## Mackenzie Directors Confer With White River Manager

Directors of the Mackenzie Water Authority, in a meeting Monday evening at the City Hall in Lockney, conferred with Al O'Brien, general manager of the White River Authority, on matters pertaining to preparation and planning the water project to serve the cities of Lockney, Tulla, Floydada and Silverton. O'Brien pointed to mistakes made by the planners of his Authority and made several suggestions of ways to avoid some errors made by the White River group.

O'Brien suggested that the local Authority investigate the possibility of securing grants for recreational purposes from the State Parks Board. This grant is available to those who can qualify and will furnish matching funds for such facilities as the public will use for recreational purposes. He also suggested that the State Highway Department will build certain roads and boat docks if admission to the lake area is free.

The White River Authority is now selling water to some of the cities involved, O'Brien said, at the rate of 30 cents per thousand gallons. He pointed to the fact that lake water is soft and does away with the need for water softeners.

The White River manager said that his Authority has retained complete control of the shoreline and limits the building of business establishments within the recreational area. They lease the recreational area at the rate of \$3.00 per front foot the first year and \$1.00 per foot for subsequent years.

O'Brien pointed to surveys which show that the West Texas area has only two percent of needed recreational facilities and said that this fact will help the area to secure federal and state grants for assistance in establishing facilities.

The directors heard President Lon Davis give a report on the status of the Board's application for a loan of \$76,500 from the Housing and Home Finance Agency. Davis said that the application has been returned for minor corrections. The corrections were made and the application has

been returned to the agency. Instructions are that the federal agency will act on the application very soon.

The Board voted to discontinue negotiations with a Dallas law firm concerning charges for pre-

"Each of us in agriculture has too great an outlay in our business not to do all that we can to protect our investment in capital, time, and labor," he declared.

**Star-spangled savings plan**

Most of us think about the future in terms of paying off the mortgage, educating the children, providing a retirement income.

But with the world the way it is today, it's almost impossible to make plans for your own future without considering the future of your country, too.

When you buy U. S. Savings Bonds, your money takes on both jobs. It grows to build your financial strength.

At the same time, it helps Uncle Sam watch over our peace and security.

Why not give your savings dollars this double assignment? You'll be joining millions of American families who are investing in their country's future — and you'll probably feel pretty good about it.

It's easy to buy Savings Bonds on the Payroll Plan where you work. A \$50 Bond costs \$37.50, a \$25 Bond \$18.75, and you can buy them in installments for only a few dollars a pay day. Or buy them outright at any bank. No charge for the service.

Buy Series E Bonds for growth, Series H for current income.

- Some nice things about Series E Bonds
- You get 3 3/4% more money when they mature
  - You can defer the tax on accumulated interest until the Bonds are cashed
  - You can get your money when you need it
  - Your Bonds are replaced free if lost, destroyed, or stolen

**ROTUNDA, STATE CAPITOL**  
Austin

When you visit the rotunda directly under the dome of the State Capitol in Austin you can see Texas in the past, present and future.

On the stone floor are the seals of Spain, Mexico, France, the Republic of Texas, the Confederacy and the United States. On the walls hang portraits of all Texas heads of state — presidents of the Republic and governors since 1846.

Then, looking some 300 feet straight up, one has an uninterrupted view inside the great dome. You can dream what the future has in store for Texas, as you lift your eyes.

Memories make Texans proud of their heritage. The present, too, is a challenge to continue Texas' great role in the affairs of our Nation. We all want our children to have a secure and safe future.

I'm truly glad 1965 is over. I've been so unlucky that M&M candy melts in my hand. I've finally learned that real happiness comes from simple things. To me happiness is finding out that my dentist has false teeth; getting stopped by a cop for speeding and you're a judge; watching a drunk trying to commit suicide as he jumps out of a window and lands on a beer truck; watching one of the New York Mets stealing second by starting out from third. All of these, to me, spell happiness.

**EDITORIAL**

by Paula Turner

In February are the birthdays of two great American heroes, George Washington and Abraham Lincoln. Although Washington was president over a century and a half ago, and Lincoln was president over a century ago, their influence is still felt in our country today.

Both of these men had several great qualities. One outstanding quality shared by them was persistence.

George Washington demonstrated his persistence and great ability to lead men at Valley Forge. With seemingly insurmountable problems, it took a rare man with great persistence to keep his army there for the duration of that cold, bitter winter.

If Washington had not persisted, who knows exactly what effect it would have had on the colonies' struggle for independence.

Lincoln suffered many failures and disappointments in both his political and private life before he was finally elected president. If he had been lacking in persistence, he would have never even run for president. If he had not been elected, the differences between the states might not have been solved as successfully as they were.

These two great men did not give up when everything was against them. How much more most people could do if they were half as persistent as Washington and Lincoln.

**-SCHOOL DAZE-**

Why was Jackie Carol so excited after school? Who was it that called?

Janie, did you really ask Mike for his grissels?

Was there a problem between Max and Janie in chemistry?

Juannah, why have you and Ginger been having amnesia lately? I'm sure some of the teachers know the answer.

Carol Ann, were you really afraid that a bird was going to get your feet? If not, why did you pull your feet up in your chair and scream?

Is it true that Debbie D. really took her purple chicken to the Fat Stock Show?

Is it true that Juannah and Roy Dale are going to the Banquet in a four-wheel drive pickup?

Why did Mary L. go into hysterical fits Friday over a piece of paper Miss Self?

Wanda, who is the boy you went out with Saturday night?

Carol Ann, it's a rumor that Mr. Neal really does enjoy the singing that you do before Algebra I class. He does frown sometimes, though.

Did Mr. Evans kill the freshman girls' bird?

**IF I WERE A TEACHER**

by Terry Bomar

If I were a teacher for a day, I would give the kids a lick a day to keep their blood circulating, three licks for chewing gum and two licks for talking.

I would stand up at the front of the room marking on the board and yelling out assignments. After a while I would get tired and sit down, put my feet on the desk and sleep. When I woke up if someone was talking, I would get up and whip them and go back to sleep. Of course the teachers aren't supposed to do this, I hope.

A lot of comedians tell jokes about their wives' cooking. My wife's cooking isn't funny. Anything that brings you that close to death is a very serious matter.

I let my wife handle the family budget. She's so conservative we use the lowest grade gasoline, absolutely the cheapest on the market. They don't put a tiger in my tank. They put a skunk in my trunk.

**FBLA DAY HELD AT WEST TEXAS**

Friday, February 4, over 200 students from several schools in the northern part of the Panhandle gathered at West Texas State University for a Future Business Leaders of America workshop. Fourteen senior members of the Silverton F.B.L.A. chapter attended.

Judy Miller and Linda Fisch participated in the Miss F.B.L.A. contest, and Jerry Perkins and Wayne Rampley competed in the Mr. F.B.L.A. contest. Sheila Maples attended a scrapbook workshop; Cliff Walker attended a parliamentary procedure workshop, and Ronnie Drewry heard a program planning discussion. Mrs. O. C. Rampley, sponsor, Mrs. J. V. Self and Mrs. Dwain Henderson also went with the group.

McLean High had charge of the scrapbooks and exhibits discussions and Pi Omega Pi at West Texas State University had charge of the spelling contest. Phi Beta Lambda of Western Republic College directed the Mr. and Miss F.M.L.A. contests.

Dick Brooks, personnel manager for Southwestern Investment Company in Amarillo, was luncheon speaker.

Registration was conducted by Phi Gamma Nu, West Texas State University.

**What If I Were Teacher For A Day**

by Dianne Ray

If I had to teach class all day with some kids I would probably be nuts at the end of the day. You would have to put up with the noise and after you got through explaining something, one kid would always come up to you and ask some of the stupidest questions you ever heard. But there would be pleasures, giving them homework and whippings. But there are some good kids left I guess. I know one thing—a day would be enough for me.

**BOOK REVIEW**

**BEFORE I SLEEP**  
by James Monahan

Readers of "The Night They Burned the Mountain" recall Dr. Thomas Dooley's account of how his small jungle hospital operation in Laos expanded into an organization called Medico, which became his lengthening shadow. The same book reached a surprising climax with the disclosure that Tom Dooley at the age of 32 had a serious ailment diagnosed as malignant melanoma, a usually fatal form of cancer. Seventeen months later, on January 18, 1961, Tom Dooley was dead.

James Monahan, Senior Editor of "The Reader's Digest," worked closely with Tom Dooley during 1955-60, and was able to observe many facets of his personality: his dedication to the poor, the sick and the oppressed people of Southeast Asia; his impetuosity, his healthy egotism, his sincerity. "What impressed me most," writes Mr. Monahan in his Foreword, "and particularly during the last 15 months of his life, was the relentless drive and the sense of urgency that characterized his activities. During his last months Tom Dooley moved so fast and touched so many places that few people were close to him for any considerable length of time. Thus, after the shock and sadness of his

death had passed, it occurred to some of us that the story of his last days might be pieced together by those who recall of people who were with him at various times and places. This involved tracking down people from Maine to California, and from Southeast Asia to Afghanistan. They responded wholeheartedly to our appeal for information."

"Before I Sleep" is the story of Tom Dooley's last days, told largely by those who play a part in his final tragic months. The result is a human document which presents Tom Dooley as the dedicated person he was, and without sentimental tributes or eulogies.

Old Buildings at Fort Richardson by E. M. Schwetz

**FORT RICHARDSON**

**... a long time between paydays!**

Across the western face of Texas, the brooding ruins of forts . . . here and there a restored barracks or hospital bring back a bloody page in history. A history that tells of marauding redskins thundering southward from Indian Territory, killing in their wake, pushing on to the Mexican border. A history that tells too of the hard and lonely life of the U.S. Army troopers who manned these strategic forts.

Fort Richardson, near Jacksboro, was one of the more important of these outposts. Here Kiowa Chieftains Satanta and Big Tree were incarcerated before their trial for a bloody massacre. But life in all frontier posts was much the same . . . best expressed by the soldiers themselves, "a long time between paydays."

**BUT IT ISN'T SO FAR BETWEEN PAYDAYS NOW**  
... with U. S. Savings Bonds!

Today, there can also be a long time between paydays for those who have not established the thrift habit. But through the U.S. Savings Bonds program you can take care of this situation quickly and effectively.

For example, with as little as 63¢ a day you can buy an \$18.75 Savings Bond every month. Keep this up for 40 months and you'll own a stack of Bonds worth \$1,000, at maturity, which cost you only \$750 in easy installments.

Buy U.S. Savings Bonds every payday automatically through the payroll savings plan.

Chevrolet Impala Sport Sedan with Body by Fisher

**JET-SMOOTHER THE CHEVROLET WAY**

Soft contoured new Strato-bucket front seats come standard in Super Sports for relaxing comfort on every trip.

We added new bushings and softened body-to-frame mounts to smooth Chevrolet's ride. We put in soft-acting shock absorbers and soft-working coil springs at every wheel. By soft, though, we don't mean mushy. Chevrolet's Way makes for a smooth, solid ride. Very steady on curves. A bump jumps from the supple springs and shocks—and pfft! It all but disappears.

The powerfully smooth new Turbo-Jet V8 is available in all '66 Caprice, Impala SS, Impala, Bel Air and Biscayne models.

Eight features now standard for your added safety—including seat belts front and back (always buckle up!) and an outside rear-view mirror (always check in back before passing).

All kinds of cars, all in one place...at your Chevrolet dealer's: Chevrolet • Chevelle • Chevy II • Corvair • Corvette

# Your Home Business Firms are THE HIGHEST BIDDERS for Your Shopping Dollar

**Here  
are the facts  
to prove  
it...**

Actually . . . no matter where you live . . . nobody . . . and that means **NOBODY** . . . can give you more for your dollar than your own home business firms. Let's look at the reason for this advantageous . . . to you . . . situation:

**ANY MERCHANT** . . . anywhere . . . is ordinarily going to sell goods for some more than he pays for them.

**ON AN AVERAGE** . . . when you spend a dollar in any retail store . . . here or anywhere else . . . about 70 cents of it pays for **GOODS**, and about 30 cents goes for rent, taxes, donations, hired help, etc., and a few cents (the national average is about 5 cents) pays the proprietor for his work, and for his investment in goods and equipment, credit losses, etc.

**NOW** . . . when you spend your dollar at home, you get the same 70 cents worth of merchandise that you would get for it anywhere else.

**AND THE OTHER 30 CENTS** stays here too, to help you pay for schools, churches, roads and streets; to vitalize the community so your property . . . or your job . . . is worth more; to keep more people here to share civic work and expense, and to serve **YOU** when you sometimes direly need their knowledge and their skills.

**ONLY** when you buy in **YOUR OWN HOME** community do you get back most of this 30-cent retail handling charge . . . and often a great deal more, as your job or your business prospers and your social life broadens with the growth of the entire community.
