ANTI-POLLUTION POSTER CONTEST BEING SPONSORED BY YOUNG HOME MAKERS

An anti - pollution poster contest is being sponsored in the Silvertown Schools by the Silvertown Chapter of Young Homemakers of Texas.

There will be three divisions of competition in the poster contest: one for elementary school students, one for junior high students and a third for high school students. First and second places in each division will receive prizes, with the posters to be judged by persons from out of the county.

Any type of anti-pollution theme can be used on the posters and they can be done in any media. There is no size requirement. All posters must be turned in to High School Principal Bob Wheelchel by February 25.

Dinner guests in the J. D. Nance home Sunday were Mr. and Mrs. Joe Huffman of Lockney and Mr. and Mrs. J. D. Boedeker, Nanda, Rob and Stephen of Plainview.

Voter Registration Continuing Here

Secretary of State Bob Bullock said today that despite some newspaper articles and radio bulletins to the contrary, voter registration did not end on January 31.

Secretary Bullock said, "I am aware of at least two newspaper articles and several radio announcements which stated that January 31 was the last day for voter registration. Apparently there is some confusion about the new voter registration law passed by the last legislature. Under the new law, voters can register any time during the year. However, persons must register at least 30 days prior to an election to be able to vote in that election."

Every person who registers as of April 5, 1972, will be eligible to vote in the May 6 primary; likewise, every person who registers by October 7, 1972, will be permitted to vote in the November 7 General Election.

Bullock stated that his office is mailing a reminder of the new voter registration law to all County Tax Assessor-Collectors who are responsible for issuing voter registration certificates.

Senator Hightower Seeking Re-Election

Now in the mail are formal requests for a place on the ballot for the Democratic primary by Jack Hightower as a candidate for re-election to the State Senate from the 30th Senatorial District.

Sen. Hightower has been an announced candidate for some time, but formal filing with the County Democratic Committees was delayed due to the litigation involving Senatorial district boundaries and the question of filing fees. Some of the legal questions having been resolved it is now known which counties are included in the new 30th Senatorial District.

Sen. Hightower is in his eighth year of service in the Senate. He also served one term in the Texas House of Representatives and was District Attorney of the 46th Judicial District seven years prior to his election to the Senate.

A legislative leader, Senator Hightower is Chairman of the Sen-
ate Administration Committee and has played a vital role in the improvement of the legislative process in Texas. In addition to his membership on the major Senate committees in the last regular session of the legislature he served as President Pro Tempore of the Senate. On April 3, 1971, while serving as Acting Governor, the people of the 30th Senatorial District honored Senator Hightower and his family at "Governor-for-a-Day" events in Austin.

Rep. Purcell Hails Court Decision

U. S. Representative Graham Purcell (D-Tex.) today hailed the decision of the Supreme Court to stay the execution of new Congressional Districts drawn by a lower court in Dallas as "a hopeful sign that the court is going to be more responsive to halting lower court meddling in State Affairs."

Purcell, who is the Representative of the 13th Congressional District, made the following statement today regarding the Court's decision:

"The Supreme Court's decision to maintain the integrity of the new 13th Congressional District is one with which I heartily agree. I like to think that this indicates a tendency of the Supreme Court to slow down the meddling of the Federal Judges in matters that are strictly the responsibilities of the States under the Constitution. As a lawyer, former District Judge, and Congressman these past eighteen years, I have tried to fight this tendency of Federal Judges to expand their powers over the people—whether they were ordering busing of students, turning hardened criminals loose to prey on society, or interfering in the right of the elected Representatives in Texas to set Congressional Districts. I pledge my efforts to continue to try to stop this trend, not only in Congress, but in any forum available to me," Purcell said.

"As I announced earlier, I am filing for re-election in the 13th Congressional District in Northwest Texas. I ask the support of all who agree with me that the

ter's units and attend classes at
 sea between ports on the ship-
 board campus which is equipped
 with the classrooms, laboratories,
 library, studio, theater, bookstore
 and offices necessary to the edu-
 cational program offered. Campus
 for the program is the 18,000-
 gross, ton S. S. Universe Campus,
 owned by Seawise Foundation,
 Inc. of Liberia and operated by
 Orient Overseas Lines with head
 offices in San Francisco.

In addition to the teaching fa-
 culty and administrative person-
 nel, the World Campus Afloat
 staff includes a recreation direc-
 tor, counselors, a psychologist and
 chaplains. Also, when possible,
 inter-port lecturers travel aboard
 ship as resource personnel. As an
 example, for several semesters,
 the clerk of the Ceylonese parlia-
 ment, his wife, who is head of the
 Girl Guides in Ceylon, and their
 college-age sons have joined the
 seagoing campus to prepare the
 students for their later experien-
 ces on arrival in Colombo. In other
 instances, educational, civic and
 cultural leaders from ports to be
 visited spend time aboard ship for
 the same purpose.

Classes meet regularly while the
 ship is at sea and extend into
 field research projects in the ports
 of call. Certain activities in each
 port have been pre-arranged by
 the College to satisfy course re-
 quirements. Visits to local univer-
 sities, galleries, museums, mark-
 ets, housing developments, social
 institutions, government offices
 and business and industrial devel-
 opments are typical of these.

Other activities are optional
 and are designed to enhance the
 students' appreciation for the cul-
 tural mode of the city, country or
 region visited. Students also may
 enjoy home stays as guests of lo-
 cal families and may arrange to
 travel overland to points of inter-
 est or to rejoin the ship at the
 following port.

 Campus Afloat has completed 13
 consecutive semesters of its uni-

a little BIG NOW

We all get a thrill out of seeing our children put on our hats or shoes. Obviously they don't fit now, but some day he, or she will grow to fit them. At the same time imagine that they are trying on our lives. Would they fit? ... or do you live the type of life that you would want them to grow to. Live a life of worship of the Lord.

"Thou wilt shew me the path of life: in thy presence is fulness of joy; at thy right hand there are pleasures for evermore."

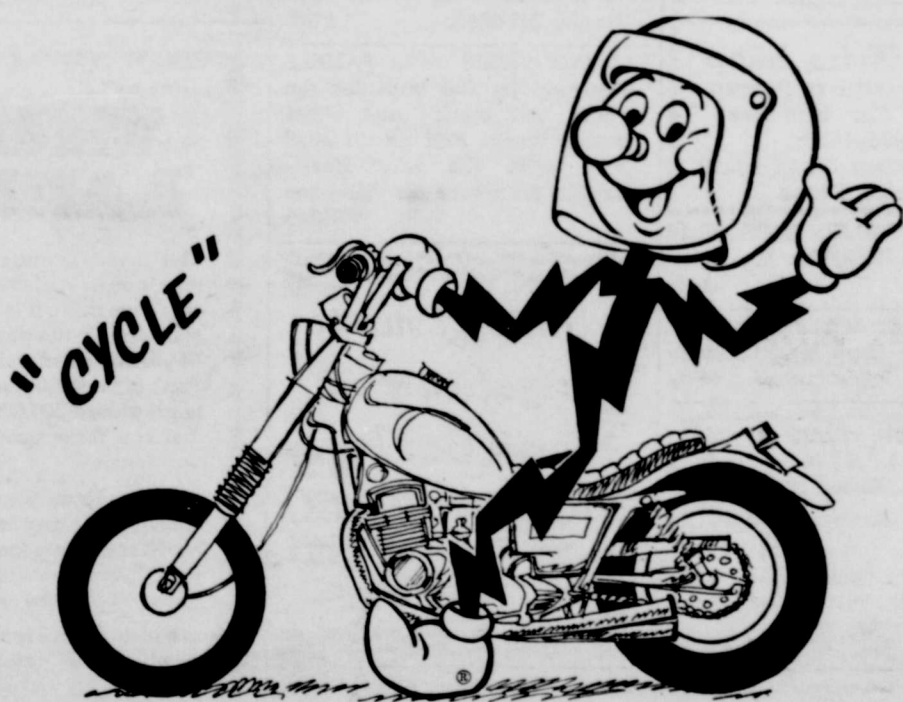

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

"Cycle" to most people has something to do with a motor or a bike.

To us, "cycle" has to do with the efficient production of electric power, with efficiency and with conservation of resources.

It's about a unit we'll install in 1973. It's called a Combined Cycle Unit. It utilizes a gas turbine to help create electricity and in so doing, it produces heat. We then use this heat to make steam to run a steam turbine which, in turn, produces electricity. Using these units in combination, we generate more power but with less fuel and water than if each were to be run separately.

So, we do the "cycling" and you'll have the power you'll need at the lowest possible cost. Sounds simple, doesn't it? But, it took lots of planning and lots of engineering know-how to come up with this means of conserving resources and yet producing adequate electricity.

Purcell Asks Farm Loan Price Increase

U. S. Representative Graham Purcell (D-Tex) today called for action by the Senate Agriculture Committee on a bill to increase commodity loans by 25% on wheat and feed grains. The bill had originally cleared the Livestock and Grains Subcommittee, headed by Purcell, and passed the House of Representatives by a close vote immediately prior to the Christmas recess.

Following Secretary of Agriculture Earl Butz as a witness before the Committee, Purcell submitted a statement denouncing the plight of the grain farmer at the hands of the Nixon Administration.

In speaking of House passage of the bill, he said, "I had the bill taken up before (my) Subcommittee for two simple reasons—low farm income and a rapidly increasing lack of faith by the American farmer that he is anything other than a second class citizen in the eyes of the Federal Government."

Under the stewardship of this administration, and its set-aside program, farm income has dropped to the lowest point since the depression.

"Perhaps all the failures do belong to the Administration," Purcell continued. "The blight, for example, was more the function of a higher authority than of Secretary Hardin. However, the attitude of this Administration, which sees farmers as being more than another group to be appeased by a circus on White House lawn, is not."

The Northwest Texas Congressman called for immediate enactment of the legislation and urged his efforts of cooperating to insure quick Senate passage of the bill.

Mr. and Mrs. Rex Long of Lean spent Monday with Mrs. C. F. Tate.
