ANOTHER BIG REASON BEHIND THE BIG BOOM IN FORD SALES:

Galaxie styling is inspiring more admiration (and imitation) than any other car on the road!

This is Galaxie styling—inspired by the fabulous Thunderbird!

Many cars have tried to copy the incomparably beautiful 1961 Galaxie. No car has succeeded.

And styling is only part of Galaxie's distinction. This is the car that's beautifully built to take care of itself. The '61 Ford goes 30,000 miles between chassis lubrications . . . 4,000 miles between oil changes. Brakes adjust automatically.

Wouldn't it make sense to STOP spending money on an old car that can never do for you what a new Ford can do?

WHAT IS YOUR RELIGIOUS AUTHORITY?

Shall we follow a man? a preacher? Shall we follow a creed book that is the result of some counsel, caucas, or convention? Almost without exception, men, without any hesitation, will say their religious authority is the BIBLE, but is this true in terms

If Mr. Average Man has two friends, both preachers, with whom he enjoys associating - fishing, hunting, eating, visiting, etc., notwithstanding that each teaches and preaches different "necessities" for salvation, what will he believe? He has confidence in both. Neither preacher would lie to him or anyone else. Each is interested in the welfare of men. Each is well respected in the community: Mr. Average man has his Bible, and he has his two preacher friends that he both respects and admires, WHAT WILL HE BELIEVE?

Mr. Average man will believe BOTH PREACHERS, notwithstanding they teach DIFFERENT DOCTRINES, require DIFFER-

ENT THINGS FOR SALVATION This he would do in NO OTHER FIELD. He may have two friends who are authorities in mathmatics, but when they disagree on ANYTHING, even if he has no idea on the subject, he quickly can say "ONLY ONE OF YOU IS WRONG. You may BOTH be wrong, but for sure, only ONE IS RIGHT." It may be in the field of agriculture. When two authorities disagree on whether a seed is a wheat seed or a barley seed, it makes no difference whether the seed is normal or not, one of the authorities is surely wrong, and maybe both. Ane thing is CERTAIN-THEY CANNOT BOTH BE RIGHT. The same is true in the field of science. To a scientific problem, there may be a thousand false answers, but there is only ONE true answer. There are a thousand wrong answers to 2 plus 2, but there is only ONE TRUE

Is not the same true in religion? Can't it be any different? This is not to say WHO is wrong, or why or how much, but that SOMEBODY IS. It is an utter impossibility for all to be right. It is much more reasonable to believe EVERYONE WRONG than that everyone could be right.

The position of Mr. Average man with his two preacher friends puts God's word in a most unfavorable position, even though he may profess to believe it completely, The Bible teaches only ONE DOCTRINE. Jesus brought only ONE DOCTRINE. To believe that two different doctorines are BOTH THERE is to impugn and disaparage God. A man's sense of reasonableness teaches him that this is not possible, so he comes to have very little respect and regard for the Bible, though he would admit that he knows little or nothing about it. He has DISQUALIFIED THE BIBLE without giving it a CHANCE TO PRESENT ITS OWN

Friends, regardless of all the different teachings and doctrines, God's word still says, "Not everyone that saith unto Me, Lord, shall enter the kingdom of heaven, but he that doeth the WILL OF MY FATHER, which is in heaven." There can be only ONE WAY to go to heaven, and that is God's WAY. There may be thousands of "wrong ways." Even reasonableness tells us there is only ONE RIGHT WAY.
