**idents Urged To  
 Support Christmas  
 Seal Campaign**

...that 987 positive tuber-  
 reactors have been identified  
 the Texas Panhandle through  
 skin testing programs in the  
 year, and that 643 of those  
 identified as being infected with  
 germs were placed under state  
 supervision, Tom Seay of  
 Amarillo, President of the Top of  
 Texas TB and Respiratory Disease  
 Association, urged Panhandle area  
 residents to support the Christ-  
 mas Seal Campaign's fight against  
 emphysema and other respir-  
 atory diseases including asthma  
 and allergies.

...not only are we maintaining  
 community programs  
 throughout the area," he said, "but  
 Christmas Seal monies also sup-  
 port a great amount of lung re-  
 search where our big push is the  
 development of a successful lung trans-  
 plant technique." He added, "I  
 hope the public will realize that  
 Christmas Seal funding has a dir-  
 ect bearing upon the emphysema  
 problem, for example, when he en-  
 ters the hospital and is in need of  
 special knowledge with which the  
 physician may treat his emphy-  
 sema."

Ring in a year full of happiness, prosperity, good health and joy for all our wonderful friends and patrons. Along with our good wishes, we wish to thank you for your past patronage.

## Southwestern Public Service Plans New Five-Year Investment of \$196,000,000

Southwestern Public Service Company will invest more than \$196,000,000 in new equipment and improvements in the next five years, it was announced today by Roy Tolk, chairman and president of the electric company.

"The area has turned itself around economically and all signals are 'go' for future growth. We must be prepared to provide the power that will be needed to keep pace with this growth and the power that will be needed to keep the environment the way all of us want it to be," Tolk said in announcing the expansion program.

New generating facilities with a capability of 631,000 kilowatts would be completed during the five-year period, Tolk said, and, just before the end of the five years, construction will begin on a 350,000 kilowatt unit scheduled to go into service in 1979.

The new generating facilities include a 25,000 kilowatt gas turbine at Riverview Station, which will go into service in mid-1973. This unit, while small in size, is large in unique features. Its exhaust gases will be piped to a waste heat boiler, and steam from this boiler will supply 60% of the steam to drive the presently installed conventional generating unit at Riverview. By reusing the waste heat from the gas turbine, the efficiency of the two generat-

ing units is increased by 20%. "We are working every day in every way that we can to conserve resources. We have experienced some shortages in gas fuel, but we have a commitment to our customers which demands that we find the fuels to meet their electric service needs," Tolk said.

Southwestern pioneered in the use of treated sewage effluent as cooling water at its Nichols Station, near Amarillo, beginning more than a decade ago. Now they have gone one more step and are using equipment that cleans up the treated water to the point where it can be purified for use as boiler feed water. This is being done on the first unit at Jones Station and is projected for the second unit at that facility and also for the 1976 unit.

"When we have installed all of the generating facilities proposed through 1976, we will save, on the average day, 14,000,000 gallons of potable water through the use of sewage effluent. That's the equivalent of the daily water needs of a city of 100,000 people and is a most important conservation consideration," Tolk added.

Returning to the matter of fuel resources, Tolk said that the 350,000 kilowatt unit planned for 1976 will be built so that gas, oil, coal or even solid waste can be used as a fuel.

"This one is actually going to have a garbage door on it," he said.

Speaking in a more serious vein, he added, "We are confident that our suppliers will find the gas that we need for fuel, but we will be prepared to burn other fuels if it doesn't turn out that way. We assure our customers now that, if it is necessary to use coal as a fuel, every standard of environmental protection will be met—and exceeded, if possible."

The 1976 unit will be located north of Amarillo so that the sewage effluent can be purchased from the city.

A major transmission line project for 1973 is a 230,000 volt line running from Tucco Interchange, north of Abernathy, to Nichols Station, northeast of Amarillo. This will provide a second 230,000 volt path or backbone for the interconnected transmission system and make the movement of power between major generating facilities and the areas of greatest use more efficient, reliable and economical.

"It is difficult to pin down exactly how many dollars will flow into the economies of the communities we serve because of this expansion program. We will purchase all of the transportation and office equipment locally and as much of the supplies and materials as possible. Local suppliers will provide the gas or oil fuel. Construction labor accounts for about 22 to 25% of the cost of a new generating station, and it will come from local skilled labor sour-

## Changes Outlined In S. S. Benefits

Starting in 1973, people who are working while getting social security benefits can earn more but never lose more than \$1 in benefits for each \$2 earned, according to Travis C. Briggs, social security district manager in Amarillo. "The more you earn, the higher your total income will be," Briggs said. "Under the new social security law, social security payments will be reduced by \$1 for every \$2 earned over \$2,100 in a year."

Previously, monthly payments were reduced by \$1 in benefits for every \$2 earned between \$1,680 and \$2,880 in a year—and by \$1 for every \$1 earned over \$2,880.

"People 72 and over will continue to get their full social security benefits regardless of earnings," Briggs said. Under the new law, people under 72 can earn as much as \$2,100 in a year and get their full social security benefits. Different rules apply to people getting social security disability benefits if they work.

In addition, starting in 1973, and amount to several million dollars. If the formula that says putting one dollar into the economy generates seven more dollars is valid, then we are talking about a multi-million dollar injection into the economy of our area during this five-year program," Tolk concluded.

Descendants of Dan and Lorena Montague gathered in the Elton Cantwell home for a pre-Christmas supper on Saturday, December 16. The evening was spent visiting and playing "42".

Those attending were Mr. and Mrs. Earl Cantwell, Mr. and Mrs. Datis Martin and Celia, Mr. and Mrs. W. H. Fitzgerald, Mr. and Mrs. Bill Durham, Kirk and Lee Ann, Mr. and Mrs. James Henderson and Freeda, Mr. and Mrs. Joe

full benefits can be paid for any month in which an employee's wages are not more than \$175—or he didn't perform substantial services in self-employment. Previously, the monthly limit was \$140.

"Also, starting in 1973, only your earnings in the months before you reach 72 will be used to figure what benefits are due you for those months," Briggs said. "Before, earnings in the entire year you reached 72 were counted in figuring benefits due you for months before you were 72."

Another feature of the new law assured that the earnings exemption for people getting social security payments will go up automatically in future years as earnings levels increase, Briggs said. The first year there can be an automatic increase is 1975.

Social security pays monthly benefits to eligible retired and disabled workers and their families—and to families of deceased workers who were insured under social security.

## Local Sales Tax Effective January 1

The new sales and use tax in the City of Silverton goes into effect on January 1, 1973, and local businessmen are reminded to begin collecting the 5% tax on the first day of business in the New Year.

Nothing else except the percentage of tax will be changed in the collection procedure.

The new 5% tax charts may be obtained from First State Bank in Silverton.

## Dead Animals Should Be Placed In Pit

Residents are once again dumping dead animals at the city dump grounds, which is against the law.

A pit has been dug for the purpose of disposing of dead animals. It is located on the left before you get to the dumpgrounds. Please use the pit instead of the regular dumpgrounds for the disposal of dead animals.

## D.P.S. Investigates Four Accidents

The Texas Highway Patrol investigated four accidents on rural highways in Briscoe County during the month of November, according to Sergeant Rex Smith, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and no persons injured.

The rural traffic summary for this county during the first eleven months of 1972 shows a total of 37 accidents resulting in three deaths and 19 persons injured.

Records in Region 5 of the Texas Department of Public Safety show a total in November 1972 of 584 accidents, resulting in 14 persons killed and 265 persons injured as compared to the same month in 1971 with 576 accidents killed eight more accidents, six less fatalities and 27 less injured in 1972, compared to the same period of time last year.

The Highway Patrol supervisor reminds you that the signs and signals on the roads are put there for your safety and convenience. Drive friendly, the Texas way!

The 14 deaths for the month of November 1972 occurred in the following counties: Floyd, five; Cochran, Crosby, Hockley, Lubbock, Terry, Wise, Castro, Dallam and Moore, one each.

Montague, Mr. and Mrs. Roy Montague, Mr. and Mrs. Elton Cantwell, Debbie, Mary Chris, Brenda and Roger, Silverton, and Mr. and Mrs. Norvell Breedlove and Curtis of Tulia.

Mr. and Mrs. Brubs Bomar had their children, Debbie and Laquita of Lubbock, and Mr. and Mrs. Robert Bomar and Jason of Hobbs, New Mexico, home for the Christmas weekend.

Mrs. Paul Bryan of Plainview spent Christmas with her daughter and family, Mr. and Mrs. Joe Montague and Quinn.

Members of the D. H. Davis family gathered in the home of Mr. and Mrs. Leo Fleming, Wes, Annette, Scotti and Cary on Christmas Eve for the exchange of gifts, a Christmas supper and the visit from Santa Claus.

Attending were Mrs. D. H. Davis, Mrs. Mary Rampley, Steve Jarnagin, Mr. and Mrs. L. E. Davis, Mr. and Mrs. O. C. Rampley, Mr. and Mrs. James Davis and Jim and Mr. and Mrs. Marlin Jarnagin, all of Silverton; Mr. and Mrs. Paul Stanford, Mr. and Mrs. Rodney Horne and girls, Mr. and Mrs. Jerry Perkins and Krischell, Mr. and Mrs. Jim Reid and family, Mr. and Mrs. Dusty McLeland and Kevin, De Vona, DeLisa and DeLana Jarnagin, Amarillo; Mr. and Mrs. Dwight Rampley and boys and Mr. and Mrs. Wayne Rampley and family, Tulia; Mr. and Mrs. Paul Ray McWilliams and Dee, Lubbock; Mr. and Mrs. Maynard Greenon, Sublett, Kansas; Mr. and Mrs. Dwin Davis and Scott of Canyon; Mr. and Mrs. Don Hall and Cristina, Denver, Colorado; Lt. Col. and Mrs. Carol Davis, Alex and Max, Leesville, Louisiana; Mr. and Mrs. Tom Bridges, Levelland.

## HAPPY NEW YEAR

..with earnest wishes long and true, that the New Year will prove to be the year for you!

NANCE'S FOOD STORE

Silverton, Texas

### ONIONS ROMA BREAK WITH TRADITION

Since the Pilgrims first sat down with friendly Indians to enjoy their combined bounty, big feasts from Thanksgiving to Christmas have traditionally included roast turkey, cranberry sauce, and pumpkin pie. To tamper with this long-standing formula is to risk complaints from your family who look forward to the succulent browned bird with its accompaniments.

But you can have fun with vegetables; trying new combinations, saucing them in new ways. Our vegetable dish—Onions Roma—will add spark and color to menus right through the holidays, or any time of the year that you want to serve a different vegetable. Onions and fresh mushrooms are sauced with Condensed Tomato Soup and delicately seasoned with oregano, garlic, and Parmesan cheese.

Good cooks everywhere have discovered that vegetables take on new interest when sauced with soups, and the combinations you can make are limitless.

#### ONIONS ROMA

- 1 pound fresh mushrooms, sliced (4 cups)
- 1 teaspoon oregano leaves, crushed
- 1 medium clove garlic, minced
- 2 tablespoons butter or margarine
- 1 can (10 3/4 ounces) Condensed Tomato Soup
- 1/4 cup water
- 2 tablespoons grated Parmesan cheese
- 1 pound (about 16) small whole white onions, cooked and drained

In saucepan, brown mushrooms with oregano and garlic in butter. Add remaining ingredients. Heat; stir now and then. Serve with additional Parmesan. Makes about 4 cups.

ner music was provided by Scott Hutsell at the organ.

The devotional, "Christmas Is a Delight," was given by Mrs. Edwin Dickerson. The husbands were welcomed by the club president, Mrs. John Gill. Following dinner, gifts were exchanged by members and their guests.

The program committee was composed of Mrs. L. D. Griffin, Mrs. Norlan Dudley and Mrs. Garland Francis. Hostesses for the dinner party were Mrs. E. A. Birdwell, Mrs. Troy Jones and Mrs. Durene Nance.

Others present, in addition to these committees, were Mr. and Mrs. James Davis, Edwin Dickerson, John Gill, F. E. Hutsell, George Long, Wayne McMurtry, Marvin Montague, O. C. Rampley, Mrs. Jack Harris, Mr. Ted Lanham, Mr. and Mrs. Jack Sutton and Mr. and Mrs. Bob Whelchel.

A family dinner was served in the Elton Cantwell home on Christmas Eve. Those attending were Mr. and Mrs. A. M. Fleming of Austin; Mr. and Mrs. Darrell Fleming, Louis and Darla of Amarillo; Mr. and Mrs. Earl Cantwell, Mr. and Mrs. Datis Martin, Stan and Celia, Mr. and Mrs. Dana Martin, Silverton; Mrs. Lynn Rumpy of Lubbock, a guest, Donna McPherson of Tulia, and the hosting family, Mr. and Mrs. Cantwell, Debbie, Mary Chris, Brenda and Roger.

### STAY AWAKE ITCHING?

Let doctor's formula stop it.

Zemo speeds soothing relief to externally caused itching of eczema, minor rashes, skin irritations, non-poisonous insect bites. Desensitizes nerve endings. Kills millions of surface germs, aids healing. "De-itch" skin with Zemo, Liquid or Ointment. Quick relief, or your money back!

### DENTURES

GET CLEANER ELECTRONICALLY

In just 3 minutes the SONAQ Denture Cleaning System removes the stains and deposits other cleaners leave behind. 3 minute cleaning! SONAQ with electro-sonic action is available at all leading drug, discount and department stores. Full one year warranty. Suggested retail only \$18.95.

### Helps Shrink Swelling Of Hemorrhoidal Tissues

caused by inflammation  
Doctors have found a medication that in many cases gives prompt, temporary relief from pain and burning itch in hemorrhoidal tissues. Then it actually helps shrink swelling of these tissues caused by inflammation. The answer is Preparation H®. No prescription is needed for Preparation H. Ointment or suppositories.

## HAPPY NEW YEAR

MINIMUM TILLAGE—Grain sorghum planted in wheat stubble after harvest of the

### Minimum Tillage Is New Farming System

Minimum tillage is a system of farming in which cultural operations are limited to those operations essential to produce a crop without soil damage.

Crops are planted directly into mulch left undisturbed from the previous crop. Competition is controlled with contact, pre-emergence, or post-emergence herbicides.

The ideal minimum tillage system is one that prepares a seedbed, plants the seed, and applies herbicides as well as fertilizer in one operation.

It is applicable to grain and forage sorghums, corn, small grains, cotton, soybeans and other crops. It is applicable to dryland or irrigated farms.

Some of the advantages of minimum tillage are as follows:

1. Saves time and reduces production costs by eliminating three to ten tractor trips per acre per crop.
2. Conserves moisture.

3. Can cut wind and water erosion up to 95%. This reduces air and water pollution and has other related environmental benefits.

4. Increases food and cover for wildlife. Stalks, leaves, and seed left on the soil surface benefit pheasants, dove, quail, and other wildlife.

For further information or assistance contact the Soil Conservation Service.

### Sales Gimmicks

Some old—and dishonorable—tricks to selling have survived years of use, and they're just as "good" as new, because people still "fall" for them.

Mrs. Dorothy Powell, County Extension Agent, warned holiday shoppers to "know your merchant if you don't know the merchandise, and if in doubt about it, don't buy until you check with other sellers."

She termed "caution just as old as—and more powerful than—selling tricks."

Some common selling deceptions, identified by the Federal Trade Commission, are as follows:

1. Free goods—some advertisements for "free" goods are published without mention of the terms or conditions. Often "free" is printed in large letters, and the money you pay for "handling" is put in small letters.
2. Phony prices—some price tags falsely claim "drastic reductions." Often the item never sold at the higher price mentioned. Other phony prices may be disguised as an offer of two or more items "for the price of one", when the price for the single item simply may have been made up.
3. Bait and switch—advertisement for an item at a really low price, but at the store, the salesman says the product is "sold out" or "not worthwhile." He offers instead a more expensive product.
4. Winning a contest—the potential customer is told he has "won a contest," often one he did not even enter, but to get the "prize," he has to pay, buy or subscribe to something. Another form of the gimmick is actually to give some item and then plague the taker to buy more merchandise.
5. Deceptive guarantees—many so-called "guarantees" mean nothing. They're worthy of suspi-

cion if the guarantee document doesn't describe the parts covered or excluded, or doesn't explain the conditions. If the guarantee doesn't mention the seller's name or how to get it fulfilled, it may turn out to be useless.

6. Free estimates—the trickster takes advantage of the fact that verbal estimates are hard to prove and enforce. He gives a product or service charge estimate and after the deal he "remembers" or adds extra charges or conditions.

In conclusion, the agent reflected on consumer and merchant behavior in general:

"The mutual confidence existing between consumers and merchants is a vital part of the economy of any community. When this mutual respect ex-

ists, the problems of customer satisfaction are reduced. Prudent merchants appreciate their customers and want to conduct business in ways that earn repeat trade and profit."

### Red Fever: it's catching!

Maybe he's not old enough to understand about the things that make IH tractors so much better. Like longer engine life and better lugging ability.

IH Hydrostatic Drive.

Or even fast, dependable parts and service.

But he knows his dad knows.

And his dad checked out the new IH tractors at a "Red Fever" field demo. And not only knows the mechanical advantages.

But the physical ones as well.

Like the safety protection an IH protective frame cab offers. It's called "Family Life Insurance".

Even if he only uses built-in roll-over protection once. It's worth the investment.

Red Fever. It's spreading everywhere.

## a beautiful day to switch to electric heat

On a cold day of the year? Why not? Electric is the only heat that can be installed without the discomfort of a cold house. Baseboard units can be installed without shutting down your furnace. Or, portable electric units keep you warm during the installation of a new electric furnace. Today or any day is a beautiful day to switch to electric heat. Call us for a free estimate.
