

# Mackenzie - - And Its Secondary Advantages

Tulia Herald Editorial  
by H. M. Baggarly

Since the Mackenzie water project was first conceived, we have deliberately confined our remarks to its primary purpose . . . providing municipal water for Tulia, Silvertown, Lockney and Floydada. All four towns are going to need surface water in the foreseeable future . . . Silvertown must have it day before yesterday!

Obviously, there are other aspects to this project . . . specifically, recreation. But we haven't thought it wise to talk recreation lest someone get the idea that we really don't need the water, the

promoters just want a place to go fishing!

Our water needs are much too serious to risk a misunderstanding among the people . . . so we have simply been presenting our water needs . . . period.

It might also be said that ultra conservatism has been practiced in every phase of this proposed project. In determining whether there would be enough water to serve the four cities, it was assumed that rainfall in the Tule Creek watershed would be the lowest on record. And it was discovered that even in a year with minimum rainfall, there would be sufficient wa-

ter in the lake to make the project feasible.

It has been assumed, for financial reasons, that the only income would be from the sale of water and taxation. These are the only sources of income sufficiently guaranteed to satisfy those who buy the bonds.

We all know that there will be other income, primarily from recreation.

Americans are recreation mad! They patronize recreational spots such as Lake Meredith, Buffalo Lake, and all the others, even if they don't have grocery money. Minor spots such as Burson Lake

are crowded. The Mackenzie project will provide one of the best recreational spots in the area. There will be fishing, lake-front acreages for sale for cabins and summer homes, all of which will bring in revenue, not only to the authority but to the area towns involved.

This income from recreation will be just as real as that derived from taxes and the sale of water. There are other possibilities.

In the case of a similar project south of here, an oil company came along and contracted for enough water to make the bond payments. Again, this is income

we can't borrow money against; nevertheless, it is a very real possibility. As scarce as water is in the area, no available water supply is going begging. A number of towns, including Tulia, tried to get in on the Canadian River project . . . but all were turned down.

Who knows . . . the time may come when towns not so fortunate as Tulia, Silvertown, Lockney and Floydada may be begging us to sell them water.

Nothing would please us more if somehow our underground water fooled the experts and we continued to have enough to supply our needs, making it unnecessary

to draw on water from the Mackenzie project. It would be there like a million dollar insurance policy, ready to quench our thirst if and when we needed it. We would still enjoy the recreational advantages.

But we all know this is wishful thinking . . . as any irrigation farmer in the area knows, our underground water is being depleted and inevitably the day will come when we must look to another source.

Someone may feel that eventually we'll have water from the Mississippi River and won't need the Mackenzie water. In fact, before

the recent election someone asked us, "If the amendment carries, we won't need the Mackenzie project, will we?"

It is only common sense to recognize the fact that we can get water from Mackenzie much more economically than we could from the mouth of the Mississippi River.

The fact is . . . water from both Mackenzie . . . and the Mississippi . . . is a must!

A vote for the Mackenzie project on September 6 will be one of the wisest votes we ever cast.

# Bollworms Damaging Cotton on South Plains

Jay Long, senior, and Bill Strange, junior, have been selected as co-captains for the Owl football team this season. The boys are looking forward to their first action in a scrimmage with Earth-Springlake here at 8:00 p.m. Friday. ## "Towel and Soap" Night Is August 29

Friday, August 29, has been declared "Towel and Soap" Night for the Silvertown Athletic Department. Silvertown's Owls will scrimmage Springlake - Earth at 8:00 p.m. on that day, and the admission to be requested has been set at one towel for each man and a bar of soap for each woman.

If fans desiring to see the scrimmage do not bring a towel or a bar of soap, they still will be admitted because in reality, no admission is being charged; but Coach Bill Stovall is attempting to provide enough towels and soap for the Athletic Department for the whole school year at this time.

"Did you know that soap costs us more than \$40.00 a case?" he asked. "If fans forget to bring a towel or soap, they can drop a little money in the boxes provided if they like; however, there is actually no admission being charged and everyone will be admitted whether or not they put anything in the boxes. This was just an idea we had for providing for one need of the department without the school having to foot the bill."

Approximately 30 boys are working out for the football team under the direction of Head Coach Stovall and Coaches Bill Wood and Tom Wright. Co-captains for the Owls this season are Jay Long, a senior, and Bill Strange, a junior.

MRS. RANDY ALLEN HUGHES

### Rucker - Hughes Vows Exchanged In Amarillo Church Ceremony

Sanburn Baptist Church in Amarillo was the setting for the Sunday, August 17, wedding of Miss Judith Ann Rucker and Randy Allen Hughes.

Parents of the bride are Mr. and Mrs. Nolan Rucker of 119 West Central in Amarillo, and the bridegroom is the son of Mr. and Mrs. Berton Hughes of Silverton.

The bride's father, Nolan Rucker, assisted Rev. C. H. Murphy, jr., pastor of First Baptist Church in Silverton, in officiating the double ring ceremony.

Given in marriage by her father, the bride wore a formal floor-length wedding gown of Alencon lace over taffeta designed with full skirt, natural waist, Sabrina neckline and long, tapered sleeves. Tiny sequins enhanced the neckline and front of the gown. Her shoulder-length veil of imported illusion fell from a coil of roses, and she carried a nosegay of pink rosebuds and gladiolus from which a shower of satin streamers with lovers' knots cascaded atop a lace-covered white Bible.

For something old, the bride wore an heirloom strand of pearls given to her by the bridegroom. Her wedding gown symbolized something new. A 65-year-old gold bracelet, belonging to the bridegroom's grandmother, Mrs. R. E. Renfro, was worn for something borrowed, and the traditional blue garter was added.

Mr. and Mrs. Sam Brown of Tulsa provided nuptial music. Mr. Brown sang "For You Alone" and "How Do I Love Thee" by Lippe' accompanied on the piano by Mrs. Brown.

Miss Mary O'Dell of Arkansas City, Kansas, attended the bride as maid of honor. Other attendants were Miss Lorraine Alford of Clayton, New Mexico; Miss Gay Sue Rucker, sister of the bride, and Miss Barbara McLemore, both of Amarillo. They wore identical floor-length fitted gowns of satin taffeta with lace trim, and their coifs were pink roses which held brief pink veils. They carried single long-stemmed pink roses.

The flower girl was Miss Wynell Hawk, niece of the bride. She carried a pink basket filled with flower petals, and presented the mothers of the bride and bridegroom each with a long-stemmed pink rose. Her dress was styled identically to the gowns worn by the other attendants. Rocky Hawk, nephew of the bride, was ring bearer.

The nuptial area was signified by an archway decorated with greenery and white bows. On each side were baskets of white gladioli. The couple knelt for the benediction on a white wrought iron prie dieu covered with white satin while Sam Brown, soloist, sang "The Wedding Prayer" and "The Day of Golden Promise."

At the conclusion of the wedding ceremony, the couple extinguished two lighted tapers, symbolic of their individual lives, and together lighted a large memory candle, placed on a white wrought iron stand, which was symbolic of their oneness.

Serving as best man was Cliff Hill of Albuquerque, New Mexico. Seating guests and serving as groomsmen were Ronnie Overmyer of Lubbock, cousin of the bridegroom; Gary Crow of Silverton, and Eddie Pittman of Fort Worth.

MRS. JOHN KENNETH SCHERTZ

### Turner-Schertz Vows Exchanged In Formal Church Ceremony

United Methodist Church in Silverton was the scene of the ceremony which united in marriage Miss Paula Carol Turner, daughter of Mr. and Mrs. Orville Turner, and Mr. John Kenneth Schertz, son of Mrs. Durward R. Schertz of San Antonio and the late Mr. Schertz, at 7:30 p.m. on Saturday, August 23.

Officiating the double ring ceremony was a former Silverton resident, the Rev. James P. Patterson, pastor of the United Methodist Church in Kress.

The church altar was decorated with emerald palms and spiral candelabra holding white wedding tapers. Baskets of yellow gladioli and yellow daisies flanked the setting.

Candles were lighted by Orville Turner, jr., brother of the bride, and Scott Abele, a cousin of the bridegroom.

Escorted and given in marriage by her father, the bride wore a formal gown of white Chantilly lace designed with A-line skirt. Her cut-in train was attached at her shoulders and fell from the back of her empire bodice to chapel length. Her cowl neckline was embroidered with seed pearls and iridescent sequins and her self-cuffed long sleeves were scalloped in a pattern identical to the scalloped hem of her gown. Her pearl coif, highlighted with crystals, held her three-tiered elbow-length veil of silk illusion, and she carried a bouquet of yellow gladioli

surrounding an orchid atop a lace-covered white Bible.

Serving as maid of honor was Miss Janet Smith of Dallas. Miss Linda Fisch was bridesmaid. Their floor-length empire gowns were of turquoise peau de soie and they added matching bows to which were attached shoulder-length veils. Each carried a bouquet of yellow daisies.

Russell Schertz served his brother as best man. Seating the guests were Scott and Steven Abele, cousins of the bridegroom, and Orville Turner, jr.

Lane Adams served as groomsmen.

Mrs. Turner chose a dress in A-line design of light blue silk for her daughter's wedding and added a yellow gladioli corsage. Mrs. Schertz also added a yellow gladioli corsage to her two piece pink silk ensemble.

Traditional wedding selections were provided by Mrs. Sam Brown, organist, and Sam Brown, soloist.

## Seek Wisdom

"If any of you lack wisdom, let him ask God who gives to all men and generously and without reproaching, and it will be given him." - James 1:5

A child reaches out for wisdom with the discovery that a word has meaning. A man has wisdom when he realizes that he still has much to learn. The lessons of life are never ended, for every experience is somehow different from anything we have known before.

If you would live a life of wisdom, have faith. Live to learn, ask guidance, and you will learn to live a life that is full and generous.

A rehearsal dinner party was hosted by the bridegroom's parents, Mr. and Mrs. Berton Hughes, in the upstairs banquet room of the Sands Motor Inn in Amarillo at 6:00 o'clock Saturday evening, August 16. Tables were covered with white cloths, and head table featured a large arrangement of pink carnations. Decorating the flanking tables were large pink bows and white wedding bells.

Crystal appointments held pink and white mint bubblets.

The bride presented the bridegroom with a family Bible, and the bridegroom gave her a strand of heirloom pearls which had belonged to his mother.

A pre-nuptial shower was given for the bride in the home of one of the bridesmaids, Miss Barbara McLemore, in Amarillo on Tuesday night, August 12.

Fight the price/cost squeeze on your wheat with NITROMITE, Shamrock's fine brand of anhydrous ammonia. A preplant application of NITROMITE speeds early growth, producing lush, high-quality forage (and plenty of it)—an important factor if you plan to graze cattle this winter. And the cash crop? NITROMITE delivers the most usable nitrogen per dollar to help increase yields without increasing cost appreciably. So come harvest, even if prices are low, you make out. If they're good, you'll be the big winner. Put down NITROMITE now. It'll give you a fighting chance in the marketplace.
