ATTEND ADMINISTRATORS' CONFERENCE IN AUSTIN

Mr. O. C. Rampley, School Superintendent, and Mr. Bob Wheelchel, Silverton High School Principal, attended the three-day School Administrators Advisory Conference on Education in Austin January 4-6, 1972.

The Texas Education Agency sponsored the twenty-third conference at the Austin Municipal Auditorium.

The primary purpose of the conference was to secure information on the means by which the Texas Education Agency can best serve the schools of the State, and to permit the exchange of ideas and experiences that would assist local administrators in the solution of problems in their districts.

Members of the staff of the Texas Education Agency were available for consultation and assistance. Mr. Rampley appealed to them for a release of the local school from certain building regulations pertaining to blind, deaf, and physically handicapped students. Had the release not been granted, it would have been necessary for the school to make several structural changes in its physical plant.

Mr. Rampley and Mr. Wheelchel attended the following special study groups: "The Quarter System of School Operation," "Public School Finance," "New Certification Standards," "New Directions in the Preparation, Assignment and Duties of School Counselors," and "The Administrator and Public Relations."

AUSTIN, Tex.—A three-judge federal court in San Antonio stunned Texas Public officials with a Christmas Eve decision that the state's system of financing public schools is unconstitutional.

The ruling, which Lt. Gov. Ben Barnes called one of the most far-reaching in recent history, triggered a round of new studies and re-directed attention to prior studies of alternative finance formulas.

To make education "a function of the local property tax base" violates constitutional guarantees of equal protection under the laws, the three judges held. Parents and children of Edgewood Independent School District (Bexar County) filed the suit on July 30, 1968.

Allowing each district to set property taxes to raise a portion of instructional costs discriminates against poor districts with low property values and frequently high minority group populations, the court contended.

Judges gave state legislators two years to work out a new system. If lawmakers fail, they warned, the court "will take such further steps as may be necessary to implement both the purpose and the spirit of this order."

Some observers feared the ruling would undermine local control of school districts. Atty. Gen. Crawford Martin asked the court to clarify whether the decision meant districts could not continue to pay off their bonds from property taxes.

Gov. Preston Smith said it would be premature to speculate on ultimate effect of the ruling on taxes and educational programs. Some predicted state corporate and personal income taxes will be necessary to pick up a new state cost load estimated to range at least as high as \$500 million a biennium.

Smith called for a team effort by state officials and agencies, local school authorities and the courts to reach a satisfactory solution. The Senate Committee on Occupational Education immediately took up the problems.

Texas Research League already is studying the foundation school program, and plans to offer some choices by the end of next year.

Governor said he is considering naming an educational task force which will cooperate with other study groups.

State Education Commissioner Dr. J. W. Edgar viewed the present crisis "as another opportunity for the people to design a better public educational opportunity for the children and youth of Texas." He expressed confidence such a plan can be developed which will preserve local school control.

State Board of Education will review the decision at its next meeting. Meanwhile, Martin asked the court whether the ruling permits an appeal.

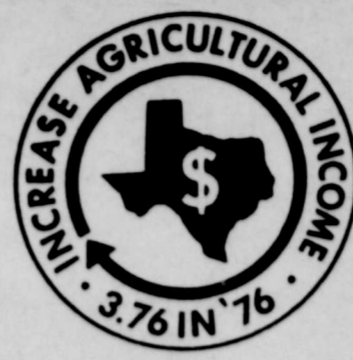

WELFARE PROBLEM GROWING
 Warning that Texas faces its most difficult welfare problems during the next two years, Governor Smith said drastic assistance cuts may be necessary after next September.

At the same time, the Governor announced appointment of former U. S. Secretary of Health, Education and Welfare Wilbur Cohen as a special advisor to help him formulate plans in the areas of welfare and child development.

Smith said he will go before the U. S. Senate finance committee next month to renew a plea for complete federalization of welfare program financing.

Current assistance levels can be maintained within the state's \$80 million constitutional ceiling for major categorical welfare programs the rest of this fiscal year. After next September, however, he said average aid to families with dependent children grants may have to be slashed from \$116.66 a month to \$77.

Smith assigned top priority to attacking the growing welfare problem, which he estimated will cost \$325 million next year. He said findings of a new commission on children and youth will be among cornerstones of his message to the 1972 special legislative session.

The current state-wide program to increase agricultural income in Texas to \$3.76 billion in 1976 is geared to help the agriculture industry—but what does it mean to the consumer?

"Consumers are concerned with an assurance of adequate food supply, and 3.76 in '76 is a program of growth," says Dr. W. E. Black, Extension economist-management specialist at Texas A&M University. He adds that the program is important because the increasing population must be fed on a decreasing amount of land used for agricultural production.

"Guidelines in the program are meant to increase production and improve quality," Dr. Black says of the project which seeks to increase cash receipts to agriculture by one billion dollars at the

REDISTRIBUTE SUIT ADVANCES

A three-judge federal court was due to begin trial Monday (January 3) of suits attacking 1971 legislative redistricting.

The consolidated cases were filed in Dallas, Houston, Tyler and San Antonio and transferred to Austin for hearing.

Judges originally named University of Texas law partner George Schatzki a special master to collect evidence and draw conclusions in the cases. However, the order naming Schatzki was rescinded after Attorney General Martin and State Democratic Chairman Roy Orr complained of the professor's former close professional relationship with attorneys and plaintiffs in the cases.

Houston attorney Leon Jaworski will direct the state's defense as a special attorney.

The increase in production and cash receipts will benefit the consumer as well as the producer. Food prices will undoubtedly reflect an increased efficiency in production and marketing as cost practices in current use are improved or eliminated.

Technology in production and food preparation will be reflected in food prices, although cost of individual items will also be determined by the amount of preparation before purchase by the consumer. This would include special services such as pre-cooked and specialty packaging.

Farmers will gear their production to specific markets that dictated by consumers' preferences. This is turn will provide consumers with higher quality products in greater amounts at stable prices.

"The Reserve" — to some it means a standby military unit or perhaps the Federal Reserve Board.

To us, "reserve" means the supply of electricity we have left after you, industry, business and public authorities have used all the electricity you want. We've never had a blackout in the area we serve by reason of not having enough left. We've always made sure that there would be plenty for your use ... an adequate reserve.

And, that's why we're projecting an investment of \$144 million over the next five years. To be certain there will be an adequate reserve left after you use what you want. To be certain new industry coming into our area will have the electric power it needs to operate and so make jobs — jobs that contribute to economic well being for our customers.

Is this what you expect a Limousin to look like? Not if you're thinking Cadillac. Progressive bovine breeders do, however, consider the new Limousin breed "the Cadillac of Cattle" because of quality and performance including cut-out superiority, exceptional daily gain, and earlier marbling on a comparatively low energy ration. Limousin are not really a new breed, except to the United

States where they were first introduced from France, via Canada, about three years ago. They come from the Limoges area of France where their ancestry dates back before the time of Christ in ancient Aquitaine, one of the three parts of ancient Gaul. The renowned bull Essor, pictured, will be exhibited in January 1972 at the Fort Worth Fat Stock Show.

Several physical education boys are pictured working out on the new weight machine which was installed at Silverton High School during the Christmas holidays. The Hagemeyers were engaged in a variety of works while in Tanzania. Mr. Hagemeyer taught in the two Bible Schools in the north and the south as well as having monthly Bible courses in the Central Plains of Tanzania where they lived. Also there were youth camps, church building, establishment of a church in Dodoma, assisting the local presbyter and committeemen in their work, and building a classroom for more training. Mrs. Hagemeyer prepared Sunday School quarterlies, tracts and Bible School books on the Vari-typewriter. Mr. Hagemeyer will be showing slides of their work in Tanzania as well as some others of the country, animals, etc.

Rev. and Mrs. Hagemeyer are both graduates of Southwestern Assemblies of God College in Waxahachie, Texas. After graduating in 1962 they entered into pastoral ministry for four years in West Columbia and Anton, Texas, before preparing to leave for ministry in Africa. Mr. Hagemeyer has worked with youth in America and reports that also in Tanzania many young men and women have been changed by Christ and are being used in outstanding ways as they work to develop the church in that country.

Visitors will feel a very warm welcome in this missionary presentation.

NEW GUIDELINES SET FOR F.H.A. COMMUNITY FACILITIES PROGRAM

The Farmers Home Administration has announced plans to strengthen its water and waste disposal facilities program for the nation's small rural communities.

Under a new guideline, any community or organization receiving funds from Farmers Home has to agree to offer access to the water and waste disposal facility to any person within the service area of the system. Such persons must be served if it is economically feasible to do so.

As an example of the new guideline, James V. Smith, Administrator, cited a new cluster of houses being built within the service area of a facility financed by FHA. The agreement signed to fund the original system will require extension of service to the new community, if it can be accomplished with a reasonable rate structure. The new guidelines are included in basic loan agreements made

with public bodies and non-profit corporations in rural areas that seek community facility development funds from the U. S. Department of Agriculture agency. They became effective in early January, and will be carried out through the agency's 1,700 local offices, which serve every rural county in the nation.

The Farmers Home Administration has financed more than 5,700 water and sewer systems. Existing systems receiving subsequent funding will abide by the new agreement.

The Farmers Home Administration serves rural areas, including towns up to 5,500 population, with loans and grants to develop water and waste disposal facilities.

A prime source of development funds in rural areas, the agency advanced loans and grants last year to finance the construction of water and sewer systems serving some 1.3 million people.

Loans totaling \$260 million and grants of \$40 million resulted in the construction of more than 1,400 rural water and waste disposal facilities.

Rep. Tom Christian, Claude rancher, visits with Dr. H. Q. Sibley at Animal Health Commission headquarters in Austin to discuss the current animal quarantines in Texas. The state is now under four: VEE, Hog Cholera, Scabies and Newcastle Disease (poultry).

Rep. Christian Appointed To Congressional Commission On VEE

AUSTIN—Dr. H. Q. Sibley, head of the Texas Animal Health Commission, has announced the nomination of Rep. Tom Christian of Claude to a Congressional Commission on Venezuelan Equine Encephalomyelitis (VEE).

Christian is one of fifteen Texas ranchers and veterinarians who have been asked to serve with a U. S. House of Representatives committee which will study the recent epidemic. Members of the House committee are expected to come to Texas sometime after the Congress reconvenes.

Request for such a commission came from the office of Undersecretary of Agriculture Ernest Saulman and is being handled in Texas by Dr. Erston Cox. Dr. Cox is head of the Federal Animal Health Commission in Texas.

In discussing Christian's nomination, Sibley stated, "Rep. Christian has been on this VEE thing from the beginning, and he should be on this Commission."

At the time of the epidemic,

which put the State under quarantine, Christian was responsible for getting additional aircraft for vaccine distribution and for disseminating information concerning the disease to area veterinarians and county agents.

According to Sibley, the Commission will also take a look at other animal diseases that now have the state under four quarantines.

Concerning the nomination, Christian said, "I am pleased that Secretary of Agriculture Earl Butz is showing concern for cooperation between the State and Federal agencies. By working together now, perhaps we can prevent the reoccurrence of the disastrous epidemic we witnessed this past summer. We need to take a look at our potential problems in the field of animal health and try some 'preventative medicine' rather than trying to play 'catch up' once a disease has broken out."

Mr. and Mrs. A. T. Brooks, Roy and Mrs. Carl Minyard and Missy visited with Victor Weaks and Mrs. Weaks at Methodist Hospital in Lubbock Sunday afternoon. Victor is a patient in room 248 after having had the misfortune of getting his right hand mangled in a cotton stripper December 28. He has had two operations on his hand. He lost one joint on one finger and two joints on another. He is to start having skin grafted on his hand one day this week. He would enjoy receiving mail from Silverton friends.

Mr. and Mrs. Buck Wesley recently hosted a dinner for all of their children and their families. Attending were Mr. and Mrs. Richard Weaks and Laquita of Joes, Colorado; Victor Weaks of Tulia; Mr. and Mrs. Eddie Wesley and family, Littlefield; Mr. and Mrs. Willie Wesley and David, Mr. and Mrs. Lonnie Wesley and boys, all of Tulia; Mr. and Mrs. A. T. Brooks, Bill and Roy, Mr. and Mrs. Carl Minyard and Missy, Silverton, and Mrs. Joyce Drewry and Tammy of Huntsville.

Mr. and Mrs. Brian Vining of Lubbock and Norlan Dudley of Las Cruces, New Mexico, visited with Mrs. Norlan Dudley and Donna and Mr. and Mrs. Milton Dudley over the weekend.

New Graham Film Probes America

"Lost Generation," the latest release from World Wide Pictures, will be shown on Saturday, January 29, at the First Baptist Church in Silverton.

Filmed in Eastmancolor, "Lost Generation" utilizes multiple screen images and a probing documentary style to investigate attitudes on dissent, violence, the mood of America, and the answers that can be found by this generation as they face the decisions of life. According to the Rev. Larry Wilson, pastor of the church, the opinions of both young and old, urban and rural, rich and poor, are brought to the screen as the camera focuses on people of various backgrounds throughout the Nation. Location shots were filmed in Alaska, the Southern states, on the farms and in the small towns of mid-America, and in the dying Haight-Ashbury hippie district of San Francisco.

The feature-length film, which includes special appearances by Billy Graham, Art Linkletter, and Jack Webb, was described by one reviewer as a "moving film that calls on us to make a decision about how much we want to get involved in the troubles of our times. It is a relevant story that demands our immediate attention. "Lost Generation" will be shown once at 7:00 p.m., with no admission charge. The public is cordially invited.

Among those who attended the funeral of Mrs. Nellie McCain at Lockney Saturday were Mr. and Mrs. Lowell Callaway, Mr. and Mrs. George Seaney, Mr. and Mrs. Jodie Ziegler, Mr. and Mrs. Paul Ledbetter, Mr. and Mrs. H. H. McPherson, Mrs. Ollie McMinn and Mrs. John Mercer.

SUPERIOR CLEANERS

Of Floydada
AGAIN WILL HAVE A PICK-UP STATION IN SILVERTON AT HUNT'S BARBER SHOP

Sometimes the desire to run out the door and chuck it all is overpowering when we are confronted with the mess of an after-dinner table!

Sometimes, insight lets us see that our lives are quite a mess too. In fact, things seem such a jumble, that our reaction to this truth, if acknowledged, is, "What's the use?"

Well, of course, the only thing to do with the dishes is to take them to the sink, put them in hot water, and wash them with a good cleansing agent until they shine.

Less obvious, perhaps, is what to do with a messed-up life. We invite you to seek an answer in church this week. You are sure to find there the Power who will help you with your problems, a power who cares immeasurably for your soul.

"Casting all your care upon him, for he careth for you." I Peter 5:7

"And the crooked shall be made straight, and the rough places plain." Isaiah 40:4b.

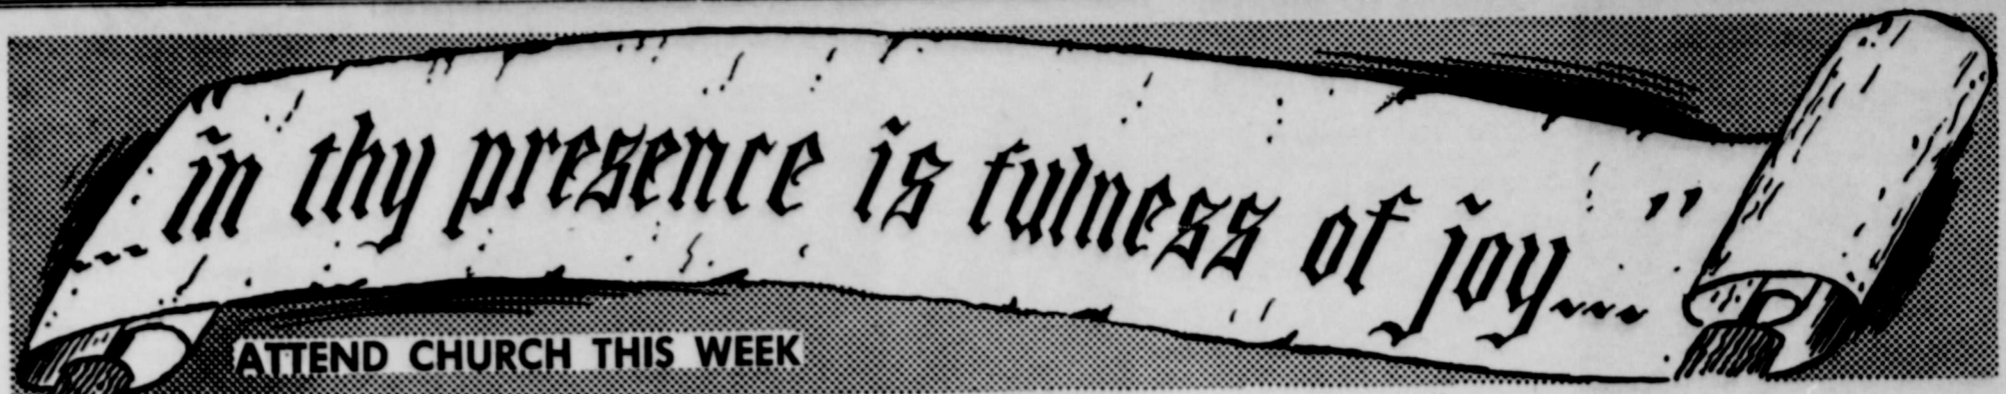

EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

PROTECTION FROM THE ELEMENTS

It has been said in the Lone Star State that there is nothing between Texas and the North Pole but a barbed wire fence. That certainly gives you the idea that in Texas you're not given much protection from the cold North wind.

There are times when you might think there is no protection and comfort afforded from the hardness and cruelty of the world. But there is a buffer between you and the world. This help and protection is the church. As members of the church, you are with good people of like minds who love you, pray with you, comfort you and assist you. They are the ones who "by love serve one another." (Gal. 5:13)

We invite you to attend the church of your choice this week. You will find a warm welcome there.

"And this commandment we have from him, that he who loveth God love his brother also."
 1 John 4:21

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Farmers and Ranchers GROW With Rolling Plains Production Credit Association-- The Go Ahead People

That's another good thing about Production Credit. Rolling Plains PCA has grown. The figures speak for themselves. And you can bet that our Rolling Plains PCA members, who are stockholders and sole owners of their credit source, have grown too.

Look at the growth rate. Loans outstanding and total amount loaned have more than doubled in the past 5 years. Association capital has increased almost 100 percent.

Still another good thing about Rolling Plains PCA is that all this time, we've been reducing the amount of difference between what money costs us and what it costs our stockholders.

You've seen us grow. Now find out how you can grow. Come in and talk to the go ahead people at any one of our offices in:

- Childress Munday Matador Stamford Spur
