# BRISCOE COUNTY NEWS

Everybody's  
 Talking About...

J. E. "DOC" MINYARD

VOLUME 48, NUMBER 6

PUBLISHED EVERY THURSDAY AT SILVERTON, BRISCOE COUNTY, TEXAS

THURSDAY, FEBRUARY 9, 1956

## PLAINS AREA SNOW-COVERED

Future Farmers of America Father and Son Banquet Will be February 14, at 7:30 p. m.

## County Fat Stock Show To Be March 9, 1956

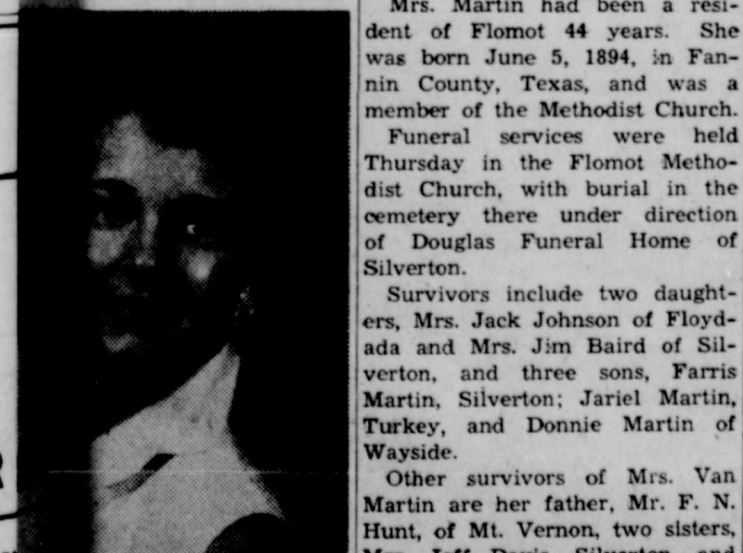

Falls up to 19 Inches Reported in Briscoe County During Five-Day Snow Storm--Ray C. Bomar Registered 1.43" Moisture

ROYCE BODIFORD, State President of the Texas Future Farmers of America will be the main speaker at the Silverton Father and Son banquet on February 14.

Royce, who lives on his farm near Millsap, Texas, has an outstanding record in F. F. A. activities climaxed by being 1955-56 State President.

The annual Father and Son banquet will be held February 14 at 7:30 p. m. when the following program will be rendered: Invocation; Bill Stephens; invocation; banquet to be served; opening ceremony; welcome; W. D. Rowell; presentation of sweetheart; presentation of years summary; Jim Whitfill; introduction of guests; Royce Bodiford; address; Royce Bodiford; closing ceremony; officers.

Mrs. Van Martin, Flomot Resident, Taken by Death

Mrs. Eva Beatrice Hunt Martin, 61, wife of Van Martin, died at 10:30 a. m. February 1, at the home of a daughter, Mrs. Jack Johnson, in Floydada.

Mrs. Martin had been a resident of Flomot 44 years. She was born June 5, 1894, in Fannin County, Texas, and was a member of the Methodist Church. Funeral services were held Thursday in the Flomot Methodist Church, with burial in the cemetery there under direction of Douglas Funeral Home of Silverton.

### Nominations for City Officials and School Trustees to be Held on February 17, 1956

#### TOTAL POLL TAX FOR BRISCOE COUNTY 1,157

According to a report released by Raymond Grewe, tax collector, the total voting strength of the county is 1,157, plus over, for year ending February 1, 1956. Of this number 24 were exemptions. The last election year which was 1953, the total poll tax was 1,243.

### Grandma Vaughan Celebrated 104 Birthday Jan. 29, 1956

Although January 30th was "Grandma" Vaughan's birthday, the big occasion honoring her 104th anniversary took place on Sunday, January 29, in the home of her daughter, Mrs. W. A. Stephens. A bountiful birthday dinner was served to a large crowd of relatives. Mrs. Vaughan's only surviving son, R. C. Vaughan, of Oak View, California, was present to help celebrate the occasion.

On this special day 118 guests registered.

Mrs. Vaughan's pre-celebration preparation is a tip-off that she looks forward to the annual occasion. For instance, there was the usual trip to the beauty salon late last week to get her hair fixed. Mrs. Irene Smith, local beautician, who has had the honor of fixing Grandma's hair for three years, gave the grand lady the treatment again this year.

Mrs. Vaughan was born Eleanor Jane Spencer, on January 30, 1852, on a Wood County farm. Since that time she has taken things as they come and—as she said last year—she "expects to keep right on doing it." Trying times in her early childhood still stand out vividly in her memory. She can remember, she is quick to tell, those early Civil War days when her father was a member of the Texas Scouts engaged in patrolling the borders. It was then that she, her mother and five other children were left to tend their farm, often planting and harvesting a crop with no tools other than a garden hoe. Her father had the only horse on his patrolling duties.

She was married to William M. Vaughan on September 8, 1886, in Bosque County, and immediately became a mother to seven children by his previous marriage. Four children were born to her and her husband, two of whom are still living.

The couple moved to Briscoe County in 1915. Mr. Vaughan died in 1928. Mrs. Vaughan has lived with Mrs. Stephens for several years.

Mrs. Veral Vaughan has been a patient in the Tulia hospital since Wednesday of last week; Mr. Vaughan was not able to get back to Tulia to see her until Monday on account of roads being blocked by snow. She was reported to be doing all right by telephone.

A meeting will be held from 9:00 a. m. to 10:00 on Friday, February 17, 1956, in the County Court room for nominations of a mayor and two councilmen for the City of Silverton and three trustees for the Silverton School Board.

Alvin Redin's term is up as mayor for the City of Silverton and Conrad Alexander and Shelle Tomlin's terms are up as councilmen for the City of Silverton.

R. L. Riddell, Arnold Turner and Albert Mallow's terms expire as trustees for the Silverton School Board.

#### ELECTION TO BE HELD

City election will be held on April 7, 1956.

School trustee election will be held on April 7, 1956.

If you are a qualified voter of the City and County and you have someone you think is qualified for one of these vacancies, be there and nominate them for the vacancy you want them to fill.

### F.F.A. Boys Striving To Earn Lone Star Farmer Degree

Six junior boys, Bill Stephens, Jim Whitfill, Sammy Turner, Joe Brannon, Deleath Peugh, and Gerald Garvin are trying very hard to earn the Lone Star Farmer Degree. These boys are the outstanding boys in their class. They are preparing their record books to be audited along with the other boys in the Plainview district. If they pass at district, they will go to area to be audited. If they pass there, they will then go to State where they will again be checked. If they pass State, the boys will then receive their "Lone Star Farmer Degree."

Entries in the county livestock show, March 9, are 8 lambs, 2 gilts, 7 calves, and 7 barrows. These were entered by the local F. F. A. boys. They have not passed the shifting committee yet but all that do will be exhibited. Entries for the show will come from 4-H and F. F. A. boys and girls from both Quitaque and Silverton.

Entered are: Lambs, Bill Baird, 2; Donald Perkins, 2; Richard Gregg, 2; Don Cornett, 2; Gilts: Dwayne Henderson, 1; Troy Chitty, 1.

Calves: Robert Hill, 2; Donnie Stephens, 1; Don Deavenport, 1; Don Garnett, 2; Bill Stephens, 1; Barrows: Robert Hill, 1; John Mercer, 2; Jerry Reynolds, 2; Don Cornett, 2.

Mrs. Mart Norris and her daughter and husband, Mr. and Mrs. Jack Davis, attended the funeral of Mrs. Vern LaPlant, in Wichita, Kansas, on January 27th. Mr. LaPlant and Mrs. Norris are brother and sister.

The board of directors of the Briscoe County Jr. Fat Stock Show met recently and set March 9th as the date of the 1956 County Fat Stock Show. W. E. Schott, Jr., was elected temporary chairman in early absence of President True Burson.

Committees were appointed at the meeting. W. E. Schott was elected general superintendent, with Joe Holmes, Glenn Bunch and Robert Ledbetter assistants. Finance committee is Joe Mercer and Ben Whitfill. Robert Hill was put on the committee to secure the public address system.

The classes will remain the same with these exceptions. Any classes that have less than three entries will have the premium money divided in half.

This year's show will have an excellent group of steers that should be a credit to any county. The pig show will be large with some fifty or sixty entries in this division. The lamb show will be good also.

Judge for the show will be Dr. M. R. "Nig" Callham, head of the agriculture department of West Texas State College.

The board of directors will meet March 1 to make last minute plans for the show. Members of the board present other than those named above were Seymour Brannon, D. T. Northcutt, Bill Helms, Glenn Morrison.

### Farmers Union Committee Members Met Tuesday Night

Committee members of the membership drive met Tuesday night at the courthouse to report the number of members in the Briscoe County Farmers Union. The goal had not been reached but with the help of every member the Farmers Union will have reached their quota by February 24 when the second bus leaves Wichita Falls for Washington.

The next regular meeting of the Farmers Union will be at the courthouse February 20, at 7:30, and final plans will be made for the local delegate Gilbert Elms to be on his way to Washington to meet with the legislative members there.

H. A. Harrison, Jr., of Clarendon, a F.U. insurance man will meet with the Briscoe County Farmers Union at their regular meetings until such time the farmers here can secure a local man to write up their insurance.

Mrs. Cecil Vaughan is spending an indefinite visit with her daughter and family. Mr. and Mrs. Loyd Mauldin, in Houston, Missouri. Rev. Vaughan left the last of the week expecting to spend the week end in Houston with his wife and daughter and family.

Mr. and Mrs. Clyde Norvelle, Tommy and Sandy, of Tulia, visited Mr. and Mrs. Charles Cowart and children Monday evening.

Mr. and Mrs. Woodson Coffee, Jr., and Mr. and Mrs. Milton Dudley were in Amarillo on Monday and in Lubbock on Tuesday of last week.

#### CREW DRAGS SNOW FROM STREETS TUESDAY NIGHT

A crew of workmen consisting of men from the city, Mayor Alvin Redin, working with the city force, and Milton Dudley, commissioner, driving the grader, and Sheriff Raymond Grewe, directing the traffic, did a good job dragging the snow back from the curb late Tuesday night after all business places had closed for the day. By moving the snow it gave an outlet for the water that had backed up from melting snow in the afternoon.

### County Cotton Growing Contest Records Are Completed

Five Briscoe County 4-H Club Boys completed the County Cotton Growing Contest this week by completing their records and writing their story on their cotton demonstration. All the boys showed a remarkable average. Bobby Crass was the winner with a total of 4014 pounds of lint cotton on five acres. This is a whopping total of 803 pounds of lint cotton per acre.

Bobby's success was in several things. First he planted cotton where alfalfa had been, next he applied twenty two tons of cotton burs to his five acre plot. He kept up a complete insect control program by poisoning six times. His total receipts were \$1,247.65 from this five acres. His net return was \$681.41.

Bobby is the son of Mr. and Mrs. Edwin Crass.

Eldon O'Neal was second in the contest. His total production was 3,700 pounds of lint cotton. This was 740 pounds of lint cotton per acre. He is the son of Mr. and Mrs. Joe O'Neal.

Third place winner was Jerry McWilliams, son of Mr. and Mrs. Dee McWilliams.

Fourth place winner was James Roy Brown, son of Mr. and Mrs. Arnold Brown.

All the above winner will be eligible to attend the District Awards Banquet at the Lubbock Co-Op Oil Mill in Lubbock Saturday, February the 11th.

All the boys averaged at least one-half bale above the county average. Both the first and second place winners sprayed their insects six times.

County Agent Ledbetter reported that the boys' records were available and all of them would indicate that insect control will pay more than any one thing in producing yields over a bals per acre.

### February 15 is Deadline on Income Report

Farmers who passed up the January 15 deadline for filing estimates of 1955 income need to file their final 1955 income tax return by February 15, 1956 to avoid penalty, says Mr. King of the Plainview Internal Revenue Office.

For income tax purposes, a farmer is one who derives two-thirds or more of his gross income from farming.

Try a News Want Ad FIRST.

During the past week Briscoe County and the entire panhandle and south plains received snow, sleet and freezing rain throughout the area. At Silverton 19 inches of snow was reported by Ray C. Bomar, who has the official rain gauge for Silverton. Of this amount of snow, 1.43 inches of moisture was received.

Schools closed Thursday and did not open again until Tuesday morning, when most of the students could get in to school. Highways were open most of the time through Silverton and farm to market roads were also open to traffic during most of the storm period.

People as a whole have been very careful during this blizzard, and no casualties have been reported during the storm for Briscoe County.

Old timers here say this is the worst snow-blizzard in 50 years. Snow-drifts lay at depths of six to ten feet. Many homes were virtually closed in from the high piles of the white stuff. At our back door it stood about ten feet deep.

Cattle feeding and watering has been made a problem on many farms and ranches during the past few days. But the bright side of it all is the fact that farmers are generally agreed the snow will afford moisture for another crop, and especially the growing wheat.

### S. F. Connor of Floydade Buried in Silverton Cemetery Friday

S. F. (Buck) Connor, 72, a long time resident of Floydada and Floyd County, died at 10:25 a. m. last Wednesday at his home there.

Funeral services were held at 2 p. m. Friday in the Floydada Methodist Church with Rev. Tilden B. Armstrong and Rev. Phil Gates officiating. Burial was made in the Silverton Cemetery under the direction of the Harmon Funeral Home.

Connor was born in Sulphur Springs, Texas and had lived in Briscoe County before moving to Floyd County in 1923.

He was married to Miss Nellie May Potter on March 18, 1908, in Silverton. She is among the survivors.

Other surviving relatives are two daughters, Mrs. Temple E. Herriage of Borger, and Mrs. O. R. Haught of Lubbock; and three grandchildren.

Mrs. F. M. Hill, of Sulphur, Oklahoma, who has been critically ill for some time, underwent major surgery there on Monday of last week. Her daughter, Mrs. Billy Joe Womack, of Brownsville, is there with her parents. All are former Silverton residents. Mrs. Billy Joe Womack told her mother in law, Mrs. Bruce Womack, in a telephone conversation on Sunday that Mrs. Hill was doing as well as could be expected.

James Mitchell and Jimmy and Mr. Rogers, of Childress, were in Silverton Saturday morning. They were luncheon guests of Mr. H. A. Cagle.

## Senior 4-H Club Report on Activities Of Their Work

On Wednesday the 4-H Clubs of Silvertown held their meetings. Jerry Dee McWilliams made a report on the tractor school at the agriculture building in Lubbock.

We studied animal conservation. We learned how the heifer lays its eggs on the heels of cattle and grubs are hatched and travel to the cows back ruining meat on the way to the back and ruining the cow hide coming out of the cows back.

Robert also explained that the cattle's oil keeps lice off of the cattle in the summer but in the winter lice are bad in most cattle.

Boards are the worst enemy cattle have when truckers and cattlemen hit the cattle with the board it bruises the cattle. A hot shot or canvas slapper is the best thing to use. The same thing should be used for all other animals also.

Reporter.

## Mrs. Jeff Simpson Receives Painful Injuries in Fall

On Wednesday afternoon of last week Mrs. Jeff Simpson, age, 82, fell just outside her door when she went out to feed her chickens. She did not realize she had fallen until she was getting up. While in the chicken yard she discovered fresh blood on her clothing. She had struck her head in falling and had cut a small gash in her forehead. She dressed that herself but later discovered that she also had another small cut up in the edge of her hair.

On Thursday morning Mrs. Simpson felt nauseated while eating her breakfast and fell to the floor while going into the living room to rest. She did not lose consciousness and was able to get up and wait on herself. Dr. Mayfield went to the house and dressed her head, checked her in various ways, gave her tetanus and penicillin shots and she is doing fine; says that except for bruises and a little soreness she is o. k. (Neighbor E. W. Yancy took over caring for the chickens until the weather clears up.)

Mr. and Mrs. Jack Ulrey and baby, Mr. and Mrs. Don Brown and Trent, spent from Friday through Sunday in Copeland, Kansas, with Mrs. Ulrey's parents. Mrs. Ulrey and baby remained for a longer visit.

### B-1 type vaccine.

Methods of vaccination such as individual application to the eye or nose, and the use of dust or spray may be chosen. In using a vaccine, however, follow the recommendation of the manufacturer in detail, Wormel's cautions.

Chickens even after having been vaccinated one or more times against newcastle may contract a respiratory form of the disease which usually persists only four to five days. This however, may not seriously affect egg production.

Leaflet 241, "A Suggested Vaccination Program for Chickens", outlines a detailed procedure for the complete vaccination of egg replacement stock and broiler chicks. The leaflet can be obtained from the local county agent or from the Agricultural Information Office, College Station, Texas.

Mrs. B. I. Lee, of Goldsmith, is visiting her sister, Mrs. W. A. Rowell. Mrs. Rowell and daughter, Mrs. Virgil Baldwin met four to five days. This however, may not seriously affect egg production.

The Briscoe County News

## A Suggested Vaccination Program For Chickens

Incomplete vaccination programs have reportedly resulted in severe production drops in some laying flocks, says Ben Wormel, extension poultry husbandman.

Egg production has reportedly fallen off at the rate of 10 to 25 per cent per day in some flocks. Had vaccination programs for newcastle, infectious bronchitis, and fowl pox been complete, the severity of this drop could have been prevented.

Newcastle, infectious bronchitis, and fowl pox are usually more of a problem on a farm where birds of different ages are maintained, says Wormel. There are methods which can

be followed to prevent disease, and assure complete vaccination. Vaccination for newcastle should be at four days and four weeks of age. The drinking water method using B-1 type vaccine is a good one.

Vaccination for bronchitis should take place at six weeks of age using the same method. If an outbreak occurs naturally before that age, says Wormel, the result is the same as exposure to the vaccine and further vaccination is not needed.

At eight weeks of age, birds should be vaccinated for four pox using the wing-stab method. After 10 days, one-fourth of the flock should be checked for a "take." If the take is not close to 100 per cent, then it is advisable to re-vaccinate the entire flock.

As the birds are moved to the laying house, re-vaccination for newcastle should occur using the

THE 800 TWO-DOOR CATALINA

The car says 800 and the price won't stop you!

Easy way to break the small car habit!

It's the hardtop buy of the year with the most power and size per dollar of any car in this style.

If you're accustomed to buying in the low-priced-three range, chances are you're paying for Pontiac's size, performance and distinction—but you're not getting it! As a matter of fact, you're not even coming close!

Where else at a price as low can you enjoy boasting the most modern, most advanced power plant

in the industry—the mighty Strato-Streak V-8?

Where else at a price so low can you get the luxury of Pontiac's optional Strato-Flight Hydra-Matic—America's newest, smoothest automatic transmission?

Where else at a price so low can you find a big 122-inch wheelbase, such luxurious interiors and all the other fine-car features that put you so quickly on even terms with buyers of far costlier cars? Come in and see how easily this heart-lifting Strato-Streak beauty can be yours. Once you do, you'll be out of the small-car class forever!

You can actually buy a big, glamorous Pontiac 800 for less than you would pay for 44 models of the low-priced three!

### HOME OWNERS QUESTION BOX

**Q**—How can I thaw out a frozen pipe?

**A**—First be sure the freezing has not ruptured the pipe. If it has, the water should be shut off to prevent flooding. Use an electric iron. Start at the faucet end of the frozen pipe. As the thawing progresses, move the iron away from the faucet.

**Q**—I'm planning to insulate an attic room. Does it matter much whether nails or staples are used to fasten the insulation?

**A**—Both fastenings are satisfactory. Generally, stapling is faster and easier. Many insulation dealers have stapling guns for rent. If nails are to be used, select a nail with a fairly large head. This will hold the flange of the mineral wool batt or blanket more securely. Whether nails or staples are used, fasten the insulation to the studs every 6 inches. The insures a tight fit. Be sure they are driven flush to the wood.

**Q**—I'm planning to do my own decorating. I know I'll need advice, but are there ways to get help without actually hiring someone?

**A**—Many department stores maintain a consulting service on home decorating for prospective customers. Some magazines will answer specific decorating questions. A book on the general subject, however, may be the best bet. Two authoritative books are "Decoratively Speaking," by Gladys Miller and "The Complete Book of Home Decorating," by James E. Mayabb.

**Q**—What's the outward difference between a hardwood tree and a softwood tree?

**A**—A softwood tree has needles. A hardwood tree has broad leaves.

**Q**—Can I remove old wallpaper without expensive equipment?

**A**—Yes. One of the best ways is to add a little vinegar or paste solvent to warm water. Apply this preparation with a scrubbing brush. When the paper loosens scrape it off with a putty knife.

### You Can Shiver In a Warm Room If Walls Are Cold

Have you ever been cold in a warm room? Well, it wasn't your imagination.

Heating experts say cold walls are one of the biggest barriers to winter comfort, even when the room temperature is up around 70°.

The walls cause the body to lose heat so quickly that a person begins to shiver.

Insulation is a remedy. A wall adequately insulated with mineral wool will be up to 10 degrees warmer than without insulation.

There are two main ways insulation keeps walls from robbing the body of its heat. The first is the prevention of drafts. When a wall is cold, it refrigerates the air near it. Cold air is heavier than warm air and so it sinks, sending drafts of chilly air along the floor. The cold walls keep sending new supplies of cold air, which keep the drafts going.

With insulated walls, no discernible amount of cold air comes off the walls and objectionable drafts disappear.

Warm walls also reduce body heat loss through radiation. Did you ever sit before a roaring fire and feel warm even though the air in the room was cold? What happened was that the warmth of the fire was radiated to your body in the form of invisible heat waves. You were warmed even though the air around you was not.

When the walls are cold, the warmth of your body escapes to the walls by the same invisible heat waves. The colder the walls, the faster the heat loss. When the walls are warm, the radiation, for all practical purposes, is stopped.

Mrs. Virginia Dennis spent from Sunday until Wednesday of last week in Peacock.

Richard Tunnell, a senior student at Texas University, Austin, visited his parents from Wednesday through Saturday. Mr. Tunnell met Richard in Tulla; he went to Memphis on Saturday and spent the night with his sister and family, Mr. and Mrs. W. A. Smith. Richard is a student of pharmacy and is working, therefore, he will not graduate for another year; he has not been home since last August and thought the snow a cold reception this time.

Mrs. Gordon Montague spent Monday through Wednesday in the Methodist Hospital in Lubbock. Mrs. M. G. Moreland is teaching in Mrs. Montague's place in the local school while she is recuperating from minor surgery.

Messrs. Charlie B. Parker and Archie Ray Martin and Mesdames Ben Bingham, Silverton, and Gerald Smith, of Quitaque, attended the funeral of Mrs. H. B. Parker, 71, at Pyote, on January 21. Mrs. Parker was the paternal grandmother of Mr. Parker and the paternal aunt of the others mentioned.

**LIGHT RESCUE TRUCK** (inset) especially suited to rural rescue work is now being tested by the Federal Civil Defense Administration. It packs a collection of multiple-purpose rescue tools including ropes, block and tackle, floodlights, a small generator, a hand pump (all shown above), an inhalator, and radiation detection instruments. The truck, costing a third of ECDA's \$10,000 rescue truck, can cross open country in four-wheel drive in any weather. (FCDA Photo)

## LOST, STRAYED OR STOLEN?

No matter whether money is Lost, Strayed or Stolen, once it is out of the hands of the owner no longer can it be used by that person again. So it is with money spent out of town, once gone it will never return. Never again can it be part of a payroll here, no longer will it be a part of taxes paid to provide schools, streets and fire protection. We urge you to buy all your needs right here in Silverton so that this money spent will continue to act and work for you right here in our growing and progressive community.

## Get More Fun From Your Television Evening

Note: We pass this item along  
for what you may get out of it.

Millions of people who know  
television best—and most of them  
are the parents of children from  
3 to 15—have made a science of  
TV watching. We've all estab-  
lished regulations—too frequently  
unheeded—to guide our families  
in choosing programs, volume of  
sound and hours of viewing.

So it is that scientists, mothers,  
TV producers, well-meaning un-  
cles and newspaper writers are  
full of advice about television  
watching, programming and even  
producing! Frankly, we get to  
the point, now and then, when  
we yearn to spin the knob and  
enjoy a couple of hours of silent  
darkness. But those red-blooded  
youngsters of ours would rebel.  
So we always end up by sitting  
back and enjoying the show.

We've found, however, that a  
TV evening can be a lot more  
pleasant if you plan for it. A  
few simple suggestions for visual  
video comfort can be worth more  
than their weight in TV program  
guides.

For example—that tired eyes  
feeling you have after a hard  
day in the home or office. Eye  
drops before your favorite pro-  
gram will ease the strain so you  
can sit back and really appre-  
ciate the show.

Another good idea, we've learned,  
is turning on a moderate room  
light to counteract TV glare. And  
don't wear sun glasses! They  
were made for the beach or that  
African safari. Not TV viewing  
in your living room.

It's easy to make the mistake  
of staring too long at that fa-  
vorite program. Your eyes need  
a change of pace—look up now  
and then, focusing on objects  
either nearer or farther than the  
TV screen.

Be sure your set is properly in-  
stalled so the picture is as clear  
and steady as the maintenance  
man can make it. This will pay  
off for you and your family in  
terms of real eye ease.

Another thing to watch is the  
relationship of your screen size  
to the whole room. If you have  
a small screen in a large room,  
you'll subconsciously strain to  
see from your favorite easy chair.  
Or if you've jammed a king-size  
screen into a small room, then  
you'll be overwhelmed and the  
picture won't be as clear as it  
should.

Yes, television is great. But  
after bedtime hours, every parent  
knows that the best screen is a  
blank one with volume reduced  
to a zero.

Then you can say "good night,  
children!" and mean it.

**KRAFT ENVELOPES**, several  
sizes for mailing income reports.  
Briscoe County News.

Nicki, baby son of Mr. and  
Mrs. Alva C. Jasper, was a pa-  
tient in the Plainview Foundation  
and Clinic from Thursday  
through Saturday. He was  
thought to be having another  
spell of virus infection; he was  
quite ill for several days and  
there in the hospital recently.  
The Jaspers were unable to come  
home Saturday and were forced  
to remain in Plainview with re-  
latives until the roads home were  
passable.

Mrs. May Washington, of Tulsa,  
Mrs. Billy Watson, Mr. and Mrs.  
James Washington and Mr. and  
Mrs. Arnold Washington, of  
Spring Lake, spent last Wednes-  
day night with Mr. and Mrs.  
Farris Martin and children. Mrs.  
May Washington is the mother of  
Mesdames Martin and Watson  
and of Messrs. James and Arnold  
Washington. They attended the  
funeral of Mrs. Van Martin, in  
Flomot on Thursday.

Mrs. Una Burson, age 80, fell  
while suffering from dizziness, in  
her bathroom last Friday evening  
injure her left arm in the el-  
bow. Dr. Mayfield examined the  
arm Saturday morning and thinks  
the bone is probably broken but  
says a definite diagnosis is impos-  
sible until x-ray's are made.  
Due to weather conditions "Mam-  
my", as she is familiarly known,  
is resting, as quietly as she can,  
be persuaded to do so, at her  
home. Relatives hoped to be  
able to get her to a hospital with-  
in a few days.

## Mrs. Betty Curby Wed to Bud Long On February 4

Mrs. Betty Curby, Silverton,  
and Bud Long, of the JA Ranch,  
Clarendon, were united in mar-  
riage at 5 p. m. Saturday, Feb-  
ruary 4, in Hollis, Oklahoma.  
Rev. Harris performed the double  
ring ceremony in the Methodist  
parsonage. Mr. and Mrs. Wade  
Welch were their only attendants.  
For her wedding Mrs. Long wore  
a navy blue suit with white ac-  
cessories. Mrs. Welch wore a  
teal blue suit with black ac-  
cessories.

The party returned to Silver-  
ton Saturday evening and Mr.  
and Mrs. Long were week end  
guests of his nephew and family,  
Mr. and Mrs. Rex Long. They  
left for the Campbell Creek  
Camp, on the JA Ranch, Cler-  
endon, where they will make  
their home.

## 1925 Study Club Met February 1st In Club Room

The 1925 Study Club met Feb-  
ruary 1, in the club room. Due  
to the inclement weather only  
eight members were present.

Mrs. Elrod gave a very inter-  
esting paper on "The Gravity of  
the problem of alcoholism" for  
Mrs. Bundy, also "The Menace of  
Marijuana", for Mrs. Dowdy who  
was ill.

After the business session de-  
licious coffee, cake and home  
made candy was served by Mrs.  
Coffee and Mrs. Jackson.

The next meeting will be Feb-  
ruary 15, with Mrs. Lemons as  
hostess.

## Beginning Spaces Available in Army Medical Service

The Texas Military District has  
announced that an increased num-  
ber of beginning spaces in the  
Army Medical Service Residency  
Training Program will be avail-  
able on July 1, 1956. Vacancies  
are available in practically every  
specialty except Ob-Gyn, general  
surgery and radiology.

These spaces are available to  
Reserve Medical Corps officers  
not on active duty who have had  
six months or more of past ac-  
tive duty in tactical units as  
Medical Corps officers.

Further information may be  
obtained from Major Clarence L.  
Siefert, Medical Personnel Pro-  
curement Officer, Texas Military  
District, 200 West 8th Street,  
Austin.

### CARD OF THANKS

We want to thank the people  
of Silverton, who were our neigh-  
bors and friends, and the Sil-  
verton Fire Department, for their  
volunteer help in saving our  
home, when it looked like it  
would be destroyed by fire. Your  
efforts were sincerely appreciated.  
Pat and Bertha Pavlicek.

### CARD OF THANKS

We take this means of thanking  
our friends and neighbors for  
the many acts of thoughtfulness  
and kindness during our time of  
sorrow. May each of you be re-  
warded is our prayer.

## Thermostatically Controlled Gas Burner Makes ordinary utensils automatic

- ✓ No scorching
- ✓ No boil-over
- ✓ No burning

The thermostatically  
controlled Gas top  
burner, illustrated  
at right, is now  
available on many  
of the new, 1956,  
automatic Gas ranges.

Leading professional chefs repeatedly point out that carefully controlled  
temperatures are every bit as important in range-top cooking  
as in oven cooking. With a thermostatically controlled gas top  
burner even the inexperienced cook can be a prize-winning homemaker.  
See your gas range dealer the very first thing tomorrow. Buy a modern  
gas range with thermostatically controlled GAS top burner -  
the top burner that makes ordinary top-of-the-range utensils automatic.

## Pioneer Natural Gas Company

FUEL FOR A GROWING EMPIRE

## What were you doing in February, 1946?

**MAYBE** you were just out of the Army or Navy.  
Undoubtedly you were still counting red points and  
probably trying to tease an automobile salesman to  
sell you a new car. If you were like most Americans,  
you were also buying U. S. Series E Savings Bonds.

**And if you were, this message is for you.**  
The Bonds you bought in February, 1946, mature this  
month! That means that every \$37.50 you invested in  
Bonds then is worth \$50 today.

**And here's more good news!**  
Under the present Bond law the maturity period  
of Series E Bonds has been extended a full 10 years.  
There's nothing for you to sign—no visit to the  
bank required for you to take advantage of these  
extra earnings. Just hold on to your Bonds and let  
them go right on earning money for you. With  
the extended interest period, your Bonds can earn  
up to 80% more than you originally paid. For  
example, that Bond that's valued at \$50 today will  
be worth \$67.34 in 1956—giving you a net return  
of \$29.84 over your original \$37.50 investment.

**FEW** of us know exactly what we'll be doing in  
1966. But you can count on this. The principal you  
put into Savings Bonds back in 1946, as well as  
your 1956 Bond investments, will continue to be  
safe—not subject to market fluctuations. And  
interest on your money will still be piling up for you at  
the steady average rate of 3%, compounded semiannually.

So to put your future on a sound financial basis,  
hold on to your maturing Bonds—and invest in  
more where you bank or on the Payroll Savings  
Plan where you work.

For the big things in your life,  
be ready with U. S. Savings Bonds

**The Briscoe County News - - Let us sell you your office supplies and printing.**

## Farmers Are Urged To Keep Complete Record of Activities

Farmers should keep adequate records in order to be able to file complete tax returns, D. L. King, administrative officer, Internal Revenue Office, Plainview, announced today.

"By all means keep a complete record of all your income, and all your expenses from your farming operation," Mr. King continued. "Keep your records up to date by recording daily each sale of a farm product and each expense for feed, fertilizer, and other farm expenses. Personal living expenses, such as your own food, clothing, and the like, are not considered farm expenses. This record of your farm expenses and income will make the job of filing tax returns at the end of each year easy."

"Many more tax returns from farmers will be received this year," Mr. King added. "This is true because the coverage of farm operators by social security will require a tax return from every farmer who nets as much as \$400 from his farming, even if no income tax is payable. Tax return forms for farmers may be secured by writing the district director of Internal Revenue, Dallas, Texas.

"If you are a farm operator, whether you raise peanuts, popcorn, pigs, poultry, or other farm product, you are obligated to pay self-employment tax and thereby earn social security credit, provided, of course, that you net \$400 from your farming in the taxable year," Mr. King said.

## Range Management Popular Program With Ranchmen

A year end summary made by Range Specialists A. H. Walker and G. O. Hoffman of the Texas Agricultural Extension Service shows that despite the continuing drought ranchmen made substantial progress in improving their ranges and facilities during 1955.

The specialists report that general range conditions improved about 10 percent during the year. Cattle and sheep numbers held fairly steady while the number of goats increased about a quarter million head. Due primarily to their use for brush control.

Range management demonstrations, supervised by county agents numbered 4,200 and involved

more than 4,600,000 acres. Also 11,497 operators in 210 counties were given assistance on range management problems. Some 1,200 meetings and 165 special field days held during the year were attended by 43,750 ranchmen.

The specialists estimate that almost \$3 million in additional income to Texas ranchmen resulted from the management changes made by ranch operators as a result of these educational efforts. Ranch operators added 6,684 new watering facilities during the year as an aid toward getting better livestock distribution and more uniform utilization of forage on their ranges. The youth of the state also

enrolled in 4-H range demonstrations in increasing numbers. More than 2,200 individuals and 40 teams were given training in range improvement work. A week long camp for outstanding 4-H range demonstrators was conducted and plans are to make it an annual affair.

The specialists and county agents used the newspapers, farm magazines, radio and television outlets along with exhibits and visual aids to tell their stories. Walker and Hoffman together made 207 counties and trained 762 agents during the year. The seventh range school was conducted during the past summer with the maximum of 20 agents

Mr. and Mrs. Milton F. Clemmer, of Los Angeles, California, announce the birth of their daughter on February 2. She has been named Cynthia Lynne, weight 7 pounds 10 ounces. This is the Clemmer's first child. Grandparents are Mrs. V. Walling, of Alhambra, California, and Mr. and Mrs. Clemmer, of Silverton, Texas.

Mr. and Mrs. Roy Adams, Tucumcari, New Mexico, have been recent visitors here with her parents, Mr. and Mrs. Vaughan, and other relatives.
