Nance To Build New Grocery Store

Hugh Nance, owner and operator of Nance's Food Store, has purchased the lots west of the new Silvertown Post Office, and will probably begin construction of a new building this week. The building will be 50 x 100 ft. 20,000 square feet of floor space. It will be of brick and tile construction. Gatewood Lusk is the contractor. The store part will be 70 x 50 ft., and he will have 30 x 50 ft. for badly needed storage space.

This is just one of the forward movements we feel are in store for Silvertown. Let the merchants know that their investments in newer and better buildings and merchandise are justified by giving them your support and business. How else can we have a town in which we will be pleased and proud, unless we give it our support. Though sometimes we feel we are justified in our attitudes toward some businesses, we do think that if you can see they are working and trying hard to please the customers, and try to help the town go forward, then we should back them up. When a new fellow comes into town, eager, anxious, and willing to put up his time and money here, then we should welcome him with open arms too. Let's keep Silvertown marching.

COMBINE YOUR NEW CHEVROLET PURCHASE WITH YOUR VACATION PLANS!

Order a new Chevrolet through us, then pick it up at the plant in Flint, Michigan, see Chevrolets built, if you like, and drive your home. Chances are, you'll save a substantial share of your vacation travel costs!

Twin Pipes that play sweet music!

Chevrolet's "Super Turbo-Fire V8" with 180 hp.

You can spot this one by the twin tailpipes. No matter what you drive, you're going to see twin-exhaust Chevrolets pulling away—in traffic, on the toughest hills, on the long straightaways.

... Unless you have a "Super Turbo-Fire V8" of your own. And then you'll know what it's like to pilot the car that sets the pace for everything else—and doesn't pause to read the price tags!

What makes the Super seat? Chevrolet's superb valve-in-head V8, with the shortest stroke in the in-

dustry, the most power per pound, and the only 12-volt electrical system in its field—all this plus a four-barrel carburetor and free-breathing twin exhausts.†

Want to sample this silk-lined cyclone? Just give us a call, any day this week, and we'll be proud to show you just how hot a V8 can be.

†Optional at extra cost.
‡Station wagon models have single exhaust pipes.
