Radio—Blessing (And Curse)

One of the most rewarding, en-
joyable and valuable hobbies of
the 20th century is ham radio. For
a comparatively small amount of
time and money, one can acquire
a license, assemble his equipment,
and literally be in touch with the
world. The hobby is safe and sane.
A ham spends his idle hours at
his desk, off crowded and unsafe
streets.

In addition to the satisfaction
which brings to the ham, he
can perform a valuable service in
times of emergency when all com-
munication lines are
down.

We know of no more valuable
hobby than ham radio. In spite of
their value, ham operators are
permitting their relations to deterio-
rate. For reasons unknown to us,
ham operators are interfering with
commercial television and radio in
this area.

Complaints are registered
almost every Saturday. We were
in a home where a TV picture was
visible but the only sound coming
from the speaker was the voice
of a local ham.

Operators insist that this
interference is no fault of their
own. It is due to "cheap" radio
sets. But this is not always
true. The interference is pre-
sented in some of the most expen-
sive radio sets in Tulsa—and cer-
tainly there is nothing "cheap"
about the sound system of televi-
sion sets. And even if the inter-
ference should be confined to in-
expensive sets, these sets are a
part of Americana. The trend is
toward the small, inexpensive set,
which is often found in the bed-
room or in the kitchen, in the work-
shop. When persons purchase
sets, they do so to hear com-
mercial radio—and they have this

commercial radio involves a lot
of money. It costs to obtain a fre-
quency assignment. And it doesn't
make the sponsor happy when he
hears the program for which he
is paying. We don't blame
the ham. When a frequency is acquired,
the station has a right to its ex-
clusive use in a locality. On the
other hand, the ham which winds
up on a commercial frequency,
over the cause, must realize
commercial radio transmis-
sions are more important since
they are for business and not plea-

are quite sure that a way
can be found to stop this inter-
ference. There are hundreds of
stations in most cities—and we
are sure that large city radio
stations are not having their
programs disturbed by hams.
Ham radio is a valuable institu-
tion and it is to be hoped that
everywhere will take every
precaution against interference
between commercial radio and tele-

Welcome Rains Soak Area

Independence Day and night
time rains soaked thousands of
acres of Panhandle cotton and
feed crops, as a stationary cool
front brought a mountain-resort
type of weather to this region.
Rainfall ranged from showers to
very heavy amounts.

The official rain gauge in Sil-
verton, belonging to Ray C. Bomar,
measured .03 on Sunday; .91 Mon-
day; .22 on Tuesday; and .01 on
Tuesday night. At press time on
Wednesday a very nice shower had
been in progress for some time
with no letup seen. Estimates are
that by Wednesday night the rain
may have totaled two inches or
more.

Rains in July are not too com-
mon, especially on the Fourth of
July, but the moisture could not
have been more timely.

Rain varying from heavy show-
ers to falls of near downpour pro-
portions fell in the Lockney area,
and wind damage was reported at
Abernathy. At the Halfway Station
there was damage to crops from
washing.

In our home county the rains
are described as "just what we
needed." Some farmers have de-
scribed the rain as one which was
"back-ordered" on us, but none-
theless welcome.

Missionaries to hold Services in Local Church

Rev. and Mrs. Vernon Hagar will
hold a missionary service in the
Assembly of God Church on July
13, 1960. The service will begin at
7:45. There will be colored slides
shown of "New Hope Leper Col-
ony." There will be other features
of interest, as well as an inspiring
message along the line of work
among the Lepers in Bible times
and in Modern times.

The Hagars are to work in "New
Hope Town," Cape Palmas, Liber-
ia, West Africa. The foreign Mis-
sions Board desire their departure
for that land in September of 1960.
Mrs. Hagar is the former Ozel-
la Reid, who spent three years in
Gold Coast, West Africa. This was
from 1948 through 1951. While
there she and her co-worker, Miss
Ruby Johnson, had many interest-
ing experiences. They established
a Mother and Child Clinic among
the Komkomba tribe, which is one
of the most primitive tribes of all
Africa. Their language had never
been written.

Mr. Hagar has been pastoring
the First Assembly of God Church
at Spur, Texas, for almost four
years. He has resigned there to
prepare to go to Africa. He will
be supervising the clearing and
getting into production of 3000 A.
of jungle land. This will be planted
in tropical crops of all kinds. This
supervision will be in addition to
regular missionary work.

The public is invited to attend
these services according to Rev.
A. L. Montgomery, pastor of the
local Assembly of God Church.

THOUGHTS FOR THURSDAY

(from The TULIA HERALD)

by H. M. Baggary

A Plainview organization once used the slogan, "If a town is good enough to live in, it is good enough to trade in." There is much food for thought in this slogan.

About the most useless thing around a town is the self-appointed critic who seldom misses an opportunity to point out what is wrong with a town. Sometimes the town is accused of being "unfriendly," "not progressive," "small townish," "lacking in culture," of being guilty of these and many other civic crimes.

It must be admitted that every community has its deficiencies. No town is perfect in even one respect. Every town has its unfriendly people. Every town is lacking in progress, to a certain extent. Every town has its share of merchants who are heels.

We might as well admit these municipal faults—then adjust ourselves to the situation. If we can't adjust, then we owe it to ourselves and to the town to move before sundown to a place more to our liking.

We believe that anyone who accepts the conveniences and comforts of a town, who wears out its street, who uses its sidewalks and parks, who calls its fire department and police when they are needed, is honor bound to support that town or move to a town which he can conscientiously support.

What determines the soul of a community? We can't put our finger on any one person or thing. The spirit of a town is determined by many things—all individuals. The chronic griper is a part of that spirit. He earmarks his community as definitely as does the town booster.

A town is like a multi-colored mosaic. Tulia is made up of 4,395 personalities, no two alike. There are fat persons, skinny persons, rich and poor, happy persons and sourpusses, boosters and bellyachers, persons who want to go forward and persons who want to take us back to 1890.

Put all these people together and we have something called Tulia—that thing which outsiders—and some insiders—call "they." Let's not fool ourselves. As Tulians, it is impossible to sit on the sidelines and watch what "they" are doing. All of us are members of the cast, none is a part of the audience. All of us are on the stage. When we criticize "Tulia" and what we call "they" we are criticizing ourselves.

Someone penned the verse: If you want to live in the kind of a town . . . in the kind of a town you like . . . You needn't pack your clothes in a grip and start on a long, long hike . . . For you'd only find what you left behind . . . There's nothing that's really new . . . It's a knock at yourself when you knock your town for it isn't a town, it's you . . . Real towns are not made by men afraid that somebody gets ahead . . . For if every-

EVERYTHING OR NOTHING

If Christianity is anything, it is everything, and means infinitely more to everyone of us than all our earthly possessions—yes, than life itself. No truth is more surely taught in the Bible than that Christ came to earth to sacrifice His life for our sins and to found a system of religion, a plan of salvation, by which every person of earth obtain eternal life. No man has any promise of salvation unless he is completely converted according to this God-given design and then lives a faithful Christian life. To this, all informed students of the Bible agree. Yet, in this land that nominally accepts Christianity, there is a widespread tendency to treat this great heritage with an unexplainable indifference.

When our Lord just before His ascension, gave unto His apostles the great commission, "Go ye into the world, and preach the gospel to every creature. He that believeth and is baptized shall be saved; but he that believeth not shall be condemned," it was the motive that sent them into every corner of the earth to bear the good tidings. The flaming torch of this gospel message was flung by these ambassadors "to faithful men who shall be able to teach others also." Yet today, with our liberties and opportunities, it seems impossible to interest the masses in the hope of eternal life.

Perhaps the attitude of many professed followers of Christ has largely contributed to this spiritual apathy. From some where has come a widely prevalent idea that a kind of passive belief in Christ or a certain moral standard, coupled with a funeral eulogy by a kind-hearted minister, will suffice to open the gates of the eternal city. Nothing could be further from New Testament teachings which reveal that eternal life is for those who have complied with Christ's term of the great salvation. Some day we shall all be ushered into a never-ending eternity. He who in that day has a hope founded upon the Word of God has everything, but he who has neglected to lay hold upon the redemption brought within his reach has nothing but to face a darkness so terrible that it is indescribable, (John 5:28-29).

A cordial welcome awaits you at the Silvertown Church of Christ.

McWILLIAMS - COUCH VOWS EXCHANGED IN HOME CEREMONY

MRS. W. L. COUCH

In an early evening ceremony on June 29, 1960, Miss Glenda Rae McWilliams, daughter of Mr. and Mrs. Glenn McWilliams, became the bride of W. L. (Bud) Couch, son of Mrs. J. A. Wellman of Gru-

ver. The very pretty double ring ceremony was repeated in the lovely home of the bride's parents in Silvertown, with the Rev. Frank Story officiating.

Mrs. Bill Edwards, organist, and Mrs. Shafe Weaver, soloist, provided the traditional wedding music. Candles were lighted by Mary McWilliams, sister of the bride, and Larry McWilliams, cousin of the bride. Miss McWilliams wore a pale yellow organdy dress with a white carnation corsage accented with orchid ribbon.

Miss Linda Brannon attended the bride as maid of honor wearing an orchid dress of silk organza. Her bouquet was a nosegay of white carnations surrounded by orchid lace and orchid streamers tied in lovers knots which fell from the arrangement.

Harvey Williams of Turkey served as best man.

The bride, given in marriage by her father, wore a street length dress of white silk organza over silk taffeta, designed with lace bodice, bracelet length sleeves, sabrina neckline and bouffant skirt terminating with a wide hem. Her veil of illusion fell to shoulder length from a small white crown decorated with sequins and seed pearls. She wore sheer white gloves and white pumps. Her bridal bouquet was of white carnations surrounded with lace atop a white jeweled Bible, with cascading strands of white feathered carnations and white streamers. A tiny orchid statice was in the very center of the bouquet.

Wedding vows were exchanged before a white satin-covered altar flanked by candelabra holding lighted tapers and baskets of large white cysanthemums.

A reception was held immediately following the ceremony. Marsha Monroe served the four-tiered wedding cake and Susan Anderson served the fruit punch. Guests were registered by Gretchen Mor-

To Wed In July

Mr. and Mrs. J. L. West announce the approaching marriage of their daughter, Mary Jane, to Mr. James E. Patton, Jr., the son of Mr. and Mrs. James Patton of Silvertown. Wedding vows will be exchanged in July.

Jim Pharr of Lubbock, and Ralph Lemons of Floydada, former Silvertown residents, visited Mr. and Mrs. S. R. Turner Saturday afternoon.

The refreshment table was laid with a white hand-drawn cloth over orchid, carrying out the bride's chosen color scheme.

For a short wedding trip the bride chose a white linen suit and white accessories. Her corsage was taken from her bridal bouquet.

The couple is now at home in Silvertown where the groom is employed by Stafford Grocery.

Mrs. Couch is a graduate of Silvertown High School, and Mr. Couch was graduated from Turkey High School.

FATAL ACCIDENTS 6 FATALITIES

THE DEADLY TRUTH—About traffic safety in Texas in 1959 was that only one day in the whole year was free of traffic deaths. In 1958, there were five "Deathless Days" in Texas, four in 1957, five in 1956, three in 1955. If more Texans will drive in such a way that their cars are never involved in a crash which takes a human life, then Texas can record more "Deathless Days." Will YOU drive so that the Fourth of July holiday will add a "Deathless Day" to the Texas traffic calendar? (Official 1959 Texas Traffic Death Calendar Compiled by Statistical Services, Texas Department of Public Safety and Reproduced by the Governor's Highway Safety Commission, Austin, TEXAS.)

MRS. BILL JIM ST. CLAIR, ROUTE 3, MULESHOE, TEXAS, SAYS

"These four help us with our four!"

The St. Clairs have four lovely children, Karen 8, Janis 6, Brenda 4, and Tommy 2 years of age, and it's obvious that a busy mother of 4 children needs help. Thanks to Reddy, Mrs. St. Clair can be a 4-appliance owner, for Reddy supplies the energy, dependably, 24 hours a day, and at low cost. Mrs. St. Clair says about her electric dishwasher, "It is nice to know our dishes are germ-free because they are always thoroughly cleaned electrically." And about electric cooking she says, "I enjoy electric cooking because it is so clean, safe and fast." Her clothes dryer and freezer come in for praise, too. "I just couldn't do without my dryer because we always have clean clothes regardless of the weather. Our clothes stay new looking longer, safe from the fading rays of our strong sun." Mrs. St. Clair, in addition to storing food, uses her freezer in advance by baking cakes when she has time for use when company comes.

WATCH AND WIN

PLOWIN' Out the CORNERS by Uncle Zeb

Someone has said that it does make a difference what we believe. I believe that is true. I believe in the future of our world because I believe in those who are to make up the inhabitants of tomorrow. I believe they are better equipped to face life at its worst and at its best than those of my generation. We see evidence on every hand that helps offset the bad and makes us believe that our coming generations will do a good job with this old world. At least they won't do any worse than we have done.

Things like the following help us to have a stronger faith in our youth. It is the creed of a youth study center. It goes:

I believe in a God who believes in and loves a fellow like me.

I believe in a God who loves me as a real father loves his own son.

I believe in myself because I am somebody. I am somebody because I am God's child.

I believe in life because life offers me a chance to grow, and because it teaches me that the real joy of life comes in giving and in living my very best.

When we find a lot wrong with our young people we can most every time trace the trouble back to grown-ups. We need to give them a lot of love. We need to give them something to live for and insist that they accept the work and responsibility necessary to make that something live. If we have done these few simple things we will believe with more faith in the faithfulness of our young people.

Encouragement is something which we all need now and then along our road of life. Whether our problem is some illness, a deep sorrow, or perhaps only a financial disappointment, it is always a big help to have some friend lift us up with some cheerful words of hope.

It is hard for most of us to understand why we have to have disappointments in life but someone expressed it in these words: "If tears should never come and wash the dust from our eyes, then we would never catch a glimpse of the beauty of the souls of those about us."

We do understand that to have someone come and show love and concern for us always lights up our darkened world. It is said: "Love will light a thousand candles in the dark, and guide the steps of one who seeks it."

One of the grandest rewards that almost always come to us when we try to encourage our friends is that we find we feel better too. The following little poem has meant so very much to me:

If I share another's burdens
I forget about my own,
And in speaking words of comfort;
Oft I find my troubles flown.

It can double all my blessings,
That God sends me every day,
If I share them with the com-

SOIL CONSERVATION DISTRICT NEWS

Bud Meacham, manager of H. T. Luther's "Flying L" Ranch east of Silverton, reports an average yield of 32 bushels per acre from this year's dryland wheat crop. This is a very good dryland yield and is worthy of study.

Taking advantage of the favorable winter moisture conditions, about 100 acres of the 267 acre field was fertilized. This was top dressed in early March with 32 pounds of actual nitrogen per acre in the form of Ammonium Nitrate. The spring months turned out dry but the wheat benefitted from one good rain in April that most of the county missed. The effect of the fertilizer was evident throughout

the spring, however, as the fertilized wheat made steady, vigorous growth, offsetting the dry weather. Actual comparative yields of the fertilized and non-fertilized wheat are not available. However, the crew combining this wheat stated that the fertilized portion of the field was much heavier, slowed their combines and filled the hoppers much faster than did the non-fertilized wheat. Two other fields of wheat in the same area averaged only 12 to 15 bushel yields per acre.

The rate of application for fertilizing this field was determined by actual soil test. This service is available through the Texas Agricultural Extension Service at College Station.

When a man feels that the world owes him a living — he is usually too lazy to collect it!

Innocent As a New Babe

(from Uncle Claude, by Cecil O. Waggoner in the CLAUDE NEWS)

Our Printer's Devil, Tex Adudell is proving his namesake. He is usually obscured behind the machinery when pretty girls pass the office but he always manages a lovely "wolf whistle." When the young ladies look in they see no one but me sitting by the linotype. They usually wave but I shudder at what they must think. I need to give a fatherly talk to that boy!

(From Trail Dust by Douglas Meador in the MATADOR TRIBUNE)

My talent for worrying is remarkable, but my memory is poor. In many instances I forgot to worry about half of the subjects on the agenda, and long after each crisis has passed, I feel, somehow, that each is a neglected opportunity.

storm was created in education circles after publication of a book entitled, "Why Johnny Can't Read."

And after a news report of the Pennsylvania presidential primary, we're convinced that a best seller is due on why Johnny's parents can't spell.

For example, for some Pennsylvanians the major contenders for the Democratic presidential nomination were Senator Cenedi, Humbert Hunprey, Adalia Stevenson and Stuart Simaton.

Other write-ins on the ballot that carried Vice President Richard Nixon printed on it, included Gov. Nelson A. Rockefeller of New York. His name was Rockefeller. Sen. John Kennedy had the most votes on the Democratic side, and perhaps his name suffered the most.

There were votes written in for Robert Kennedy, his brother, Joseph Kennedy, his father, Richard Kennedy, James Kennedy, William Kennedy, Tom Kennedy, T. Kennedy, Canady, and Kenydey.

Also receiving votes were Ealnor Roosevelt, Barry Coldwater, Patrick Henry and Andy Gump.

"When the wife and I got married," one man was telling another, "we agreed that I would make all the major decisions and she would decide all the minor issues."

"How did it work out?" the friend asked.
"Great. She decides on the little things like what kind of car we will buy, how the house is built, what job I will work at, where we will spend our vacations, and such as that."
"My gosh, man," said the friend, "what are these major decisions that you make?"
"Oh, I decide on whether to admit Red China to the UN, when we should have summit conferences, how much rocket research should be done, and things like that."
