Elected to Board of Directors of Southwestern Dev. Co.

The West Texas area now has three representatives on the Board of Directors of Southwestern Development Company, the public utility holding company which owns all of the stock of Amarillo Gas Company, Amarillo Oil Company and Red River Gas Company, all of Amarillo; Clayton Gas Company, Clayton, New Mexico; Dalhart Gas Company, Dalhart; and West Texas Gas Company, with headquarters in Lubbock.

Three members of the Board of Directors of Southwestern Development Company, representing The Mission Oil Company, which owned about 47 percent of Southwestern's stock, resigned on July 2, 1952 when, in accordance with a voluntary simplification and integration plan approved by the Securities and Exchange Commission, Mission distributed its stock in Southwestern to its stockholders. The Commission approved replacements to fill the vacancies created by such resignations, these replacements being Thos. F. Cartwright, who is President of a subsidiary company of Southwestern and supervises all operations in Texas, and two outstanding citizens of the area—Ross D. Rogers of Amarillo and George W. Dupree of Lubbock.

For many years Sinclair Oil Corporation has owned the controlling interest in Southwestern, but in accordance with a voluntary simplification and integration plan approved by the Securities & Exchange Commission, Sinclair will dispose of its interest in Southwestern.

Homecoming of Ex-Students and Teachers is Success

The homecoming of ex-students and teachers Saturday drew a large crowd of visitors. Those in charge of the barbecue were prepared to feed 550 and it is estimated that they probably had that many.

The barbecue was served at the noon hour at the high school grounds. In the afternoon the visitors and townspeople met in the school auditorium for a program honoring reunion class members, and then adjourned to the nearby football field to see Silverton's team defeat Anton, 26-12.

Many of the visitors came from distant places, with Mrs. Susette Fowler Fox, Bonne Terre, Mo., having covered the most distance. She was a teacher in Silverton High School in 1918. The earliest former teacher present was Judge J. E. Daniel, of Floydada, who taught here in 1892.

Silverton Owls Football Team Play Dimmitt Sept. 26

The Owls will play ball at Dimmitt September 26, 1952. Kickoff time 8:00 p.m. This should be a close game if we can stop Dimmitt's speed.

Dimmitt has played one game this season against Lockney and were defeated 27-0. The Owls will be out for their third victory. Silverton has wins over Kress 52-6 and Anton 26-12. This should be a real test this week, as it has been a number of years since Silverton has won from Dimmitt.

Tommy Strange will be out this week due to an injured knee.

Silverton Wins League Championship 4 to 2

Silverton's baseball team came from behind in the ninth inning to defeat Nazareth in the final playoff game for the championship of the Irrigation Belt Baseball League at Nazareth last Sunday.

Training by a score of two to nothing going into the ninth inning, Silverton banged out four straight hits to put three runs across the plate and sew up the ball game. With one man out and two on base, Pinch Hitter Bert Myers, batting for McPherson, sent the tying and winning runs across the plate with a clean single to left center field. Myers came all the way to third on the throw in and scored a moment later when Dubois singled sharply through the pitchers box.

T. Weaver, Silverton pitcher, struck out 15 Nazareth batters and would have had a shut out for a mis-judged fly ball that fell for a hit and produced both Nazareth runs.

This game, coupled with the previous Sunday's 6 to 0 win over Nazareth, enabled Silverton to take the playoff series in two games and Manager Shorty West and his boys are to be congratulated for their fine showing this season.

Silverton played 17 games in their league schedule this season and won 13 while losing only 4. This is a record that both the team and fans can be proud of and in behalf of the fans we thank Manager West for the time and effort he has gone to in bringing baseball back to Silverton and wish him good luck for next years play.

Farm News From The PMA Committee Briscoe County

The 1953 Agricultural Conservation Program for the county which has been developed cooperatively through the participation of both State and Federal agricultural agencies in the county has been designed with the objective of making a wise use of the funds Congress has authorized for conservation and improvement of our soil and water resources.

One of the most important phases of the National defense effort is assurance of adequate agricultural production, essential to the welfare of all the people and for the strength and prosperity of the Nation. There is no way of insuring that our farm production will be adequate now and for our increasing population except by properly protecting and improving the soil and water resources on our own farms.

There is a new method of requesting assistance this year in the Agricultural Conservation Program. Requests for assistance cannot be made in the Briscoe PMA Office as formerly, but must be made through the community committeeman. Sometime between October 1 and December 1, 1952, every farmer in the county will be given the opportunity to request assistance to bear a part of the cost of the practice or practices most needed on his farm in 1953 and which would not be carried out to the extent necessary for the National welfare without this assistance. The closing date for requesting assistance under this program is December 1, 1952.

The following practices have been approved by the County Committee for Briscoe County in 1953:

1. Construction of terraces to control flow of water on sloping land.
2. Construction of diversion or spreader terraces to control excess water.
3. Subsoiling to permit better penetration of water.
4. Bringing clod forming subsoil to the surface of sandy cropland to prevent wind erosion.

5. Establishing a satisfactory cover of winter legumes seeded in the fall of 1953.
6. Chemical control of mesquite.
7. Application of potash and phosphate.
8. Establishing or improving permanent pastures by seeding adapted pasture grasses, pasture legumes, or mixtures of grasses and legumes.

MILLIE MARSHALL

Mr. and Mrs. Travis Marshall announce the engagement and approaching marriage of their daughter, Millie, to Carol Lewis, son of Mr. and Mrs. Earl Lewis, of Quitaque, on Saturday, October 11, 1952 at the home of her parents.

RAIN MONDAY AMOUNTED TO .27 OF AN INCH

Moisture that fell slowly most of the day Monday gave Silverton .27 inch of rain. Parts of the county reported one-half and some three quarters of an inch.

12. Contour listing, contour chiseling, cross-slope chiseling, pit cultivation, or chiseling not on the contour.

18. Leveling for irrigation land for which water is available.

20. Reorganization of a permanent farm irrigation system to conserve water and prevent erosion.

21. Drilling or digging wells for better distribution of grazing on range land.

24. Constructing earthen dams or reservoirs for collecting and storing livestock water, including the enlargement of inadequate structures.

27. Application of potash and phosphate.

31. Establishing a satisfactory cover of winter legumes seeded in the fall of 1953.

36. Chemical control of mesquite.

45. Establishing or improving permanent pastures by seeding adapted pasture grasses, pasture legumes, or mixtures of grasses and legumes.

The story of the Methodist Home at Waco actually told by the children themselves on the air Sunday, September 21, at 8:15 a. m. over the fourteen radio stations. The Home is dramatizing activities from the lives of its more than four hundred children again this fall on Sunday morning because of an enthusiastic response from radio listeners all over the Southwest last fall. Some of them wrote that they had contributed to its support many years without ever having been able to visit its campus, and that the radio programs gave them a vivid picture of its life. Students and ex-students have done most of the script-writing, and are acting out the incidents. Music by the Home choir featured the fifteen-minute broadcasts which are entitled, "These Are Your Children."

Mrs. Pearl Simpson Honored on Birthday With Party

Mesdames A. L. McMurtry and R. E. Brookshier were co-hostesses of a birthday party given in the beautiful McMurtry home last Thursday afternoon, honoring Mrs. Pearl Bomar Simpson. "Pearl" as she is affectionately known to many friends, has spent her whole life here, as had her parents, brothers and sisters, who had, and still do have, the full respect of all citizens of the community. But to get back to the happy birthday party which indeed was really a happy affair.

Mrs. McMurtry is a charming hostess, and spares no effort to make her guests welcome, a fact of which twenty five ladies who were privileged to be her guests on that occasion will testify.

Refreshments of cake, punch and pink and yellow watermelon balls were served. Mesdames Mary Burson and Jo Ann Paige presided at the punch bowl.

The living room and dining room were decorated with potted plants. The serving table covered with a white linen cloth with Roman cut work embroidery, was further beautified by a miniature ferris wheel, the seats of pretty dishes loaded with various colored mints.

Just after refreshments, Robert Stubblefield, five year old son of Mr. and Mrs. H. B. Stubblefield, entered drawing a prettily draped wagon, loaded with gifts for our honor guest, who was assisted in opening her packages by a sister-in-law, Mrs. Nannie Bomar. As the hour of parting drew near, each one of those present expressed the hope "Pearl" would enjoy many other birthdays, and to Mrs. McMurtry their sincere thanks for her kindness and hospitality.

...what a way to wash clothes!

Yes, you could actually pull up an easy chair in front of the washer, for once the clothes are in your automatic washer, the rest of the work is simply a matter of pushing a switch. There's no backbreak, no bend, no wringing or rinsing — your automatic washer handles all those tasks.

Let Reddy make washday as simple as sitting in an easy chair. Buy your automatic clothes washer now and you, too, will say — "What a way to wash clothes."
