research has shown that the malady, called circling disease or listeriosis, is caused by a germ that invades the nervous system. Affected animals walk blindly in circles, become paralyzed, and die within a few days. There is evidence that certain kinds of feeds, such as corn silage, make sheep more susceptible to the disease, but the theory that feed alone can cause it is no longer accepted.

U.N. Flag in Korea

The United Nations flag, flown officially by troops fighting North Korean aggression, is made of cotton. Gen. Douglas MacArthur, United Nations commander, shortly after UN action was taken to defend South Korea against Red aggression, requested UN secretary general Trygve Lie to send 400 United Nations flags for use of his command. General MacArthur specified that the flags should be five by seven feet and made of cotton.

Bees Talk, Fish Smell and Hear, Expert Reports

MUNICH, Germany—Bees can talk and fish can smell, a professor at the Zoological Institute of the University of Munich believes. Fish smell food in water, he says. They can hear, too. He told of putting a student in a tank in an aquarium and having him play the violin. The student didn't hear it, but the fish did.

"Of course bees do not speak as we do. They have no words. That would be impossible. I think they speak another way. They waggle," he said. He explained when a bee locates some nectar, it eats its fill, then wings back to the home colony to spread the word that "soup's on." "By a certain number of waggles per minute," said Professor Kar von Frisch, "it tells the others exactly how far they will have to travel." It also waggles in the direction of the nectar.

But getting back to fish, the professor said, there is one species, the knurrhahn, that "almost talks." "The male knurrhahn makes a soft growl," Frisch said. "When he growls that is a signal. The female knurrhahn hears it and comes to him. Then he stops growling."

But most fish are better at hearing, he said. Frisch had phenomenal success with one experiment. He would blow a whistle and then hit a fish on the head with a rod. Pretty soon the fish hid whenever he blew the whistle.

Flagpole Sitter's Dream Of Glory Killed by Insults

ATLANTA, Ga.—Odell Smith dreamed of riding to glory on a flagpole. That dream, however, has been smashed.

Smith learned—by sitting 108 days atop a 60 foot pole—that flagpole sitters aren't much in demand. The fortune he had expected to make with books, advertising schemes and radio shows amounted to \$13.

He didn't mind the lack of money so much, Smith said, but the insults hurled at him by rowdy customers at the drive-in where the pole was erected finally broke his spirit.

He returned to earth, 10 days short of breaking the world record.

Scientist Plans Record Dive in Pacific Ocean

LOS ANGELES, Calif.—Sometime this summer a man will descend a mile into the ocean to see the weird creatures that inhabit the sea at that depth. Last year Otis Barton, Boston scientist, descended 4,500 feet off Santa Cruz island. The lighting system in his steel diving bell failed and consequently his movie cameras did not record the strange, self-illuminated sea creatures he described by telephone during the perilous dive.

This time, however, the lighting will be ocean proof, he said. Powerful bulbs sealed in mineral oil will be attached to the outside of the 7,000 pound ball which Barton calls a "benthoscope."

After tests he will attempt to dive to 6,000 feet.

As before, the benthoscope will be lowered by cable from a large barge. The laboratory ship Velero IV of the University of Southern California will co-operate in the venture.

MacArthur Touch Evident in Korean War Communiques

WASHINGTON, D. C.—That MacArthur touch is evident in the Korean war.

Relaying to headquarters the text of his communiqués and other official announcements, Gen. MacArthur closed out his report with an account about a captured North Korean naval lieutenant.

The North Korean had been skipper of five motor torpedo boats sunk by an American cruiser. Asked by American interrogators why he had failed to fire his torpedoes during the attack and had tried to run his boat aground, the lieutenant replied: "The gunfire from the cruiser was so heavy we thought it would be safer on the beach."

The MacArthur report added: "This is probably the first quotable quote of the war."

Twenty-Six Pigs in One Litter May Be World Record

OWENSBORO, Ky.—What may be the world's record pig litter has been born on the farm of Guy M. Deane.

The sow gave birth to 26 pigs—almost three times the number in a normal litter. Twenty-three lived and appeared healthy. The other three were believed to have been accidentally killed by the animal.

Biggest problem of the over-size litter was feeding. The sow was able to feed only 12 at a time. To ease the situation, Deane handed over five of the little pigs to two other sows.

The 26-pig sow, a spotted Poland China, was bred to a Hampshire boar. It was her fourth litter. Herebefore her litters had run from eight to 13 pigs.
