#### RESERVE JUNIOR CHAMPION USES PAMPERS!

is a hot one for manufacturers who are always looking for new uses for their products: Reserve Junior Champion of the Swine Show, Southwestern Exposition and Fat Stock Show, Worth, uses PAMPERS! Monroe Gates, advisor for the Silverton F.F.A. Chapter, tells me this group forget to take some towels with them to use in down their barrows for the show. So he asked one of the boys to go to a nearby grocery store to purchase some towels.

When he came and handed Mr. Gates a box of Pampers (disposable or throw-away, diapers). I imagine the look that must have crossed Mr. Gates' face and I'm sure it was not a pleasant one. In a question mark. "Pampers will keep them dry," his stu-

dent assured him. So the Silverton F.F.A. pigs were iced down with Pampers instead of towels. "What did they work? Well, good, but they got a little soggy in the swine barn did not get a double take when they saw the box of Pampers in the swine pen. The ag boys took this, of course, and made the whole scene a bit more amusing by setting the can of baby Pampers (they had been using on white barrows) on top of the can of Pampers. How they baby pigs!

The boys will have the last word if they go back to the Fort Worth Show next year and there's a good chance of Pampers in every pen!

### Lake Theo Re-Stocked With Big Fish

Lake Theo, nestled in the picturesque Caprock country approximately four miles north of Quitova, was restocked with about 1,500 pounds of two- to eight-pound channel catfish, about 250 pounds of which were the unusual albino catfish which some believe are the best for eating; 250 pounds of one-pound size crappie and some five- to six-pound channel catfish, bass, crappie and sunfish. Some of the fish were tagged, and prizes will be awarded the fishermen catching them.

The fish were delivered by Finley from Lone Oak, Arkansas, to 138-acre Lake Theo, which is brimming full to 65-foot depth. The lake is under new management with Charles (Mule) Grantham in charge. He and W. H. Leary are now selling permits for fishing by the day or yearly family fishing permits, and are also selling live fish. After March 18, the office at Lake Theo will be open 24 hours a day. Until then, Charles Grantham can be contacted at his home in Silverton at night by calling 806-823-4911.

Since live fish may be purchased at Lake Theo, there is no need for any fisherman to go home empty-handed. "If he comes to Lake Theo with any money at all," Grantham laughs, "there is no need for him to go home without any fish. With the lake restocked with big fish, the fishing should be excellent, but if he fishes all day and doesn't catch enough, he can buy some to cook at his campfire or to take home with him. There's no reason why any fisherman should be embarrassed to go home from a day of fishing at Lake Theo! Come out and try your luck; you might catch one of the tagged fish and win a prize!"

H. Brooks and Charles (Mule) Grantham show some of large channel catfish which were tagged and released at Lake Theo Monday morning. The lucky fishermen catching the beauties will win prizes.

**Mayfield-Kirkland Vows Exchanged Here Saturday Afternoon**

Wedding vows were exchanged by Miss Gail Anne Mayfield and Terry Denton Kirkland of Monahans at 2:00 p.m. Saturday, February 5, in the ranch home of the bride's parents, Mr. and Mrs. G. Mayfield, northwest of Silverton. Parents of the bridegroom are Mr. and Mrs. R. W. Kirkland, 703 Main Street, Monahans. Rev. C. H. Murphy, jr., pastor of First Baptist Church in Memphis, officiated the double ring ceremony at an improvised altar in front of a fireplace which was flanked by a pair of twin candles.

abrum. On the mantle was an arrangement of pink mums interspersed with white baby's breath. A white wrought-iron candle holder held the memory candle.

The bride entered through an archway decorated with camedien foliage centered with white wedding bells to be given in marriage by her father. She wore a formal white Victorian gown of chiffon over bridal taffeta. Her Victorian collar was of bridal satin accented with lace. Her long full sheer sleeves were finished with wide satin lace-trimmed cuffs. Her full skirt was designed with a lace-trimmed tier and her waistline was accented by a lace-trimmed satin cummerbund. Her double-tiered veil of illusion edged with French lace was attached to a lace crown and fell to elbow length.

To carry out bridal tradition, she wore her maternal great-grandmother's wedding band on a chain around her neck for something old and borrowed. She placed a penny in her shoe bearing the year of birth of her bridegroom and herself, and added a blue garter.

She carried a cascade bouquet of pink sweetheart roses, baby's breath and lace leaves surrounding pink cymbidium orchids from which fell a shower of streamers tied in love knots.

Miss Gayla Tate served as maid of honor. She wore a gown of pink peau de soie fashioned with empire bodice and lantern sleeves of Chantilly lace. Her long sleeves and waist were accented with medalion trims. She wore a headpiece of pink sweetpea streamers of organza, and carried a single long-stemmed pink rose.

Candles were lighted by Dayne and Zane Mayfield, cousins of the bride. Best man was Ronnie Law of Monahans.

Mrs. Charles Mayfield played traditional wedding selections and accompanied Mrs. C. H. Murphy, jr., who sang "The Twelfth of Never" and "Whither Thou Goest."

The mother of the bride chose a long-sleeved beige polyester dress with black accessories and added a corsage of pink rosebuds for her daughter's wedding. The bridegroom's mother was attired in a blue suit with black accessories and also added a corsage of pink rosebuds.

A reception was held in the home immediately following the ceremony. The bride's table was covered with a pink net cloth appliqued with pink and white felt flowers over pink silk, the edge

**INSTALL GAS AIR CONDITIONING NOW?**

Install GAS air conditioning now and beat the rush that always comes with the first hot days. While everyone else is waiting on installation, central GAS air conditioning will be quietly and efficiently cooling your whole house. And another benefit of installing now is you have the time to consider the advantages that GAS air conditioning has over the other kinds.

A GAS air conditioning system is ruggedly built and operates on a simple principle. Heat from the steady blue flame circulates a refrigerant through the system to cool the air. There are fewer major moving parts and no compressor to break down or wear out. It's this simplicity that gives GAS air conditioning its low operating costs, its long life with no loss of cooling capacity, and its easy maintenance with few repair bills. GAS air conditioning also filters the air to reduce dust and pollen.

You should be so foxy. If you have a forced air heating system, you may be able to use the same ductwork for GAS air conditioning. So, be foxy. Call Pioneer Natural Gas Company for a free air conditioning survey of your home or business.

To All Silverton Merchants:

Thank you so much for making the Briscoe County Stock Show and prizes for it possible. Thanks to the men who hauled our pigs to the out-of-town stock shows and for helping dip them.

Thanks for everything!

Karen Martin

I would like to say thank-you to John Burson, Don Cornett and J. E. Patton, and the other individuals who have helped me with my barrows at the Silverton, Amarillo and Fort Worth stock shows.

Derrel Martin

I would like to express my appreciation and thanks to all my friends for their cards, visits, calls and gifts during my recent illness and stay in the hospital. May God bless each of you always.
