PEGGY HOLT

ANNOUNCE ENGAGEMENT AND APPROACHING MARRIAGE OF DAUGHTER

Mr. and Mrs. W. A. Holt announce the engagement and approaching marriage of their daughter, Peggy, to Billy Wayne Garvin, son of Mr. and Mrs. L. B. Garvin.

The wedding will take place November 7, 1953, at the home of her parents.

1952 STUDY CLUB MET OCTOBER 8

The 1952 Study Club met October 8, at 2:30 in the club room. Thirteen members were present. New members present were Mrs. J. B. Barrt and Mrs. Billy Ellis.

The program on "Leaders in Social Welfare" was given by Mrs. J. L. Self, Mrs. Rex Holt and Mrs. Merle J. Montague.

The next meeting will be held in the club room October 22, at 2:30 p. m.

GOES TO DALLAS FOR CHECK-UP

Mr. and Mrs. Tobe Fuller were in Dallas several days last week where Mr. Fuller went for a check-up at the clinic. He is continuing to improve, but is still under the doctor's care. They also visited a short while in Fort Worth with his uncle and aunt, and from there they visited his brother, Mr. and Mrs. Boyd Fuller, at Ponder, Texas. From there they went to Brownwood and visited their daughter, Mr. and Mrs. M. B. Denton. They returned home Thursday evening.

Mr. and Mrs. Charles Cowart and children made a business trip to Abilene on Sunday. Enroute they stopped at Aspermont where they attended church and ate lunch. On the way home they stepped a while in Matador with Mr. and Mrs. Joe Stephens. Mrs. Stephens is Mrs. Cowart's aunt.

Owls Defeated Lakeview Eagles 39-8 Friday Night

The Silvertown Owls defeated the Lakeview Eagles 39-8 in a District 2-B football game last Friday night at Lakeview. Touchdowns were scored by Don Ledbetter, Freddie Hamilton, Jimmy Wilson, C. L. Dunn and Jack Williamson.

Terry Kirk scored for the Eagles in the second quarter. Their other two points came on a safety when Silvertown intercepted a pass and were tackled behind their own goal line.

The Owls do not have a game this week but will get back into conference play next week when they meet the Quitaque Panthers October 23 at Quitaque.

The Quarterback Club which are boosters of the Owls wish to announce that they will give away tickets to the cotton bowl game again this year so see any Quarterback Club member for information about these tickets.

DELBERT MATTHEUS ENROLLED AT TEXAS LUTHERAN COLLEGE

Seguin — Enrollment in the freshman class at Texas Lutheran College for the fall semester shows a 47 per cent increase over last year. A total of more than 160 first year students is a record freshman enrollment for the four-year liberal arts college.

Delbert Mattheus of Silvertown has registered for the fall semester at T. L. C. Mattheus is a freshman pre-theological student.

DAISY SCOUT TROOP HIKE

On Saturday, October 10, the Daisy Scout Troop met at 4 o'clock in the afternoon at the Methodist Church. Each scout brought a sack lunch and their drinking water. They hiked a mile and a quarter out east of town where they ate their lunch.

Then they played games, and sang songs, then hiked back to town. The following Scouts hiked: Joann Turner, Linda Brannon, Marsha Monroe, Glenda McWilliams, Celene Lanham, Carol Grundy, Frankie Hunt, Lillie Davis, and their leader, Mrs. Carver Monroe.

They all enjoyed the hike very much.

BILL WATERS IS INJURED

Bill Waters was severely injured early Tuesday when a dump truck fell on his right arm. He was carried by ambulance to the hospital in Plainview in order that a bone specialist might examine and treat the injury.

Cap Rock Soil Conservation District Hold Meeting

The landowners of sub-division five of the Cap Rock Soil Conservation District met in the Gasoline community building on Friday evening, October 9 to elect a district supervisor. Gerald Smith was elected to represent them on the board of supervisors. He replaces Glynn Morrison, who has served in this capacity for the past several years.

About twenty eligible voters were present to cast this vote. The board of supervisors is now composed of Chester Burnett, Lem Weaver, Edwin Crass, Gerald Smith, and one yet to be elected in sub-division two due to the resignation of Guy Edens.

Before the election several colored slides were shown of Quar plantings made around Quanah and vicinity.

SOPHOMORE CLASS ENJOYS WEINER ROAST AT TULIA LAKE

All report a good time at the picnic. There was plenty of good food. Mesdames Bailey, Cornett, Riddle, Mr. and Mrs. Gilkeyson, and our sponsors, Mr. and Mrs. Travis accompanied us.

Part of the class went to the drive-in-theatre while the rest came on home.

Reporter.

Mr. and Mrs. F. W. Wyatt and Alice Frances visited relatives in Gainesville and McKinney last week.

Mr. and Mrs. J. V. McCarty, of Phillips, were Sunday guests of her parents, Mr. and Mrs. H. C. Mercer. They were accompanied by Miss Glenna Mercer.

Mesdames Estes Smith, of Jasper, and Alma Perkins, of Orange, Texas, were guests of Mr. and Mrs. J. E. Minyard on Tuesday and Wednesday of last week. The ladies are Dock's cousins.

Tina and Max, small children of Mr. and Mrs. Lem Weaver, spent a day or two early this week in the local hospital.

Messrs. and Mesdames D. T. Northcutt, Lem Weaver, Perry Whittemore and Gordon Montague attended the A and M-Tech football game in Lubbock Saturday evening.

Mr. and Mrs. Chas. Carpenter, of McLean, and Mr. and Mrs. Edd McMurtry, of Vigo Park, visited in the home of the Roy McMurtrys Sunday. Mrs. Carpenter is a sister to Edd and Roy.

Speech Correction Program Being Set Up at Lubbock

A cooperative program in speech correction between Texas Tech and the Lubbock Cerebral Palsy Treatment Center has made available to Tech equipment and a training program for speech therapist unavailable elsewhere in West Texas.

Dr. P. Mervile Larson, head of the Tech speech department, announced this week that Tech has joined the treatment center in a program to help children with speech and hearing difficulties. The treatment center, housing much of the latest equipment in working with children with hearing and speaking hurdles, will serve as a laboratory for advanced speech therapy students.

When organization of the program is completed, the Texas Society for Crippled Children and other organizations may refer persons to Tech to receive clinical training. The society has \$1,500 invested in equipment and in an auditory training room at the center.

Tech has long had a clinic for children with speech difficulties. Miss Helen Lindell, a member of the speech staff at Tech, has conducted a free clinic for children. On the cooperative staff will be Dr. Larson; Dr. John A. Manning, speech therapist and part-time assistant professor at Tech; and Dr. Ester Snell, director of the center.

Equipment thus far installed includes a Train-Ear for working with hard of hearing children; a tape recorder; and an audiometer, a hearing testing machine. Equipment ordered includes the psychrometer, an aid in testing hearing for small children; a chronalizer, a device by which sound is translated into color.

F. F. A. NEWS

Last Friday the F. F. A. Chapter grass team went to Dallas to enter the State contest, they were Keith Whitfield, W. D. Rowell and Claton Elkins accompanied by Mr. and Mrs. G. H. Bunch, and Mrs. Homer Stephens. On the return trip home they visited in Stephenville with Jay Turner and Red Stephens.

The F. F. A. and F. H. A. will leave Friday to go to Dallas on a chartered bus to attend the Dallas State Fair. They will return home Sunday.

On Tuesday Betty Fitzgerald was awarded a sweetheart jacket from the F. F. A. Chapter.

Wayne Mayfield, Reporter.

Mrs. T. C. Bomar, Mr. and Mrs. Don Burson and Tommie Don were Sunday guests of relatives at Claude.

Funeral Services Held Sunday For B. F. Keltz

Last rites for Benjamin Franklin Keltz, 66 year old prominent White Flat farmer who died at 4 p. m. Saturday in the Stanley Hospital at Matador following an illness of about six weeks were held at 3 p. m. Sunday in the First Baptist Church in Matador. Mr. Keltz was a brother of Mrs. C. C. Garrison of Silvertown.

The Rev. H. T. Harris, pastor of the White Flat Baptist Church, officiated, assisted by the Revs. L. W. Baker, Vigo Park, former pastor of the White Flat church; Bob Jameson, Matador, pioneer Methodist minister, and Bruce Oliver, pastor of the Matador Baptist Church.

Burial was in East Mound Cemetery at Matador under the direction of Eudy-Seale Funeral Home. Masonic rites were held at the graveside.

Mr. Keltz was born November 20, 1885, at Erandon. He moved to Vernon in 1890, where he lived until moving to Motley County in 1910. He had lived in Motley County since that time with the exception of a brief period when he lived in New Mexico.

He was a member of the Baptist Church since boyhood and was a Mason.

Mr. Keltz is survived by his wife, Mrs. Vinie Dodd Keltz, White Flat; a son, Bennie, White Flat; three daughters, Mrs. James Holladay, Vernon; Mrs. J. E. Edwards and Mrs. Harry Campbell, both of Matador; seven grandchildren and a great granddaughter; two sisters, Mrs. T. J. Darsey, Matador, and Mrs. C. C. Garrison, Silvertown, and two brothers, F. L. and A. C., Keltz, both of Vernon.

Pallbearers, all nephews of Keltz, were Robert Darsey, Matador; Dan Darsey, Muleshoe; Fred Garrison and Coleman Garrison, both of Silvertown; Keltz Garrison, Crosbyton; Blanton Garrison, Farmington, New Mexico; Troy Perkins, Muleshoe, and Boyd Perkins, White Flat.

Pat Northcutt and Misses Mary Lou Bellinger and Kay Steele, students at Tech, Lubbock, spent the weekend here.

E. S. A. Club Met Wednesday Evening With Mrs. Elkins

The Zeta Lambda Chapter of E. S. A. met Wednesday evening, October 7, at the home of Eunice Elkins. A regular business meeting was held. A coming halloween party was planned and a discussion was held on the forming of a sister chapter. A check for \$100.00 was given to Kenneth Sharp, chairman of the Polio Fund in Briscoe County. This is the first contribution in this county.

A debate was held. The subject was Heredity and Environment and its Effect on Mankind. After this interesting discussion refreshments were served.

Mrs. Lee D. Bomar has been a patient in the local hospital this week.

Mrs. Una Burson, well known pioneer resident of Briscoe County has been confined to her home on account of illness for several days. She says she feels some better now.

Mr. and Mrs. G. M. Brunner, of Lockney, were seven o'clock dinner guests of their daughter and family, Mr. and Mrs. Marvin Montague, on Monday.

Mr. and Mrs. Will Smith were in Lubbock on Monday where she had a check up after her recent surgery. She is doing fine.

Mrs. Bryan Strange and Mr. and Mrs. Norman Strange and family visited Mr. and Mrs. Ben Fowler and children in Tulia Sunday afternoon.

Mr. and Mrs. J. E. Wheelock, visited last Friday night and Saturday with their son and family, Mr. and Mrs. R. D. Wheelock in Canyon.

Sunday dinner guests of Mr. and Mrs. Edwin Crass were: Messrs. U. D. Brown, T. J. Crass, Sam Lusk and Bobby Barrett; Misses Anne Brown and Faith Crass, and Mesdames Scott Smith and Jack Sutton and daughter.

Directors of Briscoe County Junior Fat Stock Show Met

The board of directors of the Briscoe County Junior Fat Stock Show met Thursday night, October 8th in the County Courtroom in Silvertown. A new set of officers were chosen at the meeting. True Burson was elected chairman of the board and Robert Hill was elected vice chairman. Joe Mercer is secretary.

A class of breeding gilts 150 and above was set up for this year show in addition to the classes that have been set up in past years. This class, it is hoped, will stimulate the interest in hogs among the 4-H and FFA Club boys. It was felt by the members of the board that the type and quality of the hogs in the county could stand improvement. The show is constantly trying to improve itself and it is thought that the addition of a gilt class is a step in the right direction to improve swine here.

There were nine members present including Glyn Bunch Vocational Teacher from Silvertown, B. L. Peacock, Quitaque, and County Agent Robert Ledbetter.

Mr. and Mrs. Willie Amel Smith and children, of Memphis, spent Sunday with Mr. and Mrs. Edwin Dickerson and family.

Mesdames C. L. McWilliams, Sr., C. L. McWilliams, Jr., Bobby McWilliams and Fred Brannon were Plainview visitors one day last week.

Mr. and Mrs. Bruce Womack visited Mr. and Mrs. Doug Sewall in Plainview on Sunday. Their granddaughter, Lee Ann Womack, returned home with them.

Mr. and Mrs. Eugene Long were in Lubbock on business on Monday.

Rev. G. A. Elrod, J. E. Wheelock, Mr. and Mrs. Sam Brown, Mr. and Mrs. Henry Howard were among those who attended the funeral of Mr. Benjamin Franklin Keltz in Matador Sunday afternoon.

POLIO'S STILL A BAD MENACE, FOLKS! LET'S FIGHT POLIO CRIPPLING BY GIVING GENEROUSLY TO THE SISTER KENNY POLIO FOUNDATION.

PRESIDENT EISENHOWER HONORS U. S. SAVINGS BONDS VOLUNTEERS

WASHINGTON, D. C., SEPTEMBER 29—President Eisenhower honors three U. S. Savings Bonds volunteer workers by presenting a certificate of the Distinguished Service Award and a Citation. The ceremony was held at the White House.

Receiving the awards were, from left to right, Mrs. Elise B. Hopkins, Galveston, Texas; The President; Jackson P. Dick, State Savings Bonds Chairman for Georgia, and Chairman of the Atlanta Transit Company; Secretary of the Treasury George M. Humphrey, Toledo, Ohio, Savings Bonds Chairman for Lucas County and President of the Toledo Trust Company.

The awards symbolize the gratitude to all volunteers in the Savings Bonds program throughout the country.

PERSONALS

Mrs. Clarice Bradley, of Plainview, spent the weekend here, a guest of Mr. and Mrs. Milton Perry. Mrs. Bradley, a former resident, anticipates moving her house from Silverton to Plainview here she has lived for some time.

Darden Jasper is here on leave visiting his parents, Mr. and Mrs. Milt Jasper. Darden is stationed at Fort Bragg, North Carolina. He expects to get a release from the army soon.

Mr. and Mrs. J. P. Jasper and their daughter, Mrs. Ila Sullivan and son, Howard, of Claude, were Sunday dinner guests of Mrs. P. D. Jasper and Dawn. Other dinner guests were: Mr. and Mrs. Alva C. Jasper and Vicki and Mr. and Mrs. Aubrey Rowell and children, Miss Wayma Rae Calloway and Joe Lee Bomar. Mr. Milt Jasper called in the afternoon. Messrs. J. P. Jasper and Milt Jasper are brothers.

Mrs. R. A. Selby and children, of Amarillo, were Sunday visitors with her sister and husband, Mr. and Mrs. Vinson Smith and children. They were also guests of her brother and family, Mr. and Mrs. Marvin Montague, Carol Ann and Johnny.

Mr. and Mrs. George Long, Nancy Kay and Nicky Wayne were Sunday guests of Mrs. Long's brother and wife, Mr. and Mrs. Jack Frizzell, at Lone Star. Mesdames Bryan Strange, Clyde Lightsey and Elbert Dickerson spent Friday with Mrs. Jack Frizzell, at Lone Star.

Genuine CHEVROLET PARTS at Simpson Chevrolet Company.

Mesdames H. G. Fein and W. C. Clayton, of Desdemonia, and Richard Krafte, of Fort Worth, were guests of Mr. and Mrs. Milton Perry from Monday until Friday of last week. Mrs. Fein is Mrs. Perry's sister; Mrs. Clayton is a sister in law and Mrs. Krafte is her niece.

Mr. and Mrs. E. D. Engleman attended the barbecue and A.&M. Vs. Tech football game in Lubbock on Saturday.

Mr. and Mrs. Wayne Gerdes and children, of Tulia, called on her sister and husband, Mr. and Mrs. Frank Hunt, and family Sunday afternoon.

Messrs. and Mesdames Joe Brooks, Glen Lindsey, Lenton Lanham, Roy Mayfield, O. C. Rampley, attended the W. T. S. C. Vs. Trinity U. football game in Amarillo Saturday evening.

Messrs. L. E. and Jack Paige, students at Tech, Lubbock, spent Sunday with their parents, Mr. and Mrs. Lester Paige and sister, Gwelyn.

Mr. and Mrs. Clyde Lightsey and Mesdames J. S. Fisher, Mattie Perry and A. B. Dunnagin were in Tulia Monday afternoon.

Mr. and Mrs. Bill Wallace and Tom, of Tucumcari, New Mexico, were recent visitors with his mother, Mrs. Susie Wallace, and grandfather, T. D. Wallace.

Tommy Kelly, of Portales, New Mexico, visited his grand father in law, Mr. T. D. Wallace, on Sunday.

Mr. and Mrs. Ewing Vaughan and son visited their daughter, Miss Helen Vaughan, a student at W. T. S. C., at Canyon, on Sunday.

Coffee to Have New Meaning for American Hostesses

BRONXVILLE, N. Y.—One of the nation's leading lexicographers has answered a question that has long puzzled hostesses: What do you call an informal party at which coffee is to be served?

Clarence L. Barnhart, editor of the Thorndike-Barnhart dictionary, says that the sensible name for such affairs is "a coffee." At the same time he announced that future editions would contain the following definition:

"Coffee, a social gathering, often in the morning, at which coffee is served."

The decision to include the additional definition was made, Mr. Barnhart says, after his research staff had studied U. S. newspapers for many months.

Mr. Barnhart pointed out that the word "tea," meaning a social affair, was reputedly originated by Jonathon Swift in 1738.

"For want of a more accurate descriptive term, our coffee-serving hostesses have, for nearly two centuries, called their parties 'teas.' The new definition of coffee provides a solution which, I am happy to report, has the approval of Miss Amy Vanderbilt, author of the 'Complete Book of Etiquette.' That authority on what is proper recently said, 'If a hostess is holding an event at which coffee is the beverage, it is perfectly correct to call it a coffee.'"

Civilian Pilots Number 580,000

WASHINGTON—There are more than 580,000 civilian pilots in the United States today, 18 times as many as there were before World War II.

In fact, there are more airplanes registered in California and Texas alone than existed in the entire United States when World War II broke out.

The growth of civil aviation in the United States since World War II has generally gone unnoticed—with thousands of Americans learning to fly, buying utility aircraft, using these planes in business, and contributing to the national defense transportation potential.

Today, the nation's more than 580,000 civilian pilots outnumber the combined population of Delaware and Nevada. They man a vast fleet of 88,000 civil aircraft, 54,000 of them active, according to

Planes, official publication of the Aircraft Industries Association.

They use a total of 6,237 airports—an average of 130 airfields for every state in the Union. In 1939, the U. S. had only 2,280 airports, or an average of 47 per state.

Ancient Stone of Scone Has Fabulous History

LONDON—The Stone of Scone, which is a part of the 652-year-old King Edward's Chair that played such an important part in the recent coronation of Queen Elizabeth, has a fabulous history.

Before the coronation it was in the news when it was stolen from Westminster Abbey. It was returned a few weeks later.

On the stone, the ancient kings of Scotland were enthroned, and its legendary history proclaims it to be Jacob's pillow. Legend also links the stone with Ireland's ancient Stone of Destiny, Lia-Fail.

The Stone of Scone was captured by King Edward I when he invaded Scotland in 1296. He brought it back in triumph to London and commissioned his royal painter, Walter of Durham, to build a chair to hold it. He paid Walter five pounds for the chair, completed in 1301.

The stone has been a part of the chair ever since—the chair on which 28 British monarchs have been crowned.

Gout Is Not Caused By Excessive Eating

FORT WORTH, Texas—Dr. John M. Church, who's made a study of gout, the disease once believed to be caused by excessive eating and drinking, says the disease is really a form of arthritis and extremely painful.

People with gout were usually laughed at because it was considered something like a hangover, he reports. It isn't, however, and is one of the most painful of diseases.

Many famous people have had gout, his research reveals, including Alexander the Great, Lord Tennyson, Martin Luther, Sir Isaac Newton, Samuel Johnson, John Milton, Charles Darwin, and General Winfield Scott.

Busy Planter
Unlike George Washington, who cut down his cherry tree, Peter F. Heering of Denmark spends most of his time raising them. Since the end of World War II Heering has planted more than 70,000 young trees in the flat, open country south of Copenhagen. Their rich, ripe fruit is used in making Cherry Heering, a famed Danish after-dinner liqueur which has been exported throughout the world since 1818.

Gasoline for Sunday driving... or **Natural Gas** to cook next Sunday's roast?

Most people think only of gasolines, lubricants, and fuel oils when the petroleum industry is mentioned. The fact is, practically all oil producers are also natural gas producers. So today the driller of a wildcat, or exploratory well, calls his venture successful if the well discovers either oil or gas.

If it is an oil well, then he has helped to supply the country's increasing needs for oil and oil products; if it is a gas well, he has discovered additional supplies of an efficient, economical fuel for household and industrial use.

The petroleum industry's development and conservation of the country's natural gas resources is a practical demonstration of the progress to which Oil Progress Week invites attention.

Beginning with the location of the well, advanced geological and geophysical studies of underground formations aid in the selection of likely oil or gas producing

areas, but still the odds against a wildcat well producing either gas or oil are eight to one.

If a natural gas field is discovered, reservoir engineers immediately begin their studies to determine the best producing methods to conserve the underground energy and to obtain the maximum production for the longest possible time.

If the gas that is discovered is "wet," it is processed in gasoline plants which remove the liquid parts and send them to refineries for further processing into motor fuels and aviation gasolines, or to petrochemical plants to be converted into a long list of useful chemical products, among which are the plastics and synthetic fabrics with which you are so familiar. "Dry" gas, the residue from gasoline plants, and sometimes produced direct from the gas field, is the natural gas that burns in literally millions of homes throughout America and under the boilers of thousands of American industries.

So, whether a wildcat well discovers oil for gasoline or natural gas for the kitchen stove, it adds to the available energy resources of the most highly mechanized nation on earth; it supplies products essential for today's and tomorrow's high living standards; it gives additional strength to measures for National defense.

New Ulcer Pills Let Patients Eat Anything They Want

NEW YORK—A new treatment for ulcers which allows the patient to eat anything he wants to has been used successfully on nearly 1,000 patients, it was revealed at a recent meeting of the American Medical Association.

The treatment consists of taking anti-acid pills for months—often as frequently as every half hour. Stomach acids create ulcers. The first step in treatment is to overwhelm the acids during the first 24 hours. Anti-acid pills are taken at half-hour intervals during the day and every 2 to 4 hours the first night to prevent acids from destroying new tissue growing over the ulcer crater.

After this first day, the patient starts to eat whatever he pleases. If he has any pain or distress, it means he needs more anti-acid pills. One pill is aluminum hydroxide. Another contains calcium carbonate, a sedative, and either a laxative or constipating chemical to correct effects of the aluminum.

He keeps taking the pills until he has gone 4½ months without any distress from his unlimited eating. Double-dose pills are taken at night on retiring and during the middle of the night.

The treatment is effective against flare-up of old ulcers, the bane of ulcer victims. Quite often, ulcers kick up every three to six months, especially in the spring and fall.

Aluminum May Save Old Pirate Island

WASHINGTON—The red soil of Jamaica's central mountains is rich in bauxite, the ore of aluminum and it may bring back prosperity to the island that was once a pirate's paradise.

It is estimated that 320,000,000 tons of bauxite await exploitation and two companies from the United States and one from Canada are investing \$60,000,000 in the island on which Columbus once was stranded.

Special dock facilities are being built and heavy machinery to dig the ore from open pits and to begin its processing is being imported.

Jamaica has had its good times and its bad. First Spanish, then British, planters reaped golden harvests of exotic fruits, fine woods and sugar. Buccaneers on the Spanish Main brought still greater wealth in the seventeenth century to the English who by then had obtained full title to Jamaica.

Sugar cane, coffee, cocoa, pimento, ginger, indigo, tropical fruits, and tobacco long have been taken from the island's soil, but Jamaica's agricultural prosperity declined. The population has grown and unemployment is a serious problem.

Aluminum may bring Jamaica prosperity, if not the glamorous times when pirates walked the streets and squandered their gold in Port Royal.

Navy Experimenting With Underwater Wings

WASHINGTON—The Navy is finding a use for wings—underwater ones this time.

The Navy has announced it is experimenting with the "hydrofoils" on boats. They have surfaces similar to an airplane's wing. Fitted to the bottom of small craft, they raise the hull out of water when sufficient speed is attained.

When the boat is thus entirely supported by the wing, the result is less water friction and more speed. So far, the project is entirely experimental but the Navy says "hydrofoils are expected to be applicable to various boats and small craft."

A Swedish ferry equipped with hydrofoils has a speed of about 35 knots, or 42 miles an hour. An experimental German hydrofoil boat constructed during World War II attained speeds of 30 knots, approximately 60 miles an hour.

Plastic Fillings In Use, Dentist Says

CLEVELAND—Dr. Fred Slack, associate professor of prosthetic research at the University of Pennsylvania, reports a new plastic filling is now in use and has been used on some 10,000 persons. It can be installed with much less drilling pain than other kinds.

Dr. Slack, who developed the method, says the plastic fillings appear to stand up as well as other types, but more time is needed for a full appraisal.

The fillings have an adhesive quality and drilling is reduced by one quarter to one half, he reported.

Official Takes Walk

PARIS—A Paris city councilman who once was a champion in wrestling, recently won a bet of \$28 from a barber by proving he would walk 24 hours straight. He covered 75 miles in the streets of Paris' hilly Montmartre sector. The 200-pounder, Robert Ruau, remarked: "I was just keeping in form."

bringing the world to your doorstep...

Wherever you see him working, America is on the march. Building, growing, progressing!

He's a General Telephone lineman... part of the privately owned and operated telephone industry that brings you the finest, most economical service on earth.

That's a point to remember when someone suggests public ownership "might do it better."

ARTHRITIS!

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

BROWNIE SCOUT TROOP MET WEDNESDAY, OCTOBER 7

The Brownie Scouts met on Wednesday, October 7, at the First Baptist Church, with Mrs. Albert Mallow as scout leader. The scouts decided to play games and serve refreshments. Hello-we'en.

Five members were present: Carrie Sue Jones, Sue Lanham, Sheila Jarnigan, Jimmie Nell Reynolds and Ciela O'Neal.

Visitors in the home of Mr. and Mrs. Joe O'Neal Sunday afternoon were: Dr. and Mrs. R. A. Hill and son, of Amarillo; Dr. and Mrs. J. G. Pruitt and family, of Floydada.

Jerry Griggs, a former Silverton resident, and a brother to Mrs. H. S. Crow, is quite ill. He has been taken from his home near Alvarado to Abilene to a son's home for treatment.

MARCH OF TIME STUDY CLUB MET SEPTEMBER 17

The March of Time Study Club met September 17, 1953 in the club room. Mrs. W. E. Schott, Jr., president, presided at the business meeting. Mrs. Conrad Alexander was hostess for the program on Americanism. Mrs. Troy Burson, Miss Anna Lee Anderson and Mrs. Conrad Alexander gave papers on Washington—our National Capitol, as to architecture, paintings and sculpture. Mrs. T. T. Crass gave history of the song of the month, "America the Beautiful."

Members present were: Mesdames Conrad Alexander, Clarence Anderson, Tony Burson, Troy Burson, True Burson, T. T. Crass, Rex Dickenson, J. W. Lyon Jr., Alvie Mayfield, Fred Mercer, Marvis Montague, D. T. Northcutt, Warner Reid, W. E. Schott, Jr., E. D. Engleman and Miss Anna Lee Anderson. One guest, Mrs. Gatewood Lusk.

Mesdames Robert McJimsey and Sue, of Tulia, and Clayton Wood and daughter, of Happy, were guests of their parents, Mr. and Mrs. U. D. Brown, on Monday.

Great-Grandsons Of Bounty Mutineers Live on Pitcairn

PITCAIRN ISLAND—The great-grandsons of the Bounty mutineers still live on the bleak and isolated Pacific Island of Pitcairn. The island has no harbor or beach and the Pitcairners must row their 37-foot longboat through the heavy surf which constantly pounds the rock-bound coast to come alongside the ships that anchor off the mile-wide island rising 1,000 feet above the South Pacific.

These descendants of men who carried out the most famous mutiny in history trade tropical fruit for clothes, medical supplies, and odd luxuries. The longboat carries the mails, too.

The secrets of the reefs have been handed down since the mutineers of Captain Bligh's Bounty settled on the island in 1790 after burning their ship. The present skipper of the Pitcairn longboat is Andrew Young, a direct descendant of the Bounty mutineer of the same name. Like his great-grandfather, Young is an expert seaman and always mans the steering oar—a vital job.

Young doubles as the island's radio operator and postmaster. Every passing sea captain knows him. Young has maintained the radio link since the days of the crystal director and spark coils. Today his equipment is as modern as any in the South Pacific.

Woman Claims Delaware Coastline

HARTFORD, Conn.—Mrs. Viola Daisey Wienski claims ownership of a narrow strip of land which makes up most of the coastline of Delaware.

She bases her claim on old land grants and family wills she has gathered. She says she is a descendant of Thomas Dazey, one of the first Huguenot settlers and has land grants issued by William Penn.

If her claim is verified, her title will relieve Delaware from a dilemma that has plagued it since earliest times.

She explains that, although some building has been done on the coastal land, no one has been able to acquire clear title to any of it because of the ancient colonial grants and, since 1850, Delaware statutes have prohibited "adverse possession" (acquiring ownership of land because of long occupancy.)

The strip Mrs. Wienski claims is 12 miles long, south of Rehoboth, and is a quarter-mile wide. It makes up most of the coastline of the second smallest state in the Union.

Negro Tribe Found Near Mexico Resort

MEXICO CITY—A tribe of half-naked, idol-worshiping descendants of Negro slaves has been discovered just 74 miles from the Pacific tourist resort of Acapulco.

The tribe was discovered by engineers on a road project. They report the tribesmen, who have remained almost 100 per cent Negro, are excellent hunters with bow and arrow, wear only loin-cloths, dance the old tribal dances of Africa, have witch doctors, use the harter system, and are peaceful.

The engineers also reported that life in the village of Copala, the business center of the isolated region, "is like a page from Romeo and Juliet." Two families of Italian origin, the Venturas and the Bragettis, have been feuding and killing each other for years.

The Negroes sometimes takes sides, but usually live in peace.

Coffee Club President Stuck With the Check

WASHINGTON, Iowa—Every member of the Washington (Iowa) Coffee Club has been its president and every president has been forced to pay.

The club has 1,000 members—and never a one has aspired to a second term as the club's president.

Fifty to 100 members of the organization gather at 10 a. m. each week day, drink a cup of coffee, elect a president and adjourn.

The president's sole and unavoidable responsibility is to pick up the check for everybody's coffee.

Any stranger who can be persuaded to attend a meeting is a cinch to be elected president.

4-Year-Old Takes Trip

ELIZABETH, N. J.—Bobby Franz likes trains. Recently he left home, trotted two miles to the railroad station, and boarded a train headed for New York.

Like any seasoned traveler he sat down and went to sleep. When the conductor came along he didn't have a ticket but was allowed to ride into New York anyway. There, Bobby confided in detectives and told them his name and address. Then he sat down and sucked his thumb until his father arrived. For a 4-year-old he had had a busy day.

MARCH OF TIME STUDY CLUB MET OCTOBER 1

"Current American Theatre" was the program theme when the March of Time Study Club met October 1, 1953 in the club room.

The business meeting was presided over by the president, Mrs. W. E. Schott, Jr.

Mrs. Warner Reid was program hostess. History of the hymn of the month "This Is My Father's World," was given by Mrs. Reid.

Mrs. Fred Mercer led the group in singing of this hymn. Mrs. Clarence Anderson gave a very interesting review of "Summer and Smoke" by Tennessee Williams. Mrs. True Burson gave the reading "Autumn."

Mrs. D. T. Northcutt, Federation Counselor, gave report of fall board meeting which she and Mrs. Schott attended in Lubbock.

Members present were: Mesdames Conrad Alexander, Clarence Anderson, Troy Burson, True Burson, Rex Dickenson, J. W. Lyon, Jr., Alvie Mayfield, Roy Mayfield, Fred Mercer, Marvin Montague, D. T. Northcutt, Warner Reid, W. E. Schott, Jr., and Miss Anna Lee Anderson.

Mrs. Elma Baker, of Plainview, has been visiting friends and relatives here the past few days.

John Lee Francis underwent an operation for kidney stones at the Plainview Foundation and Clinic on October 3. He returned home on Monday and is doing fine.

Mrs. Jim Whiteley returned home on Tuesday of last week from a two weeks stay in a hospital in Floydada. She returned there on Tuesday of this week for a check up. She is not feeling too well but would be glad for friends to call.

The improved moisture conditions over the state favor a greatly expanded planting of winter legumes. Legumes can be used successfully for supplementary pastures, for soil building and in some sections for seed production. Thus they are a real triple-purpose crop.

Visitors in the home Sunday of Mr. and Mrs. Bill Malone were Mr. and Mrs. Eric Malone, Nelson Malone, Den Rentfro, Travis Turnipseed, Mr. and Mrs. Artie Elms, Dave Anderson, Eugene Malone and Lathy Pringle, of Lubbock.

Mr. and Mrs. George Seaney went to Amherst Sunday afternoon; they were met there by her brother, Mr. and Mrs. Victor Adcock and Mr. and Mrs. Wayne Ingram, of Odessa. They all visited in the home of Mr. and Mrs. J. V. Adeock. Mr. and Mrs. Victor Adcock are parents of Mrs. Ingram and of J. V. Adeock.

Mrs. W. T. Davis, of Lubbock, was an over night guest of her brother and wife, Mr. and Mrs. U. D. Brown on Friday. Mrs. Brown returned home with her and spent the weekend.

Mrs. J. S. Fisher returned home on Monday after having spent three weeks in Dallas with her brother and wife, Mr. and Mrs. Harvey Peek. Mr. Peek, who has been ill, is thought to be improving.

Will your child have a college education?

It's yours to give him . . . if you start planning today!

Of course you want your child to have a good education. But can you be sure that, when the time comes, you'll be financially able to give it to him? You can, if you start saving for it now—through the Payroll Savings Plan. It's simple! Tell your company's pay office how much you want to save—from a couple of dollars to \$375 a month. Every payday this sum is invested in U. S. Series E Savings Bonds which are turned over to you, and earn good interest for you. It's systematic! Just think—if you sign up to save \$3.75 a week; in 5 years you'll have \$1,025.95—in 9 years 8 months, \$2,137.30—and in 19 years 8 months you'll have \$5,153.72. It's sure! Once you join, your saving is automatically done for you before you draw your pay. And your child's education will be provided for by money you don't even miss now. Eight million working people are now on the Plan—saving for those things made possible only through systematic saving. So join the Payroll Savings Plan right now. Do it today!

How you can reach your savings goal on the systematic Payroll Savings Plan

	\$1,000	\$5,000	\$10,000	\$25,000
Each week for 5 years, save	\$3.75	\$18.75	\$37.50	\$93.75
Each week for 9 years and 8 months, save	\$1.85	\$8.80	\$18.75	\$45.00
Each week for 19 years and 8 months, save	\$0.75	\$3.75	\$7.50	\$18.75

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. Remember, you can save any sum you wish, from a couple of dollars a payday to \$375 a month. The important thing is, start your Plan today!

Your baby's future starts today—when you save with United States Savings Bonds through the Payroll Savings Plan!

Most-liked low-priced car

... among people who want more for their money when they buy . . . and more money when they sell!

There's a big reason why more folks are buying more Fords than ever before. No other low-priced car offers so many of the things people want and need for today's driving. In fact, to get such "Worth More" Ford features as a V-8 engine, completely automatic transmission and fine-car power steering in any other car, you'd have to step well up from the low-price field. Of course, Ford owners will discover that Ford's worth more when they sell it, too. Surveys of used car prices show year-old Fords returning a higher proportion of their original cost than any other car.

because it's most like high-priced cars

... more and more people are considering Ford as the one fine car in the low-price field!

It's hard to believe that a car which is built like the finest still sells in the low-price field. Yet a Ford with its huiltight Crestmark body, its Full-Circle Visibility (most in its field), its new fine car ride and roomy luggage locker (roomiest in its field) delivers at a figure that keeps it right down in its price class.

Ford's the only low-priced car which offers you a choice of a completely auto-

matic transmission (Fordomatic), Overdrive or Conventional Drive. And Ford Master-Guide, available on all V-8 models, is the last word in power steering . . . makes turning up to 75% easier. See . . . Value Check . . . Test Drive Ford at your Ford Dealer's.

FORD

Ford's 110-h.p. V-8 is the same type of engine now powering America's finest (and costliest) cars. Ford's Mileage Maker is the most modern Six in the industry.

Worth more when you buy it
Worth more when you sell it

State Recalls Vision of Quaker Founder

WASHINGTON — The religious vision that came to a young Englishman 300 years ago brought into being one of the world's most influential faiths and contributed much toward founding the Commonwealth of Pennsylvania.

The young Englishman was George Fox. The religion he founded was that of the Society of Friends, or Quakers. And the desire to create a sanctuary of religious freedom in a world of persecution motivated one of the greatest of the Quakers, William Penn (1644-1718), in the establishment of Pennsylvania.

Penn was the son of a wealthy and influential admiral serving England and before the Restoration. As such, the young man could have been an important courtier to Charles II and James II, and he did spend considerable time in or near the court. But he fell early under the influence of the followers of George Fox, and became a close friend of the Quaker leader.

Traveled Youth

As a youth Penn lived in England and Ireland, traveled on the continent and tasted the pleasures of the French court of Louis XIV. But when he was in Ireland at the age of 22 the Quaker influence, long within him, became dominant and he was converted.

It is ironic that while Penn was on military duty in Ireland, shortly before his conversion, his best known portrait was painted. This portrait shows a man whose Quaker principles were absolutely opposed to armed force clad in a suit of armor!

For almost 20 years after his conversion Penn worked for the Friends in England and on the Continent, suffering imprisonment and indignity. In 1681, he pressed Charles II for accounting of a debt owed his father, and was granted what is now Pennsylvania in payment.

Model Constitution

The grant was what Penn desired, and he wasted little time in setting up the colony. Penn drew up a constitution that was a model of fairness and toleration. It granted complete freedom of religion, democratic government, and freedom of opportunity.

The death penalty, applicable in England for some 200 offenses, could be invoked only in cases of wilful murder.

Maces Continue to Be Symbols Showing Authority, Power

LONDON — The coronation of Queen Elizabeth in London next June will bring the Crystal Mace, famous symbol of the rights granted to the city by the crown, into active ceremonial use twice within the space of a year.

Usually the most prominent appearance of London's ancient mace is its annual transfer from the outgoing Lord Mayor to his successor. This ceremony took place this year early in November.

Next June the mace will appear again, at the coronation, when the Lord Mayor will bear the ancient sceptre in the procession. The man to be honored in June is Sir Rupert De la Bere, who accepted it from his predecessor, Sir Leslie Boyce in the November ceremony.

The Crystal Mace—"perhaps the most prized emblem of the Mayoralty"—is of such antiquity that its exact origins are unknown. It is 18 inches long and the shaft is carved rock crystal, probably of ancient Saxon craftsmanship, adorned with gold bands. The head, believed to date from the 15th century, is also of gold, adorned with pearls.

Use of mace as a symbol of authority is an exceedingly ancient practice, possibly going back to Roman days when officials bore fasces—an axe bound in a bundle of rods, denoting power to flog with the rods or put to death with the axe.

The mace continues to represent power. Maces are exhibited to show that parliaments in most British Commonwealth nations are in session, and Colonial English maces are prized possessions of South Carolina and of Norfolk, Va.

Politics Is Factor In This Divorce Case

BLOOMINGTON, Ind. — Judge Quincy Austin East is trying to decide whether a principal in a divorce case in his court recently tried to exert undue political influence on him.

Before the case was heard in his chambers, he received the following letter:

"My divorce suit is due to come up and I want to see that it goes through all right. Virtually all my family are Republicans and have been more or less so since birth, while on the other hand, my husband and his family are strong Democrats.

Comma Financed Rail Road in Early U. S.

BROOKLYN—A railroad was once financed by a comma! The old Culver Line was constructed by a firm of lawyers with the proceeds from a misplaced comma in the Tariff Act of June 8, 1872. The fateful line read: "Fruit, plants, tropical and semi-tropical for the purpose of propagation and cultivation."

The typist made an error, striking a comma instead of a hyphen after "Fruit." The lawyers spotted the error and sued the United States Treasury, acting for a group of fruit importers, and collected over \$3,000,000 in tariff refunds! The old Culver Line, extending from Brooklyn to Coney Island, may never have been built if it had not been for the world's most expensive misplaced comma.

Girl Is Locked In Attic Room 8 Years

BAD SEGEBERG, Germany—Little Baerbel Suefke, 8, was examined by a doctor recently in the British zone of Germany and described as being "more animal than human."

The child was discovered locked in an attic room and brought to a Bad Segeberg hospital. She had been locked in the room for the most of her life because her mother, Rose, 40, was ashamed of her. The mother has two other children, aged 12 and 15.

One doctor told newsmen that he didn't think the child's condition was entirely the fault of the mother. He said that there must have been both physical and mental ailments which today give the little girl the features of a 13-month-old baby. Baerbel weighs only 18 pounds, is 28 inches tall, and can neither speak nor walk.

Battle of Kilt Won By Queen's Husband

LONDON—New pictures of the royal family show that the Duke of Edinburgh has won "the battle of the kilt."

The queen, reports say, wants her husband the duke to wear the traditional kilt when on holiday in Scotland just as her father, King George VI, always did. The Duke objects to the thing.

A recent picture of the royal family with King Faisal of Iraq, who was visiting Edinburgh, shows Edinburgh in a kilt-like Norfolk suit with heavy shoes and baggy knickerbockers. The queen wears a kilt.

Tea Drinking Taste Changed Since War

NEW YORK—The taste of the American tea drinking public has changed since World War II, according to Mrs. Barney O'Brien, co-founder of a tea company.

"At the outset of World War II," says Mrs. O'Brien, "Americans consumed a considerable amount of green teas, but were deprived of them due to wartime shortages. Now that Japanese green and Formosa oolongs are again available, there is little demand for them in the market. It seems as if America was switched permanently to black Irish style teas."

Irish style tea, Mrs. O'Brien points out, is a mixture of the finest Ceylon black and India black teas.

The main essential difference between the American and Irish tea drinker contends Mrs. O'Brien, who asserts that the world's greatest tea drinkers are the Irish, is that the American does not drink his tea at tea-time.

"Strangely enough, fifty per cent of the tea consumed in America accompanies the evening meal," Mrs. O'Brien reveals. "Thirty nine per cent the noon meal, and only nine per cent the breakfast, with only eight per cent tea drunk at tea-time or evening parties."

Shakers Believed In Functionalism

HARRODSBURG, Ky.—The functionalism of modern furniture, it now appears, is not so modern after all. A Cleveland, O., home economics specialist reports that many of the principles employed in modern functional furniture were used years ago by the Shakers, a religious sect whose members settled near here in 1805.

Skilled in handicraft, they excelled in building construction and in fashioning beautiful wood furnishings. Among the items with which they equipped their sturdy dwellings were benches that extended to serve as tables, and desks and tables which opened up to provide added working surfaces.

Evidence of their fine craftsmanship may be seen today in the Shakerstown Guesthouse Inn, now privately owned and open to the public. The attractive walnut woodwork, beautiful oak floors and built-in cupboards are still in their original state. The 113-year-old structure has walls 18 inches thick, built of hand-made brick.

The Greatest Gasoline Development in 31 Years

New Conoco Super Gasoline

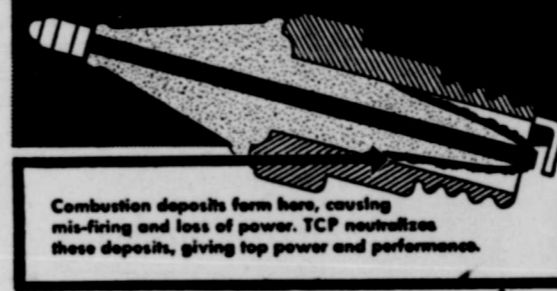

with **TCP***

Start the "TWO-TANK TEST" today!

Conoco Super Gasoline with TCP has been rightfully called the greatest advance in motor fuels since the introduction of tetraethyl lead in 1922. For here, at last, is a gasoline so dramatically different that the average motorist can feel the improvement in his car after just two tankfuls. Yes, after your second tankful, chances are you will know why we say Conoco Super with TCP will:

- Boost power as much as 15%!
- Increase spark-plug life up to 150%!
- Give you extra gas mileage!

CROSS SECTION OF TYPICAL SPARK PLUG

Combustion deposits form here, causing mis-firing and loss of power. TCP neutralizes these deposits, giving top power and performance.

For Conoco Super is a new kind of gasoline—a gasoline especially developed to correct the greatest single cause of power loss affecting most of the cars on the road today.

effect of mis-firing and pre-ignition is loss of power, lack of "pep" and wasted gas.

Combustion deposits drastically reduce power

When you drive your car, deposits constantly build up on spark plugs and in the combustion chambers. These deposits can "cheat" you of power two ways. First, they short-circuit spark plugs—causing them to mis-fire. Second, deposits in the combustion chambers cause fuel to ignite before it should. This is called pre-ignition or "wild ping." The combined

How Conoco Super with TCP works

TCP is a special chemical additive which is added to Conoco Super Gasoline. It was specifically developed to overcome the loss of power and fuel caused by combustion deposits. TCP neutralizes harmful deposits on spark plugs—your plugs spark as they should. It prevents deposits in the combustion chambers from causing pre-ignition—"wild ping" is controlled. Thus, every time you fill up with new Conoco Super, it's like getting your spark plugs cleaned and your engine tuned-up.

*Trademark owned and patent applied for by Shell Oil Company

Now—at your Conoco dealer!

NEW CONOCO Super GASOLINE

TCP helps your car, whether new or old

If you are driving a new car, with a high-compression engine, you need Conoco Super Gasoline to keep your car delivering all the power that was built into it. If you drive an older car, with tens of thousands of miles on the speedometer, Conoco Super can restore much of the "new car" performance and power you've been missing.

Start your "TWO-TANK TEST" today

When your gasoline tank is one-quarter full or less, fill it with Conoco Super with TCP. Now, there will still be some ordinary gasoline mixed in with your Conoco Super. So make sure your next tankful is Conoco Super, too. So rapidly does Conoco Super work, that with this second tankful, chances are you'll feel as if your engine has had a tune-up. You'll feel a boost in power. Try it today. We're sure you'll stay with Conoco Super.

Sworn to and subscribed before me this 12th day of October, 1953.
(Seal) Bertha Pavlicek,

Notary Public, Briscoe County, Texas.
(My commission expires June 1, 1955.)

Genuine CHEVROLET PARTS at Simpson Chevrolet Company.

Mr. and Mrs. R. E. Brookshier visited relatives in Hereford on Friday.

Mrs. R. C. Green, of Turkey, spent last Tuesday here with her parents, Mr. and Mrs. Will Smithee.

Mrs. Maude Chessier was a patient in the Northwest Texas hospital in Amarillo last week.

Messrs. and Mesdames Grady Wimberly and D. T. Northcutt attended a Farm Bureau meeting in Tulia on Monday evening of last week.

Lee Perkins, of Littlefield, was a recent weekend visitor here with friends. He is a pioneer resident of Briscoe County and lived here until a short time ago.

Mr. and Mrs. Billy Gene Toler, of Plainview, were recent guests of her parents, Mr. and Mrs. Milt Jasper.

Miss Jewell Hodges, of Lubbock, took her parents, Mr. and Mrs. T. J. Hodges, to Ruidosa, New Mexico, where they visited friends from Saturday until Tuesday.

Mr. and Mrs. W. H. Graham, Jr. and son, Ronny, of Farwell, were over night guests of her parents, Mr. and Mrs. Milton Dudley and Connie on Thursday. They were accompanied by Mr. and Mrs. Black, of Portales, New Mexico. Messrs. and Mesdames Graham and Black were enroute to Dallas where they attended the Texas State Fair and the Texas-Oklahoma football game; Ronny Graham remained here with his grand parents.

Genuine CHEVROLET PARTS at Simpson Chevrolet Company.

Mrs. Richard E. Jackson OF 2510 37th, LUBBOCK, TEXAS, LIKES ELECTRIC COOKING!

Mrs. Jackson finds electric top-of-range cooking cool and clean. All the heat goes into the food to be cooked—none spills over to heat up the kitchen.

She likes the even baking and economy of electric oven-baked cookies and other pastries, pies and meats. Meat shrinkage is at minimum with electric baking.

Too, she likes the easy method of preparing timely meals. Before going out, Mrs. Jackson sets oven controls—meals cook electrically while she's gone.

She says -

"Some of the outstanding features I like about electric cooking are the cleanliness and the coolness of my kitchen, the easy method of preparing timely meals, the even baking and economy. For my family of four, it costs only a few cents a day to prepare the meals."

Home Accent Color Adds Gay Touch

The "sizzle of a steak" or the frosting on a cake."

Beatrice West, professional color consultant, applies those terms to the accent color used in the exterior decoration of a home. She says that an accent color— for example, brightly color shutters or a window box — gives a lift to what might otherwise be an uninteresting color scheme.

Writing in American Roofer magazine, Miss West cautions against choosing an accent color first and then styling the rest of the exterior around it. Selection of an accent color should follow selection of roofing and siding colors, she advises.

"Good color-styling begins from the roof down," the color consultant explains. "I always recommend asphalt shingles because of the wide variety of blended colors in which they are made. The asphalt roof is a pastel green and the sidewalls are light green, a light yellow door may give enough contrast.

"On the other hand, if the roof and sidewalls are a dark green, the door will need a brighter yellow—or perhaps a coral color—to give a house the colorful welcome it needs."

Miss West makes these suggestions about using accent color on specific parts of a house:

Doors—Front and back doors are focal points of interest. Both should be colorful. White isn't a good color for doors because it is hard to keep clean, particularly

Front door and window box are good spots for accent color, as shown here in the popular split-level house. Color consultant Beatrice West says an effective color scheme for this house would be dark slate-blend asphalt shingle roof, light blue sidewalls and trim, and daffodil yellow accent.

if there are small children in the house.

Shutters — Shutters are ideal places to use accent color in contrast to sidewalls. For a tall, boxy house, Miss West's idea is to paint the shutters on the first floor a bright color to match the door and to paint second-floor shutters the same color as the body of the house.

Trim—Trim along eaves, doors, windows, soffits, corner boards, skirt boards and fascia boards

should never be used for accent color. Match the color of the siding or use a tone of the siding color.

Gables—On a small house, paint gable ends to match the sidewalls. Paint gables a different color only when the house is large and it is desired to de-emphasize vertical lines.

Miscellaneous areas such as a trellis, lally columns or plant boxes are good spots for accent colors, Miss West adds.

Notice!

GINNING TIME IS HERE!

We have installed new machinery complete in our modern plant, at LONE STAR, consisting of:

Hardwick-Etter Cleaning Equipment

Mitchell Feeders

Continental Brush 90-Saw Gins

and a Moss Lint Cleaner.

This equipment will give you a better turn-out and a BETTER GRADE.

Gin Where It Will Make You Money!

FARMER'S GIN

Old Polar Mystery Seen in Ice Island At Top of World

WASHINGTON—Lieut. Col. Joseph O. Fletcher, U.S.A.F., writing in the National Geographic magazine, says Fletcher's Ice Island, the drifting Air Force base at the top of the world, may have been Admiral Peary's mythical Crocker Land, never sighted again after the man who first reached the North Pole "discovered" it in 1906.

Fletcher's Island and others like it could have been responsible for Keenan Land, President's Land and other nonexistent places set down on maps of the Arctic by early explorers.

"No discredit reflects upon the brave and experienced Arctic explorers of another day," Colonel Fletcher says.

"Men of the Air Force can testify that ice islands closely resemble land, particularly when the viewer is walking around on one on a summer day."

Japan Faces Big Population Problem

TOKYO—Japan faces one of the greatest population problems of any country in the world today.

The average population density, particularly in the lowland regions, is high. The density, to the square mile of arable land is the highest in the world—3,000, compared with 2,440 in Britain and 240 in the United States.

The problem is bound to become more acute through the years as the population is increasing constantly and rapidly.

The question of food becomes of the greatest importance from the standpoint of the nation as well as that of the individual.

Since the food value derived from a given amount of grain is several times greater than that of milk or meat produced by feeding the same amount of grain to animals, Japanese farmers do not raise livestock on a large scale. The nation depends on fish to meet the requirements of protein. The per capita consumption of fish is sixty pounds a year.

Fortunately the shallow Japan Sea and the lace-like coastline, dotted with hundreds of islands and harbors, provide exceptionally good fishing grounds.

Oklahoma Cop Spots Speeders From Air

OKLAHOMA CITY—If you are speeding in Oklahoma you need to look out for more than just patrol cars. Lt. Art Hamilton, a highway patrolman, catches speeders the easy way—from an airplane.

Hamilton is the official pilot of the Oklahoma patrol's light traffic plane, which first went into service in 1949 as an aid to prevent traffic jams.

Before long, however, he was radioing information on traffic violations—such as passing on hills and curves—to ground units. Offending motorists were flabbergasted, to put it mildly.

To catch speeding automobiles he clocks them over a measured course with a stopwatch and converts the reading into miles per hour. For mileage, he uses the one-mile section-line roads that crisscross Oklahoma like a waffle.

Palomino Breeders Have Stiff Standards

WASHINGTON—No bluebook of high society ever set stiffer standards of entry than those of the register of palomino horses.

A true palomino, today's rules specify "the body color must not be more than three shades lighter or darker than a newly minted gold coin. The mane and tail must be white, silver, or ivory, with not more than 15 per cent dark hairs in either."

White stockings and a forehead blaze of white can set off the proud golden coat. But woe betide the errant palomino with a hint of zebra stripes on its legs or a dark stripe down its back. These markings disqualify for registration.

Body Fat Necessary

CHICAGO—An article in "Today's Health," American Medical Association publication, states that not having enough body fat is just as dangerous as having too much. Fatty tissue in proper amounts is essential to the human body. About 10 to 15 per cent of the total body weight is considered a normal amount of fatty tissue.

Mr. and Mrs. Clyde Wright attended to business in Quitaque and Turkey on Friday afternoon.

Mesdames Clyde Wright and A. P. Dickerson were in Tulia Saturday afternoon.

Mr. and Mrs. Fred Logan attended the foot ball game in Lockney on Friday night.

Mrs. Edwin Crass visited Mr. and Mrs. C. A. Simmons, in Plain view, on Saturday.

Mr. and Mrs. Verne Bearden, of Lubbock, and their son, Clifton Bearden, a marine, stationed at San Diego, California, were overnight guests of Mr. and Mrs. F. C. Gatewood last Friday. They are former Silverton residents and attended the Silverton Vs. Lakeview football game at Lakeview Friday evening.

Mesdames W. A. Rowell, A. D. Arnold and Frank Mercer made a business trip to Floydada Monday afternoon.

Plenty of Storage Space for Your Grain Sorghum

We have plenty of storage for your grain sorghums. Quick delivery on warehouse receipts.

Harvest - Queen Grain Company

Big LITTERS AREN'T JUST "LUCK"

Your brood sow is a pig factory. And like any factory she must have the right kind and quality of materials to do her job right. If she's not fed right during the gestation period, small litters may result. To keep up her own body she often resorbs the tiny embryos—so you lose pigs you never see!

Condition your sows for big litters of thrifty pigs with Purina Sow and Pig Chow. The Purina Program is proving its value on farms throughout the country every day—it was built by 32,000 hogs at the Purina Research Farm. It must be right.

Harvest - Queen Grain Company WEST OF THE RAILROAD TRACK, SILVERTON, TEXAS

Uncle Sam made the Bonds you own an even better bargain!

Now Your Maturing Series E Bonds Can Earn Interest 10 Years More at 3%!

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually when held to maturity.

The Bond you got for \$18.75 can now pay you \$33.67 a \$37.50 Bond will be worth \$67.34 . . . and so on.

Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as \$1.25 a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45!

So join the Payroll Savings Plan where you work today. Or start the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased through any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

Have you ever thought how much Oil Progress means in your daily life? It means better gasolines and lubricants for your car, improved heating fuels for your home, more power for farm and ranch, quick, safe transportation on land, sea and air—and it means a constant flow of new oil products . . . all designed to bring you better living.

This has come about because the thousands of companies that make up America's oil industry are constantly competing for your business by trying to reach you first with the newest, most improved oil products and the finest services possible.
