Several of the teachers have given us lists of the supplies that the students will be needing when school begins. Most of them that I spoke with seemed pretty sure that workbooks for their class would be higher this year, but most had not actually looked up the prices and figured the postage to be positive about the exact amount. Most of them agreed that the workbooks would be about \$5.00 per year per student—this is for the first five grades.

The students get a lot for this workbook fee, however; I was surprised at how much this fee covered when our boy started school.

Another thing the lower-grade teachers are in unanimous agreement on is that each student should bring a large box of Kleenex tissues as part of his regular school supplies. If the student uses a lot of Kleenex, he should take another box the second semester.

The other supplies outlined for me by the teachers were:

FIRST GRADE

Pencil, Tablet (please do not get notebook paper), ruler, paste (please do not get glue), \$5.00 for Workbooks, Scissors, and Crayolas

SECOND GRADE

Regular Tablet (not notebook paper, please), Scissors, Paste, Ruler, Crayolas, a box to hold supplies, and a Pencil

THIRD GRADE

Curse Writing Tablet, Red Lead Checking Pencil, Crayons, Library Paste, and Pencil

FOURTH GRADE

Notebook Paper (side holes), No. 2 Pencils, Red Checking Pen, Crayons (small), Elmer's Glue (small), 3 Manila Folders with fasteners, a large box Kleenex, and \$4.50 for Workbooks

FIFTH GRADE

Scissors, Paste, 2 Pencils, Crayons, 6 Folders, Theme Paper, and approximately \$4.00 to \$5.00 for Workbooks

P. E. CLOTHING

Uniform clothing has been recommended for all high school and junior high school physical education classes for the 1970-71 school year.

For boys this consists of red shorts, white T-shirt, athletic supporter, white athletic socks and white tennis shoes.

The girls are being asked to wear white short sleeve blouses, red shorts, white athletic socks, and white tennis shoes.

I hope this information will be of help to those who have requested it.

Even though the weather we've been having makes us want to deny it, the time for the opening of school will soon be here.

Mrs. Wilmeth Hurt In Vacation Accident

Mrs. E. D. Wilmeth suffered a broken left leg and right arm in a freak one-car accident in Red River, New Mexico Saturday afternoon.

She was listed in satisfactory condition at St. Vincent Hospital in Santa Fe early this week.

Mrs. Wilmeth was run over about 4:00 p.m. by her own vehicle as she and her husband attempted to push the stalled car off the road. When it rolled out of control, Mrs. Wilmeth said she clung to the door frame and was dragged until it came to rest in a ditch, pinning her under the right rear wheel.

The couple are retired teachers. Mrs. Wilmeth suffered a broken hip several years ago in a fall on an icy sidewalk. A pastime with the couple has been to "hitch up the camper" and vacation in various parts of the country. They had a trailer house destroyed at Sherwood Shores on the night of April 17 when tornadoes raked the area.

John D. Baird has been seriously ill in the Swisher Memorial Hospital.

til Friday morning of last week. His parents, Mr. and Mrs. Jerry Patton, stayed at the hospital with him.

THURSDAY, AUGUST 6, 1970 SILVERTON, (Briscoe County) TEXAS VOLUME 62 NUMBER 32

Rampley Is New Superintendent Of Silverton School System

O. C. Rampley has officially assumed the duties of Superintendent of the Silverton Independent School District, with the resignation of former School Superintendent J. S. Hinds having become

O. C. RAMPLEY

effective on July 31.

The new superintendent has been the Silverton High School Principal for 15 years. A native of Silverton, he was graduated from high school here in 1940 and attended West Texas State University three years before entering the Marine Corps. Following his discharge, he returned to college in 1946 and received his masters degree in 1947.

Rampley taught at Las Cruces, New Mexico one year before returning to Silverton where he engaged in farming for six years. He was employed as a teacher in the Silverton Schools in 1954 and became principal of the high

school in 1955. He has continued to teach government classes.

Hinds has had 34 years experience in the Texas public schools. He has served as superintendent of schools for 24 years, 10 years in Silverton. Mr. Hinds may have surprised some of the townspeople—who had expected him to retire to fishing and traveling—when he applied for a teaching position in the Silverton Schools. He has been employed to teach in the Junior High.

The school faculty is now complete with the exception of a high school math teacher. Many schools in the area reportedly are experiencing difficulty in securing qualified math teachers.

There will be a meeting of the entire faculty on Tuesday, August 18, in the cafeteria at 8:45 a.m. At the close of the meeting, Principals Charlie Payne and Richard Souter will instruct the teachers pertaining to the In-Service Training Program for teachers August 18-21.

August 24 Is Date Of Kindergarten Sign Up

Public school kindergarten is offered only to children who cannot speak English or who are from families whose income is less than \$3,000 annually.

For more information regarding the Kindergarten at the First Baptist Church, please call the church office or contact Mrs. Clemmer.

GRAZING PROBLEM MAY BE SOLVED WITH COOL SEASON PASTURE

by Arnold D. King
 Soil Conservation Service
 Cool season pasture may be the answer to the "blank spot" in wheat grazing programs. Farmers have trouble finding a place for their cattle after they are taken

off of wheat in mid-March, and grasses such as Tall Fescue and Tall Wheatgrass may help solve this problem.

Cool season grasses grow well during the fall and early winter months and begin growth very early in the spring. Irrigation and high level management are necessary to get the most out of these grasses.

Bob Reeves, John Francis and Riley Harris are three landowners who plan to develop grazing programs using cool season grasses in combination with wheat grazing and summer grazing.

Assistance for this and other conservation work is now available through the Great Plains Conservation Program administered by the Soil Conservation Service.

GREGG REUNION HELD AT QUITAQUE SUNDAY

The Gregg family gathered in the home of Mrs. J. W. Ewing in Quitaque Sunday for their annual family reunion, and celebrated the 80th anniversary of the family's move to Briscoe County. An enjoyable day was spent visiting with relatives and friends.

The W. S. Gregg family moved to the Quitaque area August 1, 1890, in a covered wagon and settled on a farm three miles west of the present City of Quitaque. Fulton Gregg, who now makes his home in Silverton, was about seven months old then, and has made Briscoe County his home since. There was no town there at that time, but the Jago Store was opened by A. R. Jago on that site in 1891. Mail came out of Clarendon by freight wagon to the F Ranch, and the settlers had to go there for their mail.

Those enjoying the reunion were Mrs. J. W. Ewing and Lizzie Gregg of Quitaque; Mr. and Mrs. Fulton Gregg, Mrs. Marie Boling,

Mr. and Mrs. Bill Boling and daughters, all of Silverton; Mrs. Buster Snodgrass of Oklahoma City; Deatrea Boling of Lubbock; Mr. and Mrs. Lee Gregg, Mr. and Mrs. Philip Frier and children and Mr. and Mrs. Toehead Bingham of Lovington, New Mexico; Mr. and Mrs. Arthur Gregg, Amarillo; Mr. and Mrs. Bill Lindahem, Mrs. Homer Gregg, Mr. and Mrs. Ervie Muse, Plainview;

Also, Mrs. Wanda Lee Harris and sons, Midland; Mr. and Mrs. Otis Frier, Mr. and Mrs. Buddy Medlin, Tatum, New Mexico. Friends attending to extend best wishes included Mr. and Mrs. Bill Woods, Mr. and Mrs. Buddy Morris, Minnie Mae Roberson, Yolanda Roberson, J. R. Stroup, Gladys Stroup, Fish Wilson and Mr. and Mrs. Orlin Stark.

All the brothers and sisters in the Gregg family are now past 80 and all were present except one, Mrs. Bessie Frier, who was ill and unable to attend. She lives in Lovington, New Mexico, and, at 87, is the eldest of the Gregg children.

FRIENDS AND RELATIVES ATTENDED RIDDELL SERVICES

Shower Held For Mrs. Jerry Patton

A surprise pink and blue show-
er for Mrs. Jerry Patton last
Thursday morning turned out to
be a surprise for the hostesses
when Mrs. Patton was unable to
attend due to her son, Craig, be-
ing a patient in the Plainview Hos-
pital with pneumonia.
The party continued as planned
at the home of Mrs. Bill Durham,
with a nice array of layette gifts
being brought for the honoree by
her friends.
Pictures of the refreshment table
which was covered with a white
cloth over pink were taken

for the honoree, as reminders of
the party she missed. The center-
piece was an arrangement of arti-
ficial blue flowers in a ceramic
baby planter, with Blue Danube
candelabra holding pink tapers
and tied with pink satin ribbon
which extended down onto the
table.

Assisting Mrs. Durham as hos-
tesses were Mrs. Leo Fleming and
Mrs. David Tipton.

Miss Billie Haynes of Los An-
geles, California, is here visiting
her mother, Mrs. Mary Daniels, at

PROPER DIVISION OF THE BIBLE

(Second of a Series of Two Articles)

"Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." (2 Timothy 2:15). This passage we are using for our text in the study of the proper division of the Bible. Last week we reviewed the need for proper division and also the historical division of the Bible. Today in this article we are interested in a knowledge of the actual divisions of the Book itself.

TWO GREAT DIVISIONS

The Bible has two great divisions: the Old Testament and the New Testament. It is further divided into 66 books: 39 in the Old Testament and 27 in the New Testament. The books of the Bible may be classified as to their subject matter. In the Old Testament we have: **Books of Law**, 5 books—Genesis to Deuteronomy; **History**, 12 books—Joshua to Esther; **Poetry**, 5 books—Job to Song of Solomon; **Major Prophets**, 5 books—Isaiah to Daniel; **Minor Prophets**, 12 books—Hosea to Malachi. And in the New Testament we have the following divisions: **Biography**, 4 books—Matthew to John; **History**, one book—Acts of Apostles; **Specific Epistles**, 14 books—Romans to Hebrews; **General Epistles**, 7 books—James to Jude; and **Prophecy**, one book—Revelation.

It will be noticed that the book of Genesis and the first nineteen chapters of the book of Exodus tell us all we know about the dealings of God with humanity during the Patriarchal age. The commandments in that portion of the Bible were binding on the people who lived at that time. The worship offered by those people is no standard by which we can determine what worship is acceptable to God by us today.

Beginning with the 20th chapter of Exodus and continuing through the Old Testament we find the scripture which tells of God's dealings with His people during the Jewish (or Mosaic) age. But there is more, for the last book of the Old Testament was written 400 years before Christ. The first four books of the New Testament relate things which happened during the last period of Old Testament history; that is, under the Jewish or Mosaic age. Jesus was born under the law of Moses (Galatians 4:4). He lived under the law and taught the people in His day to keep the law of Moses (Matthew 23:1-3; Mark 1:40-44). He came not to destroy the law but to fulfill it (Matthew 5:17). And when he had fulfilled its every demand, its types and shadows, He took it out of our way by nailing it to His cross (Colossians 2:14). And Paul says we became dead to the law through the body of Christ (Romans 7:4). He meant we were no longer bound to the law under which the Jews had lived during the Jewish age, the laws under which Jesus was born, and under which He lived.

In addition to these teachings in the first four books we find the principles of salvation for the people of God after the cross. God's dealings with humanity during this Christian age are set forth: first in the history of the establishment and growth of the church (in the book of Acts), and next in the epistles to the churches.

MRS. HERMAN C. FREDENBERG

Lee-Fredenberg Vows Exchanged

In New Mexico August 1

The home of Mr. and Mrs. Howard Dana in Gallup, New Mexico was the scene of the marriage of Miss Terry Lee and Herman C. Fredenberg on Saturday, August 1, at ten o'clock in the morning. Officiating clergyman was Father Marcan of Saint Michaels Mission, Arizona, who directed the double ring ceremony.

Parents of the bride are G. W. Lee of Silverton and Mrs. Howard Dana of Gallup. The bridegroom is the son of Mr. and Mrs. Herman Fredenberg of Window Rock, Arizona.

Serving her sister as matron of honor was Mrs. Roy Dee Gregg of Thomaston, Georgia. She wore a white Belgian linen dress with a long blue and green scarf.

Best man was Theodore Begay of Window Rock.

Escorted and given in marriage by her grandfather, J. W. (Ted) Reid of Canyon, the bride wore a white tiered lace gown accented by a seed pearl bow on her petite white satin belt. Her veil of white silk organza was caught by miniature white roses, and she carried a bouquet of the same white roses.

Candles were lighted by Miss Jan Lee of Gallup and Miss Clara Fredenberg of Window Rock, sis-

ters of the bride and bridegroom. Traditional wedding selections were played by Miss Cynthia Chapman of Gallup, organist.

A reception in the Dana home followed the ceremony.

Following a wedding trip, the couple will be at home at 3535 Vail Southeast in Albuquerque, New Mexico. Both are Junior students at the University of New Mexico, where he is in the School of Dentistry and she is majoring in elementary education.

Nineteen Briscoe County Boy Scouts from troops in Quitaque and Silverton are camping at Tres Ritos, New Mexico this week.

Scoutmaster of the Quitaque troop is Jimmy Davidson, and F. E. Hutsell is Scoutmaster at Silverton.

The Silverton group had bus failure enroute to camp and were forced to "hitch a ride" to Tres Ritos. Some of the parents of the Scouts will have to go for them, because the bus probably will not be able to return home.

Silverton Scouts making the trip were Randy Vaughan, Jeffery Johnston, Mike Montague, Wes Fleming, Jack Robertson, Ty McMurry, Gary Storie, Ricky Hutsell, John Burson, Mark Hutsell and Scott Hutsell.

Mrs. F. E. Hutsell and daughter, Coleen, also accompanied the group in a camper.

Quitaque Scouts making the trip were Bruce Patrick, Bruce Tiffin, Jeff Tiffin, Jimmy Don Davidson, Ricky Hall, Reggy Cathey, Randy Stark and Alvin Ivory.

PRESERVING FOLIAGE FOR WINTER ARRANGEMENTS

Foliage for arrangements during the winter months may be preserved now by using glycerin. The leaves of many plants may be used to make interesting arrangements when flowers are not available from the garden.

The procedure is simple. All you need to do is stand the stems or leaves in a mixture of one part glycerin and two parts water.

Now is a good time to get started on this project. The leaves will be in an active stage of growth and will rapidly absorb the glycerin. This usually takes about two to three weeks.

Many kinds of leaves may be preserved by the glycerin process. Magnolia, oak, peach, plum, eucalyptus and poplar leaves are satisfactory. Of the shrubs, try barberry, forsythia, sumac, privet, rhododendron and rose leaves. The leaves of many perennial herbaceous plants may be used such as aspidistra, canna, coral bells, geraniums, iris and devil's ivy. Leaves of small plants may be submerged completely in a half and half glycerin - water solution.

Select only perfect specimens and wash the foliage with water to remove dirt or spray residue. If the material has woody stems, cut off the lower inch with a sloping cut before starting the treatment. Then stand the stems or leaves upright in a jar of glycerin solution.

The leaves will change color as the solution is absorbed, and good air circulation and warm weather will speed up the absorption. Wipe the leaves occasionally with a cloth dampened with the solution as this will help prevent drying before the glycerin reaches the edge of the leaves.

Leaves preserved by glycerin should be stored in boxes to prevent from damage and dirt. Check the boxes frequently during the first few weeks to be sure there is no leakage from the leaves which might cause mold.

Mrs. Len Koslowski and Carol of Warren Michigan and her mother-in-law, Mrs. Frank Koslowski of Detroit, Michigan, were guests of Mrs. C. E. Anderson from Tuesday until Sunday.

Mrs. Clagett Anderson and Karen Angney of Philadelphia, Pennsylvania, have been here visiting Miss Anna Lee Anderson, Mrs. C. E. Anderson and Mrs. Fred Elliston.

Mrs. Arbell Stone of Sierra Vista, Arizona, is a houseguest of Miss Anna Lee Anderson this week.

Mrs. Jimmie House and her daughter, Mrs. Buzzy Barnhill and sons, Frank D., Scotty and Brad, of Lubbock have recently visited Mr. and Mrs. Emmett Tomlin and daughter, Donna, in Idaho.

Mr. and Mrs. Joe Marcus, Susan, Brent, Missie and Russ of Lafayette, Indiana; Rev. and Mrs. P. L. Arnold of Quail, and Cliff Walker, a student at Hardin - Simmons University, have been recent visitors in the Roy Mack Walker home and with other relatives.

Nominations To Be Made Here

Time is rapidly approaching for farmers and ranchers in Briscoe County to exercise their constitutional rights by electing their neighbors to the ASCS Community Committee for 1971.

The first item of business is the nomination of candidates by petition. Nominations will be received between July 28 and August 17. Six eligible voters must sign each petition (you can sign more than one petition). All pe-

titions must be in the county office by 5:00 p.m. on August 17.

The ASCS County Committee urges you to actively participate in this election. They remind farmers and ranchers that their livelihood depends on the election of honest, unbiased men to these important positions of trust.

PAST, PRESENT, FUTURE

At birth this child was blessed with a past, a present and a future beyond compare. This child was born an American.

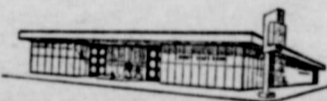

The birthright of each of us as Americans entitles us to an opportunity for a way of life unequalled in the world and there is nothing to stop us from multiplying our many blessings except ourselves. We, like our forefathers, who fought so diligently for our freedom, must continue to fight. There is a small percentage in our great country who, having no respect for law and order, religion or anything else that we all hold so dear, are hell-bent on riot, revolution and the destruction of our traditions. But let the great majority of us continue to vote to change things in the legal and law abiding manner that has preserved our great nation for so long.

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal—that of preserving the greatest democratic society the world has ever known.

Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours—ours because we are Americans.

"Thank God! I — I also — am an American."

Partial map of Briscoe County: State Highway 86 from Silvertown East to top of Caprock.

NOTICE AFFORDING OPPORTUNITY FOR PUBLIC HEARING CORRIDOR (LOCATION) AND DESIGN (COMBINED HEARING)

The Texas Highway Department is planning the improvement of State Highway 86, from Silvertown - East to Top of Caprock, in Briscoe County.

The proposed improvement will

provide a 26-foot roadway surface, with 8-foot 6-inch paved shoulders, and 12-foot climbing lanes as required. The right of way width on the proposed project will be a minimum of 150 feet, following the present location. There will be no displaced persons or businesses.

Maps and other drawings showing the proposed location and geometric design, and any other in-

formation about the proposed project, are on file and available for inspection and copying at the Resident Engineer's office at Matador, Texas. Also, the drawings showing the proposed geometric design have been placed on file in the office of the County Judge of Briscoe County.

Information about the State's Relocation Assistance Program, the benefits and services for dis-

places and the relocation assistance office, as well as information about the tentative schedules for acquisition of right of way and construction can be obtained at the Texas Highway Department District Office, P. O. Box 909, Childress, Texas 79201.

Any interested citizen may request that a public hearing will be held covering the social, economic, and environmental effects of the

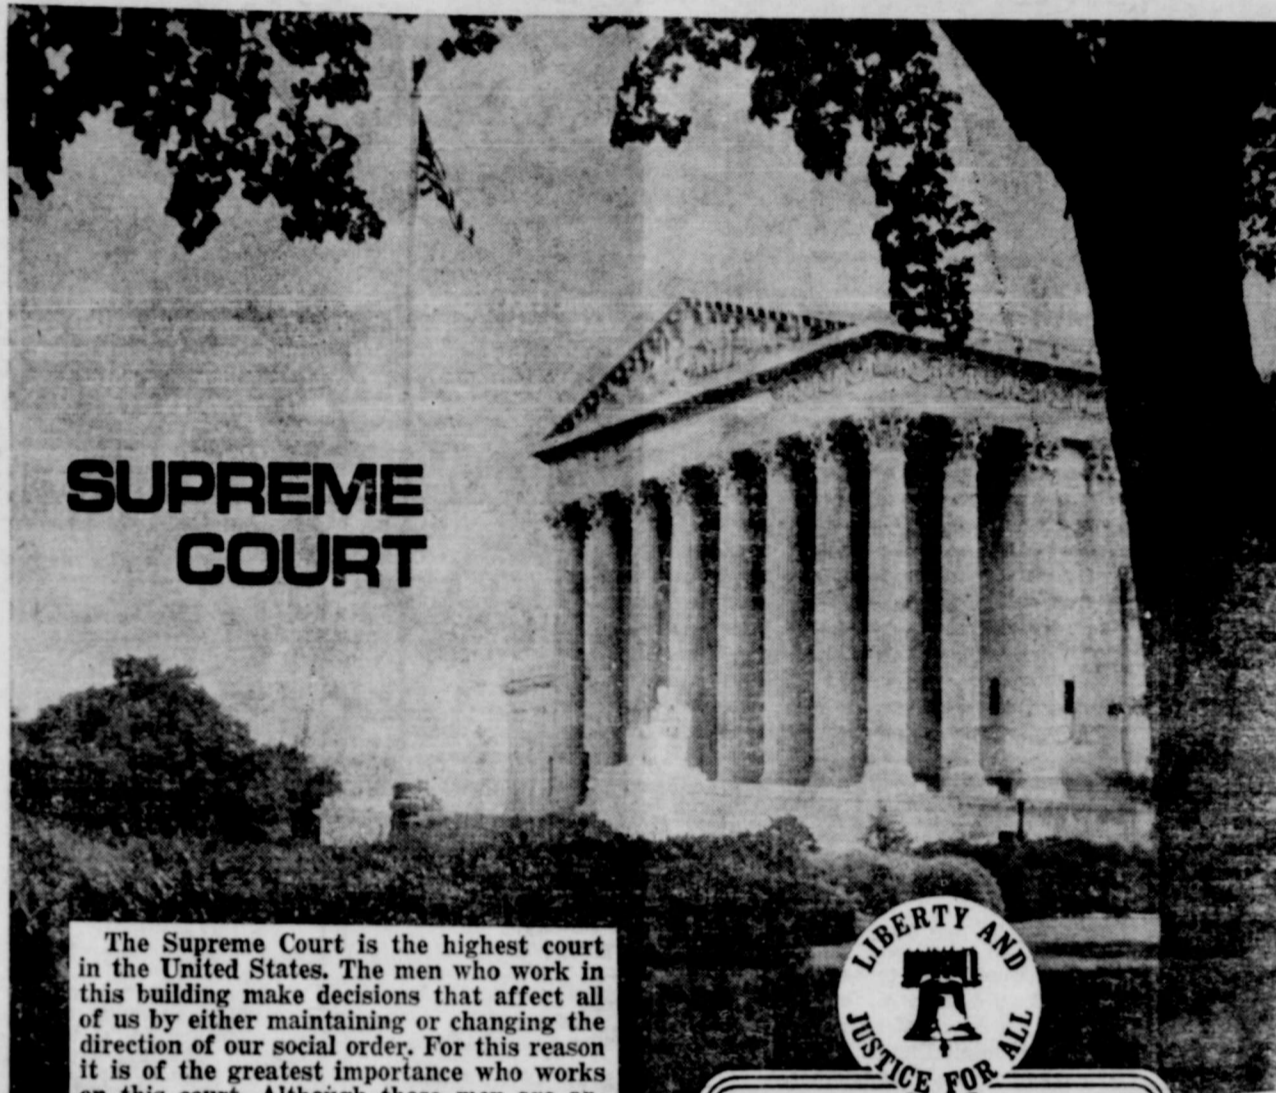

proposed location and design for this highway project by delivering a written request to Harry E. Hart, Resident Engineer, Matador, Texas, or V. J. McGee, District Engineer, Childress, Texas, on or before August 21, 1970.

In the event such a request is received, a public hearing will be scheduled and adequate notice will be publicized about the date and location of the hearing.

"Those who expect to reap the blessings of freedom must undergo the fatigue of supporting it."

Thomas Paine Sept. 12, 1777

The Supreme Court is the highest court in the United States. The men who work in this building make decisions that affect all of us by either maintaining or changing the direction of our social order. For this reason it is of the greatest importance who works on this court. Although these men are appointed by the President of the United States, the appointment must be confirmed by the Senate. This is a safeguard to insure the highest degree of competency on the court.

Most of us, at one time or another, will disagree with a decision which this court has made. Whenever this is the case, let us remember that all the members of this court have sworn to uphold the Constitution of the United States. As citizens, we have the right to make our disagreements known through writing to the Justices of the Court, the President and the Congress. If enough pressure is brought through these channels the laws may be amended, but to attempt to take matters into one's own hands rather than abide by the decisions of this court undermines the basic principle of democracy and the law and order that holds it together.

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal—that of preserving the greatest democratic society the world has ever known. Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours—ours because we are Americans.
