Hightower Draws Four-Year Term

State Senator Jack Hightower, whose district includes Briscoe County, drew a four-year term in Austin last week.

Due to re-districting, the 31 members of the Senate drew to see which ones would have two-year terms and which would serve four years.

Hightower, who formerly served in the House of Representatives, was elected to the Senate in 1963.

Wardrobe Planning Discussed By Club

The Town and Country Home Demonstration Club met Tuesday, January 9, at 7:30 p.m.

Yearbooks were distributed to the members.

Mrs. Billie Carr, home economics teacher, presented the program on wardrobe planning.

Seven members and four guests, Ruth Grosdidier, Marian Hamilton, Lottie Garrison and Mrs. Carr, were present.

January 31 Final Date For Voter Registration

Vinson Smith, county tax assessor and collector, reminded Briscoe County voters today that less than two weeks remain in which to file application in the voter registration.

Persons between the ages of 21 and 60 who do not register will not be eligible to vote during 1967.

Deadline for registering is on Tuesday, January 31, Smith said.

There is nothing to pay in order to become a qualified voter, not even a registration fee as had sometimes been discussed.

Persons who become eligible to vote during the year are not

permitted to get a late exemption, but must register during the regular period. This applies especially to those who will become 21

during the year, and those who complete a year's residence during the year. The registration receipt will be marked as to the

date that it becomes effective.

The over-age exemption is similar to the poll tax regulations in that a registration receipt is not necessary for those who are 60 or over if they live in a town of less than 10,000 population. Unlike the poll tax, the person need only reach the age of requirement by election day, not the previous January 1.

Registration receipts must be written out by the tax assessor-collector's office staff. An application for voter registration certificate may be sent in if the qualified voter is unable to go to that office, but this application must be received through the mail or in person.

Another individual or organization could pass out the registration, but that may not be collected by that individual or organization for return to the tax office.

The application form printed on the back of your State and County Tax Statement may be used, a person may write to the tax office and request an application.

Registration may be made by a qualified voter only for himself, spouse, mother, father, son or daughter. This person doing the registering for these family members must himself be a qualified voter.

School Census Being Taken

The scholastic census is being taken during the month of January on children born on September 1, 1949 to August 31, 1961.

If your family has not been contacted and asked to fill out

the census report, please contact the school office before January 31, 1967.

Children all races and nationalities starting to school in September 1967 are invited to attend school on Friday, January 27, for a "Round-up Day." Parents are asked to report to the first grade rooms at 12:30 p.m. to pick up the children and be given advice as to getting the children ready for school next September.

This year's first grade will not come to school on Friday, January 27.

All parents that have birth certificates for next year's beginners should bring them along when you come to get the children at 12:30. If you do not have the certificate, begin now in order that it may be presented when the child enters school next September.

A child must be six years of age before September 1, 1967, in order to enter school in the 1967-1968 term.

Healy Continues As Appropriations Head

House Speaker Ben Barnes announced committee appointments for the 60th Legislature last week.

Representative W. S. (Bill) Healy of Paducah was named to continue as chairman of the Appropriations Committee, and named as a member of the Insurance, Judicial Districts and Labor committees.

In commenting on the appointments, Barnes said that he has confidence that "this Representative is familiar with the problems with which the committees will deal and is qualified to do an excellent job for the Legislature and the people of Texas."

ACT AMENDMENT OFFERS NEW RESOURCES FOR RURAL POVERTY USE

Additional and much needed resources for hard-pressed, low-income Texas rural people desiring to improve their farm income or start small businesses will be provided through an amendment to Title III of the Economic Opportunity Act recently signed by President Johnson.

This fact was pointed out this week by Donald B. Cruce, Farmers Home Administration county supervisor for Briscoe County.

"This important Economic Opportunity Act amendment increases from \$2,500 to \$3,500 the maximum war-on-poverty loans that the USDA Farmers Home Administration can make to individual Texas farmers or other rural residents," supervisor Cruce said.

This amendment also authorizes additional credit to borrowers as long as their outstanding indebtedness for an economic opportunity loan does not exceed \$3,500.

The new economic opportunity loan provisions will more ade-

MEAL-IN-A-PANCAKE
 Looking for a new idea to dress up your Sunday night supper menu? Crispy vegetable pancakes topped with creamy chicken sauce make a filling main course that's off-beat . . . and easy to prepare. Starting with a prepared pancake mix and a divider pak of chicken chow mein, you can mix up a batch of pancakes in the kitchen, and cook them on a griddle right at the table. Topped with hot chicken sauce (the contents of the top can of the divider pak), these pancakes are sure to please the whole family.

VEGETABLE PANCAKES WITH CHICKEN SAUCE
 2 cups prepared pancake mix
 1 cup milk or water
 1 can (43 oz.) Chun King Chicken Chow Mein, divider pak
 1/2 cup cream
 1 tsp. curry powder (optional)
 Stir pancake mix and milk together in a bowl. Separate cans of chow mein sauce and vegetables. Open can of vegetables, drain well, and fold into the pancake mixture. On a medium hot griddle or electric fry pan set at 375 degrees, spoon pancake mixture to form cakes about 4" in diameter (they will be about 3/4" thick). Cook until golden on one side; turn over and brown on other side. Meanwhile, open can of sauce. Pour sauce into pan, add cream and curry powder and heat to simmering. To serve, spoon sauce over hot vegetable cakes. Makes 8 four-inch pancakes.

SILVERTON, TEXAS

Home Notes

by Becky Hall
Home Demonstration Agent
The new year is here, and it is to dust off the old crystal and peer into the food future, Mrs. Gwen Clyatt, Texas A & University consumer marketing specialist.
There will be more food in and also more people to eat incomes will be higher so that though more money will be on food, and food prices will be little higher, food will take same or a smaller percentage the average family's take-home. In 1966 about 18.2 percent the family income was spent food; ten years ago almost 25 percent was spent.
The fresh fruit and vegetable depends upon the weather. You can look for favorable prices for citrus products into 1967. Both orange and grapefruit crops are large. Expected increases in the packs of peaches, and fruit cocktail will like mean steady prices for these. Small supplies of apple products may result in increased prices.
Fresh vegetable prices should be lower than in 1966. The price of canned vegetables is about the same as last year and an increase is expected in average retail prices. Prices for fresh products likely will again increase slightly.
Per capita consumption of all fruits for 1967 is expected to be pounds per person, one pound than the estimates for 1966. Prices on eggs are expected to

decline from now through the spring. The normal seasonal decline that occurs at this time may be accentuated by a production increase already underway.
Milk production in 1967 is likely to increase slightly over that of 1966. Prices will likely increase but not nearly as sharply as in 1966.
The 4-H clubs are getting off to a fine start. Mrs. Claude Jarrett's Smiling 4-H Club had their organizational meeting last Thursday. This group is made up of boys and girls from the third and fourth grades who are nine years old and older. Twenty enrolled and they elected their officers. Mrs. Elton Cantwell's Happy 4-H Club had their organizational meeting Tuesday of this week.
Some of the projects that will be offered under the training and guidance of project leaders are as follows: Foods, Clothing, Child Care, Money Management, Electric, Gardening, Livestock and Public Speaking is only offered to older members. Heelp your children decide on a project for participation in at least one project, more if they have time and ability to carry more. It is required that every 4-H member be enrolled and working in a project. We encourage parents to attend organization meetings and project meetings.
Although fryers are featured this week, prices are expected to average a few cents above the December levels during January. However, these will still be lower than a year ago. Whole, cut-up birds and fryer parts are excellent

Stockmen On Lookout For Livestock Lice

County stockmen are being advised by County Agent Leon Grosdidier to be on the lookout for lice on their livestock. These pests can reduce profits and increase feeding costs for the winter unless they are controlled, he added.
Livestock producers were reminded that copies of MP-691, "Texas Guide for Controlling External Parasites of Livestock and Poultry" are available at the Agent's office.
The publication contains information on insecticide formulations and how to use them for control values.
Fruit counters are well stocked with Rio Grande Valley oranges and grapefruit. Temple oranges are available at lower prices. Tangerines and tangelos, apples, bananas, avocados and pears are attractively priced. Light supplies of fresh Mexican strawberries are relatively high priced.
Adverse weather in some growing areas make fresh vegetable supplies uncertain. Carrots, hard shell squash, rutabagas, loose turnips, potatoes and dry onions are among the best values. Head lettuce is plentiful but quality varies. Cauliflower, broccoli, cabbage, brussel sprouts, and eggplant are most moderately priced.
Diet-watchers who want to cut calories after the heavy holiday menus will find lots of cottage cheese in the dairy counter, along with a variety of sliced cheeses.

ling external livestock and poultry parasites. It contains a dilution chart for mixing sprays and dips and outlines control programs for beef animals and nonlactating dairy cattle, dairy animals, sheep, goats, swine, horses and poultry.
Lice infestations spread more rapidly when livestock are confined to smaller areas, and if allowed to multiply, can materially affect the general well-being of the herd, points out the county agent.
R. D. Wheelock of Canyon visited his parents, Mr. and Mrs. J. E. Wheelock Sunday afternoon and stayed for supper.
Mrs. Dean Allard visited her son, Joe Lynn Allard of Memphis, at Northwest Texas Hospital in Amarillo Monday. She reports that he is doing satisfactorily, but will probably be there for sometime. Mrs. L. E. Snow of Mineral Wells is caring for the Allard children at home in Memphis while her daughter is at the hospital with Mr. Allard.
Mr. and Mrs. Leo Hoffman, Pam, Jay and Jenifer of Butler, Oklahoma, spent the weekend with Mrs. C. G. Harrison, mother of Mrs. Hoffman.
Mrs. Gerald Smith of Quitaque entered St. Anthony's Hospital in Amarillo Monday afternoon and underwent surgery there Tuesday. Mr. Smith took her there, and Mrs. Ashel McDaniel and Mrs. A. R. Martin were there Tuesday for the operation.

Former March of Dimes Poster Boy Is Part of Twin Medical Problem

Identical twins are supposed to be carbon copies of each other in every respect but twin brothers Joel and Jeffrey Kirker, 6, New Stanton, Pa., have been cruelly different from birth.
Joel, the older brother by five minutes, was born with an open spine (spina bifida), a birth defect that has paralyzed him from the waist down. At the same spot on his back, Jeff has only a birthmark.
"When Jeff doesn't feel well, he gets two blisters on his birthmark, otherwise he is a normal, very active little boy," says his mother, Mrs. Thomas Kirker.
Understandably, the young Kirkers pose a medical puzzle. As their mother puts it, specialists are "amazed that only one has the defect and not the other" or else are "quite lost for words" to explain the crippling differences in these identical twins.
Yet Mrs. Kirker says, "We feel we have a great deal to be thankful for because Joel is doing well and we can hope for even more improvement in the future."
Despite his physical handicap, Joel gets around quite a bit. During January, 1966, he was Pennsylvania State Poster Boy for the March of Dimes campaign to fight birth defects. This means that Joel traveled through a number of counties in his area and even appeared on a television in Pittsburgh.
Now as they watch the twins pretending they're big leaguers or playing together on the backyard slide, Mr. and Mrs. Kirker can appreciate all the things Joel can do even though he wears braces and uses a cane. They are thankful for the skilled medical care Joel received from the day of birth. Without that care, Joel might not be alive today.
When Joel was only one day old, his open spine was operated upon to give his spinal cord some protection. While surgeons could not restore the function of nerves and muscles, they did prevent further complications, the most dangerous being infections such as meningitis.
Like many other victims of open spine, Joel also had hydrocephalus ("water on the brain"). Doctors performed several operations to drain off the dammed-up fluid within the brain and thus relieve pressure.

"That's OK, Joel, even astronauts need help with their gear sometimes," says Jeff Kirker, 6, of New Stanton, Pa., as he helps his identical twin Joel into his braces.

Without relief, this pressure can lead to permanent mental damage, blindness or even death.
For Joel's parents, the past six years have been times of great emotional anguish, to say nothing of financial strain. Mr. Kirker has worked for the Bell Telephone Company since he graduated from McKeesport Technical High School in 1950.
In addition to caring for the twins and keeping house, Mrs. Kirker sells kitchenware to supplement her husband's income and help with medical expenses. The Kirkers are deeply grateful to the local chapter of the March of Dimes which helped pay Joel's hospital bills and covers the cost of braces which must be changed periodically.
Braces or not, Joel loves it when the family pile into their trailer and set out on a camping trip, something all the Kirkers enjoy. When they settle in a campsite, the whole family knows what to expect from Joel.
He invariably takes off to visit all the other campers, one by one. He loves to meet and chat with other people, even if it means climbing hills and fighting the underbrush every step of the way.
The twins can take care of each other pretty well these days. Joel can put on his braces for himself but sometimes Jeff helps him. Active, outgoing Jeff helps his quieter, more thoughtful brother in other ways, too. A firm "I think you'll like this, Joel," from Jeff often helps Joel make a decision in favor of places or things. This sort of fraternal influence leads Mrs. Kirker to tell friends that Joel's "twin brother is his therapist."
By this time, the Kirkers know what Joel can do and they avoid overprotectiveness which could be harmful to both boys. His doctors hope that when Joel is about 14, surgery can be performed that will make the leg braces unnecessary.

Even the ash tray rides smoother in Chevrolets

When you're down at your dealer's trying out a new Chevrolet, be sure you pull out the ash tray. Notice how nice and easy it glides, never hanging up or even scraping. The reason is, it rides on ball bearings. Four shiny little ball bearings. (Take the tray all the way out and you'll see them.) You say you don't even smoke? Then look at it this way. That ash tray is a symbol of the way we make cars: Paying extra attention to the little things as well as the big ones, as a way of making extra sure your '67 Chevrolet gives you

that sure feeling

Courtesy Is Held For Recent Bride

A linen shower held Saturday afternoon, January 14, in the ranch home of Mrs. Bob Martin, was a courtesy for Mrs. Andy Fish of Amarillo, the former Susan Laney of Silverton.

Hostesses with Mrs. Martin were Mesdames J. S. Stanley, R. E. Donovan, Furman Vinson and Ralph Stapleton and Miss Annie Mae Jackson. Also in the house party was Mrs. Carl Pierce of Lubbock, who registered the guests.

The dining table was laid with a white organza cloth trimmed with trapunto embroidery, centered with an arrangement of ping carnations in ruby colored vases of Venetian glass.

Coffee was poured by Mrs. Vinson. Cookies, rum balls, nuts and mints were served.

The honoree was accompanied by her mother and grandmother, Mrs. Martin Bean and Mrs. John Bean, both of Silverton.

HAYLAKE CLUB HAS MEETING RECENTLY

The Haylake Club met in the P. C. A. community room recently with Mrs. Blanche Newman as hostess.

Members present were Mrs. Susie Bean, Mrs. Mary Rampley, Mrs. Maud McJimsey, Mrs. Elsie Cornett, Mrs. Winnie Smith, Mrs. Ella Leah Riddell, Mrs. Ruby Hester, and a new member, Mrs. Opal Hyatt. The club was glad to receive the new member.

Guests were Mrs. Belle Olive and Betty, Mrs. Stella McJimsey, Mrs. Jennie Fisher and the hostess, Mrs. Newman.

The next meeting will be all day January 26 with Elsie Cornett.

Mr. and Mrs. M. B. Cavanaugh attended the funeral of J. I. Suits, owner and publisher of the Petersburg Journal in Petersburg on Monday afternoon. He died early Saturday in a Plainview hospital.

Caramel Flan Has Spanish Flair

Egg custard with a caramel sauce or, Flan, is a classic dessert in Spain and a standard sweet in most of South America. Now a new, kitchen-tested recipe makes it possible for you to serve it in your home. Just combine eggs, evaporated milk, sugar and flavorings—in a blender. The evaporated milk makes the custard extra smooth.

To make the caramel sauce, brown the sugar right in the baking pan. The custard mixture is poured over the top. When the dessert is baked and tipped out onto a dish, it's glorious with a glistening caramel glaze.

For an added touch sprinkle sliced almonds over the Flan just before serving.

CARAMEL FLAN

- 1 - ¾ cups sugar
- 8 eggs
- 3 - ½ cups PET Evaporated Milk (2 1½ cans)
- 2 teaspoons vanilla

Turn on oven and set at 350 degrees (moderate). Put 1 cup sugar into an 8 inch square pan in which the custard is to be baked. Cook, stirring constantly, over medium heat until sugar melts and is light amber. Tip the pan around until it is entirely coated with the caramel mixture. Cool. Put eggs, milk, remaining sugar and vanilla into the Osterizer container. Cover and process at Lo until well mixed. Pour into caramel-coated pan. Cover and place in a larger pan. Pour in 1 inch of hot water. Bake 1 hour or until knife inserted near edge of custard comes out clean. Unmold immediately. Makes 10 servings.

WOMEN PAST 21 WITH BLADDER IRRITATION Suffer Many Troubles

After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondly, you may lose sleep and suffer from Headaches, Backache and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong acid urine and by analgesic pain relief. Get CYSTEX at drug-gists. See how fast it can help you.

Then, there's that once a month when a girl could use a good old-fashioned medicine.

Maybe you feel just plain bad then. Or maybe a little lonely and sad, like you could use a pair of arms around you.

Well, we have just the thing for this once a month time. Lydia E. Pinkham Tablets. They're made with gentle, natural ingredients, including one that works to help relax tightened muscles that give you cramps. Plus a little iron that a girl could use at a time like this. And, you don't run any chance of the kind of unpleasant side effects you could get from some of the newer drugs.

With an old-fashioned problem like this, couldn't you take an old-fashioned medicine.

Barnes - Harris Vows Read In Lubbock

Sandrae Collins Barnes became the bride of Riley Harris in a morning ceremony in St. John's Methodist Church in Lubbock Saturday. The Rev. Mark Williams officiated at the double ring ceremony at the altar which was flanked by arrangements of pink flowers.

Parents of the bride are Mr. and Mrs. Jack Collins of Lubbock and the bridegroom is the son of Mr. and Mrs. Jack Harris.

Miss Vicki Collins of Lubbock attended her sister as maid of honor. She wore a white wool dress with pink and avocado trim and wore pink accessories. Her headpiece was a cluster of pink leaves and she carried a bouquet

of pink flowers. Larry May of Silverton was best man. Given in marriage by her father, the bride wore a white three-piece imported wool suit, the jacket of which was trimmed with pink and avocado. She wore avocado accessories and carried orchids atop her sister's white prayer book.

Organ selections were played by Ted Lanham of Lubbock.

Guests were seated by Arvelle Williams of Hereford and Jimmy Myers of Silverton.

A reception followed the ceremony in the garden room of the church. Mrs. Robert Barrick of Lubbock served punch from a sterling silver bowl and Mrs. Johnnie Williamson served the wedding cake. Mrs. Larry Tunnell of Amarillo registered the guests.

The bride's table was decorated with pink flowers.

After their wedding trip to Fort Worth, the couple will be at home on a farm near Silverton.

The bride graduated from high school in Lubbock and attended South Plains Junior College in Levelland. The bridegroom is a graduate of Silverton High School and attended West Texas State University before entering farming.

Rehearsal

Members of the wedding party attended a rehearsal dinner Friday night at Bush's Steak Barn in Lubbock. The party was hosted by Mr. and Mrs. Jack Harris, parents of the bridegroom.

Hayhurst - Kitchens Services Read Here

Shirley Powell Hayhurst, daughter of Mr. and Mrs. James Powell of Lubbock, and Robert Lynn Kitchens, son of Mr. and Mrs. R. C. Kitchens, pledged their wedding vows December 24, at 4:00 p.m. in the home of the bridegroom's parents south of Silverton.

Rev. T. D. Walker of Lubbock officiated at the double ring ceremony before a large bouquet of mums flanked by candelabra.

Given in marriage by her brother-in-law, Allen Sturgeon of Roswell, the bride wore a turquoise linen suit with matching hat and shoes, and carried an arrangement of white mums with blue ribbon.

Mrs. Pat Clayborne of Lubbock served as matron of honor for her friend. She wore a bone suit and accessories and carried an arrangement of white mums.

The candles were lighted by Louise and LaQuita Croft, sisters of the bridegroom. Larry May of Silverton and Pat Clayborne of Lubbock seated the guests.

Best man was R. C. Kitchens, father of the bridegroom.

The mother of the bride wore a beige suit with white carnation corsage. Mrs. Kitchens wore a white knit dress with black acces-

FREEZE-UP PROBLEMS CAN BE PREVENTED

Water freeze-up problems around the farm and home can often be prevented by using an inexpensive heating cable, says County Agent Leon Grosdidier.

Some places are especially vulnerable to winter freeze-up, such as a short section of exposed pipe in an unheated part of the barn or an outside faucet that must operate, he says. All that is needed is to wrap the heating cable around the pipe in spiral fashion and plug it into a convenient electrical outlet. The cable can be bought in a wide range of lengths to suit the job, points out the county agent.

It is best to wrap some kind of insulating material around the cable to conserve heat and electricity, he adds. For even more economy and freedom from supervision, a thermostat with a bulb sensing element can be used. This will automatically control the on-off operation of the cable.

sories and a white carnation corsage.

Mrs. Bill Edwards played "The Wedding Prayer" and "The Wedding March."

A reception was held in the home immediately following the ceremony. The bride's table was laid with a white lace cloth over blue and the centerpiece was an arrangement of white mums with blue ribbon.

Karen Holt, LaQuita and Louise Croft, Silverton, Mrs. Allen Sturgeon of Roswell and Miss Myra Powell of Lubbock assisted with serving and registering the guests.

For their wedding trip to New Mexico, the bride traveled in her wedding suit and added the orchid from her bridal bouquet. The couple is now at home at 4909 41st Street in Lubbock.

Mrs. Kitchens is a freshman at Texas Tech and is employed by Loco Auto Leasing. Mr. Kitchens is a senior at Texas Tech and is employed as freshman track coach.

WACS Wax 12,000 Strong

Today's proud volunteers in the Women's Army Corps come from all social and economic levels—their backgrounds as diverse as America itself, traditionally called "the Great Melting Pot."

New York (CFN)—Patriotism is not an emotion which is given only to men. The heart of an American woman beats as strongly with love of country and pride in her flag.

Since the days of Molly Pitcher, American women have stood besides their men in war and in peace, serving their country. Today, approximately 12,000 women are availing themselves of this privilege by serving in the Women's Army Corps, according to the U. S. Army Recruiting Command.

The Women's Army Corps, an integral part of the Regular Army, stands firm on a tradition of service which is almost twenty-five years old.

During the Second World War, the WAC was established as an auxiliary branch of the Army to furnish it with trained personnel in order to relieve men for other duties for which they were better fitted. In addition to this original aim, the WAC gives valuable knowledge, understanding and experience in the utilization of women in an ever widening number of areas.

What does today's WAC look like?

She stands straight in the pride of her calling. She has volunteered for this right of her own free will and volition, say officers of the WAC. She is trim

and well groomed in the beautifully styled uniforms she is proud to wear.

She comes from all manner of social and economic backgrounds. Some are the daughters of men who have served—or are serving—in the armed forces. Some have had great financial and educational advantages while others have been less privileged. Their backgrounds are as diverse as America itself.

The young WAC enlists for reasons as widely diversified as the backgrounds of the girls themselves.

Patriotism is, of course, the prime mover. A desire to serve one's country is most frequently the impetus which makes a girl volunteer. Boredom with routine, stay-at-home, dead-end jobs is yet another reason. Many girls have a wanderlust which can only be satisfied by a service which is constantly moving its personnel. She can "job hop" without losing pay or promotion status.

Some WACS are engaged to men in the service and feel that this is a worthwhile way to spend the time until Johnny comes marching home and marriage is possible. They feel that shared memories and experiences will help cement a true and good marriage.

Economic advantages are, of course, a consideration. A member of the Women's Army Corps receives the same pay as a man of comparable rank. She receives the same pensions, housing allowances, medical care and insurance benefits. She may retire after twenty years regardless of her age.

Watching a dress parade at Women's Army Corps Center at Fort McClellan, Alabama, is an experience which makes the heart soar. They march in proud array across the field, trimly saluting the reviewing stand, flags bravely flying, feet marching in unison, smart uniforms sharply pressed.

The Women's Army Corps on the march, ready and eager to serve its country wherever it is called in the highest tradition of glory and honor.

Miss Patricia Jean McCurry, bride-elect of Johnny Jowell, will be honored with a miscellaneous shower next week.

Conservation Is Study Club Topic

The Century of Progress Study Club met January 11, 1967, in the home of Mrs. Wayne Vaughan with Mrs. John Gill as co-hostess.

In the absence of the president, Mrs. E. A. Birdwell presided over the meeting. Mrs. Norman Strange gave the devotional, "The Lord of Ours." Mrs. Jack Strange read the minutes from the last meeting.

Each member answered roll call with what irrigation means to us.

The theme of the meeting was conservation of natural resources, and the guest speaker was Charles Whitfill, who presented an informative report on the proposed Mackenzie Municipal Reservoir.

The symposium consisted of

LONG'S PHILOSOPHY

Mike Israel of Woodbridge, New Jersey, wrote this letter:

Sharon Benjamin asked, "What has today's 18-year-old done that's so important he should be given the privilege of voting?"

Many of them are being drafted and sent to Viet Nam to fight to keep our country safe from communist aggression. Some lose their lives.

If a boy is old enough to fight and possibly lose his life for his country, he is old enough to vote.

Michael Wolf of Minneapolis, Minnesota, wrote this letter:

The fact that an 18-year-old can be drafted is no reason for giving him the right to vote. Some 13- and 14-year-olds fought in Hitler's armies and some are fighting with the Viet Cong today. Does that make them qualified to vote?

As Senator-elect Charles Percy has said, "The years between 18 and 21 are years when you're forming your ideas and kicking things around. There is a tremendous amount of maturing in those three years."

Each of these people have brought out some good points about the pros and cons of lowering the draft age. I, myself, feel that the draft age should be lowered. I agree with Mike Israel that if you are old enough to fight and die for your country then you are old enough to have a say-so in the government. Michael Wolf believes that every person that is 18 and younger should not have a say-so in government. I agree with him on the part that people under 18 should not have a say-so in the government. They are too young and inexperienced. People that are 18 are directly affected by the government. They might not have very much experience, but at least they are at the age where they are able to think.

Good Grief!

A DAY WITH CHARLIE BROWN LISTEN PEOPLE. THE BELLS ARE RINGING for first period. It's too early to begin thinking! Or can S.H.S. be called the HOUSE OF THE RISING SUN? THE JOLLY GREEN GIANT, that's really Mr. Evans, strides upstairs as Mr. Rampley warns, "PEOPLE GET READY, THERE'S A TEST A' COMING."

WALK RIGHT IN to the Algebra Room, where Mr. Grosdidier cries, "WELCOME, thankful for a FULL HOUSE. STAY AWHILE."

I MUST BE SEEING THINGS. Santos with his shirt buttoned! We're all WISHIN' AND HOPIN' but he hands out the test anyway. THERE'S A BOY in our class. MAYBE I KNOW THAT HE'S BEEN CHEATIN', but I'd never tell, because WE'LL NEVER GET TO HEAVEN, anyway.

THE BELLS ARE RINGING JUST A MILE AWAY, it seems, but actually it's time for English. "HEY THERE BEAUTIFUL," you-know-who calls as I WALK A-WAY without answering. After all, I'M CHARLIE BROWN.

When everyone is in English, Karen cries "HUSH, HUSH," for WINKIN', BLINKIN' AND NOD (alias Nancy K., Pam and Roy Ann) are IN DREAMS again. Why? It's a study period, naturally. Right, Mr. Francis?

Well, I have nothing to do and NO PARTICULAR PLACE TO GO, (lockers, etc.) so I get permission to visit the library. I SHOULD'VE KNOWN BETTER. The first words I hear are "DO YOU WANT TO KNOW A SECRET?" because MARY'S THERE.

I promised I AIN'T GONNA TELL NOBODY, but you all know that's EASIER SAID THAN DONE. Big Boss Man tells me it's time I got back to class, so I leave with a SATISFIED MIND.

Once more the BELLS ARE RINGING and there's a short class meeting. Everyone cried "COUNT ME IN" as the class launches another project.

And then the RAINS CAME as we adjourned for an outdoor pep rally. "BE TRUE TO YOUR SCHOOL," I cry, and everyone sings AULD LANG SYNE to the RYTHM OF THE RAIN.

There's NO TIME TO LOSE, so all the FOOLS RUSH IN for another class. Soon Good Vibrations are coming from the chemistry lab. Not Again! Well, IT'S ALL IN THE GAME. Right Coach? Right? Coach? Coach? Is that Coach THEY'RE COMING TO TAKE A-WAY HA HA! I always knew he lived on the brink of disaster. Looks like he got too close, but Never Fear—Nurse Jane is here. She's using NEEDLES AND PINS to patch up the BITS AND PIECES and Coach'll be fine.

At last it's noon! As I WALK—DON'T RUN to lunch, SOMETHING TELLS ME I'M FOR SOMETHING GOOD, beans?

LIKE A CHILD, GYPSY WOMAN drops PEACHES AND CREAM down the front of her dress, when all she really wants is A TASTE OF HONEY.

Back in the HALLS OF IVY, LITTLE MAN is smiling at his PRETTY WOMAN and Kathy S. SPREADS JOY OVER THE WORLD as she sings LOUIE, LOUIE. "What's this!" Buddy cries to BIG BAD JOHN, "I'M WISHING IT WAS YOU," as he adjourns to the board room.

ONLY IN AMERICA could BETTY MAN run away with PRETTY MARY! (THERE I'VE SAID IT AGAIN.)

It's American History not, with the Self Girls. An Sane reads of WINCHESTER CATHEDRAL, and Nancy thinks of SUMMER KISSES. We're all WISHIN' AND HOPIN' Cora won't fall asleep.

We all LAUGH, LAUGH as we realize IT WON'T BE LONG until Jane and Mr. Francis have their daily Spanish struggle.

As Lynn breaks a finger or two in the typewriter next period, he yells, "DANG ME, but I have a SUSPICION he thought something else, but THAT'S THE WAY BOYS ARE so we'll let it PASS THIS WAY ONE TIME.

AS USUAL we discuss columns from the paper. SOMETHING OLD

Janitor's cart we "played on" When Venita got banana on her pants
We adopted a puppy
Eighth grade graduation and
★ ★ ★ party afterwards

(the S.H.S. building) SOMETHING NEW (pierced ears).
Now DON'T BOTHER ME because ALL I'VE GOTTA DO is worry about YESTERDAY. YOU REMEMBER THEN. The day we moved the piano upstairs, while Mr. Grosdidier gave directions. "KEEP ON PUSHING. STOP, STOP, STOP."
I was OVER, UNDER, SIDEWAYS DOWN, but we finally made it.
As the last bell rings I GO TO PIECES because so far as Chemistry and I are concerned—WE'RE WRONG FOR EACH OTHER! Oh well, EVERY DAY I HAVE TO CRY SOME, anyway. It's NOW OR NEVER.

3:30—IT'S OVER. On to the BUS STOP and ANOTHER DAY. SEE YOU IN SEPTEMBER.

Essay Contest Deadline is Near

Would you like \$200 to spend for a vacation? Of for your college fund?

That's the first prize that will go to the winner in the 22nd annual Save the Soil and Save Texas conservation awards program sponsored by the Fort Worth Press for Texas boys and girls.

In addition, the champ will get a beautiful trophy. It will be presented at the annual State Conservation Awards Banquet in Fort Worth in the Crystal Ballroom of Hotel Texas on May 6, 1967.

There will be other winners, too. Fifty boys and girls will get trophies and medals. They will be

honored at five regional dinners in Texas.

Here's what you need to do to enter the contest:
Learn all you can about conservation. Then write an essay, 300 words or less, on: "Preserve Our Natural Resources."
Do not write a technical paper on how to conserve the soil and water. Be original . . . use your imagination. Tell how conservation of soil and water will provide for the future needs of Texas and its citizens.

This is an open contest . . . open to boys and girls in Texas, 19 years old or younger, in or out of school but not a high school graduate.

Entries may be sent by individuals or in school or club groups. Please include the following information on your entry:

1. Name and address.
 2. Name of School.
 3. Caprock Soil Conservation District
- Mail or take your entries to the Agricultural Extension Office in the basement of the Courthouse by February 1. A panel of judges will be selected by the Caprock Soil Conservation District to score these essays. Local awards will be given to the high point winners. Following the local contest, district judging entries will be mailed to the Conservation Director in Fort Worth. The State and Regional winners will be selected and notified after February 15, 1967.

I bought my first Savings Bond 25 years ago I was 14 years old

NOW PAYING 4.15% WHEN HELD TO MATURITY

Mr. Jack Benny, distinguished star of the entertainment world, may not have a computer's memory when it comes to his age, but his dates are accurate about Savings Bonds.

The first Series E U.S. Savings Bond was issued 25 years ago on May 1, 1941, by Secretary of the Treasury Henry Morgenthau to President Franklin D. Roosevelt.

Mr. Benny was already famous as a radio comedian (the youngest in the business, by his own admission). And in the years which followed, he proved himself to be a good friend of the Bond Program, not only buying Bonds, but helping to sell them to the American people.

Through his efforts and those of countless other volunteers in radio and TV, stage and screen, and in all walks of life, the American people have bought more than \$150 billion in Bonds.

Of these, about \$100 billion have been cashed in for emergencies, homes, retirement, etc. The balance is being held by tens of millions of American families—a star-spangled nest egg for the future.

Why not start building your nest egg with Savings Bonds—for yourself, and to back up our men in Vietnam. But give it a chance to build up by starting young. Like Jack Benny.

NOW—Savings Bonds Pay 4.15%!

Interest on new E and H Bonds you purchase has been raised to 4.15% when held to maturity. E Bonds mature faster—now in just 7 years. Your old Bonds will earn more, too. Savings Bonds are better to buy, and hold, than ever.

Protect Your Investment

in your own home community

**and make it return bigger dividends
of prosperity and better living**

Thousands of folks . . . including YOU . . . have a big stake in this community.

Lives . . . savings . . . hearts are represented by the homes, businesses, farms, schools, churches . . . and jobs . . . that make up our particular segment of American life.

Faith and hard work created the TRADE VOLUME that made all of this possible . . . as every community is built . . . and grows . . . and LIVES on trade.

Trading at home . . . whenever possible . . . and making it attractive for more of our neighbors to trade here . . . to create greater trade volume . . . is the way to protect our present investments . . . so they will return more dividends of prosperity, contentment, and happiness.

Trade that LEAVES a community, makes empty buildings, empty streets, empty schools, empty churches . . . lost conveniences . . . and depreciated property values. But your dollar . . . spent here . . . where you have your investment . . . will return to you . . . many times.

FARMERS ASKING ABOUT FERTILIZER USAGE IN 1967

More and more farmers are asking about fertilizer usage in 1967, says County Agent Leon Grosdidier.

In arriving at an answer to this question, the fertility level of the soil and the expected yield must be considered.

An expression of the fertility level is not a simple single index since any combination of nitrogen, phosphorus, and potassium levels can exist. Soil tests should be made to determine the level of major plant nutrients, and fertilization practices for the soil and crop should be adjusted accordingly to the soil levels.

The chances of making a high and profitable yield are poor without a fertilization program adapted to the soil level and production requirement. In arriving at an expected yield, many production management and climatic factors should be evaluated. Past yields and the influence of management practices should receive due consideration in arriving at a realistic production goal.

Moisture may be the major limitation in many areas. Available moisture already in the soil, that to be supplied by irrigation, and the estimated rainfall will need careful attention. However, where moisture and fertility are limiting, fertilization is still profitable. Adequate fertilization aids in the development of a better root system which helps the plant make more efficient use of the available moisture.

Adequate fertilization should not be overlooked as a means of reducing per unit production costs and increasing profit. With a realistic yield goal and sufficient information on management, soil tests are a reliable guide for fertilization practices, Grosdidier says.
