Teachers Named For School Year

TO COACH U.S. BASKETBALL TEAM

Harley Redin, the women's basketball coach at Wayland Baptist College, Plainview, will coach the United States women's basketball team for the Pan-American Games to be held in Chicago. Redin left Plainview on Monday of this week. To help his cause, Redin will have two five time All-American players on his United States squad. Three other All-American players will probably be on the starting lineup.

The Pan American Games are Regional Games, in belief, they are Olympic Games of the Western Hemisphere. Athletes from all the countries in North, Central and South America, selected by their respective Olympic Association participate in these games.

Mr. and Mrs. Alvin Redin left on Wednesday for Chicago where they will attend the Games from August to September 7. They are parents of Harley Redin, coach for the United States team.

NARROWLY ESCAPE INJURY, AS AUTO BURNS

Mr. and Mrs. John Imel, Ladara and Gary Don drove to Westville, Oklahoma, last Friday night to see about Mr. and Mrs. J. E. Burke, parents of Mrs. Imel, who lost their home by fire a few days ago. They found them safe and doing as well as could be expected. Sunday night as they were enroute home they saw what appeared to be smoke ahead as they topped a small hill. As they drove forward cautiously they discovered that an oil pipe line alongside the highway had burst and the road was being sprayed with oil. They were unable to turn around but stopped when a car in front turned sideways across the road. Neither car could be started again. Mrs. Imel and the children started walking down the road, at the suggestion of Mr. Imel, hoping to get past the oily road. The men talked about the necessity of setting out flares, which the other man had along, when suddenly fire broke out behind them. Other cars and a truck pulled onto the oily road behind them and some were coming meeting them from the opposite direction. There was an explosion and everyone abandoned their cars and ran out of the oil soaked area. The 1957 Ford car the Imels were driving was completely burned, as well as several other cars.

Ladara Imel was hysterical and a passerby took the Imel family into Binger, the nearest town which was about 5 miles away; Mrs. Imel and the children were hospitalized but suffered no injuries other than shock. They lost all their clothing and other possessions in the car. Mrs. Imel even failed to get her purse; Gary Don was asleep and left his boots and shoes behind. The clothing they wore was oil soaked. They had some insurance on the car.

Binger is a small town about 27 miles from Cordell, Oklahoma. Messrs. Chester Weatherly and W. E. Wellman went to Binger Monday and brought the Imel family home. The men are brother-in-law.

Jimmy Imel had not accompanied his parents on the trip. The family are proud, indeed, to be reunited and grateful that no one was injured.

FORD STARLIGHT JAMBOREE TO BE TOMORROW NIGHT

In the old days when people moved into a new house, or fixed up the old one, or maybe just wanted to celebrate their wedding anniversary—they'd hold OPEN HOUSE. People would come from miles around and everyone had a grand time.

Jennings Supply is going to have an OPEN HOUSE. There will be refreshments, cotton candy, cold drinks, popcorn and free movies. You can look over the new display of Ford Tractors and Implements and can examine everything carefully.

The party will begin at 7:00 p.m. at the Roy S. Brown farm, located 1 mile North of Davis Gin, on Friday, August 28. Don't miss it! Bring your family and friends to the Ford Starlight Jamboree.

Mr. and Mrs. Doug Sewell and LeAnne Womack, of Lubbock, were recent Sunday visitors with Mr. and Mrs. Bruce Womack. Mr. and Mrs. Billy Joe Womack, Jo Lynn and Kay, of Brownsville, were also here on vacation at the time, thus making a reunion for the Bruce Womack family.

FOOTBALL NIGHT FOR PARENTS AND FANS TUESDAY NIGHT

Bridal Shower Honors Miss Michael Reid

A miscellaneous bridal shower honoring Miss Michael Reid of Tulia, the bride-elect of Billy Jack Settle, was given Saturday, August 22, in the home of Mrs. D. T. Northcutt.

Mrs. Northcutt welcomed the guests and presented them to Miss Reid, her mother, Mrs. Warner Reid and to Mrs. H. B. Settle, mother of the groom.

Forty-four guests from Silvertown, Matador and Tulia were registered by Miss Sue Reid of Tulia, sister of the bride-to-be, and Miss Kay Settle of Brownfield, sister of the prospective bridegroom.

The refreshment table, presided over by Mrs. Guinn Fitzgerald and Mrs. Greer Lackey, was laid with a white damask cloth and featured an arrangement of red carnations and white candles in a crystal bowl. Cakes and punch were served which carried out the bride's chosen colors of red and white.

Misses Susan Anderson and Linda Brannon showed the gifts. Co-hostesses for the occasion were Mrs. Tony Burson, Mrs. W. E. Schott, Jr., Mrs. Lee D. Bomar, Mrs. Walter Brannon, Mrs. True Burson, Mrs. Greer Lackey, Mrs. Guinn Fitzgerald, Mrs. Clarence Anderson, Mrs. Carl Dean Bomar, Mrs. Doc Simpson and Mrs. Northcutt.

Mrs. W. K. Grimland was taken to the Nichols Hospital in Lockney last Friday night. It was thought that she might have suffered a light stroke.

A night for the parents and fans of the Silvertown Owls and Jr. High Football team will be held on Tuesday night September 1, 1959. The starting time will be 8:00 p.m. The program will be held in the High School gym.

The purpose for the program is as follows:

1. In order that the parents, fans and coaches might become better acquainted.
 2. To give the parents and fans an opportunity to ask questions about the football program.
 3. So that parents may become familiar with the policies and rules which would effect their sons during the coming weeks.
 4. To inspect our facilities and equipment.
 5. To create the best possible relationship with the parents.
- The program will cover the different phases of the game with the coaches and players lecturing and demonstrating. There will be a representative of a Sporting Goods company to explain the features of the equipment necessary to equip a boy for playing football. The different pieces of equipment will be on display. The new rule changes will be explained in order that our many fans will be able to keep up with the game. There will also be a question and answer period for the parents, fans and coaches.
- The coaches and administration of the Silvertown High School urge that each parent who will have a boy playing this year, and the many fans who are interested in football be present for this program.

EXPERIENCES DURING EARTH QUAKE

Mrs. Martell Grover, of Rexburg, Idaho, the former Zella Stevenson has written her sister, Mrs. Dean Allard something about their experience during the recent earthquake in that vicinity. Rexburg is 70 miles north of West Yellowstone and 20 miles north of Idaho Falls. The children, Freddie and Gail, were asleep but Mr. and Mrs. Martell and guests were still awake when the 1 minute tremor struck. The furniture turned around and the light fixtures shattered and many strange things happened quickly but it took a few minutes for them to realize it was an earth quake. Many homes in Rexburg were badly damaged. Mr. Grover worked two days in the nearby disaster area helping care for the injured and dead. They sent several interesting pictures. They think the damage was even worse than reported by newspapers. As usual, there were amusing incidents; the pet cat ran into the living room and stretched out as though dead and didn't move for sometime after the tremors. Lighter tremors were felt later.

Sweek - Perkins Vows Repeated

Miss Lela Fay Sweek and Donald Melvin Perkins were united in marriage in a single ring service by the Rev. G. A. Elrod at 4:00 p.m. Saturday, July 25, in the home of the bride's parents. Mr. and Mrs. R. E. Sweek. Attending her sister as maid of honor was Miss Jerry Sue Sweek. Best man was the brother of the groom, Floyd Perkins.

Wedding guests were Mr. and Mrs. Tom F. Perkins, Tommy and Kathy, Mr. and Mrs. Riley Yates, Mr. and Mrs. Pete Hale and Ronald Dean, Edith Miller, Joyce Thomas, John Carl Mercer and Rhonda Sweek.

After a short wedding trip, they are at home in the Gilkeyson Apartments in Silvertown.

1959 Co-Captains

Pictured above are the 1959 co-captains of the Silvertown Owls football team as they take a few minutes from their practice to chat. They are Jerry Patton, son of Mr. and Mrs. James Patton; Bobby Cress, son of Mr. and Mrs. Edwin Cress; and James Roy Brown, son of Mr. and Mrs. W. Arnold Brown. The boys are optimistic about the team prospects for the year, and are looking forward to the September 4 game with Matador.

Around Town

person should ask himself if you have dedicated time, where he is and exactly what he is doing with his life. We do not want to see anyone who knows it all or who can tell everyone else how to live his or her life.

On the other hand, we are idealistic enough to feel that human race was put on this earth for some purpose. And, we believe that every man has an obligation to do something as he travels through life.

One can show nothing for himself if you have dedicated time in particular, and if you are not sincerely trying to do a little mark on our planet, to create just a little help your fellowman in this life, then we suspect that life hereafter will be an empty one. The happiest people known are those who have something for their fellow man and who have stood for something in their community.

Here for a purpose, must answer the test and that we will do with our own hands, self-indulgence, disinterest in our community, government, life and the world around us, a refusal to be informed on civic and national issues, do not add up to a contribution to our society. It is so disgusting to see a man who sits around doing nothing at all for the good of his community, complaining about things that are done, that he does not trade and doing his utmost to do an every single decent thing that others are trying to do in our town can be as good as dead. Our merchants can show us and latest merchandise have as good facilities and play as any other, work toward that goal, work and effort put in the years is beginning to show for the ones living there. In the years when we were up over there, there were things we wished and hoped for, we just about gave up on ever having. Now we have many of them accomplished, little by little.

We hope that we will be Silvertown, boosted by the efforts of those who are attaining greater heights. We would so love to see some of the facilities for the youth in town. In Tulia we always had a swimming pool, skating, bowling alley, etc. They were the dream of a pool and the bowling alley is to be soon, and in all, great things have been made toward the accomplishment of a thing that so very badly needed.

Something that has helped Silvertown look like other growing towns is the new paving and curbs. It is not too long ago when we understood that Silvertown to have a paving program soon, and we are glad because paving is one of the things that is making progress.

There is a sense of pride at Tulia is in the new auditorium. It is just a delicate dream that has materialized and served the school and civic needs.

The criticism for last week's school problems and were not right to have our school being taxpayers. That was drowned out by those who did not agree with our school. We admit that we don't have a full-fledged school in this city to take our own questions, but if you would know how much better it would be.

SAVED BY GRACE

The Bible teaches men are saved by grace (Ephesians 2:8,9). The word grace appears over 170 times in the New Testament. It has referred to many things as: a bounty (1 Corinthians 16:3); Paul's visit (2 Corinthians 1:15) and even to this life (1 Peter 3:7). Although it has been used in reference to many different things, it consistently carries the thought of favor.

Grace does not of itself suggest merit or lack of merit, as Jesus increased in grace (or favor: Luke 2:52). However, it is definitely pointed out that men receive pardon (salvation) without merit on their part. They receive it as a gift from God.

Must men obey God to obtain pardon? Yes. There is a difference between obtain and merit. As Naaman had to obey to obtain God's gift of healing so sinners must obey to obtain the gift of salvation (Hebrews 5:8,9; Matthew 7:21). Although Naaman complied with conditions his healing was still a gift from God.

Thus, the sinners on Pentecost who were told to repent and be baptized for the remission of sins could not claim they merited pardon by obeying. They did not earn salvation. We should not imagine a conflict between God's grace and his commandments. It is as much grace to tell sinners how to come into and walk in God's grace as it is to tell them that Jesus provided the way. Jesus said, "Why call ye me, Lord, Lord, and do not the things which I say?" (Luke 6:46).

A cordial welcome awaits you at the Silverton Church of Christ.

DOVE SHOOTING BEGINS SEPTEMBER 1 IN NORTH ZONE

Season opens for North Texas dove hunters Tuesday, Sept. 1, with perhaps one of the best crops in years, according to the assistant secretary of the Game and Fish Commission.

The new 1959-60 hunting and fishing licenses will go on sale after August 20, according to the announcement. They will be effective Sept. 1, and all persons who hunt outside their own counties are required to have a license. Fishing licenses also expire Aug. 31, and a new license is necessary for fishing outside the home county, or with any kind of winding device.

Persons over 65 years of age are not required to have a license. Exemption cards are available at the regional offices or by writing to the Game and Fish Commission in Austin. Such cards are issued as a courtesy, and are not required.

A map showing the Texas counties and their open seasons has been prepared by the Commission. It is legal to hunt in both the North and South zone counties.

The season is open Sept. 1 through Oct. 20 in the North zone, and Oct. 1 through Nov. 19 in the South zone. There is an exception in the Lower Valley counties where mourning doves may be shot at the same time as white-winged doves. In that area the season will close three days earlier.

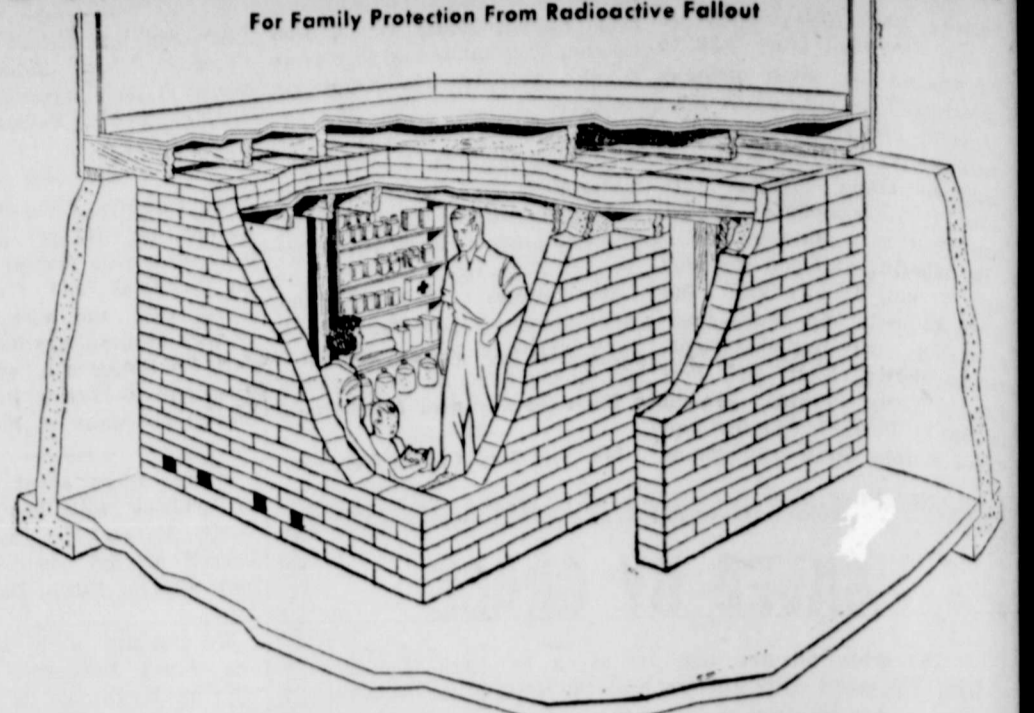

The white wing season is for the alternate days of Sept. 11-13-15, from 2 p.m. until sunset.

UNDERGOES HEART SURGERY

Boyd Bingham underwent heart surgery at the Harris Hospital in Fort Worth on Friday of last week; he had been a patient there since the previous Monday. His wife and brother and wife, Mr. and Mrs. Ben Bingham went to Fort Worth with Boyd; Curtis Bingham, of Kress went down on Thursday and was there during the surgery. Curtis and Mr. and Mrs. Ben Bingham came home Sunday; Mrs. Boyd Bingham remained there. The doctors advise that the operation was a success any of the "Shower of Stars" events.

DO-IT-YOURSELF SHELTER PROJECT

For Family Protection From Radioactive Fallout

BASEMENT SHELTERS generally are the least expensive type that will give substantial protection. The basement shelter shown here can be built with solid concrete blocks as a do-it-yourself project for \$150 to \$200. Standard 8-inch solid concrete blocks are recommended because hollow blocks would have to be filled with concrete to give effective protection. Bricks are an alternative. If they are used, the walls and roof should be 10 inches thick to give the same protection as 8-inch solid concrete blocks. Plans for this do-it-yourself project appear in "The Family Fallout Shelter," OCDM booklet. Copies may be obtained from the Home Shelter, OCDM, Battle Creek, Michigan.

and barring complications, Boyd will soon be a well man and has every right to expect to be able to lead a normal life, free from the heart trouble.

ATTEND GOLDEN ANNIVERSARY

Mr. and Mrs. Harrell Dieter, Marvin and Dixie, of Gentry, Arkansas, arrived Saturday afternoon for a visit with Mr. and Mrs. Leonard Mattheus, Ray and Tim. On Sunday the entire group attended the golden wedding anniversary of Mr. and Mrs. Otto Mattheus in Anton. Mrs. Dieter is a sister to Leonard Mattheus and Otto Mattheus is their uncle.

Mrs. Carl Lewis and children and Mrs. Sid Marshall and daughter, of Lubbock, spent the week end with Mr. and Mrs. T. M. Marshall.

Mrs. Minnie Stevenson, who recently underwent surgery and has been staying in Amarillo while recuperating was dismissed by her doctor last week and went to Skellytown for a two week visit with Mr. and Mrs. Wood Hardcastle. Mrs. Dean Allard and Mr. and Mrs. James Stevenson took her to Skellytown on Tuesday and came home Wednesday.

Mr. and Mrs. Hugh Braly, of LeFors, visited Mr. and Mrs. James Stevenson and Mr. and Mrs. Dean Allard Monday afternoon. Mrs. Allard and James Stevenson are cousins of Mr. Braly.

TAX-MAN SAM SEZ:

School days are almost here again. Many thousand young Texans will not only learn readin', writin' and 'rithmetic but will also learn how to complete an income tax form. Lots of folks are hoping that Internal Revenue Service doesn't find out they still haven't learned. A letter from Internal Revenue to the school principal will be in the early September mail so the teachers can order the Internal Revenue Service income tax courses. Internal Revenue works out all the answers for the teachers. The teachers like it better that way. Last year 75,000 students were enrolled and there will probably be more this year.

REEDA RIME

by Ryma Line

Today, a little child asked me, "What does it mean to be lost?" Then, looking into her anxious face, I saw a falling tear — So, I prayed for the perfect answer, simple, direct and clear. For I've known so well what it means to be lost. Without a Pilot, —drifting — Out on the sea of life, high tossed,

Where the winds of grief shifting —

Far away from the love of God, darkened forests of sin, Away from the tender Guide came to seek, to save, and bless. "It means not knowing Jesus answered the little child — And I knew she, too, would bless Him.

When I saw her look up and see Now, an apple of gold in God's Pictures of Silver.

"For the Son of man is come save that which was lost."

*miles per gallon

one of 7 big bests Chevrolet gives you over any car in its field

Proof that Chevy delivers the most miles from a gallon comes from an indisputable source; this year's Mobilgas Economy Run. For a pair of Chevrolet sixes with Powerglide walked away with the first two places in their class — got top mileage, in fact, of any full-sized car. Over the Run's long, rugged course, over mountain and desert in the long, long haul from Los Angeles to Kansas City, the winning Chevrolet averaged a whopping 22.38 miles per gallon. That's the kind of economy-engineering that keeps you saving while you drive!

BEST STYLE—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCI-

ENCE magazine, "a new high in daring styling."

BEST BRAKES—In competitive tests of repeated stops from highway speeds, conducted by NASCAR**, Chevy outstopped both of the "other two." Naturally—Chevy brakes with bonded linings are far larger, built to lengthen brake life by up to 66%.

BEST TRADE-IN—Look at the record—the used car prices in any N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST ENGINE—Chevrolet engines have long won expert praise and, just recently, Chevrolet received the

NASCAR Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ROOM—Official dimensions reported to A.M.A.‡ make this abundantly clear. Chevy front seat hip room, for instance, is as much as 5.9 inches wider than in comparable cars.

BEST RIDE—MOTOR TREND magazine names Chevy "... the smoothest, most quiet, softest riding car in its price class." But this is one Chevy feature you really should discover for yourself, at your Chevrolet dealer's. Stop by soon!

Your Watch Can Be Protected Against Hot Weather Hazards

Summer is a time for easy living, but summer living can be hard on a watch—even a quality watch. This year, many thousands of jewelers are taking action to solve this longstanding problem by participating in a free summer watch check-up program.

Expert jewelers know that sun, water and exercise can build you up, but can weaken even the most ruggedly built watch. If a watch is checked and put in shape to face the summer rigors, however, costly damage can be avoided.

24 Hour Service

Jewelers who have joined the summer check-up program will put any watch submitted to them through a five-point inspection, without charge to the customer. Their check-up will cover the major points of stress in a watch; case and crystal seal; condition of mainspring; overall cleanliness; need for oiling, and timing accuracy.

Jewelers will be set up to provide a free summer check-up service on a 24-hour basis. So, that if you leave your watch on one day, you will pick it up the next, together with the watch expert's report on the summer-fitness of your favorite timekeeper.

If you own a quality watch, its superior mechanism was created by a combination of fine materials and precision workmanship. These factors assure many years of trouble-free and accurate timekeeping, if you will take the occasional precaution of having a reputable jeweler service check your fine timepiece.

ed the largest bass caught Sunday. It weighed four and one-half lbs.

Many have been asking about the hunting season that opens on September 1, on doves. Hunters will find them very plentiful and a rather large area will be open near some water tanks where one can sit in the shade and enjoy some fine shooting. A permit to shoot doves at Burson Lakes is \$3.00 per day, per person.

Many are making plans to come early, spend most of the day at fishing and then go dove shooting in the late afternoon. We have accommodations at reasonable rates.

JACK BALDWIN IN PEARL HARBOUR

Jack D. Baldwin, S.A. in Navigation Division, aboard the USS Hancock, left San Francisco, on August 1, for the Far East. His ship is now docked at Pearl Harbour.

The Hancock has recently received an award for being the "Most Battle Efficient." This award is the first given in quite some time, and the crew will proudly wear the big "E".

Baldwin reports a smooth trip over, except for the anxiety of outrunning a hurricane before they docked. The men enjoyed a swim in Waikiki while there.

Mrs. Baldwin, the former Joy Gatewood, is remaining in California with friends until his return in January.

Mr. and Mrs. Less Alley and Mrs. M. C. Cornelious of Plainview, spent the day in the home of Mr. and Mrs. J. M. Thompson. Mrs. Cornelious is an aunt of Mrs. Thompson.

Mr. and Mrs. Dick Franklin, Jerry Dee and Beth of O'Donnell spent a day and night in the home of her parents last week, Mr. and Mrs. J. M. Thompson. The Franklins have recently been to Colorado Springs on their vacation.

HARDCASTLE FAMILY MEET IN BOMAR HOME

Mrs. T. C. Bomar hosted a Hardcastle family reunion at her home

over the weekend. Guests included her brothers and sisters and their descendants. Those present included: Mr. and Mrs. Bill Hardcastle, Mrs. Kitty Lawler, Mrs. Edna Christiansen, Dr. and Mrs. Wells McClendon and son, Mrs. Leo Slaughter, Mr. and Mrs. C. W. McClendon and daughter, Mr. and Mrs. Bill McClendon and daughter, Mr. and Mrs. John Gilbert and sons, Mr. and Mrs. Pete Speed and son, Hope and Jack Watson,

Carl Bomar and family, and Don Burson and family. Barbeque was served Saturday night at a backyard supper at Carl Bomar's home.

Insulation for Home Excellent Investment

One of the best investments a home owner can make is in insulation. Installed in thick quantities, mineral wool saves cash on heating and air conditioning, never wears out, and never needs maintenance.

Asphalt Shingles Do Double Duty

Functional design is important in a home-building material. Take asphalt shingles, for example. They are designed to beautify a house with color and glare-free texture, and at the same time give years of protection from harsh weather of all kinds.

SAFETY ACT
The first of a series of articles concerning Texas Water Safety Act. J. O. Musgrave, chairman of the State's leading safety organizations, was chairman of Daniel's original committee to investigate boating in Texas and make recommendations to alleviate hazardous conditions. —Ed.)

Water Safety Act, which took effect August 11, 1959, affects literally hundreds of thousands of Texans, because it places specific responsibilities on boat owners, operators, skiers, law enforcement officers and courts. Furthermore, inquiries received at the Texas Safety Association's central office, Austin, indicate only a few Texans have any knowledge of what the act is about or how it will influence their lives.

Thus, this series of articles will attempt to highlight the principal provisions of the Act to an extent that will help water sport enthusiasts avoid running afoul of the new law.

The Texas Highway Department will administer the Act. Enforcement will be made by all duly authorized peace officers.

CLASSIFICATIONS
Motorboats subject to the provisions of the Act have been divided into four Classes:
Class A. Less than 16 feet in length.
Class 1. 16 feet or over and less than 26 feet in length.
Class 2. 26 feet or over and less than 40 feet in length.
Class 3. 40 feet and over.

LIGHTING
Any kind of self-propelled boat, when underway between sunset and sunrise, must use at least one bright light and exhibit it so as to avoid collision.

Motorboats of Class 1. must use two lights: A white light aft to show all around the horizon and a combined lantern in the front (lower than the aft light) that will show a green light to the starboard (right) and a red light to the port (left).

Classes 2 and 3 must carry a bright white light in the front of the boat, as near the stem as practicable, that will show an unbro-

ken light over an arc of the horizon of 20 points of the compass and fixed to throw the light 10 points on each side of the vessel. Also, a bright white light aft to show all around the horizon (higher than the forward white light). Port and starboard lights must be fitted with an inboard screen that will prevent these lights from being seen across the bow.

Motorboats of Classes A and 1, when propelled by sail alone, must carry the combined lantern, but not the white light aft. Motorboats of Classes 2 and 3, when propelled by sail alone, must carry colored side lights, but not the white lights. Motorboats of all classes must carry a lantern or flashlight showing a white light that can be used in sufficient time to avert collision.

LIFE PRESERVERS
Every motorboat or vessel must have aboard one Coast Guard approved life preserver, buoyant vest, ring buoy or buoyant cushion, in good condition, for each person on board.

No person shall operate, or give permission to operate, a motorboat that is not equipped to meet the demands of this requirement.

SMALL MOTORS
All motorboats of 10 horsepower or less are required to have one approved life preserver for each person aboard and a white light

Inspired by Beauty of Paneling, Louvers

Ingenuity Finds New Uses For Wood Doors

The classic design of panel doors, the textured interest of wood louvers, and the rich beauty of wood have intrigued imaginative decorators and home owners into discovering new and unusual uses for these stock products of ponderosa pine.

One fascinating idea is to use panel doors as wainscoting or complete wall paneling. As the drawing shows, both create the luxury of custom wood paneling, yet are available at lower cost.

An equally effective use of panel doors is shown in the drawing of a bedroom. Here, two panel doors are fitted together to form a dramatic headboard.

Another unique use of stock woodwork is the application of combination storm and screen doors to form the walls of a porch enclosure. The glass inserts provide a sun room in cold weather, and the screen inserts convert it into a cool, airy porch in summer.

Among the more unusual but extremely practical uses of stock louver doors and shutters of ponderosa pine is their installation as a floor-to-ceiling room divider. In the drawing, living and dining areas are separated with tall shutters, hinged to fold out of the way.

Some other unique uses of stock wood products include:
A 5-panel door converted into a useful door-bookcase by replacing the panels with shelves.
Louver shutters to hide a television's dull "eye" when the set is not in use.

Panel doors form headboard.
Panel doors cover walls.
Storm doors enclose porch.
Shutters make divider.

ABOVEGROUND DOUBLE-WALL SHELTER

For Family Protection From Radioactive Fallout

AN OUTDOOR aboveground fallout shelter may be built of concrete blocks. It is recommended for houses without basements or for regions where water or rock is close to the surface, making it impractical to build an underground shelter. Two walls of concrete blocks are constructed at least 20 inches apart. The space between is filled with gravel or earth. The walls are held together with metal ties placed in wet mortar as the walls are built. The roof is a six-inch slab of reinforced concrete, covered with at least 20 inches of gravel or earth. Most people would have to hire a contractor to build this shelter. Plans appear in the OCDM 32-page booklet, "The Family Fallout Shelter." For free copies write: Box Home Shelter, OCDM, Battle Creek, Mich.

F.H.A. Operating With Fewer Employees

Farmers Home Administration will operate its program in Texas this year with 117 fewer employees than it had a year ago at this time according to a statement this week from Walter T. McKay the agency's State Director. Since the break of the drought, the agency, statewide, has reduced its forces by more than 27 percent and has discontinued 77 of its field offices on a full-time basis.

Insofar as the employees who lost their jobs, McKay said that in practically every case the training and experience they gained during their employment with Farmers Home Administration enabled them to step into jobs with banks, PCA's and other private and cooperative credit institutions—many of them at salaries better than they had with the Government.

In connection with the services available to farm families, there will be no change, according to McKay. He said that during the past three years more than 12,000 farmers and ranchers paid their loans in full to Farmers Home Administration, and for the most part had reached or regained a position where private and cooperative sources can now handle their credit needs.

Farmers Home Administration will continue to make loans to eligible applicants for farm and home operating expenses; for the purchase of livestock and equipment needed to put their farm program on a sound basis and to finance farm real estate purchases and improvements.

Using the vocal quartet of W. T. Diviney, Lee Deavenport, Earl I. Cantwell and Wade Steele who sang together for many years when they were younger men. Out of town guests for this occasion were Mr. and Mrs. W. T. Diviney, of Burlington, Iowa; Mr. and Mrs. Max Calef, of Deavenport, Iowa; Mr. and Mrs. Albert Foster and family, of Oxnard, California; Mrs. Jennie Penn, Mr. and Mrs. Haskell Turner, Mr. and Mrs. Jack Haynes and children and Jim Whitely, of Lubbock; Mr. and Mrs. Madison Ayres, of Lamesa; Jim Haynes and children, of Eagle Pass; Mr. and Mrs. Orin Stark and Mr. and Mrs. O. R. Starks and children, of Quitaque. There were far too many local friends and neighbors present to name them all.

More Uniform Production of Quality Seed Wheat

C. G. Richardson, owner and operator of Richardson Seed Co., produces high quality, high germination seed wheat.

Mr. Richardson says: "We watch all of the things that will give us higher quality seed—both grain sorghum and wheat. For example, we have a clean farm, free of weeds. We use the latest and best cleaning and handling equipment.

"And," he continued, "we use Phillips 66 Ammonia to give us more uniform and higher quality yields of seed wheat. We apply 100 pounds of ammonia pre-plant on wheat land; and we plow down 125 pounds of ammonia in the fall on our maize land."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain or ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.
