4-H'ers Aim for 1956 National Club Congress

FOR the 35th consecutive year the nation's top 4-H youth are setting their sights high to reach their goal and the National 4-H Club Congress in Chicago, Nov. 25-29, where they will be honored and rewarded for outstanding accomplishment.

representing over two million 4-H Club members from 48 states, Alaska, Hawaii, and Puerto will attend the Congress. In addition to an all-expense trip, these state, sectional and national win-ners will receive other rewards climaxing several years of diligent 4-H project work.

While the annual value of products resulting from 4-H members' projects amounts to an estimated \$115,000,000, this gain is probably the least of the benefits arising from 4-H Club experience," said Guy L. Noble, director of the National Committee on Boys and Girls Club Work.

"The greater and more lasting benefits are the personal satis-factions derived from real achievement such as making friends, practicing democratic procedures through organized 4-H Club work, and developing spiritual values from day-to-day living with 4-H ideals," he stated. Immediate rewards for the Con-

gress-bound 4-H'ers will be 212 college scholarships worth \$67,-000; U. S. savings bonds valued at \$11,250; special cash awards totaling \$15,700. Many will be presented with engraved watches and other handsome gifts. All will be entertained at gala breakfasts, luncheons, and dinners. In the overall National 4-H ward Programs a total of nearly

3360,000 is expended annually to recognize boys and girls who have excelled in "improving fam-ily and community living." These award programs are made possible through the com-bined efforts of the National

Commissioners' Court to pay all Mistletoe, Traps Catch Wild Deer

HOPLAND, Calif.-Mistletoe and rat traps are helping University of California researchers study deerof said County, bearing interest at sheep relationships at the range research station in Mendocino

Mistletoe is used to bait traps to catch deer for two studies. Rat traps are part of the trapping mechanism devised to catch the (\$15,000), and the principal of said deer.

pastures with sheep to study grazing competition and parasites common to both groups of animals. Other deer are earmarked-a few are also belled-to trace their movements on the natural range for more information on how far they wander for food and how long

New types of traps are used. One is a small individual trap made of a pipe frame covered with tuna netting. The other is a larger, corral type made of a series of 8x8 board panels.

During July, August, and early September 78 deer were caught. Fifteen of them were retraps. One doe was caught five times, another three times. Two marked bucks have been taken by hunters.

Vardell, of Amarillo, Mrs. Annie Like All Else-Price Of Brides Higher

world is turning young men's fancy Mr. and Mrs. Edwin May spent into financial complications.

In Eastern Nigeria, says the her sister and family, Mr. and National Geographic Society, buying a bride has become so expensive that a government committee proposes price control and rationing. Fifty years ago a tall comely Ibo girl might cost \$50, and an ugly maid only three goats. Now

a \$300 bride is a bargain. In West Pakistan, soaring abductions of 13- to 16-year-old girls are blamed on high parental price tags. Suitors unable to pay resort to kidnapping.

Among many remote tribes, the bride price can be the biggest outlay of a man's life. Through the Bismarck Archipelago it may come to 15 to 200 strings of shell money. In Samoa it includes canoes and pigs.

A Basikuma swain, in the terri-tory southeast of Lake Victoria, pays a first installment of 60 sheep. Then he must work for his bride's father for two years. A Banyoro pays with cattle as fast as he can, but any children born in the meantime belong to the father-in-law until each is paid for separately

Wrong Beam Almost **Brings Air Visitor**

KNOXVILLE-An Air Force pilot's complaint that he almost landed on the apron of a filling station brought city police to the grand opening of a new North Broadway service station.

The pilot complained that he mistook the searchlight's beam for a ceiling light at McGhee Tyson Air Force Base.

Ordered to put out the light, the station owner quickly obliged.
"That's OK," he said. "I had more business than I could take care of

ORDINANCE ON CULVERTS AND CROSSINGS

On the 16th day of September. 1955, at a special meeting held by the City Council of the City of Silverton, Texas, an ordinance was passed as follows:

The Citizens of the City of Silverton, Texas, will have to get a permit from the City Secretary, before they can put any kind of a crossing in a ditch. After they receive the permit, the street commissioner will look at the location that crossing is to be put in, and determine what size culvert or how long crossing should be to keep water from backing up or going across the road.

Mr. and Mrs. R. C. Green and Smithee, Sunday afternoon.

Smitherman and Philip Marc, of South Plains were dinner guests Rev. and Mrs. Travis McMinn of their parents, Mr. and Mrs. J.

> Mr. and Mrs. Dick Bomar spent Sunday and Monday in Alanreed with her son and family, Mr. and with their daughter and family, Mrs. Dean Donnell, who have a Mr. and Mrs. Rex Long.
