# Public Schools Week

Public Schools Week was founded in 1950 and launched for the single purpose of advancing the general interest of the public schools. In the past eight years, Public Schools Week has fast become a tradition in Texas. It has won the wholehearted support of the school authorities and the cooperation of countless individuals and organizations.

The ninth observance of Public Schools Week will be March 2 through March 6, 1959. The Silvertown faculty has made plans to observe this occasion. They ask that parents, businessmen, and everyone who is interested in the education of our youth, visit school next week.

E. P. Lewis, principal of the San Jacinto School joins in extending an invitation to patrons and friends of his community to visit the school there sometime during Public Schools Week. His school will hold open house during the week of March 2 through March 6. All are welcome.

Joe T. Salem, Sudan, is district lay leader. Dr. Luther Kirk, Plainview, is district superintendent. Assistant lay leaders are Jim Willson, Jr., Floydada; Bedford Caldwell, Bovina; M. T. Glenn, Tulia and Judge Lee Nowlin, Plainview, all of whom were on the program.

Rev. James P. Patterson, pastor of the local Methodist Church, presided. George Seaney, Orville Turner, Joe B. Harris, Hugh Nance and Rupert Hughes attended the banquet.

## W. D. Peugh Broke Wrist in Fall From Farm Tractor

W. D. (Doc) Peugh broke his left wrist in a fall as he was getting off a tractor at his farm on Thursday afternoon of last week. The wrist was treated at the Lockney hospital and placed in a cast and he returned home that evening. He is thought to be doing all right, but since he is left handed finds it an inconvenience as well as painful.

## Funeral Services Today For Mrs. Nancy Ellen Smith

Funeral services for Mrs. Nancy Ellen Smith, 86, will be held at 2:00 p. m., today (Thursday) at the Church of Christ, with Rev. L. L. Thornton, minister, officiating.

Burial will be in Silvertown Cemetery under direction of Douglas Funeral Home.

Mrs. Smith died at 9:15 a. m., Tuesday, February 24, 1959, at Vernon, Texas. She had been in ill health for several years. She was born December 22, 1873, and had lived in Briscoe County near and in Silvertown for the past 41 years, and was a member of the Church of Christ. She and her husband moved to Briscoe County about 1918, and lived on a farm north west of Silvertown. He preceded her in death on December 13, 1943. Also two children, daughter, Bonnie, and son, Holland, are deceased.

Survivors are four sons, Victor C. Smith, Eldorado, Arkansas; Doyle C. Smith, Grandbury, Texas; Vardeman Smith, Pampa, and W. E. Smith, Okland, Oregon.

Pallbearers: Printz Brown, Ora Watson, Sammie Smith, Carl Dean Bomar, Orville Turner and Arnold Turner.

Charlie Holt, who is a contractor working here, spent the weekend in Amarillo with his wife.

## March Is Designated Red Cross Month; Plans Underway

Each March we Americans rededicate ourselves to the task of helping our neighbors in need. This is Red Cross Month—a time when we join and serve with the organization that is on the job when we need it most.

In this community the Red Cross this month is scheduled to recruit everyone in Briscoe County to assist in raising money for the use of the Red Cross fund.

People of Silvertown should be able to remember what the Red Cross means in time of need; such need as we went through when the tornado cut through Silvertown with such hazardous destruction year before last.

Almost all of us know part of the answer; have observed or benefited from or taken part in Red Cross activities. To get the whole answer, we have only to look at the record.

In three special situations last summer the Red Cross was on the job when it meant the most. It was on hand to help U. S. service men when they were rushed to Lebanon in the Near East and Formosa in the western Pacific because of critical international conditions. By discussions with the East German Red Cross, it was able to break the deadlock between our government and that of East Germany, and effect the liberation of the nine American soldiers forced down in their helicopter behind the Iron Curtain.

Every day last year it helped other servicemen and their families solve personal and domestic problems, in more than 100,000 instances each month.

The Red Cross was on hand with shelters and hot food when people in the Carolinas had to flee from the threat of Hurricane Helene last September.

Throughout the year and across the nation it was on the job to provide the blood thousands of us, ill or injured, needed to speed our recovery and in many cases save our lives.

The Red Cross trained over 2,000,000 of us last year in first aid, water safety, and home nursing. Through the Junior Red Cross, it helped guide young people to responsible maturity by teaching them the importance of service to others.

The Red Cross has proved, again and again, that it can be relied upon all the time and everywhere. Now we must insure that this vital organization will continue its work during the coming year, that it is "On the Job When You Need It Most," by joining and contributing in its member and fund campaign.

It may be that terrible tornadoes will never rip through our countryside again. We hope and pray that they will not—but we remember the last disaster—And the Red Cross served well at that time.

## Hi-Plains Station At Halfway Discuss Fertilizers

Fertilizer tests on cotton at the High Plains Station at Halfway in 1958 indicated that with favorable weather for cotton production applications of fertilizer can be very profitable. In these 1958 trials two fertilizer treatments returned over \$100 per acre above fertilizer cost, these were 120-40-0 and 120-80-0. Yields were increased as much as 418 pounds of lint per acre.

No response was obtained to phosphate alone and there were no consistent response to phosphate along with nitrogen. Although there was little evidence of increase in yield or quality from phosphate in 1958, there was more indication of this in 1957. It is believed that phosphate can assist in producing earlier maturity in a season like 1957.

Lint samples were obtained from each fertilizer treatment, the results indicate that the kind or amount of fertilizer applied had no measurable effect on any fiber quality.

Based on the results obtained under the two extremes of weather conditions in 1957 and 1958, the following nitrogen fertilizer program can be suggested: If planted before May 1, 100 to 120 pounds N, May 1 to May 10, 70 to 100 pounds N, May 10 to May 20, 40 to 70 pounds N, May 20 to May 31, 20 to 40 pounds N, after June 1, no N. Forty to 80 pounds of phosphate is suggested regardless of planting time.

Experiments showed that similar yield increases were obtained if all nitrogen was applied before planting, all sidedressed, or in split applications. Because of this, it is suggested that the preplant application consist of not more than 40 pounds of nitrogen along with the required phosphate. If the cotton is planted early additional nitrogen can be sidedressed any time up to the first irrigation.

# Annual Campaign For Silvertown Area Of Salvation Army Opens Friday Morning

H. A. Cagle has been selected chairman for the first annual campaign for the Silvertown area according to Service Unit Chairman, Glen Lindsey. Antelope, San Jacinto, Hay Lake, Rock Creek and Francis will be included in the campaign to raise \$500.00. Cagle states that a kickoff meeting for all workers will be held at the Methodist Church at 9:30 a. m. this Friday. Plans are to complete the major portion of the campaign by Saturday and to finish the campaign before March 1.

At a meeting last Thursday a Service Unit Committee for the Salvation Army was organized to serve the Silvertown area. Serving on this committee are: Glen Lindsey, Chairman; Judge J. W. Lyon, Jr., Vice-Chairman; William Strange, Treasurer; Sheriff Johnny Latham, Welfare Secretary; Kenneth Tate and Gene Morris.

A portion of all funds raised will be administered by the local committee to meet emergency welfare needs. There is no "red tape" to the program all decisions will be made by the committee according to Lindsey. All of the state services of The Salvation Army will now be available to Briscoe County. Some of these services are: summer campaign program for underprivileged boys, home hospital for unwed mothers, men's social service centers, disaster service and also the close contact with experienced Salvation Army personnel. This will be the only time during the year that Briscoe County citizens will be asked to support the work of The Salvation Army as there will be no more "War Cry" sales or tambourine solicitations in Briscoe County.

## John Wimberly to Manage Busch & Sons Abilene Store

John Wimberly, 31, assistant manager at Busch & Sons Jewelers, 126 Pine Street, Abilene, has been promoted to manager effective immediately, Frank Fite, vice president of the firm in Texas, has announced.

Fite, former manager of the Abilene store, was elevated two years ago to vice president of the jewelry chain. The chain operates in Texas and New Jersey.

Wimberly was top salesman for the chain stores last year. He is the son of Mrs. Grady Wimberly, of Silvertown, and is well known in the community.

## Postmaster Lists Rules Barring Lottery, Bingo

Washington—Definitions of a lottery and bingo—and the Post Office Department's duties to keep them out of the mail—were listed this week by Postmaster General Arthur E. Summerfield.

Outlining the explanation in a series of questions and answers, Summerfield said he hoped it would aid the public in understanding the laws, which the department "is duty bound to enforce."

Q. Does state law making bingo legal within individual states make it possible to use the mails to advertise bingo so long as such advertisements go only within state borders?

A. No. Changes in state laws do not affect the federal statutes restricting bingo. The Postal Lottery Law, Title 18, Section 1302, United States Code, prohibits any mailing of lottery matter—and bingo is considered a lottery—whether such mailing is a ticket, payment or advertisement. It makes no difference that such mailing is confined within the borders of the state where such lottery may be legalized.

Q. Does the restriction against lottery "advertisements" apply only to newspaper advertisements?

A. No. The restriction applies equally to magazines and periodicals which go through the United States mails, as well as to any form of notice advertising a lottery sent through the mails by individuals or organizations.

Q. One does not think of bingo as being in the same category as the big lotteries such as the Irish Sweepstakes. Why is bingo considered a "lottery?"

A. The law says it is a lottery. Under federal court decisions, the classic identifications of a lottery are "consideration, chance and prize." There is consideration in the form of the fee paid to play; there is no doubt that there is chance in bingo; and prizes of cash or merchandise are offered.

Q. Suppose the advertisement of a bingo game does not mention "bingo" at all? Is it still prohibited in the mails?

A. Yes. Bingo, or similar games using different names, can not be advertised in any matter carried through the mails. The law can not be evaded by such words as "Party" or "Games" or "Big Game Wednesday Night" or by merely printing "S." If the advertisement in fact relates to a lottery, it is a violation of the federal law.

Q. Are lotteries conducted for charity exempted in any way from the federal prohibitions?

A. None whatever. The Postal Lottery Law makes no exceptions in favor of lotteries conducted for worthy causes, or which might be regarded as a "little raffle."

## Grain Sorghum Research to be Discussed at Amarillo

A conference covering grain sorghum research and utilization will be held in Amarillo at the Herring Hotel on March 3 and 4. The conference, according to Dr. R. J. Hildreth, research coordinator for west Texas, Texas Agricultural Experiment Station, is designed to provide a meeting place for an "across-the-board" exchange of information on research and development which may lead to a wider use of the nation's fifth ranked cultivated crop—grain sorghums.

Too, said Hildreth, it is further expected that the material presented will provide a basic brief of factual information which may be used in the furtherance of the domestic and foreign market development activities of the Grain Sorghum Producers Association.

Speakers for the day and a half conference will come from five states and the District of Columbia and all are recognized leaders in their respective fields. Among the subjects to be discussed are "The Roots of Agriculture; What Industry Sees in Grain Sorghum; Sorghum Utilization Research; Value of Grain Sorghums in Livestock and Poultry Rations; Economics of Feed Substitution; Economics of Cattle Feeding Systems; Grain Sorghums in the Great Plains Economy; Potentials for Feed Grain Utilization Abroad; The Farmer Looks at Grain Sorghum and Research—Fitting Grain Sorghum to Current and Future Needs."

Morning—Chevy panel hustles over causeway to St. Petersburg.

**Chevy panel steps lively in Florida...runs day and night, delivers 19.3 miles per gallon!**

This '59 Chevy panel is on the go, morning, noon and night; it covers as much as 587 miles a day... runs so constantly that its engine never cools off completely. Yet Mr. Clark Farber, the Tampa Tribune's circulation manager, reports that the truck is delivering 19.3 miles per gallon!

Take the panel pictured above, for example. Powered by the '59 Thriftmaster 6 with new economy-contoured camshaft, it's building a sensational economy record, despite the sizzling pace of its work. That's typical of the way Chevies of all sizes are turning-to on the most challenging jobs in America. The way they're made, with tough-built truck components, they make the hardest hauls look easy! If you have a job that puts a truck on its mettle, see your Chevrolet dealer!

## LEGAL NOTICE ! Starving Quail In North Texas Being Trapped, Moved

**LIVESTOCK NOTICE**  
 The Citizens of Silverton, who still have livestock within the zoned area must have this livestock moved out of the zoned area by March 1, 1959.

abundance of quail and an abundance of rats in the area. The food supply was insufficient and as a result many quail have died of starvation.

The secretary said that where quail are moved it has been done with the understanding that the birds would be provided with food in their new range.

"What this will mean we are not in a position to say," he pointed out. "There is some danger that the unhealthy birds may infect other birds. For that reason we hesitate to trap and move many of the starving birds. We are doing so, however, on a very limited experimental basis."

In some counties in North Texas the birds were so poor by mid-December hunters refused to shoot them. As a result, thousands of birds have died of starvation. At the same time rats also are dying off.

Limited trapping of starving quail in North Texas, so that they can be transplanted into other areas, has been attempted in several places, according to the executive secretary of the Game and Fish Commission.

"We don't think this is a solution of the problem, but we are interested in seeing what can be done for the birds," he said. "We had a very unusual situation during the past season. There was an

## Rev. Raymond R. Asebedo Enters 1959 Achievement Prog'm.

The Jerusalem Baptist Mission Church of Silverton has entered the 1959 Texas Baptist Church Achievement Program, pastor Rev. Raymond R. Asebedo said this week.

Sponsored by the Baptist General Convention of Texas, the program is designed to stimulate interest in small-church work. Outstanding achievements by pastors and churches in areas of church, community and world improvement are recognized.

More than 354 Texas Baptist town and country churches entered the program last year. Participating churches in a recent year recorded twice as many baptisms per member as the Southern Baptist Convention average.

Each church in the program sets up goals for advancement in the three areas. An inventory questionnaire furnishes suggestions for projects, such as health education, community recreation programs, citizenship training, race relation studies and world missions.

Pastors recognized in each of the BGCT's 17 geographical districts receive a parchment scroll and the church a metal plaque which may be displayed in a prominent position outside the building.

Churches in the open country and in towns up to 2,500 population and all Latin-American churches and missions are eligible to enter the program. About two-thirds of the denomination's 3,812 churches are classified as town and country congregations.

Records and scrapbooks of program progress are made under the direction of three special committees. The scrapbooks are the basis for judging on the associational, district and statewide levels.

Darwin Farmer, direct missions associate for the BGCT, is in charge of the program. He said the "enlistment of a church's total membership in active service" is the program's primary value.

## Attending Encampment Near San Antonio, Texas

Rev. Raymond R. Asebedo is on a trip to Profit School at Frio Baptist Encampment, about 90 miles west of San Antonio, Texas. Rev. Asebedo left February 22 at 9:00 p. m. with a group of missionaries of the Baptist Institute of Lubbock, Texas. He thanks the Lord for that blessing and the First Baptist Church who paid his trip over there.

## Yellowstone Elk Demand Molasses With Their Hay

Yellowstone Park, Montana—Hay used to trap elk in Yellowstone National Park is being flavored with molasses, licorice and spices.

Supt. Lemuel A. Garrison said that not one elk was lured into traps last winter with plain hay. So far this year 175 elk have succumbed to the sweetened hay. They are being shipped to other parks.

The traps are used to keep the Yellowstone elk herd at about 5,000, all the winter range will support properly.

## Brownfield, Tex., Man Reports— 2 3/4-Bale Cotton

L. H. (Howard) Wheeler, prominent Texas farmer, says: "I farm 1,840 acres. With that much land I have to maintain high yields, year after year. Phillips 66 Ammonia helped me to do that. This past year we watched our cotton carefully, then when conditions looked right, we went in and side dressed it with Phillips 66 Ammonia. The cotton came right on along, setting a high count of squares—and of course that meant a good yield, averaging 2 3/4 bales per acre. I use Phillips 66 Ammonia with excellent results on my maize, too."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain and ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.
