Clean Up Drive Started By Lions Club

Lions Club Sponsors City-Wide Clean-up To Begin April 14

The Silvertown Lions Club are sponsoring a city-wide clean-up to start April 14 and continue through April 20. Doc Mynard is chairman of the drive and he has appointed one man on each street in the city to see that his particular street is cleaned up. All trash that can be burned should be, and rubbish piled up so that the city can haul it off to the dumping grounds.

In working out the clean-up drive the following men have been named to certain streets in the city:

Roy Morris will have charge of what is known as Bradfoot addition; Milton Dudley, First street; J. E. Arnold, Second street; Luke Thompson and Fred Garrison, Third street; Ralph Glover and E. E. Minter, Lone Star street; Geo. Seaney, Commerce street; Keith Tiffin, Sixth street; Ware Fogerson, Seventh street; Alvin Jackson, Eighth street; Hank Brown, Ninth street; Gene Riddlehuber, Tenth street; Leo White, Eleventh and Twelfth street.

Full co-operation in this city wide clean-up drive is asked by these in charge.

Many complaints have been made about the condition of the city streets in the business district as well as the residential district. Your co-operation with the local club to clean up the city will just simply mean it will be a success. The city will do their part in hauling off all rubbish that you are unable to burn.

ATTEND CONFERENCE

Among those attending the W. S. C. S. of the Northwest Conference in Amarillo last week were: Mesdames H. M. Secord, M. F. Moreland, Hubert Brown, Arnold Turner, Edd Thomas and Joe H. Smith.

Mrs. Falba Guest left Saturday for Dallas where she will visit with her daughter, Mr. and Mrs. Jake Saddle.

Easter Revival Starts At Methodist Church Monday, April 14

Rev. Marvin Brotherton, of Matador, a former pastor here will preach at the Methodist Church in a post-Easter revival beginning at 10 o'clock a. m. Monday, April 14, and at 7:30 p. m. each evening.

Come hear some heart felt messages from a splendid gospel preacher.

REV. H. M. SECORD.

Mrs. Paul Reid Announces Candidacy For County Clerk

I wish to announce my candidacy for the office of County and District Clerk of Briscoe County, subject to the action of the July primary.

I have lived in Silvertown for the past 25 years, and attended school at Rock Creek. During the time my husband was County Treasurer I assisted him with his office work. I feel that I am qualified to fill the office I am seeking. I plan to see as many of the voters as is possible before the election.

If I am elected to this important office I will serve the people of Briscoe County to the best of my ability.

I will appreciate the vote and influence of all my friends in the coming election.

Yours very truly,

MRS. PAUL REID.

(Political Advertising)

BIRTH

Mr. and Mrs. Jack Sutton, of Plainview, are the proud parents of a baby girl born Sunday, March 30, 1952 at 6:45 a. m. at the Lockney General Hospital. Grandparents are: Mr. and Mrs. Edwin Crass and Mr. and Mrs. C. N. Sutton, of Goodnight. The baby has been named Cynthia Ann.

Watch For Hobby Show 1tc

Fiftieth Anniversary Observed At Open House Sunday

An open house celebrating the golden wedding anniversary of Mr. and Mrs. J. S. Watson of Silvertown was held Sunday afternoon, April 6, from 2 to 5 p. m. in the farm home of a son, Obra Watson, where the couple spent most of their married life.

The table was laid with a handsome embroidered cut work linen cloth. The centerpiece was an arrangement of Easter lilies and blue iris in a crystal bowl. The buffet arrangement featured a gold clock centered in an arch, topped by golden wedding bells and entwined with tiny yellow rose buds, set against a background of fern and yellow iris, and flanked by three tiered candelabra of yellow candles. This carried out the theme, "Time Takes all But Memories." The clock was set at 3 the wedding hour of the couple.

Gifts of pot plants and cut flowers throughout the living and dining room helped to beautify the occasion.

Alterating at the punch bowl were Mesdames Fred Mercer, Harold Seefeldt, and Toby Penn. Mesdames Shafe Weaver and Don Burson served cake.

Mrs. Don Garrison and Donna Faye Watson presided at the guest register. 163 guests were registered and many others sent gifts.

Others assisting with hospitalities were: Mesdames D. T. Northcutt, Tony Burson, True Burson, Troy Burson, Edd Thomas, Clyde Lightsey, Orville Turner, Misses June Stevenson and Peggy Holt.

This event marked the first time in the history of the community that a couple observed 50 years of married life all spent here. Another unusual fact is that James and Donna Faye Watson, children of O'Neal Watson, attended the golden wedding celebration of their maternal grandparents, Mr. and Mrs. S. R. Turner two years ago. Mr. and Mrs. Turner were present for this occasion also.

Mrs. Watson, 75, the former Matilda Dendy, and her family moved to a farm near Silvertown about three years prior to her marriage. She was a native of Shreveport, Louisiana.

Mr. Watson, 80, a native of Macon, Georgia, moved with his family at an early age to New Orleans, Louisiana, and in 1891 when he was in his late teens, the family moved to Silvertown. His parents were Mr. and Mrs. R. A. Watson.

The couple were married April 9, 1902 in the home of the bride's parents near Silvertown. The Rev. Q. Brown, Baptist Minister, officiated at the ceremony.

At the time the Watson family moved to Silvertown, Briscoe had not been organized into a county. Mr. H. L. O. Riddell and Benton Lanham are the only two living men, or Mr. Watson's acquaintance that he can recall, who lived here then.

Until his retirement in 1948, Mr. Watson had been a farmer and livestock man during the 60 odd years he has resided here. He and his bride moved to the family farm in 1902, where they lived until they moved into Silvertown four years ago.

The couple have five children, two sons, and three daughters. They are: O'Neal Watson, of Amarillo; Obra Watson, Silvertown; Mrs. Sid Richards, Silvertown; Mrs. Mary Watson Jones, Perryton; and Miss Opal Watson, of

Men's Club Meeting Posiponed to April 22

Due to the Revivals at the Methodist and Baptist Churches, the Mens Club will not have a meeting the night of April 15. But choose your partners for the night of the 22nd.

Likewise the Lions Club have postponed their next meeting until April 24.

V. F. W. Announce Rodeo in Silvertown May 16, 17 and 18

The Silvertown V. F. W. has announced their date for the Spring Rodeo to be May 16, 17 and 18, at the local arena. There will be three performances, Friday and Saturday night and Sunday afternoon.

The prizes being offered are as follows:

A \$225.00 Maddox Hand Tooled Saddle will be given to the champion roper.

A \$75.00 buckle set to the champion rider.

A made to order hand tooled belt to the champion girl sponsor.

The following events will include: bronc riding, bull riding, bareback riding, calf roping, ribbon roping and ladies barrel race. There will also be a big dance Friday and Saturday nights.

The committee in charge of arrangement spent Tuesday in neighboring towns distributing advertising on the rodeo.

Light Vote in Saturday's Trustee Election

In the school trustee election Saturday voting was light. Two trustees were to be elected. Unofficial returns gave Carroll Garrison and Fred Mercer the lead. Garrison, 87; Mercer, 89; R. L. O. Riddell, 50 and Ledbetter 19.

E. V. RIDLEHUBER ATTENDS GINNERS SHOO AT FORT WORTH AND DALLAS

E. V. Riddlehuber, local manager of the cotton gin returned early this week from Dallas and Fort Worth where he attended a ginners' convention and school. Mrs. Riddlehuber, who had been visiting her mother in Hill County, the past two weeks returned home with him.

AMARILLO: Joe Bob, James and Dona Faye Watson, are the three grandchildren.

OUT OF TOWN GUESTS
Mr. and Mrs. Roy Allard, Brice, Texas; Mrs. Catherine Skeen and Maude Dee Skeen, Lubbock; Mr. and Mrs. C. E. Merriott, Plainview; Mr. and Mrs. Amos Turner, Happy; Mrs. Barbara Laney and Charlette, of Happy; Mr. and Mrs. O'Neal Watson and family, of Amarillo; Mrs. Mary Montgomery, Happy; Vaneta Cross, Plainview; Fannie Norman, Plainview; Mr. and Mrs. W. F. Dendy and family, Crosbyton; Mrs. S. J. Dendy, Crosbyton; Dr. and Mrs. W. A. Sedgwick, Tulia; Rev. and Mrs. G. K. Rogers, Plainview; Rev. C. J. Westoff, Tulia; Dr. and Mrs. Wells McClendon, Childress; J. W. Hardestad, Meridian; Mr. and Mrs. James Rhodrick, Quitaque; Mrs. Jim Hughes, Lubbock; J. H. Stout, Lubbock.

MR. AND MRS. C. R. BADGETT

Mr. and Mrs. C. R. Badgett will observe their fiftieth wedding anniversary Sunday, April 20, 1952. Open house will be at their home from 3 to 6 o'clock. All their friends are cordially invited to attend.

Mr. and Mrs. Badgett have three daughters, Mrs. Frank A. King, of Houston, who is here for the celebration; Mrs. Mary Bell Savage, of Washington, D. C., will arrive Sunday. Another daughter who lives at Charlottesville, Virginia, will be unable to attend.

Funeral Services for Mrs. Vera Allard At Plainview

Funeral services were held Tuesday afternoon at the First Baptist Church, Plainview, for Mrs. Vera Allard, wife of Elmer Allard, of Oakland, California. Mrs. Allard died April 4th in California, and her body was returned to Plainview for burial. Rev. McCarty conducted the services, assisted by Rev. G. A. Elrod, of Silvertown.

Mrs. Allard is survived by her husband and parents, Mr. and Mrs. Jim Beavers, of Plainview. She is a daughter-in-law of Mr. and Mrs. W. Allard of Silvertown, and was well known here.

Among relatives and friends attending the funeral were: Rev. and Mrs. G. A. Elrod, Mrs. Pearl Simpson, Mrs. Shelby Haynes, Mrs. James Patton, Mr. and Mrs. Glen Lindsay, Mrs. W. Allard, Mr. and Mrs. C. O. Allard, Mr. and Mrs. Roy Allard, Mr. and Mrs. Perry Whittemore, Mr. and Mrs. Dean Allard, Mr. and Mrs. Chafe Weaver, Mrs. Arlin Simmons, Mr. and Mrs. Gip Joiner, of Fort Worth, Mrs. Minnie Stevenson, Mrs. Rusty Arnold and Joni Douglas and Mrs. Lewis Gilkeyson.

March of Time Study Club Met April 14th

The March of Time Study Club met in the club room April 4th, with Mrs. Gatewood Lusk presiding.

During the business meeting it was decided that the club would sponsor a Hobby Show on May 1. An interesting program on religion was given by Mrs. True Burson, Mrs. Alvie Mayfield and Mrs. J. W. Lyon, Jr.

Mr. and Mrs. H. Roy Brown returned Thursday afternoon from Truth or Consequence, New Mexico, where they had spent the past three weeks. Mr. and Mrs. H. E. Webb, of Lubbock, were week end guests of Mr. and Mrs. H. P. Rampley.

Sunrise Easter Services at Methodist Church

Rev. H. M. Secord, pastor of the local Methodist Church, announced that there will be a Sunrise Easter Service at the Methodist Church Sunday morning at 6:30 a. m. followed by refreshments in the basement. Come one, come all, let's celebrate that long ago day when the hope of eternal life was born.

TROY COX ABLE TO MOVE FROM HOSPITAL

Troy Cox, who underwent a major operation in an Amarillo hospital about ten days ago, is reported to be recovering satisfactorily, and was moved from the hospital to a room in Amarillo Wednesday where he will remain for medical care for several days.

Relatives report Mr. Cox was able to set up Tuesday and visit with friends. His many friends in Silvertown will be glad to know he is doing nicely.

Mr. and Mrs. G. R. Dowdy attended services at the First Baptist Church Sunday in Amarillo. Later they were guests at the annual Burlington Luncheon at the Herring Hotel. The ladies were entertained in the afternoon with a tea at the Amarillo Club. They reported a very pleasant day spent.

W. W. Wimberly, of El Paso, visited recently in the home of Mr. and Mrs. Grady Wimberly, and also with Mrs. J. T. Wimberly and Mrs. Lela Kellum.

Sgt. and Mrs. Deral Keeton are visiting her parents, Mr. and Mrs. G. D. Dorough. Sgt. Keeton is home on a thirty day furlough from Korea. He is also visiting with his parents, Mr. and Mrs. C. L. Keeton in Plainview.

Mrs. A. W. Montgomery, of Happy, spent the week end in the home of her daughter, Mr. and Mrs. Tony Burson.

Mr. and Mrs. T. D. Bishop and daughter, of Wilson, were week end guests of her brother, Mr. and Mrs. Kenneth Jones.

C.C. Stinson Resumes Management of the Local Food Locker

Mr. and Mrs. C. C. Stinson, formerly of Gainesville, Texas moved to Silvertown last Thursday where Mr. Stinson is busy with the management of the local Food Locker which he recently bought from Roy Henderson.

Mr. Stinson will be assisted at the locker by Travis Mynard and Jack Gaither.

The Stinsons are looking for some of their children to be home for the Easter holidays. They have one daughter in college and one teaching at Delhart and one son is serving in air corps.

VISIT IN CANYON

Mr. and Mrs. J. E. Wheelock visited friends in Canyon Sunday and attended Ordination services at the First Baptist Church at three o'clock in the afternoon. Among those ordained was their son, R. D. Wheelock.

Mr. and Mrs. Sam Davis, of Denton, and Mr. and Mrs. Gip Joiner, of Fort Worth, visited several days last week with Mr. Charlie Joiner, who is a patient in the local hospital. They also visited other relatives while here.

W. F. Morris, of Clarendon, visited his son-in-law, Tom Blessingame, who is a patient in the local hospital. Mr. Morris was a guest in the T. C. Bomar home while here.

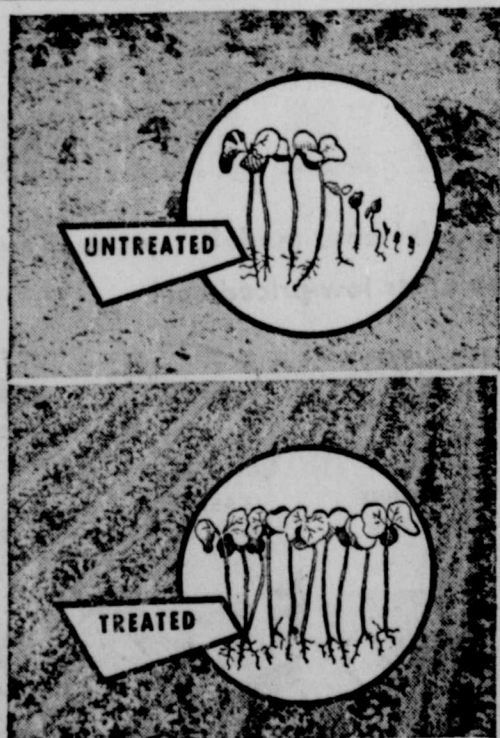

ATTEND E. E. A. MEETING AT TULIA FRIDAY

Among those who attended the E. E. A. meeting in Tulia Friday and head Senator Rogers speak were: Mr. and Mrs. J. F. Cowser, Mr. and Mrs. T. J. Hodges, and Mr. and Mrs. D. T. Northcutt.

Mr. and Mrs. Joe McWilliams and family and Mr. and Mrs. Cecil Terrell and baby, of Lubbock, were week end guests of Mrs. T. R. Whiteside.

Mr. and Mrs. W. O. Word visited with relatives in Houston last week.

For a BETTER COTTON CROP

PLANT PROPERLY TREATED COTTONSEED

The chance for a good stand of cotton with the first planting can be increased greatly when seed that has been treated properly with a recommended seed disinfectant is planted.

The circles in the picture above illustrate the difference seed treating may make. Treated seed and seedlings are less apt to suffer from seed decay, damping-off or sore-shin.

The small cost of treating is unimportant when compared with the expense of soil preparation, fertilizers, labor and equipment needed to produce a good crop. Less than 10c per acre spent for seed protection can often mean many dollars profit when the crop is brought to the gin.

For information about treating your seed and the name of the cottonseed treater nearest you consult your county agricultural agent.

"The Owllet" School News Edited by Pupils

APRIL ONE

The school observed April 1 and all had a good time. Classes were held in the morning and in the afternoon baseball, volleyball and tennis were played. Turkey, Kress and Tulla participated in the games.

The seniors observed April fool by going to Amarillo. The seniors put on an assembly program that morning by styling their clothes and saying kid stories.

FRESHMEN NEWS

The freshmen had a going away party at Valetta Weaver's home last Monday night. The party was given in honor of Roy Dean Henderson who is moving to Gainesville. We all enjoyed it and will miss Roy very much. We are all working very hard to pass since we just have one more six weeks.

Francis Tunnel.

EIGHTH GRADE NEWS

The eighth grade girls played volleyball with Tulla's team on April fool and won. The boys played baseball with Tulla's team and lost.

The junior track meet will be held at Lakeview April 26, 1952. Argie Lynn Turner is moving to Oklahoma in several days. We sure will miss her.

Victor Fogerson.

Bud McMinn was released from the Briscoe County Clinic-Hospital Saturday, where he was a patient for several days.

Small Yellow Grub May Teach Value Of Mystery Vitamin

AUSTIN, Tex.—A little yellow grub less than an inch long may help science learn the value of carnitine, a substance in the flesh of animals and men which has been a complete mystery since it was chemically identified a half-century ago.

The clue which may solve the mystery was revealed when an entomologist and three biochemists from the University of Illinois reported that vitamin B-T and carnitine are identical.

Vitamin B-T gets its name from the mealworm whose technical name is "Tenebrio." The vitamin is essential to life for this grub, or beetle larva, but no other living things—insects, animals, or plants—suffer when it is left out of their diets.

With the discovery that vitamin B-T and carnitine are the same thing, science now has a test specimen for study of carnitine.

Prof. G. S. Fraenkel, physiologist and entomologist, discoverer in 1947 of vitamin B-T, said that the new finding "cannot but have important repercussions in biological and medical research."

"It appears probable that a compound of such high activity functions in an enzyme system of vital importance. A compound of such regular occurrence must be present to some purpose. It must have a vital function."

Housewives know mealworms as the little yellow or brown larvae sometimes found in flour or cereals. They know carnitine, also, since it composed about 2 per cent of meat extract.

Apparently animals and men manufacture carnitine within themselves. The great amount of it found in muscle may make knowledge about it of considerable value, particularly to non-healthy individuals in whom the natural process of producing this material may be affected.

This discovery is the world's second showing a vitamin as a previously known substance. The first example was in 1937 when a growth factor for animals was shown to be nicotinic acid.

Self-Lighting Cigarette Seen In Near Future

FRIBOURG, Switzerland—The old ice-breaker, "Say, buddy, got a match?" may be a thing of the past. A Swiss chemical manufacturer has announced invention of a self-lighting cigarette.

It works this way: One end of the cigarette is saturated with a secret chemical which sets tobacco afire when rubbed against the side of the package. It makes no flame and there is no need to puff while lighting up.

Ernest Heimo, the inventor, says it works on both cigars and cigarettes and several firms are bidding for formula rights.

Worrying Parents Urged To Have More Children

CHICAGO—Here is a "sure cure" for worry-bird parents of an only child: "Have at least two more children, preferably girls."

It was suggested by a survey of letters received by The Parents' Consultation Service from parents in 26 states and the Territory of Hawaii.

Of the parents who queried the Service during a 12-month period, only about five per cent stated that they had three or more children. Twenty-nine per cent reported having two children, while more than 49 per cent indicated that they had one child. The remainder of those writing for advice failed to specify the number of children in their family.

About 54 per cent of the children involved were identified by the writers as boys, in comparison to the 37 per cent who were identified as girls. The sex of the remaining nine per cent was not given by the correspondents.

In connection with the survey, Dr. Martin L. Reymert, Ph.D., Consultant for the Service and Director of The Mooseheart La'oratory for Child Research at Mooseheart, Illinois, points out:

"The fact that parents of only children, particularly mothers, probably have more time in which to write to the Service, should also be considered in evaluating the emotional attitudes of these parents."

False Fire Alarm by Man Seeking 'Nice, Warm' Spot

SCRANTON, Pa.—Firemen hastened to answer an alarm in downtown Scranton. They found Edward Humphrey, 40, leaning unsteadily against the box.

Deputy Fire Chief Martin Lahey demanded: "Why did you ring the alarm?" Lahey said that Humphrey replied that he "wanted to get into a nice, warm place."

Lahey suggested that Humphrey should have gone into the taproom on a nearby corner.

"I'll have you understand," Humphrey then answered, "that I never enter such places." Humphrey was later charged with intoxication and ringing a false fire alarm.

Now, get My NEW 1-2-3 "50,000 Miles No Wear" Service!

- 1 I'll Drain Out Grit and Sludge While The Engine is Hot!** "Hot-oil" drains every 1,000 miles flush out dirt, acid and contamination before they can do harm, leave the working parts of the engine sparkling clean!
- 2 I'll Recondition All Air and Oil Filters!** I clean filter elements...replace worn-out cartridges...and record the mileage. I check mileage every time hood is lifted, to make sure these important filters are protecting your engine against dust and grit.
- 3 I'll Fill the Crankcase With Conoco Super Motor Oil!** Conoco Super is fortified with additives that curb the dangerous accumulation of dirt and contamination—protect metal surfaces from corrosive combustion acids—fight rust—and OIL-PLATE a film of lubricant right to metal surfaces.

SCHOOL IS ALMOST OUT

Well school is almost out and it sure has slipped upon us.

We just have six more weeks of school and we sure do need to catch up on our back work. Let's don't wait 'till the last minute to get our themes and book reports in.

We shouldn't just pass our time away doing nothing. I imagine the teachers would be better satisfied if we would really

hear down and put all we have into our school work. When we bring our report cards home let's all be proud of them.

Janice Turner.

Mrs. Lela Kellum was shopping in Lubbock Thursday.

Mr. and Mrs. Melvin Watkins, of Amarillo, spent Saturday night with her parents, Mr. and Mrs. Bud McMinn. They went to Plainview Sunday to be with Melvin's father, who is critically ill.

Mr. and Mrs. Walter Brannon and girls were business visitors in Plainview Saturday.

4-H Roundup Set For June 9, 10, at A & M College

The annual Texas 4-H Club Roundup will be held at Texas A. and M. College on June 9-10. The statewide gathering, sponsored by the Agricultural Extension Service, for years has been recognized as one of the highlight meetings for 4-H Club members.

According to information released by Extension Director G. G. Gibson, each county may send as official delegates two boys, two girls and two local adult leaders. This number does not include members who will participate in the many judging and team demonstration contests. Only one team from each Extension district may participate in each of the 14 announced contests. District winning teams are to be selected in district contests.

Since the annual Extension Conference will be held later in the year, only a limited number

of county Extension agents will attend.

In addition to the contests, delegates will participate in recreation programs, assemblies, training meetings and visit points of interest on the college campus. The State 4-H Council will meet during the Roundup to make plans for other activities covering the remainder of the year.

AGRICULTURAL FILLERS

"Today's Home Builds Tomorrow's World" is the theme for Home Demonstration Week which will be observed in Texas and the nation from April 2 to May 3.

Cotton gin owners and operators who attend the series of 2-day ginner schools scheduled for different gin machinery manufacturing plants in Dallas the latter part of April and early May will be given information that should result in getting maximum efficiency from their machinery.

The annual Texas 4-H Club Roundup will be held at Texas A. and M. College on June 9-10.

Agricultural producers are urged to read before buying, the label on insecticide containers. This practice will insure that the right insecticide is purchased and when properly applied that results will be satisfactory.

Clothes moths feed on animal substances such as wool, hair, feathers, fur and a wide range of commodities made from these materials. They can be controlled by using a five per cent DDT dust or spray. Winter clothing should be dry cleaned and sealed in airtight bags for summer storage and protection against damage from clothes moths.

Homemakers can save time and trouble by keeping a select number of household tools where they can always be found. A fishing tackle box or a tool board makes a mighty handy container for the tools.

Now is the time to start the fertilization program for the farm fish pond. Such a program makes possible the production of fish by the acre and greatly improves the farm fish pond so far as fishing is concerned. A stocking program plus the fertilization program for farm ponds can solve the question of where to go fishing—right at home.

Texas corn producers will have opportunities this year to participate in several different corn production programs. In addition to the many county programs the Texas Certified Hybrid Seed

Association is sponsoring a statewide program and there are others on a district or area basis. Top yield last year was 164.4 bushels per acre made by a 4-H boy.

SOUTHWEST'S TALLEST BUILDING INCREASED IN SIZE

Two additional floors have been added to the Republic National Bank Building, now being erected in Dallas. The floors have increased the section facing Pacific and Ervay Streets to seven stories and have resulted in the floor space of the building being increased to 822,000 square feet. Certain other changes have been made in the exterior of the building base, all of which adds materially to the appearance of the building and further enhances its place in the already impressive Dallas skyline. This 40-floor building — tallest in the Southwest — will rise 598 feet above the ground and will incorporate every modern convenience.

300,000 Specimens Added To Smithsonian Institution

More than 300,000 specimens, mostly in the field of natural history, were added to the collections of the United States National Museum during the past year.

The number of specimens now catalogued, Dr. Kellogg reports, total 32,817,298. The greatest number of accessions during the year was in the field of zoology, a total of 225,638, collected all over the world.

Washington's Lafayette Square Home of Statues

Servicemen using the newly-reopened USO club in Washington's Lafayette Square have only to step out the front door to find themselves in company with some first-rate fighting men of the past.

Lafayette Square—directly across Pennsylvania Avenue from the White House—contains statues of five men who distinguished themselves fighting for the United States.

The square or park gets its name from the Marquis de Lafayette, French nobleman who aided the United States in the war of the Revolution and was a great and close friend of George Washington.

Lafayette's statue is in the southeast corner of the park. The central and most prominent location is occupied by an equestrian bronze of Andrew Jackson, seventh president of the United States and hero of the Battle of New Orleans.

First Suggestion

The first recorded suggestion that the Earth and other planets revolve around the Sun is generally attributed to Aristarchus, an astronomer who lived on the Greek island of Samos about 265 B.C.

American Custom

American-style quilting bees have reached Korea. Hundreds of women in the Pusan area volunteered to engage in "Operation Quilt" to provide comfort for destitute Koreans against the bitter cold of winter.

New Generator

A new type of portable smoke generator, developed by the Army Chemical Corps and now being used in Korea, is being tested by the Department of Agriculture for possible use in protecting crops from frost.

Records Show 8,000 Known Species Related Crustacea

WASHINGTON, D. C.—There now are more than 8,000 recognized species of shrimps, lobsters, crabs, and closely related crustaceans in the world. This is about equal to the number of different kinds of birds known to science.

Dr. Chace lists a total of 1,930 kinds of shrimps divided among 211 groups or genera. But there are only 7 genera, containing 32 species, of true lobsters. Such animals as spiny lobsters and Spanish lobsters—the former imported in large numbers as frozen "lobster" tails—belong to different families.

These decapods, Dr. Chace says, are by far the largest group of the crustaceans. They still are far from completely known, and it is highly likely that the number of species discovered eventually may be increased by 30 to 40 percent.

District Attorney Proves Point in Question to Jury

NEW YORK—"It is physically impossible to do such a thing," said Defense Atty. Carson D. Baker at the trial of two women accused of shoplifting by concealing a coat under a girder worn by one of them.

Thunderstorms Said Producer Of Both Rain, Lightning

CHICAGO—Thunderstorms are actually inefficient producers of rain and lightning, a University of Chicago meteorologist told the New York meeting of the American Meteorological Society.

Roscoe R. Braham, Jr., senior meteorologist of the university's Chicago "dwy Laboratory reported that most of the moisture and energy in the storm is dissipated without falling as a rain or appearing as lightning.

Only one drop out of every nine potential drops in the storm actually falls to the ground as rain, for which people in most sections of the United States can be grateful.

Even though the relative production of rain in the average thunderstorm is small, it will nevertheless dump 110,000 tons of water over a maximum area of eight square miles.

About one third of the potential moisture that passes through the thunderstorm never condenses to raindrops. Another third turns to rain but evaporates again as it moves in the down-draft that lies in the heart of the thunderstorm during its later stages.

Geologists Write off Atomic Energy; Predict Use of Coal

WASHINGTON—Leading geologists in U. S. industries, universities, and research agencies predict that substantial industrial use of atomic energy in the next fifty years is considered to be relatively improbable and that by the Year 2000 most of our industrial power will be derived from treatment of oil shale and coal, according to a survey conducted by the American Geological Institute.

The survey also revealed that within 25 years the United States will produce supplementary supplies of oil and gas from the controlled burning of underground coal seams, in much the same way as is being done experimentally today in Alabama.

There was almost unanimous agreement among the earth scientists that by 1975 liquid fuels from the large oil shale deposits of the Colorado Plateau and the low-grade coals of the Mid-West and Plains areas will supplement the declining supplies of natural petroleum.

Life Insurance Ownership More than Double 1941 Total

Life insurance owned by American families in the nation's more than 600 life insurance companies increased to a record \$253,200,000 in 1951, the Institute of Life Insurance reports.

This is \$131,000,000 more than was owned at the end of 1941; \$101,000,000 more than at the end of 1945.

"Life insurance ownership has expanded more rapidly than population, both as to aggregate amount owned and number of owners," Holgar J. Johnson, Institute president, commented. "This has been true not only over the past ten years, but over the entire first half of this century.

Another record figure attained in the past year is the \$4,000,000,000 of payments to American families by their life insurance companies.

These payments brought to \$30,000,000,000 the aggregate paid out to policyholders or beneficiaries in the past decade. The 1951 total is 58 percent greater than the 1941 figure, a rise of \$1,475,000,000.

Death benefit payments increased to \$1,725,000,000, some \$135,000,000 more than the year before and \$715,000,000 more than in 1941. The large total was chiefly a reflection of the wider ownership. The death rate among policyholders remained at a very low level during 1951.

New, Safer Method of Blood Transfusion is Reported

A new and safer method of giving blood transfusions to elderly patients and to other persons with heart diseases and associated disorders has been described in the Journal of the American Medical Association.

The procedure consists of giving sedimented red blood cells with the patient in a sitting position, instead of whole blood with the patient in a horizontal position.

The frequency of complicating conditions in transfusions led to the development of the technique, according to Dr. Victor Ginsberg, Nathan R. Frank and Richard S. Guber, of the blood bank and department of medicine of the Kings County Hospital, Brooklyn, N. Y.

"In situations requiring transfusion of large amounts of blood, a practical difficulty is frequently imposed by associated disorders which restrict the ability of the heart to accommodate an increased blood volume," the doctors said.

Under the new procedure, red blood cells are allowed to settle in bottles in a refrigerator for approximately 48 hours. The plasma is then siphoned off with the aid of an empty vacuum bottle, leaving only the necessary red blood cells which are used in the transfusion.

The important advantages of this method include the reduction of the volume of fluid administered by practically one-half, the elimination of three-quarters of the sodium content of the blood, and the averting of the air vesicles and tissues of the lung becoming filled with serous fluid, according to the report.

Accelerated Mining The heavily increased requirements for nickel and copper during World War II were met by International Nickel by calling upon its underground mines and by greatly accelerating ore production from its Froid-Stobie open pits where production was started in 1939.

Daily ore production from the pits was increased from the 6,000 tons-per-day, originally planned, to 20,000 tons-per-day during the war years. As a consequence of the heavy war drain upon the open pits and of their large post-war output it is anticipated.

PERSONALS

Mrs. Tom Barbee, of Quitaque, visited Mrs. P. D. Jasper and Dawn Saturday.

Lee H. McMurtry, of Texline, visited Monday with Mr. and Mrs. J. F. Cowstar.

Visitors in the home of Mr. and Mrs. Freeman Tate Sunday were his brothers of McLean.

Mrs. Joe Brooks and son, Hubert, visited in Quitaque Monday.

Mrs. Dick Bomar and Mrs. Jackie Tate and baby, were business visitors in Quitaque Monday afternoon.

Mr. and Mrs. Henry Price visited friends in Floydada Sunday.

Mrs. Esdell Hutsell and daughter, Janet, spent the week end in Levelland with her parents, Rev. and Mrs. R. C. Guest.

Mr. and Mrs. R. C. Hutsell spent the week end in Hobbs, New Mexico, with their daughter, Mr. and Mrs. Jimmy Tidwell. Mrs. Tidwell and children returned with her parents for a visit.

PERSONALS

Curtis Bingham, of Kress, and Glenn Dee and Billy McWilliams sent the week end in Arkansas.

Miss Opal Webb left Thursday for her home at Cooper, Texas. Miss Webb was the assistant telephone operator here for several months.

Mr. and Mrs. Bob Scarborough and Mr. and Mrs. Carl Rambo, of Petersburg, were recent visitors in the home of Mr. and Mrs. M. G. Moreland.

Sgt. and Mrs. J. W. Brown, of Amarillo, were guests in the home of Mr. and Mrs. Hugh Stodghill over the week end.

Clyde Wright and W. H. Tenison were among those who attended the R. E. A. meeting Friday in Tulia.

Mr. and Mrs. F. C. Gatewood and daughter, Jo Ann, visited Friday afternoon and night, at Dumas with Mr. and Mrs. Bill Curby. They attended the opening day of Phillips Petroleum plant north of Dumas.

Mr. and Mrs. Geo. Seaney and Mr. and Mrs. Pascal Garrison and family, spent the week end in Odessa with Mrs. Seaney's brother, Mr. and Mrs. V. A. Adcock.

Mr. and Mrs. Bailey Hill and Mrs. R. L. Hill were business visitors in Amarillo Saturday.

Mr. and Mrs. Harris Jarnigan, of Kress, spent Sunday in the home of Mr. and Mrs. T. L. Mills.

Mrs. Ralph Glover visited Saturday in Hereford with her mother, Mrs. J. F. Nettles, and Mrs. Hub Bellou. Her mother accompanied her home for a visit.

Sheriff's Sale

THE STATE OF TEXAS, County of Briscoe.

By virtue of an order of sale issued pursuant to a judgment decree of the 110th District Court of Briscoe County, Texas, by the Clerk of said Court on the 8th day of April, A. D. 1952, in a certain suit No. 1396, wherein The City of Silverton is Plaintiff, and The State of Texas, County of Briscoe and the Silverton Independent School District are Impleaded Party Defendants, and D. P. Brooks Defendant, in favor of said plaintiff, intervenor, and or impleaded party defendants, for the sum of Sixty Six and 55-100 Dollars for taxes, interest, penalty and costs, with interest on said sum at the rate of six per cent per annum from date fixed by said judgment, together with all costs of suit, that being the amount of said judgment rendered in favor of said plaintiff, intervenor, and or impleaded party defendants by said 110th District Court of Briscoe County, on the 28th day of September A. D. 1951, and to me directed and delivered as Sheriff of said Briscoe County, I have seized, levied upon, and will, on the first Tuesday in May A. D. 1952, the same being the 6 day of said month, at the Court House door of said Briscoe County, in the City of Silverton between the hours of 2 o'clock P. M. and 4 o'clock p. m. on said day, proceed to sell for cash to the highest bidder all the right, title and interest of said defendant in and to the following described real estate levied upon as the property of said defendant, the same lying and being situated in the County of Briscoe and State of Texas, to-wit: Being all of Lot No. Eight (8) in Block No. Ten (10), in the town of Silverton, Texas; or, upon the written request of said defendant or his attorney, a sufficient portion thereof to satisfy said judgment, interest, penalties and costs; subject, however, to the right of the plaintiff for any other or further taxes on or against said property that may not be included herein, and the right of redemption, the defendant or any person having an interest therein, to redeem the said property, or their interest therein, at any time within two years from the date of sale in the manner provided by law, and subject to any other and further rights the defendant or anyone interested therein, may be entitled to, under the provisions of law. Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

Dated at Silverton, Texas, this 8th day of April, 1952. RAYMOND K. GREWE, Sheriff Briscoe County, Texas. By J. W. McCracken, Deputy.

The "Wear-Everywhere" Coat

ON BITING WIND AND COLD AND SNOW... his numb fingers bent around an M-1 rifle... this soldier is living with the same hardships suffered by General Washington's troops at Valley Forge 174 years ago.

His equipment is immeasurably better than any those first Yankees could have dreamed of. His chances of survival are equally improved. But, like them, he is doing a grim, hard job for the defense of his country.

Defense is your job, too. It is your job to maintain and support America's economic strength as this soldier is supporting her military strength.

It's an easy job... and one of the best ways to do it is by buying United States Defense Bonds regularly. For with bonds and other forms of savings you are making yourself and your country stable and strong. And America must be kept strong—economically as well as militarily. For we must always remember... in this cold-warring world, peace is only for the strong!

The U. S. Defense Bonds you buy give you personal financial independence. Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

Peace is for the strong... Buy U.S. Defense Bonds now!

Air Force Base Puts 'New Look' In Food Service

RANDOLPH AIR FORCE BASE, Tex.—When Napoleon I conceived the idea of canning foodstuffs to meet the growing mobility of his French Imperial Army he was still a long way from today's United States Air Force's Operation "New Look".

The Air Force is putting a lot of emphasis these days on Food Service, and typical of that emphasis is a new \$420,000 Consolidated Dining Hall at this B-29 combat crew training center. Don't call it a mess hall, son. The word is passe. So is K.P. Men on kitchen police are known as Food Service Attendants.

Mass Feeding

That's only part of the picture, however. Randolph's new dining hall, a two and one-half story structure, contains four cafeteria lines in a ground-floor area covering 31,000 square feet. It serves an average of 4,200 meals per day in a home-like atmosphere featuring individual four-man tables and dishes instead of trays.

Consolidated dining halls is an Air Force innovation, a plan to consolidate food service, replacing an earlier arrangement of mess halls for each squadron. By comparison, Randolph's Consolidated Dining Hall accommodates 1400 persons at a single meal, double the number that can be accommodated by a squadron mess hall. First Lt. Richard K. Brown, Food Services Officer at Randolph, figures the new dining hall could, in an emergency, accommodate 2,000 persons at a single meal. (About 1,700 persons were comfortably accommodated at a recent noontime meal.)

And GI Joe of World War II might look with justifiable envy upon an approved dining hall arrangement whereby airmen and WAFS can be seated together at mealtime.

There are some strictly utilitarian aspects of the "New Look". Menu Planning Boards, which tried valiantly to cope with problems of nutrition in the burgeoning Air Force of 1942-45, now prepare dining hall menus that are vast improvements over the bill of fare which confronted the ex-serviceman.

Air Cooled

The new dining hall is air-cooled in summer, centrally-heated in winter. Garbage cans no longer are stacked outside the building but are placed in walk-in refrigerators until removal to a disposal area, thus eliminating disagreeable odors and the dangers of contamination.

Kitchen Police is still a job to be done, but the much-maligned potato-peeler of World War II has been replaced by a Food Service attendant who can get the same job done in less time and with less effort by turning a switch on electrically-operated potato peelers. Other devices have been added to make the job easier and the results more efficient.

Randolph's new dining hall operates on a 24-hour basis, offering midnight meals to airmen on night shifts, and meals for aircrewmembers returning, in pre-dawn hours, from B-29 flights.

Doctor Says Casual Usage Of New Drugs Inadvisable

CHICAGO—Indiscriminate use of sulfa or antibiotic preparations may do more harm than good, according to Dr. William Bolton, of Chicago.

"The casual taking of this or that sulfa or antibiotic preparation for a cold, sore throat or cough may be worse than unwise," Dr. Bolton stated. "It may spell the difference between recovery and the reverse if some disease such as pneumonia, influenza meningitis, even an ordinary staphylococcal infection strikes at a later date."

"For, in taking dribbles of the wonder drugs from time to time, the patient can teach his germs how to develop strong resistance to—even dependence upon—the very substance that otherwise would rapidly destroy them."

The commonest of the counter-attacks by which germs ward off the lethal punch of drugs is the development of specific resistance. Some bacteria always have been resistant to the new drugs, he stated.

"Many people have the mistaken impression that it is the body that develops a resistance to the drugs," he added. "The body may acquire increased tolerance for some medicines and require larger doses, but this does not happen with sulfa drugs or the antibiotics. The germs alone are responsible."

Skeleton Problem Solved With Identification Made

HARLAN, Ky.—Local officials began an investigation soon after several skeletons were found by a workman in a shallow grave at nearby Cumberland. It was thought they might be the remains of moonshiners or "revenuers." The rugged mountain area once was used by moonshine-still operators, who looked with disfavor upon visits of "revenuers" during prohibition. The Smithsonian Institution came to the assistance of County Attorney Hiram Brock, Jr., saying the skeletons were prehistoric Indians—one brave three squaws and a papoos-

"IF EVERYONE"

If everyone who drives a car could lie a month in bed, With broken bones and stitched up wounds, or fractures of the head, And there endure the agonies that many people do, They'd never need preach safety any more to me or you.

If everyone could stand beside the bed of some close friend And hear the doctor say "no hope" before the final end, And see him there unconscious, never knowing what took place The law and rules of traffic I am sure we'd soon embrace.

If everyone could meet the wife and children left behind, And step into the darkened home where once the sunlight shined, And look upon "The Vacant Chair" where Daddy used to sit, I am sure such reckless drivers would be forced to think a bit.

If everyone who takes the wheel would say a little prayer, And keep in mind those in the car depending on his care, And make a vow and pledge himself to never take a chance, The Great Crusade for safety then would suddenly advance.

A HOME TO LIVE IN

Small House Planning Bureau St. Cloud Minnesota

DESIGN C-232G. The first floor plan consists of living room and dinette, combination kitchen-dining, three bedrooms, bath and eight closets and there is a full basement. Bedrooms are all in the rear with the living room and kitchen across the front. In the kitchen the sink is under the front window, stove

and refrigerator on the inside wall. A large dining space is provided in one end of the kitchen, with corner windows. A fireplace and dining bay feature the living room which has a two view to front and side.

Exterior finish is wide siding with stone chimney and entrance wall, asphalt shingle roofing and a two foot eave overhang. Other features are covered front entrance, planting area and flower box.

Floor area is 1112 square feet and cubage is 21,128 cubic feet. This plan is also obtainable with a flat roof.

Are some of your Series E Government Bonds maturing this month?

Now they can earn more money for you!

New law provides 10 more interest-earning years for your Series E Bonds . . . and you need not do a thing!

Are you one of those smart and patriotic Americans who began an automatic saving program with Series E Government Bonds in 1941? Then you're one of the lucky people who can profit by a new law now!

A bill recently passed by Congress now makes it possible for your United States Defense Bonds to continue earning interest ten years longer than was originally planned.

For example, a Series E Bond which cost you \$18.75 in 1941 will pay you \$25 in 1951. But if you hold that bond ten extra years, until 1961, it will pay you \$33.33, an average interest of 2.9% compounded annually. You get similar increases on Series E Bonds of every denomination.

And there is nothing for you, as a bond holder, to do. You need not exchange the bonds you have. You need not sign any paper, fill out any form. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. But unless you really need the cash you're much better off to hold your bonds. For United States Defense Bonds are as safe as America itself.

When you buy your bonds regularly and hold them, they are steadily building a sum big enough to buy something really worth while—a home, a business, a retirement fund, an education for your children.

And bonds are safer than cash! If you lose or accidentally destroy cash it's gone for good. But when you have your cash in United States Defense Bonds, the U. S. Treasury will replace lost or destroyed bonds at no cost or loss to you.

So if some of your bonds are coming due, take advantage of this new offer of your government—just sit back and let them go on making money. Meanwhile keep adding to your savings by buying more U. S. Defense Bonds regularly—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—

The new law also allows you to exchange your Series E Bonds, in blocks of \$500 or more, for Special Series G Bonds which pay interest semiannually at the rate of 2½% per year. For full details, ask at any Federal Reserve Bank.

Look how your maturing bonds go on earning under the new law!
(This table shows \$25, \$50, and \$100 bonds as examples of how ALL Series E Bonds grow.)

CITATION BY PUBLICATION

THE STATE OF TEXAS
To any Sheriff or any Constable within the State of Texas—GREETING:

You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Briscoe County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION

THE STATE OF TEXAS
To: L. S. Chavose, whose residence is unknown, and the un-

known heirs of the said L. S. Chavose, Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Briscoe County at the Courthouse thereof, in Silverton, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 21st day of April, A. D. 1952, to Plaintiff's Petition filed in said court, on the 1st day of March, A. D. 1952, in this cause, numbered 1423 on the docket of said court and styled G. W. Lee, Plaintiff, vs. Mrs. Johnnie Fish and husband, E. A. Fish, May Stapleton, and husband, H. S. Stapleton, Eva Read and husband, Mack T. Read, Floy Smith and husband, Bill Smith, L. S. Chavose and the unknown heirs of L. S. Chavose are Defendants.

A brief statement of the nature of this suit is as follows, to-wit: Trespass to try title on Lots 13, 14, and 15, in Block No. 24 in the town of Silverton, Briscoe County, Texas; and for damages, Plaintiff also pleading the Three, Five, Ten, and Twenty-five year Statutes of Limitation; as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law,

and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Silverton, Texas, this 8th day of March, A. D. 1952. (Seal) Attest:

DEE McWILLIAMS,

Clerk, District Court Briscoe County, Texas. 11-4tc

Psychologists Say Children Needing Right Sex Education

CHICAGO—Too many American children today are failing to get the right kind of sex education because there aren't enough adults, either in American homes or schools, who are qualified to deal with the subject intelligently.

That is the general feeling among the country's leading child psychologists who were asked recently, in a nationwide survey conducted by the Parents' Consultation Service, whether or not they thought that sex education should be made part of the public school curriculum.

Of the 388 psychologists who participated in the survey, 76 per cent thought that "sex education should be made part of the public school curriculum." Sixteen per cent were not in sympathy with the idea. The remaining 8 per cent either expressed no opinion on the subject or failed to reply to the question directly.

The critical replies of the respondents reflected their concern with "the lack, particularly in our schools, of properly trained adults who are sufficiently well-adjusted emotionally to teach sex education."

A number of the experts queried thought that sex education should be taught in schools only if integrated with other courses, such as biology or hygiene, etc., but not as a separate course.

Several stressed the importance of "proper timing," recommending the high school level generally, and "not getting the endorsement and support of such parent groups in the community as the P.T.A. for the project."

A few more strong in their feeling that sex education, whether in the home or in the school, should be on "an individual counseling basis," rather than as group instruction.

Others expressed regret that "sex education, which is primarily a duty of the home, is so frequently neglected or so poorly done there."

One psychologist observed succinctly: "If parents were well-informed and would accept the responsibility there would be no need for sex instruction elsewhere."

Railroads Carry Major Load Of UN's Effort in Korea

On the railroad that went to war in Korea, foxholes are the whistle stops and the fighting front is a freight yard.

Several dozen new diesel-electric locomotives have been shipped to Korea recently, the U.S. Army Transportation Corps has disclosed. Unheralded in dispatches, they will be weapons nonetheless as crucial as the roaring trainloads of tanks, guns, supplies, and troops hauled north through the battered Korean countryside.

In the dark days of the Pusan foothold, an entire division was picked up and moved by train, 100 miles in less than 24 hours, to meet a Communist spearhead. Many other time rail transportation has spelled the difference between success and failure of United Nations operations. Railways have been used tactically to an extent not seen since the American Civil War. They have also carried 95 per cent of the U.N. supply load in some areas.

Japanese military engineers, in the years before World War II, built one of the Far East's finest rail networks in Korea. In many ways it was better than Japan's own narrow-gauge system. Track and equipment in Korea are standard gauge, built to match the Manchurian railways.

Roadbeds are well graded and well ballasted. Cuts and tunnels are reinforced with concrete and steel. Two and sometimes three bridges were built at vital river crossings on the 500-mile double track main line from Pusan north to Smulju on the Manchurian border. Japan built a railroad to meet military needs. Today the rails are doing just that, but not for the Japanese.

Prior to the opening of hostilities in 1950 there were about 3,500 miles of standard-gauge lines and some 400 miles of narrow-gauge branches throughout Korea. But the Iron Curtain across the 38th parallel had already chopped the system in two. In South Korea, an area about the size of the state of Indiana, there were 2,730 miles of track, requiring 239 tunnels and 1,724 bridges.

Water Drovers Gain Friend When Man Gets New Well

CORNISH, Me.—There are probably more cists than pros when water dowsing is discussed, but Roy Thompson says he has switched to the pro side of the argument.

Thompson's farm went dry and contractors quoted "sky-high" prices for damming the large brook which curves past his barn.

A local water dower, Morris Rogers, brought out his willow rod and checked the farm. "Dig here," he said.

Thompson gambled on the willow and earned a productive new well.

Robot-Controlled Weather Station Saves on Manpower

FORT MONMOUTH, N. J.—A robot controlled weather station in operation the past six months from a bleak deserted Aleutian island was exhibited at the annual American Meteorological Society convention in New York City.

The weather station runs itself, doing the work previously performed by at least seven men. It was developed by the Signal Corp. Engineering Laboratories at Fort Monmouth.

Designed to operate without manpower for at least a year before rechecking, the station clicks its Morse code weather message at fixed times day and night to an Air Force Station 250 miles away giving the Air Force measurements on rainfall, sunshine, wind speed and direction, pressure, humidity and temperature.

The unattended weather station is located on an island, where thick fogs prevail in the summer and gusty 100 mile per hour winds dominate during the winter. The station can operate in 60 degree below zero temperatures and colder if needed.

Transportable by air, the station consists of an insulated metal shelter and a small instrument section atop the shelter. There are built-in automatic heating and fire extinguisher controls.

Natural Census Increase Close to All-Time Record

NEW YORK, N.Y.—The natural increase in population—excess of births over deaths—in the United States last year was more than 2,400,000, insurance company statisticians estimate. This is close to the all-time record high of 2,431,000 in 1947.

With a moderate gain through immigration, the total increase in population for the year is estimated to exceed 2,650,000.

Since the end of World War II, this country has added about 15,800,000 to its population, which the statisticians point out is about equivalent to the present population of the three Pacific Coast states, or to the combined population of the three Scandinavian countries of Sweden, Norway, and Denmark.

"The rapid increase in our population during recent years bears witness to the great vitality of our nation," the statisticians comment.

Generous Soldiers

Generosity of American troops overseas is shown again in a report from Chaplain Burr Millican, now on duty in the Far East. The men of Chaplain Millican's Army Ordnance Battalion recently contributed \$945.10 to pay for the passage of a Japanese student, Misako Hirabe, to the Wayland Baptist College, in Plainview, Texas, and for her return after she has completed her studies. The men also raised \$62 to enable the Japanese girl to purchase personal items needed for the trip.

Americans Are Now Taking Better Care of Their Teeth

Americans are now receiving almost twice as much dental care and at a proportionately lower cost than they did 15 years ago. The Journal of the American Dental Association has reported.

The report was based on an estimate of the U.S. Department of Commerce that nearly a billion dollars was expended for dental care in 1950 as compared with \$20 million in 1935.

The increase in dental care was attributed to a growing demand for dental service and a population growth of 23 million in the past 15 years.

"The dental profession has not only been able to keep up with the growth in population but in 15 years actually has almost doubled the amount of dental care being provided per capita," The Journal said.

Even though services have increased nearly 100 per cent, Americans in 1950 spent less of their total income for dental care than they did in 1935.

The Journal pointed out that costs of dental care increased 56.8 per cent in the 15-year period while the cost of living rose 72 per cent. In 1935, payments to dentists amounted to 0.54 per cent of all consumer expenditures against 0.51 per cent in 1950.

The Journal estimated that more than 60 million persons received dental treatment in 1950 and that the average dental bill per patient was \$16.50.

Name Trouble

An honest man, with no desire to cause trouble, was one named Burke, who was so entered, at his birth, on the Vital Statistics records. When he entered school, the teacher wrote Burk in the school records and class rolls. On getting his first job, his employers copied his name as Birk in their personnel records. On the list of registered voters, an election clerk wrote his name as Birke. Along came his marriage, and our Burke was shown as Berke on the Vital Statistics records. He applied for electricity, and the public utility records now listed him as Berk. By this time, Burke was in quite a predicament as he was forced to use several of his aliases to avoid confusion. Then he became careless. When he bought on credit, another clerk used Bork on his charge account. He borrowed money and carelessly signed Bourk on the note. The public records listed Buerck when he bought a house. Another job, and his Social Security record gave his name as Bereck. When taken to a hospital, the nurse posted his name as Borck. Only when Burke died, did his real name, Burke, correctly appear on the Vital Statistics records again.
