Ambulance Group Elects New Officers

Silverton Volunteer Ambulance Service held its annual meeting and election of directors at the City Hall Monday, October 30.

Directors whose terms were expiring were Troy Jones, Jack Robertson, Jerry Patton and Charles Sarchet.

Elected to fill these vacancies on the board of directors were Lee Clay, Jerry Miller, Jerry Patton and Charles Sarchet.

Holdover directors are Bud Couch, David Tipton, Wayne Nance, Don Cornett, Mrs. Becky Woods, Walter Bean and Larry Wilson.

New officers elected by the board of directors are Charles Sarchet, president; Larry Wilson, vice-president; David Tipton, secretary-treasurer.

Services Pending For Mrs. D. G. Shelton

Funeral arrangements are pending at Silverton Funeral Home for Mrs. Eula Shelton, who died early Wednesday, in St. Anthony's Hospital in Amarillo after a lengthy illness.

The former Eula Frances Turner, she married Daniel Geron Shelton at Quitaque June 28, 1928. Mr. Shelton preceded her in death March 9, 1969.

Mr. and Mrs. Shelton were parents of nine children. The family moved to the Rock Creek community west of Silverton January 1, 1933 and reared their family there.

Survivors include six sons, Calvin, of the home, Haskell, Dan and Paul of Amarillo, Edd of Tullia and Joe of Seagraves; three daughters, Mrs. Inette Johnson and Mrs. Virginia Thornton, both of Tullia, and Mrs. Martha McJimsey of Fairbanks, Alaska.

Measureable Rain Recorded Here

The Silverton vicinity received .60 of an inch of moisture Tuesday as freezing temperatures glazed trees, shrubs, highline wires, fences, etc. with a heavy coating of ice. The heavy snowstorm predicted for Wednesday failed to materialize, but a new cold front is being predicted for Friday.

Electricity was off in most of the rural area surrounding Silverton Tuesday. Power was off about an hour in Silverton Wednesday morning. School was dismissed in Nazareth, Tullia, Claude and Groom Tuesday due to power failures.

Several Panhandle cities reported fires in the freezing weather, and Silverton firemen were also called out Tuesday about noon to extinguish a blaze in a farm home owned by George Long. Damage was mostly to the ceiling and attic of the home occupied by Mike Long.

Owls Win Second District Game

Silverton's Owls evened their District 2-A record at 2-2 by handing the McLean Tigers a 14-12 defeat here Friday night. The Owls are now 3-4 for the season.

Owls Craig Culwell, David McCoy and Mark Hutsell received honorable mention as the Amarillo Daily News Class A Player of the Week.

According to Coach Eugene Jennings, Culwell rushed for 162 yards on 17 tries and scored twice. He was in on 18 tackles from his linebacker spot. McCoy rushed for 50 yards and was in on 14 tackles. Hutsell and defensive end John Minyard were credited with an outstanding defensive game.

The Owls scored on their second possession of the game with 4:49 remaining on the clock in the first quarter on an 80-yard run by Craig Culwell, who galloped into the end zone and immediately tried for the conversion. His kick failed, and the Owls held an early 6-0 lead.

McLean opened a drive following the after-touchdown kickoff that carried to the Owl-3 before the tough defensive unit refused to yield any more ground. McLean's next drive was killed when Mikel Grady recovered a Tiger fumble on the McLean-41.

Mr. and Mrs. Mendon Ray and family of 14831 Envoy Street, San Fernando, California have been recent visitors with the Hurl McCoy family as they were enroute to and from Joplin, Missouri. They attended the Silverton Owl vs. Wellington Skyrocket football game to see their nephew, David McCoy, play. The Owls did such outstanding work in the game that the Ray family returned here for the game between the Owls and the McLean Tigers. They left for home Saturday, wishing the Owls the best of luck in their games ahead.

In the second quarter, Terry Culwell killed a Tiger drive by intercepting a McLean pass near midfield. The Owls made first downs on the McLean 37, 25 and 17, before getting an aerial stolen on the Tiger-17.

McLean took the kickoff which opened the third period back to their own 36, and mounted a spirited attack that resulted in a touchdown from the one-yard line by QB Skeet Lowery with 5:18 remaining in the quarter. George Danner's kick was no good, and the score was knotted at 6-6.

With 9:28 remaining in the fourth frame, David McCoy carried an Owl score from the four-yard line and Scott Hutsell ran a quarterback keeper for the two extra points which proved to be the winning margin.

McLean came back, mixing runs and passes, to score from the nine-yard line on a pass from Lowery to Danner. Danner attempted the two-point conversion run and failed, and the score was 14-12 with 6:05 remaining in the game.

McLean later came back with a drive that was curtailed by a pass interception by Craig Culwell at the Silverton-39 with 1:05 remaining to be played.

McLean led the Owls 14-10 in first downs, but the Owls led the Tigers 225 to 181 in total offensive yardage. Silverton got 209 yards rushing and 16 passing, while McLean accumulated 119 yards rushing and 62 yards passing.

The Owls ran 50 offensive plays and McLean ran 67 plays. The Owls were penalized 50 yards and the Tigers had 85 yards measured off against them.

TRAVEL TO TURKEY
The Owls travel to Turkey to take on the Valley High Patriots at 7:30 p.m. Friday on Vardy Field. This will be the last out-of-town game of the season for the Owls.

The hometown boys need and appreciate your support and attendance at all of their games.

JUNIOR HIGH
The Junior High Owls suffered a 20-16 defeat by McLean last Thursday, and will be hosting the Valley Junior High Patriots at 6:00 p.m. today.

LAST WEEK
In the fumble recoveries listed in last week's edition of the Briscoe County News, one was omitted. Derrel Martin, a senior Owl lineman, also recovered a fumble at Wellington.

W. M. U. Plans Special Service

The W.M.U. of the First Baptist Church and South Plains will have a Study Party and World Day of Prayer on Monday morning, November 6, starting at 11:00 o'clock.

All interested ladies are invited to attend. A special invitation is extended to the ladies of the Negro Mission and Spanish Mission. Please bring a salad.

Special Activities Planned by Church

Special activities are planned at the Rock Creek Church of Christ Sunday, November 5, to celebrate the completion of the church remodeling-building program.

H. L. Gipson of Amarillo will be speaker at the morning service. This will be followed by a luncheon in the new fellowship hall. The regular first Sunday singing will be held in the afternoon.

According to Earl Cantwell, everyone is cordially invited to attend these services and to enjoy the fellowship throughout the day.

County-Wide H. D. Meeting Held

A county-wide home demonstration club meeting was held in the Alvie Francis home at 2:00 p.m. on October 24. Town & Country and High Plains clubs were guests of Southwestern Home Demonstration Club.

Mrs. Wilma Coulston, home economist for Lighthouse Electric, brought many inexpensive holiday items she had made. She gave out leaflets containing instructions for making the items and explained how each was constructed. "The secret," she explained, "is to begin early in preparation for the holidays."

Genie Curry was in charge of business at the conclusion of the program. The Holiday Luncheon in the school cafeteria on November 3 was discussed. Tickets are available from all club members for \$1.75 for adults and 75c for children under 12.

Refreshments were served to Dorothy Baker, Dorothy Crosslin, Georgia Vaughn, Mae Bomar, Lois Walker, Vivian Hughes, and Georgia Allard, guests. Members present were Lanita Cantwell, Genie Curry, Marie Garrison, Theta Holt, Syble Teeple, Mary Jane Patton, Betty Welchel, Pat Lavy, Frances Kellum and the hostess, Glenda Francis. The next meeting is on November 16 with Marie Garrison.

Wendel Thomas Attends School

Thomas of Silverton was among 12 Texas Highway Department employees from four state-wide districts completing six weeks of heavy equipment training at Texas A&M University.

The special school, conducted by TAMU's Engineering Extension Service, prepares THD employees for new opportunities in heavy equipment work and trains the men to teach similar skills within their district.

Al Jones, chief instructor for the Heavy Equipment Operators Training School, noted each of the highway department men were hand selected for the program. Included were five weeks of equipment operation and maintenance and one week in a teacher education course.

TAMU began the training sessions for the THD in 1967. There are two six-week on-campus sessions each year and extension maintenance courses held across the state.

American voters will go to the polls Tuesday, November 7, to make decisions in races from the courthouse level to the White House.

The five Briscoe County voting places will be: Precinct 1—City Hall in Silverton; Precinct 2—City Hall in Quitaque; Precinct 3—Pioneer Room, First State Bank, Silverton; Precinct 4—P. C. A. community room, Silverton; Precinct 5—San Jacinto Community Building.

Deadline for absentee voting is Friday, November 3.

Parties which have candidates listed on the ballot in Texas are the Democratic, Republican, Socialist Workers and Raza Unida. American Party candidates did not get enough names on their petitions in time to be listed on the ballots in Texas, and will have to be voted by write-in.

Also on the ballot are fourteen amendments that have been proposed to the state constitution.

The Constitutional Amendments Study Task Force and the State Affairs Committee have made the following recommendations in regard to the proposed Texas Constitutional Amendments.

Amendment No. 1: "To provide annual salaries of \$8,400 for members of the Senate and House of Representatives."—FOR

Arguments for are that this is no longer a part-time job, that many qualified persons will not run because of financial sacrifice, and that salary encourages other employment which could create a conflict of interest.

Amendment No. 2: Abolition of Lamar County Hospital District—FOR

This is purely local in nature. The Lamar County Hospital District operated the County Hospital. Use and operation of the County Hospital has been discontinued and Lamar County Commissioners request authorization for the transfer or disposition of assets of the District.

Amendment No. 3: "Require the Commissioners Court in all counties of the state to compensate all justices of the peace on a salary basis."—FOR

This would do away with the fee basis and is supported by several state agencies and law enforcement bodies in belief that it will help abolish speed-traps. Would also provide uniformity in compensation of justices of peace and could reduce the number of cases appealed.

Amendment No. 4: "Providing for a constitutional revision commission which precedes the convening of the members of the 63rd Legislature as a constitutional convention in January 1974 for the purpose of submitting to the voters a new constitution or revisions of the existing constitution."—AGAINST

Main objection is that constitution would be sole responsibility of legislature and that committee appointed would have only a few months to do a tremendous job which would need ample time and study. Legislature is only one branch of government and any revision study committee should consist of finest talent available. Also timing could not be worse with present lack of confidence in legislature and practically 50% turnover. If constitution is to be revised, there should be plenty of time and thought given to drawing up a planned program and not through a jumped-up amendment.

Amendment No. 5: Certain property tax exemption for disabled veterans, their survivors and survivors of members of the Armed Forces who lose their life while on active duty.—AGAINST

Constitution provides for equal and uniform taxation. Any deviation would set a bad precedent and pave the way for other exemptions endangering a major source of income for school districts and local governments. Compensation of disabled veterans is a federal responsibility and generous benefits are already provided.

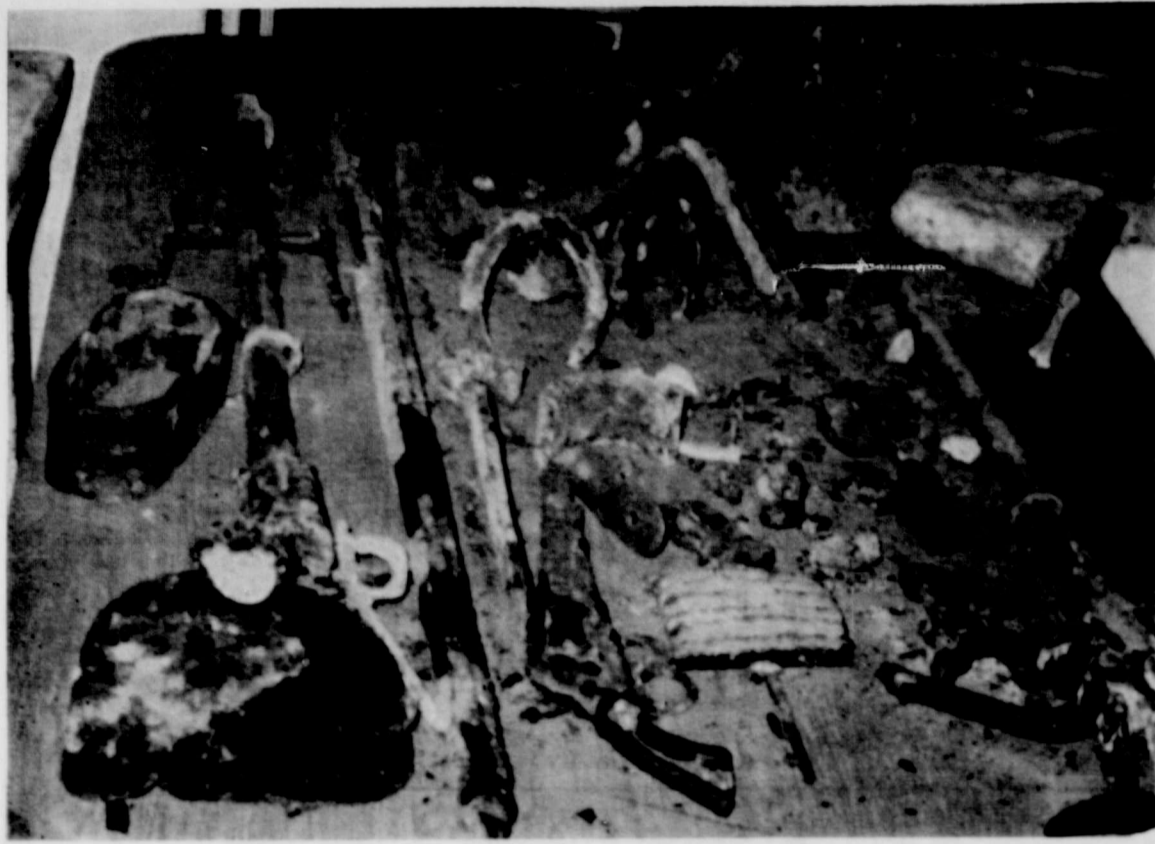

Amendment No. 6: "Various political subdivisions of the state may exempt not less than three thousand dollars (\$3,000) of the value of residence homestead of all persons sixty-five (65) years of age or over."

cheros, who were mostly renegade Mexicans from New Mexico who traded in stolen cattle and horses with the Comanche Indians, were active in the local area from the 1780's until the 1870's. It was thought by historians, however, that the Comancheros traveled back and forth from New Mexico after each trade and that women and children were never present in this area. Mr. Brown felt differently about that and determined to try to prove that point. From the findings that have been unearthed on the Merrell place Mr. Brown just may be correct in his findings.

There are several depressions in the area of the Merrell home that are believed to have been dugouts that once belonged to the Comancheros. Only one has been explored to date and that one yielded the artifacts pictured above. Some of the findings include two rifle barrels, one rifle complete with firing mechanism, a revolver, caps for cap and ball guns, some lead bullets, and two butt pieces for rifles, one brass and the other iron. Also found was an "eye hoe," parts of an ox cart used to transport goods to be traded to the Indians; there was a coffee pot and part of a dutch oven in the lot; bridle bits, hand-forged nuts and washer, a metal arrow point, tin cans, a hide scraper, bits of wood and bits of a white china vessel which Cheryl Merrell, daughter of Mr. and Mrs. Truman Merrell, is piecing together and which she believes was a pitcher. There were many more items found, some of which were recognizable, others which will take further study to determine their identity.

Truman Merrell aided in the digging with a tractor and scraper. A wooden frame was built over which was placed a screen and the dirt from the digging was sifted through the screen.

Near the site of the dugout explored is a depression believed to have been an irrigation ditch which the Comancheros used to irrigate crops. Mrs. Eddleman said that her father, David A. Merrell, used the ditch to irrigate a field.

It is planned that the other sites believed to be dugouts will be explored later.

LET'S FINISH THE JOB!

Last spring Texas voted to clean out those implicated in the Sharpstown scandal.

But there's one still around, State Treasurer Jesse James.

The State Auditor's report shows that Jesse James, the State Treasurer, parked more than \$10 million in the Sharpstown Bank. James left \$4 million idle in a Sharpstown checking account for over two years, earning absolutely no interest.

The taxpayers of Texas, through state deposits placed by Jesse James, bankrolled the wheeling and dealing of Frank Sharp.

State Rep. Maurice Angly of Austin was one of the original small group of legislators who stood firm last year and spoke out for a full investigation of the Sharpstown case.

Rep. Angly needs your help to finish the job. He's running a hard race to clean up the State Treasury.

Angly's campaign pledges are simple: "I will never play favorites. I will put excess state funds to work earning maximum interest consistent with sound business practices. I will run the treasurer's office honestly and efficiently as a public trust for the taxpayers of Texas."

Let's finish the job. Vote for REP. MAURICE ANGLY

For State Treasurer on November 7.

And if you want to help now, please send your contribution to Angly for Treasurer Comm., P.O. Box 9114, Austin, Texas 78766.

Compare Guarantees To Marry Soon And Repair Service

Help your home equipment give good service by being smart about guarantees and repair service, says Mrs. Dorothy Powell, County Extension Agent. Compare guarantees just as you compare products. Look for these points.

*What is guaranteed? Is it the entire product or only certain parts? Is labor included?

*How long does the guarantee last? Sometimes the entire product is guaranteed for a certain period, with specific parts guaranteed for an additional length of time.

*Who is responsible for repairing the product? Is it the manufacturer, the dealer, or a service center? Does the product have to be delivered or shipped elsewhere to get service?

For repair, go to a factory authorized repair service. They should be familiar with, and have replacement parts for, your particular piece of equipment. Keep in mind there are many brands of equipment on the market. Most repairmen know only one or two brands well.

More information on guarantees and repair service is available from the County Extension Office. Contact Mrs. Dorothy Powell for a free series of 10 leaflets, "Be a Smart Shopper." Phone 823-4271 or write Box 887, Silverton.

GENERAL ELECTION —
CONTINUED FROM PAGE ONE
older from ad valorem taxes under certain conditions." — **AGAINST**

This amendment would extend further the homestead exemption by allowing a city, county, town, school district or other political subdivision of the state to exempt not less than \$3,000 of the value of residence homesteads of persons at least 65 years of age from all ad valorem taxes levied by the political subdivision.

This would reduce tax revenues of political subdivisions, is contrary to basic concept that property taxes shall be equal and uniform, and would benefit many in age group who are not needy. Other existing programs provide assistance for those over 65 and any further extension should be only

for the needy.
Amendment No. 7: "That equality under the law shall not be denied or abridged because of sex, race, color, creed, or national origin." — **AGAINST**

This proposed amendment is redundant as discrimination is already covered by the 14th Amendment to the United States Constitution and The Civil Rights Act.

Amendment No. 8: "Provide a four-year term of office for the governor, lieutenant governor, attorney general, comptroller of public accounts, treasurer, commissioner of the general land office, secretary of state, and certain statutory state officers." — **AGAINST**

Gives state officials more power and makes them less responsive to public opinion. Long terms in office breed political corruption. Proposed amendment includes no restrictions on election to conse-

cutive terms. Four years too long to retain a poor public official.
Amendment No. 9: To exempt directors of soil and water conservation districts from prohibition against dual office - holding and dual compensation. — **No Recommendation**

Amendment No. 10: "Revising provisions on the time and method of proposing amendments to the state constitution and the time and method of publishing notice of proposed amendments." — **AGAINST**

Amendment No. 11: "Provide a salary of \$22,500 for the lieutenant governor and the speaker of the house of representatives." — **FOR**

The responsibility and ability demanded of these two officers places these positions on a level with other full-time state officials. Although these offices originally were not intended to be full-time, they have by fact become full-time jobs; therefore, these positions should receive salaries commensurate with their duties and responsibilities.

Amendment No. 12: Exemption of state employees from ban of dual office holding. — **AGAINST**

If a state employee is doing his job properly, should not have time for another job and it creates a potential conflict of interest. Legislature should be allowed to retain power to prohibit or restrict the holding of more than one non-elective state or federal office.

Amendment No. 13: Increasing to six percent per annum all specified maximum interest rates on bonds issued pursuant to constitutional authority. — **FOR**

Adoption of this amendment would allow future state bond issues to compete for sale on the open market with bonds issued by other governmental entities, thus forestalling lack of funds for state programs financed by state bond sales.

Amendment No. 14: Permit the commissioners court of a county to reduce the county permanent school fund and to provide for the per scholastic distribution. — **AGAINST**

Reduction of the county permanent school fund corpus could cause an increased demand for additional financial aid from the state thus increasing the need for more state taxes.

It is conceivable that this money would be directly involved in the results of the Rodriguez case and thus should not be disturbed until the future of school financing in Texas is more clearly defined.

THREE BRISCOE ACCIDENTS INVESTIGATED LAST MONTH

The Texas Highway Patrol investigated three accidents on rural highways in Briscoe County during the month of September, according to Sergeant Rex Smith, Highway Patrol supervisor of this area.

These crashes resulted in no one killed and no one injured.

Emergency Loan Benefits Reviewed

Texas farmers and ranchers who have suffered crop, livestock or property losses from a natural disaster since June 30, 1971, may be eligible for benefits from Public Law 92-385, J. Lynn Futch, State Director of Farmers Home Administration - Texas, announced today.

Provisions of this law, signed by President Nixon on August 16, 1972, are now fully operative, Futch said.

Benefits are divided into two time frames:

1. Farmers and ranchers who received loans from Farmers Home Administration as the result of losses due to a natural disaster that occurred between June 30 and December 31, 1971, may be eligible for a cancellation of up to \$5,000 of the principal of the loan. Interest on the remaining loan would be three per cent.

2. Those who received loans as the result of losses from natural disaster that occurred after December 31, 1971, are also eligible for a cancellation of up to \$5,000. Interest on the outstanding balance would be charged at one per cent.

Futch emphasized that it is not necessary for those who are entitled to benefits to contact the local FHA office. These are blanket provisions applicable to all who have received loans, and each will be contacted and told of the action he should take.

Futch also advises that any farmer or rancher who receives an Emergency loan from Farmers Home Administration between now and June 30, 1973, may have up to the first \$5,000 of the loan cancelled, with the balance at a one per cent interest rate. The amount of cancellation is limited to the loss or damage not compensated by insurance or otherwise.

Why we need to keep John Tower in the United States Senate

Bi-partisan representation in the U.S. Senate has proved best for Texas.

Our state is better served by having a Senator from each major party. This assures us bi-partisan support for bills important to Texas.

During his first eight years in the Senate, John Tower worked well with two Democratic Administrations. Yet, he has been especially effective since the Nixon Administration took office in early 1969. He has access to the White House, enjoys a close personal

relationship with the President and effectively deals with the top administrators of every agency in the federal government.

Since it appears virtually certain Richard Nixon will be re-elected, it's essential that we keep John Tower in the United States Senate. His influence is vital to Texas.

We urge you to join us in supporting Senator John Tower.

Spotting A Gyp

"Make big profits addressing envelopes at home" . . . "Participate in a home telephone survey and see the profits pour in" . . .

These and other claims tempt those who feel the squeeze of fixed incomes, inflated prices and unemployment —promising much but delivering little, according to Mrs. Doris Myers, home management specialist at Texas A&M University.

"The guaranteed market promised in work-at-home advertisements never materialize, and the victims end up losing money rather than making it," the Texas Agricultural Extension Service specialist explained.

A homemaker's investment of \$5 to \$10 or more in response to these ads will supply her with a list of companies that might (but usually won't) use her service.

Work-at-home schemes never offer regularly salaried employment, she pointed out. Instead they offer huge profits and big part-time earnings.

"Gyp ads claim that no experience is necessary and offer materials, kits and manuals that require money before they reveal the plan's operation. They promise to buy back goods produced in the home and exaggerate the demand for the product or service."

The ads also entice victims by using testimonials from other people but never identifying them to prevent checking. Sometimes ads offer valuable coupons for research work.

"Work-at-home schemes all have something in common," Mrs. Myers said. "They require you to buy something before you begin work. And the 'guaranteed market' promised in the ad never materializes."

Mercer Is Chairman Of Special Committee

Joe B. Mercer of Silverton has been named chairman of the Briscoe County committee of Texas Farm and Ranch Families for the President.

Norman Moser, Dekalb, co-chairman of the state committee, in naming Mr. Mercer said he will direct the campaign functions in Briscoe County for the re-election of President Nixon, November 7.

Mr. Moser emphasized the importance of Briscoe County's agriculture and agri-business to the economy of the state and nation by selecting Mr. Mercer to serve the Texas Farm and Ranch Families for President Nixon.

Pioneer Gas Under New Management

The managements of Pioneer Natural Gas Co. of Amarillo and Houston Natural Gas Corporation of Houston have agreed in principle on a merger of the two companies. Robert R. Herring, president of Houston Natural Gas, reports that no personnel changes in the Pioneer organization are contemplated and that Pioneer, after the proposed merger, would continue as a separate entity in its service area.

John Burson returned home Saturday after undergoing knee surgery in an Amarillo hospital the previous Wednesday.

Tom Christian State Representative

TOM CHRISTIAN
"stop wasteful spending"

As the parents of four children, Tom and Anne recognize the responsibility of providing a wholesome atmosphere around the home and neighborhood. Food, clothing, medical bills . . . all must be paid out of take-home pay. Waste in government spending creates an unnecessary tax burden on every family.

TOM CHRISTIAN
"more jobs, better wages"

With the knowledge that comes from first-hand experience, Tom knows that new industries are needed to create more jobs. His ability to work with all levels of government to create job opportunities for the Panhandle is proven by his efforts in helping to establish the Texas State Technical Institute.

TOM CHRISTIAN
"water is vital to us"

Tom, a Navy veteran, is a man who has earned a living by farming and ranching. He knows the need for water. Conservation and increased supply are two key factors in the program that must be developed to meet future water needs. Tom has earned a reputation in the Texas Legislature as an effective leader in the agriculture industry.

Price is right for Texas

Bob Price is a full time congressman. His attendance record on voting of 93% is one of the highest in the Congress. By comparison his opponent has the second worst attendance record in the entire Texas delegation.

Bob Price has approached legislation with a conservative and careful outlook. He has earned a 90% rating by the ACA, compared to his opponents 42%.

Bob Price has worked hard to bring new Industry, expand present firms and to thereby create new jobs. The Panhandle's "Business Index" is one of the highest in Texas.

Bob Price has introduced or co-sponsored 36 pieces of legislation that have become public laws. These are a matter of record, in spite of his opponent's clever misrepresentations.

Bob Price fights against inflation. He has an 88%

rating by the National Associated Businessmen's Economy. His opponent only 50%.

Bob and Mary own their own home in Pampa. Two of their children attend the Pampa public schools. Bob is a graduate of Okla. State. He returned to Pampa after the Korean War. Before his election to Congress he was active as a business leader, in civic affairs and taught Sunday School in the First Baptist Church in Pampa.

He was first elected to Congress in 1966. Was reelected in 1968 and because of his popularity had no opponent in 1970. When a man earns this respect from both political parties it is proof of his ability and hard work.

It's easy to see why people feel Price is right for Texas. He is an honest sincere person who stands up for his principles. Thank goodness, his principles are the same as made this country great.

Purcel supports McGovern.

Price supports Nixon.

POLLEY MAKES IMPRESSIVE DEBUT KIDS INC. FOOTBALL IN AMARILLO

In this fall, 11-year-old Polley never had played or football before, the kind and helmets. His Kids Incorporated playing this fall betrayed that lack of back- however.

son of Mrs. Erma Polley, W. 18th, "broke into foot- this fall with Paramount's sixth-grade team, one a less-than-bril- record, but one that boast- of the most prominent Kids

Incorporated players in Amarillo —Polley.

In a league where weight limit is 115 pounds, Polley's 107 pounds made him outstanding from the start, but it was what he could do with his 107 pounds that opened some eyes and caused some speculation about where the new star might be in a few years.

Polley scored all of his team's touchdowns this fall, three, and exhibited a natural affinity for the game with moves, instincts and

self confidence not expected from such a novice.

He definitely impressed his coach, Don Harkins, a former Amarillo High griddier and a Kids Incorporated coach in four sports during the last three years.

"I remember the first day we got him outfitted. It happened to be the day of our first game," says Harkins. "We were playing Avondale that day. Kids Incorporated rules require that all kids suited up for the game must play.

"I didn't know what to do with him because he didn't know any of our plays. He hadn't had any time to work out with us. In the second quarter, I told him to go in at defensive end. He asked, 'Where

☆☆☆

is that?" And I told him where to line up.

"Then he asked me what he was supposed to do, and I told him to tackle the man with the ball. Well on the first six plays after he was in, he made six unassisted tackles and I began to wonder.

"The second half, I sent him in at tight end, and I had to explain what to do on an end-around play. The first time he got his hands on the ball, he ran about 20 yards. The next time, he ran about 15 yards. That's 36 yards on the first two plays he'd ever played on offense."

Despite Polley's running, it was the fifth game before he or Paramount scored. That was against Sunrise, and Polley went 93 yards and 45 yards for scores as Paramount won 13-0. In the finale, a 13-6 loss to Oakdale, Polley returned a pass interception 80 yards for a touchdown.

"Our defense let a lot of people by, but Autry would still run them down from behind. He's lineman size, but he's the fastest kid in the league. We've timed him in the

40 at about 6 flat. That's about a second and a half slower than for the fastest pro running back.

"On offense, Polley (who moved to Amarillo from Silverton last summer) has the most fantastic, instinctive, seemingly natural moves, even a little stutter step, for someone his age. He runs low to the ground and he's so strong. I highly suspect there are few if any kids in Kids Incorporated who could tackle him one on one."

Why didn't Paramount score more then?

"The big reason was that it took until late in the year to learn the plays. Another reason was that it took a while for me to convince him to use his speed to the outside instead of just trying to run over people. I've seen as many as nine tacklers hanging on to him trying to bring him down."

A bussed student to Paramount Terrace, Polley got a late start playing because a plan had to be worked out where members of the team and their parents would be responsible for Polley between school's end, 3:00 p.m. and practice's beginning, 5:45 p.m., each day. Otherwise Principal Bill Thorne said it was his responsibility that Polley get on the bus after school to be returned home, says Harkins.

Polley's future? "With just normal progress, I expect he'll be a starter as a sophomore on one of the high school teams. He's already got the speed of some high school kids right now."

Crockett or Bonham junior high schools will be the next to profit from Polley's talents. His junior high school hasn't been determined as yet, but at least two junior high school coaches would like to help make that decision.

Autry is the grandson of Mr. and Mrs. Kelsie Baker of Silverton.

Buying Know-How For Being A Smart Shopper

Stretch your dollars with buying know-hows, says Mrs. Dorothy Powell, County Extension Agent. Good buying habits help you get more for your money.

Good shopping sense begins by looking ahead. Identify purchases which your family has coming up throughout the year. Be on the lookout for both sales prices and a product that fits your needs. One plan-ahead trick is a shopping list which can help you resist the temptation to buy unnecessary items.

Shop around for purchases. Prices and products vary from store to store. By comparing prices you can save on many items.

Analyze your shopping motives. Ask yourself why you really want

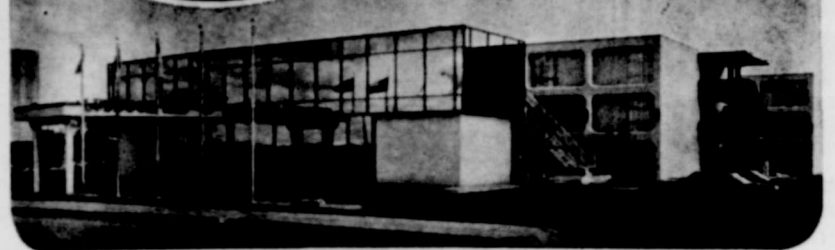

the item. Avoid spending out of boredom or unnecessary indulgence.

Know your dealer. Buy from reliable businessmen who are established in the community. Be careful about buying from door-to-door salesmen. Most are legitimate, but a few are out to cheat you. Check for their credentials. Be cautious when dealing with a strange firm, particularly if there is no permanent address or sales representative in town.

More information on buying know-how is available from the County Extension Office. Contact Mrs. Dorothy Powell for a free series of 10 leaflets, "Be a Smart Shopper." Phone 823-4271 or write Box 887, Silverton, Texas.

Roy Younger was a patient in the Nichols Hospital in Plainview last week.

Why You Should Re-Elect President Richard Nixon Nov. 7

LET'S LOOK At AGRICULTURE And STOCK RAISING

WE HAVE one of the most abundant supplies of food in history. Our exports of livestock, fresh meats, grain sorghums and grain are going to add many dollars to the general economy.

WE'RE SELLING COMMODITIES of which we've had surpluses—and we're helping provide jobs on trucks and ships at the same time.

HERE ARE SOME OF THE REASONS

PRESIDENT NIXON'S AGRICULTURAL ACT OF 1970 gave producers more flexibility and freedom in operations.

PRESIDENT NIXON'S ADMINISTRATION has turned around the farm situation that saw farmers get an increase in income of 6 per cent between 1951 and 1969 while wage rates went up 6 per cent every year.

PRESIDENT NIXON gave agriculture one of the most effective spokesmen in recent history by appointment of Earl Butz as Secretary of Agriculture.
