

All Around the Town

by Mary Ann Sarchet

In observance of the organization of Briscoe County and Silverton, I was called upon to give something of the history of this area for my study club this week. I enjoyed working on it so much that I thought I would share it with others. The material is taken from a folder prepared by Stanley Price.

The first settler in this area is said to have been Charles Goodnight, who established the Old F Ranch on Quitaque Creek in 1877.

By 1890, settlers were trickling in, slowly but surely. The land, acres of it, was free for the asking, a gold mine not to be left unclaimed. The desire for new territory, a yearning to master a new land, was in the breasts of the hardy pioneers who came to settle in this area.

The first settlers had many hardships. Their troubles were borne bravely and the illness and death in one family was genuinely felt by the other families.

Preaching was in the homes and the preacher traveled from one house or settlement to another. When the preacher came, somehow the word got around and the nearest people would come.

Imagine with me what sort of night it must have been when T. J. Braidfoot called the men of the area together for the purpose of organizing a townsite company in the spring of 1891. The wind was probably whistling around the dugout in which they met. Mr. Braidfoot had filed on Section 20, Block A, and he planned to patent the site so that a town could be built. The law required that 20 houses be erected before the town could be patented, and the directors of the townsite company gave a lot to every man who would build a house. When the townsection was surveyed, the surveys were paid with town lots. Tickets for the lots were placed in a box and each man drew one and it was designated as his lot. Mr. Braidfoot reserved 40 acres for his services in filing on the land, and this part is called the Braidfoot Reservation and is located in the northwest part of the townsection.

Mrs. Braidfoot was given the honor of naming the town, and she chose "Silverton" because she thought it sounded pretty.

Originally a part of Jack County for Judicial purposes, Briscoe County was attached to Donley County and a petition was presented to the Commissioner's Court of that county for an election for the purpose of organizing Briscoe County. Briscoe County was organized March 15, 1892, while a snowstorm raged outside.

The name Briscoe was given to the county in honor of Andrew Briscoe, who was a captain in the Texas War for Independence in 1836 and was one of the signers of the Declaration of Independence.

Silverton and the town of Lingas were entered in the race to be selected as county seat. Silverton won and is still the county seat. There is no longer a town called Lingas.

Silverton's first mail came in three times a week, carried on horseback. The first court held in the county was a called meeting of the Commissioner's Court on March 23, 1892, in a small office building on the south side of the square.

Quitaque was started when the Jagos filed on their land and built a store. Some folks say that the Jago store just ruined Montgomery Ward in this area.

By 1898, the population had increased and people were beginning to live more sociably and easier. Houses were more numerous and windmills were up. Roads were getting better. People were beginning to own buckboards, hacks and surreys.

Camp meetings were held, lasting for several days. Dances were given more often. Some did not have shoes good enough to dance in but the ones who did were freehearted and sat out awhile so the others could use their shoes. Buffalo chips were the best source of fuel, and it was not uncommon to see a wagon-load of buffalo chips or the folks out gathering the chips in sacks.

By 1908 the trend of development was evident. The county was becoming settled and the picturesque cowboy and chuck wagon were giving way to farm im-

Sooner or later, that day comes, the day when a woman feels she's changing. It's not a good feeling either. And she could use a good old-fashioned medicine then.

Could be you feel a little edgy, or maybe cross. You might even have what we call hot flashes and feel sad and slightly off-balance.

Whatever you feel, we have something for the day you need a little comforting. Lydia E. Pinkham Tablets. They're made with gentle, natural ingredients that work to give you a better sense of well-being.

With an old-fashioned problem like this, couldn't you take an old-fashioned medicine?

QUICK CANNED PEAR CRISP FOR DESSERT IN MINUTES

Reminiscent of the old-fashioned flavor of slowly baked fruit crisp, Quick Pear Crisp features juicy sweet canned Bartletts with a crunchy oatmeal topping. Tempting pear halves grace your favorite baking dish for the base of the dessert.

Melt golden butter and let it seep through quick cooking oats, flour and spices for a crumbly topping. Sprinkle the oatmeal mixture over the juicy pear halves and bake just long enough to become toasty brown. Serve with chilled pour cream.

The sure success of Quick Pear Crisp comes from full-flavored canned Bartlett pears. Juicy, sweet Bartletts began their rise to popularity in the United States when Enoch Bartlett found them growing in an abandoned orchard in Boston in 1817. Eventually growers learned that the rich soil of the Pacific Coast was best suited to the precious trees.

Growing and preserving methods have improved to make tender canned Bartletts available in large quantities. Add sparkle to your family meals by serving them often in quick desserts, salads, and meat accompaniments.

A Marxian Decision

Submitted by Rev. W. F. Gaede
Gather around good people, and pull up a chair;
I'll gaze into my ball and tell you what's there;
I see racing by horses and houses with red lights,
Gaming with dice, and gals in bright tights.
It's all coming your way, so just relax—
Anything is respectable if it's tied to a tax!

The above poem was sent to Rev. Gus Browning, Chairman of the Texas Conference of The Methodist Church Board of Christian Social Concerns, from tavern keeper Wm. L. Vass of Houston.

In the letter, Mr. Vass observed, "I really believe there is getting to be too much emphasis on liquor—notice the television commercials, increasing number of glaring whiskey billboards, stacks of gimmick beer in grocery stores, and now some want the open saloon back.

"Maybe we should de-emphasize, not escalate, the subject. With today's gruesome headlines and stories of liquor and auto accidents, liquor and rape, liquor and murder, liquor and broken homes, liquor and teenage sex parties—we may not be around tomorrow."

I believe Mr. Vass has put his finger on one of the most disappointing aspects of the governor's support of liquor-by-the-drink. Our governor is intelligent enough to know the havoc wrought by the use of alcohol.

Perhaps the tavern keeper has a clearer vision of the effect of alcohol than the governor, and unfortunately, many preachers as well as laymen in the church.

We get so upset about territorial encroachment of communists, and yet "continually act on the basis of communist theory. Karl Marx insisted men make their significant decisions on the basis of economics rather than on the basis of morals or the good of society."

If we want Marxism to prevail in Texas, then all we need to do is sit back and prove that Marx was right, by permitting the liquor-by-the-drink prevail.

Let your voice be heard, by writing, wiring, or phoning Governor John B. Connally; Lt. Gov. Preston Smith, Austin, and also Senator Jack Hightower, Senate Building, Austin, and Representative W. S. (Bill) Healy, House of Representatives, Austin.

THE OPEN DOOR

"Behold, I have set before thee an open door . . ." Rev. 3:8
by Rev. Clyde Cain

Des Moines, Iowa—In 1963 the Iowa Legislature passed a law permitting sale of liquor by-the-drink, effective July 4, 1963.

Iowans spent for bottled liquor in the last year BEFORE liquor by-the-drink \$44,598,253.00. In the first year AFTER liquor by-the-drink, Iowans spent the amount of \$75,173,020.00, an increase of \$30.5 million.

Fatal accidents increased from 617 in 1962 to 695 in 1963 and to 832 in 1964. Coroner reports indicate that about 50 percent of traffic accidents involved alcohol.

The 38 liquor by-the-drink states have an average of 4,110 alcoholics per 100,000 adults. (Excluding Hawaii and Alaska)

It appears to me that the facts reveal an increase in all types of evil in states where liquor-by-the-drink is legal. Please let me urge all citizens of Briscoe County to decide your position and then let your Senator and Representative know your conviction. This is an OPEN DOOR to let your voice be heard.

Art Hardin of San Diego, California, was injured in an auto accident on a freeway there Friday. He was in surgery for five hours following the accident. Mrs. Hardin is the daughter of Mr. and Mrs. G. H. Thomas.

The outdoor life. Any indoor man will tell you how great it is. But only an outdoor man can tell you what it does to the human skin.

Constant sun dries skin out. Leathers it. Burns it over and over again. And that can be dangerous.

If you are out in the sun a lot (or even if you're not), check into any sore that does not heal. Promptly. It could be a warning signal of cancer. And cancer is easier to cure when it's detected early. Lorne Greene knows the seven warning signals of cancer. So should you:

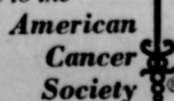

1. Unusual bleeding or discharge.

2. A lump or thickening in the breast or elsewhere.
3. A sore that does not heal.
4. Change in bowel or bladder habits.
5. Hoarseness or cough.
6. Indigestion or difficulty in swallowing.
7. Change in a wart or mole.

If a signal lasts longer than two weeks, see your doctor without delay.

It makes sense to know the seven warning signals of cancer.

LONG'S PHILOSOPHY

Death is something that every living thing on this earth will someday have to face.

"DEATH means the ending of life. Men usually die because the heart stops, and blood no longer circulates and brings nourishment to the cells of the body.

As you can see, death is not over in an instance. The body has to go through certain stages before it can be classified as "dead."

Silverton Places In Shamrock Relays

Silverton fought its way through wind, dust and good competition to win fourth in the Shamrock Relays.

Wellington won the meet with 107 points, Panhandle second with 98 points, Clarendon third with 67 points, and Silverton was fourth with 57 points.

The coaches had praise for all the boys for their fine efforts in the Shamrock Relays.

Again, the mile relay boys brought home first place and a first place in the 880 yard dash.

Cletus Grady and Ira Gallington placed fourth and sixth respectively in the 440 yard dash.

In the sprint relay (440), we placed third with a time of 45.5. Only Wellington and Panhandle had better times.

This week the boys are entered in another big meet at the Panhandle Relays.

Pros and Cons For A New School

Most of the people who have attended this school know that it is getting pretty old and that we need a new one.

Just think, if we had a new one how much better it would look for our whole community.

Some of the things we have running against us are that some people feel that they don't have enough money to build a big modern school.

So we can put up with one until we will afford a new one that will help better the education of our children.

Another Side Of A Question Stated

by Jackie Carol Tate... A few weeks ago, there was an article in the paper by one of the local teachers.

The article about high school drop-outs stated his opinion, as this is mine. Although I do not wish to be a high school drop-out, I am still inclined to believe that they also can be just as intelligent in many ways besides "book" learning.

For an example, there have been many famous men who have not even gone as far in school as the fifth grade, but still they made millionaires.

Being a drop-out doesn't make it any easier to get to your full purpose in life, although it has been done by many who have had to work their way up to their full purpose.

Cheating In Schools

Why do people cheat in school? There are many reasons for it supposedly, but are they really good reasons?

Another reason is that the class is too hard to get through. There are many of that sort of classes but you should at least try and the teacher will help you if you will ask for help.

If a person cheats in school, what will he do all through life? The "cheaters" must really be truthful with their family and friends.

Don't YOU want to know that you did something on your own instead of cheating to get it? It's your life, don't cheat yourself out of it.

Salem Talk-

Spring has sprung at Salem's, although it isn't official until next Tuesday, March 21, by the calendar.

Stroll with me, if you will, from the front of the store, left side, right to the back and I will point out only the highlights of new, exciting, fashionable merchandise that Salem's are offering for spring and summer. First off, their selection of MARTEX and FIELDCREST towels is the finest I have seen anywhere. Beautiful florals, high shade solids, new embroidery border designs and exciting geometric patterns. Prices reasonable, too: the Fieldcrest bath size begins at \$2.00 each and the Martex bath size begins at \$3.00 each. These are terrific shower and personal gift items.

Now, we are in the PIECE GOODS department and I never saw such a variety of beautiful materials to choose from. You can choose from fancy broadcloths at 50¢ a yard. Playwear duck is \$1.00 a yard. Fancy bonded lace is \$2.98 a yard, and there are oddies and seeds of fancy pattern goods. Shop Salem's for your spring and summer sewing needs; you will be pleasantly surprised.

Now we are at the ACCESSORY items department. Salem's are showing dress gloves by Stetson, very dressy, fancy lace gloves, and a fine variety of spring pastel solid color gloves. And such a variety of scarves, silk squares, silk smoke rings, and fish nets from which to choose. Their spring and summer handbag stock is complete, featuring straps and patents, and their spring MILLINERY is in bright and gay styles.

Salem's is proud to offer the complete line of PLAYTEX LIVING BRAS and PLAYTEX LYCRA GIRDLERs, as well as CARNIVAL Bras and EXQUISITE FORM girldes.

On the way to READY - TO - WEAR, shop their new line of

MERCURY casual footwear. Each pair is packaged in a see-through poly bag just the right size for carrying in the purse for a quick change of shoes. These are durable hard-sole shoes, all new fetching styles in the latest spring shades.

In the ready-to-wear department we are surrounded by a dazzling array of the latest in fashion designs. Their casual sportswear department features coordinates and separates by PADDLE and SADDLE, DONOVAN GALVANI and MANHASSET CASUALS. Select ankle pants, bermudas, jamaicas and a vast array of tops to coordinate with any item you select.

Easter suits are especially set up for your selection, among which are DONOVAN GALVANI, PARKLAND, FISHER'S and LAURA OF DALLAS.

Shopping Salem's dresses will be a real pleasure, as they feature only well-known brands you know and trust. Whatever the style trends may be, you will surely find them at Salem's. Shifts and modified shifts are still the big item and tent dresses are on their way to Salem's stock now.

Adjacent to ready-to-wear, you will find PHILMAID summer sleepwear featuring NO-IRON dacron-cotton blends in shorty pajamas from \$3.99. Short gowns are from \$4.99, long leg pajamas from \$4.98 and gown and robe sets from \$8.98 a set. Of course, HENSON LINGERIE is well represented with briefs, slips, skirt savers and a full line of sleep and loungewear—all very pretty and practical.

Salem's ladies shoe department is just across from ready-to-wear, and they have a fine selection of shoes by PERSONALITY, flats, heels, sandals, gleaming patents, way-out new bright, bold shades of blue, yellow, bone, green and white.

Casual canvas footwear by U. S. KEDS is also featured.

We are at the back of the store now and ready to take in the men's side; but, wait! I just re-

CARDS OF THANKS
Words are so very inadequate, but from our hearts we thank you for your many loving expressions of sympathy.
The family of Mrs. E. A. Young

The cards, flowers, food, and other expressions of sympathy have meant so much to us. It is at times like this that you realize what true friends really mean. Celebrate the first solid promise of spring with this unique dessert—a Spring Bonnet Cake. Made very easily from a couple of packages of Swans Down Lemon Flake Cake Mix, topped with a seven minute frosting, and decorated with frosting flowers.

Spring Bonnet Cake
2 packages lemon flake cake mix
Seven minute frosting*

*Use your favorite recipe to make 9 cups.
Prepare one package of the cake mix as directed on package. Pour batter into a 15x10-inch jelly roll pan, which has been lined on bottom with paper. Bake at 350° for about 30 minutes. Cool 10 minutes in pan; turn out and cool completely on rack.
Prepare a second package of cake mix as directed on package. Pour batter into two 8-inch layer pans, lined on bottoms with paper. Bake at 350° for 35 to 40 minutes. Cool 10 minutes in pan; turn out and cool completely on racks.
To make brim of bonnet, trim the 15x10-inch cake to form a large circle. Frost top and sides. On center of this, place one 8-inch layer. Frost top of layer; then place second layer on top, and frost top and sides.
Divide remaining frosting into four parts; tint yellow, green, blue, and red. Use these tinted frostings in pastry tube; decorate bonnet with flowers, leaves, and hat band. Make a ribbon bow for back of bonnet.

Buy Bonds where you work.

They work in Vietnam—for freedom. They're helping to pay the bill for freedom, too. Like many of our servicemen overseas, they're investing in U.S. Savings Bonds. Bonds are a good deal. A good way to save up for college . . . or for a home . . . or just for a future that's

free and worth having. There's a good way to show these men you're on their side. Buy U.S. Savings Bonds where you bank, or join the Payroll Savings Plan where you work. You'll walk a bit taller.

U.S. Savings Bonds

Bond facts: Savings Bonds pay you back \$4 for every \$3 in only seven years . . . are replaced free if lost, destroyed or stolen . . . have special tax advantages . . . can be redeemed whenever the need arises.
