School Census Will be During Month of January

During the month of January the school census will be made. Your cooperation in this will be appreciated very much. We want to get on the census roll all children who live in the Silvertown School District at this time. This will include all children who were born after September 1, 1939 and before September 2, 1951. All children who will be six on or before September 1 this year constitute our beginners for next school year and we want them to come to school for registration etc. on Friday, January 25. On this day our present first grade pupils will not attend school and next year first grade will be allowed to spend the day in school.

Your cooperation will be appreciated and we hope to have each of these six year olds here for that days, January 25.

Are We Counting on the Other Fellow to Take Care of Our Future...

when he may not be working at the job

This is a good way to arrange for an unsatisfactory future . . . physical or economic.

For instance . . . some of us depend on our good neighbors to spend THEIR money in the home community to keep it going so we can make a living in it . . . while we do OUR buying somewhere else.

But . . . sort of like when a couple of fellows in a car each thinks the other one is driving . . . the habit of "Letting George Do It" can darken the future if George happens to be letting YOU do it.

And, anyhow, even if we DO have lots of good neighbors trading at home to support US, and

our schools and churches and other community activities . . . THINK how much BETTER all of these would be supported if ALL OF US were buying everything we could at home.

Trading with home merchants is just good practical business sense anyhow . . . because we automatically get more for our money from them than out-of-town stores can give us . . . the EXTRA PREMIUM of community prosperity that only home business establishments can throw in for free with the goods we buy.

**It Pays to Buy
where You Live**

YOU get everything that your money pays for . . . merchandise AND a trade- invigorated community to live in . . . when you buy from your home town merchants . . .
