## All Around the Town

by Mary Ann Sarchet

Do you think there is a decline in our Patriotism today? I do. It seems as if no one has the "old time" respect for the flag and what it stands for. Recently I have noted several instances of Patriotism on display in our community. At Club and Boy Scout gatherings an emphasis is placed on the flag and the Pledge. A program was presented recently in our elementary school, in which the students depicted historical characters in order to bring a feeling of Patriotism to their fellow students.

One of our local Federated Clubs, the Century of Progress Study Club, has enjoyed a course of study through the past several months of "Law, Logic and Legislation," and several of the programs outlined in the club yearbook reflect a teaching of Patriotism. The Pledge to the Flag is printed in the book, and on a page set apart from the rest is this quotation from Theodore Roosevelt: "Here is your Country; do not let anyone take it or its glory away from you; do not let selfish man or greedy interest rob your country of its Beauty, its Riches, or its Romance. The World and your future and your children shall judge you accordingly as you deal with this sacred trust." In a meeting scheduled for this month, the group will study "Rights We Take for Granted" and "The Government Our Forefathers Left Us." It is obvious that the ladies will have a greater awareness of Patriotism after hearing this program.

Several patriotic holidays will be celebrated in the next few months, and it is my hope that a greater display of Patriotism will be seen in our community. We must demonstrate our Patriotism in order that our children may learn from our example to cherish similar love of country and respect for the flag.

Americans must deeply regard the freedoms given us by our forefathers. They left in our care a land of great opportunity where we are free to worship God according to our individual consciences, and where we can dream, think, plan and work according to our own aspirations and abilities. Our fathers came to this land of virgin forests, large rivers, great mountains, spreading prairies and fertile Indians because they wanted to worship God as they pleased and to be free from bondage and excessive taxation. Many died from hardships or were killed in conflicts such as the war for independence, but others fought on to establish a nation based on freedom and justice for all.

The Constitution and Bill of Rights handed down to us a guarantee of freedom of speech, freedom to worship in the church of our choice, freedom of the press, freedom to work at a self-chosen occupation, freedom to move one's person or family from place to place without interference.

Other freedoms include equality of all citizens before the law and special privileges for none; protection of every citizen's right to hold, bequeath, or otherwise dispose of property; to work and produce; to engage in business; to buy and sell without interference from other persons or by government. Also, we have freedom to be governed under law rather than men, a right to trial by one's peers as a jury, a right to be judged innocent until proven guilty.

Patriots must lead the way in fighting against the forces that promise Americans complete security from the cradle to the grave. They will but surrender their freedom. We must fight, or all these brave men will have died in vain.

The battle to save freedom could be half won if all of us read ourselves daily, "What can I do to help preserve a free America?"

## Residents Urged To Beware of Salesmen

Residents are again urged to be on the lookout for traveling salesmen who frequent our city. It is true that many of these persons are honest and have no "gimmick" connected with their sales technique. It is also true that misrepresentation, fraud, and blackmail have been the motive of some of these sales persons.

Recently two girls were selling magazines in Silverton, representing themselves as Quitaque girls working for nursing scholarships.

When questioned by Sheriff Johnny Lanham, they revealed that they were from Wisconsin and New Mexico, and the car they were driving was registered in Hidalgo County, located on the southern tip of Texas. It was further found that the girls and four men were registered in a Canyon Motel, and it was assumed that the men were working elsewhere while the girls were here.

Often the method of operation carried on by these people is for the girls to contact the men and business houses, while the men in the group contact the housewives and home owners.

Several months ago some residents were "taken in" by another group of magazine salesmen. One of the girls posed at that time as the "granddaughter of a Quitaque couple." The checks given them for magazines were cashed in Silverton before they left town, and to date the subscribers have received no magazines.

In another instance, the tactics used against local people were much uglier and more serious.

There is a city ordinance against soliciting for any reason without a city license. The penalty for failure to comply with the ordinance is a fine up to \$200.00. The ordinance will be contained in next week's issue of the News, and for your own protection it should be clipped and saved. If anyone is confronted by a salesman who cannot produce a city license or sees persons whom he strongly suspects are soliciting without a license, the City Hall should be notified at once, and all pertinent information such as description and car license number should be noted.

In most cases a good way to rid yourself of annoying salesmen is to ask to see their city license.

surpass the speed of sound, possibly causing sonic bombs at altitudes between 35,000 and 50,000 feet.

Training flights at lower altitudes will be flown at subsonic speeds.

Sonic booms are merely thunder-like sounds that are heard when a shock wave is generated by an aircraft flying at supersonic speeds.

In special tests where aircraft have dived from 35,000 feet to 25,000 feet at supersonic speeds, scientists have measured pressures no greater than five pounds per square foot on the ground. Even when produced under these test conditions, a sonic boom is far too weak to cause structural damage.

You are the only person who can say this for yourself.

You are busy. You have time-consuming affairs demanding your attention. There are so many things you must do every day.

Maybe you are a student and nothing in the world is as important to you as completing your education. You may say, "I would

like to help, but I am too busy. Somebody else will have to do the job."

Or you may be a housewife and mother, on whom rests the responsibility of keeping the home and family running smoothly. This is no small task. "I live in a storm of getting the children off to school and preparing meals," such a mother may say. "Other people will have to take on this mixed-up world situation. It's beyond me."

## THE REWARD OF THE STEWARD

Soil Stewardship Week  
1961

The week of May 7 through 14 has been set aside as Soil Stewardship Week. It will be observed across America, and most churches will participate in some manner. In the Cap Rock District, most churches will distribute a brief pamphlet on "The Reward of the Steward."

Consider the Steward of the Soil . . .

a household or business enterprise, the one who copes daily with all the financial pressures and conflicts, and you may exclaim impatiently, "I can't do it. I am not able to take on anything more. I have all I can do, and then some."

Do you fall into one of these categories? Let us remember that the conspirators against freedom also have personal affairs that they must give attention. But they never let up in their self-appointed job of trying to tear down our liberty. They work tirelessly, and so long as they work, Patriots cannot afford to quit.

He is the guardian of our soil and the first custodian of our water.

He manages our woodlands and provides for the wildlife of Nature.

He is a producer of the food and fiber so essential to the health and well-being of all men, everywhere.

He is a man of vision, planning ahead for the wiser land use which brings stability and continuing harvests across the long tomorrow.

He is a man of deeds, translating opportunity on the land into action; converting need into accomplishment.

He is a cooperator, working on his own land and with his neighbors to conserve and develop God's gifts of soil and water for the greater good of his community and his country.

He is a man of integrity, strengthened in spirit and character by years of work on the land with his Maker.

He is an orderly man, whose well-kept fields and grasslands mark his aversion to carelessness

## A Date With Darla

Last week was a very busy week for the Juniors and Seniors. Monday night, the Junior and Senior banquet was held. The theme was "Oriental Gardens." I thought that the banquet was very beautiful, and I want to thank the Juniors for giving us such a nice banquet.

Wednesday, the Homemaking III girls, consisting of three juniors and six seniors, attended a style show at White and Kirk's in Amarillo. They showed the origin of cotton which began with styles from 1600 B.C. to 1961. It was all very interesting and we enjoyed it very much.

Friday was "Kid Day" for the Seniors. The girls came to school dressed in short dresses with stuffed toys and big suckers. The boys wore short pants and carried toys. Most of the boys had water guns and needless to say, they were shooting everyone within range. After the "Kid Day" program, we had lunch with the smaller children. They thought we were pretty funny looking. After eating, we left for Amarillo to go swimming at the YMCA. We finished swimming at 5:00, but we were undecided about what to do next. Most of us wanted to go ice skating, but a few preferred roller skating. After several phone calls to the roller rinks, finding them reserved until 7:30 or 8:00, we decided to go to Wyatts before deciding on anything definite. When we finished eating, we decided to go bowling at the Western Bowl. When we finished there, we were still undecided about going ice skating or roller skating. After some discussion, we decided to try our luck at ice skating. It was a lot of fun even though we came home with a few bruises. We all had a lot of fun, and I think the Seniors would like to have "Kid Day" again.

### EIGHTH GRADE

Mr. Ballard

by Kathy Peugh

If you were to visit school Friday, I imagine you would see high heels, dress pants, dress up clothes. We were having Dress-Up Day. Teachers as well as students were to dress up in their "Sunday Clothes." Every person that didn't dress up was to pay 50c. With this money the Student Council is going to buy a gift for the person who was the best dressed.

At four o'clock Friday evening the eighth grade class went to Sky-Hi Park on a Weiner roast. The future freshman cheerleader is Rita Brown. She was elected Tuesday by the 1961-62 Pep Squad. The other cheerleaders are LaQuetta Chitty, Sue Lanham and Jealata Eddleman. Congratulations to all four of these girls.

### SEVENTH GRADE

Mr. Cole

Reporters, Howard Tomlin and Jackie Durham

Last Friday the Junior High had a "Dress-Up Day." In the Seventh Grade, the best dressed boys were Darrell Long and Howard Tomlin. The best dressed girls were Alice Holt, Ruth Ann Minyard and Sheila Maples. The best dressed girl and boy in the whole Junior High were Tommy Edwards and Ruth Minyard.

We are also very proud to say we have a new girl in our room. Her name is Linda Kay Offield. She moved here from Kermit, in West Texas.

### SIXTH GRADE

Mrs. Turner

Everywhere we looked today we saw boys in white shirts and ties and girls in fancy dresses and heels, for this has been Dress-Up Day. Everyone looked so very nice and all agree it has been fun for one day.

We were happy that Tommy Edwards was selected from the sixth grade as best dressed boy in Junior High.

### FIFTH GRADE

Mrs. Baker

We have lost a pupil this week. We have drawn some geography maps of Africa, Ireland and Great Britain. We have the best of these on the board. Our teachers all think they are nice.

Joe Mercer has had his arm bandaged up. He has fallen and fractured it. He also burst a blood vessel.

### MEET THE SENIORS

John Howard Burson

John Howard Burson is a very good all-round student. His grades are consistently good even though not quite high enough for the honor roll. He is appreciated by his classmates as is shown by his being elected class officer each year in high school. He was president, parliamentarian, president, and treasurer respectively through the years. John Howard had a part in the Drama Club play, "Mother was a Freshman" the year he was a freshman and showed considerable talent.

John played football his first two years in high school and basketball the last two and was quite good in both sports.

At present John Howard plans to go to Hardin Simons next year and then transfer to A & M to major in Fish and Wild Life Husbandry.

A policeman was investigating a crime at a lady's house. Lady: "I know the butler didn't do it." Policeman: "How can you be so sure?" Lady: "I don't have a butler."

BRAINS—What a man looks for in a woman after he's looked at everything else.

### FOURTH GRADE

Mrs. Snell

Mrs. Snell's room gave their program "The Jefferson's Entertainment." The entire class participated. The play included several of America's great heroes. The class did quite a lot of research on all the characters. The students who introduced the famous characters wrote their own parts and did a very good job.

We all hope that our program fostered a pride in America for its audience as it did for those who presented it.

### FOURTH GRADE

Mrs. Alexander

We are enjoying the study of Japan this week. Many interesting things have been brought to school to add to our study of this island country. Jackie Tate brought money, a tape measure and a ladies' wooden shoe from Luzon. Johnnie Weaver brought some coins and Crockett Grabbe brought part of a newspaper including some comics. All of us are busy finishing our work and looking forward to vacation time.

### History Students Compete in Contests

On Thursday, April 27, four American history students, Robert Rhode, Ann Wingo, Robert Hughes and Jerry Williamson, were accompanied by their teacher, Mr. O. C. Rampley, to West Texas State College at Canyon to enter the history contests being held there. The four students competed with some five hundred other high school students from all over the Panhandle. The history test took an hour and a half and consisted of multiple choice and essay type questions. After the contest a luncheon was served in the cafeteria.

The results of the contest have not yet been announced.

As the Pullman conductor passed through the car one night, he noticed a red lantern hanging on one of the lower berths, so he looked up George, the new porter who was working his first trip. "Say, George," he said, "what's that red lantern hanging on lower 24 for?" George pulled out a little book and pointed to Rule 23 which read, "Always hang a red lantern when the rear end of the sleeper is exposed."

## HAPPY BIRTHDAY!

The doctor looked into the patient's eye, and after careful study said, "I can see that you are suffering from sleeping sickness, gastritis, appendicitis and diabetes." "Now," replied the patient, "try the other eye, Doc—that one is glass."

### THIRD GRADE

Mrs. Hinds

We have really been busy this week taking our required tests—first the California Test of Mental Maturity and then our last Silent Reading Test.

Paula Birdwell went to Plainview Wednesday afternoon for her Piano Audition.

Steve Brown is still absent from school. We are all writing him letters in English today.

We are studying clothing in Geography and want to share some of our stories with you. We wrote these by ourselves.

### ABOUT MY SHOES

by Thurman May

My shoes were once a cow. They sent my cow to a market. They took my cow's skin to a factory. They made my cow's skin into shoes. My shoes are made from leather.

### ABOUT NYLON

by Cynthia Sutton

Nylon is made by men. Nylon is made of corn cobs, air and water. I have just a few things made of nylon. Nylon is very useful, I know. Clothes are not the only things that are made of nylon. Some of the things that are made out of Nylon besides clothes are parachutes, cups, saucers, sails, paint brush bristles, waterproof cloth, combs, brushes, tow rope, suitcases, racket strings and chair covers.

### ABOUT COTTON

by Paula Birdwell

I am your dress. I used to grow in your father's field. Then when it was time to pick me, men came out to the field and picked a lot of cotton. Then they took me to a factory. I was made into a dress and now you are wearing me.

### THE SILK CLOTH

by Sandi Rackley

Silk is made of very fine threads. Silk is made by a worm. Silk cost very much money in the old days. In the old days silk was the finest cloth in the world, they thought.

### STUDENT COUNCIL TO HOLD INSTALLATION OF OFFICERS

The installation of Student Council Officers will take place on Monday, May 8, at 10:30 a.m. The old members of the Student Council will install the members for the coming year.

This is the first year that Silverton High School will have such a ceremony. All members will be in formal and suits. The outgoing members of the Silverton Student Council invite you to this assembly program.

The age of an actress is like the speedometer on a used car—you know it's set back, but you can't tell how far.

### Junior High Student Council News

The Junior High Student Council wishes to thank all the students in junior high for their fine participation in dress-up day. Everyone looked very nice and helped to make "Dress-Up Day" a big success.

Prizes were awarded to Ruth Ann Minyard and Tommy Edwards for being the best-dressed girl and boy in junior high school.

"It isn't sanitary," protested the traveler, "to have the house built over the hog pen that way."

"Well, I dunno," replied the native. "We ain't lost a hog in 15 years."

### ATTEND STATE FHA CONVENTION

Mrs. Buster Miller and Mrs. Don Garrison accompanied Doris Estes, Celene Lanham, Becky Thomas and Raye Garrison to the Texas Association Future Homemakers of America Convention in Dallas April 27-29. The meeting was held in the State Fair Park Music Hall of Dallas.

Doris Estes and Celene Lanham received their State Degrees in a beautiful ceremony Friday afternoon. Raye Garrison was the voting delegate from the Silverton Chapter. The group will give a report of the meeting on May 2.

### MEET THE SENIORS

Fred Minyard

Fred Minyard came to Silverton late in his school career, but he has made a place for himself in school activities and with the many students who are his friends. He has consistently improved in his work from his entry until the present time.

Fred played football the last two years, and the coaches wish he had two more years to play. He's a willing worker and a good sport. These are characteristics which help any player or any student.

He is an active member of the S-Club. Although Fred did not play basketball, he was vitally interested in the team. This interest was displayed by being an excellent manager who was helpful to both coach and players.

### Seniors Enjoy "Kid Day" Activities

by Dale Francis

Water guns, paper wads and general fun were the main topics for discussion in most all senior classes last Friday. Even though some members of the class were unable to attend school, the Seniors who did come had a fine time. The morning was begun by all Senior Kids blowing bubbles with large chews of bubble gum and licking on their all-day lollipops. Pretty soon, the bell rang and we went to our first class. Although there were a few water gun squirts during the first two class periods, all the "kiddies" behaved pretty nicely.

At 10:35 a.m. the kiddies presented their traditional assembly program to the high school students. This consisted mainly of a skit, "Pirates and Penitence." Dave Schott portrayed the Captain of the pirate crew; Larry West, the

Mate; David Tipton, Fred Dunham and Dale Francis, the Pirates. The natives of the village were Reba Maples, Nell Rackley, Brenda Cornett, Darla Peugh, Carolyn Frizzell and eJanette Perkins; La Guan Thompson was the village

Witch Doctor. After the skit was presented, Larry West, Mike Mercer and Dave Schott played their harmonicas. The senior girls presented a flash card reading of "S-E-N-I-O-R-S."

Dale Francis presented some piano solos to finish the program.

As soon as the assembly program was over, the "twelfth-grade first-graders" enjoyed lunch in the school cafeteria with the "first-grade first graders."

The group, accompanied by four adults, then went to Amarillo where they enjoyed a wonderful afternoon of activities. Everyone enjoyed the pleasant swim at the YMCA, which was followed by bowling at the Western Bowl. To top it off the group "attempted" to ice skate at the Ice Arena. After this last bit of fun, our weary class came home to return to normal life.

Mrs. Alma York of Wichita Falls has been here since Wednesday of last week visiting her sisters, Mrs. Earl Simpson and Mrs. A. Deisher. Mrs. Simpson and Mrs. York visited their mother, Mrs. Flora Foster, in Plainview Sunday afternoon.

Lois Bishop is staying in Mauderson for awhile with Mr. and Mrs. Cecil Seaney and children while Mrs. Seaney is recuperating from recent surgery.

**THE EFFECTS OF ALCOHOL**

**PHYSICAL AND MENTAL EFFECTS**

The following facts have been established by unbiased scientific tests: (1) Alcohol is a narcotic. (2) Alcohol is a depressant. (3) Alcohol is a protoplasmic poison. (4) Alcohol irritates liver tissue and makes it more susceptible to cirrhosis.

T. P. O'Shannon, a director of the Texas Committee on Alcoholism says: "The most serious damage is done to the brain rather than the body, and this damage is immediate with the first drink."

Thomas A. Edison has said: "I have better use for my brain than to poison it with alcohol. To put alcohol in the human brain is like putting sand in the bearing of an engine."

Dr. William Mayo says: "From the point of view of health, there never has been any question but that abstinence from alcoholic liquors proves extremely beneficial."

"Wine and new wine take away understanding." (Hosea 4:11 R. S. V.)

"Look not thou upon the wine when it is red, when it giveth his colour in the cup, when it moveth itself aright. At the last it biteth like a serpent, and stingeth like an adder." (Prov. 23: 31, 32). Truly, "strong drink shall be bitter to them that drink it." (Isa. 24:9).

**CRIMINAL EFFECTS OF ALCOHOL**

Of the FBI finger-printed arrests on file in Washington, 47.21 per cent were caused by liquor, according to the FBI Uniform Crime Reports. "In 80 percent of the cases coming through my court, liquor is involved in the crime. In nine times out of ten, alcohol is involved in a person getting into trouble the second time." Judge Stanley N. Barnes, Criminal Court, Los Angeles County, California.

"Practically 90 per cent of the cases that come through the court, are as a result of drinking." (Phillip L. Griffin, chief probation officer of the Municipal Court of Minneapolis, Minn. Listen, October - December, 1948, p. 34).

**"ALCHOL PLUS GASOLINE EQUALS BLOOD"**

The National Safety Council states that between 50 and 60 per cent of all deaths and injuries on the highway are caused by drinking. A person does not have to be completely overcome by alcohol to be a villain on the highway; only a small amount of alcohol can seriously impair one's driving ability: "For years the National Safety Council, traffic officers, and those alert to the drinking situation have known and proclaimed it is not the drunk but the drinker who menaces the highway" (Emma Kidd Hulbert. The Union Signal, October 8, 1960).
