All Around the Town

Let's put the Wright man in the U. S. Senate. The hardest-campaigning candidate in the race, Jim Wright, is the man we have selected to endorse in the special senatorial election to be held on April 4.

Jim Wright, even as a youth, knew what he wanted to do. Even as far back as junior high school he wanted a career in public service.

Now, at 38, Jim Wright is well on his way to becoming a prominent national figure. Already he has spent fourteen years, almost half of his life, in distinguished public service.

He gained recognition on the Washington scene almost as soon as he entered the corridors of the House of Representatives. After only six years in Congress, he is recognized as one of its most eloquent and effective members.

Proving himself to be a leader of exceptional ability and capacity, Wright has won praise from the nation's leading newspapers and, surprisingly enough, from members of both political parties. One of his leading accomplishments, the introduction of a plan for a systematic retirement of the country's debt, focused national attention on him almost overnight.

In his fourteen years in public service Jim Wright has been associated with all levels of government—local, state, and national.

As a candidate for the U. S. Senate, he offers more actual legislative experience than any other candidate in the race. His record of performance in Washington has been exceptional, having been present and voting more than 98% of the time.

Born in Fort Worth on December 22, 1922, Jim was the son of parents neither rich nor poor. He might have been any boy growing up in any middle-class Texas neighborhood in the years prior to the great American Depression.

After public schooling, in Fort Worth and Dallas, Jim attended Weatherford College and the University of Texas, where he majored in government and economics.

Then world crises rudely interrupted his career.

Three weeks after Pearl Harbor, he enlisted in the Army as a private, later finished the Aviation Cadet program and was commissioned, and flew 34 combat missions in B-24's in the South Pacific. For outstanding service to his country he was awarded the Distinguished Flying Cross and Cluster.

After World War II, he obtained a GI business loan and purchased an interest in an advertising business. But all this time his ambition was to be in public life remained with him. He went to Austin as a state representative in 1947, serving in that post until 1949. It was during that time he became thoroughly familiar with state government and its workings.

Later, in 1949, he was elected to fill part of an unexpired term as Mayor of Weatherford, a small, but bustling city west of Fort Worth. He was re-elected Mayor in 1950 and again in 1952, building an outstanding record of administration of a progressive local municipal government.

In 1952, he was chosen by the City Officials to serve as President of the League of Texas Municipalities, an organization representing more than 600 incorporated towns and cities in the State.

A year later, in 1953, another honor was bestowed upon him when he was chosen one of the Five Outstanding Young Men of Texas by the Junior Chamber of Commerce.

With this background he made his first race for national office, seeking to unseat longtime incumbent Wingate Lucas, U. S. Representative from Texas' Twelfth Congressional District.

Dr. Leon Hill

REVIVAL TO OPEN AT BAPTIST CHURCH

You are invited to hear Dr. Leon Hill, Texas humorist, philosopher, evangelist and pastor, of Amarillo, Texas, at revival services at the First Baptist Church in Silvertown. Services will begin Friday, March 24, and will continue through April 2.

W. E. Galemore of Midland, Texas, will direct the singing for the services.

Prayer groups will meet each evening at 7:30 o'clock. Preaching services will be each morning at 10:00 o'clock and each evening at 8:00.

All are invited to attend these services, according to G. A. Elrod, pastor of the church.

Seven In School Trustee Race

Seven had filed for positions on the official ballot in the up-coming school trustee election before the deadline for filing.

J. W. Reid, Jr. and W. E. Schott, Jr. will be running for re-election, and others in the contest are Ray Teeple, J. L. Self, Carroll Garrison, Clyde Mercer and Louie Kitchens.

H. A. Cagle is running for County School Trustee-at-Large.

The election will be held in accordance with the statutes on the first Saturday in April.

MANY ATTEND SCHOOL OPEN HOUSE

According to Carver Monroe, who acted as chairman of Public Schools Week in Silvertown this year, some 623 school patrons and interested citizens visited the public schools last week. Most of the visitors registered in the grade school and only a small number were registered in high school; however, it was determined that one of the largest crowds ever was on hand for the senior play last Thursday night, and many of these visited other parts of the school while there. Their failure to register was not an indication of a lack of interest in the local public schools.

Old Time Holy Ghost Revival In Progress

A revival is now in progress at the local Assembly of God Church in Silvertown. According to the Pastor, Rev. J. D. Holder, they are really in an old-fashioned Pentecostal Revival with Evangelist J. F. Eades and wife.

Rev. Holder explains that this is an old fashioned get-back-to-God Revival. He also extends a cordial invitation to YOU to attend each service at 7:30 nightly.

WEAKS IS APPOINTED GAS CHAIRMAN

Oscar Weaks has been appointed temporary chairman to organize a Plains Irrigation Gas Users Association in Briscoe County. It is necessary for the gas users of the county to be organized in order that they may have representation in the state government.

Briscoe has lagged behind other counties which have already organized.

The directors of all the gas lines in Briscoe County are asked to meet with Oscar Tuesday night, March 21, in the County Courtroom at 8:00 p.m. to make further plans for the organization in this county.

Mrs. J. A. Ziegler fell at her home Thursday of last week, injuring her pelvis bone. She was taken to Tulia for examination, but is at home where she is to rest quietly in bed for about two weeks.

"Unchained Frontier" To Be Shown

"Unchained Frontier" the all-color documentary film produced by the KGC Farm and Ranch Department in cooperation with the American National Bank of Amarillo, has been booked for showing to the Briscoe County Farmers Union on March 20, 1961.

The meeting will be in the community room of the Production Credit Association office at 8:00 p.m.

The public is invited to attend this meeting.

RODEO ARENA TO BE REBUILT

According to Fred A. Strange, Commander, the VFW is planning to rebuild the rodeo arena within the next month. It will take between \$1,000.00 and \$1,500.00 to replace the lights, arena, lower catch pens and some of the bleachers. The VFW has about half of the money that will be required.

Several of the merchants have said they will help when the job is undertaken. The VFW has made definite plans, and now the merchants and residents of Silvertown are asked to help with their contributions. It has been definitely said that the help needed to rebuild will be all that will be asked of the merchants. After the rebuilding is completed, there will be no further drives for donations for the project.

The VFW will meet again Monday night, March 20, and they will be happy if several donations have been made before then. Anyone who donates money can be assured that he will receive spot advertisements during the show when the rodeo is held.

Anyone wishing to donate to this most worthy cause should mail it or bring it by the City Hall.

WINNERS REVEALED IN PIANO CONTEST

During the month of February the piano students of Mrs. Robert J. Beck have been in a practice contest. The main purpose of this contest is to prepare everyone for the annual recital in May, but those who enter the National Piano Guild Audition will benefit especially.

The students from Turkey, Silvertown and Quitaque were divided into five groups according to their school grades. Each student kept a day-by-day record of his practice time and at the end of each week this was recorded on large posters. It was a thrill to see who was ahead each week. The student leading his group received a bright red star by his name.

The time has come to reveal the winners for the whole month of February. In Group 1 the winner is Debbie Bailey with 16 hours. Debbie is in the second grade and she began piano last summer. Close behind Debbie was Neva Dale Morrison with 15 hours.

The winner of Group 2 is Gary Young with 28 hours. Gary is the son of Mr. and Mrs. L. O. Young of Turkey. This is Gary's second year of music. He is in the 4th grade. Sherry Stark was second highest with 15 hours.

In Group 3 the winner is Lynette Taylor, practicing 22 hours. This will be Lynette's 3rd year to enter the National Guild Auditions. Second was Peggy Holman with 16 hours. Both of these girls are in the 5th grade.

A new student wins Group 4, Melinda McWilliams with 22 hours. Melinda began piano in January of this year. Close behind was Pam Curtis with 21. They are both in the 6th grade.

The winner of Group 5 is Venus Gillespie, Jr., with 23 hours. Second is Pam Williams with 21 hours. Pam is the daughter of Mr. and Mrs. B. D. Williams of Turkey. Venus and Pam are eighth graders,

MEMBERS OF THE BRISCOE COUNTY 4-H COUNCIL witness the signing of the Proclamation of 4-H Week in Briscoe County. County Judge, J. W. Lyon, Jr., signs the official proclamation, as Max Garrison, Rayo Garrison, Sandra Mercer, and Carolyn Garrison look on. —Briscoe County News Photo

4-H Week In Briscoe County Is Proclaimed

Citizens Warned To Be Cautious Of Peddlers

Mayor Glen Lindsey has issued a warning to the citizens of Silvertown to be on the lookout for a number of transient salesmen who have been causing trouble in this area. These salesmen have been soliciting magazine subscriptions, and in some instances they have become extremely rude to those on whom they are calling.

Everyone is asked to cooperate with the City, and if you chance to encounter these people you are asked to jot down any information you may be able to get, such as their car license number, etc.

This information should be passed on to the Mayor, and through this method it is hoped that this rash of unwanted persons can be halted in our community.

Haun Kite

Smith Kite

Baseball Club To Meet Thursday Night

There has been considerable interest and inquiry concerning semi-pro baseball for the coming year. League President, Oscar Weaks, reports more interest shown in all the community as well as the merchants and there are more players expressing their desire to play with the Silvertown Club.

Oscar contends that Silvertown can have a very competitive team and is asking everyone to give loyal support to the Silvertown Club. He is asking that the directors, managers, players and everyone interested meet at the courthouse this Thursday night, March 16, at 8:00 p.m. to organize and elect officers for the Silvertown Club.

The Irrigation League won second place in the NBC state tournament for the 1960 season. The other towns in the League are ready to go and have requested a League

GOSPEL MEETING TO BE LED BY KITE BROTHERS

A Gospel Meeting will be held at the Silvertown Church of Christ beginning March 19, and continuing through March 26.

Conducting the preaching services will be Smith Kite, and his twin brother, Haun Kite, will direct the singing for this meeting.

Weekday services will be held at 7:00 a.m. and 7:30 p.m. Sunday evening services begin at 6:00 p.m. A cordial welcome awaits you at all of these services.

Mr. and Mrs. Rex Jones, Ricky and Rocky of Lubbock, were weekend guests of her mother and grandmother, Mmes. Virgil Baldwin and Dan and Mrs. W. A. Rowell. Mr. and Mrs. Jack Baldwin and Barbara Ann of Amarillo, visited them Sunday afternoon.

and this is their 3rd year of music.

The five winners received gold trophies with their names and the year engraved on them. Mrs. Beck has given all students congratulations on their good work.

NATIONAL FARMERS UNION CONVENTION MEETING THIS WEEK

National Farmers Union Annual Convention is convening in Washington, D. C., this week. The convention will close today. More than 200 members of Texas Farmers Union are attending, including Mr. and Mrs. Woodrow Bice and Jeanette and Mr. and Mrs. Bernice May of Silvertown. Also making the trip from Briscoe County are Mr. and Mrs. Ike Reed and Mr. Jim Reed of Quitaque.

The theme of the convention has been "Crusading for Agricultural New Frontier," with

Charlie Parker injured his ankle recently when he stepped off a porch onto a small rock and turned his ankle.

President Kennedy and Vice President Johnson addressing the convention.

The convention heard addresses by three cabinet officials which included Secretary of Agriculture, Secretary of State and Secretary of Labor. The convention also heard an address by Food for Peace Administrator, Honorable George McGovern.

Signifying the unanimity among three of the big four Farm Organizations of the United States on Farm Programs is the fact that the heads of the National Grange, and the Federation of Cooperatives sat on the stage with Farmers Union officials when Secretary of Agriculture Freeman addresses the Convention.

CULLEN JENNINGS, outstanding Swisher County 4-H Club member and chairman of the Texas 4-H Council, left, presents to his State Representative, H. G. Wells, a 4-H paperweight. Jennings was in Austin recently representing the 4-H Council. He was present for the signing and issuance of a proclamation by Governor Price Daniel, designating 4-H Week in Texas. Jennings is a sophomore student in the School of Agriculture at Texas Tech.

gressional District.
 After a vigorous campaign he was elected by a 15,000 vote majority. He has since been re-elected three times without opposition in his district.

On January 34, 1955, Representative Wright made his first speech in the House opposing a move to kill the Federal Soil Conservation program.

Wright has been author of an unusual number of public bills. In 1955, he authored Public Law 170, which permitted churches to make freer use of second-class mailing permits.

In 1956, he was instrumental in obtaining passage of the "Pay-As-

You-Go" Federal Interstate Highway Act.

As Chairman of a subcommittee investigating Southwestern flood conditions in 1957, he was able to get several bills passed calling for quick, corrective action. In the same year he wrote P. L. 85-213, extending the Vocational Education Act. He also introduced four recommendations based on the Hoover Reports which encouraged the elimination of duplicate and wasteful government spending.

In 1958, the year he was instrumental in obtaining passage of the important Omnibus Rivers and Harbors Act, he was chosen by a national magazine as one of the 15 "Bright Young Men of American Politics."

Wright is particularly concerned with interest paid each year on

Carolyn Garrison prepares her garden for 1961.

Gardening Is Carolyn Garrison's Pet Project

Carolyn Garrison, daughter of Mr. and Mrs. P. L. Garrison, has been in 4-H Club work for seven years. During these seven years she has carried eight different projects, of which the most outstanding have been garden, leadership and clothing.

Carolyn's garden record has won the district contest three years. Once again, as the picture indi-

cates, she is trying for this honor and also for the state contest.

Beth Joiner was in Silvertown last Friday attending to business. He reported that he and Mrs. Joiner have moved three times in the three weeks since they left Silvertown. They are now making their home in Clarendon.

Her leadership record is almost as good as her garden. She has been co-chairman of the county council, has been to the district leadership camp two years, has been to the state leadership lab, and has given many demonstrations on different phases of 4-H work.

Carolyn has been a winner each year in the County Dress Revue and enjoys making many of her own clothes.

This year Carolyn is reporter for both the County-wide 4-H Club and the County 4-H Council.

Baseball Club To

CHILDREN KEEPING YOU FROM WORSHIP

Are you letting your children keep you from worshipping God? Some with small children find it more difficult to concentrate and take part in worship and let distraction discourage them from attending at all. No doubt, those who drop out under such conditions resolve it will be temporary, that when children are older mother and father will assemble to worship again.

No one knows any better than a preacher's wife how difficult it is to take care of babies for she must take care of hers alone in Bible study and worship. Yet she is among the most consistent when it comes to being present. Attending with small children can be trying but not impossible. It takes a determination to do what is best rather than what seems easiest at the moment.

The Hebrew writer said, "Not forsaking the assembling of ourselves together, as the manner of some is . . ." (Heb. 10:25). It is God's will that His people meet regularly to worship. It is no little thing to forsake worship. God did not bless our homes with children to keep us from serving Him as we should. We have been entrusted with children and are to bring them up in the right way which includes teaching them how to worship God. Will you not bring your children with you to worship next Sunday at the Silvertown Church of Christ.

Dewey Estes and his Hereford calf

What I Have Accomplished In 4-H Club Work

by Dewey Estes

I joined the Briscoe 4-H Club in Silverton in September, 1953. I have had projects in swine, beef cattle, garden and leadership.

I have profited from my swine and beef cattle by the teachings that one receives from training, grooming and showing these ani-

mals. By having raised swine and beef cattle, I know something about what to look for in livestock judging.

My garden has been a teacher and a money saver. I have learned when to plant the different vegetables, insects to watch for, and the proper insect killer to use. I have learned the proper stage to water the plants and also the proper time to harvest.

I joined the livestock judging team in 1956. I believe this has been a great help to me. If I decide to be a rancher I will be better able to select animals which will gain better and bring a higher

Please Return The Stock Tank

price on the market.

I believe that 4-H has helped me to be more what I want to be. I believe that 4-H has helped me to gain valuable knowledge that will help me throughout life and has helped me to become a better citizen.

ARENA DRIVE IN

HEROD THE GREAT

Thursday and Friday
March 16 and 17

The exciting and suspense-packed story of Herod, the King of Judea who ruled at the time Christendom rose, has been colorfully and dramatically brought to the screen in "Herod The Great" an Allied Artists release which will show at the Arena Drive In

in Silverton Thursday and Friday. The title role is filled by Edmund Purdom, who has appeared in top pictures filmed both in Hollywood and abroad, and Sylvia Lopez, the most beautiful of European actresses, stars as his wife, Miriam.

Others in the brilliant cast include Sandra Milo, alluring Italian beauty and the great actor, Alberto Lupu. Filmed in Totalscope in Eastman color.

TEN WHO DARED

Saturday, March 18

One of man's mightiest adventures—the conquest of the roaring Colorado River through the Grand Canyon—has been filmed by Walt Disney as a full length technical screen production.

Titled "Ten Who Dared", it is the saga of Major John Wesley Powell, one-armed scientist and fearless explorer, who guided an expedition down the uncharted Colorado in 1869.

John Beal plays Powell, the man who led nine others on a mission tense with danger, mystery and excitement.

His companions in the drama are Brian Keith, James Drury, Ben

Johnson, R. G. Armstrong, David Stollery, L. Q. Jones, David Frankham, Stan Jones and Dan Sheridan.

The authentic journey was filmed along a 370-mile stretch of the Colorado from Utah to Lake Mead. Six years of planning went into it. A picked crew headed by associate producer James Algar fought through the raging river through the Grand Canyon. Their cameras captured some of the most awesome, inspiring scenery ever filmed.

Powell's original exploit earned him Congressional honors. Of the ten who dared the unknown, three vanished in a mystery that is still unsolved.

"Ten Who Dared" was directed by William Beaudine and is released by Buena Vista.

G. I. BLUES

Sunday and Monday
March 19 and 20

Elvis Presley was demoted in military rank and received a salary cut for his starring role in Hal Wallis' "G. I. Blues." The Paramount musical comedy opens on Sunday and Monday at the Arena Drive In in Silverton.

Presley, who held the rank of

sergeant while on active duty, is "demoted" to the rank of specialist in the Technicolor production introducing 10 new tunes sung by the idol of the teen-age set.

Directed by Norman Taurog, "G. I. Blues" which relates the escapades of a group of American soldiers in peace time Europe, also stars Juliet Prowse, dancing sensation of the film, "Can-Can", and features Robert Ivers, Leticia Roman and Sigrid Maier.

NEWS NOTES METHODIST

Miss Betty Campbell of Lamesa and the General Board of Missions of the Methodist Church spoke Sunday afternoon to the Caprock Sub-District of the Methodist Youth Fellowship and the local Methodist Church on Missions in the Congo and Cuba.

Quitaque and Turkey Methodist Churches were well represented by groups of laymen and women.

The Silverton Methodist Youth Fellowship won the attendance banner for this month.

The local MYF served refreshments of cokes and cookies to the Sub-District Youth and the Women's Society served cake and coffee at the close of Miss Campbell's address.

Commissioners A. D. Arnold and Milton Dudley attended a meeting of Panhandle judges and commissioners at the Herring Hotel in Amarillo on Tuesday.

COUNTY 4-H'ERS

FOR THEIR OUTSTANDING

ACHIEVEMENT.

NANCE'S FOOD STORE

PERSPECTIVE

by Robert Hughes

I am directing this editorial not toward the students, but toward their parents; and if you parents at home have taken the time to start reading this editorial, I hope you will take time to finish it because what I have to say will not take long.

In my last editorial I criticized some of the students in school because they said they were bored by school. I felt sure that during Public School Week their parents would set a good example for them to follow by showing how interested they were in what their children were doing, that hundreds of parents would visit in our school to see where and how their children spend the large majority of their waking hours. I was positive that the parents would show their children how wrong they had been to be bored.

I was wrong. I can understand why students would be bored by school when their parents don't even know or care what the inside of the building looks like when school is going on. How could students be expected to be excited about school when their parents don't care enough about it to take a few minutes off and see what goes on during the day? For all some parents know their kids sit and twiddle their thumbs all day. They can't say this isn't true because they have never been at school to find out.

I know that a lot of you are saying, "Don't say that to me, bud; I visited school Thursday afternoon." Maybe you did visit school Thursday afternoon, but did you come because you wanted to see how your child was being taught or because you wanted to go to a chicken supper or a play?

Did you bother to come during the day while any of the classes were going on? Did you come and sit where your children sit every Monday through Friday? Did you hear and see how they were being taught? Did you eat where they eat or relax where they relax? Did you come and see democracy in action? Did you care enough to see for yourself? The large majority of you didn't.

Student Council News

Everyone probably noticed the attractive "Welcome to our school" tags that were worn by many of the students during Public School Week. Tags saying "We have visited our school this week" were also handed out to all visitors who registered at school the last week.

The money to buy these tags was donated by the Annual Staff, and the project was sponsored by the Student Council.

A man looking at some neckties tossed one or two aside contemptuously. He noticed that the clerk put those he had so positively rejected in a separate box.

"What becomes of those?" he inquired.

"We sell those to women who come in here to buy ties for men."

The Day I Went To The Circus

A Fairy Tale by Sharon Weaver

Yesterday my Daddy took me to a great big place that had a blanket over it. Daddy said it was a circus, but I thought it was just a big house full of animals. The man that was in jail took our money; then we went into that big blanket.

There was a great big thing that had big-big ears. The funny man told me it was an elephant. With those big-big ears I told Daddy that it was a telephone because it could hear everything everybody said.

The next thing I saw was an animal with a broom-handled neck. Daddy said it was a gruffie. Then I told Daddy, "Daddy, he does not have far to go to Heaven, does he?"

My Daddy bought me a big bouquet of pretty, pink, fluffy, sticky stuff that he said was "Cotton Candy." Then we got on a big bucket that throws you around and around. (Tilt-A-Whirl) When we got off that bucket that pretty, pink, fluffy, sticky, stuff was all over my Daddy, the bucket and me. I did not get to eat any of the stuff. Daddy was mad about something because he gave me the hardest whipping I ever had. We went home!

Assembly News

In assembly Thursday morning, March 9, the Seniors presented several skits from their play "Bull in a China Shop" which was presented as a climax to Public School Week at 9 o'clock Thursday, March 9.

Also at this assembly sweaters and jackets were presented to the two girls' basketball managers and the fourteen girls who had lettered in basketball. The girls were very happy to receive their long awaited jackets.

MEET THE SENIORS

Mike Mercer

Mike Mercer is one senior whose grades have consistently improved as he advanced from grade to grade. He is capable, willing, and energetic. These qualities will always prove beneficial whatever his life's work may be.

Mike liked athletics as a freshman; even then he was on the football team. In his sophomore year he had the misfortune of breaking his leg. The accident kept him out of school six weeks; and the next four weeks, he was brought to school on a stretcher. In spite of his long absence, Mike passed all of his school work and kept his interest in sports.

Last year Mike was a member of the S-Cub FFA, football and basketball teams and was in the Junior Play. He continued most of those activities this year. He was captain of the football team and a starter on the basketball team before the end of the season.

Although Mike has had serious difficulties confront him, he has become the best of them. He has become a more courteous, thoughtful person as well as a better student.

The Little Elephant

A Fairy Tale by Sandra Kitchens

Once upon a time, there was a little, tiny elephant. He was not over four inches tall. His father did not like him because he was so tiny. His mother liked him because he was tiny and weak. One day, the little elephant's father pulled up a tree. The little elephant saw him, so he thought he would try to pull up a flower.

He pulled and pulled, but he could not pull up the flower. His father saw him and got mad because the little elephant could not even pull up a flower.

It went on like that until one day a mouse ran out in front of the elephants. When they saw that mouse, they screamed and hadd a fit.

The mouse tried to scare the little elephant, but he was not afraid of the mouse. The little elephant and the mouse had a fight and the little elephant beat up the mouse.

A fairy came to the little elephant and told him that because he was so brave, she would make him big. He started to grow and he grew and grew until he was as big as the other elephants. His father and mother were glad. They lived happily ever after.

MEET THE SENIORS

Nell Rackley

Nell Rackley is a student who is greatly appreciated in high school. She is a willing worker and helps out in various activities.

Nell has had two serious illnesses since being in high school; but in spite of absences, she has made passing grades in all subjects and has continued playing on the basketball team. Nell is a dependable member of FHA and last year was historian for her local chapter.

Other honors came Nell's way last year. She was reporter for the Student Council, treasurer for FBLA, secretary-treasurer for the junior class, football queen, and most beautiful girl in high school.

This year Nell is treasurer of Student Council, president of pep squad and was elected most athletic girl and Hallowe'en princess for the senior class.

THINK!

Do people place "cheating" in the same category as lying and stealing? If not, why?

If you cheat on your school work, you are taking the work of others and claiming it as your own. You have STOLEN from your friend and LIED to your teacher. But, you say, that your friend "gave" you the information and that it was not necessary for you to STEAL it. Have you ever thought of the position you place your friends in when you ask for their help? Do you ever consider that perhaps they would prefer not to partake of your lie; but because of social pressure, they allow themselves to become as guilty of cheating as you are?

It is a sordid state of society, but the fact remains that some students in our own school are severely criticized by their fellow classmates because they have the necessary strength of character to refuse to participate in cheating. Others probably wish for the nerve to refuse to give help, but are not willing to stand up for their convictions. Many of these students would not think of taking the thoughts of another and claiming it as his own, but at the same time, offer his help to others during a test—or allow workbooks and daily papers to be copied.

Recently, one of our neighboring towns had a foreign exchange student in its school. After only a few weeks of school, this student expressed utter disgust concerning the fact that cheating was a common practice among the students. "Back home," he student said, "we wouldn't even think of such a thing!" Are you, as an individual, helping to lower the esteem of America in the eyes of the world?

Cheating is both morally and spiritually wrong, but I wonder if students ever stop to realize that they are cheating themselves out of one of the most wonderful opportunities of living in America. That of obtaining a free education. Education is much more than the receiving of a diploma—it is learning! Are YOU willfully cheating yourself out of this opportunity?

It Pays To Be A "Neatnick" When It Comes to Figures

by Leslie J. Nason, Ed. D. with Harry Karns

Neatness and orderliness can help you make better grades in arithmetic and mathematics. Unhappily, many students neg-

Juniors & Freshmen Take Tests

Tuesday morning, March 7, the Juniors and Freshmen spent from 9 o'clock until 12 o'clock taking tests.

The Freshmen were taking National Merit Scholarship Tests and the Juniors were taking National Merit Scholarship Qualifying Tests.

These tests are taken by students all over the nation and indicate in what areas the students are lacking.

F. F. A. NEWS

By Bobby Kitchens

This past week the FFA watched a film on the overhaul of a car and the auto races at Daytona Beach and Indianapolis 500. These films were shown by Mr. Stanton of Perfect Circle Ring Company, and were very interesting.

The fifth period class enjoyed seeing Jim Crow's house and all the work he has put into it. We learned a lot about woodworking from Mr. Crow.

lect these simple rules because no one has explained how important they are.

Let's face it. Modern education many times neglects the individual student. This is not necessarily the fault of the schools. It is the consequence of an exploding school-age population and shortage of teachers and classrooms.

Teaching techniques are designed for classes of 35, 40 and 50 students. Potentially good students get into bad habits and are not exposed to good habits. Training in neatness is drastically curtailed by punch card tests made for rapid grading. All tests cannot be of this type, however, and when the student faces new situations, he is in trouble. Good scholarship becomes impossible.

Recently on grade card day, a father brought his 10-year-old son to us. Jimmy's card bore a hard and uncompromising NEEDS TO IMPROVE behind arithmetic. Translated to the less compromising language of 20 years ago, the grade was F—standing for Failure.

The boy seemed bright enough. We decided to experiment. We wrote out some columns of addition and subtraction and some multiplication. He worked the problems rapidly and faultlessly!

EIGHTH GRADE NEWS

Garner Garrison

Ug! We have all been busy getting our science experiments ready. We had public school week and had many visitors. We had a real treat last Thursday before dinner; it was watching a girl dissecting a pickled frog. Several boys and girls got sick and went to the other room or elsewhere.

EIGHTH GRADE

Mr. Ballard

The Eighth Grade and Seventh Grade have been busy making projects for public school week. Each student was expected to make a different project. We had several visitors during public school week. Everyone was glad we didn't have to go to school Friday because of a teachers meeting in Amarillo.

SEVENTH GRADE

Mr. Cole

The Seventh and Eighth Grades had a Science Fair March 9 from 6:30 to 7:50. We have had many visitors this week in our room.

SIXTH GRADE

Mrs. Turner

In science we have been studying about making work easier. We have studied about ramps, levers, and pulleys. We were surprised to learn that many things, such as screws and bolts, use a winding ramp.

Clifford Rowell was absent from school two days this week because of the death of his grandfather at Brownwood.

FIFTH GRADE

Mrs. Baker

We decorated our room for the open house. We also had our experiments that we have done through the year on our table.

We enjoyed the mothers' visits. We have colored pictures of ducks.

Laquita Bomar made a reflector and a trip-hammer. Nancy Nance made a reflector and a doll house. Nancy Jo Fowler made a terrarium. Jan Hutsell made a reflector, too.

Joe Mercer is back at school after being absent a week.

THIRD GRADE

Mrs. Hinds

Editor—Shirley Maples Library—Max Hamilton Weather Chart—Lynn Smith Vickie Isbell, a former pupil, visited with us Monday. We were happy to see her again.

Signs of spring are in our room now. On the science shelf we are sprouting some beans and studying roots growing in water.

In English we have been busy working on Story Telling and writing. Nearly every day an original story is read to the class. We want you to enjoy one of our stories.

Two Bed Partners

by Kay Fleming

One night all of us went to bed. My little sister and I were asleep. My little dog went to my daddy's chair and went to sleep. Then he went by the fire and went to sleep again. He thought he would go and sleep with mother but the bed was too high. Then he went to our bed and jumped on it. I had my arm out. He came over and laid on my arm and I covered him up. I told him to go to sleep and he did. That's why I had two bed partners.

We asked Jimmy to return the next day and bring some of his arithmetic papers with him. He did and the source of the trouble was immediately apparent—so obvious that you would wonder why the teacher or parent hadn't seen it.

Jimmy, who understood the intricate processes of arithmetic perfectly, had never learned to copy numbers down in straight columns. He had been applying the right principles to the wrong numbers because of a purely physical mistake!

What does your teacher say about your papers?" we asked. "She says they're wrong."

We're afraid we would have to give that teacher a B—for Blindness. Or maybe that is unfair. Poor lady—perhaps she didn't have the time to say more.

After learning to be neat and orderly, Jimmy started turning out perfect papers in school. We simply cannot stress too

PEEPIN' TOM Community Goes To School!

My heartiest congratulations to those boys who succeeded in scaring the wits out of a majority of the high school girls. But more recognition should go to the girls for their superb acting. I think some of them should be in the movies.

My warmest sympathy to Robert Rhode, Robert Hughes, Larry May, and Kenny Thornton who have been informed that their hair must be allowed to grow out. This is a really big sacrifice for Robert Rhode, who may need a body guard to keep the girls away from his black, curly, "feeleable" hair.

It has been noticed that Sue Neely gets a certain glint in her eye when she looks at Ray Matthews. If you aren't aware of this, Ray, maybe you should sit up and take notice.

It was remarkable! The resemblance between Joe Anderson and Jeff Chandler at the Senior Play that is. We have another Jeff Chandler in our school!

I saw Mr. Snell making a fast get-away from the lunchroom the other day, his pockets full of oranges. The way it appeared he must be going into the fruit-stand business.

Wouldn't it be terrible if Chdis could see how Jane really looks everyday at school while she's trying to get ready for a date. Some of these days he's going to catch her in pin curlers and be afraid to marry her.

Personal to that person who thinks being fat is a crime: Wait about 30 years and see what you look like.

Personal to Carolyn Garrison: Don't blame me for what appears in this column. I only write what I see.

strongly the importance of details. A small error, a small omission can destroy completely the effect of a large amount of otherwise flawless work.

You should do these things as a matter of course:

1. Arrange your work neatly on the paper.
2. Use the correct symbols.
3. Make sure that plus and minus signs, equal signs, fraction lines, exponents, and other marks are neatly and correctly placed.
4. Make sure that everything you write on the paper is actually true.
5. Do scratch work on a separate piece of paper so that your mind is not distracted from the actual steps of the problem.

As you get into more advanced work, you will find that problems no longer can be solved at a glance. Then you must make use of a special technique. It is based on this fact. Nearly all complex problems in math can be solved piece by piece.

Let's run through the steps that will help you.

1. Write the problems correctly on the paper.
2. Look at the problem, searching for some small part of it which you know how to simplify.
3. Simplify it.
4. Rewrite the problem with that work shown on it.
5. Now look at the problem again. Is there another little part of the problem you can deal with?

Step at a Time Usually there is. This process normally results in the solution of very complicated problems—without a single complicated move on your part.

Superior and gifted children too often are able to solve simple problems without the use of these techniques. They are shocked when their grades suddenly drop from A's to C's or lower when they reach college-level math courses. Ironically, their brightness is a curse to them until they discover or are shown the simple learning processes which will permit them to do the work of which they are capable.

Millions of boys and girls in public schools, and colleges, do not know how to solve a problem. They are sad victims of an age that knows how to measure 1-100,000th of an inch but neglects to tell boys and girls how to arrange numbers in a neat and orderly column.

But now you know a secret that can help you avoid the pitfalls which await the careless and unwary.

It seemed that the entire community participated in our "Open House" at school last Thursday night. Classrooms were visited constantly between 5:30 and 7:30 p.m. The FHA girls did a sell-out business at the chicken supper, and the Senior Play had a record attendance.

All of the students and teachers, from the first grade up, want to express their appreciation to their parents and friends for this show of interest in the public school.

HAPPY BIRTHDAY!

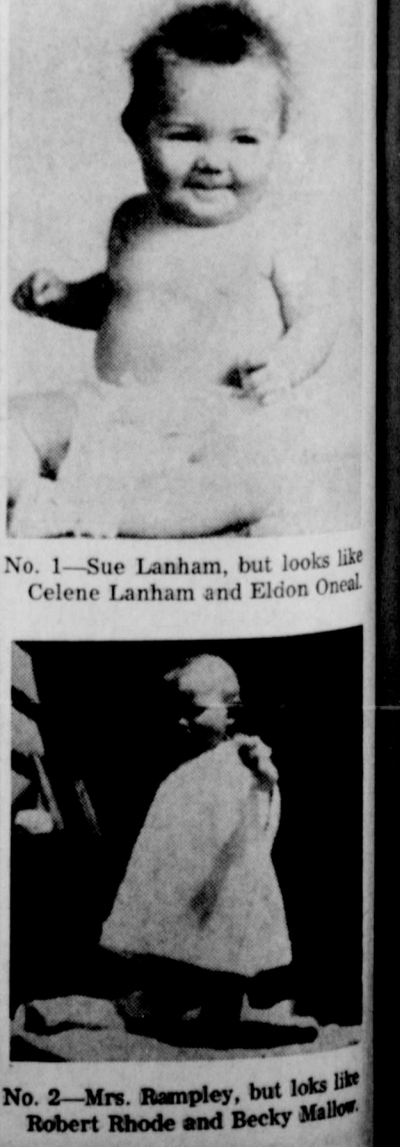

- March 17 — Michela Martinez Jerry Williamson Robert Fowler

Sheila Jarnagin Is Baby Contest Winner

The Baby Identification Contest has ended and here are the results of the guesses. Out of the 20 babies, Sheila Jarnagin got 13 correct and is the winner of the FBLA prize of \$5. Next in line was Becky Mallow with 9 correct, Larry Elms with 4 correct, and Ann Wingo also had 4 correct.

We suspect that the real winner will be the Malt Shop, for it seems that Sheila has promised hamburgers to those who helped her identify the babies. We hope the \$5 will be enough to supply malts, also!

We are printing all 20 of the pictures in the paper this week so you can see who they are, and also who they looked like according to the guesses.

Raye Garrison is shown busily at work on her clothing project.

4-H'ers Learn Leadership

by Raye Garrison

The past four years which I have spent in 4-H Club work have taught me many things and have brought me many wonderful experiences.

In 4-H Club work I have learned to sew and cook. 4-H has helped me to become a better person. I have found that I appreciate things more when I do part of the work myself instead of waiting for someone to do it for me.

My first year in club work I had gardening as my project. I was a little disappointed when I didn't get to complete my project because of illness in the family, even though we did have a few vegetables out of my garden.

The second year I was in 4-H I chose clothing as my project. I was real happy when I received second place on my skirt and two blouses in the Dress Revue. I received a Dress Revue Award and Certificate of Completion at the Achievement Program in 1958.

Last year, which was my third year, I decided to have two projects which were clothing and bedroom improvement. In the two County Dress Revues, I received first place and received the honor of going to district and winning second place there. In bedroom improvement, I added a desk to the furniture in my room.

This year my projects are clothing and bedroom improvement. In clothing I have made several dresses and I made curtains for my bedroom. In bedroom improvement I have completely redecorated my bedroom.

This year Riley Harris and I tied for fifth place at the district contest with our electric demonstration.

In my four years of club work I have served as reporter, secretary, and president two years.

I have enjoyed it, and learned a lot, not only about my projects but many other things at the camps and meetings.

What I Have Done In 4-H Club Work

by Doris Estes

Since joining 4-H in September, 1958, I have learned many lessons well. I had found it hard to talk to people whom I didn't know, but 4-H'ers are so friendly this is rarely a problem any more. My interest in 4-H began when I was selected to make about an hour speech at the Achievement Program. I told of the past year's activities and I found that I could be a part of these activities if I were willing to work. 4-H is no place for loafers!

I worked hard and willingly on all the jobs given me because I knew that what you put into a job is what you get out of it. This certainly was true for me!

I have found that 4-H is one of the most rewarding clubs one can belong to. Last year, I was very fortunate to have won something in almost everything I entered, but my luck has changed some and I've lost a few times this year. But my losses have proved as beneficial as my winnings, for it's not who won or lost, but how you've played the game that counts. Accepting defeat with a smile is a lesson I've learned.

There are many joys in 4-H. One of the most satisfying is seeing yourself grow as well as younger members. Last year as I sat at the Achievement Program, I was overjoyed to see younger members receiving awards. I hope they will be encouraged by this and will try hard again this year.

4-H offers a great opportunity to make new friends. I've gotten to attend several meetings where I've made friends I'd probably never have known, otherwise.

Would you like to know a club

that can help you become an all-around citizen and help you prepare for the future? 4-H! Because of 4-H and FHA, I am planning to

major in home economics at college. 4-H has helped me learn how to express myself and in helping me take my place in society.

Yes, I think 4-H is one of the greatest youth organizations in America for teaching young people how to get along better with other people, to become better leaders, and to enjoy wholesome recreation. I am proud to wear the 4-H emblem signifying that I'm helping with my head, heart, hands, and health to make my club, my community and my country a little better place in which to live.

Surprise Birthday Party Honors Patricia Gidden

Misses Sue Brannon and Sandi House were hostesses last Friday evening to a surprise birthday party honoring Miss Patricia Gidden of Amarillo. The party was held in the home of Patricia's grandmother, Mrs. Agnes Bingham, and was attended by thirty-five young people of this community. Adults attending and enjoying the evening were Mr. and Mrs. Eddie Edwards, Mrs. Bud House, Mr. and Mrs. Jimmy Rhoderick, Mr. and Mrs. Fred Brannon and Jim Brooks.

A fancily decorated birthday cake and pops were served to all. Patricia's parents, Mr. and Mrs. George Gidden, were visitors in the home of her mother, Mrs. Bingham on Saturday and Sunday.

Mrs. J. C. Turner returned home Saturday after a two-week visit with her sister-in-law, Mrs. Bob Turner in Tulla.

Mr. and Mrs. Jack Stafford have purchased the Ted Hester home in Silverton. The Hesters have moved to their new home in the Haylake Community. The Staffords have not yet moved.

J. S. Gilkeyson of Amarillo is visiting his parents, Mr. and Mrs. Lewis Gilkeyson, and other relatives.

Wayne Nance and his 4-H project calves.

MY TWO CALVES

by Wayne Nance

I have found that two calves don't take up much more time than one. Each morning I spend some time working with the calves and each afternoon I work about an hour with them. I comb each one just like I would if he was going into the show ring. I lead each one and work with him with the show stick.

On a sunny, warm day I may wash each of them or keep them in a trailer to get them accustomed to strangers and strange places.

John Montague and his grain sorghum project.

My Grain Sorghum Project

by John Montague

My project for 1960 was grain sorghum. I had two acres of irrigated land to work. I prepared the land for planting with hoeme, tandem and one-way. Planting was done about June 15th, planting one acre of 620 and one acre of R12.

The feed was irrigated three times and also received several inches of rain. Harvesting of the grain was in early November, with a yield of 6100 pounds an acre.

I was third place winner in the irrigated division of the County 4-H, FFA Hybrid Grain Production Contest.

MR. AND MRS. DUNNIGAN TO CELEBRATE ANNIVERSARY

CARD OF THANKS
I want to thank my relatives, friends, the doctors and nurses, for their kindness while I was in the hospital. Also for the nice flowers, gifts, cards and the good food that has been brought in since I have gotten home.
God bless everyone.
Mrs. Ashel Cross

CARD OF THANKS
Times like now "thanks" seems so small for all the nice things people have done for me and my family since my accident.
We would like to express our appreciation for each who donated money, sent food, flowers, cards, letters and all the visits during my stay at the hospital and since my return home.
Mr. and Mrs. Bill Watters and family

Mrs. Kenneth Bain of Floydada, Mrs. Will Smithee and Mrs. R. G. Alexander visited Mr. and Mrs. John E. Arnold Tuesday afternoon.

CARD OF THANKS

We would like to express our thanks to all our friends who sent cards and flowers during the time I was in the hospital. They were appreciated very much.
Mr. and Mrs. Monroe Lowrey

CARD OF THANKS

I want to take this means to thank each person who has sent me cards, flowers and food since I have been ill. I appreciate each kind deed very much.

Study Clubs Enjoy
Guest Speaker

H. J. (Doc) Blanchard, Attorney from Lubbock, was guest speaker for the recent meeting of the Century of Progress Study Club. His topic was "Taxes in Texas." He was introduced by Mrs. George Long.

The club was honored to have as their guests members of the March of Time and 1925 Study Clubs. Mrs. Doc Blanchard and Dr. Neville Muckleroy were also guests.

Hostesses for the members and guests were Mrs. Pat Northcutt Mrs. John Gill and Mrs. August Miller. The meeting was held in the community room of the Production Credit Association office.

Joe Kitchens and his field crops project

Kitchens Is Junior 4-H Leader

I entered 4-H Club in October, 1954, when I was ten years old. My first project was a meat animal demonstration. That year I fed two Hampshire pigs and showed them at our County Show and at Amarillo. Since then, I've fed and exhibited swine two other years. Two years I fed and showed calves at the County Show and at Lub-

bock and Plainview. In 1960 I kept two Hampshire sows for development and pig production.

Three years I've grown hybrid grain sorghums, and in 1959 I won the county field crops award. I have been a junior leader in field crops two years.

I entered tractor driving and maintenance two years, received the county award, and placed second in district. I represented Briscoe County at Round Up in 1959. Last year at this year I am a junior leader in tractor driv-

ing. In 1960 I received the Gold Star Award and the Leadership Award at the County 4-H Achievement Banquet.

I am a council member and this year am president of the County Wide Senior Club.

I was a member of the junior livestock judging team one year, a member of the senior judging team in 1960, and went to district and on to the State Round Up. This year we are hoping to go to the Round Up again.

Mrs. J. E. Vaughan spent a long weekend in Amarillo with her son and family, Mr. and Mrs. Denzil Vaughan.

Mr. and Mrs. E. F. Rhoderick and family of Lubbock; Mr. and Mrs. J. C. Rhoderick and son of Plainview; and Mr. and Mrs. C. N. Johnson and daughters of Quitaque, were recent Sunday visitors with their parents, Mr. and Mrs. J. C. Rhoderick, Sr.

4-H CLOTHING CLASSES

Mrs. Don Garrison

Subject Matter Leader

January 10, 1961, Mrs. Aubrey Russell, District 2 Home Agent, met with ten subject matter leaders in the community room of the Production Credit Association office and gave demonstrations on clothing units I, II, and III. From these demonstrations, clothing classes in unit I and II have begun.

February 2, 1961, Mrs. Marvin Montague and Mrs. Louis Kitchens met with 4-H members and their mothers for a planning meeting for clothing classes in unit I. It was decided there would be a Wednesday class with Mrs. Montague as leader and a Thursday class with Mrs. Kitchens as leader. Present for this meeting were Mrs. Campos and Mary Susie, Maria and Elsa Costillo, Mary Abino Garcia, Carol Ann Montague, Mrs. J. L. Self and Kathy, Mrs. Charles Whitfill and Mary Lane, Mrs. Roy Montague and Carron. Joining these two classes later were Amanda Costillo and Venita Teeple. These classes are being held in the high school homemaking department from 3:30 to 5:00 p.m.

On February 7, 1961, unit II clothing class held their planning meeting in the Milton Dudley home. Mrs. R. N. Muckleroy and Mrs. Don Garrison are leaders of this group. Six meetings were planned by the members and their mothers in which each girl will make a blouse for herself.

Mrs. Dudley served refreshments to Mrs. J. E. Minyard and Margaret, Maria Costillo, Connie Dudley and the two leaders.

Classes in clothing unit II will be held in June.

4-H Club Farm Sale to Be Held at Claude

The Armstrong County Annual 4-H Club Farm Machinery Sale will be held April 15 at Claude, Texas. This sale not only provides an opportunity for farmers and ranchers to dispose of surplus equipment, but also makes available many bargains to buyers. This sale was among the first of its kind in this section of the country, and has attracted state-wide attention. Gross sales have reached \$15,000.

A small commission is collected on all items sold or passed out. These proceeds help finance activities of the Armstrong County 4-H Clubs. Auctioneers will be Phil and Cal Walker of Conway, Texas, who donate their services each year for this event.

Anyone wishing to consign equipment for this sale should contact Bo Wheeler, County Agent, Claude, Texas.

carry out the 4-H Electric Camp held in New Mexico.

ADULT SUBJECT-MATTER LEADERS in the Briscoe County 4-H are from left, Mrs. Louie Kitchens, Pascal Garrison, Mrs. Don Garrison, Mrs. Obra Watson, Mrs. Hugh Nance, Mrs. Joe Fowler, Mrs. Bill Long, Mrs. Buster Miller, Mrs. James Davis, Mrs. Marvin Montague, Mrs. Neville Muckleroy, James Davis and Louie Kitchens. Other 5 subject-matter leaders not shown are Mr. and Mrs. Horace McDonald, Quitaque, Mr. and Mrs. J. L. Self, Dr. Neville Muckleroy, Mrs. Datis Martin, and Mrs. Robert Ledbetter. —Briscoe County News Photo

THE SUBJECT MATTER LEADER

by Mrs. Don Garrison

The role of a subject matter leader in the 4-H program is a worthwhile experience for the 4-H'er and leader.

Each 4-H Club should have several subject matter leaders. The number of leaders and subject matter areas depends upon the wants and needs of the 4-H Club members, their families and available leaders. The subject matter leader does the following:

Works with 4-H Club members, individually, and in groups, in developing a result demonstration in a specific subject matter area.

Helps 4-H Club members select materials for the result demonstration.

Provides an opportunity for 4-H members with specific result demonstrations to meet regularly and learn their subject.

Visits individuals regularly to advise, encourage and recognize their work.

Helps 4-H Club members develop method demonstrations in the subject matter area concerned to present at 4-H Club meetings, school assemblies, civic clubs, and other community affairs.

Helps 4-H Club members keep 4-H records of result demonstrations.

Assists in promoting 4-H Club work in the community. Texas Agricultural Extension Service furnishes publications to leaders in each subject matter area. The county agents and home agents help train leaders by giving demonstrations as they are to be given to 4-H members.

In Briscoe County we have leaders in the following subject matters, field crops, beef, swine, home-stead improvement, bedroom improvement, gardening, foods and clothing.

Mrs. J. J. Vardell was brought to the home of her daughter, Mr. and Mrs. Riely Yates, on Friday of last week. Mrs. Vardell had been a patient in the Lockney hospital since the previous Tuesday.

Mmes. W. H. Newman and L. C. Yates were in Floydada on Friday of last week. Mrs. Newman's doctor found her considerably improved, and she reports that she is feeling better.

Mr. and Mrs. F. B. Wakefield have been visiting relatives in Oklahoma City for several days.

4-H Club Week Celebrated In Texas And Nation

In his proclamation of 4-H Club Week in Texas recently, Governor Price Daniel said, "Building tomorrow's leaders today is a high purpose in 4-H Club work. The expanding role of 4-H emphasizes character development and good citizenship as 4-H members learn the latest practices in agriculture and home economics."

"Since the 4-H program was inaugurated by the United States government in 1914, the 4-H movement has spread across our nation and to 52 foreign countries. 4-H Club members learn by conducting result demonstrations and participating in 4-H activities. By putting into action what they learn, club members improve their homes and communities."

"Voluntary adult leaders working with club members provide a key to the success of 4-H. Parents and friends of 4-H give support and

encouragement to club members. The Agricultural Extension Service of the A&M College of Texas, through county extension agents, direct the 4-H Club program.

"Any boy or girl from ages 9 to 21 can take part in 4-H Club work. The opportunities offered to 4-H Club members to grow in citizenship, leadership and practical skills are especially valuable to them, the state of Texas and the nation."

In his message to the approximately 100,000 4-H members in Texas Governor Daniel said, "Please accept my best wishes for 1961 and the years ahead. May you continue to work to improve yourselves, your homes and communities and thus help build our State and Nation. The future holds bright promise for our land, and as 4-H members, you have an important role in it."

Mrs. Elbert Stephens and Mrs. Georgia B. Thornton spent Friday in Lubbock with their children, Mr. and Mrs. Milton Thornton and family. They attended a birthday party for their granddaughter, Ronnie Thornton, on her seventh birthday.

My Achievements In 4-H Work

by Sandra Mercer

Since joining 4-H in September of 1954, I have had seven different projects. I received award pins in four of them. The awards were in Beautification of Home Grounds, Home Improvement, Food Preparation, and Farm Safety.

In 1958, I received the Gold Star Award and attended the Gold Star Awards Banquet in Lubbock. This is a county award presented to the most outstanding 4-H girl and boy of the year.

Since 1958, I have been serving as a junior leader in our county, helping with such activities as County Camp, Recreation School, the Achievement Program, and many others. I have been on the County Council for five years, serving as recreation leader in 1959, reporter in 1960, and this year as co-chairman.

This year I am the girl delegate to the District II Council. I have attended District Leadership Camp for three years, leading in such activities as group recreation, discussion groups, and flag service. In 1960, I was awarded a trip to the State 4-H Lab at Bastrop State Park along with five other junior leaders in Briscoe County. I helped with the Foods Committee there, serving as hostess to the group.

I have attended State 4-H Round-Up at A&M College twice, first in 1958, with the shrub team, and again in 1960 with the farm safety team.

This year I will help to plan and

Joe Bob Watson and his 4-H project calf.

MY 4-H CALF STORY

by Joe Bob Watson

I first met Blackie on March 28, 1959, standing beside his mother in the feed lot of a local Angus breeder. He was just another calf then, but this relationship changed as we grew to know each other better in the next eleven months. I paid for him with money I had received from previous projects. There were a lot of new things he had to get used to. Some of these were unfamiliar surroundings, strange animals and being

handled. As he got used to being brushed and led, he became more gentle. He had to be taught to lead and stand square on his feet and legs, by making him move his feet with the show stick. After Blackie was trained to lead, we settled down to the regular routine of keeping records, leading, combing, brushing, feeding, bathing, spraying, trimming his feet and clipping his head and tail for the shows. The practice show held in October gave us the experience of leading our calves in a ring, standing patiently, and getting familiar to noses and crowds. The local show, where we met competition for the first time was

interesting. We learned finer points of grooming, how to pose ourselves and our calves for the judges.

And then it was time to pack our show box for the Amarillo show. The Amarillo show was quite different to the local show, in that the Angus calves were in a separate division, and the suspense was even greater, but it lightened somewhat, when we survived the sifting. We watched older and more experienced 4-H'ers show their animals, which was very helpful.

I last saw Blackie when I left him tied to a post after the auction sale, then promptly lost my appetite for beef steak.

Through working with my calf I learned more clearly the meaning of the 4-H Pledge. I used my head to think how to use my time more wisely, how to be patient, to keep a regular schedule, and keep records; my heart became more loyal to my family and those who helped me, and to my fellow club members who were my friendly rivals; I used my hands in many ways in training, feeding and showing my calf; and I have better health from working out in the fresh air and sunshine, and by doing something I like to do, and having a way to use my time profitably.

I learned that raising livestock can be both a business and a pleasure. This project encouraged me to be a better 4-H member by resolving never to give up hope of winning, never to stop trying, and never to stop improving. It also taught me to be a better loser and take disappointments better, and that it takes a lot of effort to raise a calf for a 4-H project.

Mr. and Mrs. Ray Thompson spent the weekend in Amarillo. Sunday they visited their daughter and family. Mr. and Mrs. Ted Strange in Dimmitt. Mr. and Mrs. Strange have recently enjoyed a vacation in Ajo and Wickenburg, Arizona.

Toni Rhode, a student at Hardin-Simmons University, has been a recent weekend visitor with her parents, Mr. and Mrs. Carman Rhode.

Jerry McWilliams, a student at the School of Pharmacy, Southwestern State College, Weatherford, Oklahoma, and Miss Paula Reid of Amarillo, spent the weekend here with relatives.

Patti and Lee Ann Tidwell of Tullia, spent Friday and Saturday here with their grandparents, Mr. and Mrs. Snooks Baird.

Messrs. H. Roy Brown and Gabe Garrison transacted business in Amarillo on Monday.

Mr. and Mrs. Monroe Smith of Lockney visited Mr. and Mrs. H. Roy Brown Sunday.

Mmes. Wylie Bomar, Sr., Leo Comer, Elbert Dickerson, H. C. Mercer, J. K. Bean, Walter Brannon, A. J. Rowell and Marsha were in Tullia Monday afternoon.

Mr. and Mrs. Berton Hughes, Robert and Randy, spent the week end in Memphis, guests of Mr. and Mrs. Hubert Hall and daughter.

Mrs. Bruce Womack entered the Tullia hospital as a patient Sunday afternoon. Mr. Womack is recuperating nicely from a recent heart attack, and was able to visit his wife at the hospital Monday afternoon.

4-H'ERS LEARN CITIZENSHIP AND LEADERSHIP

As a result of hard work on their record books, five Briscoe County 4-H'ers were awarded a trip to the State 4-H Leadership Lab at Bastrop last summer. These 4-H'ers were Sandra Mercer, Carolyn Garrison, Lee McDonald, Bobby Saul and Dewey Estes. They left Silvertown early Monday morning, August 15, in two cars. Their leaders were Robert M. Ledbetter and Judy Dee Poole, who was an assistant Home Demonstration Agent in training in Swisher County.

Upon arriving at Bastrop State Park, a few miles east of Austin, the members were sent to certain groups which they would attend at all times. Each group was in charge of a specific part of the Lab.

Besides meeting many other 4-H members and their leaders, the Briscoe County group learned much about citizenship and leadership. Each morning the delegates to the Lab heard lectures on Democracy by Dr. Dildine from Washington, D. C. These lectures were interesting and educational.

Each night a different type of party was held. At these parties new games and songs were learned and enjoyed. To top the Lab off, a steak supper was held on Friday night.

Even though the Briscoe County group was homesick, they are all wishing they could go back again this year. Each member of the group came home with an entirely new concept of democracy.

Mrs. Katie Hill left Saturday for Erick, Oklahoma, where she is visiting Mr. and Mrs. Ulman Gragson. She plans to travel on to Ponca City to spend a few days with Mr. and Mrs. Buddy Hill.

Milton Story of Sundown spent the weekend with his parents, Rev. and Mrs. Frank Story.

ADULT ORGANIZATIONAL LEADERS for the 4-H Clubs of our county are Pascal Garrison, Mrs. Pascal Garrison, Mrs. Neville Muckleroy, Mrs. James Davis and James Davis. —Briscoe County News Photo

Role Of The Organizational Leader In 4-H

by Mrs. James Davis

Each 4-H Club in Silvertown and in Briscoe County has two adult organization leaders. These adults meet each month with the club members. With the officers of the club, these leaders guide the club in its program for the year. The scheduling of meetings, meeting places and program planning are some of the problems that must be solved.

The organization leaders must provide an opportunity for the 4-H members, as a group and individually, to express their wants and needs, and then plan a program that enables the members to satisfy these needs and wants.

Meetings require active participation of each member either as an individual or a group. Encouragement in each member's pro-

ject, assisting with records, guiding in group participation are some of the privileges of the adult organization leader.

Rev. and Mrs. Story attended the Willson Lectures and a meeting of the Town and Country Commission of the Northwest Texas Conference at McMurry College, Abilene, this week.

Mr. and Mrs. Uil Gunter of Amarillo spent Saturday with her parents, Mr. and Mrs. M. J. Oneal. They enjoyed a drive in the canyons.

John Neese of Lubbock, came for his mother, Mrs. J. T. Neese, on Wednesday of last week. She had been visiting friends here.

Mrs. Ralph Lemons of Floydada

and Mrs. Grace Woods of Hayward, California, visited Mr. and Mrs. Floyd Woods and other friends here early last week. Mmes. Lemons and Wods, the former Leola and Grace Pharr, grew up here.

Mr. and Mrs. Runt Swinney and Mr. and Mrs. Bud Vaughan, Roney and Danny were Sunday visitors with Mr. and Mrs. Cecil McCain and children at Vigo Park, where they recently moved from Amarillo.

George Folley, of McLean, who has been ill in St. Anthony's Hospital in Amarillo, for sometime, is improved considerably. He is the father of Mrs. Nash Blasengame of Clarendon and Mrs. Runt Swinney.

Will Wilson

a winner for Texas

STRENGTH IN EXPERIENCE
District Attorney, Dallas County, two terms, 1946-50; Associate Justice, Supreme Court of Texas, 1950-54; Attorney General of Texas, 1956 and now serving.

SUTTON - GRASS FERTILIZER SILVERTON, TEXAS

OFFICERS OF THE SILVERTON SENIOR 4-H CLUB are Dianne Davis, Secretary; Camellia Comer, President; Darrell Long, Reporter; Max Garrison, Council Delegate; and Joe Bob Watson, Vice President.—Briscoe County News Photo

Jim Smith Likes 4-H Club Work

Jim Smith has been in 4-H for four years. He has had projects in tractor driving, beef, garden and leadership. In 1960 he took a steer to the State Fair. In 1959, Jim won the garden award and in 1960 he won the beef award. Jim is a member of the Junior Livestock Judging team which won third in their first contest at Lubbock recently. He plans to show a steer at the Plainview show the last of March.

At their regular club meeting Monday night, March 13, the Briscoe Countywide 4-H Club elected two members to be considered in the selection of delegates to attend a 4-H Citizenship Workshop at Washington, D. C. this summer. The members selected are Carolyn Garrison and Bobby Saul.

Annual Texas 4-H Roundup Set For June 6 and 7

The annual Texas 4-H Club Roundup will be held at Texas A&M College on June 6 and 7. The big day will be the 7th when hundreds of young Texans will vie for honors in the 25 judging and demonstration contests. The two high ranking teams of individuals from each Extension district are eligible to participate

in the statewide contests scheduled for Roundup. The district winners will be selected in district elimination contests held prior to the state meeting. The boys and girls who attend Roundup will be accompanied by either their county extension agent or by adult leaders, or both. Many of the state winning teams and individuals later in the year will represent their state in national contests and will, therefore, have an opportunity to add further to their training and 4-H experiences. Program details are not yet available but will be announced well in advance of the June meeting, according to Extension Service officials.

OUR 4-H PROJECT

Dwight and Wayne Rampley
We have chickens for a project. We feed them laying mash and two buckets of oats every day. We sell most of the eggs to people around town and others to the grocery store. We get about 70 eggs a day. We have 118 hens. The chickens are Oyster Whites. We had 250 mixed chickens to start with and sold the fryers for a dollar a piece. We skinned them before we sold them.

"4-H Is Lots Of Fun," Says Camellia Comer

I have been in 4-H club work three years, going on four. My first two years foods was my project. Last year my project was foods and clothing. My first year I won a first place blue ribbon on my drop biscuits. The next year at the Briscoe County Dress Revue I won a first place ribbon on a flower arrangement and a third place white ribbon on a banana nut bread. This last year I won a third place ribbon on a sundress and a first place ribbon on my German chocolate pound cake. I have gone to two foods classes and two sewing classes since I've been in 4-H.

Each summer we have a county 4-H encampment at Roaring Springs. I've gone only one summer; it is a lot of fun. I was elected secretary my second year, which was fun, but was also hard work. This year I am president of the senior 4-H club. 4-H work is full of responsibilities, preparations, planning and just plain hard work. But, it is loads of fun. This year at our 4-H banquet I won a gold foods preparation pin that I'm very proud of.

Dianne Davis

"4-H Has Helped Me To Develop Skills," Says Dianne Davis

Since I have joined 4-H, which was three years ago, I've met many new responsibilities and experiences. I have enjoyed 4-H very much and have learned many new and important things. My projects throughout my three years have been foods and clothing. I also plan to have other projects because there is a very wide variety of projects in 4-H. In foods, I have learned many things that will be of importance to me in the future as well as right now. I've learned to save money by planning and preparing before hand. By planning, one can see what is needed and how much. I've learned to plan a well-balanced diet and prepare attractive-looking and tasty dishes. In clothing, I've learned also to save money by making my own clothes and making clothes for the family. I have learned what looks best on me, what I can wear, how to plan my wardrobe and how to improve my appearance. Besides learning these things about my projects I have learned other things such as responsibility and to accept things as they come. In 4-H one meets many new friends and learns how to get along with others and work with them. There have been many new and exciting experiences in 4-H. I have gone to 4-H Camp along with many others and learned more about 4-H and the work in 4-H. I think 4-H will help me in the future and in my daily living. I feel 4-H has helped me to develop my skills, helped me to know others and helped me to help others. To sum it all up, I believe 4-H helps the individual taking part in 4-H, the community, the county and the nation.

Ben O. King left last week for an extended visit with relatives and friends in Florida.

Mrs. Luther Gilkeyson and Mrs. L. B. Garvin, Jr. and Dana are spending a visit with Mr. and Mrs. H. B. Simpson in Leavenworth, Kansas.

Mrs. R. N. McDaniel left Monday for Gatesville to visit her aunts, Misses Linnie and Lala Fore, who reared her. Miss Lala Fore, 83, is very ill.

Joni Self at work with her foods project.

MY 4-H FOODS PROJECT

by Joni Self

Our 4-H Foods class met eight times to study and see demonstrations on certain foods. We studied about the seven basic foods. We learned to plan a menu. Our leader taught us the proper way to set a table.

In each of our eight classes we learned to prepare chocolate fudge, milk shakes, salads, frozen vegetables, drop biscuits, desserts,

sandwiches and orangeade. Some of the home goals for my project were to prepare nine different foods, cook and serve three complete meals.

I entered oatmeal cookies and rolled biscuits in the achievement day program, and won two blue ribbons.

Mrs. W. T. Haley and Mrs. C. L. Wilson of Canyon, recently spent several days in the home of Mr. and Mrs. Bob Hill and Susie.

Mr. and Mrs. Alvie Mayfield have recently returned home after spending two weeks at Truth or Consequences, New Mexico.

CONGRATULATIONS TO THE 4-H YOUTH OF THIS COMMUNITY ON THEIR ACCOMPLISHMENTS.

They're Learning, Living and Serving Through 4-H Clubs

In 50 states and 40 countries throughout the world, people in rural communities "learn, live and serve through 4-H Clubs." This is the theme for National 4-H Club Week, which is being celebrated in Silvertown this week.

In observance of the week, local 4-H boys and girls have prepared a special section for the Briscoe County News, made up of their articles, pictures and stories. The ad-

ult leaders selected appropriate advertising material to be used and the 4-H Club members sold the advertising to the local merchants to finance the project.

A part of the National Educational System of cooperative extension work, which the United States Department of Agriculture, the State Landgrant Colleges and the counties share, 4-H club membership totals 100 youth in Briscoe County.

In Briscoe County there are four 4-H Clubs with eight junior leaders and twenty-four adult leaders. Clubs are located in Silvertown and Quitaque.

Youths between the ages of 9 and 21 are eligible for 4-H work. The only requirement is a willing-

ness "learn by doing," the club slogan, and "to make the best better," the club motto. The term 4-H refers to head, heart, hands, and health, which are emphasized in the program.

Members pledge, "My head to clearer thinking, my heart to greater loyalty, my hands to larger service, my health to better living, for my club, my community and my country."

The National 4-H emblem is a fourleaf clover with the "H" on each leaf. White and green, the club colors, are symbolized on the group's flag. White background stands for purity and the green of the emblem represents nature's most common color, and is also symbolic of youth, life and growth.

Club youths run their organization, electing officers, holding meetings, making plans, and selecting their projects. Each club drafts its own programs to suit its members and the locality in which they live.

The meetings are centered around four phases: inspirational, business, program and recreation. Leaders work with youths aiding in planning. Program rehearsals are staged for those participating to know their responsibility.

Each club has as many project leaders as their club has projects. For instance, if the girls are carrying foods and clothing projects, there would be a foods leader and a clothing leader. If the boys are carrying swine, beef and lamb projects, there would be a project leader for each.

Project leaders have meetings of the boys and girls concerning the phases of their particular project. A 4-H'er may carry as many projects as he can complete. Completing the project is particularly

stressed.

The Federal Extension Service gives national leadership and the state extension service gives state leadership to the program. County extension agents work with volunteer leaders in planning programs and training leaders.

Some of the leaders are older club members or youth who assist as junior leaders. Leaders advise and encourage 4-H'ers in planning and carrying out projects, attend meetings, visit members to see how projects are getting along, offer suggestions where needed and accompany members to club events outside the community.

Agents also work with the 4-H Club council in an advisory capacity. The agent assists in making plans for special events such as National 4-H Club Week, 4-H Achievement Program, 4-H Club Sunday and other countywide events.

Method demonstrations may be given on many different subjects, coming from their projects. 4-H'ers can take projects ranging from livestock to electricity, from safety to bedroom improvement, from garden, entomology to field crops and from canning to health.

Selecting and completing a project is an important part of 4-H Club work, which is stressed in the program. Only 4-H'ers who have completed a project and turned in a record book may receive a year pin.

MY PROJECT

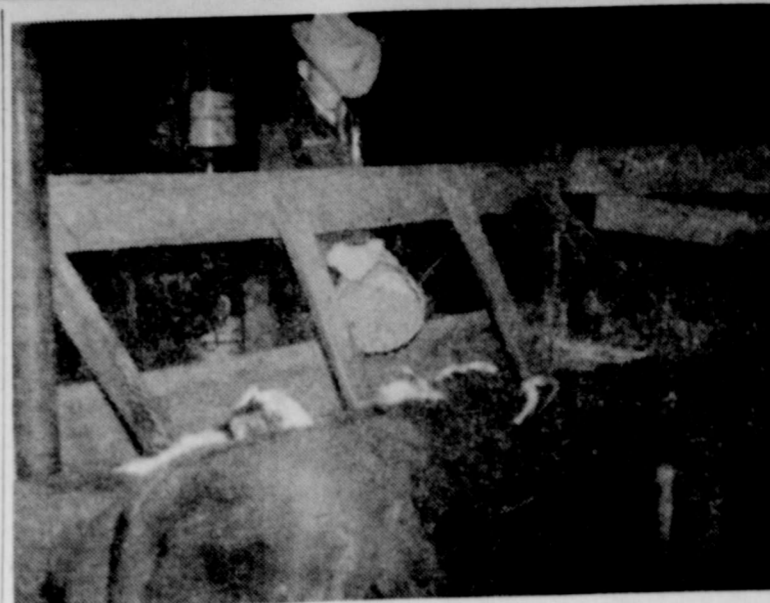

by Tony Allison

My project is chickens. I feed them maize and wheat. Not too long ago the chickens weren't laying very good, but now they are starting to lay eggs as usual. I sell the eggs to grocery stores. My chickens are doing just fine now.

Mr. and Mrs. J. S. Hinds had as recent Sunday visitors his brother and wife, Mr. and Mrs. Buford Hinds of Abilene.

Dr. and Mrs. M. O. Walls and family of Frederick, Oklahoma, were Sunday visitors with her parents, Mr. and Mrs. J. C. Hill, and other local relatives.

Mrs. H. P. Rampley has spent

Max Garrison is shown feeding his 4-H calves.

Max Garrison's Chief 4-H Project Is Beef Cattle

Max Garrison, son of Mr. and Mrs. Pascal Garrison, has been in 4-H Club work five years. He has served on the council three years and has held the office of president, vice president and treasurer in his club.

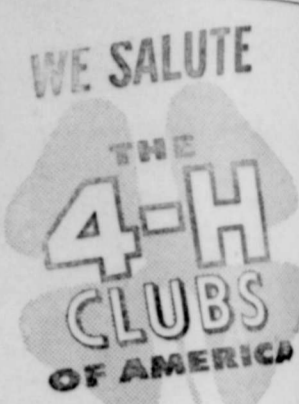

Feeding beef calves has been his most outstanding project, having fed and shown twelve calves. Awards consist of one grand champion, two reserve champions, four first places and two second places in the county shows. He has also exhibited calves at Dallas, Odessa, Amarillo, Lubbock, Childress and Plainview. This year's project will include three calves and some field crops. Profits from these and other projects are being invested in beef cows.

Last year Max received a beef award and is now training for the livestock judging team.

A few days visiting Mr. and Mrs. Herbert Webb in Lubbock.

Mr. and Mrs. C. M. Chappell spent the weekend with her sister, Mrs. J. B. Bryan, in Elk City, Oklahoma.

Mr. and Mrs. Glenn Jones and Mr. and Mrs. Bill Verden and Debbie spent a long weekend with Mr. and Mrs. Reggie Wells in Fort Worth. Mrs. Wells, the former Linda Jones, returned home with them for a visit with her parents and sister and family.

VARAH'S COIFFURES

Mrs. Ola Long of Clarendon, and Mr. and Mrs. Rex Long and sons of Alanreed, were Sunday visitors with Mrs. Rex Long's parents, Mr. and Mrs. Dick Bomar, and other relatives.

OUR CONGRATULATIONS TO THE 4-H CLUBS OF BRISCOE COUNTY. THE BOYS AND GIRLS ARE LEARNING BY DOING.
