Introducing the girls, Mrs. Stark said, "The Historical Society is dedicated to preserving the accomplishments and deeds of our ancestors. These seven young ladies with us tonight represent what I believe is a good section of our youth today."

At Bailey, Patsy McDonald, Linda Rogers, Pam Curtis and Mary Stark sang "This Is My Country," "America, Our Heritage" and "God Bless America," accompanied at the piano by Jill Johnson. Janis Johnson gave a patriotic reading in keeping with the program.

Mrs. C. O. Allard, chairman, reported that the medallion for the year is being processed and will be available sometime in March. Bill Griffin reported that he was working on getting a marker for the grave of E. L. Crawford.

Study Club Project To Benefit School

L. O. A. Junior Study Club has announced plans to purchase a controlled reader for the Silvertown Public School. Two projects are planned this year, the entire proceeds of which will be applied toward the purchase of the equipment which is designed to improve reading speeds of students in grades one through eight.

The first project planned is a Christmas greeting page in the local newspaper. L. O. A. Junior Study Club is seeking to pay for as much of this equipment as possible by asking local residents to donate the money that they would normally spend sending Christmas cards locally to the fund for the purchase of a controlled reader. Donations will be accepted in any amount, and your name will appear in the Briscoe County News the week before Christmas, with the explanation that you are wishing yuletide greetings to your friends and at the same time supporting the public school by donating toward the purchase of equipment which Superintendent J. S. Hinds cited as one of their greatest needs. All the proceeds of this project will be applied to the purchase of the controlled reader.

For those who may not be familiar with the controlled reader, the equipment consists of a projector which flashes at a controlled speed words and stories on a screen. The teacher controls the speed in accordance with the needs of the students with whom she is working.

Mrs. A. L. Redin is using the controlled reader with the fourth through eighth grade students in her reading improvement classes. The machine she is using is her own. The school owns one of the machines, which is being used by teachers in the lower grades. Mrs. Redin stated this week that she is enjoying this method of teaching and believes that it is a good innovation.

Superintendent Hinds stated that the school really didn't have an allowance in the budget for buying the first controlled reader, but felt it was important enough to be squeezed in. He went on to say that another machine is needed because there are at least seven rooms using the same machine, and the slower readers don't get to use the machine as often as is needed.

If you would be willing to assist the L. O. A. Junior Study Club in purchasing the controlled reader (\$255.00) and material for the reader (\$250.00), please contact Mrs. Harold Edwards, Mrs. John Schott or Mrs. Larry Jarrett. You may give them your donation in any amount, and also give them your family's name as you wish it to appear on the Christmas greeting page in the Briscoe County News. If you are unable to contact one of those listed above, your donation may be left at the office of the Briscoe County News.

THE OPEN DOOR

"Behold, I have set before thee an open door . . ." Rev. 3:8
by Rev. Clyde Cain

The pastor of the nation's largest Baptist Church predicts that Christianity—already fading—will almost cease to exist by the 21st

century.

Dr. W. A. Criswell, minister of the 13,000-member First Baptist Church of Dallas, blamed the "loss of conviction on the part of preachers that the Bible is the word of God."

Tracing the decline of Christianity through history, he said

that 180 years ago 25 per cent of the world's population was evangelical Christian compared with eight per cent today.

At the present rate, he said, "in 1980 the number will decline to four per cent. By the year 2000 the number will be less than two per cent."

"In the century that follows, unless God intervenes, they will become practically non-existent," Criswell said.

Christmas Mailing Underway Now

The period of October 21 to November 10 has been designated for mailing Christmas parcels and greeting cards by surface transportation to members of the Armed Forces overseas. For airmail parcels, the period is December 1 to December 10.

All articles should be packed in boxes of wood or a good strong fiberboard box and be securely wrapped in heavy paper and be well tied with a strong cord. Also the address should be on the package in ink, and sufficient cushioning material should be used to prevent any rattling or loosening of articles within the package. You must mail early to be sure of getting the package there by Christmas.

Greeting cards prepaid at the first class rate may be sealed and contain written messages and will be given priority of dispatch, delivery and forwarding. Undeliverable first class mail is returned to sender at no additional cost, provided the return address is shown on the envelope.

It would also help the local Post Office if everyone who mailed Christmas cards would separate the local Christmas cards from the out-of-town Christmas cards before mailing them.

If you know the ZIP Code, be sure to put it on all cards, letters and packages.

"We would like to thank everyone in advance for their cooperation," said Fred A. Strange, Postmaster.

Mrs. Albert Mallow spent Thursday night in Post with Mr. and Mrs. James Roy Brown. Mrs. Brown returned home with her mother. Mr. Brown came Saturday, and he and his wife spent the weekend and until Monday with his parents, Mr. and Mrs. Arnold Brown.

Rocky Curby, a student at Texas Tech, spent the weekend with Mr. and Mrs. Bud Long, Mrs. J. C. Hill and other relatives.

LOCAL

Sunday dinner guests of Mr. and Mrs. Ashel McDaniel were Mr. and Mrs. Imon Newman of Post, Mr. and Mrs. Jon LaBaume and Mr. and Mrs. Gary Hunt. Mr. and Mrs. C. T. Loudermilk called in the afternoon.

Mr. and Mrs. Leland Campsey, Keri and Alice Anne have recently enjoyed a vacation through Missouri, Cherokee Village, Arkansas, and through Oklahoma. They enjoyed fishing in several places and visited Mr. and Mrs. John Gilbert in Decatur, Arkansas.

Mrs. J. E. Vaughan and Mrs. R. C. Hutsell spent Monday night in Hollis, Oklahoma, with Mr. and Mrs. D. T. Johnston. Joedell Hutsell accompanied the ladies to Hollis, and went on to Fort Sill on business.

TEXAS IS ON THE MOVE!

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

IMPROVED EDUCATION — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

WATER RESOURCES DEVELOPMENT — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

CONCERN FOR THE AGED AND NEEDY — Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

OUTDOOR RECREATION — More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

INDUSTRIAL EXPANSION — A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion. Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

INCREASED TOURISM — More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.

MENTAL HEALTH AND MENTAL RETARDATION — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

BETTER HIGHWAY TRANSPORTATION — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.

COMBAT AIR AND WATER POLLUTION — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

NEW CULTURAL GROWTH — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

BUSINESSLIKE ADMINISTRATION — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

HEALTHY, GROWING ECONOMY — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

LET'S KEEP THIS KIND OF PROGRESS AND PROSPERITY FOR TEXAS! HELP GIVE AN OVERWHELMING MANDATE FOR THE VISIONARY LEADERSHIP OF DEMOCRATIC GOVERNOR JOHN CONNALLY AT THE POLLS NOVEMBER 8TH!

Plan now to Farm for Profit

My job is to make your fertilizer program work harder to build big crop yields and extra profits for you. Everybody knows that fertilizer makes crops grow. But my business is to help you make every ton of fertilizer produce a bigger return for you.

My experience and background in fertilizers and crop production are good. But my knowledge is valuable only if I put it to work for you. I know the plant food needs of the soils and crops in this area. I know what successful farmers are doing to make their crops make more money.

I am ready to work for you in planning as well as in applying ARCADIAN® liquid plant foods for your fields. I can save you time, labor and money in even, accurate distribution of liquid plant foods. I can add minor elements, herbicides and insecticides to your liquid fertilizers as needed.

What about college?

We have arranged for high school distribution of the booklet:

"WHAT ABOUT COLLEGE?"

The booklet shows students WHY a college education should be their goal and how this can be accomplished. It anticipates all their questions about college: WHERE to get information, WHEN to take action, HOW to make decisions.

Leading educators agree that far more students should go to college. At least 100,000 high school graduates in the top quartile do not. Many regret it all their lives.

At the time they do not appreciate the advantages of higher learning. They do not know how to finance themselves through college.

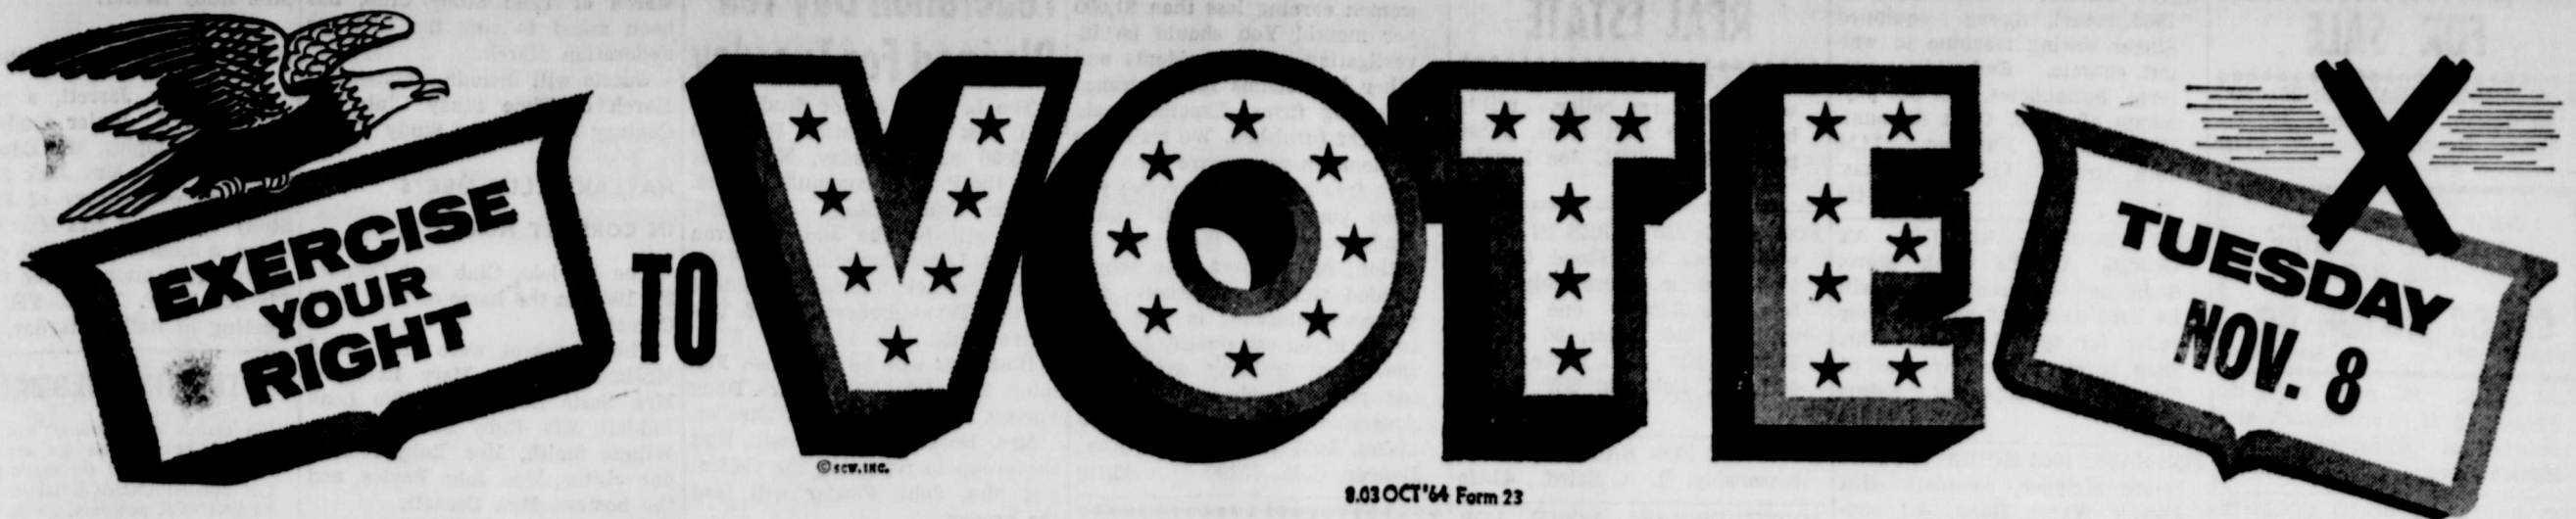

Guidance counselors believe that a considerable percentage of the student body can be helped by this compelling presentation of the facts.

For our part, a single student influenced to enrich himself in higher learning will justify the expense.

We are happy to cooperate in providing this service to the young people of our community.

A LARGE TURNOUT OF DEMOCRATIC VOTES ON NOVEMBER 8 IS CRITICAL TO BRISCOE COUNTY, AND THE DEMOCRATIC PARTY IN TEXAS.

A large turnout is important to you because the voting strength of your county in the State convention in 1968 will be determined by the votes cast November 8 for Governor Connally.

You will want your County to have a maximum voice in the 1968 Presidential State Convention. There is only one way to assure this . . . by casting your Democratic vote on November 8.

As a supporter of the Democratic Party under the leadership of Governor Connally, you should be interested in doing all that you possibly can to elect Democratic candidates from the Precinct to the Polomac.

Dee Miller has made an outstanding record as a District Attorney, and will make you an excellent Congressman.

Dee Miller for Congress

18th Congressional District

A native son, a Democrat, experienced in public service

You can be a vital part of a Democratic victory in November by using your time and influence now to turn out our Party voters. Votes are counted one at a time and every one counts . . . but every vote not cast weakens us all. Can the Democratic Party depend on you to do your best?

May the Lord bless and keep you.
Mrs. Frank Breedlove

We want to say "thank you" to everyone who helped us fill the 25 ditty bags for the servicemen in Vietnam. We want to thank Troy Jones, Mrs. Jessie Hill, Robert Ledbetter, House Chevrolet, First State Bank and Mrs. Lallie Patton for their contributions. A special thanks to B & B Food Center for their very generous gifts for each bag.

We were very proud to have been a part of this project for our servicemen overseas.

Again we say "thank you" to everyone who brought books and who assisted us in any way.

I feel that I do not deserve the kindness that has been bestowed upon me while I have been in bed, but I do want to say "Thanks" to each of you who gave me gifts, sent cards, brought food, visited me, and called me on the telephone. It has made the days seem so much shorter and easier to endure.

May God bless each of you and may I be found worthy of such wonderful friends.

We had a request for information on canning peanuts and pecans. We have received this information from Miss Marie Tribble, the Foods and Nutrition Specialist with the Texas Agricultural Extension Service. We do not always know the answers to your questions, but will always try to help you by finding the answers if at all possible. If you can use this information, call us at 4271 and Tobytha Wiggins, our secretary, will be glad to mail a copy to you.

Merlene Stephens called us for information on freezing persimmons. This information is in our freezing bulletin. If you would like a copy of this bulletin (B-175 "Frozen Foods: How to Freeze, How to Cook") call 4271.

Merlene, I haven't eaten a persimmon since I was a child but I bet you have fun with them and enjoy eating them, too.

Wise shoppers watch prices in local markets and purchase accordingly. Certain foods are seasonally more plentiful than others. Prices are more favorable when supplies are plentiful.

Plentiful foods for the next several weeks, according to the U. S. Department of Agriculture, include grapes, pears, dry beans, pork, turkey and raisins.

Vary the Vegetables, a recent survey on vegetables served in restaurants, concluded that baked potato remains the all-time favorite of vegetables in the United States. Mashed potatoes, green beans, French fried potatoes and asparagus were rated in the order listed. The summary of this survey indicated that restaurant patrons would like a wider selection of vegetables. Homemakers might take a cue from this survey. The family vegetable pattern may be in a rut and could stand more variety. With the vegetable bins overflowing in choice items at the store, now would be the time to change the pace.

'67 CHEVROLET

Impala Super Sport Coupe—a clean new sweep in roof lines.

Now that you've seen all the daring new things our stylists did, get in and sample some of the safest, soundest ideas on the road!

What you feel is as new as what you see—thanks to all the fresh thinking that's gone into the way it rides, steers, stops and looks after your safety.

It's got a remarkable new road feel—beginning with a ride so hushed and gentle you'll feel like calling this the '67 Shhhevrolet. The steering is as much as 10% easier. And you'll find the stopping smoother, too.

We put safety features on top of safety features. For example, an energy-absorbing steering wheel atop the new GM-developed energy-absorbing steering column. A dual master cylinder brake system with warning light. And seat belts front and rear with pushbutton buckles. All standard, to be sure.

And there's a new SS 427 performance package—complete with 385-

hp Turbo-Jet V8 and flat-cornering suspension. You can order it for either the Impala Super Sport Coupe or Convertible.

Of course, there are all sorts of new custom features you can add, too, such as tape or FM stereo. But if you find so much that's new a bit too much to remember—drop down to your dealer's and take a drive. It'll all become unforgettable.

Everything new that could happen...happened! Now at your Chevrolet dealer's.

We want to thank each one who has made this year a successful one for us and our families. Without devoted customers, we could not have had a successful year. It has been our aim to be friends with everyone and to please each customers as an individual, realizing that nature prevents everyone from being our friend and that it is impossible for us to please each of you. It, however, has been our sincere endeavor to do both. We ask your continued support as we continue business in years to come.

LONG'S PHILOSOPHY

In this age of space and inflation, there is a small minor group called the "Teenager." Most people like this group, but then there are some who judge them only from a few. This group of people seem to be afraid of the teenager. If they hear that some teenagers have gotten into some trouble with the law, they think that all teenagers are potential criminals.

If they see some teenagers driving fast, they think that it is unsafe to drive on the same street with any teenagers around. This doesn't hold true for a small town though. Everybody gets to know one another and respects one another.

In a large city this respect is lost. People just take in what they hear on the news or read in the newspaper. Some people in a large city will read something bad about some teenagers and think that the city is going to fall to the teenagers. Teenagers aren't the only ones involved in this matter. If a person reads where a man has committed a crime, he feels that the man's whole family is evil. If a person is going to convict somebody of something, he needs to consider his good qualities before making a decision.

Another thing people should remember is that "a man is innocent until proven guilty." We have to live by this statement to be law-aiding citizens. Don't convict a person in your mind when you read about his trial; after all, you could be wrong.

Americans have got to learn to keep an open mind on matters. They often draw conclusions too quickly without looking into all the facts. Just remember to treat people as you would want them to treat you.

Guest Editorial

by Lois Francis, School Nurse
Perhaps at one time or another during your school days you students have moaned, groaned, and grumbled about the looks of old Silverton High and thought to yourselves how nice it would be to have a new school. But think again. It's not the building that makes a school, is it? It's each of you as students!

In order to maintain the high standards of our school, several ground rules must be followed. The first is proper rest and sleep. You all know how draggy you feel when you have had only about three hours of sleep. Short periods of rest will help alleviate that feeling, but six or seven hours of sleep a night is your best bet.

Secondly, a proper diet will maintain a high school standard. This means plenty of meat, fruits, and vegetables and only a small portion of sweets. Sweets and carbohydrates such as potatoes and bread may give you energy, but in the long run they will make you slow, sluggish, and out of shape!

The third rule is cleanliness and neatness. Most of you have very attractive clothes and look very nice! Of course, this takes work. It includes keeping things clean and pressed and above all—keeping yourselves clean! During the school day, this includes taking a shower after P. E. and keeping your gym clothes clean and washed.

By following these simple ground rules, we can maintain our standards and be ready at any time for a new outside covering in the form of a new building!

Good Grief!

by Charlie Brown

Johnny Roy, is there really not any difference between a married woman playing sports and a married man playing?

Juannah, what is a forge anyway?

I would like to compliment Miss Self on the bulletin boards she has worked so hard on. As students, let's all respect them. They take a lot of time to put together.

Connie, why don't you make a mass production of grey hairnets and put them on the market? I know a lot of girls who really went crazy over it last Thursday night.

We have our band started! Gary, you are a great leader! May you have many to join your parade.

Tina, tell us what a "digging" means.

Carron and Janet put a lot of miles on their car. There aren't that many "ride-around" hours, are there?

Marsha, do you wear banana peels on the bottom of your feet? You would have to, to slide so far in the lunchroom.

Pam, did you get splattered all over the floor? Next time just sit down and get your books out of your locker; never squat.

Judy Wilkerson, you know that January is the first month of the year and February comes after it, don't you? Well, you know now.

Gene, do you have a GIRL-FRIEND? Who is it? Is it Judy?

Judy Yancey?

Was there a little white Mustang zipping in front of the school last Friday? Just ask Jimmy.

Dale, do you want a funny sick card, a sweet sick card, or a regular get-well card when you get the mumps?

TOUGH IS..

A wink from your hero

Four in the floor

Having your ears pierced and a different pair of earrings for every dress, like Nancy Nance

Being captain of the Weiners

A boy in hip-huggers

A sweatshirt like Sharon's

A Camero

Going steady for the first time

A smile from your one-and-only, only he doesn't know he's your one-and-only

Making all the touchdowns in the ballgame, especially when we win

Stanley: Does Margaret know anything about cars?

Dennis: No, not much. She thinks you have to strip the gears to cool the motor.

Sixth Grade News

The Football Player

Between the innocence of boyhood and the dignity of man we find a sturdy creature called a football player. Football players come in assorted weights, heights, jersey colors and numbers, but all football players have the same creed: to play every second of every minute of every period of every game to the best of their ability. Football players are found everywhere—underneath, on top of, running around, jumping over, passing by, twisting from or driving through the enemy.

Teammates rib them, officials penalize them, students cheer them, kid brothers idolize them, coaches criticize them, girls adore them, and mothers worry about them. A football player is Courage in cleats, Hope in a helmet, and Pride in pads. When your team is behind, a football player is incompetent, careless, indecisive, lazy, uncoordinated and stupid. Just when your team threatens to turn the tide of battle, he misses a block, fumbles the ball, drops a pass, jumps offside, falls down, runs the wrong way or completely forgets his assignment.

A football player likes game films, trips away from home, practice sessions without pads, hot showers, long runs, whirlpool baths, recovered fumbles, points after touchdowns, and the quiet satisfaction which comes from being part of a perfectly executed play. He is not much for wind sprints, sitting on the bench, rainy days, aftergame compliments, ankle-wraps, scouting reports or calisthenics.

A football player is a wonderful creature. You can criticize him but you can't discourage him. You can defeat his team, but you can't make him quit. You can get him out of the game but you can't get him out of football.

He is judged not for his race, not for his religion, not for his social standing, not for his finances, but by the democratic yardstick of how well he blocks, tackles and sacrifices individual glory for the over-all success of his team.

He is a hard working, untiring, determined kid doing the very best he can for his school.

And when you come out of a stadium, grousing and feeling upset that your team has lost, he can make you feel almighty ashamed with just two sincerely spoken words—We Tried.

Pep Rally News

The Silverton High School students held a Pep Rally in front of the high school building last Friday.

A skit was performed by the Silverton Marching Band. The band consisted of Gary Crow, drum major; Max Stevenson, horn; Mike Long, cymbals; and Mitchell McDaniel, drum. They led the students in "Hoo-rah for Owls."

The student body sang the alma mater. A few yells were followed by speeches by the coaches, Lannie Arnold, Dale Sissney, Tim Matthews and Randy Hughes. After more yells, the Pep Rally closed with the singing of the fight song.

Students can Register Now For N.M.S.Q.T.

Silverton High School students who expect to complete their secondary school requirements and to enter college in 1968 can register now to participate in the 1968 National Merit Scholarship program, Principal O. C. Rampley announced today.

The first step for all students who wish to enter the nationwide competition is to take the National Merit Scholarship Qualifying Test (NMQST), which will be given in the school at 9:00 a.m., Tuesday, February 28, 1967.

In addition to competing for the Merit Scholarships to be awarded in 1968, students can take the test to obtain information useful in planning their future education and careers. With his NMQST scores, each participating student will receive a handbook to help him evaluate his scores, compare his performance with that of other high school students across the country, and give him information on choosing a college and financing his education. The handbook and other interpretive materials are furnished as a part of reporting the test results.

The highest-scoring students in each state will be named semifinalists and will be eligible for Merit Scholarships. In addition to the National Merit Scholarships financed by NMQST, more than 350 business corporations, foundations, colleges, professional associations, unions, trusts, other organizations, and individuals offer scholarships through the Merit Program.

About 13,440 students have won Merit Scholarships in the eleven Merit Programs to date. Some 230 Merit Scholarships were awarded in 1966 with stipends ranging from \$100 to \$1,500 per year for four college years. The amount of a winner's award is determined by assessing the financial assistance he will need to attend the college of his choice.
