VOLUME 43. NUMBER 28

PUBLISHED EVERY THURSDAY AT SILVERTON, BRISCOE COUNTY, TEXAS

THURSDAY, JULY 12, 1951

**DALLAS (Special), June 20**—For 13 years, Earl Harvey, Sr., of Dallas has contributed blood to the Texas Scottish Rite Hospital for Crippled Children. Mr. Harvey estimates that he has donated more than twelve gallons in surgery cases where blood transfusions are needed. In the picture with Mr. Harvey is one of the SRH Nurse's Aids with one of her grateful little patients, Parkland Hospital, blood bank for Scottish Rite Hospital, is currently appealing for more blood to replace an acute shortage of the life fluid.

## Miss Teresa Crass Wed to Jack Sutton In Clovis, N. M.

Miss Teresa Crass and Jack Sutton were united in holy matrimony in Clovis, New Mexico, on June 30, 1951. Teresa is the daughter of Mr. and Mrs. Edwin Crass, of Silverton and Mr. Sutton is the son of Mr. and Mrs. C. N. Sutton, of Claude, Texas. Their only attendants were Louise Lee and Paul Rains.

The bride was graduated from Silverton High School and attended Lippert's Business College in Plainview. At the present she is employed by Western Cotton Oil Company in Plainview.

The groom has been employed by Johnny's Butane Company in Kress for the past several years. After a short trip to Colorado the couple are at home in Plainview, at 705 Columbia Street.

## Will Establish a Free Epileptic Clinic in Plainview

The Plainview Hospital and Clinic Foundation has announced that it will establish a free epileptic clinic in Plainview. The clinic will be open to all who suffer from the disease and who can not afford proper medical attention.

In announcing the clinic, the Foundation stressed that few people appreciate the magnitude of the problem presented by epilepsy. Edward M. Bridges, in his recent book *Epilepsy and Convulsive Disorders in Children*, reveals that one out of every three or four hundred persons in the United States suffers from epilepsy, while one out of every sixty to eighty children who are brought to the nation's children's clinics has some form of the disease. Epilepsy cripples and handicaps more persons than active tuberculosis and infantile paralysis combined.

## Silverton Old-Timers Enjoyed Picnic At Amarillo July 4

The picnic for Silverton Old-timers which was held in Elwood Park in Amarillo on the fourth of July was attended by about 125 persons. A bountiful dinner was enjoyed at noon, and a very happy time was spent in visiting and recalling those "good old days" at Silverton.

Mrs. Ray Fogerson Livingston came all the way from her home in Wichita, Kansas to be present at the event. Other towns represented were: Floydada, Quitaque, Canyon, Lorraine, Vigo Park, Hereford, Tulia, Amarillo, Silverton Clovis New Mexico and Lovington, New Mexico.

Plans have already been made for another picnic for this group next year.

## High School Annual Have Arrived

Superintendent M. G. Moreland asked the News to announce that the high school annuals have arrived and are available at Bellinger's Department Store.

Mary Tom Bomar and Mary Lou Bellinger will have charge of collections and deliveries to anyone wishing to pick up their annuals.

## July 25 Last Day For Veterans to Enroll

July 25 is the last day that veterans can enroll in farm veteran school. Any veteran who wishes to enroll in the farm school are urged to see either teacher or Paul Miller, service officer for Briscoe County.

It is necessary that you see Lem Weaver, of Silverton, or Durward Reeves, of Quitaque, Texas.

## Funeral Rites Held For Don F. Wulfman Monday Afternoon

Funeral services were held at the Presbyterian Church at 4 o'clock p. m. Monday, July 9, 1951, for Don F. Wulfman, conducted by Rev. H. L. Thurston, of Canyon, assisted by the Rev. H. M. Secord of Silverton. Interment was made in Silverton cemetery under direction of Douglas Funeral Home.

Don F. Wulfman was born at Carlisle, Ill., Nov. 17, 1875, son of the late Rev. and Mrs. Henry Wulfman. He came to Texas after graduating from St. Louis College of Pharmacy with the class of 1900. He was a druggist and a practicing pharmacist for 47 years.

Mr. Wulfman came to Silverton in 1939 and from 1941 to 1947, owned and operated a drug store known as Doc's Drug. He was a member of the Presbyterian Church. He had been in poor health and was inactive since he was retired from business in 1947.

He passed away in the local hospital on Saturday, July 7, 1951, at 5:20 p. m.

Mr. Wulfman is survived by his wife and four children, Mrs. Eunice Elkins, of Silverton; Mrs. G. C. Dowell, of Lubbock; John S. Wulfman, of Chicago, Illinois; and Miss Annette Wulfman, of Lubbock. Five grandchildren, Clayton, Carol and June Elkins, of Silverton, and Gwynn Ann and John Dowell, of Lubbock; also by his twin brother the Rev. Jake Wulfman, of Detroit, Michigan, and by four sisters; Mrs. Meta Jergens, of Cincinnati, Ohio; Mrs. Martha Veih, of Rome, New York; Mrs. Laura Lawhead and Miss Selma Wulfman, of Newburgh, Indiana.

## Prizes Offered In Child Photograph Contest

The time is almost at hand for the Hallmark Studio's big child photograph contest, and they are urging all of our readers to have their children ready for the big day. A photographer from Hallmark Studios of Dallas and Irving, Texas, will be in Silverton on Monday, July 23 from 11 a. m. to 7 p. m. for the purpose of taking pictures in this vicinity. His studio will be located at the former P. M. A. office in the theatre building.

In addition to having their pictures printed in this newspaper the children will be competing for \$15.45 in prizes which are being offered for the 3 best photographs made during the day.

The photographs will be made absolutely free of charge, and there is no charge for their publication in *The Briscoe County News*. Proofs will be shown, and from these you may select the picture of your child which you would like to appear in this newspaper. If you wish extra photographs they may be purchased, but no purchase is necessary in order to have your picture printed in this newspaper, or in order to compete for the prizes. It is entirely up to you, whether you buy pictures or not.

There is no age limit on the contest, and every child's photograph in this section is wanted so that they may all appear in *The Briscoe County News*. However, it is necessary that all of the pictures must be of uniform size, so they must be made by the Hallmark Studio photographer on Monday, July 23.

Don't wait until little Mary gets married or baby brother is elected to some political office to see their pictures in the paper—make plans now to have those photographs made on Monday, July 23. Tell your friends and neighbors. The more, the merrier!

## Initial Copy Publication Laws Book Presented Price Daniel

TEXAS' ATTORNEY GENERAL PRICE DANIEL took time out on Father's Day to receive the first copy of his new book, "Texas Publication Laws", as a gift from his family. Gathered around the Attorney General are Mrs. Daniel and the four children—John, Price Jr., Houston, and Jeanie. In spite of a big job and a big family, Daniel found time to edit the law book on newspapers and public notices as a public service for the Texas Press Association.

## Price Daniel Receives First Copy Texas Press Publication Laws Book

Texas' Attorney General Price Daniel has a big job and a big family.

In spite of that, during the past two years he has found time to compile and edit the first complete book on Texas Publication Laws, a work long needed by Texas newspapers, public officials and newspaper lawyers.

The first copy of the new book, published by the Texas Press Association, was presented to Price Daniel by his four children on Father's Day.

In addition to his distinguished career as a country lawyer and then as the aggressive attorney general of his native state, Price Daniel is co-publisher of his hometown newspaper, the *Liberty Vindicator*. His newspaper partnership with Jake Smyth and John Manthey also includes the *Anahuac Progress* at Anahuac, Texas.

Daniel is the son of a weekly newspaper editor. It was in the high schools of Fort Worth at the age of 15 years that Daniel first published his own newspaper, the *Fort Worth High School Student*. He also worked as a cub reporter for the *Fort Worth Star-Telegram*, and then for the *Waco News-Tri-*

ton, 5, and John, 4. They now live in Austin in a rambling house on three lots covered with oak trees—the nearest thing they could get to the open spaces of their permanent home in Liberty.

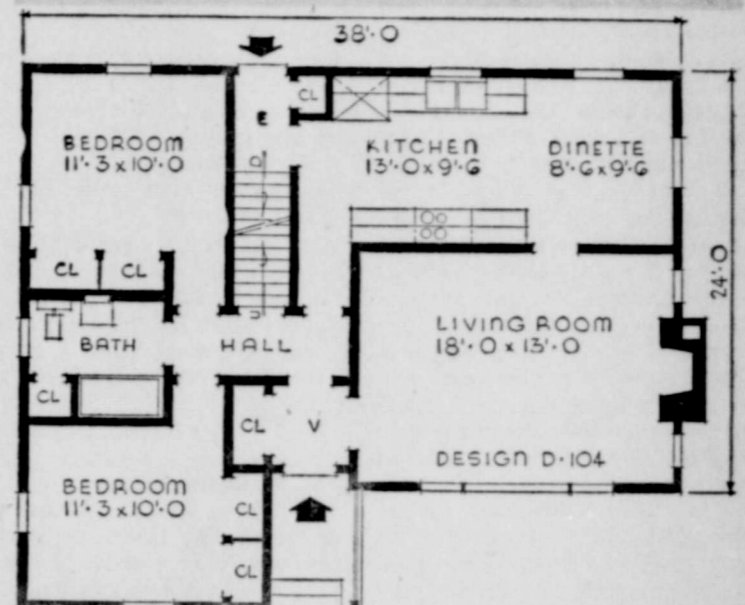

In his first five years as Texas' Attorney General, Daniel has gained distinction for his fight against federal seizure of the tidelands from the Texas public school fund. He insists that Texas will win in Congress if Texans keep on fighting and refusing to compromise or surrender. He has been outspoken in his belief that federal officials are violating the Texas Annexation Agreement in attempting to take these lands.

Daniel has been equally persistent against other federal encroachments upon the powers and property of the states and of individual citizens. Also, he has been leading the state's fight against organized crime, vowing that Texas will soon lead the nation in its clean-up of syndicated gambling and warning outside hoodlums and racketeers to stay away from Texas.

Daniel is a veteran of World War II, having retired from the office of Speaker of the Texas House of Representatives to enter the service as a private. After three years, the last few months of which were spent in General Douglas MacArthur's occupation of Japan, he was discharged as a captain.

That he is a hard worker in his job as "the people's lawyer" is evidenced by a record of 4832 lawsuits and 2498 official opinions disposed of by his administration since January 1, 1947.

## A HOME TO LIVE IN

## SMALL HOUSE PLANNING BUREAU ST. CLOUD, MINNESOTA

Design D-104. One of the features of this plan is the free circulation between rooms, all of which open into the small central hall. It is expandable to the extent that two additional bedrooms can be finished on the second floor.

There are two bedrooms and bath on the first floor in addition to a comfortable living room and

combination galley-type kitchen and dinette.

Wardrobe type closets are used in the bedrooms and there are coat closets for the entrances and a linen cabinet in the bathroom. Other desirable features include a fireplace, picture window and covered entrance stoop. Exterior finish is siding and asphalt shingles.

The floor area is 1013 square feet with 22,641 cubic feet.

For further information see your local lumberman.

## "Abbott and Costello Meet The Invisible Man" July 15, 16

Showing at the Palace Theatre Sunday and Monday, July 15, 16, Abbott and Costello Meet The Invisible Man. You'll shiver, you'll shudder, you'll shout with laughter, as Bud and Lou go on a merry, scary chase, with the man who isn't there.

Accused of murdering his manager, a crime for which he was framed by a crooked gambler for whom he refused to throw a fight, Arthur Franz steals a serum that makes him invisible, after retaining fledgling sleuths Abbott and Costello to help him establish his innocence. In an effort to create a parallel set of circumstances and trap the murderer, Costello poses as a fighter and Abbott as his manager. With the invisible man slugging for him, Costello is sensational, and again the gambler is crossed. While attempting the same vengeance, he is trapped. Meanwhile the doctor has perfected an anti-serum which returns Franz to normalcy and his arrested romance with Nancy Guild, while Bud and Lou—covered with glory—return to sleuthing.

Next weeks program appears on page two.

## Texas Truckers Are Warner of New Law Recently Enacted

Texas truckers, today, were put on notice to heed the provisions of a new law enacted by the 52nd Legislature requiring the installation of mud guards or flaps on heavy vehicles.

Homer Garrison, Jr., director of the Texas Department of Public Safety, pointed out that the law, which became effective on June 21st, requires that mud flaps be installed on any road tractor, truck, truck tractor, trailer or semi-trailer, excepting pole trailers, when operating on the highways when the roadway is wet.

Garrison explained that the guards were required on these vehicles only if they have four or more tires on the rear axle. The flaps, he said, must be located and suspended behind the rear wheels of the vehicle within six inches of the surface of the highway and must be at least as wide as the tires they are covering.

Construction of the safety guards, according to Garrison, must be such that they will remain in proper place back of the rear wheels, and rigid enough to prevent slush or mud from being transmitted to the windshield of any following motor vehicle within a distance of 100 feet. The flaps may be constructed of metal, rubber, rubberized material or heavy flexible textile material.

Garrison stated that the law does not apply to those vehicles which are so designed and constructed that the above requirements are accomplished by means of fenders, body construction, or other means of enclosure.

## WILDCAT TEST ANNOUNCED TO DRILL ON J-A RANCH IN BRISCOE COUNTY

In the oil column of Sunday's *Amarillo Daily News* appeared a story to the effect that another wildcat well on the J-A Ranch in Briscoe County would be drilled by H. L. Hunt. Tentative location is in section 68, 6 miles east and 11 miles north of Silverton.

It is understood that a trucking crew and a road building crew are working out of Clarendon to the location.

Mr. and Mrs. D. H. Davis were business visitors in Amarillo Monday.

## WILL VISIT IN MEXICO CITY, MEXICO WHILE ON VACATION

Mrs. O. T. Bundy will leave Saturday for Mission, Texas, where she will join the Virgil Ballards for a two weeks trip to Mexico City, Mexico, and other parts of Mexico.

## COTTON DEFOLIATION MAY BE WORTH THE COST AND EFFORT THIS FALL

Chemical defoliation of cotton may be worth the cost and effort regardless of whether the harvest is to be by hand, by picking machines or by mechanical strippers.

Removal of the leaves exposes all bolls to sunlight and air current so they dry rapidly and open quickly. This often allows the cotton to be picked two weeks earlier.

Defoliation may be beneficial in the control of cotton insects—cutting down on leaf worm and aphid infestations, reducing boll weevil populations and permitting early stalk destruction for pink boll-worm control.

"Apply defoliant when the youngest bolls expected to make cotton are 25 days old," advises F. C. Elliott, cotton specialist for the Texas Extension Service. "Defoliants should be applied ten days or two weeks before the intended picking date."

Use of dust defoliant is recommended only when plants are wet with dew or when adequate dew is forecast. Elliott cautions that the dust must remain in moisture on the leaf for at least two hours. Four or more hours of moist exposure is preferred.

Calcium cyanamide and monosodium cyanamide are two recommended dust defoliants. Calcium cyanamide, sold under the trade name "Aero Cyanamid, Special Grade," should be applied at the rate of 30 to 40 pounds per acre. Twenty-five to 35 pounds per acre is recommended for monosodium cyanamide, which is sold as "Aero Sodium Cyanamid Dust (X-10)."

Spray defoliant may be used in the absence of dew and when the air is extremely dry. How-

ever, Elliott warns that thorough coverage of the cotton plants is essential for good results.

Good defoliation can be obtained with six to eight pounds per acre of spray defoliants sold under the trade names—"Shd-A-Leaf," "Ortho C-1, Liquid Defoliant," "Aero Cyanate Weed Killer" and "Dow Defoliant." One to four pounds of "Niagrathal DF Spray" per acre or 5 to 15 pounds of "Sodium Cyanamide, Soluble Grade (X-5)" may be used.

For ground spraying Elliott recommends dissolving the above rates in 10 to 25 gallons of water, depending on the type of sprayer used and the size of the cotton plants. Thorough coverage of the plants is essential. This means going to the field with enough water. Under most conditions 25 gallons of water per acre will be necessary.

For airplane spraying, dissolve the recommended pounds of material in an equal number of gallons of water.

## SWISHER COUNTY ANNUAL PICNIC JULY 17

Any person who came to the Panhandle before January 1, 1907, is invited to attend the Swisher County Picnic, on Tuesday, July 17, and be a special dinner guest at the Tullia School Cafeteria at 12 o'clock.

Tom Bagley, chairman.

## L. T. D. CLUB MEETS

On July 3, Mrs. L. D. Griffin entertained the L. T. D. Club. Guess what was given to Mesdames Arnold Brown and Carl D. Bomar.

Refreshment plate was served to eight members. The next club meeting will be with Mrs. Marlin Jarnigan.

## Cuba Sugar Trade Keeps Havana Dock Busy With Activity

HAVANA, Cuba—The bulk of a nation's imports, Sugar prosperity and "war scare" buying still are keeping Havana's docks congested with commodities and full of a feverish air of commerce.

Nearly a million tons of imports—94 per cent of Cuba's imports—recently presented shippers with a problem unprecedented in the 400-year history of the waterfront. Most of the imports come from the United States. "Sugar money," derived from the island's great sugar industry, has brought about sharp demands for many consumer items from America. New automobiles constitute a great part of the litter scattered around the bulging piers and the demand for driver's licenses in Cuba has increased four-fold since the end of World War II.

Harassed shipping officials manage to handle all the scheduled ships plying in and out of the harbor. Less frequent callers, however, are often delayed for days until pier accommodations can be arranged.

Exports present less of a problem than imports. Principal export is, of course, sugar, of which Havana handles only about 35 per cent of the nation's total shipment. The majority is picked up at the smaller ports, or from the plantations. Imports are the main fly in the muddled ointment. Although attempts to develop adequate ports elsewhere have been made, the majority of imports are assigned to the capital city, so ships must still call there.

Officials say that the port is one of the most expensive in the world. The nearly 10,000 port employees earn an estimated \$100 per week, considerably higher than salaries paid elsewhere in the country. This fact, coupled with the regulation that importers have a ten-day limit in which to remove their imports from the docks—which calls for plenty of longshoremen to handle full piers—makes the prosperity appear lasting.

## Air Force May Discard Planes—Staplers, Never

MITCHEL AIR FORCE BASE —Under modern conditions, it doesn't take too long for an airplane to become obsolete. Models are discarded after better ones come along to replace them. On the matter of staplers, however, quartermasters are more saving.

Lieut. Col. J. E. Aertgeers found this true recently when he requested staplers for the clerical offices here. When the crate arrived, it was marked "fifty stapling machines." When he opened the box, however, the colonel found the staplers three times the standard size, made of heavy cast iron, and operated by a long handle. They had been in storage since 1917.

## New, Potent Penicillin Held Useful to Military

NEW YORK—Penicillin—modern medicine's chief weapon against disease and health—is available in new and more potent forms today for use on the battle front and the home front.

Dr. Charles E. Dutches, medical director of Schenley Laboratories, reports that since 1944 "continuous improvement in the technique of deep-vat production of penicillin" has enabled ten prime producers of the drug in the U.S. pharmaceutical industry to boost monthly output to a record 17,000,000,000,000 (trillion) units.

During the month of January, 1943 only 100,000,000 (million) units of penicillin were produced—enough to treat about 150 patients. Full commercial production began in 1944 and in the last months of World War II there was sufficient penicillin for essential military needs, Dutches said.

Despite the emphasis given such new antimicrobial agents as streptomycin and aureomycin, Dutches emphasized that "penicillin remains the foremost many-purpose microbe killer—particularly valuable against septic infections stemming from battle injuries." In this connection, he revealed that emergency air shipments of penicillin reached the Korean battle less than four days after leaving pharmaceutical plants in this country.

## Slavs Heckle Soviet Radio From Old German Army Truck

MUNICH, Germany—Three sharp-tongued Slavs, operating from an old German army truck, are heckling Soviet broadcasters to the point of madness. The trio specializes in needling Communism from their mobile transmitter in west Germany over Radio Free Russia facilities.

The hecklers are artists at making use of the pause in a program and delight in cutting in on Radio Volga, a Communist station in east Berlin which beams programs to Soviet occupation troops.

A Radio Volga announcer may have just finished the phrase, "A new people's democracy is being built in east Germany," when Radio Free Russia hecklers break in with, "Under the watchful eyes of the Kremlin's secret police."

Radio Free Russia has been operating only four months. London monitors first picked up its broadcasts calling for a peoples' revolt in Russia.

## SPECIAL BIRTHDAY DRINK

EVERY day is someone's birthday. And, deep down, who doesn't look for a little recognition on a birthday? From grandparents right down to the tiniest tot a birthday celebration, however small it may be, is an important matter.

Whether it is a family dinner or an informal gathering of friends to mark the day, a special cake is always the center of attraction. A special beverage, too, adds to the festive spirit, and one made with pale dry ginger ale is a pleasing and refreshing accompaniment to the cake. Tall glasses of thoroughly chilled ginger ale are always

welcome and if you want to serve a real party drink, you might try this recipe which serves six.

## HAPPY BIRTHDAY

- 2 eggs
- 1/2 cup sugar
- 2 times juice
- 1 cup pineapple juice
- 1 cup peach nectar
- Pale dry ginger ale

Beat eggs and sugar until thick and lemon colored. Add fruit juices, beating until blended. Divide among 6 tall glasses. Fill glasses with ice cold pale dry ginger ale. Stir gently to mix.

## CITATION BY PUBLICATION

THE STATE OF TEXAS,

To Joseph Leroy Nichols, Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Briscoe County at the Court House thereof, in Silverton, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 6th day of August, A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 21st day of June, A. D. 1951, in this cause, numbered 1398 on the docket of said court and styled Mozelle Sanders Nichols, Plaintiff, vs. Joseph Leroy Nichols, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Plaintiff sues Defendant for a divorce on grounds of cruel and harsh treatment to her by said Defendant, rendering their further living together as man and wife insupportable. Plaintiff asks for her decree of divorce and full custody, care and control of her unborn child; as is more fully shown

by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the seal of said Court, at office in Silverton, Texas this 21st day of June, A. D. 1951.

(Seal) Attest: Dee McWilliams, Clerk District Court, Briscoe County, Texas.

\*Here give brief statement of nature of suit, proper description of property, if any, and interest defendants are alleged to hold in said property, if they have an interest therein. See Rule 114, Rules of Civil Procedure. 26-4c

National Farm Safety Week is scheduled for July 22-28. Safety must be practiced every day in the home and on the farm if the needless deaths and injuries that occur every day in the nation from accidents, are to be reduced.

Buying insurance should be approached as a family affair and the protection sought should include a study of all types of insurance.

## LIVESTOCK AUCTION PROVE TO BE BOTH PROFITABLE AND INSTRUCTIVE

Texas is the leading state in number of livestock auctions and in the number of cattle, sheep and hogs marketed by this method, according to a new bulletin released by the Texas Agricultural Experiment Station. The greatest growth in numbers of auctions has occurred in the past 15 years.

Several reasons are given for the increased growth. Farmers and ranchmen like the ease and convenience of selling and buying through auctions. They like the social and educational aspects of the auction. It provides an opportunity to meet friends and discuss the merits of the animals sold in relation to the prices paid.

According to the Livestock Sanitary Commission of Texas, 168 auctions were operating in Texas on October 20, 1950. Thirty seven of these auctions in various parts of the state were included in a study made recently by Dr. John G. McNeill, Charles B. Brotherton and Travis M. McKenzie, research agricultural economists.

This study of livestock auctions is mainly descriptive. It does not attempt to point out any advantages this method of sale may have over other methods, McNeill said. It is an introductory step in what is hoped to be a continuing study of the various types of market outlets available to Texas livestock producers.

Bulletin 732, "Livestock Auctions in Texas," is available from the Publications Office, College Station, Texas.

On October 20, 1950, 168 livestock auctions were operating in Texas. The top number for a single state in the nation. More cattle, sheep and hogs are marketed through livestock auctions in Texas than in any other state.

### He Walks and Talks, Is Fairly Smart; Still Is not Human

MANSFIELD, Ohio—Found at last—the perfect man. Well, almost perfect, anyway. He walks, talks, smokes, is able to count and to recognize colors, and has never lost his temper.

The only catch is that he is not an ideal husband. In fact, he is not even human. He is Elektro, Westinghouse's mechanical man now touring the country with his dog, Sparko.

The latest, and more advanced, descendant of Televox, 1927, and Willie Vocalite, 1932, most widely-traveled mechanical man, Elektro was the brainchild of Joseph Melton Barnett.

Elektro has a vocabulary of 77 words, which he speaks with clarity and decision; he walks freely, moves his head, arms and fingers; counts on his fingers, says "red" or "green" when these colors are placed before his eyes; smokes cigarettes and, after a fashion, sings. He has a limitless amount of energy—getting it all from the nearest light socket.

Elektro would make a good football fullback. He has 18 inch feet and a chest expansion of 82 inches. His chest is always expanded in a manly fashion because, like the rest of his body, it is made of aluminum over a steel frame. He'll never be in need of a psychiatrist because his 60 pound brain consists of 82 electrical relays. These operate his nervous system of motors, levers, gears and chains. His spinal column and nervous system is made up of hundreds of miles of wires, which give him a total of 26 motions.

Sparko, his electrical dog, trots at his master's heels. He performs such tricks as begging, standing up, sitting down, barking and wagging his tail. Also made of aluminum, he is 17 inches high at the shoulders, 42 inches from the tip of his nose to the tip of his tail, and weighs 65 pounds. He is motivated by two motors, each rated at one-twentieth of a horsepower.

### Pickpockets Land in Jail Because They Couldn't Pray

NEW YORK, N.Y.—A police officer who knew his prayers nabbed two men with long records of pickpocketing.

The detective said he spotted the two mingling with a holiday crowd in a cemetery, apparently trying to pick pockets.

Questioned, the men said they had gone to the cemetery to decorate a friend's grave and to pray. When the skeptical detective asked them to pray, the two conceded that they did not know how.

They will now have a chance to learn—in jail.

### Girl Needs Good Excuse Before Missing Classes

OKLAHOMA CITY—Bernice Brown, a 14-year-old ninth grader in Capitol Hill junior high school here, really needs a good excuse to be absent from her classes—or rather, to miss any of her classes.

Bernice, a victim of rheumatoid arthritis, has her education at her fingertips. Confined to bed, she recites her lessons or listens to her classmates at the school by pushing the button on a combination microphone-speaker installed at the bedside.

A telephone cable connects her home to the school and one of her classmates carries the microphone-speaker from room to room as classes change.

### Pole Hopping Easy Task, Pilot Says After Flight

NEW YORK, N.Y.—The first pilot to hop across the north pole in a single engine plane recently called the flight a simple one, that airlines—or even the Russians might easily duplicate.

Charles F. Blair, Jr., a chief pilot for Pan American Airways, made his transpolar hop from Bardu, Norway, to Fairbanks, Alaska, in 10 hours and 30 minutes.

The pilot flew into New York after stopping at Fairbanks for an hour of sleep and a beef sandwich. He averaged 375 miles an hour on the flight from Fairbanks.

### Flyers Believe Camels Being Used in Korea

KOREA—Briefing officers of the U.S. Fifth Air Force are no longer being stumped by the hump of a camel. Nowadays, when a pilot fresh from a mission says "I got me a camel today," the interrogator smiles and replies, "How nice. One hump or two?"

The fly-boys contend that they have been sighting—and sinking camels loaded with artillery pieces in the areas around Hungnam, but the infantry isn't convinced. One infantry general, when told the report, winked and said, "Tell them to send me a camel—I've always wanted one as a pet."

If there are no camels, the air boys are having a fine time destroying some sharp illusions. In fact, camels are choicer targets than oxen, oxcarts or bicycles. One flyer, Lt. Norman Burhner, Des Moines, reportedly knocked off eight camels near Poyngyang.

### One-Way Streets Unclogging Congested Traffic Arteries

One-way streets are growing in popularity as a means of unclogging congested traffic arteries in urban areas, the American Public Works Association reports.

Chicago is the most recent major city to unveil plans for making streets in its famed Loop area one-way thoroughfares. Initially, only two streets carrying east- and west-bound traffic in the downtown section would be affected, but at a later date four other streets would be designated for one-way traffic only. The proposed changes are designed to speed traffic and relieve congestion. Newark, N.J., has also established a series of one-way streets linking its downtown section with the Pulaski Skyway and to neighboring industrial districts.

Baltimore, which first tried one-way streets in 1939, has found through its "before and after" studies that making a street one-way results in an average of 100 per cent increase in traffic volume, a 75 to 90 per cent reduction in delays, and a 10 to 15 per cent reduction in accidents. However, the Association pointed out that the Baltimore studies did not mark the effect of one-way operations alone, but also the effect of imposing additional parking restrictions, installing additional traffic signals and substituting bus operations for street cars.

In Los Angeles, after test trials on two streets proved successful, the downtown businessmen's association endorsed a proposal to convert four streets to one-way in order to relieve the downtown traffic problem. According to traffic engineers who followed the Los Angeles experiment, the establishment of one-way streets was in no way detrimental to established businesses on the thoroughfares.

This conclusion is supported by a study made by Fresno, Cal., of merchant reaction in 60 cities of more than 50,000 population where one-way streets are being used. Merchants in 90 per cent of these cities report that one-way streets have no harmful effect on adjacent businesses. Merchant associations in only two cities felt that the one-way streets were harmful to business, although, initially, merchants led the opposition to conversion to one-way streets. The Fresno survey also showed that in 71 per cent of the cities, change-over to one-way streets had a beneficial effect on property values.

### Eating Peas With Knife Was Once in Popularity

Although it may shock Emily Post, eating peas with a knife isn't unmanly—it's just old-fashioned! According to research experts with the World Book Encyclopedia, forks have been used for cooking since ancient times, but table forks were curiosities even during colonial days.

It is believed that the table fork was first used in Italy during the 1100's. The wife of an Italian nobleman considered herself too dainty to touch the greasy food with her fingers. She used a tiny gold fork which was modeled after the long carving fork. A guest at the table wrote an account of the event and described her method of eating as "luxurious beyond belief. Instead of eating like other people, she had her food cut into little pieces and ate with a two-pronged fork."

However, grasping the meat with the hand and spearing it with a knife continued to be the popular custom, and the tiny fork was soon forgotten.

In England during the 1600's, an English dandy was ridiculed for his daintiness when he tried a table fork at social gatherings. The fork "fad" gained momentum and tiny forks of precious metals began to appear in all European courts.

Forks became a common table implement only after mass production made them an inexpensive item.

### PERSONALS

Mr. and Mrs. J. W. Brannon attended the 4th of July picnic in Clarendon.

Mr. and Mrs. Melvin Watkins, of Amarillo, spent the week end with her parents, Mr. and Mrs. Bud McMinn.

Mr. and Mrs. Bud McMinn, Don and Ronald Ledbetter and Dwain Henderson, went to Lubbock the 4th of July. They met Mr. and Mrs. Elmo Seaney, Perry and Joy, of Morton, and they all had picnic lunch at McKenzie State Park, and spent the afternoon visiting.

TRY A NEWS WANT AD.

Mr. and Mrs. M. F. Russell and children, of Denison, Texas, visited last week with his sister, Mr. and Mrs. Bruce Womack.

Mr. and Mrs. Wylie Bomar, Sr., and Mrs. Pearl Simpson visited with Mr. and Mrs. Burbs Bomar in Amarillo July 4th.

Mrs. C. L. Wilson and son, Bradford, spent the week end in Plainview visiting her mother, Mrs. W. T. Haley. Mrs. Haley recently underwent surgery in Plainview. She is reported to be doing fine.

Mrs. H.L.O. Riddell and Mart Self went to San Antonio over the week end after Mrs. Self who has been visiting her daughter, Mrs. Sidney Cowan.

Tall glasses, tinkling with ice and filled with a delicious, bubbling beverage—what better way to revive the drooping spirits of guests or the family on warm summer days? A mid-afternoon drink, served on the porch, or any cool, shady spot, is a delightful interlude in the day's activities. A cooling drink is a welcome offering to unexpected callers and affords such a quick and easy way to bring on the refreshments.

A few cans of fruit juices and bottles of pale dry ginger ale and sparkling water in your refrigerator and you are ready for any time that a quick drink may be called for. Fresh fruits, too, peaches, cherries, berries and the citrus fruits, all come in handy for invigorating drinks. Here is a good afternoon refresher, the cherry syrup to be made ahead of time and set in the refrigerator to chill until ready to use.

**Cherry Glow**  
 1 cup chopped, ripe cherries  
 1/4 cup water  
 1/2 teaspoon grated lime rind  
 1 teaspoon grated orange rind  
 1/4 cup orange juice  
 2 teaspoons lime juice  
 Sparkling Water  
 Combine cherries, water, grated lime and orange rind. Simmer until cherries are soft. Chill. Divide in 4 tall glasses; add orange and lime juice. Fill glasses with ice cold sparkling water. Serves 4.

**Hawaiian Nectar**  
 1 No. 2 can pineapple juice  
 6 limes, juice  
 1/4 cup powdered sugar  
 Pale dry ginger ale  
 Combine ingredients, stirring until sugar is dissolved. Pour over ice into 6 glasses. Fill glasses with pale dry ginger ale. Garnish with maraschino cherries in thin slices of orange. Serves 6.

### GET MORE PIGS—MORE PORK FROM YOUR OWN GRAIN

### BALANCE WITH PURINA CONCENTRATES

**Synthetic Analgesic Rated More Lasting Than Morphine**

A new, synthetic pain-killing drug made from coal tars has been described by two Pittsburgh physicians after extensive clinical trial as giving more effective and more lasting relief from pain than morphine with a significantly lower incidence of nausea and vomiting.

The drug, called Dromoran, was synthesized in Switzerland by research workers of Hoffmann-La Roche, Inc. An adequate substitute for morphine, which is made from poppies grown in the Middle and Far East, long has been sought by scientists in the United States to free the nation from dependency on lines of supply vulnerable to international tensions. Dromoran is now being manufactured in the United States by Hoffmann-La Roche from coal tar derivatives which are readily available and plentiful.

The Pittsburgh physicians, Drs. Erik Keutmann and Francis F. Foides, both of Mercy Hospital, reported in the New England Journal of Medicine that they used the new synthetic analgesic on 311 patients following surgery to relieve pain. A similar group of 312, carefully matched as to age and sex, were given morphine to allow comparison of results.

The doctors reported that Dromoran acted as quickly after injection as did morphine, but noted this difference: "... its duration was somewhat longer." The first dose, they stated, afforded complete relief in 66.5 per cent of the cases as against 46.2 per cent for morphine under the same conditions.

Morphine failed completely in 5.8 per cent of the patients. Only 2.6 per cent got no relief from pain with Dromoran. Drs. Keutmann and Foides summarized their findings in these words:

"Dromoran gave complete relief from pain in a considerably larger percentage of cases than did morphine, and with Dromoran the incidence of the most troublesome side effects, nausea and emesis (vomiting), was decreased."

**World's Leading Spokesmen Variety of Speaking Talent**

A study of the speaking qualities of the world's leading spokesmen can be helpful to would-be orators, according to Dr. Robert T. Oliver, professor and head of the department of speech at the Pennsylvania State College.

Dr. Oliver characterizes the speech of some of our leaders as follows:

Prime Minister Clement Attlee: "flat and dull, even when he is speaking incontrovertible truth."

Joseph Stalin: "bland as a boy caught with his hand in the cookie jar, swearing he really is in the parlor studying his Sunday School lesson."

Winston Churchill: "petulant, tired, sometimes over-eager, but still the grandest voice speaking for freedom."

Gen. Dwight D. Eisenhower: "disarmingly simple—a Kansas farm boy with a college education."

Carlos Romulo of the Philippines: "cocky as a bantam rooster, but with the bite of a bull dog."

**Diamonds Have Been Stones Of Superstition For Centuries**

Diamonds, the birthstone of April, have been a stone of luxury and superstition since ancient times.

According to research experts with the World Book Encyclopedia, diamonds were first known in China and India and many of the countless superstitions can be traced to Oriental mythology.

History reveals that wearing a diamond was supposed to keep away the evil eye and enhance the good or bad qualities of the owner. Another belief, still in vogue, claims that the owner of a large diamond will suffer misfortune.

Although diamonds today are the accepted stone for engagement and wedding rings the ancient Ori-

Mrs. Pearl Simpson had as her guest Saturday Mrs. J. D. McElroy of Canyon.

Mrs. J. D. McElroy, of Canyon, visited several days last week with her sister, Mrs. Florence Fogerson, and Mr. and Mrs. Ware Fogerson.

Gene Arnold, son of Mr. and Mrs. A. D. Arnold, left Friday night for Danesville, Va. Gene made the trip by plane from Amarillo.

Mrs. Grace Iron, of Amarillo, visited her brother, Mr. and Mrs. Clyde Lightsey over the week end.

Mrs. Fred Buchanan and children, of Brownfield, visited last week with her parents, Mr. and Mrs. Edd Brown and brother, Howard.

Little Lee Ann Womack, of Big Spring, is here to visit her grandparents, Mr. and Mrs. Bruce Womack. Lee Ann's mother is a patient in a Big Spring hospital, and is doing fine. Mr. and Mrs. J. E. Womack and daughter visited her over the week end.

Among the ones who attended the rodeo July 4 in Amarillo were: Mr. and Mrs. C. R. Badgett, Mr. and Mrs. Wylie Bomar, Sr., and Mrs. Pearl Simpson, Mr. and Mrs. John Bean, Mr. and Mrs. James Henderson.

Mrs. Bill Middleton and daughter, Joan, of Amarillo, visited in the home of Mr. and Mrs. C. R. Badgett Thursday. Mrs. Badgett returned home with her, where she visited until Sunday.

Mrs. A. G. Stevenson visited from Tuesday until Thursday with her sister, Mrs. Geo. Edmons, in Happy. They met Gloria June Stevenson in Canyon Wednesday morning, who had been visiting relatives in Yucca Valley, California, for the past three weeks.

Mr. and Mrs. J. F. Cawson, of Happy, visited with friends in Silvertown Thursday.

Mr. and Mrs. Geo. Seaney spent the 4th of July with their son and family, Mr. and Mrs. Cecil Seaney in Amarillo.

Mr. and Mrs. J. M. Curlee, of Sherman, Texas, are visiting Mrs. Curlee's brother, Mr. and Mrs. J. E. Henderson.

Mrs. A. G. Stevenson, Gloria June Stevenson and Mr. and Mrs. Geo. Edmons, of Happy, were visitors in Amarillo July 4th.

Mrs. Ann Wood, of Cyril, Oklahoma, is visiting her sister, Mrs. Dick Bomar and other relatives and friends.

Mr. and Mrs. Ware Fogerson and children, Mrs. Florence Fogerson and Mr. and Mrs. Glenn Lindsey and son, Don, spent the 4th of July at Buffalo Lake.

**Consumers' Buying Power Rated Ahead of Last Year**

Real income of the typical consumer—that is, his cash income in terms of present prices—was \$1.17 as compared with the dollar he had last year, according to the latest monthly index reported by Investors Diversified Services.

For the purposes of the IDS index, the "typical" consumer is presumed to draw cash income from the major sources in proportion to the national ratio and his expenses are estimated according to the portions allotted to the different categories in the family budget.

Commenting on the latest report, Galen Van Meter, vice chairman of Investors Diversified Services, pointed out that wage earners and farmers have fared best during the rearmament period but that investment income has shown a steady increase.

"One of the best weapons against inflation," declared Mr. Van Meter, "is the investment of money at attractive earnings rate. That such rates have been available, and have proved attractive to investors has been an important factor in keeping prices from rising no faster than they have in relation to income. There is increasing evidence that consumers have nearly completed such anticipatory buying as the Korean crisis induced and are beginning to prefer invested funds to durable and semi-durable goods at inflationary prices."

**Call Your Color**

Colors which have never before been seen are being produced daily at the University of Illinois. Inspired by a spherical shaving mirror, Prof. Jozef Cohen of the psychology department has produced a machine which can mix colors in proportions nature never has known, or produce intense simple colors. More important, any color or mixture can be produced or repeated with scientific accuracy. He terms the machine an "analytic-synthetic-colorimetric apparatus" or briefly, "ASCA". The viewer looks through a binocular-like eyepiece into a sphere the size of a big bowling ball. Inside the white sphere he sees a disk the size of a telephone dial. Here is where the color appears, or two colors, as the disk can be split vertically and a different color shown on each half.

**Follow Your Personality**

Home furnishings, like clothing, should be chosen to express the personality of the owner. In even so simple a thing as a place mat for the table, one's choice may be determined by one's personality. One type of person will instinctively choose a lightweight mat of fine linen thread with a delicate design of drawn work suggesting the use of fine crystal and china. Another type will choose a mat of heavy cotton yarn, sturdy in texture, which is associated with heavy pottery and wooden candleholders. Both choices portray types of personality which the Chinese centuries ago sensed in life forces and designated as Yin and Yang. The Yin person likes fragile, delicate fabrics, fine lines, and light gay colors. The Yang person is drawn toward the heavier fabrics and sturdy utensils with an emphasis on strength, weight, and depth of color.

**Texas Methodist College Ass'n Concerned With Education**

Methodism has from its very beginning been vitally concerned about education. The Christmas Conference in Baltimore in 1784 which created the Methodist Church, developed also plans for Cokesbury, the first Methodist College. Never to be forgotten is this initial link between the church and higher education. Today 128 Methodist schools and colleges spread from coast to coast.

The Methodist Church has secured most of its trained leadership from its own institutions of learning. Of the estimated one per cent of its sons and daughters who have gone to Methodist Colleges, the church has received in return most of its ministers and missionaries. Of the living bishops of the Methodist Church, 95% were educated in these schools. Of the 1163 Methodist ministers listed in "Religious Leaders in America," 74 are from Methodist Colleges, and 80 per cent with theological training received it from Methodist seminaries.

Six per cent of Methodist chaplains in the armed forces in World War II were graduates from Methodist Colleges and 82 per cent held degrees from Methodist schools of theology.

**A. & M. Aggies Will Play Texas Tech Oct. 10, 1953**

For the first time since 1927, Texas A&M will play a football game in Lubbock when the Aggies and the Texas Tech Red Raiders clash here October 10, 1953.

Signing of the contract was announced by Tech Athletic Director DeWitt T. Weaver. This season the two teams meet in the Cotton Bowl at Dallas September 29.

Summer Choral Clinic Will Be Conducted at Tech Aug. 19-25

A summer Choral Clinic will be conducted at Texas Technological College August 19-25

It will be open to junior and senior high school and college students, as well as directors interested in choral music, announced Dr. Gene Hemmle, music department head and clinic conductor.

Offered will be intensive rehearsal sessions, laboratory periods, repertoire extension, class voice sessions, and directors' conferences. Public school choral directors will join Tech music faculty members in presenting the clinic.

Enrollment details may be obtained by writing Dr. Hemmle.

Mrs. R. E. Brookshier made a business trip to Tulla and Plainview Tuesday.

Mrs. E. S. Nelson, of Lubbock, visited her daughter and family, Mr. and Mrs. Leo White Tuesday. Marsha Kay White returned with her grandmother for a visit.

Mrs. Geo. Jones and Mrs. Ann Alexander visited friends in Tulla Tuesday.

Geo. Seaney was a business visitor in Lubbock Friday.

Mrs. Susie Wallace, of Tucumcari, New Mexico and Mrs. Alga Turner, of Turkey, visited her father, T. D. Wallace Sunday.

Mrs. C. M. Strickland visited last week in Lubbock with her son and family, Mr. and Mrs. Alton Strickland.

T. E. L. Class Met With Mrs. C. C. Garrison

The T. E. L. Class of the First Baptist Church met in the home of Mrs. C. C. Garrison Friday afternoon with thirteen members present.

The meeting opened with a song - "What a Friend We Have in Jesus."

Prayer by Mrs. S. P. Brown. Mrs. Gabe Garrison, president, was in charge of the business meeting.

Mrs. C. O. Allard gave a devotion. After the business meeting a lovely refreshment plate of Angel Food cake and chicken salad sandwiches and an ice drink were served.

The next meeting will be July 27, with Mr. and Mrs. C. O. Allard, with husband invited. The party will be a supper in the backyard of the Allard home.

Among those who attended the 4th of July Rodeo in Clarendon were: Mr. and Mrs. Wade Welch and Mary; Mr. and Mrs. Nash Blessingame, Mr. and Mrs. Morris Stephens, Mary Tom Bomar and Bonnie Watters, Mr. and Mrs. Johnnie Burson and family, LaRue Gilkeyson, Sharon Gilkeyson, Beefie Garvin, Mr. and Mrs. Jorde Hollingsworth and family.

Mr. and Mrs. E. A. Rowell and children, of Guymon, Oklahoma came Thursday to visit until Sunday with his mother, Mrs. W. A. Rowell and other relatives.

Donley County Stockman Solve a Problem

Stockmen in Donley county have realized the need for a veterinarian and have done something about getting one.

Early last April, 25 ranchmen and dairymen met in County Agent H. M. Breedlove's office at Clarendon to discuss the need for a veterinarian in the county.

They raised \$5,000 at the meeting to build a veterinary hospital. Forrest Sawyer was elected trustee for the group; E. Simmons was elected treasurer and H. M. Breedlove secretary.

Breedlove reports that the building has been completed and is in operation.

C. E. Deyhle, a 1951 graduate of Texas A. & M. College's School of Veterinary Medicine, has signed a contract with the trustee of Donley county veterinary hospital. Deyhle is a regular practicing veterinarian in the county and will receive an option to buy the building.

Always Pay!

*"The bonds I bought  
for our country's defense  
will see my twins  
through college!"*

MRS. MARY CALLON OF INDIANAPOLIS, INDIANA  
CAN TELL YOU—IT'S PRACTICAL  
AS WELL AS PATRIOTIC TO BUY BONDS FOR DEFENSE

*"I have twin reasons for buying bonds," says Mary Callon, introducing 17-year-old Jack and Janet. "I've been a widow since my children were 8, but they'll have a college education. The U. S. Savings Bonds I've bought will see them through."*

Mrs. Callon says, "In 1942 I enrolled in the Payroll Savings Plan at the U. S. Naval Ordnance Plant where I'm an executive secretary. I put 10% of my pay each week into bonds. I've discovered it's regular saving that makes saving possible at all!"

"By careful managing, the twins and I live comfortably. How thrilled I'll be to see them enrolled in Butler University this fall, thanks to my U. S. Savings Bonds! Every breadwinner should buy bonds—there's no better way to save money!"

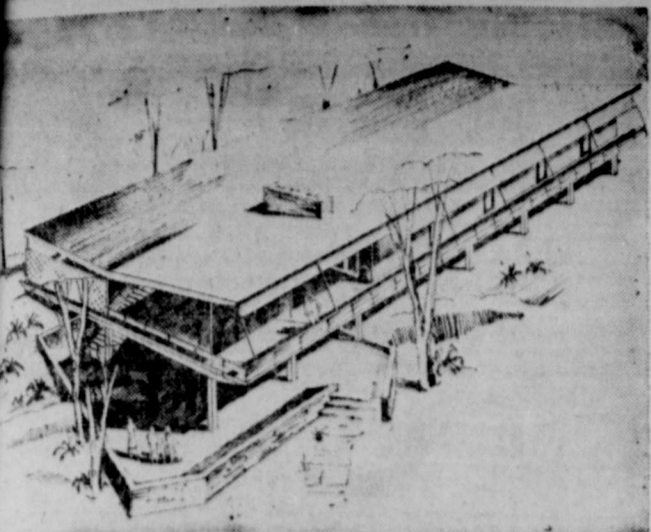

*Mrs. Callon's story can be your story, too!*

What Mary Callon did, you can do, too—start now! It takes just three simple steps.

1. Decide to put saving *first*, before you even draw your pay.
2. Save a regular amount *systematically*, week after week or month after month.
3. Sign up *today* in the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

You'll be providing security for yourself, your family, and our free way of life.

**U. S. SAVINGS BONDS ARE DEFENSE BONDS—  
BUY THEM REGULARLY!**

**WISDOM AND ADAPTABILITY GUIDE MO-RANCH HALL DESIGNERS**

Designed by the modern trend in national style buildings to accommodate large groups, the Board of Trustees of Mo-Ranch, Hunt, Texas, has approved of the plans for a new dining hall. The building was broken last week by the Presbyterian Synod Council of Briscoe County during a three-day record conference of laymen.

construction with its adaptability to the native terrain, gives the most for each dollar spent. In its site on the slope between the Manor House and catwalk leading to the Youth Building, it is complimentary to the native-stone construction of the other 35 buildings."

The addition of the dining hall will mark the first major step in the expansion of the ranch which covers 377 acres. This little community in itself has everything but its own post office, getting mail at Hunt, Texas. It was purchased by the Presbyterian Synod of Texas from the estate of the late Dan Miran, and includes its own commissary, book store, 75 foot tiled swimming pool, water and ice plants, laundry, infirmary, gymnasium which substitutes for an auditorium, where dances as well as meetings are held, chapel, gas pumps, fire fighting equipment, tennis courts, bowling alley and water front facilities with a 30 foot high coaster slide. This is in addition to the Manor House, Guest Lodge and the many dormitories which are available the year round for groups or individual families by making reservations for days or weeks ends.

Mr. and Mrs. O. O. West combine the role of manager and wife with that of gracious host and hostess.

Last year county agricultural agents in Texas trained 4,200 4-H boys in 127 counties in plant and grass identification.

At the very moment you're reading these words, this man is standing ready to risk his life for America—and for you.

Is there anything that YOU can do to help HIM?

Yes. Starting right now you can buy more . . . and more . . . and more United States Defense\* Bonds! Sign up for them today—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank. Defense is your job, too!

**The U. S. Defense Bonds you buy give you personal financial independence**  
Remember that when you're buying Defense Bonds you're building a personal reserve of cash savings. Money that will some day buy you a house, or educate your children, or support you when you retire. Remember, too, that if you don't save *regularly*, you don't save at all.  
So go to your company's pay office—now—and sign up for regular Defense Bond purchases through the Payroll Savings Plan. In this plan, you may save as little as \$1.25—or as much as you want—each week. If you can save just \$7.50 weekly, in ten years you'll have bonds worth \$4,329.02 cash! You'll be helping protect America—and helping make your personal dreams come true.

#### Crop Wheat Price Support:

Wheat price support at a National average of \$2.18 a bushel to farmers for the 1951 crop was announced recently by the U. S. Department of Agriculture. Last year's average was \$1.99 a bushel.

Choosing the 1951 crop will be available from the time of harvest until January 31, 1952, and mature wheat for the 1951 crop is 90% of the price at the beginning of the marketing year, July 1. July 1 parity is \$2.42 a bushel. The county loan rate for Briscoe County is \$2.17 for No. 1 wheat. When a warehouse receipt is presented for wheat stored in an approved warehouse we will deduct the storage rate, which at the present time is 1 1/2 cents per bushel, making the loan at \$2.055. The service charge is 1/2 cent per bushel. Therefore you will receive a loan of \$2.05 net to you. Should your wheat be shipped by rail to some other warehouse you would be required to pay all the freight to Houston or Galveston plus the handling charge made by the elevator that handled your wheat. The terminal rate at the above points will be \$2.57 for No. 1 wheat.

#### 1951 Grain Sorghum Price Support Rate.

The loan rate for grain sorghums that grade No. 2 or better for Briscoe County is \$2.09, with a deduction of storage charges provided it is stored in an approved warehouse. This storage deduction is 1-20 of a cent per day per bushel from the time of storage until March 30, 1952.

#### 1951 Cottonseed Support

Price support loans on 1951 crop

### Telephone Company Signs Agreement With Union

Southwestern Telephone Company has signed a new agreement for one year with the Communications Workers of America effective July 1, 1951, it was announced in Dallas today by company president, Roy Autry. The new agreement calls for a ten percent increase in basic wages for employees within the designated bargaining unit.

Part of the increase will be put into effect on July 1, 1951, and the balance must await determination by the Wage Stabilization Board. It is anticipated that the company and the union will present a joint request to this board in Dallas.

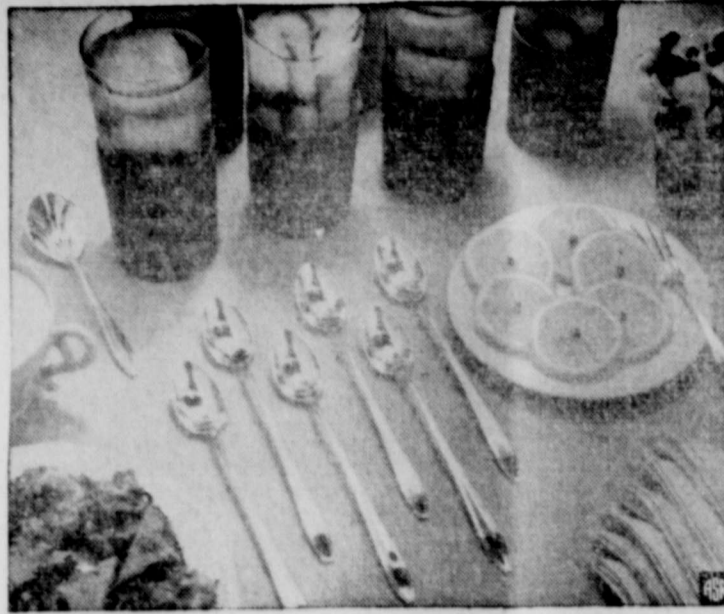

Mr. Autry pointed out that the increase in wages will cost the company approximately \$400,000 per year and would undoubtedly make it necessary to ask for increases in telephone rates. "Our Company is growing rapidly," said Mr. Autry, "and it is our policy to pay our employees good wages in line with those which prevail in the communities where we operate. Naturally, if we are to meet existing wage standards to attract and retain good people for our company, we must increase our revenues accordingly. In the telephone business this money can only be made available by a proper adjustment of telephone rates."

TRY A NEWS WANT AD

cottonseed will be available at \$65.00 per ton. The support reflect 90% of the January 15, 1951 parity price of \$71.00 a ton.

Further information regarding the loan program may be had by contacting your local P. M. A. office.

### Add Sparkle to Summer Parties

Gleaming sterling silver iced beverage spoons bring beauty to this informal tea table. The versatile, modern pattern shown here is Gorham's "Nocturne".

Time was when even the busiest hostess wouldn't have brought out her best silver for an informal party. That idea of hoarding your silver is like Grandma never using the parlor; it's an out-moded one.

Today good silver is equally appropriate with brightly colored straw mats and damask cloths. For summertime meals and popular between-meal refreshments, you can dress up the simplest table with pretty silver.

Either add to your own pattern, or start your sterling with summer party-service pieces that will be most useful now. Iced beverage spoons, a sugar spoon, lemon fork, cold meat fork and salad service will add sparkle to your summer parties now and beauty to your tables for years to come.

### SAN JACINTO NEWS
