Rev. Nettleton Goes To Teague First Presbyterian Church

Agriculture's new miracle crop, grain sorghum hybrids, together with many open pollinated varieties, are marked for star roles in the High Plains Station's first annual Field Day on September 18 at Halfway in Hale County.

Rev. N. D. Nettleton has resigned the pastorate of the First Presbyterian Church of Silvertown. His last service, terminating three and one-half years in the local church, will be on Sunday, September 15. Following that date he will be pastor of the First Presbyterian of Teague, Texas.

Mrs. Nettleton, who has been the homemaker teacher in the Silvertown High School, has accepted a similar position in the high school at Groesbeck. She left early this week to be at her new position.

Mrs. A. H. Chappell, Miss Larue Burson and relative, Jack Davis, of Amarillo, recently returned home after having visited in California. Mrs. Chappell visited her daughter, Miss Bonnie Chappell, and Miss Burson visited her sister, Mr. and Mrs. Glenn Allen, at Casta Mesa, California, and Mrs. Chappell's granddaughter, Miss Ina Lou Grabbe at Pasadena, and son, Harley, at Los Angeles.

While visiting her daughter, Mrs. Chappell enjoyed seeing the following picture shows: Lords Last Supper, Crucifixion of Christ, and Ten Commandments.

They visited many interesting places while there, and Mrs. Chappell said she enjoyed the entire trip.

PTA to Honor Faculty Monday Night, September 9

The PTA year will open Monday night, September 9, 1957 at 7:30 in the High School Auditorium with a reception honoring the members of our school faculty.

Arrangements for the reception are under the direction of the Hospitality Committee, Mrs. Jack Strange, chairman, Mrs. Verlin Towe, Mrs. Carl Dean Bomar, Mrs. W. E. Schott, Jr., and Mrs. Charles Whitfill.

Mrs. C. H. Black, PTA president will open a brief business meeting. Faculty members will be introduced and the program for the year presented.

Fathers and mothers, you will want to attend this meeting to welcome our teachers into the community so feel free to bring your children.

PTA Publicity Chairman.

Following is a list of Red Cross officers recommended by County Chairman Gene Grundy and approved by the Board of Directors of the Red Cross:

Fund chairman, George Séaney; assistant, M. L. Robinson, Quitaque. Disaster, H. A. Cagle; assistant, Alton Johnson, Quitaque.

Plans Completed Monday Night For Ex-Students And Ex-Teachers Home-Coming Saturday, September 21

Rattlesnake Killed at Ray C. Bomar Home Monday Evening

Late Monday evening Mr. and Mrs. Ray C. Bomar were cleaning up around their place where they have under construction a home.

Mrs. Bomar discovered a rattlesnake in the front yard near the front door of the new home. It had seven rattles and was approximately a yard long. They did not measure the snake, but said it was good size.

Ware Fogerson received broken bones in an ankle and other serious bruises and lacerations to his body early last week when the tractor which he was operating while moving dirt at the site of his new home which is under construction in East Silvertown went into the wrong gear and plunged forward throwing him from the machine.

Ware is directing construction of the building this week, following a brief period in the hospital for a check-up and treatment, from his armchair placed in a shady nook in the yard.

Miss Patsy Brannon Honored With Shower

The beautiful home of Mrs. J. K. Bean, which has been rebuilt since the recent tornado, was the scene last Saturday afternoon of one of the prettiest social occasions of the season when Miss Patsy Brannon, bride-elect of Mr. Greer Lackey, was honored guest at a miscellaneous shower.

Mrs. Bean received the guests and presented them to Patsy, her mother, Mrs. Walter Brannon, and Mrs. W. E. Lackey, the groom-to-be's mother.

The serving table was laid with a white lace cloth over blue, featuring the bride's chosen colors. The table was centered with two white hearts, frilled with blue lace, on a mirror, with a miniature bride and groom, under a flower covered arch, placed between the hearts, which bore the names, "Pat" and "Greer," printed in blue.

Mesdames Jim Whitfield, Johnny Burson, George Seaney, H. B. Simpson, Freddie Hamilton and Warner Reid and Misses Mike Reid and Joy Strange assisted in the hospitalities.

Patsy was the recipient of many lovely and useful gifts for new home. A large crowd attended and many sent gifts who did not attend.

SCRIPTO PENS \$1.00, at The Carbon Paper at the News Office, Briscoe County News Office.

Chairman Carrol Garrison met with his committees Monday night, September 2, and completed plans for 1957 ex-students and teachers Home Coming to be held Saturday, September 21.

Afternoon program committee, Mrs. Alvin Redin and Mrs. Clifton Stodghill reported several ex-students and teachers had been invited to appear on the program.

The food chairman, Gordon Alexander, reported the barbecue would be held in the City Park at 5 o'clock p. m.

Something new has been added this year. All visiting ex-students and ex-teachers and their families will be given free barbecue tickets when they register. We will announce at a later date where others may buy their tickets for the meal.

The evening program committee reported having been able to secure a band for the square dancing in the Park. They plan to take small donations between now and the 21st of September to pay for the music.

All those who had rather not be contacted by Mrs. Dee McWilliams or Mrs. Troy Burson can leave their donations with Jack Strange.

The publicity committee reported names of exes to be sent special invitations were coming in too slowly and asks everyone to turn those names and addresses in by the end of the week. They also ask that everyone turning in names please include the addresses.

Mrs. Jinnie Fisher Presents Books to Local Library
Mrs. Jinnie Fisher presented the Silvertown Library with the following books last week of which the Library committee is very thankful:
Nine condensed Reader's Digest books; Road to Survival by William Vogt; Alaska Calling by Harriet Rossiter; Point of No Return by John P. Marquardt; The Great Sorrow by Henry M. Robinson; Catalina by Somerset Maugham; Under Texas and Border Skies by Roscoe Logue.
Mrs. G. R. Dowdy, Librarian.
Mrs. Lowell Jarrett, of Lone Star; Mrs. Arlie Barnett, of Amarillo; and Mrs. Charles Kelly and Kerleuse, of Muscogee, Oklahoma; have been recent guests of their parents, Mr. and Mrs. Lee Deavenport. Mrs. Kelly and Kerleuse left for home on Saturday after having visited here for a week.
Mrs. Betty Penn and Karen, of Amarillo, spent the week end here, guests of Mrs. Penn's parents, Mr. and Mrs. True Burson. Mrs. Penn is teaching mathematics in the Amarillo High School.
BOARD OF DIRECTORS OF HOSPITAL CALL MEETING FOR SEPTEMBER 9
The board of directors of the Briscoe County Hospital has called a meeting of all members and interested persons, to be held in the county court room, September 9, 1957 at 8 o'clock p. m.
The purpose of this meeting is to discuss the proposal to sell or give along lease on the hospital. The directors are anxious that everyone keep this date in mind and attend the meeting.
BOARD OF DIRECTORS, Briscoe County Hospital.

List of Red Cross Officers Approved by Board of Directors

Following is a list of Red Cross officers recommended by County Chairman Gene Grundy and approved by the Board of Directors of the Red Cross:

Fund chairman, George Séaney; assistant, M. L. Robinson, Quitaque. Disaster, H. A. Cagle; assistant, Alton Johnson, Quitaque.

Home Nursing, Leota Alexander; assistant, Ina Mae Baird, Quitaque. First Aid, Joe Mercer; assistant, C. E. Anderson, Jr., Quitaque.

Publicity, Mrs. John Garner; assistant, John Pope, Quitaque. Home Service Executive Secretary, Mrs. Lily Wofford.

Communications, Georgia Allard; assistant, Elizabeth Driver, Quitaque. Welfare, Mrs. W. Coffee, Jr.; assistant, Gladys Wise, Quitaque.

STUDY TIME—DO'S AND DON'T'S

The Perfect Picture of Study
IN YOUR first days back to school, before you learn anything else, learn how to study. These words of wisdom are not only approved by educators, but they will be recognized immediately by all students as having the ring of good, common sense.

There are right and wrong ways to study, as Jeannie Beacham, Hollywood starlet, Chicago beauty queen and recent high school graduate, demonstrates in the pictures.

The picture at the desk shows the proper way to study. The room should be well ventilated and there should be as few distractions as possible. The phonograph Jeannie has beside her is played only when she takes a break between study subjects. If the phonograph would be otherwise distracting, it should be removed.

Two Things Wrong Here
Jeannie is violating two common-sense rules for studying. The light is very poor—in fact the book is in a shadow—and she is too comfortably ensconced in an easy chair.

Good study demands concentration and it is up to the student to discipline himself. Get the right amount of sleep, don't overeat, consider study as an adventure in learning. It also helps if the student uses the same desk or table in the same place in his home night after night as it will be easy to get set for studying and it will be easier to keep the mind from wandering.

Remember that good study is related closely to doing away with all distractions, and to making study a pleasant habit.

Deleath Peugh, who has been training for football at W. T. S. C., Canyon, for some time, visited his parents, Mr. and Mrs. Dock Peugh, and family Sunday afternoon.

Mr. and Mrs. Tommy Anderson and son, Tommy, of San Antonio, visited Mrs. T. L. Anderson and Miss Anna Lee Anderson and other relatives here from Saturday until Monday.

Miss Bonnie Watters left for Williams, Arizona, on August 25 where she will again teach the fourth grade in the public school; she taught there last year.

Mr. and Mrs. W. M. Kington and Kay, of Kim, Colorado, and Mrs. Edna Wright, of Pueblo, Colorado, were guests of Mr. and Mrs. P. L. Brown from Friday through Sunday.

Mr. and Mrs. Prentice Richards, of Cache, Oklahoma, and their son and family, Mr. and Mrs. James Richard and sons, of Kilgore, were recent week end guests of Mr. and Mrs. Sid Richards.

Mrs. Lily Wofford and Messrs. Carl Kitchens and Lee Deavenport went down state Tuesday. They went via Grand Prairie to visit Mrs. Alpha Kitchens; Mrs. Wofford remained there and the men went on to Dallas. Mrs. Alpha Kitchens is a sister in law to Mrs. Wofford and Carl Kitchens; Mr. Deavenport is their cousin.

NOTICE!

Will teach private piano lessons at high school building this term. I have had teaching experience. Will be at school Tuesday, September 3, and would like to see all interested students.

MRS. DONALD A. LEATH

Carbon Paper at the News Office

The pretty country home of Mr. and Mrs. Ben Rogers, of Tulia, was the scene of a happy occasion Sunday afternoon and evening when 45 relatives gathered for an old fashioned picnic. Mr. and Mrs. W. J. Hyatt, Sr. and Mr. and Mrs. Wiley Bomar, Jr. and children, Silvertown; Mr. and Mrs. Mart Hyatt, Tulia; and Mr. and Mrs. Cleo Owens, of Orange, California, were among the guests. The Mart Hyatts are parents of Mesdames Rogers and Owens and Mr. W. J. Hyatt, Sr.

The Briscoe County News

Ancient Worms Have Clung to Sea Bottom

WASHINGTON—About 350,000 years ago shallow sea bottoms teemed with "shelled worms."

Called brachiopods, they were perhaps the most abundant animals on the planet. The dry land probably still was almost devoid of life during this Ordovician period, the second major division of geological time since higher animals first appeared on earth.

These "worms"—actually they constitute a very distinct phylum in zoological classification—have persisted to the present although they are now greatly reduced in numbers and species.

The brachiopod has two shells and attaches itself to some object on the sea bottom by a stalk protruding from a large shell. Through the ages the sea bottom mud, with the shell remains of these animals, was compressed into rock, and in geological upheavals this rock has been elevated into mountains. The shells of the brachiopods thus incorporated into this rock are conspicuous fossils today, and are of considerable value to geologists in dating rock sequences.

In many cases the shells that occur in limestone have become coated with or replaced by silica. When these rocks are placed in hydrochloric acid, the lime is eaten away but the silicified shells remain. Years of highly skilled labor would be required to chip out of the rock fossils which are recovered in a few days from the acid bath.

Car Crash Project Seeks Safety Aids

LOS ANGELES — A new automobile crash injury project, which may help save up to 20,000 lives a year, is being initiated at the University of California.

The project, part of the long-term collision research of the Institute of Transportation and Traffic Engineering, is being supported by the Air Research and Development Command, U. S. Air Force.

Twenty-five automobiles will be deliberately crashed in head-on barrier-type collisions at speeds up to 50 miles an hour. Specially designed guide tracks and remote control devices will be used to assure that the test cars have a precision collision with one another or with the fixed barrier.

Purpose of the study is to determine engineering and physiological information from which automobile design and construction revisions to reduce injuries may be developed.

More than 40,000 people are killed each year in automobile accidents. Experts say that half of these deaths could be prevented using safety measures already developed and other features under study.

Elephant Seals Make Record Comeback

LA JOLLA, Calif.—The population of elephant seals on Guadalupe Island, 120 miles off the west coast of Baja California, has reached a record high of almost 6,000 according to Carl L. Hubbs, professor of marine biology at the University of California's Scripps Institution of Oceanography.

Once hunted near extinction, the species is now protected by Mexican law. In 1905 less than 100 were noted on the island. In 1930 Hubbs and George A. Bartholomew, Jr., associate professor of marine zoology, University of California, Los Angeles, found 4,500 there.

Hubbs' tally of 6,000 is a preliminary figure based on a survey of the island made in February. The final total will be reached when all the photographs taken are studied.

Hubbs and his party captured a 1,200-pound male and a 680-pound female for the San Diego Zoo. Adult males can reach a length of over 20 feet, a weight of eight tons.

First Class From Unique University

NEW YORK—A joint educational enterprise sponsored and supported by Christians in Japan and North America graduated its first class recently.

It is the International Christian University near Tokyo, which is underwritten by fourteen major Protestant denominations in the United States and Canada.

Since 1949 the cooperation religious bodies have contributed about \$1,000,000 for the establishment and development of this educational project. Their combined church membership totals more than 25,000,000 people.

Longest Living

WASHINGTON—Of all the countries that lay claim to individuals 100 years old or more, the nation that boasts the highest average longevity is The Netherlands. Average life expectancy for a woman: 72.9 years; for a man, 70.8.

MORRIS REUNION

A Morris family reunion was held in the home of Mr. and Mrs. Gene Morris and Joel from Friday through Monday. Those attending were Mr. and Mrs. B. F. Morris, of Lubbock; Mrs. William Matotan and Steven Ivan, of Albuquerque, New Mexico; Mr. and Mrs. Ronnie Emberg and Ree, of Houston. B. L. Morris, of Wichita, Kansas, was unable to attend but called by phone on Sunday. B. F. Morris is the father of Mesdames Matotan and

Emberg and of Messrs. Gene Morris and B. L. Morris.

Mr. and Mrs. Ray Savage and Rickey, spent several hours here Sunday afternoon and evening with his grandparents, Mr. and Mrs. C. R. Badgett, and her parents, Mr. and Mrs. Olan Chitty, Norman and other relatives. They were moving from Pampa to Odessa.

Miss Marilyn Stewart, of Lubbock, was a Sunday guest of Mrs. Sybil Allard.

Mrs. W. M. Hughes, Sr. and Mrs. Irene Hughes, Jr. visited Mr. and Mrs. Rupert Hughes and family Thursday and Friday. Mrs. W. M. Hughes, Sr. is the mother of the Messrs. Hughes.

Mrs. H. Moreman, of Silvertown, spent Wednesday of last week with her daughter and Mr. and Mrs. Rupert Hughes, Jr. and Kathy.

Winter of Diet Makes Queen Bee Suffer From Rest

WASHINGTON — The difference between a queen bee and an ordinary bee is a matter of diet. The queen bee is fed a special food called "royal jelly" for two and a half days at a critical time of life when the young honey bee is being reared into a long-lived, fertile, but sterile, queen.

The worker bees, also female, do not eat royal jelly, but they do work of rearing the young. Each bee begins life as a common, undeveloped egg, laid by a queen in the bottom of a waxen cell in the honeycomb. The eggs hatch into grublike larvae.

The first all-sweet substance reared by nurse bees. It is fed to the queen for three days on the royal jelly. The commoners of the hive are fed a honey and pollen mixture. But the bee that happens to be hatched in a large, special-prepared queen cell sips on the royal jelly for the rest of her five to six-day larval life. When she is an adult, she is attended to by a circle of nurse bees which feed her the jelly as she goes about the hive laying eggs. She can lay thousands in a single day, with a total weight of more than her own.

In addition to supporting this production, her highness' diet normally enables her to live as long as five years.

Hypnosis May Solve Special Anesthetic Needs

CHICAGO — Hypnosis, not now recommended for general use as an anesthetic, may solve some special anesthetic problems, according to three Dallas researchers who have used it in several unusual cases.

They reported using hypnosis for delivery of a baby when the mother was a polio victim, for a dental procedure in a woman sensitive to chemical anesthetics, and in three other special cases. They reported their cases in the Journal of the American Medical Association.

They said they have been investigating hypnosis for anesthesia for three years, and have found it useful under these special conditions:

- 1) when a chemical anesthesia or depressants may be dangerous because of respiratory or heart disease;
- 2) when a patient is sensitive to regular chemical agents;
- 3) when repeated use of anesthetics weakens a patient who is already physically disturbed;
- 4) among patients whose fear general anesthesia is so great it presents serious risks;
- 5) when the cooperation of the patient may be needed during surgery; and
- 6) when the procedure may be so lengthy that the general anesthesia may be too weakening.

Use of hypnosis presented no difficulty in the delivery of a pregnant woman suffering polio, or in several dental procedures, lasting about two hours each—in a woman who suffered swelling of the face and body, hives, and nausea from general anesthesia.

Wind Storms Challenging U.S. Builders

Anyone who has lived through a hurricane or toured an area that it's a big order when the home-building industry receives a challenge for more wind-resistant construction.

Yet, because of damaging blows to homes by hurricanes and other destructive wind storms across the nation in recent years, the public is demanding homes that will successfully resist the impact when a severe blow strikes.

One group of manufacturers that has met this challenge is the asphalt roofing industry. Thanks to years of scientific research, home-owners can have roofs of asphalt shingles which will resist even winds of hurricane velocity.

Winds Recorded

This is important not only to home-owners in the East Coast's hurricane belt but to the rest of the nation as well. Winds of hurricane force—75 miles per hour and higher—have been recorded in at least 37 states by the U.S. Weather Bureau.

Roofers in all parts of the country use three principal methods of applying asphalt shingles to resist winds:

1. Self-sealing method. Strip shingles with a factory-applied backing of adhesive are applied with roofing nails in the conventional manner. Under the heat of the sun the self-sealing adhesive bonds each shingle tab firmly to the underlying shingle.
2. Interlocking method. Using asphalt shingles with a special locking device—usually tabs which slide into slots—the roofers locks each shingle to adjacent shingles in the course next below. This makes a roof highly resistant to high winds, and a roof which retains good appearance.
3. Hand-application. After three-tab, square butt strip shingles, the most popular of all asphalt shingles, are applied, a spot of quick-setting asphalt cement is placed under each tab which is then pressed firmly against the underlying shingle. The cement makes a firm wind-resistant bond.

Wind-resistant applications of asphalt shingles have undergone rigid tests in wind tunnels and in actual use, and have survived the severest blows from hurricanes and other storms. Often entire roof assemblies which have been blown down have been found with their asphalt shingles still in place.

Farm Problem Is From Solved

Despite twenty billion dollars spent by the federal government in the past two decades for agricultural aid, our farm problems have not been solved and some of the current measures aimed at the solution are self-defeating. A socially undesirable although constructive and useful says a Twentieth Century Fund study, "Can We Solve the Farm Problem?"

The agricultural legislation of the past two decades has been the "antidote" type, though used principally as a means of maintaining a war level of prosperity for farmers, says the author of the Twentieth Century Fund study. "The return to 1930 conditions

Bows Were Better Than Early Musket

WASHINGTON — The American Revolution might have been fought on the side of the colonies—with bows and arrows.

They still were better weapons, in some respects, than the available muskets of the day—as emphasized by Benjamin Franklin in a 1776 letter to Gen. Charles Lee, who then was engaged in fortifying the port of New York.

"These were good weapons, not lightly laid aside: Because a man may shoot as truly with a bow as with a common musket. He can discharge four arrows in the time

Pass Rigid Tests

3. Hand-application. After three-tab, square butt strip shingles, the most popular of all asphalt shingles, are applied, a spot of quick-setting asphalt cement is placed under each tab which is then pressed firmly against the underlying shingle. The cement makes a firm wind-resistant bond.

Wind-resistant applications of asphalt shingles have undergone rigid tests in wind tunnels and in actual use, and have survived the severest blows from hurricanes and other storms. Often entire roof assemblies which have been blown down have been found with their asphalt shingles still in place.

ATTEND KITCHENS FAMILY REUNION AT SEYMOUR

Mrs. John Vaughan, Mrs. Mabel Welch, Silverton; Mr. and Mrs. Homer Ragland, Jr., of Lockney; Mr. and Mrs. Sidney Rodgers and family and Miss Lola Mae Vaughan, of Plainville; Mrs. Elmer Vaughan, of Quitaque; Rev. and Mrs. Cecil Vaughan, of Haskell; and Mr. and Mrs. Herschal Vaughan, of Hollis, Oklahoma; many other relatives and friends attended a Kitchens family reunion at Seymour on Sunday, August 25. Mrs. John Vaughan, who had been visiting at Hollis, Oklahoma, for some time returned home from Seymour.

CARD OF THANKS

Thanks, dear friends, for every card, letter, flowers, gifts and every word of kindness. I'm forever grateful to each of you. God bless you all. Jewell Swinney.

Mrs. Joe McWilliams, of Denver City; Mrs. Noble Lyde, and Mrs. Paul Stanford, of Lubbock, visited friends and relatives here on Tuesday of last week.

Carbon Paper at the News Office.

Pvt. E. 2 Troy Stout, of the 4th Armored Division, has recently spent a leave here with his parents, Mr. and Mrs. Tommy Stout, other relatives and friends. Troy reported for duty in Brooklyn, N. Y. and expects to be sent to Germany soon.

Mrs. Carl Vaughan and Cerlene, of Hollis, Oklahoma, Mr. and Mrs. Bill Long and children, Mrs. Carol D. Welch and baby were six o'clock dinner guests of Mrs. Mabel Welch and Ronald on Tuesday evening of last week.

Mr. and Mrs. F. C. Gatewood, Jr., of Moline, Illinois, have a new baby daughter, born in Lubbock on August 10. Mr. and Mrs. F. C. Gatewood, Sr., Silverton, and Mr. and Mrs. Paul Bryan, Lubbock, are the grandparents.

Dwain Wilmeth, son of Mr. and Mrs. E. D. Wilmeth, and a recent graduate of W. T. S. C., Canyon, is teaching mathematics and science in Junior High School in Amarillo; he began his duties there last week.

OBVIOUS CONCLUSIONS

The city editor was lecturing the cub reporter again. "You use too many words, Wadsworth," he said. "You say here that he was poor but honest. Why not just say he was honest?" "Again, you say that he was without money or friends. You're wasting space. Simply say that he was without money."

Mr. and Mrs. D. T. Northcutt spent Sunday in Canyon; they were dinner guests of her brother and family, Mr. and Mrs. Dick Lowry. They called on his brother and wife, Mr. and Mrs. A. R. Northcutt.

Mr. and Mrs. Oneal Watson and James, of Amarillo, were Sunday guests of their parents, Mr. and Mrs. S. R. Turnerr and Mr. and Mrs. J. S. Watson, other relatives and friends.

Mr. and Mrs. F. C. Gatewood, Sr., Joy and Jackie Baldwin attended a Gatewood family reunion in Lubbock on Sunday. Mrs. F. C. Gatewood, Jr., Wanda Jean and Elizabeth Ann returned home with them to spend this week.

Dictionaries at the News Office. Briscoe County News Office.

earing Aid Must Be Properly Fitted

CHICAGO—Just buying a hearing aid is not enough, hearing specialists report. A deaf person must be sure that it is properly fitted to his ear; he learns how to use it properly.

Insistence in the proper use of a hearing aid can greatly increase its value. For instance, one patient whose nerve deafness improved her communication ability from 58 per cent to 80 per cent with 20 hours of special training.

However, many patients not only do not receive proper instruction in the use of their aids, but they do not even bother to make their aids fit properly. They frequently fail to follow their doctor's advice to go to their hearing aid dealer for correction, and to return for retesting to see whether changes resulted in improvement.

Marble Games Sure Sign of True Spring

WASHINGTON—It hardly seems like spring until small fry knuckle down to a game of ringer.

This, of course, is the traditional game played with marbles. Depending on local jargon, the player takes a highly prized shooter, taw, glassie, or stoney to knock common marbles—commies, mibs, or ducks—from the ring. Knuckles must touch the ground.

Time obscures the origin of marbles. Youngsters in ancient Egypt, Greece, and Rome tawed just as purposefully as today's boys and girls in T shirts and blue jeans. The Latin expression *relinquere nuceis*—in effect, "putting away childish things"—probably refers to a form of marbles that Roman children played with nuts.

In years gone by, the small spheres of many colors have been made of many substances: marble chips (hence the game's name); alabaster (alleys); pretty banded agate (aggies); painted and glazed clay (clayey's); and colored glass.

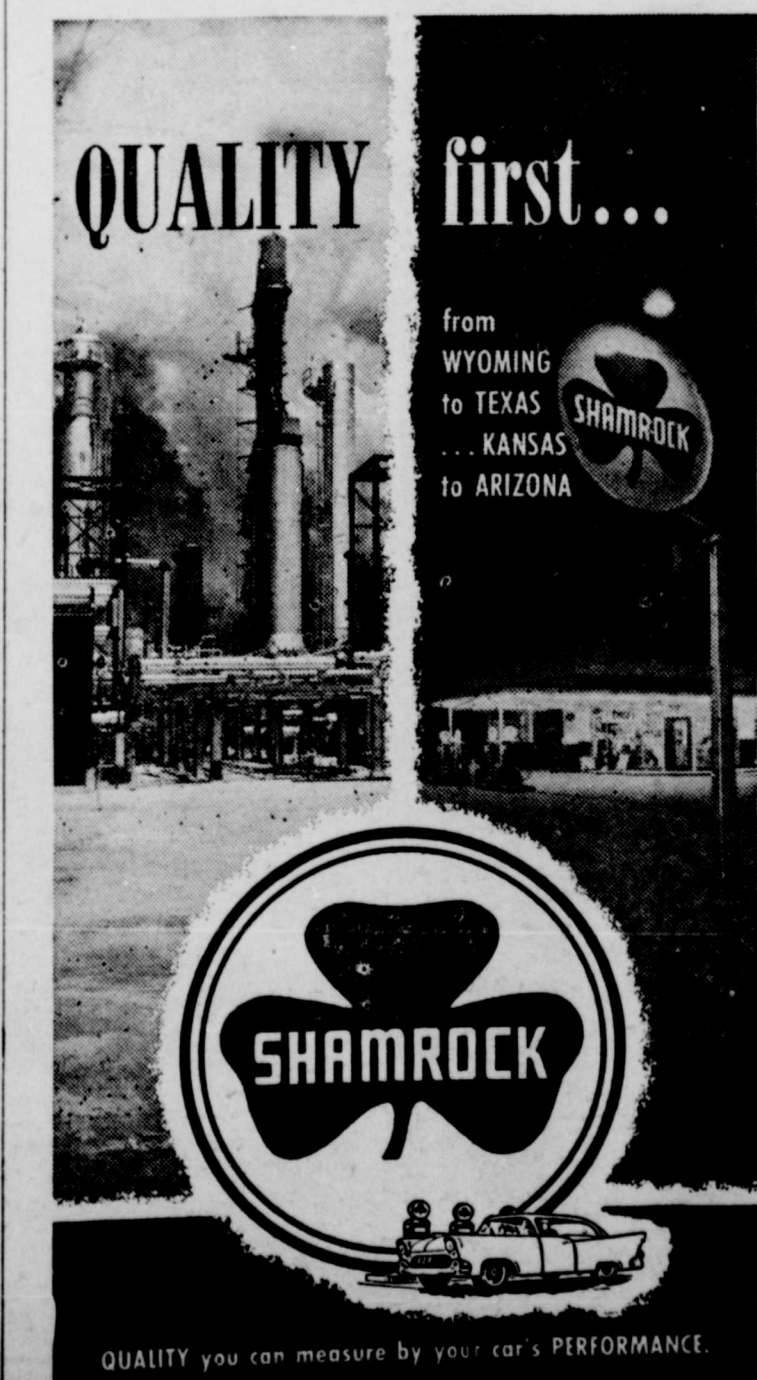

Exhibit Tells Story Of Early Telephones

WASHINGTON—An exhibit telling the story of the telephone has been opened at the Smithsonian Institution.

Planned by the staff of the Institution and Bell Telephone Laboratories, the exhibit was presented by the telephone industries of the United States. Beginning with the "Galvanic music" with which Charles G. Page of Massachusetts started the learned world in 1837 the story is carried through the most recent applications to telephony of electronic devices.

Transmitters

WASHINGTON—There are 342,000 licenses, authorizing about 200,000 fixed and mobile radio transmitters, in the United States. Some 39,000 of these licenses involving 410,000 transmitters, were authorized in one year alone.

for daily mail subscribers in Texas and Oklahoma. (Prices in this offer may be withdrawn without notice.)

We have celebrated our GOLDEN ANNIVERSARY with the kind assistance and interest of the 52,000 families who read the TIMES & RECORD NEWS. It's been a great year. Now we are rolling up our sleeves to do an even better job of serving you in the next HALF CENTURY. We consider you a part of us, and ourselves a part of you — privileged to come into your homes daily with news and wholesome features for every member of the family.

Half-Century of Progress 1907-1957

Boxholders will receive order forms through the mail. You can also subscribe through any circulation agent of the Wichita Falls Times and Record News, or leave your order at this newspaper office when you subscribe to your local weekly newspaper.

Screens in Summer, Glass in Winter

Combination Doors Enclose Porch

Enclosing a porch for year-around living usually is a job for a competent carpenter. But a new idea—doing the entire enclosure with combination doors and screen doors—brings the major home improvement project within the skills of the average home handyman.

Installed side by side around the perimeter of the porch, the combination doors of ponderosa pine serve as post-and-rail walls, complete with "windows" for winter, which can be removed and replaced with screen inserts for summer.

Combination doors installed side by side enclose N. F. Schumaker's porch in Midgewood, N. J. The stock doors of ponderosa pine serve as walls for the porch with screens in place in summer and glass "windows" in winter.

Sister Kenny Fund Appeal Backed by Star Entertainers

Minneapolis, Minn.—Continuing along the nation's radio, screen, stage and television stars are cooperating magnificently in support of the 1935 annual fund appeal of the Sister Elizabeth Kenny Foundation.

Comic Character Favorites Boost Kenny Fund Drive

Minneapolis, Minn.—Comic strip favorites of young and old alike are helping in the nation's daily and weekly newspapers for generous contributions to the 1935 annual fund appeal of the Sister Elizabeth Kenny Foundation.

Radio "talk" sector units have been made by Steve Lutz, Lyle Butler and his Orchestra, Fred Goetz, Bob Rogers, Nat King Cole, Roger Williams, Francis Laine, Bill Carey, Julian La Rosa, Paul Page, Harry Kane and his Orchestra, Tom Merritt, The Joneses of Wabash, Schumann and Carl Dickson, "Columbia Spots," radio appeals in Spanish.

Mr. and Mrs. Kenneth Bahr, of Overland, and Mr. and Mrs. E. C. Green, 5th St. and Cornett, of Tarkenton, visited Mr. and Mrs. Will Stults and other relatives here Sunday afternoon. Mesdames Bahr and Stults, both sisters, celebrated their birthday anniversary in Saturday.

Miss Lila Burison, 86, of Stanton, died there on August 18 after a long illness; she was buried there on the 21st. She is survived by four daughters and three sons, one of whom is Mr. E. C. Burison, Silverton. Both Mr. and Mrs. E. C. Burison were in Stanton before she died and attended the funeral.

LILLIAN ROBE, celebrated singer and actress, is among the celebrities from the entertainment world who will be seen in appeal in television programs across the country in behalf of the 1935 annual fund appeal of the Sister Elizabeth Kenny Foundation.

Mr. and Mrs. Bertie Hughes, Dover, and with her brother and family, visited Mr. and Mrs. Hertha Turner and family, of Vernon, at Lake Kemp. All enjoyed swimming and fishing and camp life.

Remodeling Know-How Shows How

Old Neighborhood Eyesore Becomes 'Pride and Joy'

"Operation Demolition" in Cleveland has shown how modern materials and the "magic" of remodeling can turn an old house into a virtually new home.

The finished product was an up-to-date home, attractive on the outside and comfortable, convenient and modern inside. Total cost of labor and materials was \$7,500.

Mr. and Mrs. E. D. Wilmeth spent most of August vacationing. They spent one week in the Rocky Mountain National Park, Estes, Colorado, and one week at Yellowstone National Park, Wyoming.

Mr. and Mrs. F. C. Gatewood, Jay and Jackie Baldwin returned home on Thursday last week after a visit down state.

Mr. and Mrs. E. D. Wilmeth spent most of August vacationing. They spent one week in the Rocky Mountain National Park, Estes, Colorado, and one week at Yellowstone National Park, Wyoming. During these two weeks they actually camped out and roughed it and enjoyed every minute of it.

Some People Are Slow As A Turtle

That is, they seem slow when they have the line and we want to make a call. Observing Rules of Courtesy—with neighbors on party lines pays off in greater satisfaction and benefit per dollars spent.

Hang Up Promptly When the Line is in Use--

It will help the people talking to finish sooner and thereby make the line available sooner.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

JAMES H. PRIDDY

Crop Rotation
Mark Twain once said "Everybody talks about the weather but no one seems to do anything about it."
Weather is an important subject, because it has a great bearing upon what we can or can't do each day.

The same is true of a conservation crop rotation.
If asked to pick the most important conservation practice it no doubt would be a good crop rotation management of residues.
The primary benefits of a conservation crop rotation is to maintain or increase fertility and to improve soil structure, but in so doing throws a good left hook into wind and water erosion.
The greatest interest has been toward summer legumes in rotation, and rightly so because it is our longest and best growing season of the year.
Cowpeas and mung beans interplanted with grain sorghum has been popular.

Ben Whitfill, and W. E. Autrey have been planting cowpeas and mung beans for several years and both are quick to say they plan to continue because it has held up their yields and improved them.
There are fewer cowpeas planted this year than usual because of the late season but others planting cowpeas include Joe Mercer, Earl Cantwell, Fields and Sissney.
Robert Spillman has planted cowpeas alone on his wheat ground.
The most popular variety of cowpeas at present are New Eras.
W. E. Autrey relates that he prefers mung beans because they are more talent of shade.

"July or February..."

I have garden-fresh fruits and vegetables in my ELECTRIC home freezer, all the time!" says MRS. ROY QUALLS OF GUYMON, OKLA.

Last year Mrs. Qualls froze over 300 pints of garden-fresh vegetables which, she says, "... really means a great savings in my family food budget all year." In addition to buying meats in season, and in quantity, for additional freezer savings, Mrs. Qualls passes on this tip. "I do a considerable amount of baking, especially biscuits, usually 10 to 12 dozen at a time. I chill them, break them apart, wrap in wax paper and freeze them in my freezer. Then, when unexpected guests arrive, I have hot biscuits in a matter of minutes."

ELECTRIC LIVING IS FUN!

MORE PEOPLE DRIVE CHEVROLETS THAN ANY OTHER CAR

New Chevrolet Bel Air Sport Coupe with spunk to spare!

Great to have—and only Chevy's got 'em!

Chevrolet's the only leading low-priced car with any of these advances—the only car at any price with all of them!

BODY BY FISHER. You get more to be proud of in Chevrolet. No other low-priced car is quite so beautifully or substantially built down to the last detail.

SHORTEST STROKE V8. This helps explain Chevrolet's smooth and lively V8 ways. Short-stroke design also means less piston travel, longer engine life. Here's super-efficient power with plenty of vim and vigor!

STANDARD BALL-RACE STEERING. Chevy's Ball-Race steering gear mechanism is virtually friction-free! That means easier parking, surer control, more relaxed driving.

POSITRACTION REAR AXLE.* When one rear wheel slips in mud, snow or ice, the wheel with the traction grips for sure going!

TRIPLE-TURBINE TURBO-GLIDE.* The silkiest automatic drive anywhere! You move from standstill to top cruising speed in one gentle stream of motion. Special "Grade Retarder" position saves braking on hills.

P.S. Chevy's got the big "details," too! See all the exclusives at your Chevrolet dealer's!

*Optional at extra cost

ADVISE ADMEN—A research specialist, a public relations man, and a druggist who makes wide use of color in newspaper ads, are among the outstanding speakers who will address Texas admen in Austin on Sept. 7. Occasion is the 7th Annual Advertising Convention of the Texas Press Association. The three above mentioned speakers, left to right, are Horace Busby, president of the Business Research Corp., of Washington, D. C. and Austin; Frank R. Farsons, regional manager, department of public relations, General Motors, Dallas; and Bob Maddox, manager of Walgreen Drug, Midland. Convention headquarters is the Terrace Hotel. Attendance of 150 admen is expected.

Cyrus K. Holliday Recalls Pioneer Days of Railroading

Famous Antique Train To Be Shown In Dallas At State Fair of Texas

An antique train reminiscent of the pioneering days of railroading will be exhibited by the Santa Fe Railway at the 1957 State Fair of Texas, Oct. 5-20.

The famous old Cyrus K. Holliday locomotive, a replica of the original engine which hauled the first freight and passengers over the Santa Fe line in Kansas in 1869, will be brought to Dallas along with its two ancient wooden coaches.

The diminutive locomotive has the famous "diamond stack" with its brass eagle figurehead gracing the engine head, a big oil-burning headlight, brass fittings and other paraphernalia of the early days of railroading.

Although the locomotive is but a replica of the original, the present Cyrus K. Holliday ranks as a museum piece in its own right. Built in 1880, the old engine was subsequently downgraded to a switch locomotive and finally withdrawn after 60 years of active service.

Restored to its original appearance, the train has been used many times in movies of the old West. The engine still operates under its own power.

With the Cyrus K. Holliday, the State Fair will have on exhibition trains spanning nearly 90 years of rail progress. The Texas & Pacific Railway Company will exhibit its old retired steam locomotive No. 909 and one of its crack modern Texas Eagle streamliners. In addition, the Fair's Monorail line, only such system operating in the U. S., offers a sample of yet another type of rail transportation said to hold great promise for the future.

Mrs. A. F. VanMeter and Jimmie, of Quitaque, and Mr. and Mrs. Cirgil Crow, Gary and Phyllis visited Mr. and Mrs. Tom Peach, of Gentry, Arkansas, from Tuesday through Thursday of last week. Mrs. Peach is the mother of Mes-

same home Thursday night and found it much cooler traveling at night.

Mr. and Mrs. Mickey Cornett and David, of Longview, came Friday night and visited his parents, Mr. and Mrs. Onar Cornett, until Monday.

Mrs. Earl Martin and Mr. and Mrs. Dave Ziegler were in Amarillo on Sunday to visit Earl Martin who has been a patient at the Veteran's Hospital for some time. J. M. Martin and Mrs. Virgie Rivenbark, of Wichita Falls, and Mrs. Norine Henry, of Monroe, Louisiana, were spending the week end with Earl Martin, of Amarillo, a cousin of Earl Martin, visited Earl and the other relatives Sunday afternoon. Mrs. Martin thought that Earl was doing fair.

Mr. and Mrs. Deene Donnell and family, of Canyon, visited his mother, Mrs. Cora Donnell, on Monday.

Mr. and Mrs. W. H. Graham and sons, of Farwell, were week end guests of her parents, Mr. and Mrs. Milton Dudley.

Mrs. Ted Vardell and Glenda, of Amarillo, spent several days here recently with her parents, Mr. and Mrs. Obie Word, and Mr. Vardell's mother, Mrs. Annie Williams.

Darla and Kathy Peugh visited Sharla Francis in Plainview early last week; Sharla returned home with Darla and Kathy and visited until Saturday.

Mrs. Bill Barley, of Pampa, recently went to Columbia, South Carolina, to return home her nieces, Janet and Vicki Molyneaux, who have spent the summer with Mrs. Barley and their grand parents, Mr. and Mrs. Beth Joiner.

Mr. and Mrs. Bill Watters spent the week end in Hereford with her brother and family, Mr. and Mrs. Richard McGowan.

Mrs. Dan Montague, Misses Annie Bryant and Anna Lee Anderson and Messrs. Bill and Dennis Bryant attended the funeral of their cousin, Earnest Waller, of Fort Worth, at Lockney on Thursday afternoon of last week. Mr. Waller had died in Fort Worth on Tuesday. He was the son of Mrs. Emma Waller of Kress. He lived in Silverton when a small boy.

Mrs. R. W. Shults, 74, sister to the late W. H. Newman, and aunt to E. C. Newman died at her home in Boerne on Tuesday of last week from a blood clot and brain hemorrhage. Mrs. W. H. Newman and Mr. and Mrs. E. C. Newman went to Boerne on Wednesday and attended the funeral there on Thursday at 10:30 a. m. in the First Baptist Church. They returned home on Saturday.

Kelly Dean Newman has been visiting his grandmother, Mrs. W. H. Newman, for some time; they spent a recent week end with his parents, Mr. and Mrs. Kelton Newman, and daughters near Hereford. Kelly Dean went home on Sunday to start to school.

R. N. Watson, of Cordell, Oklahoma, visited his daughter and family, Mr. and Mrs. E. D. Wilmeth, here last week.

Mr. and Mrs. P. L. Brown and grandson, Steve Brown, recently spent several days at Red River, Taos and Santa Fe, New Mexico.
