## Cotton Harvest Off To Early Start

Cotton harvest in Briscoe County is getting underway earlier than usual this year in spite of late plantings. Though most of the farmers are hand-pulling their cotton and waiting for the frost to defoliate for them, some have used chemical defoliant and have begun stripping. Grades have been reported as very good this year, both by Silverton gins and the Quitaque gins.

Carver Monroe told the Briscoe County News last week that he has finished stripping his cotton, has shredded the stalks and plowed them under. Most agricultural operations are not this far along.

There had been 9,082 bales of cotton ginned in a four-county region including Briscoe County last week on the basis of a count made by the Plainview office of the Texas Employment Commission.

At the same time last year the counties of Briscoe, Hale, Swisher and Floyd had ginned 5,035 bales, and two years ago the total was 16,420.

Last week's count by counties was Briscoe 520; Hale 2,051; Floyd 6,090 and Swisher 431. This time last year Briscoe had ginned 339 bales and in 1961 the county's total was 2,195.

Several weeks of perfect maturing and harvest weather have given the Plains cotton crop a tremendous boost. In this area most cotton farmers are giving late planted cotton all the time they can and few fields have been defoliated.

Showers over the region Saturday stopped the cotton harvest

and temporarily grounded combines that were getting the occasional fields of remaining mile.

On Tuesday of this week, Briscoe County's ginning total had reached 1,225 bales. This is broken down as follows:

Briscoe Co-Op Gin	123
Davis Gin	46
Dempsey Gin	46
Farmers Co-Op, Quitaque	612
Paymaster Gin, Quitaque	256
Silverton Gin	13
Tomlin-Fleming Gin	175
*Not Reporting	
Total	1,225

About this time of the year the freeze date is the big topic. Mrs. D. Oneal showed me the other day that she has a big tarp all ready to cover the tomato plants in her yard when the first frost comes.

One woman lost a small wiger last week when the first frost didn't appear on October 17. Just when will the first killing freeze come? Everyone missed on that question last year!

Our interest in this matter is because the weather and the economic welfare of our agricultural area are so closely associated.

The weather record established at Plainview since 1894 reveals that the average earliest date with temperature of 32 degrees or below is November 2. The earliest of record is October 7, 1962, and the latest was November 22, 1934.

I suspect that some of the cotton farmers are beginning to wish for a freeze for defoliation purposes. With the rapid rate of maturity of the cotton this year, it likely won't be very many days before most of them will be hoping for a killing freeze.

## Last Rites Held For Mrs. F. B. Wakefield

Funeral services for Mrs. F. B. Wakefield, 81, were conducted on Thursday, October 17, at 2:00 p.m. in the Silverton Methodist Church of which she was a member. The pastor, Rev. Carl Nunn, and a former pastor of the church, Rev. James Patterson of Lubbock, officiated.

Mrs. Wakefield died at 3:30 p.m. Monday in an Albuquerque, New Mexico, hospital after a lengthy illness.

Alice Wakefield was born on April 29, 1882, the daughter of the late Mr. and Mrs. John B. Sherrill, at Eastland. She was married to Felix B. Wakefield at Mangum, Oklahoma, in 1902, and the couple came to Briscoe County in 1903.

They moved to New Mexico in 1917 and returned to Silverton in 1950. Poor health forced them to return to New Mexico several months ago.

She was a member of Silverton Chapter No. 900 Order of the Eastern Star.

Pallbearers were Homer Stephens, Kenneth Stephens, George Seaney, Hugh Nance, Arnold Turner and Lonnie Joe Fowler. The honorary pallbearers were P. D. Thurman, Clifford Allard, Alvin Redin and members of Silverton Chapter 900 Order of the Eastern Star.

Graveside rites were under the auspices of Silverton Chapter No. 900, Order of the Eastern Star, and burial was in the Silverton Cemetery under the direction of Roberts Funeral Home.

Survivors include the husband; six sons, Sherrill Wakefield of Gallup, New Mexico, Gerald Wakefield, Oklahoma City, Paul Wakefield of Crawford, Colorado, Allen Wakefield of Granado, Arizona, Felix Wakefield, jr., of Canyon, New Mexico, and Jack Wakefield of Rock Springs; 18 grandchildren and a number of great-grandchildren.

## Ford P. P. & K. Contest Held Monday

The local Punt, Pass & Kick Contest, sponsored by Stephens Ford, was conducted at the school football field Monday afternoon

after being postponed Saturday due to the rain.

Homer Stephens, owner of Stephens Ford, said, "We had more

than sixty boys signed up to participate in the contest this year. A few of the boys didn't show up Monday afternoon, and I guess it

was because the contest had to be postponed Saturday."

Contest officials were Charles Edwin Cowart, Claude Jarrett,

Fred Strange and J. L. Self.

Winners of National Football League-style jackets (first prize in each division) were: Randy Drewry, 8; Marvin Self, 9; Monty Teeple, 10; and Jim McWilliams, 11. Each boy competes only with those of his age, and no body contact is made in the contest. Each boy is scored on how well he can pass, kick (using a kicking tee) and punt the football. He receives points for the number of feet the football travels in a straight line, and the number of feet the pass or kick is to the right or left of the line is subtracted from his score.

Winners of National Football League-style football helmets were John Minyard, 8; Ronnie Strange, 9; Jim Davis, 10; and Bobby Lynn Boyles, 11.

The four boys who won footballs autographed by National Football League stars were Gilbert Rodriguez, 8 Keenan Cruce, 9; Dan Baldwin, 10; and Bob Hutsell, 11.

Scores of the area winners will be compared, and the top junior athletes will compete at the half-time of a Dallas Cowboy home game on television.

School people have inquired whether passage of the constitutional amendment on November 9, removing the poll tax as a requirement for voting, will cut down on State aid to schools. The answer is "no."

Dr. D. Richard Bowles of Austin, former president of the Texas State Teachers Association, says repeal of the poll tax will not harm public schools financing since the levy provides only three-tenths of one per cent of State aid to local schools.

He noted further that the Amendment does not call for cancellation of the poll tax. It merely removes it as a requirement for voting. He added that the law is written so that if a school district lacks anything toward its minimum program, "it will be automatically made up from the Minimum Foundation Fund."

"School people who feel that the poll tax should be removed as a qualification for voting should have no hesitation about voting for Amendment No. 1 on November 9," Dr. Bowles said.

**Alcoholism Rate High**

Educating the people on alcoholism and trying to give aid to alcoholics is a very difficult job. But it is one to which the six-member Texas Commission on Alcoholism and its director, Macon W. Freeman, are devoted.

It is estimated that there are close to 6,000,000 alcoholics in the U. S. with some 300,000 of these in Texas.

Freeman says the alcoholic tries to hide himself. His family and friends try to shield him. Together they succeed so well that most people think he's buried on skid row.

"About three per cent are on skid row. But more than 90 per cent are your neighbors," said Freeman. "They have good jobs. But they are disturbed and their families are disturbed."

He said that for every 100,000

alcoholics who are rehabilitated, another 250,000 get sick. Ministers, doctors, social workers, Alcoholics Anonymous and just plain interested citizens are working just that much harder to combat the disease. He said an estimated 50 to 75 per cent of "identified" alcoholics can be cured.

Texas Commission on Alcoholism works for education and rehabilitation through cooperation with other state agencies, and with some 30 community councils on alcoholism.

**Texas Is Aviation Minded**

Texas provides more airports for civilian aircraft than any other state. A recent survey shows that Texas has 621 civilian and joint-use airports. California, which follows second, has 505.

However, California leads in the number of aircraft—12,073—while Texas' civilian aircraft total is 7,325.

Aviation is the subject of a lot of talk among state agencies.

Texas Industrial Commission added a licensed pilot to its community coordinator staff.

Two flight safety supervisors with the Texas Aeronautics Commission—John G. Uranga and Laddie J. Roark—are conducting flight safety courses this month in Graham and Breckenridge.

State Legislative Council is making a study of the possibility of a state agency aircraft pool.

**Parks Pull Visitors**

Texas' 46 parks drew 7,200,000 visitors during the 1962-63 fiscal year. That's an all-time high, according to J. Weldon Watson, executive director of the Parks and Wildlife Department.

Of 2,200,000 autos checked, 112,932 were from out-of-state.

Mackenzie Park at Lubbock attracted the most visitors with 1,800,000, closely followed by Garner at Uvalde with more than 1,000,000, and Huntsville with 614,335.

Garner Park was first in camp-

**So Little Time**

How many of us feel at the end of a day as did Cecil Rhodes, when he wrote, "So much to do, so little time!"

Time will not permit us to do all the things we should like to do. Something must be left undone. Thousands of books in the library invite our reading, but it is impossible to read them all. Hundreds of duties clamor for performance, but we cannot attend to them all. Scores of meetings call for our attendance, but if we went to them all, we should have time for nothing else.

Countless demands are made upon our time, but obviously we cannot answer them all. There are "things we should choose to leave undone."

ers with 172,683. Huntsville had 93,310 and Inks Lake 38,811. Parks with more than 25,000 campers included Lake Brownwood, Palo Duro Canyon, Possum Kingdom and Tyler.

**Insurance Rulings**

Insurance companies were given until October 28 to submit recommended credit insurance rules after Atty. Gen. Waggoner Carr released an opinion bearing on the \$15,000,000-a-year industry.

State Board of Insurance also announced businessmen will pay lower rates for workmen's compensation insurance coverage. Rate for manufacturing workers will be 3.7 less; for the contracting industry 0.5 per cent less; for the oil industry 2.4 per cent less; and for all others 2.4 per cent less.

**Estes Trial Set**

Court of Criminal Appeals has set for October 10 a hearing on the appeal of Billie Sol Estes from an eight year prison sentence.

Last November 7, a Tyler jury convicted Estes, formerly of Pecos, on a swindling charge in connection with liquid fertilizer tank deals. Estes later received a 15-year federal sentence for mail fraud in the tank mortgages.

## Soup... From Can To Cookbook

From very early times soup has been a mainstay in the diet of man. However, the art of making soup has come a long way since those early days when meat and bones were simmered in water over an open fire. Today, it's a finished product from the soup kettles, supervised by master chefs of large food processing companies.

The latter soup is, of course, the canned condensed kind. And it's the homemaker's idea of a truly convenience food. A definite time and energy saving food that's a must on the pantry shelf. Its role today, is a dual one. We not only serve it as an appetizer; or with a salad or sandwich; but also use it as a great short-cut cooking ingredient.

All of these wonderful recipes are now gathered together for us in an exciting new cookbook. Here is just one of the over 600 tempting recipes from this "soup-er" collection.

**Dreamy Chicken Stew**  
1 can (10 1/2 ounces) condensed cream of chicken soup  
1 1/2 cups water  
1 cup sliced celery  
1 medium onion, quartered  
1 teaspoon salt  
1/4 teaspoon poultry seasoning  
1/2 teaspoon pepper  
1 stewing chicken (4 to 5 pounds), cut up  
4 medium potatoes (about 1 pound), quartered  
6 medium carrots, cut in pieces  
1/4 cup flour

In large heavy pan, combine soup, 1 cup water, celery, onion, and seasonings; add chicken. Cover; cook over low heat 1 1/2 hours, stirring now and then. Add potatoes and carrots. Cover; cook about 45 minutes or until chicken and vegetables are tender. To thicken stew, blend flour and remaining water; gradually stir into stew. Cook 10 to 15 minutes, stirring often. Makes 4 to 6 servings.

P.S.—The cookbook is available as a premium from a large soup company for 50¢ and 3 different soup labels.

### Spraying Protects Livestock Investment

To protect their \$3 million investment in the screwworm eradication program, stockmen are encouraged to prevent further worm infestations by spraying their animals on a regular basis, says L-603, a new leaflet of the Texas Agricultural Extension Service.

Success of the eradication program in the Southwest depends greatly on the cooperation and assistance of the livestock producers and others who contribute mightily to it. It further says that producers can also help their own cause by avoiding the movement of infested animals and by reporting all suspected infestations immediately.

Sprays recommended by the publication are Co-Ral and Korlan. Wetting the animal thoroughly, with from one to four quarts depending on their size, will prevent the development of screw-

### SAM HOUSTON STAMP

Senator Ralph Yarborough of Texas, right, attends the unveiling of the new Sam Houston 5¢ Commemorative Stamp with Postmaster General John Gronouski at the stamp section of the United States Bureau of Engraving. The drawing of Texas hero Sam Houston is by Tom Lea, famed Southwestern artist of El Paso, Texas. Senator Yarborough, a member of the Post Office and Civil Service Committee recommended Lea as the one to make the design for the Post Office Department. The stamp shows a full length drawing of Sam Houston who was 6 feet 6 inches tall and portrays him as he would have looked at the time he defeated the Mexican Army at the battle of San Jacinto.

worm cases. Screwworm flies must have fresh or bloody wounds in which to lay their eggs and untreated scratches or wounds of any type are open invitations to the pests.

The cost of a single application of insecticide is about 10 to 40 cents per animal, depending on size. But the producer gets more than screwworm protection by the use of these sprays, says the leaf-

let. They will control horn flies, ticks and lice, and decrease the number of stable flies, house flies and other external pests. A regular spray program will also reduce anaplasmosis and pinkeye problems by eliminating the insects which spread and irritate the conditions.

As most producers agree, spraying livestock pays dividends, not to mention the protection it gives

their large investment in the screwworm program. For a copy of L-603 see your county agricultural agent or write the Agricultural Information Office, College Station, Texas.

### Niece of Mrs. Clifford Allard Marries

The First Baptist Church chapel in Jackson, Mississippi, was the setting recently for the wedding of Miss Pollie Spann, daughter of Mrs. Mildred Jackson Spann of Jackson and Dr. R. Gayle Spann of Corpus Christi, to Kenneth Burke Jacobs, son of Mr. and Mrs. Delos Cassels Jacobs of Ridgeland.

For the ceremony the chapel was decorated with candles and deep green foliage. Three very tall antique brass candelabra holding white cathedral candles stood above the white Prie dieu at the center of the decoration. Pedestals of antique brass containing arrangements of native greens accented either side of the wedding party.

Michael Spann gave his sister in marriage. The bride was radiant in a gown of candlelight delustered satin. The portrait neckline of the long sleeved bodice was softened by re-embroidered chantilly lace and encrusted with pearls and crystals. The sheath skirt was covered with candlelight lace. Inverted pleats at the waist created side and back fullness which swept into a very full chapel train. The bride's bouffant veil of English illusion was caught with a coronet of pearls and irridescent. The bride's bouquet was of white roses, violets and dark green miniature ivy.

The bride majored in speech therapy at Baylor University. The bridegroom served as a medic at the United States Naval Hospital during his term of enlistment and is presently a pre-pharmacy student at the University of Mississippi. He is employed by a pharmacy in Jackson.

The bride is the niece of Mr. and Mrs. Clifford Allard of Silverton.

### Raisin Little Packs for Trick or Treaters

California Raisin Advisory Board Photo

Sweet California raisins in little packs are a favorite treat for Halloweeners in every neighborhood. Each 1 1/2-ounce carton contains the perfect amount for a quick energy snack and they're easy for children to handle, too. Buy them singly or in bundles of six at grocery stores everywhere.

These festive raisin cup cakes, made with cake mix, also set the Halloween mood. Dark seedless California raisins are arranged in the shapes of prowling cats atop the raisin chocolate cakes. Orange icing contrasts with the dark cake and raisin decorations to carry the traditional color scheme of the day.

# THE OWL'S ROOST

by Mary Monroe

When the sophomore boys were asked their biggest problems in life recently, they turned out some amusing as well as down-to-earth answers.

For instance, Ronnie Drewry answered, "My being born and my cast."

Jerry Perkins commented, "Not being able to study. If you don't believe me just look at my report cards."

Here's a fellow with real troubles. "No money," said Wayne Rampley.

Among the other answers were: "School," Monty Smith. "Lacy, Verden, and girls, in that order," Joe Self.

"Me, myself, and I," Alan James.

"Girls and grades," Allen Thomas.

"Staying awake in class," Orlin Grabbe.

And one of the most unexpected answers given by the boys was this one by Lynn Edwards: "Not hurting the bigger boys on the football team."

And when the girls took over the answering session, Sheila Maples replied: "Running around, instead of studying or cleaning the house or something."

"Lack of time," said Paula Turner.

"Getting my geometry before I come to geometry class," Linda Fisch.

"Trying to get my assignments and my 'going' done, too," Elaine Boyles.

"Not liking a certain girl," Janice Hester.

"Not getting to see my boy friend enough," Joyce Patton.

"My sensitivity," Judy Miller.

"My parents," Ruth Ann Minyard.

"Human relationship," Masako Nakabe.

"My sweet brothers and trying

# Jerry Hitt Plays For S.H.S. Student Body

Dr. W. Neil Record and Jerry Hitt of Wayland Baptist College presented an assembly program on Wednesday, October 16.

Mr. Hitt, a pianist who has traveled with the Jack Benny and Danny Thomas shows, played a variety of numbers for the student body, including popular, jazz and classical selections.

He performed one number to demonstrate that anyone could be a pianist. He selected Jealeta Eddleman from the audience and asked her to play three notes. Then he played the other half of the duet.

With three more volunteers, Sharon Weaver, Masako Nakabe, and Monty Smith, he made a band. He played the piano, while one volunteer beat a tin can, another shook castanets, and a third beat a gong with the students clapping their hands in time with the music.

At the close of the musical program, Mr. Hitt told the students why he was a Christian and why he believed everyone should be a Christian, also. He concluded the program by leading the students in singing "How Great Thou Art."

Raye Garrison is the Student Council member in charge of providing entertainment for the assembly programs.

to convince Verden that I really am a little bit smart," Mary Schott.

"Having such small feet and being so short," said Maria Castillo. (Bet there are some girls who'd like to trade problems with her.)

And Judy Bingham summed it up when she said, "To pass everything so that I won't be grounded for six weeks."

## Pigskin Review

by Coach Robert Whelchel

District play started Friday night with the Silverton Owls going down in defeat to the Ralls Jackrabbits.

The coaching staff felt that we looked better overall. Mistakes, fumbles, and penalties will always hurt any team. We can win the rest of our ball games if we will cut out on the mistakes and give 100 percent on each play.

Offensively, we found the backs, Fred Stafford, Max Garrison, Monty Smith and Greg Towe going for the first downs. The linemen, Gary Hunt, Dennis Tomlin, Howard Tomlin, Orville Turner, Dick Reid, Emmett Tomlin and Randy Hughes doing a good job of blocking.

Defensively, we were hurt by their fullback running with the ball and the long passing. We were behind the receivers on the three times they scored, and we did not have a good pass rush in by the linemen. Outstanding on defense we found Dick Reid, Max Garrison, Howard Tomlin and Greg Towe.

This week we go to Idalou to play the undefeated, third-ranked Idalou Wildcats. They have one of the top scorers of this region in their left halfback. Their fullback also is a good strong runner. We will have to concen-

## Gloria Wallace F.F.A. Sweetheart

by Joe Bob Watson

Gloria Wallace, daughter of Mr. and Mrs. Dock Wallace of Silverton, was elected Sweetheart of the Silverton High School chapter of Future Farmers of America in their meeting on Thursday, October 17.

Gloria is a senior in Silverton High School, and will serve as the Chapter Sweetheart during the 1963-64 school year.

Darrell Long and Robert Bomar represented the Silverton F.F.A. Chapter at the National Convention of Future Farmers of America in Kansas City, Missouri, recently. They returned home on Saturday, October 12.

Some of the highlights of the convention were the National F.F.A. Band; a speech by the Mayor of Kansas City; presentation of the American Star Farmers from the four regions; presentation of American Farmer degrees; National Public Speaking Contest; talent show, and many others.

The boys had the opportunity to tour large factories, assembly lines and manufacturing concerns; also, the American Royal Livestock and Horse Show on Friday, October 11.

Both boys reported enjoying the trip, and said that they were impressed by the size of the convention and how well it was organized. It was impressive, they said, to see some 10,000 F.F.A. boys decked out in their blue jackets.

## Business Teacher Attends Meeting

Mrs. O. C. Rampley attended the Annual Convention of the West Texas Business Teachers Association at the Hilton Hotel in Plainview on October 12.

Guest speaker for the morning session of the convention was Dr. Alan C. Lloyd, noted authority and editor of Gregg Typewriting Textbooks. The morning session and luncheon session were devoted to improved teaching of first-year typewriting with special emphasis on skill development and error elimination.

Speaker for the luncheon session was Dr. William R. Pasewark, of Texas Tech.

## Elephant Joke Craze Continues In SHS

Here are a few more of the whacky and zany elephant jokes which have taken the school by storm.

- Q. Why don't many elephants graduate from college?  
A. Because not too many graduate from high school.
- Q. Why do elephants walk sideways in the grass?  
A. To trip field mice.
- Q. Why do elephants wear red tennis shoes?  
A. To sneak up on red ants.
- Q. How can you tell if an elephant was in the bathtub with you?  
A. Drain the bathtub and look for his footprints.
- Q. How do you make a statue of an elephant?  
A. Get a piece of stone and cut away everything that doesn't look like an elephant.

trate on hard tackling and good blocking. To the Owls from the coaches: Let's win the rest of the games and we'll win District!

## AUTUMN

by Mary Monroe

Isn't it strange how one can feel the changing of the seasons? Only a few weeks ago the swimming pool was crowded every day, shorts and summer clothes were seen everywhere. Now the pool is closed and the school house is full. Sweaters, wool skirts and long-sleeved shirts are commonly seen.

Recently my family received a letter from my sister, Marsha Miller, in Canyon, and she described Autumn in such a way that I would like to share a portion of that letter with you.

"It is really beginning to feel like Fall here. The days seem to have a rather semi-mist look to them even though most of the days are very sunny. I feel as though I can look forever and still not see everything. It's a welcome change from summer's closely-packed heat that seems to obscure the distance. It's a time for smelling the spicy apple dishes that I remember coming home to after school. It's a time of fields of red grain with a field of white grain breaking the monotony every once in a while. It's a time of dark plaid school dresses with crisp white collars, bright gold school busses, and friends we haven't seen during the summer. In other words, it's a time to re-instate ourselves in the warm circles of family, friends, food, and fun in order to keep ourselves alive in mind, and warm at heart during the oncoming winter's icy grip. It's a season I dearly love and I often wonder if I would if I had not been a farmer's daughter."

For those of us on the rolling plains of the Panhandle I have never found a better description of Autumn.

SILVERTON, TEXAS

# Ralls Takes First District Game From Owls, 35-14

The Ralls Jackrabbits took full advantage of the swift running of their fullback Eugene Deering to roll up a 35-14 win over the Owls on the home field Friday night.

Silverton's attack was divided among Max Garrison, who ran 69 yards from the line of scrimmage; Monty Smith, who gained 74 yards; Greg Towe, who carried for 13 yards; Fred Stafford, who gained 106 yards; and Dennis Tomlin, who ran 13 yards.

Passes from Greg Towe to Dennis Tomlin and Stafford counted for big yardage in the Owl drives, as well as passes from Dennis Tomlin to Randy Hughes and from Stafford to Max Garrison. The Owls completed five, had two intercepted, and had eight fall incomplete. The Jackrabbits completed five (four of them for touchdowns), had three fall short, and none intercepted.

Silverton fumbles halted two drives and pass interceptions ruined two others.

Ralls was penalized a total of 95 yards, while the Owls had 60 yards stepped off against them.

Silverton gained 17 first downs from the line of scrimmage, as compared with 8 gained by the Ralls eleven.

Scoring was opened by Ralls in the first quarter when Deering, their senior fullback, received a pass and ran 88 yards for the Rabbits. Gary Daniel, senior Ralls kicking expert, kicked the extra point, and at the close of the first period Ralls led 7-0.

Jerry Holley, junior back, opened the scoring for Ralls in the second quarter as he received a pass and ran 15 yards. After Daniel's kick, the Rabbits led 14-0.

The Owls put eight points on the scoreboard as Max Garrison went in from the one-yard line, and Greg Towe ran for the two extra points. This score was set up by Towe who took a Ralls quick kick to the Silverton 45 and by Stafford, who ran most of the remaining yards to the one-yard line.

Later in the second quarter, Jim Parks took the Owl after-touchdown kick and made for the goal line. He was outraced by Stafford, who overtook him and stopped him at the Silverton 30. The Rabbits made good their threat, and scored before halftime. Deering roared in from the two-yard line and Daniel kicked the extra point. The Rabbits led 21-8 at the half.

Both teams came back strong in the third quarter. The Rabbits drew first blood in the second half as Mel Ryan received a pass and ran 37 yards to score. Daniel booted for another point, and the visitors led 28-8.

Monty Smith and Max Garrison were the workhorses for the second Silverton score, carrying from the Silverton 35-yard line down to the Ralls 20. At this point, Towe handed off to Stafford and he went all the way. The score at the end of the third quarter was 28-14.

In the fourth stanza, Gene Dunn, another Ralls senior and brother of the Silverton Grade School Principal Lyndon Dunn, received a pass and ran 10 yards for the final Ralls score. Daniel kicked the extra point, and Ralls set the score at 35-14.

two pass completions aiding their cause. Inside the Ralls 20-yard stripe the Owls ran into fumble trouble, and the ball went over on downs. At the last whistle the Owls were still charging through the Ralls line in an effort to get the ball.

The Owls travel to Idalou for their second conference game this week. Last weekend's District play saw Petersburg over Lorenzo and Idalou over Crosbyton. Local predictions are that Petersburg will get a good game from Ralls for the District title.

Owl injuries will play a prominent role in their success or failure Friday night. Emmett Tomlin is back in the game after having been out with a broken arm; Monty Smith is recovering from a concussion he received at Hart; Larry McWilliams has a knocked-down shoulder; Wayne Nance is out with pulled leg muscles; Garner Garrison is out with a broken foot (not received in football); and Rocky Curby is still nursing a heel injury.

The Wildcats will be predicted to win the game Friday night, but the Owls could perform an upset with their hustle and desire. You can bet your best hat they will be trying for a win!

**State Passes New Truancy Laws**

A new compulsory school attendance law now requires school children ages seven to sixteen to go to school 165 days out of the year.  
 Before the 58th Legislature passed this law, the minimum attendance requirement was 120 days. This left a wide margin for truancy—especially by the children of migrant farm workers who are on the move two to four months out of the year.
