When someone poses a threat to our lives and property or infringes upon our rights as citizens, our first reaction is to cry out for help. Fortunately, help can usually be found nearby in the form of our local police.

Our policemen must meet an ever-increasing list of mental, moral and physical requirements to qualify for their jobs. In return they receive long hours, heavy responsibilities, nominal incomes and very little gratitude. Yet without them, laws could not be enforced and chaos would rule.

One of the basic principles of American society is to maintain order throughout the land and to respect the laws which we have enacted to protect ourselves.

We can SUPPORT AMERICA by supporting our local law enforcement agencies. In the next few moments, one of us may have to call on them for help!

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal—that of preserving the greatest democratic society the world has ever known. ever known.

ever known.

Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours—ours because we are Americans.

# You can't live on love forever.

Okay, you're young. You've got all the love in the world and you're doing your best to live on it. Retirement? That's for when you're old, right?

It's for when you're old if you can afford it.

The kind of retirement you're after isn't the typical rocking-away-onthe-front-porch variety. You probably picture yourself taking extended vacations, pursuing hobbies, or buying that forty acres and living off the land. Pipe dreams? Not if you prepare now.

There's an easy, painless way to make your retirement dreams a reality. Join the Payroll Savings Plan where you work. That way, an amount you specify will be set aside from each paycheck and used to buy U.S. Savings Bonds. It's an easy way to save.

And now there's a bonus interest rate on all U.S. Savings Bonds-for E Bonds, 51/2% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/2%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 ... with a comparable improvement for all older Bonds.

Now is the time to start saving. Money's a nice thing to have while you're living on love forever.

Take stock in America.
