

Faculty Assignments Listed For School Opening

According to J. S. Hinds, Superintendent of the Silverton Public Schools, the school faculty assignments are now complete and everything is in readiness for the opening of school on September 4.

FIRST GRADE — Mrs. Letha Elms, Mrs. Alva Trout

SECOND GRADE — Miss Anna

Lee Anderson, Mrs. Jessie Bomar

THIRD GRADE—Miss Erma Ferris, Mrs. Grady Martin

FOURTH GRADE—Mrs. Edith C. Lee, Mrs. Jeanette Martin

FIFTH GRADE—Matthew Patton, Mrs. Ruth Baker

JUNIOR HIGH— Mrs. Pauline Turner, Claude Jarrett, Mrs. Joe

Granado, Donald Lacy and Lyndon Dunn, principal.

HIGH SCHOOL

Public Speaking— Donald Lacy

English—Mrs. Alice Lacy

School Nurse — Mrs. Delphine Klemman

Agriculture—Jack Mayfield

Coach, World History — Joe

Granada

English I and Junior High—Mrs. Ben Lesley

Homemaking—Miss Elaine Simnacher

Basketball Coach, History—Ben Lesley

Business Administration— Mrs. Faye Rampley

Mathematics—Mrs. Alvin Redin

Science—Bill Verden

Science, Mathematics— Jimmy Scott Whitfill

Coach, Drivers Education—Robert Whelchel

Librarian—Mrs. Manley Wood

Principal, Government—O. C. Rampley

A faculty meeting will be held Friday, August 31, at 3:00 p.m.

Registration

Junior High and Elementary School—following general assembly on Tuesday, September 4, at 9:00 a.m.

Freshmen—August 30, 9:00 a.m.

Sophomores—August 30, 1:30 p.m.

Juniors—August 31, 9:00 a.m.

Seniors—August 31, 1:30 p.m.

A short schedule will follow the general assembly on September 4. No lunch will be served and buses will deliver the students home at 11:30 a.m. The first day of regular classes will be Wednesday, September 5.

First Load of New Milo Delivered Here

The first load of new milo was delivered to Silverton Co-Op Elevator by R. E. Brooksheir on Monday of this week. A premium was paid for the 8460 pound load of dryland maize.

The grain moisture tested 16 and the test weight was 55 pounds.

Mrs. R. M. Hill Rites Are Conducted Here

Funeral services honoring the memory of Mrs. R. M. Hill were conducted in the First Methodist Church in Silverton, of which she was a member, on Monday, August 20. The Rev. Harold Secord, pastor of the Kress Methodist Church, and Hawn Kite, Silverton Church of Christ minister, officiated.

Alma Julia Hill was born in Hood County, Texas, on April 19, 1887, the daughter of the late Mr. and Mrs. J. M. Gardner.

Mrs. Hill died at 6:35 p.m. Saturday, August 18, in Swisher County Hospital at Tulla following an apparent heart attack. She was 75 years of age.

Mrs. Hill came to Silverton in 1908 and had made her home here since then. She was married to George Cloyd here on August 9, 1909. He preceded her in death in 1914. On January 24, 1926, she was married to R. M. Hill, who preceded her in death in 1947.

Mrs. Hill was converted at an early age, and was an active member of the Methodist Church until her recent illness. Through the years she had kept a history of the Silverton Methodist Church in her official capacity as church historian. She gave her time freely to keep the history current.

She is survived by two daughters, Mrs. Troy Burson and Mrs. Rex Dickerson, both of Silverton; four step-sons, Richard, Jesse, Robert and Bailey Hill, all of Silverton; two step-daughters, Mrs. Bailey Childress of Silverton, and Mrs. Bertha Burson of Childress; two sisters, Mrs. C. S. Hewitt of Weslaco and Mrs. Oscar Campbell of Harlingen, one half-sister, Mrs. Maurine Pillow of Harlingen; her step-mother, Mrs. Isom Bagwell of Harlingen; one granddaughter, Julia Jane Dickerson of Silverton; and a number of step-grandchildren and step-great-grandchildren.

Pallbearers were members of the Board of Stewards of the Silverton Methodist Church. Interment was in the Silverton Cemetery under the direction of Roberts Funeral Home.

Mrs. Edwin Crass went to Stamford early this week to return home her sister, Mrs. Alma Stephens, who had been visiting with Mr. and Mrs. Crass and other local relatives for several days.

Mr. and Mrs. R. E. Brooksheir left on Friday of last week for a visit with S. Sgt. and Mrs. M. D. Thompson and family in San Antonio.

Mrs. J. E. Vaughan visited Mr. and Mrs. Homer Ragland, jr., and Janice in Dimmitt Monday and Tuesday.

Mr. and Mrs. Jimmy Whitfill were weekend guests of Mr. and Mrs. Floyd Avon in Lubbock.

THURSDAY, AUGUST 23, 1962 Silverton, (Briscoe County) Texas VOLUME 54 NUMBER 34

Head Football Coach Robert Whelchel (center) consults with his assistant coaches, Joe Granado (left) and Ben Lesley during an early practice session. Granado and Lesley are both new in Silverton this year, and all are looking forward to a good season.

Owls Draw Uniforms As Practice Begins

Thirty-three Silverton High School boys reported for uniforms and began training for the 1962 football season on Monday of this week.

Coach Robert Whelchel stated that he is pleased with the progress the boys are making. "Some of the boys are in pretty good shape, while others get pretty tired," he added.

The Owls will have a number of players back from last year's squad, including Van Breedlove, Fred Stafford, Jay Towe, Butch Norris, Louis Strange, Bill Schott, Emmett Tomlin, Greg Towe, Max Garrison, Dennis Tomlin and Larry McWilliams.

Van Breedlove and Butch Norris received honorable mentions on the All District team last year. Silverton's first game of the season will be on September 7, at Claude.

Silverton Jets Take Playoff by Forfeit

The Silverton Jets were awarded first place in the Irrigation League playoff last when on a forfeit from Umbarger. The teams were supposed to have played last Thursday night.

Mr. and Mrs. Rueben Tye and sons of Arlington visited his sister and family, Mr. and Mrs. James Davis, from Saturday through Monday.

COUNTY AGENT WARNS OF GRAIN SORGHUM DAMAGE BY INSECTS

Some damage to grain sorghum by the Sorghum Midge is showing up in the southern part of the county and in Floyd County according to County Agricultural Agent Clarence Kerns. This insect is considered new to the Texas Panhandle.

Last year sorghum midge caused extensive damage to late maturing grain sorghum on the High Plains. Losses of grain in individual fields blooming after mid-August, due to midge, ranged from 20% to 100% in a number of High Plains counties in 1961.

The current situation appears to be in somewhat smaller numbers than in 1961, continues the agent. No midge were observed until July 13, 1962. At this time a few adults were observed near Idalou in Lubbock County.

The sorghum midge is a tropical pest and is most injurious in the more humid parts of the state. The adult midge is an orange-colored, fragile-looking gnat or fly about 1/12 inch long. Adult females lay their eggs in the spikelet or seed husk of the host plant. The midge will attack grain sorghum, sweet sorghum, Johnsongrass, sudangrass, broomcorn and other wild or uncultivated grasses. The female usually deposits about 50 to 250 tiny eggs on sorghum spikelets and the pink to orange maggots feed on and consume the internal content of the developing seed. The eggs are deposited in the sorghum head soon after emergence from the boot. Approximately 90 percent of the eggs are laid during the four days following head emergence.

The damage caused by midge closely resembles blasted or blighted heads resulting from disease, hard rains during the flowering stage, infertility and lack of sufficient plant nutrients in the soil, he continued.

Control recommendations are extremely difficult to make due to the lack of information on the habits, repeated occurrence and long-time seriousness of this pest in the area, but satisfactory controls have been accomplished with a number of insecticides. Probably the cheapest of these is Toxaphene.

Research gathered by the Experiment Station where Toxaphene was applied at a rate of two pounds per acre to sorghum where midge infestations were found indicated that the best results were obtained at the application of four days after 90% of the heads were emerged from the boot.

About the only recommendation made by the county agent is that farmers with late grain should check fields for midge and check fields of earlier grain to see if damage has occurred to them. If damage is discovered, spraying might pay, he concluded.

Mr. and Mrs. D. H. Davis left Monday for a few days with Mrs. Alpha Kitchens at Grand Prairie.

Soil And Water Loans Are Available

Many farmers in this area have expressed concern over the depletion of the underground water supply. Every measure possible should be employed to cut down on unnecessary waste, say soil and water conservationists.

Practices such as using lake pumps when possible, installation of underground pipe and careful engineering of sloping land to prevent excessive loss of tail water, are necessary investments to insure our future prosperity.

Farmers Home Administration has funds available for water development and conservation needs in this area. The loans are available to individuals and associations. Loans to associations can be used for larger projects such as water systems in small towns and communities, and dams for both conservation and recreation. Association water loans have been tentatively approved for community water systems in two neighboring counties. The availability of such loans as these are fulfilling an important need throughout the entire state.

Loans are also available under the same program for a great variety of soil development and conservation projects. Among these are land leveling, terracing, permanent pasture development and many others. Both Soil Conservation Service and Extension Service offer their technical assistance whenever needed.

To be eligible, the farmer must be unable to obtain credit on reasonable terms from other sources. Further information may be obtained from the local Farmers Home Administration office.

Telephone Service Restored in Silverton

Telephone service has been restored in Silverton after a winch truck put out of order approximately 200 telephones at about 3:00 p.m. last Friday.

W. W. Frazier, district manager for General Telephone Company of the Southwest, said that the accident necessitated the replacing of seven utility poles. Two of them were broken off, and the others were ruined.

Telephone service was restored about noon on Saturday, and further work on the cables has continued into this week.

The damage was to cables between Main and Broadway streets half a block south of the courthouse.

Briscoe 4-H Camp To Be Held Next Week

The Briscoe County 4-H Camp will be held this year at Ceta Canyon Methodist Camp, August 30-September 1. Fee for the camp will be \$7.50, and must be paid on or before Friday, August 24, to County Agent Clarence Kerns.

The County Council has planned to have Parents' Night on Friday, August 31. Parents wishing to spend the night or eat a meal with the club should notify the County Agent one day prior to coming. The charge for one meal will be \$1.50.

The buses will leave from the north side of the courthouse on Thursday, August 30, at 1:45 p.m. and will return to the courthouse at about 12:00 noon Saturday, September 1.

Mr. and Mrs. Bud Vaughan have spent a recent weekend in Cimarron, New Mexico. They returned home their sons, Ronny and Danny, who had been visiting their grandparents Mr. and Mrs. Runt Swinney, for two weeks.

ROPING CLUB TO SPONSOR FUN NIGHT AT SILVERTON RODEO ARENA

The Silverton Roping Club will sponsor a Fun Night at the Rodeo Arena beginning at 8:00 p.m. Tuesday, August 28. A 25c admission charge will be made, and no entry fees will be charged.

Among the events to be included will be Merchants' Roping; Musical Chairs, on horseback; Flag Race; Ladies Barrel Race; Boys and Mens Bareback Barrel Race; Rescue Race, in which a rider has to get another person on the horse behind him as quickly as possible; and other events of interest.

Among those expected to participate are Gene Morris, O. C. Maples, John Montague, Robert Ledbetter, Bud House, Charles Sarchet, Homer Stephens, Farris Martin, Glen Linsey, George Sealey, Keyth Tiffin, Jack Stafford and Hugh Nance. The merchants may either elect to rope their own calves or remove the ribbon from the calves' tails. Other merchants will be contacted during the week by the roping club to solicit other entries in the "rodeo."

The Riding Club requests that everyone be on hand for a good time. Bring your quarter for admission and a big appetite, says Eddie Edwards, because the ladies will be selling sandwiches, candy and pop.

Red Cross Requests Additional Help For Tinner Family

Bonnie May, representing the local Red Cross chapter, has requested additional help for the Tinner family whose home and personal possessions were burned recently.

"Everyone has been just wonderful to pitch in to help the Red Cross assist this family of twelve," Mrs. May said. "Many of the things they needed have been purchased for them by the Red Cross, including three beds and mattresses, and we have found them a place to live. They have plenty of dishes, silverware, a kitchen stove, table, chairs and a divan and chair for the living room."

Included among the things Continued on Page Five

Mrs. U. D. Brown Is Laid To Rest

Funeral services for Mrs. U. D. Brown, 63, were conducted in the Church of Christ in Silverton, on Monday, August 20. Earl Cantwell, Rock Creek Church of Christ minister, and Richard Williams of Snyder, formerly minister of the Church of Christ in Silverton, officiated.

Mrs. Brown died at the home of her daughter, Mrs. J. D. Nance, 15 miles southwest of Silverton, at about 8:35 p.m. Saturday, August 18.

Zemily E. Brown was born on September 30, 1898, in Mississippi, and came to Texas as a small girl. She was married to U. D. Brown in Willbarger County on February 7, 1915. They came to Silverton from Ford County in 1925, and have made their home here since that time.

She is survived by her husband, of the home; five daughters, Mrs. J. D. Nance and Mrs. J. L. Self, both of Silverton, Mrs. Robert McJimsey of Friona, Mrs. Clayton Wood of Dell City, and Mrs. Sam Lusk of Tulla; one sister, Mrs. Joe Williams of Fort Worth; 11 grandchildren; and five great-grandchildren. One daughter and two sons preceded her in death.

Pallbearers were Edwin Crass, Jack Strange, J. L. West, Lowell Calloway, J. D. McGavock and Edwin Jewell. Interment was in the Silverton Cemetery with arrangements by Roberts Funeral Home.

GIRL SCOUT NEWS

The Girl Scouts of Troop No. 1, Silverton, attended camp at Camp Kiwanis. Those attending were Juannah Nance, Ginger Martin, Kathy Self, Lexie Cowan, Wanda Buckley and Shirley Beames.

Mrs. J. L. Self and Mrs. Ruth Baker were the leaders. The group worked on Art Badges.

Law Now Requires License For Child Care Service

The state, concerned with the welfare of children who receive day care away from their own homes, has established certain standards to be met and a license to be issued to those persons who care for children in this manner.

Many people do not know that the state licensing requirements apply to all people who care for children outside of the child's own home for any part of the 24-hour day—whether the care is provided in the person's own home for

just one child, or for a child care facility providing for a group.

The license costs nothing.

Workers from the Regional Child Welfare Office in Amarillo check on facilities in this area where care is given the children of working mothers. Their purpose is to assist people who care for unrelated children in their homes on a commercial basis to meet minimum standards and become licensed. They emphasize that there is no charge for the

license.

The license provided by the Child Welfare Division is authorized through Texas State Law without cost to provide a service by the state for working parents and their children.

The welfare workers stated that a working mother should not only check to see that any place she chooses for her child meets requirements from the standpoint of equipment and efficiency standards, but she should see that the

person caring for her child is warm and understanding toward little children and can give them a sense of security needed during the long day that they are away from their own homes.

The licensing law offers protective and helping service to three groups of people—the staff of a facility, the parents and their children, and the community.

The license is helpful to the staff of a facility in assuring parents that their children will be

well cared for. No matter whether the child attends a day care home, or simply has baby sitting away from his home, the standards for his treatment should be the same.

Citing what day care away from the parental home should offer and what it should mean to the child, the welfare workers said: "First of all, a warm, affectionate, protective contact with another adult besides mother—another place besides home where he may spend a portion of the day and

feel secure and cared for. A young child must have all that good physical care can mean for wholesome growth—adequate food, a sufficient quantity of rest and sleep; stimulation of active play; a safe place to run and yell and dig and climb; watchfulness against accidents and physical hurts; protection against communicable diseases; and observation so that defects in physical or emotional functioning do not go long unnoticed."

May persons keeping children on a commercial basis are not aware that they are required to meet state established qualifications and obtain a license. Those who wish more information can call the area Child Welfare Licensing Office, DR 3-3631, Amarillo, or may write the Regional Office of the State Child Welfare Division, 517 Taylor, Amarillo. The Regional Office is responsible for the issuance of licenses.

Eight New Schoolboy Rules Are Adopted

Dr. Rhea Williams, athletic director of the Texas Interscholastic League has revealed eight new rules in an appearance at the Texas High School Coaches Association clinic.

The first rule was that a medical certificate and permission of the parents or guardian is necessary before a boy can participate this year. He also discussed a rule that prohibits football or basketball players from participating in summer camps designed to train players in those sports. It does not apply to baseball. This rule is effective September, 1962.

Williams told newsmen of a new rule prohibiting inter-school scrimmages in football and basketball after the first game of the season. He said this rule was aimed at the B-teams that called Thursday night games scrimmages in order to be eligible for the varsity Friday under the rule of one game a week in football.

No team can participate in more than one inter-school scrimmage per week prior to the first game of the season. Williams cited the expenses as the reasons superintendents had for voting in the rule, effective this year.

An amendment to the TIL rules makes any team ineligible that has pre-season practices in junior high or elementary schools or that has spring training in junior high or elementary schools. Williams said the varsity would be penalized since the TIL has no way to penalize the junior highs.

He also told of a new music amateur rule that makes a person ineligible to compete in TIL music contests—or athletic events—if he or she accepts money for music lessons or for judging a music contest.

A basketball ruling in effect this year prohibits practice before October 1, and games before October 15, in class B, and November 1 and November 15 for other classifications. This puts a limit on basketball as football, confining it to its own season.

Football mouth and teeth protectors were recommended for football teams in 1962, but it will become a requirement in 1963.

Williams said it will be part of the uniform next year and all players must have them unless a doctor gives them written permission not to wear them due to

FROM THE STROLLER SET UP, all enjoyed the Lions Club barbecue. On the menu was barbecue, beans, potato salad, apricots, pickles, bread and iced tea. The barbecue was purchased with donations from the merchants and interested individuals and was pit cooked at Harvest Queen Grain. The bread was donated by Meads Bakery of Amarillo. Mrs. Arthur Arnold and Mrs. Edwin Crass are two of those enjoying a shady picnic in the park. (Briscoe County News Photo)

some trouble with the mouth.

A resolution passed by the Texas Medical Association asking the outlawing of head block will be recommended to all coaches. Williams said no penalty will be made since it is hard to call such a block.

Mr. and Mrs. Rex Jones and children of Lubbock visited her mother and brother, Mrs. Virgil Baldwin and Dan, last week. Mrs. Jones and the children remained until later in the week at Mrs. Baldwin and Dan returned them home.

Mr. and Mrs. Richard Eddleman visited local relatives here recently. He has been attending summer classes at WTSC, and will teach in the Abernathy school system this coming term.

Mr. and Mrs. Elmer May and Mike of Dalhart, and her brother and family, Mr. and Mrs. Pete Murphy and Debbie of Dixon, California, spent Friday and Saturday here recently with friends and relatives. The Mays were overnight guests of his sister, Virginia May. The Murphys were guests of his niece and family, Mr. and Mrs. Donald Fleming and Kimberly.

People who count noses say that the sense of smell has a lot to do with a pleasing environment. "Smell is a potent wizard that transports us across a thousand miles..."

Surveys of the field of smell, researchers have found that people prefer the following scents: cedarwood oil, Tonka bean, citronella oil, musk, camphor, pine oil and menthol.

Short of taking a trip into the forest, how do you add a pleasing fragrance to indoor living and thereby improve your outlook?

Here are some ideas based on one of the preferred scents—pine.

1. Take a bath with pine bath salts—and relax in it.
2. Store pine soap in among your towels. This adds a pleasant scent to both the towels and the storage area.
3. Use a pine mothproofing-deodorizer in your closet.
4. Burn pine cones in your fireplace.
5. Year-round, clean your house with pine. In recent years, pine oil has become a leading ingredient in household cleaners and disinfectants. This has happened for two reasons: pine oil cleans easily and effectively—and a room cleaned with a pine product smells as clean as it is.

For free Household Hints leaflets write: Pine Cleaner Information Center, 205 East 42nd Street, New York 17, N.Y. *Helen Kellas

Mrs. D. O. Bomar of Lubbock, Mrs. Avis Cowart of Amarillo, and Mrs. Kitty Lawler of Canyon, former Silverton residents, were recent guests of Mrs. T. C. Bomar and Mrs. Grady Wimberly.

Mrs. Mattie Bull, a teacher in the Amarillo schools, spent one night with Mr. and Mrs. Alton Steele and Jim Edd recently.

Mr. and Mrs. Odell Johnston of Quitaque, and their niece, Ann Smith and Janice Hester, were Lubbock recently to attend an all-star basketball game in the Municipal Auditorium.

Mr. and Mrs. J. L. Webb recently took their grandsons, Taylor Webb and Tracy Hall, to Amarillo where they entrained for their home in Russell, Kansas, after an extended visit here.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOURTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 32 proposing an amendment to the Constitution of the State of Texas to authorize the Legislature to provide for trial de novo on all appeals to the courts from actions, rulings or decisions of administrative agencies and executive departments of the State of Texas or any of its political subdivisions.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of Texas be and same is hereby amended by the addition to Article II of a new Section to be known as Section 2, said new Section 2 to read as follows:

"Section 2. Notwithstanding any other provision of the Constitution, the Legislature shall have the power, by general law, to provide for appeals to the courts from any and all actions, rulings or decisions of administrative agencies and executive departments of the State of Texas or any of its political subdivisions, under such provisions and limitations as the Legislature shall deem necessary and desirable; and the courts of Texas shall have no power or authority to refuse, deny, or change the manner of such appeals, if brought in the manner provided by general law, even though such appeals shall be provided de novo as that term is used in appeals from Justice of the Peace Courts to County Courts; and should the Legislature provide for such appeals to be tried completely de novo and independent of any administrative or executive action, ruling or decision thereon, the courts shall comply with such general law and shall hear and determine such appeals in the manner and under the conditions prescribed by the Legislature, even though such action on the part of the courts involves administrative or executive powers; provided, however, in the absence of legislation enacted subsequent to the adoption of this amendment, all such appeals shall continue to be prosecuted in the manner now provided by law, as interpreted and applied by the Appellate Courts of Texas on the date of the adoption of this amendment, and no change in the manner of such appeals shall be effected except by legislation enacted subsequent to the adoption of this amendment."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State, at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment granting the Legislature power to provide for trial de novo on all appeals from actions, rulings, or decisions of administrative or executive agencies of government."

"AGAINST the Constitutional Amendment granting the Legislature power to provide for trial de novo on all appeals from actions, rulings, or decisions of administrative or executive agencies of government."

If it appears from the returns of such election that a majority of the votes cast therein are for such amendment, same shall become a part of the Constitution of Texas.

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for such election and this amendment shall be published and the election shall be held as required by the Constitution and laws of the State.

Boost wheat yields with Monsanto Anhydrous Ammonia from **LEDBETTER-RHODE Farm and Ranch Center** Silverton, Texas

You know how important nitrogen is to your small grain. Monsanto Anhydrous Ammonia packs more nitrogen per pound and per dollar than any other type of nitrogen fertilizer. It is guaranteed 82.2% nitrogen.

Monsanto Anhydrous Ammonia resists leaching...remains "locked" in the soil, ready to work when your crops need it most... and you put it right in the root zone.

It's easy to apply... saves time and labor. Applicator tanks are quickly filled. No bags to tote, tear or tip. You can apply all you need for the entire growing season in one operation, or you can use it before planting, followed by an early side-dressing of ammonia. Let us help you build your fertilizer program around Monsanto Anhydrous Ammonia.

A message from the Treasury of a free people

How to help keep freedom ringing from every mountainside

High up on a mountainside in South Dakota, there's a famous tribute to four American patriots who did much to mold the shape of freedom.

But even if there were no Mt. Rushmore, we'd remember men like Washington, Jefferson, Roosevelt, and Lincoln. For the landscape of freedom is shaped by what they did, not by the mountainside that pays tribute.

Even today, freedom is shaped by the work of individuals—men and women, like

you. Of course, only a few Americans will ever have their faces up on a mountain. But millions of Americans are playing a real part in the defense of freedom today simply by buying U.S. Savings Bonds.

When you invest in U.S. Savings Bonds, you put some money to work for your country right now. At the same time you're putting it to work for your own future.

Aren't those good reasons to buy one soon?

Keep freedom in your future with **U.S. Savings Bonds**

The U.S. Government does not pay for this advertising. The Treasury Department thanks the Advertising Council and this newspaper for their patriotic support.

EDDIE WOODS of Amarillo is owner of Panhandle Scout, the first place winner in the Aged Studs Division of Silverton's first Apaloosa Show here recently. Also shown is Ben Bingham, who was one of the local organizers of the show.

Readers Tell All In Newspaper Study

Secrets of the newspaper reader have been laid bare in an exhaustive research project recently sponsored by the Newspaper Information Committee with the cooperation of the Bureau of Advertising, American Newspaper Publishers Association. Five thousand interviews were conducted with randomly-chosen citizens at 622 sampling points throughout the nation. Evidence was gathered which advertisers are now finding valuable in planning ad campaigns in newspapers of every size.

That was the object of the committee, whose members are six Canadian newsprint mills with an avowed stake in the welfare of newspapers. The mills are: Abitibi Power & Paper Co., Ltd.; Anglo-Canadian Pulp & Paper Mills, Ltd.; Anglo-Newfoundland Development Co., Ltd.; Donnanona Paper Co., Ltd.; MacMillan, Bloedel & Powell River, Ltd.; and St. Lawrence Corp., Ltd.

And here's what was found, in part:

Of the 54,000,000 households in the continental United States, 80.4 percent or more than 43, 600,000 buy at least one daily newspaper on the average day.

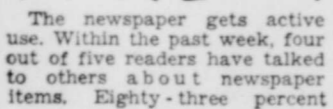

Four out of five adults (21 and over) and 77 percent of all persons between 15 and 20 read a newspaper any given weekday.

Total newspaper readings by adults every weekday are 125, 000,000, with teen-agers accounting for another 12,750,000 readings.

Average-day readership of daily newspapers is high in metropolitan areas and smaller communities alike.

The newspaper gets active use. Within the past week, four out of five readers have talked to others about newspaper items. Eighty-three percent

have clipped something out within the past 90 days. Twenty-three percent clipped ads.

People feel considerably closer to the newspaper they read than to the TV channel or radio station they listen to most.

Science Briefs

Termite Traps

Before long the termite who nibbles at decayed wood may spell his own doom. Experimenters have found a substance in rotting wood that makes an effective bait to lure termites into traps.

Moving Disease

The origin of lung cancer isn't as simple as it seems, a scientific report indicates. About half of reported cases stem from cancers that began in the lung. No one knows how many of the others began elsewhere in the body and spread to the lung. Lung cancer accounts for about two percent of annual deaths.

Non-Commuters

Family living may be a reality in the Antarctic region in the next ten years, a polar authority says. Men undertaking scientific duties there will be allowed to take along their wives and families, he says.

Cancer Clues?

More than 50 kinds of viruses which cause cancer in animals can give clues that may solve the cancer problem in humans, says a Duke University virologist.

'Brain' Battles Traffic

An electronic computer that "reads" traffic flow and makes changes in traffic signals has increased flow of vehicles by 20 percent in a Toronto, Canada test.

Students To Be Presented in Recital

Tuesday, August 28, the students of Sam B. Brown will be presented in an evening of musical entertainment beginning at 7:00 p.m. in the auditorium of the First Baptist Church. Following the presentation of his pupils and as a conclusion of the program, Mr. Brown will perform both piano and vocal selections.

This is the second summer that Mr. Brown has taught piano in Silverton. Last summer two six week sessions were taught and two recitals were held. This summer lessons were taught only the last six weeks of the summer, and this recital will be his only presentation for the year.

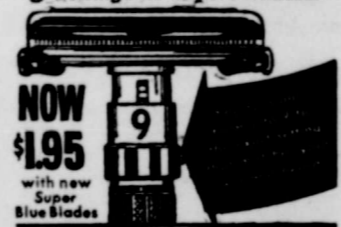

Mr. Brown will again be available for both piano and vocal instruction next summer following another year of study at Baylor University.

Mrs. W. G. Byrd of Tulia, was brought to the home of her daughter, Mrs. J. W. McCracken Tuesday morning. Mrs. Byrd had been a patient in Swisher County Hospital at Tulia for several days but is now thought to be recuperating satisfactorily.

Mrs. Florence Fogerson, Mr. and Mrs. Ware Fogerson and Stanley returned home late Thursday of last week after a vacation at Ohio City, near Gunnison, Colorado. Mr. and Mrs. W. H. Fitzgerald, Mr. and Mrs. Dickie Mayfield visited the Fogersons while they were there.

Recent dinner guests of Mrs. Lee Deavenport were Mr. and Mrs. Warren Thomas of Amistad, New Mexico; Mr. and Mrs. W. R. Kendall, Lockney; Mr. and Mrs. Beth Joiner of Clarendon; Roy Lynn Deavenport of Lubbock; and Mrs. H. P. Howard.

Crops — Like Cars — Need The Right Kind of Fuel

When your car falls—you can't always blame the weather. Chances are, it's either something wrong under the hood, or you've run out of gas.

Similarly, when farm production drops, or the products aren't up to par, or the plants appear to be diseased, very often the cause is under the soil or due to a shortage of some vital nutrients.

In recent years, more and more problems have been traced by research agronomists to deficiencies of magnesium. But symptoms of the deficiencies have for years been blamed on other causes.

DISEASE OR DEFICIENCY? "Sand drown" is a good example. This "disease" of tobacco plants was commonly associated with acid sandy soils, but in 1922, scientists established the fact that the problem was actually due to a magnesium deficiency.

Potatoes are another example, where a number of maladies have been traced to magnesium deficiencies. Both firmness and texture of potatoes are affected by the amounts of magnesium available to the growing plants.

One important function of magnesium that has been illustrated in potatoes and other vegetables is that it makes phosphorus more readily available to the plant, says Dr. J. C. Engibous, manager of agricultural services for International Minerals & Chemical Corporation.

MORE PEAS PER POD Researchers at the University of Wisconsin found that magnesium was the only nutrient element that tended to influence the number of peas in a pod. They followed this with the explanation that increased phosphorus uptake was probably responsible for the increased yield, and that the magnesium made the phosphorus more readily available to the plant.

And sugar beet yields have been substantially increased by the application of water soluble magnesium to sandy or sandy-loam soils in California, Colorado, Minnesota, Montana, Nebraska and Ohio.

Importance of magnesium, particularly water soluble magnesium in a form such as sulfate of potash magnesia, has been recognized by many state soil laboratories. Among them is the Soil Science Department at Michigan State University, which has added a magnesium test to its standard soil analysis program. This laboratory tests more than 75,000 samples every year.

Apples, citrus, corn, alfalfa, wheat and grapes and legumes such as soybeans have been benefitted by increasing the

supply of magnesium in experimental cultures and later in commercial orchards, gardens and on farms.

In many areas, dolomitic limestone is used to sweeten the soils, but in this material, magnesium is in an insoluble form, and often takes a long time to get to the plant.

A more immediately available form—that can be applied directly or in a mixed fertilizer—is sulfate of potash magnesia.

Magnesium compares to the oil or gasoline in automobiles because it is the central atom of chlorophyll—the green material that enables plants to grow.

Most important aspect of sulfate of potash magnesia is the fact that it offers an immediate cure for deficiencies, much as a quick trip to the repair shop or another gallon of gasoline will for a car.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 45 proposing an Amendment to the Constitution of Texas by adding to Article III a new Section to be known as Section 49-d authorizing the Texas Water Development Board to acquire and develop storage facilities in reservoirs and to dispose of such storage facilities and water upon such terms as the Legislature shall prescribe; providing for the use of funds received from the disposition of acquire storage and water; providing that any enabling Act shall not be invalid because of its anticipatory character; providing the form of ballot and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new Section thereto to be known as Section 49-d, as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites deposited in the construction or enlargement of dams and reservoirs for conservation of the public waters of the State, which waters are held in trust for the use and benefit of the public. To this end, and with the approval of the Board of Water Engineers or its successor, the proceeds from the sale of State bonds deposited in the Texas Water Development Fund, as provided in Article III, Section 49-b of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by general law, for the additional purposes of acquiring and developing storage facilities, for the conservation and development of water for useful purposes in and from reservoirs constructed or to be constructed within the State of Texas or on any stream constituting a boundary of the State of Texas, by any one or more of the following governments or governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies public and corporate of the State; by interstate compact or commissions to which the State of Texas is a party; and by municipal corporations.

"Under such provisions as the Legislature may prescribe by general law, the Texas Water Development Board may also, with the approval of the Board of Water Engineers or its successor, execute long-term contracts with the United States or any agency thereof, for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as State bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions of said Section 49-c with respect to the interest of principal and interest on

State bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the State's investment.

The aggregate of the bonds authorized by said Section 49-c, plus the principal of the obligations incurred under any contracts authorized hereunder, shall not exceed the Two Hundred Million Dollars (\$200,000,000) in bonds authorized by said Section 49-c of Article III of this Constitution.

The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unappropriated public waters of the State that might be used to pay principal and interest on State bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities may be used for the acquisition of additional storage facilities or providing financial assistance as authorized by said Section 49-c.

Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred. "Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at the General Election to be held on November 6, 1962, at which election all ballots shall have printed thereon:

"FOR the Amendment to Article III of the Constitution of Texas by adding a new Section to be known as Section 49-d, providing for a State program of acquiring conservation storage facilities in reservoirs."

"AGAINST the Amendment to Article III of the Constitution of Texas by adding a new Section to be known as Section 49-d, providing for a State program of acquiring conservation storage facilities in reservoirs."

Sec. 3. The Governor shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and laws of this State.

Red Cross Requests-

Continued From Page One

which the Tinner family now desperately need are clothing, sizes 8 and 10, for both boys and girls, all kinds of bedding, sheets, blankets, pillows, etc. and a refrigerator.

All the help given the Red Cross at this time is appreciated, Mrs. May said. The Red Cross has not conducted a drive for funds here this year and are making out as best they can with the money that is on hand, supplemented by gifts from residents.

Any items to be given to the Tinner family can be left at the News Office, or members of the Red Cross committee will come by for them if you will call Mrs. May, Walter Fleming or George Seaney.

Mrs. J. E. Vaughan returned home on Wednesday of last week after having spent some time with her parents, Mr. and Mrs. D. T. Johnston in Hollis, Oklahoma. Mrs. Johnston recently fell and broke a bone in her foot.

Miss LaJuan Curby Honored with Shower

The home of Mrs. Seymour Brannon was the scene of a miscellaneous shower Saturday afternoon, August 18, from 2:00 until 5:00 p.m. honoring Miss LaJuan Curby, bride-elect of Mr. Randall Ray Eddleman.

Mrs. Brannon greeted the guests and presented them to LaJuan, to her mother, Mrs. Floyd B. Long, and to Mrs. Bruce Eddleman, mother of the prospective bridegroom.

Mrs. Joe Brannon directed the guests to the bride's book for registration. Mrs. Chris Ward of Tullia and Miss Becky Malow displayed the gifts, while Misses Carolyn Garrison and LaQuetta Chitty served refreshments.

The bride's chosen colors of orchid and white were used in the corsages of those in the receiving line and in bouquets throughout the home. The refreshment over orchid. The centerpiece was table was laid with a lace cloth a miniature bride and groom be-

neath an archway decorated with wedding bells. Orchid streamers with "LaJuan" and "Randall" embossed in silver, extended to the edges of the table. Orchid punch, white cake squares with orchid decoration, white mints and nuts were served.

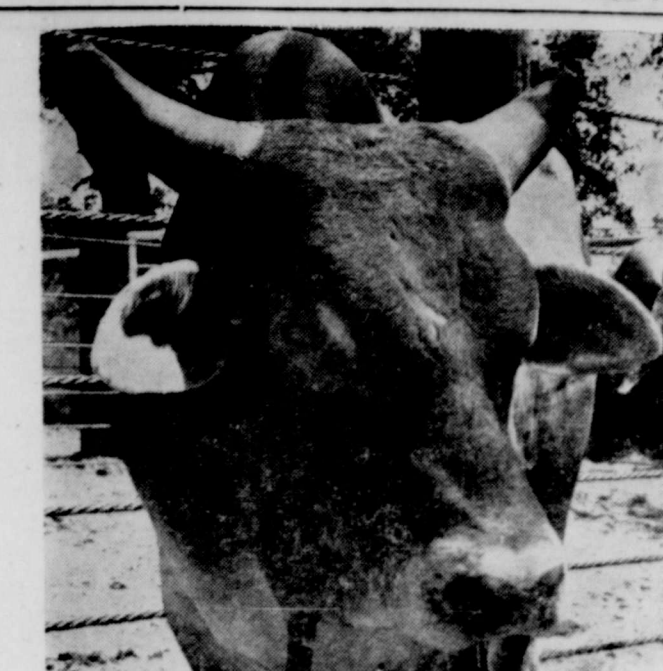

Others assisting in the hospitalities of the home were Meses. Pete Chitty, Freeman Tate, J. K. Bean, Edwin May, R. A. Edwards, Lowell Calloway, H. P. Rampley, Keyth Tiffin, Silverton, and Morris Degans of Turkey. Several of the hostesses were unable to attend.

Out of town guests included Mrs. M. O. Walls and Karen of Frederick, Oklahoma; Mrs. Proff Patrick, Quitaque; Mrs. Edd Thomas, Plainview; Mrs. Doyle Smith, Grand Prairie; Thelma Eddleman, Amarillo, and Mrs. Richard Eddleman of Abernathy.

Mrs. Carl Crow spent the week end in Dallas with her son and family, Mr. and Mrs. John H. Crow. The group attended the annual Crow-Griggs family reunion at Alvarado Sunday. Mrs. Carl Crow returned home Monday.

Mrs. Perry Thomas, sr. was transferred from Swisher County Hospital at Tullia, to Northwest Texas Hospital in Amarillo Sunday afternoon. She underwent surgery Monday.

Mrs. Elbert Stephens had the misfortune of stepping off her porch and breaking her foot on Thursday of last week. She was taken to Tullia where the broken bones were set, and she returned to her home Saturday.

A "contestant" for the 18th Annual Boys Ranch Rodeo, 2:30 PM, Sept. 2nd and 3rd.

Mrs. Minnie Stevenson, Mrs. A. L. McMurtry, Mrs. T. C. Bomar and Mrs. Dean Aillard were recent visitors with Mr. and Mrs. Wood Hardcastle at Skelleytown. Mrs. Aillard remained for a visit with her sister.

Rev. and Mrs. Porter Arnold of Bellview, New Mexico, were visitors with their daughter and family, Mr. and Mrs. Roy Mack Walker and children, on Thursday and Friday of last week.

Bill, Beth and Mark Sherman of Colorado City, spent last week here with their aunt and family, Mr. and Mrs. James Davis, Diane, Barbara and Jim. Mr. and Mrs. Marshal Sherman came for their children Monday.

Mrs. B. D. Fanning, sr., of Plainview, and Mrs. H. S. Crow, left Friday for a visit with relatives down state. They attended a Crow-Griggs annual family reunion at Alvarado on Sunday.

Mr. and Mrs. Ted Strange of Dimmitt recently spent a long weekend here with her parents, Mr. and Mrs. Ray Thompson. David and Debra, who had spent a week with their grandparents, returned home with their parents.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

SENATE JOINT RESOLUTION NO. 12 proposing an amendment to Article III of the Constitution of the State of Texas by adding a new Section to be known as Section 62 and which shall empower the Legislature to provide for the temporary succession to public offices so as to insure the continuity of governmental operations in periods of emergency resulting from disasters caused by enemy attack; providing for the proclamation and publication of this proposed amendment by the Governor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 62 and to read as follows:

"Section 62. Continuity of State and Local Governmental Operations. The Legislature, in order to insure continuity of state and local governmental operations in periods of emergency resulting from disasters caused by enemy attack, shall have the power and the immediate duty to provide for prompt and temporary succession to the powers and duties of public offices, except members of the Legislature, of whatever nature and whether filled by election or appointment, the incumbents of which may become unavailable for carrying on the powers and duties of such offices. Provided, however, that Article I of

the Constitution of Texas, known as the "Bill of Rights" shall not be in any manner affected, amended, impaired, suspended, repealed or suspended hereby."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment empowering the Legislature to insure continuity of state and local governmental operations in periods of emergency resulting from disasters caused by enemy attack by providing for the prompt and temporary succession to the powers and duties of public office, except members of the Legislature, the incumbents of which may become unavailable."

Sec. 3. The Governor of Texas shall issue the necessary Proclamation for the election and this Amendment shall be published in the manner and for the length of time required by the Constitution and laws of this state.

New Arrivals

Mr. and Mrs. Ronald Vaughan are parents of a boy, Harold Douglas. He arrived Thursday, August 16, weighing 8 pounds, 11 ounces, at Swisher County Hospital in Tullia.

Prepared by American Foundation for Animal Health

American farmers, individually and collectively, hold the balance of power in this nation's current all-out effort to eradicate hog cholera, a disease causing an estimated \$50 million loss annually.

The starting place, and the great need now, is vaccination. The immediate goal is to have at least 75 per cent of the herds in each area vaccinated against the disease. This will help build solid walls of protection and help prevent fresh outbreaks of hog cholera from spreading to disastrous proportions.

Cholera is causing heavy losses again. The only safe pig is the one that's vaccinated in advance.

The present all-out effort to eradicate cholera is being sponsored by government agencies, livestock groups, veterinary groups and affiliated organizations and was sparked by a new wave of this fast-killing disease. Not enough herds have been vaccinated in recent years, and cholera has now been making a strong comeback. Since there is no cure for this disease, the only safe hog is one that has been immunized in advance of an outbreak.

Proper vaccination is the key to solid immunity. Vaccination should be done by a veterinarian, after he has checked the herd and made sure the animals are in proper condition to develop immunity, and after he has chosen the right type of vaccine to fit the circumstances and local conditions.

Farmers should be familiar with the symptoms of hog cholera, so if suspicious signs appear an immediate diagnosis can be obtained and perhaps an area-wide outbreak prevented.

Among the recommended steps in the present drive against the nation's No. 1 hog killer are: 1. Have all pigs vaccinated. 2. Don't bring in replacement pigs that have not been vaccinated. 3. Isolate replacement pigs for 10 to 30 days. 4. Avoid all contact with cholera-infected herds and keep visitors out of hog lots. 5. Do not feed raw garbage or buy replacement stock from garbage fed herds. 6. If signs of hog cholera appear, call a veterinarian at once.

Boost WHEAT yields with Monsanto Anhydrous Ammonia from Ledbetter - Rhode Farm & Ranch Center

Monsanto Anhydrous Ammonia packs more nitrogen per pound and per dollar than any other type of carrier. It's guaranteed 82.2% nitrogen. It resists leaching... remains locked in the soil, ready to work when your small grain needs it most. Monsanto Anhydrous Ammonia is easy to apply. No bags to tear, tip or tote. You can put down all you need for the entire growing season, or use it as a starter—to be followed by a side-dress application. Let us build your program around Monsanto Anhydrous Ammonia.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

SENATE JOINT RESOLUTION NO. 22 proposing an amendment to Article IX of the Constitution of the State of Texas, by adding a new Section to be known as Section 11, providing for the creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins Counties, each district to be co-extensive with the county, authorizing the levying and collection of taxes; providing for the acquisition of land and properties for hospital uses, as well as the maintenance and operation of the same; and authorizing the issuance of tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements; and further providing that any enabling Acts shall not be invalid because of their anticipatory character.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article IX of the Constitution of the State of Texas is amended by adding thereto a new Section to be known as Section 11, providing for the creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins Counties, each district to be co-extensive with the county.

"If any such district is created, it may be authorized to levy a tax not to exceed Seventy-five Cents (75c) on the One Hundred Dollar (\$100) valuation of taxable property within the district; provided, however, no tax may be levied until approved by a majority vote of the participating voters who have duly rendered their property-tax. The maximum rate of tax may be changed at subsequent elections so long as obligations are not impaired, and not to exceed the maximum limit of Seventy-five Cents (75c) per One Hundred Dollar (\$100) valuation.

"If such tax is authorized, no political subdivision or municipality within or having the same boundaries as the district may levy a tax for medical or hospital care for needy individuals, nor shall they maintain or erect hospital facilities, but the district shall by resolution assume all such responsibilities and shall assume all of the liabilities and obligations (including bonds and warrants) of such subdivisions or municipalities or both. The maximum tax rate submitted shall be sufficient to discharge obligations, liabilities, and responsibilities, and to maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements and such bonds shall be payable from said Seventy-five Cent (75c) tax. The Legislature shall provide for transfer of title to properties to the district.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be invalid because of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State on the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Article IX of the Constitution permitting the creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins Counties, each district to be co-extensive with the limits of such county."

"AGAINST the Amendment to Article IX of the Constitution permitting the creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins Counties, each district to be co-extensive with the limits of such county."

Sec. 3. The Governor shall issue the necessary proclamation for said election and this Amendment shall be published in the manner and for the length of time required by the Constitution and laws of this state.

THE CONGREGATION OF THE CHURCH OF CHRIST MEETING AT ROCK CREEK

Extends a gracious welcome to all to attend any and all of our services.

SUNDAY
Morning Worship 10:30 a.m.
Evening Worship 6:00 p.m.

WEDNESDAY
Evening 8:00 p.m.
(Watch space below for special announcement)

Cheryl Cowart is spending this week with her uncle and aunt, Mr. and Mrs. G. H. Pendley, in Amarillo.

Mr. and Mrs. William Malone visited her niece, Mr. and Mrs. R. D. Sisk, in Adrian on Thursday night of last week. On Friday the group traveled to Steed, New Mexico, where they visited Mrs. Malone's brother, Mr. and Mrs. Bob Renfro until Sunday. Mr. Renfro is recuperating from a heart attack.

Mr. and Mrs. Roy Beasley and Mr. and Mrs. G. Mayfield and Gail Anne visited with Mr. and Mrs. William Malone Sunday evening.

Mr. and Mrs. Elbert Dickerson spent last week in Red River, New Mexico, guests of her brother and wife, Mr. and Mrs. W. A. Holt, at their summer home.

Mrs. D. L. McMillan of Franklin and Mr. and Mrs. Jack O'Neal, Nancy, Steve and Mike, of Pasadena, spent last week with Mr. and Mrs. M. J. O'Neal. The entire group spent a few days in Amarillo with Mr. and Mrs. Uil Gunter and family.

Grady Martin and Rick were in Dallas Friday and Saturday, where Mr. Martin attended a Postmaster's meeting.

Mrs. Sam Calloway and Jimmy arrived Wednesday of last week to be with Mr. Calloway and Janey, and Mr. Calloway's mother, Mrs. Roy Teeter, Mr. Calloway and Mrs. Teeter, who were injured in an auto accident recently, are thought to be recuperating satisfactorily.

Harold Gene Franklin and Mrs. Dick Franklin of O'Donnell, flew

here recently to return home Jerry Dee and Beth Franklin, who had been visiting their grandparents, Mr. and Mrs. J. M. Thompson, here.

Gene Schmidt of Lamesa came Friday and stayed until Monday in the home of his grandparents, Mr. and Mrs. J. M. Thompson.

Mr. and Mrs. Jim Clemmer visited their daughter and family, Mr. and Mrs. Archie Souter, in Lubbock Monday evening. The Souters have recently moved to Lubbock from Hereford. He is a football coach at Hutchinson Junior High School this year.

Mrs. J. P. Seaney of Erick, Okla-

homa, recently visited her daughter, Mrs. E. J. Duncan, and Mr. Duncan. Other guests in the Duncan home were Mr. and Mrs. Elma Seaney, Morton; Mr. and Mrs. Bud McMinn, Mrs. W. A. Stephens, Mr. and Mrs. R. E. Stephens, and Ural Vaughan.

Ted Hancock of Plainview, visit-

IN 1879, IN CHARLOTTETOWN, P.E.I. A COW AND A CALF WERE EXCHANGED FOR A FOX PUP!!

Prepared by American Foundation for Animal Health

A dairy cow is a highly complex production unit which, unfortunately, breaks down occasionally. Many of the problems causing cows to break down can be traced to the constant efforts to boost production. Among the most important problems of these valuable, high-producing animals are milk fever, ketosis and mastitis.

Cows stricken by milk fever can be saved if treated promptly enough.

Milk fever, which often occurs 12 to 72 hours after calving, causes the heaviest death losses. First symptoms of milk fever include staggering and veering. Later, the cow becomes prostrate with head and neck drawn sharply to one side. If a veterinarian can get to the stricken cow promptly, he can often save her. But time is an important element and the veterinarian should be called immediately if signs of milk fever are noticed.

Ketosis results when there is not a proper nutritive intake or utilization. When this occurs, the cow's body begins to tear itself down by converting fat into sugar and leaving "ketones" free to circulate in the cow's system.

Symptoms of this disease include loss of appetite, decrease in milk production, excitement, staggering, swaying, biting or drooling. Ketosis also can be treated and the animal often saved if the veterinarian is called in soon enough.

Mastitis is the most costly of all diseases of dairy cows. It can be caused by several different types of infective organisms which get into the delicate udder. To treat the disease successfully one must know which type of organism is causing the problem, and the source and measures for invasion. That takes careful diagnosis and then specialized treatment, plus close follow-up.

Mastitis is no disease to be "tinkered" with, and the farmer should be on guard against sure-shot, easy treatments. It takes long, careful, thorough work to clean mastitis out of a herd. But the rewards in profits can be large, once the disease has been whipped.

ed his grandparents, Mr. and Mrs. Will Smithee, on Monday of last week.

Mrs. GaGry Rowell and Debra of Claude have been recent visitors with her grandmother, Mrs. W. A. Rowell, and other local relatives.

Fudge-Nut Cake With Fluffy Caramel Frosting

"OBOY, OBOY, OBOY! Mom's making chocolate cake today!" And such a handsome cake it is—fudgy, nut-filled layers frosted with swirls of caramely frosting. Rich, moist and oh-so-chocolately, this cake is full of old-fashioned goodness. Sprinkle chocolate shot around the sides for a quick 'n' easy way to give the cake a professional decorator's touch.

Smart Mom! She uses enriched flour in her Fudge-Nut Cake and in all her baking to give her family the extra nutritional benefits of iron and three B-vitamins.

FUDGE-NUT CAKE WITH FLUFFY CARAMEL FROSTING

3 squares unsweetened chocolate (3 ounces)	2 eggs, separated
2 1/4 cups sifted enriched flour	1 1/2 cups milk
1 tablespoon baking powder	2 teaspoons vanilla extract
1 teaspoon salt	3/4 cup finely chopped nuts
1/2 cup butter or margarine	1/2 cup sugar
1 1/4 cups sugar	Fluffy Caramel Frosting

Melt chocolate over hot water. Cool. Sift together flour, baking powder and salt. Cream together butter or margarine and 1/2 cup sugar until light and fluffy. Beat egg yolks. Add to creamed mixture, beating thoroughly. Blend in chocolate. Combine milk and vanilla extract. Add dry ingredients to creamed mixture alternately with milk mixture beginning and ending with flour. Stir in nuts with last addition of flour. Beat egg whites until foamy. Add 1/4 cup sugar gradually and continue beating until stiff peaks are formed. Fold into batter. Turn into 2 waxed paper-lined, greased 9-inch round pans. Bake in moderate oven (350°F.), 40 to 45 minutes. Cool about 10 minutes before removing from pans. Place right side up on racks to cool thoroughly. Frost between layers and over sides and top of cake with Fluffy Caramel Frosting. If desired, decorate cake with chocolate shot.

FLUFFY CARAMEL FROSTING

1/4 cup light corn sirup	3 egg whites
1/2 cup brown sugar	1/4 teaspoon salt
1/2 cup water	1/2 teaspoon vanilla extract

Combine sirup, brown sugar and water. Bring to boiling and cook to 235°F. on candy thermometer or until sirup spins a long thread (6 to 8 inches). Meanwhile, beat egg whites and salt until soft peaks are formed. When the sirup has reached the proper consistency, pour it slowly onto beaten egg whites while beating constantly. Continue beating until frosting is fluffy and forms peaks. Blend in vanilla extract. Spread frosting between layers and on top and side of cake. Makes one 9-inch layer cake.

Does Change-of-Life Make You Feel Older Than You Are?

In doctor's tests, special medicine relieved those hot flashes, weakness, nervousness for woman after woman... then they could enjoy a happier middle-age!

Does change of life leave you so weak, irritable you feel older than you really are? Suffocated by hot flashes, constantly tense, so you can't be the affectionate wife of old? Don't despair! LYDIA PINKHAM'S COMPOUND can relieve that physical distress and tension both... in doctor's tests using Pinkham's Compound, woman after woman got glorious relief without costly shots! Hot flashes quickly subsided. That awful nervousness was calmed. Then most women found they could go "smiling through" the trying years of change-of-life—without that dreadful misery! If change-of-life is making you feel older than you are, ask for LYDIA E. PINKHAM'S VEGETABLE COMPOUND at drug stores. Do it today. See how fast this special medicine for women helps you feel like shots! Hot flashes quickly sub-

SLEEP 8 HOURS—WAKE UP TIRED? When due to simple iron-deficiency anemia, take Pinkham Tablets. Rich in iron, they start to strengthen your blood within one day! Thus help restore your vitality.

"We're glad daddy bought us a dishwasher," say Mrs. Kenneth Ware and daughter, Carrie, 208 EAST 21st LITTLEFIELD, TEXAS

Mrs. Ware's experience is most interesting—and enlightening. She had heard tales about dishwashers—untrue tales, of course, but how was she to know. Well, despite her objections at the time, her husband had a dishwasher installed in her new home. She says, "Now, I'm sure glad he did. I'll admit that I was completely misinformed, as I understood each dish had to be hand-washed first—this simply is not true. My electric dishwasher does the complete washing job for me."

An exciting profession that keeps you on top of local, state, national and world events.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER ELEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

SENATE JOINT RESOLUTION NO. 25 proposing an Amendment to Section 49-b, Article III of the Constitution of Texas permitting the resale of lands of the Veterans Land Fund remaining unsold after having been first offered for sale to veterans, to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law or as may hereafter be provided by law, providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended by adding thereto the following: "The foregoing notwithstanding any lands in the Veterans Land Fund which have been first offered for resale to veterans and which have not been sold may be resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law or as may hereafter be provided by law."

This Amendment shall become effective upon its adoption. Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held throughout the State of Texas on the first Tuesday after the first Monday in November, 1962, at which

election all ballots shall have printed thereon the following: "FOR the Amendment to Section 49-b of Article III of the Constitution of Texas by adding thereto a provision authorizing the resale of lands of the Veterans Land Fund remaining unsold after having been first offered for sale to veterans, to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law or as may hereafter be provided by law." AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas by adding thereto a provision authorizing the resale of lands of the Veterans Land Fund remaining unsold after having been first offered for sale to veterans, to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law or as may hereafter be provided by law. If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith. Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and this Amendment shall be published in the manner and for the length of time required by the Constitution of this state.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL * OUR STRENGTH

There is more than enough western wheatgrass growing in the Texas Panhandle to furnish the seed needed annually in the state. A heavy seed crop is not produced every year, but seed is produced often enough to assure a continuous supply for Texas users if reserves are harvested and laid by in good years. The seed can be stored for at least three years with little or no loss in viability.

Western wheatgrass is the top cool-season native grass in this part of the state. It grows in nearly pure stands along roadways and in and around the playa lakes. It also grows with buffalograss and blue grama in the short-grass rangeland to provide excellent winter and spring grazing.

In addition to use in range and pasture plantings, the grass has special value for erosion control in field waterways and on flood prevention dams and spillways. It spreads rapidly from rootstalks to form a dense sod that can be maintained in good condition by simple

management practices. Success of western wheatgrass plantings depends on origin of the seed.

Native stands of the grass are more and more extensive from about central Kansas northward to the Great Plains. Much of the seed offered for sale each year is harvested from these northern areas.

This northern seed is not adapted in Texas and should not be planted in the state because it will produce only plants with low vigor and low forage yield. The same is true of all other perennial native grasses grown in the south from northern seed, but western wheatgrass is more sensitive to southward movement than most of the other natives.

It is important that anyone who plants western wheatgrass in Texas as makes certain the seed he buys was harvested in the Texas Panhandle, or from no farther north than the Oklahoma Panhandle counties.

Mrs. R. E. Young and Peggy of Floydada; Mrs. Don Sherbet of Stephenville; and Monty Morris, weather of Lockney, visited Mr. and Mrs. Seymour Brannon and Wade Friday.

Mrs. E. C. Newman and Mrs. M. L. Welch visited Mrs. J. E. Vaughan at the Lockney Hospital Sunday afternoon.
