Record Milo Harvest Nears Completion

New Soil Testing Lab Now Open

Area Soil Chemist James H. Valentine, A & M College Agricultural Extension Service, has completed preparations for the formal opening of a new Soil Testing Laboratory in Lubbock. Above, he is making a final check of the delicate chain balance which is used to measure the minute quantities of chemicals required in running a soil analysis.

A native of Wills Point in Van Zandt county, Valentine is a former Future Farmer of America. He received both his B.S. and M.S. degrees from Texas A & M College with a major in Agronomy and minor in Plant Physiology. The overseas veteran of World War II served for 5 years as Soil Scientist with the Soil Conservation Service and for the past 9 years has been director of the Soil Testing Laboratory at Stephen F. Austin College at Nacogdoches.

Valentine says the new laboratory, which he heads, will devote full time to fertility problems of farmers in the Panhandle and High Plains areas of Texas.

Briscoe County Agent, Clarence Kerns, urges local farmers, home gardeners and others with fertility problems, to take advantage of the laboratory's facilities. The cost per sample is only \$2. Vocational Agriculture Teachers and Soil Conservation Service technicians, as well as the county agent, will be glad to assist in obtaining samples.

Mrs. Virginia Dennis returned home Sunday after a two-week stay with her daughter and family, Mr. and Mrs. Fred Buck, Roger and Randy, in Amarillo. Mr. Buck has been quite ill and both boys were patients in Northwest Texas Hospital for several days. All are recuperating satisfactorily.

As the 1960 milo harvest comes to a close, it is noted that Briscoe Countians have raised a record number of pounds of grain this year. With a few scattered fields still being combined, all county elevators report one of the biggest years ever.

Silverton Elevators handled 61,206,440 pounds of grain this year, reports manager Farris Martin. He adds that this is the most grain they have ever handled, taking in some 40,960,040 pounds last year.

Glen Lindsey, manager of Harvest Queen Grain reports that they have handled approximately 16 1/2 million pounds this year, as compared to about nine million pounds last year.

Silverton Co-Op has handled about 200,000 pounds this year which is about twice as much as they handled last year, according to Co-Op manager, Robert Hill.

In Quitaque, Arville Setliff reports that Quitaque Elevator has handled 17,000,000 pounds this year. Last year they received about 7,500,000. Setliff states that the dryland fields yielded bumper crops, and this has been a record year below the Caprock, as well as above.

Cotton ginning is in full swing, with local gins working all night and managing to stay not-too-far behind.

Players Should Turn In Suits Now!

It is reported that some of the Little League players have not turned in their baseball uniforms. They should be turned in immediately to City Tailors, so that they can be cleaned and stored for next season.

Mr. and Mrs. Cecil Falls of Fort Collins, Colorado, visited relatives here last week. Mr. Falls is a cousin to Messrs. W. A. Hout and C. A. Holt and to Mmes. Elbert Dickerson and W. Hamilton.

Gasoline Farmers Union To Meet

1961 COTTON PROGRAM REQUIREMENTS GIVEN BY ASC

John Montague, County ASC Supervisor, Secretary of Agriculture, Ezra Taft Benson, on October 31 proclaimed a national marketing quota of 15,562,000 bales (standard bales of 500 pounds gross weight) and a national acreage allotment of 18,398,424 acres for the 1961 crop of upland cotton. Allocation of about 60,000 acres from the national acreage reserve, to take care of minimum farm allotments, are expected to increase the total allotments available for distribution to 18,458,424 acres.

This represents a 12.3 per cent increase over the 1960 allotment of 16,310,000 acres.

Texas' share of the national allotment has been announced at 7,838,510 acres. In addition, Texas' share of the national reserve for 1961 is 10,686 acres, an increase of 15 per cent over the 1960 state allotment of 6,817,477 acres.

County allotments have already been received and individual farm allotments will be mailed out to producers prior to the referendum to be held December 13, 1960.

If marketing quotas are approved in the December 13, referendum, price support will be available to growers who comply with their far allotments at a level within the range of 70 to 90 per cent of parity. As in other years, the exact level of price support will be determined later.

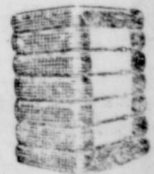

Unlike the past two years, only one allotment-price support program will be available to growers for their 1961 upland cotton crop.

Legislation provided the so-called Choice (A) and (B) program for the 1959 and 1960 upland cotton crops.

If marketing quotas are not in effect for the 1961 upland cotton crop, the allotment program will remain in effect and price support will be available to cooperators at 50 per cent of parity as provided by law.

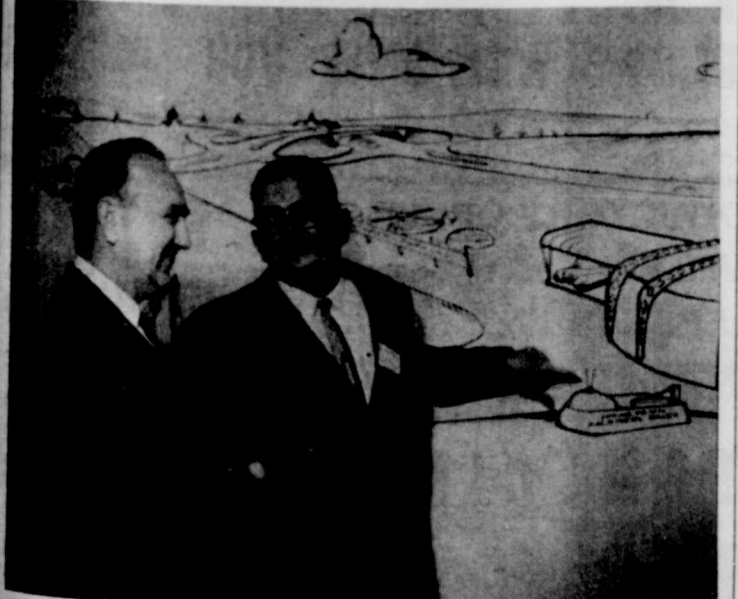

Under the 1961 quota program, growers who exceed their farm acreage allotments will be subject to penalties of 50 per cent of the cotton parity price as of June 15, 1961, on the farm's excess production of the crop. In addition, none of the upland cotton produced in the farm will be eligible for price support.

 2 cups milk
 1/2 cup chopped pecans
 1 baked 8-inch pie shell or graham cracker crust
 1/2 cup cream, whipped and sweetened
 Combine pie filling mix and milk in saucepan. Cook and stir over medium heat until mixture comes to a full boil. Remove from heat. Cool only about 5 minutes, stirring once or twice. Add nut meats. Pour into pie shell or graham cracker crust. Chill. Spread sweetened whipped cream on top.
 Note: If desired, garnish pie with wreath of 1/3 cup cream, whipped and sweetened. Decorate with pecan halves and a sprig of mint.

Soft Chocolate Caramels

1/2 cup light brown sugar, firmly packed
 1/2 cup granulated sugar
 1/2 cup light corn syrup
 1/2 cup heavy cream
 3 squares unsweetened chocolate
 2 tablespoons butter
 1/2 teaspoon salt
 1/4 cup evaporated milk
 1 1/2 teaspoons vanilla
 Combine sugars, corn syrup, and cream. Cook slowly, stirring constantly, until sugar is dissolved and mixture boils. Boil gently until a small amount of mixture forms a very soft ball

in cold water (or to a temperature of 232° F.) stirring frequently. Remove from heat, add chocolate, butter, and salt, and stir until chocolate is melted. Then add evaporated milk gradually, stirring until well blended. Bring again to a boil, and boil gently until a small amount of mixture forms a soft ball in cold water (or to a temperature of 238° F.) stirring frequently. Remove from heat, add vanilla, and stir only enough to blend. Pour into slightly buttered pan, 8x5 inches. Do not scrape pan. When cold, cut in 1-inch squares. Let stand in cool place 2 to 3 hours to dry. Makes about 86 caramels.

Coconut Seven Minute Frosting

2 egg whites, unbeaten
 1 1/2 cups granulated sugar
 Dash of salt
 1/2 cup water
 2 teaspoons light corn syrup
 1 teaspoon vanilla extract
 1 1/2 cups (about) Baker's Angel Flake Coconut

Combine egg whites, sugar, salt, water, and corn syrup in double boiler. Beat with sturdy egg beater or electric beater about 1 minute, or until thoroughly mixed. Cook over boiling water, beating constantly with egg beater (or at high speed of electric beater) 7 minutes, or until frosting will stand up in stiff peaks. (Stir frosting up from bottom and sides of pan occasionally with rubber scraper, spatula, or spoon.) Remove from boiling water. Add vanilla and beat 1 minute, or until thick enough to spread. Spread on cake, sprinkling with flaked coconut while frosting is still soft. Makes enough frosting to cover tops and sides of two 9-inch layers, or about 2 dozen cupcakes.

 1 teaspoon baking powder
 1/2 teaspoon cinnamon

Combine sugar and egg and beat until light and fluffy; add vanilla, raisins and nuts. Stir into oil-flour mixture about 1/3 at a time, mixing until smooth after each addition. Drop by teaspoonsfuls on ungreased baking sheet about 1 1/2 inches apart. Bake in hot oven (400° F.) about 10 minutes; until lightly browned. Make about 3 1/2 dozen cookies.

 Adult leader pins were presented to Mr. and Mrs. J. L. Self, Pascal Garrison, Louie Kitchens, Horace McDonald and James Davis. The banquet was prepared by the school cafeteria staff and was served in the school library. The menu consisted of ham, baked potatoes, green beans, lime jello salad, hot rolls, butter, pumpkin pie, tea and coffee.

The invocation was given by Bob Saul. The welcome and introductions were made by Dewey Estes and Doris Estes introduced the speaker of the evening, Mr. Dave Sherrill, Irrigation Specialist, District I and II, Texas Agricultural Extension Service, of Lubbock. Mr. Sherrill addressed the group

on "What You Believe" and stressed to the youngsters that beliefs and ideals are important. He compared them to stars, saying that they can't be touched, but are necessary as goals for the future.

He also brought out the point that it is more important to have a blue ribbon boy showing a red ribbon calf, than a blue ribbon calf shown by a red ribbon boy.

The hall was beautifully decorated in the 4-H colors, green and white. Tables were covered with white cloths with an accenting green stripe down the center of the cloth. 4-H'ers planned the program and prepared an eight-page program, decorated with the 4-H emblem. The speaker's stand was decorated with a large white turkey on a green background. The theme of the banquet was "We Harvest Our 4-H Achievements."

Committees for the banquet included: Decoration: Joe Kitchens, Sandra Mercer and Raye Garrison
 Program: Dewey and Doris Estes and Carolyn Garrison
 Entertainment: Dianne Davis,

Camellia Comer, Robbie Sue McJimsey, and Mrs. Robert McJimsey. Foods: Carolyn Garrison and Sandra Mercer.

Dinner music was furnished by Dianne Davis and Paula Turner at the piano. The meeting was closed as Joe Kitchens led the group in repeating the 4-H Pledge and Motto.

One of the biggest troubles with success is that its recipe is often the same as that for nervous breakdown.

PREACHING CHRIST

Jesus commanded the apostles to go into all the world and to "preach the gospel" (Mark 16:15). Paul told Timothy to "preach the word" (2Tim. 4:2). Phillip went down into Samaria and preached "Christ" unto them. (Acts 8:5)

Preaching the gospel (the good news) is to preach the word (of God), the central theme of which is Christ (the Son of God). Hence, the apostles went into all of the world preaching the word of God, the good news concerning God's Son.

What is included in preaching Christ? Is it limited to telling of the birth, life and sacrifice of Jesus? No. If it were then no sinner on earth would ever learn what he must do to be saved. On Pentecost Peter preached that Christ died and rose again. But he did not stop there. He also told his hearers to "Repent and be baptized" (Acts 2:38). Telling sinners what to do to obey is a vital part of preaching Christ.

Men are unjust when they criticize preachers for dealing with subjects other than the personal life of Christ. For a preacher to do his work he must preach all of the word of God. He must point out sin in the lives of sinners and direct them to the right way. He must defend the truth against false teachers and religious error (Jude 3; Titus 1:13). If any one refuses to expose sin or to defend the teaching of the word of God on the ground he is limited to preaching Christ he needs to broaden his vision and come to see the vastness of the work he has assumed in preaching Christ and Him crucified.

A friendly welcome awaits you at the Silvertown church of Christ.

What's YOUR Kitchen's "Color Rating"?

Beatrice West

What's your kitchen's "color rating"? If it's high, chances are you have an attractive, pleasant kitchen that your whole family can enjoy.

Famous New York color-stylist Beatrice West, who advises Caloric Appliance Corporation on kitchen color planning, has prepared this checklist to help you rate your kitchen.

Checklist table with columns YES, NO and various kitchen color questions.

Here's YOUR Kitchen's Rating:

- Count your "yes" answers. If they total: 7-8 - You should be very proud of your beautifully "color-coordinated" kitchen. 5-6 - You have an attractive kitchen. A few color changes would probably make it perfect. 3-4 - Your kitchen is basically well-planned for color. Review your "no" answers for tips on improving it. 1-2 - Better color-styling will probably improve your kitchen. Your "no" answers will guide in styling.

PERSPECTIVE

by Robert Hughes

I have never been very good at expressing appreciation. It is one of my many faults. However, I can say that I am very grateful to have the opportunity of being co-editor of the OWL'S HOOT. I consider it not only a great honor to be co-editor but also a responsibility and a duty. The editor should strive to present a school paper that will be representative of the fine talent in his school; a school paper that will build prestige for its school wherever it is read. It is to this end that I will devote my time and energy as co-editor.

This being the first week that my column has appeared in the paper, I think that I should explain why I have picked this particular name for my editorial. I have called it "Perspective" because I intend to present news, ideas, thoughts and views in a different light or angle from those which they are usually thought of. This is perspective.

I will endeavor through this presentation to help our readers see ideas and thoughts in a different light than they usually see them in. Through this, I hope to create new interests and new ideas for people who read this column. I may offend some of you in doing this. Please do not take offense easily; my intention is not to offend, but to stimulate thinking. I hope that you will discover that it can be very enjoyable to look at things in a different "Perspective."

I have only one other thing to say before I end my first editorial. Today is Thanksgiving. I have heard more than a proportionate share of griping going on in our school and our town. Every person in America should get down on his knees every night and thank God that he is alive. We in America are not nearly as thankful as we should be. We may live to regret it. I would like to leave this thought with you: Dear God, will you give us the power to comprehend the number of blessings that we have so that we may begin to thank you for them.

Leftover wallpaper makes a cheery lining for dresser drawers. Next time you are entertaining guests in your home, keep guests happy by labeling sandwiches with flags on toothpicks. Anyone who dislikes certain sandwich ingredients will be able to tell at a glance what he's getting.

To prevent last-minute dashes to the store to buy ingredients, read the entire recipe before you start to cook. Then get out all the ingredients and utensils. If anything's missing, you'll be able to get it before you start mixing. Keep your shoes "in shape" by stuffing tissue paper in the toes each night.

When a ship finally put into a small island where a distress signal was noticed, the crew found two women and the corpse of a man, who had died recently. One of the women explained his death with:

"He simply wore himself out and died from exhaustion." The captain could not grasp it all, so the women continued:

"You see, he kept running from spot to spot to tear down the distress signals we kept raising."

Mr. Snell

by Garner Garrison

The Eighth Grade Classes had a meeting to decide the long awaited question of giving money for the Scoreboard Fund. The decision was to give to the fullest of our benefit but the amount was heatedly debated and the exact amount was finally set.

The class meeting finally broke out into a party meeting with the pupils discussing the end of school picnic.

We then started discussing the Christmas Party and it broke up into a riot.

It was a rather unusual meeting as we had two presiding officers.

The Junior High boys and girls beat Turkey two games Thursday night. The final score was boys: 30 - 15 and girls: 53 - 7.

Mrs. Snell's Fourth Grade had quite an active week in art and science. One thing led to another as they tried to dissolve everything in water. They tried chalk, wood, baking soda, salt, and sugar. When they used cake coloring, they found out that they could make green by mixing yellow and blue.

They have been working on dried arrangements. Of great interest was the cat tail Ronnie Sharp brought and the seed that kept coming out of it.

WHAT IS THANKSGIVING?

by Butch Norris

Did you ever stop to think about Thanksgiving? What does it mean to you, just another holiday that you do not have to work on, or does it have a religious meaning? Thanksgiving is the day set aside from all the other holidays especially to thank God for all the wonderful things that He has done for us in the past year. There are too many people though who don't know the real meaning of Thanksgiving. Or if they do know the meaning of it, they do not show it. The true meaning of Thanksgiving is to thank God for everything He has done for us.

The people of the United States of America ought to feel privileged to have a special day for this purpose. Not every nation in the world has this privilege as we do. I hope that you have learned the real meaning of Thanksgiving and show it on Thanksgiving Day.

LaQuetta why are you denying things about you and Robert Rhode? You know they are true. Jerry Williamson, why don't you go ahead and call Edith or don't you know her phone number?

Tom would like to know if it is really onions that make your ears itch, Miss Bonifield? Or is it something else?

The high schools teachers have asked Tom to tell Mrs. Miller and the 3rd year homemaking class how much they enjoyed the Hawaiian luncheon last Wednesday. Tom still thinks they should have had at least one grass skirt on the menu.

Ole Tom wonders if Kenny Thornton has taken up hair styling. It seems that Kenny was doing a little designing work on LaQuetta the other day in English class.

Tom thinks that some of the following sayings fit teachers in high school. Do they? Miss Bonifield—getting up early is just a question of mind over mattress.

Mr. Verden—some people are like buttons—always popping off at wrong time.

Mrs. Miller—some people are like blotters. They soak it all in, but get it backwards.

Mr. Rampley—some people are like coffee, 90% of the active ingredient has been removed from the bean.

Mrs. Redin—some minds are like concrete, all mixed up and permanently set.

Mr. Mayfield—the best way to get to heaven is to turn right and go straight forward.

JUNIOR HIGH STUDENT COUNCIL

The Junior High Student Council had meetings on November 8 and 15. The major items were to prepare for the two Thanksgiving programs which were held on the 10th and 17th. The program held on the 10th was given by Mrs. Cole's Seventh Grade girls. The other program was given by Mrs. Alexander's Fourth Grade. I know we all enjoyed these programs, and we thank the parents for coming out to these programs.

This six weeks, we have only 3 days for tests because we get out Thursday and Friday for Thanksgiving. Our next Student Council meeting will be the 29th of November.

Since Blanca checked out, we again have 32 pupils on our roll. Our room is a little crowded, but we are working hard and hoping this good attendance continues.

FHA Receives a Letter From 'Adopted' Girl

The Silverton FHA Chapter has undertaken the biggest project of its history. We are supporting a twelve year old girl from Italy, who was adopted through the "Save the Children Federation." In addition to the \$150.00 per year for her support, it is our hope to send her clothes which the girls will make especially for her. Here is a translation of the letter that the chapter received from Maria, the Italian girl.

Dear Friends,

I have received your money gift of L. 3.100 through the Italian Welfare Office in Rome and I wish to thank you with all my heart for your great kindness. I have immediately used this money to buy a season ticket to the train to go to school, as my school is very far from our home, and I have to take the train and afterwards a car (a bus). I like going to school and love to study. If I will be able to do it, I would be so happy to become a teacher and be able once to help my parents financially. I would be so happy to be in correspondence with young people, especially with all of you, I am sure you must all be very good and dear people.

I wish you all the best and hope you are in good health.

With much affection I am truly yours, Maria Carmela Romano

Let us all give thanks during this week of Thanksgiving that we have been blessed by God enough that we may help others around the world that have not been as fortunate as we. Especially let us thank God for our wonderful schools in America.

FROM THE OFFICE . . .

Mr. J. S. Hinds, Silverton Public Schools Superintendent, attended the Panhandle School Administrators meeting at Amarillo recently. The main topic of discussion was "Certification of Future Administrators." Mr. Hinds reports that he had a very entertaining and educational experience.

Announcement has been made by the Silverton School Officials that an "Athletic Banquet" will be held in the spring of the coming year instead of having the annual Football Banquet. This "Athletic Banquet" will honor all persons taking part in athletics during the year instead of only the football boys as has been the custom.

The teachers of Silverton High School have been doing a self evaluation of the Silverton Public System in the past weeks. Many of the teachers have already turned in their reports. When all reports have been turned in, a summary of our school will be made.

S. H. S. SPOTLIGHT

The S. H. S. Spotlight is a new feature of the "Owl's Hoot" this week. We hope that it will become a regular feature.

Every week or so the paper staff will throw the S. H. S. Spotlight on some person in school. The person may be under the spotlight to reveal some good quality that deserves publicity; on the other hand, the S. H. S. Spotlight may be thrown on some people who need to have their rude habits brought out into the light. The Staff members of the OWL'S HOOT are always on the lookout for a polite gesture, a thoughtful act, or perhaps someone doing something he shouldn't. One of the people observed will be put under the S. H. S. Spotlight; whether it is an honor or an embarrassment to them.

This week the S. H. S. Spotlight falls on Carolyn Frizzell. Her friendly "Hello" brightens many otherwise dreary mornings. Rare is the time that she fails to greet you and call you by your name. Carolyn looks good under the Spotlight; how would you show up if you were featured next week?

The Worst Thanksgiving I Ever Had

by Carolyn Yancey

The worst Thanksgiving I ever had was three years ago. To be exact, it was in 1958.

When I got up that morning, brother, did I have the work to do, for you see the whole family was sick with the flu, except me and they said I was the lucky one, boy, was I lucky! I got to clean the house, cook the dinner, wash the dishes, and tend to the family all day long. The first thing, I put the turkey on to cook, and while the turkey was cooking, I cleaned the house and washed the breakfast dishes. Then I thought I would sit down and rest a while until the turkey was done, but you can imagine what happened; I fell asleep and almost burned the turkey. I forgot to give my sister her medicine on time and was late getting dinner ready. About the time I got it ready, four or five car loads of people drove up, and they were all my mother's relatives who had come to eat dinner with us.

After dinner, I had all the dishes to do again, the house to clean again, and I had to make some fudge for about 50 people — that wasn't easy to do. I visited with all my folks for a while and then it was time for them to eat supper, and afterwards, as you might guess, I had to wash the dishes again. About 9:00, they all went home, and I thought I might get some rest—but not me, I had to stay up all night and give my sisters their medicine every two hours. But, I guess, really deep down inside of me, I was glad I had a family that I could take care of.

The Owl's Hoot

"I'm not really late, boss," said the tardy secretary, hanging up her hat. "I just took my coffee break before coming in."

F.B.L.A. Sets Fine

by Jerry Williamson

The Future Business Leaders of America met in a regularly scheduled meeting on November 17.

Plans for a Christmas party were discussed and it was decided to make arrangements later.

A fine of fifty cents was set as a penalty for missing an FBLA meeting intentionally. This fine is justifiable in view of the practice of missing meetings which some members do so that they may do more important things—like loafing. If members aren't interested enough in the club to attend the regular meetings, they will be compelled to pay this fine. Also, those not attending meetings will be deprived their copy of the paper until the fine is paid.

Words like "convivial" and "social" just naturally spring to mind when you see the hot Dr Pepper's effect on your friends. Dr Pepper's delicious blend of fruit flavors pops out to tantalize the taste buds. Whether it's a small social gathering or the whole gang, Dr Pepper on the hot side keeps everyone on the right side of a great good time!

How Lucky I Am!

by Sheila Jarnagin

Lately, I've begun to realize how lucky I am, as well as everyone else living in the United States. We take for granted all the good things that we have and never appreciate to much extent.

Students of other less fortunate countries are quite different, however. They are greatly thankful for any knowledge or help they receive. They are grateful for clothes, money or anything they own, which usually isn't much. A fine example of this is the Italian girl

that the FHA Chapter had adopted. She wrote us a letter recently to thank us for the money she received. We might have spent the money foolishly, but she spent it to buy a ticket on a train to go to school. She really enjoys school and doesn't mind studying. Here, a lot of us dread it.

I've always gone to school and don't feel as though I am as thankful as I should be for this wonderful privilege. This girl also appreciates her parents enough to want to be a teacher and help them financially. I'm proud of her respect and integrity, but I am still the

Student Council News

The Student Council met last week and decided to donate fifty dollars to the Scorelock Fund.

Each year the Student Council does something to improve the school. This year, it has been decided to plant shrubs in front of the school and re-plant the grass on the football field. The Student Council feels that these things will improve the condition and appearance of the school grounds.

A National Day

by Jay Towe

Thanksgiving is a national holiday celebrated throughout the United States. Thanksgiving day came forth in gratitude for the ending of a difficult year and for a successful harvest. Thanksgiving was first held at Plymouth. At the first thanksgiving dinner there was a lot of people. Relatives and Indians were there. The dinner was a big one. There was turkey and dressing and pumpkin pie and a bunch of other good food. Because of this we usually invite our relatives over for dinner. We have turkey as the main dish and pumpkin pie for dessert. Like the pilgrims, we have a big meal to celebrate a successful harvest. We also have reunions. Our friends and relatives come over and you usually do something that your company likes to do. In some states people celebrate thanksgiving by having a turkey hunt.

In December, 1941, Congress by joint resolution approved by the president, set the fourth Thursday of November as Thanksgiving Day.

Let us consider the fascinating case of a 12-year old who had his first date with a girl the other evening. He was tearing around the house, getting set for the great event, when his mother reminded him he hadn't taken a bath.

"Bath?" he howled, outraged. "I got no time for a bath! I've got just five minutes, and you have to teach me to dance!"

The two gray-haired old ladies were spending their summer vacation in Maine. Driving down the main street of a staid New England town, they made an illegal turn and ignored the indignant policeman's efforts to stop them. He finally caught up with them a block later in front of the bank.

"Didn't you hear my whistle?" he asked angrily.

The old gal at the wheel looked at him demurely and said, "Yes, I did, officer, but I never flirt when I am driving."

The policeman was astonished. Then he broke into a broad grin and said, "You win, lady. Drive on!"

Here They Come

by Jerry Williamson

The tension increases. The minute hand approaches twelve o'clock. Everyone sits on the edge of his chair. Everyone is ready. The seconds tick off. Sweat pops out on everyone's face as they wait the eternity of seconds.

Then it happens! The halls are filled with screaming, hysterical people. They run down the stairs as though some horrible monster was breathing down their necks. Many are crushed in the mad rush. If anyone falls or slips, he is doomed. He is trampled to death by those behind him. Children or innocent bystanders who get in the path of this screaming mob are also doomed. Doors are ripped from their hinges as the crowd surges by.

What are the above paragraphs describing? The daily routine that Silverton High students go through when the noon bell rings.

We're losing two or three students a day to this 'meal-time hubbub.' A few more weeks of this and there won't be any students

"Ruth," moaned the long suffering husband, "you promised you wouldn't buy a new dress. What made you do it?"

"Dear," replied the modern Eve, "the Devil tempted me."

"Why didn't you say, 'Get behind me Satan?'" hubby asked.

"I did," Ruth replied sweetly, "and then he whispered over my shoulder, 'My dear, it fits you just beautifully in back.'"

for the teachers to teach. That is, if any teachers survive.

It must be that students are more highly competitive today than they were a few years ago. So highly competitive, in fact, that they would fight over half a morsel of food or the privilege of getting that morsel two minutes sooner than the next feller. One thing that puzzles me — this spirit of competition never shows up in the classroom.

I expect that any day now our Principal will be run down by this mob and will become another martyr in the "Cause for the Big-ger Stomach."

A farmer had arranged to have his aged mother cared for in a nursing home, where he had been visiting her twice a week.

Each time he brought her a special lunch of delicacies from the farm, including a bottle of fresh milk, in which he slipped a little brandy — on the advice of the family doctor.

The old lady was always delighted with the lunches, and one day, as she sipped the milk, she said gravely: "Oh John, don't ever sell that cow!"

Juvenile delinquency began the day the woodshed was replaced by the garage.

"Heard you had a terrible time with your jalopy."

"Yeah."

"What happened?"

"I bought a carburetor and saved 30 per cent on gas, a timer that saved 50 per cent on gas and spark plugs that saved 30 per cent on gas. After I drove 10 miles the darn gas tank overflowed."

Many women judge a man by the company he owns.

Let us all give heartfelt thanks for the heritage of freedom that is ours.

Let us resolve to keep America a land for which our children will still give thanks.

I AM THANKFUL, GOD

by David House

The fourth Thursday of November, Thanksgiving Day, is a day of religious observance, set apart to give thanks to God for the blessings of the past year, as well as an occasion for family reunions, enormous dinners, and festivities in the home. To me, Thanksgiving Day is a day to thank God for this wonderful world and the blessings of the preceding year. Thanksgiving Day was first celebrated by the pilgrims in Plymouth on a pretty day in 1609. I think the pilgrims realized the help God was giving them and decided to have an enormous dinner and invite the Indian village that gave them so much help in growing their crops. When all the Indians and pilgrims were present, they began to eat and to thank God for the wonderful blessings and the plentiful food. I believe we should praise God also for the plentiful food that he gave so the pilgrims would not die of starvation and cold, and so the pilgrims could establish a country where there was free religion and bountiful thankfulness for his wonderful help to the pilgrims. Even though a few did die, God gave them new warmth and security plus more determination than ever before.

Today, in the United States, Thanksgiving Day is becoming more of a rest day rather than a day to worship God as it was originally observed. I believe that Thanksgiving Day should be more religious than it is in the United States today.

If absence really made the heart grow fonder, a lot of people would miss church more than any place in the world.

Original Setting Rebuilt

A full-sized replica of the Alamo and parts of old San Antonio, as they looked in 1836, has been built on a ranch near Brackettville. This Kinney County town is located in southwest Texas, near the Mexican border.

Built for the biggest motion picture Hollywood has ever made, John Wayne's production, "The Alamo", this century-old setting was constructed from plans uncovered in Spain. The finest adobe craftsmen were imported. No false fronts or imitation work was performed. Walls are as much as three feet thick.

The setting is now open to the public so that tourists may see the lifelike replica of this historic event. Old Fort Clark has been converted to a guest ranch to house the overflowing tide of visitors.

Sam Said It

Fort Worth often is referred to as "Where the West Begins." Know where this saying originated?

It started after a meeting held with the Indians by Sam Houston, where Houston promised them everything west of Fort Worth.

Fort Worth is a good place to start, or end, your trip through intriguing West Texas, as interesting in its modern facilities as it is in its history.

Brownsville's Jose is First

Jose Ayala is its name and its number is No. 1. Jose is a miniature, but honest-to-goodness, railroad locomotive.

Today it is a tourist attraction at Brownsville, in Cameron County, on the southern tip of Texas on the border of Mexico.

Around the end of the 1800's, "Jose" was the first locomotive to Three hundred and seventy may road cars over the Rio Grande Railroad coming from Port Isabel into Brownsville.

Eggs in Your Mail

A post office may seem like an ordinary building to most anyone, and certainly not a tourist attraction. But there is one post office in Texas that really is a sight to behold.

It is referred to as "The Federal Building" and is east of Huntsville at Point Blank, Texas, in East Texas' San Jacinto County.

Don't expect to be awed by its beauty or immense size, but do be prepared for a little chuckle. After all, what do you expect from

Large Enough to En-Gulf

not sound like a large figure to most big-minded Texans, but it's quite a few miles for such a pleasure-packed shoreline.

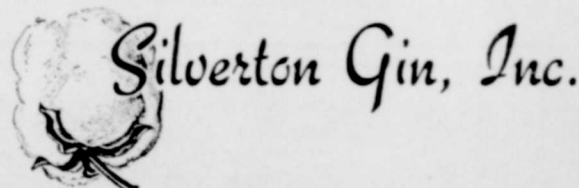

We're talking about the salt water shorelines on the Gulf of Mexico, which affords thousands and thousands of Texans and visitors ideal recreation and vacation facilities each year.

Bennie Loyd (Blackie) Stidham is a patient in St. Anthony's Hospital in Amarillo. It is reported that he is suffering from a broken pelvis and a broken leg. The injuries were sustained in an auto accident near Tulia on Wednesday night of last week. The automobile he was driving was totally demolished. Floyd (Blue) Stidham visited his twin brother at the hospital Sunday afternoon. He reports that they planned to put a pin in the bone early this week.

Mr. and Mrs. Jerry Davidson of Montreal, Canada, spent Sunday and Monday with Mr. and Mrs. L. L. Thornton. Mr. Davidson is minister of the Church of Christ at Montreal. He spoke at the evening services of the local church Sunday.

FOR FOOD AND CHERISHED LIBERTY,
FOR HOME AND FRIENDS AND FAMILY,
FOR STARRY NIGHTS AND GOLDEN DAYS,
WE LIFT OUR HEARTS IN GRATEFUL PRAISE,
FOR LOVE THAT SHADOWS FEAR,
FOR LIFE AND LIGHT AND LENGTH OF YEARS,
AND FOR THY WORD,
WE THANK THEE, LORD.
