Southwestern Public Service To Adjust Local City Electric Rates

The City of Silverton has been notified by Southwestern Public Service Company that it will be necessary to adjust the rates the municipality pays for electric service. The notification came in the form of a letter to the Council from Lee Clay, Southwestern's manager.

Clay told the Council in a letter that rates for municipal services have always provided a minimum return for the company. He said this practice was okay so long as the rates didn't discriminate against other customers and that the rate made it possible for the company to recover its minimum capital costs and its operating and maintenance expenses. The present rates do not do that, Clay said.

Wheat Confab Slated in Amarillo

Topics ranging from wheat production and grazing to ecology will highlight a Wheat Symposium at Amarillo on November 29. On the following day, several out-of-state speakers will discuss key topics related to the overall wheat situation, farm programs, and transportation during the 22nd annual meeting of the Texas Wheat Producers Association (TWPA).

The two-day program will be conducted at the Holiday Inn West and will begin each day at 9:00 a.m., announces County Extension Agent Jackie Johnson.

The first day's program will include discussions on ecology, current wheat situation, control of wheat insects, diseases and weeds, wheat varieties, feed wheat, wheat grazing, and health problems of animals on wheat pastures.

Among the keynote speakers will be Bill Nelson, executive vice president of the Texas Wheat Producers' Board, and Dr. L. S. (Bill) Pope, associate dean of agriculture at Texas A&M University. Also on hand will be specialists with the Texas Agricultural Extension Service and scientists with the Texas Agricultural Experiment Station. A consultant in feed wheat nutrition and a livestock and wheat producer will also be on the program.

The TWPA meeting on November 30 will feature several outstanding speakers on the national scene. Among these are Joe Hallow, executive vice president of Great Plains Wheat, Inc., Washington, D. C. who will discuss the world wheat situation. Gene Moos, president of the National Association of Wheat Growers, will talk on farm programs and how they affect wheat farmers.

Another speaker on the wheat programs will be Victor A. Senchel with the Agricultural Stabilization and Conservation Service, Washington, D. C.

A panel discussion that afternoon will feature the topic, "Transportation — The Key to Wheat Marketing."

The two-day program is being sponsored by the Texas Wheat Producers Association and the Texas Agricultural Extension Service and three of its area income programs — Panhandle Economic Program, South Plains Development Program, and Rolling Plains Development Program.

Leo Witkowski of Hereford is president of the TWPA. Johnson invites all wheat pro-

ducers, agribusinessmen and others in Briscoe County interested in wheat production to attend either or both of the programs.

Southwestern has never had a general increase in the rates that it charges its municipal customers. The company's last rate increase for residential and commercial customers went into effect in 1967.

The Rev. Aubrey Headstream, Methodist minister from Haskell, officiated, assisted by the Rev. Norman Patron, pastor of the First United Methodist Church of Rochester. Burial was in the Rochester Cemetery.

Mr. Jones, who had been in ill health for some time, was discovered dead about 7:00 a.m. Dr. R. G. Howell of Knox City ruled death by natural causes and said Jones apparently died in his sleep Thursday night.

Mr. Jones was born September 27, 1902, in Durant, Oklahoma. He moved to Haskell County from Silverton in 1936. He married Otis Jewel Wilkins March 15, 1950 in Olney.

Christmas Greeting Page To Help Improve City Park

L. O. A. Junior Study Club held a called meeting Monday night, and voted to designate the proceeds of the Christmas Greeting Page project to a long-range city park improvement plan.

Club members expressed the hope that the project could be begun with the purchase of some

score on their first possession of the game Friday night, and the Owls held them out of the end zone until only 7:25 remained in the period, but once the Bronchos crossed the goal line, they couldn't be denied, and scored four times in the first quarter.

Scott Hutsell saved a Clarendon touchdown on their next possession of the ball, but a pass interference call against the Owls moved the ball on down to the Silverton-10. The Bronchos scored with 3:46 remaining in the first quarter on a running play, and again on a pass with 1:49 remaining. On Silverton's first down following the third TD, Clarendon intercepted an Owl pass and ran it back to the 13. Two downs later, with 24 seconds remaining in the quarter, Clarendon scored to hold a 28-0 first period lead.

Early in the second frame, Terry Culwell recovered a Bronco fumble on the Owl-33, and on first down, Ken Wood passed to Terry for a touchdown with 10:10 remaining in the period. Craig Culwell's kick wasn't good, and the Owls had temporarily trimmed the Bronco lead to 28-6.

Clarendon came back to score on a pass with 8:43 remaining on the clock, and with 2:56 left scored on a quarterback keeper. On Silverton's next play, an Owl aerial was intercepted and carried in for a score, making the scoreboard read 49-6.

Owl David McCoy received the kickoff which opened the second half near the Silverton goal line, and ran all the way for a TD. Craig Culwell ran for the two-point conversion, and with 11:43 remaining in the third quarter, the score was 49-14.

Clarendon scored on a pass with 6:16 remaining and fumbled to Terry Culwell before the period ended.

The Bronchos intercepted an Owl pass to set up their last score, run with 4:59 left in the game.

Silverton's offense made three first downs on runs by John Minyard, Dean Ziegler and Scott Hutsell before the game ended.

Friday night will be the last time that several boys will don football uniforms for Silverton High School. Though the Sophomore players have made up an important part of the team this year, there will be some gaping holes, particularly in the line, to be filled next season. They have been held down by John Minyard, Stan Martin, Derrel Martin, Mark Hutsell, Mike Grady, Terry Culwell, Rex Clayton and John Burson. Burson, recuperating from knee surgery, is out of the lineup and Grady, with a back injury, is a doubtful starter for Friday night.

Come out and support the Owls in their last game of the season.

Tax Workshop To Be Held Here Tonight

As the end of the year approaches, agricultural producers begin to turn their thoughts toward the upcoming income tax report that each must file. This annual event, which no one looks forward to but everyone will be involved in, requires many hours of planning and preparation. A thorough knowledge of the workings of the Federal Income Tax procedure is a must for all producers to keep from over-paying as well as under-paying the yearly tax. Many producers utilize a tax accountant to keep up with and prepare their yearly tax report but the professional who prepares the returns has only the information provided him to go by in preparing the return. Every producer should see that he is provided with the necessary information to prepare the most accurate return possible.

A "Farmers' and Ranchers' Income Tax Workshop" will be held in Silverton Thursday, November 16, at 7:30 p.m. in the community room of the Plainview P. C. A. Mr. Marvin Sartin, Area Economist-Management with the Texas Agricultural Extension Service, stationed in Lubbock, will be in Silverton to discuss ways of managing operations that will provide the producer with the best advantage when it comes time to prepare his tax returns. There is still ample time to make tax-based decisions before the end of the year but if producers wait until time to prepare their returns it will be too late to make any changes. During the meetings last year, several producers became aware of tax laws and rules that saved them large amounts of money. One producer learned that he had paid approximately \$800 too much because of a misinterpretation of the investment credit rules. Another saved paying a large amount of taxes during the year because of the ruling governing sale of cattle during a drought.

A second tax clinic will be held in Quitaque on November 30, at the First National Bank at 7:30 p.m. Mr. Sartin will also present this program. Details of this meeting will be published at a later date. Everyone is invited to these meetings. If you are interested in learning more about the income tax structure or have specific questions concerning your own situation, please plan to attend one or both of these educational meetings.

Everyone is invited to these meetings. If you are interested in learning more about the income tax structure or have specific questions concerning your own situation, please plan to attend one or both of these educational meetings.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

Mail Order Insurance Can Be Worthwhile

Mail order insurance policies can be worthwhile if the consumer is fully aware what he is buying. If he isn't, later he may find that his insurance doesn't pay for things he mistakenly thought it did.

Four points are important in studying an insurance policy, according to Dorothy Powell, County Extension Agent.

- First, the buyer should understand what happens if he has any "pre-existing" health conditions.
- Second, he should know how much his policy will pay per day.
- Third, he should check time limitations on collecting money from the company.
- Fourth, he should learn how much he must pay in premiums.

"Although most mail order policies don't require a physical examination, they do have some special limitations on benefits for pre-existing health conditions," the agent said.

Most policies, for example, have a two-year waiting period before the policy holder can collect on pre-existing conditions — whether he knows about the pre-existing condition or not.

Also, most such policies don't pay out-of-hospital benefits, so how much they pay per day is an important point to know.

In addition to the study of the policy, the agent advised more steps in considering such insurance.

Check existing coverage against what an illness or accident could cost to determine if the added insurance is necessary — don't buy insurance if you don't need it.

Check with the Texas State Insurance Board at 1110 San Jacinto, Austin, Texas 78701, to determine whether the mail order offer is from a company licensed to sell insurance in Texas and whether the company is financially sound.

Local Church To Participate in Largest Prayer Meeting

Listeners were recently invited to send in prayer requests. As a result, some 50,000 prayer needs have been received at the "Revivaltime" offices in Springfield, Missouri.

What Does It Take To Build A Church?

Perhaps you glance at the church on the corner once in a while and wonder what it would be like to visit during a service. What is it that draws those people to that particular building every week? What built that church?

The only possible answer is — the love of God. Their love of God prompted them to sacrifice and give so that the sanctuary might be built. The love of God compels them to meet there with others who serve Him. Their love of God compels them to "go, and tell others".

We pray that you will be drawn to such a church this week and that you will align yourself with it. You can help build it into something even better.

EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
